PART 456—Continued

New section	Old section
456.605	450.23(a)(3)(i) and 450.24(a)(3)(i).
456.606	450.23(a)(3)(iii) and 450.24(a)(3)(iii).
456.607	450.23(a)(3)(iii) and 450.24(a)(3)(iv).
456.608	450.23(a)(3)(v) 1st and 2d sentences and 450.24(a)(3)(v) 1st 3 sentences.
456.609	450.23(a)(3)(v) 3d sentence and 450.24(a)(3)(v) 4th sentence.
456.610	450.23(a)(3)(v) (A)-(F) and 450.24(a)(3)(v) (A)-(G).
456.611	450.23(a)(4)(i) and 450.24(a)(4)(i).
456.612	450.23(a)(4)(ii) and 450.24(a)(4)(ii).
456.613	450.23(a)(4)(iii) and 450.24(a)(4)(iii).
456.614	450.23(b) and 450.24(c).

42 CFR Chapter IV, Subchapter C, is revised by revoking parts 446, 448, 449, 450, 451, and 452 and adding new parts 430, 431, 432, 433, 435, 436, 440, 441, 442, 447, 455, and 456 as set forth below:

NOTE.—The regulations in subchapter C were reorganized and rewritten for clarity and simplicity, without policy change, effective October 1, 1978. Under HEW's Operation Common Sense, HCFA is publishing substantive changes in these regulations as proposed rulemaking.

PART 430—GRANTS TO STATES FOR MEDICAL ASSISTANCE PROGRAMS

Subpart A—Introduction; Definitions

Sec.
430.0 Introduction to subchapter C.
430.1 Definitions.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—Introduction; Definitions

§ 430.0 Introduction to subchapter C.

(a) *Program description.* Title XIX of the Social Security Act, enacted in 1965, authorizes Federal grants to States for medical assistance to low-income persons who are age 65 or over, blind, disabled, or members of families with dependent children. The program is jointly financed by the Federal and State governments and administered by States. Within broad Federal rules, each State decides eligible groups, types and range of services, payment levels for services, and administrative and operating procedures. Payments for services are made directly by the State to the individuals or entities that furnish the services.

(b) *Federal regulations.* (1) The regulations in subchapter C set forth State plan requirements, standards, procedures, and conditions for obtaining Federal matching. Each part (or subpart or section) in the subchapter describes the specific statutory basis for the regulation. However, where the basis is the Secretary's general authority to issue regulations for any program under the Act (sec. 1102 of the Act), or his general authority to prescribe State plan requirements needed for proper and efficient administration of the plan (sec. 1902(a)(4)), those statutory provisions are simply cited without further description.

(2) Related HEW regulations applicable to State medicaid programs include the following in 45 CFR Subtitle A:

Part 16—Department Grant Appeals Process.
Part 19—Limitations on Payment or Reimbursement for Drugs.
Part 70—Standards for a Merit System of Personnel Administration.
Part 74—Administration of Grants.
Part 80—Nondiscrimination Under Programs Receiving Federal Assistance Through the Department of Health, Education, and Welfare: Effectuation of Title VI of the Civil Rights Act of 1964.
Part 81—Practice and Procedure for Hearings Under 45 CFR Part 80.
Part 84—Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting From Federal Financial Assistance.

(3) Regulations in 45 CFR parts 201, 204, 205, 206, 208, and 213 also apply to the medicaid program, to the extent specified.

§ 430.1 Definitions.

In this subchapter, unless the context indicates otherwise—

"Act" means the Social Security Act, and titles referred to are titles of that Act;

"Administrator" means the Administrator, Health Care Financing Administration;

"Applicant" means an individual whose written application for medicaid has been submitted to the agency determining medicaid eligibility, but has not received final action. This includes an individual (who need not be alive at the time of application) whose application is submitted through a representative or a person acting responsibly for the individual;

"Bureau Director" means the Director of the Federal medicaid program with HCFA;

"Central office" means the headquarters office of HCFA;

"Federal financial participation" (FFP) means the Federal Government's share of a State's expenditures under the medicaid program;

"FMAP" means the Federal medical assistance percentage, which is used to calculate the amount of the Federal share of State expenditures for services;

V 43 / 190 SE 29 78 UMI

"HEW" means the Department of Health, Education, and Welfare;

"HCFA" means the Health Care Financing Administration;

"Medicaid" means medical assistance provided under a State plan approved under title XIX of the Act;

"Medicaid agency" or "the agency" means the single State agency administering or supervising the administration of a State medicaid plan;

"Medicare" means the health insurance program for the aged and disabled under title XVIII of the Act;

"Provider" means any individual or entity furnishing medicaid services under a provider agreement with the medicaid agency;

"Recipient" means an individual who has been determined eligible for medicaid;

"Regional Administrator" means the Regional Administrator of HCFA;

"Regional Medicaid Director" means the Regional Medicaid Director of the Federal medicaid program;

"Regional office" means one of the regional offices of HCFA;

"Secretary" means the Secretary of Health, Education, and Welfare;

"Services" means the types of medical assistance specified in sec. 1905(a)(1) through (17) of the Act;

"State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, and Guam;

"State plan" or "the plan" means a comprehensive written commitment by a medicaid agency, submitted under sec. 1902(a) of the Act, to administer or supervise the administration of a medicaid program in accordance with Federal requirements.

The masculine gender includes the feminine.

PART 431—STATE ORGANIZATION AND GENERAL ADMINISTRATION

Sec.
431.1 Purpose.

Subpart A—Single State Agency

431.12 Medical care advisory committee.

Subpart B—Administrative Requirements: General Program Services

431.51 Free choice of providers.
431.52 Payments for services furnished out of State.
431.53 Assurance of transportation.

Subpart C—Administrative Requirements: Provider Relations

431.105 Consultation to medical facilities.
431.107 Required provider agreement.
431.110 Participation by Indian Health Service facilities.
431.115 Disclosure of survey information and provider/contractor evaluations.

Subparts D-K [Reserved]

Subpart L—Contracts With Fiscal Agents, Health Care Project Grant Centers, Private Nonmedical Institutions, Health Insuring Organizations, Health Maintenace Organizations, and Prepaid Health Plans

GENERAL PROVISIONS

431.501 Basis and purpose.
431.502 Definitions.

CONTRACT REQUIREMENTS

431.503 All contracts.
431.504 Subcontracts.

FISCAL AGENTS, PRIVATE NONMEDICAL INSTITUTIONS AND HEALTH INSURING ORGANIZATIONS

431.510 Fiscal agents.
431.511 Private nonmedical institutions.
431.512 Health insuring organizations.

HEALTH MAINTENACE ORGANIZATIONS

431.520 State plan requirements.
431.521 HMO's with provisional status.

HMO: CONTRACT REQUIREMENTS

431.522 Services and organization.
431.523 Premiums or subscription charges.
431.524 Risk.
431.525 Savings.
431.526 Reinsurance.
431.527 Coverage and enrollment.
431.528 Population.
431.529 Duration or enrollment period.
431.530 Termination of enrollment.
431.531 Choice of health professional.
431.532 Emergency medical services.
431.533 Grievance procedure.
431.534 Quality assurance system.
431.535 Marketing.
431.536 Health care information.
431.537 Medical recordkeeping system.

HMO: STATE AGENCY REQUIREMENTS

431.540 Proof of HMO capability.
431.541 Enrollment.
431.542 Provision of required services.
431.543 System of periodic medical audits.
431.544 Approval of marketing plans, procedures, and materials for enrollment.
431.545 Distribution of general information.
431.546 Payment to contractors.
431.547 Continued service to formerly enrolled recipients.
431.548 Computation of premium rates and subscription charges.
431.549 Monitoring procedures.
431.550 Contracts that provide fewer or more services than are available under the plan.

PREPAID HEALTH PLANS

431.555 State plan requirements.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—RISK BASIS

431.556 Risk-basis contracts; General requirements.
431.557 Premiums or subscription charges.
431.558 Amount of risk.
431.559 Savings.
431.560 Reinsurance.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—NONRISK BASIS

431.565 Nonrisk contract: Allowable payment for services.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—ALL CONTRACTS

431.568 Coverage and enrollment.
431.569 Population.
431.570 Duration of enrollment period.
431.571 Termination of enrollment.
431.572 Choice of health professional.
431.573 Emergency medical services.
431.574 Grievance procedure.
431.575 Quality assurance system.
431.576 Marketing.
431.577 Health care information.
431.578 Medical recordkeeping system.

PREPAID HEALTH PLANS: STATE AGENCY REQUIREMENTS

431.580 Proof of prepaid health plan capability.
431.581 Enrollment.
431.582 Provision of required services.
431.583 Periodic medical audits.
431.584 Approval of marketing plans, procedures, and materials for enrollment.
431.585 Distribution of general information.
431.586 Payment of contractors.
431.587 Computation of premium rates and subscription charges.
431.588 Monitoring procedures.
431.589 Contracts that provide fewer or more services than are available under the plan.

FEDERAL FINANCIAL PARTICIPATION

431.591 Availability of FFP.
431.592 Availability of FFP for HMOs with provisional status.
431.593 Prior approval of contracts over $100,000.
431.594 Costs under risk contracts.
431.595 Costs under no-risk contracts.
431.596 Costs under fiscal agent contracts.
431.597 Nonavailability of FFP.

Subpart M—Relations With Other Agencies

431.610 Relations with standard-setting and survey agencies.
431.615 Relations with State health and vocational rehabilitation agencies and title V grantees.
431.625 Coordination of medicaid with medicare part B.

Subpart N—State Programs for Licensing Nursing Home Administrators

431.700 Basis and purpose.
431.701 Definitions.
431.702 State plan requirement.
431.703 Licensing requirement.
431.704 Nursing homes designated by other terms.
431.705 Licensing authority.
431.706 Composition of licensing board.
431.707 Standards.
431.708 Procedures for applying standards.
431.709 Issuances and revocation of licenses.
431.710 Provisional licenses.
431.711 Compliance with standards.
431.712 Failure to comply with standards.
431.713 Continuing study and investigation.
431.714 Waivers.
431.715 Federal financial participation.

Subpart O [Reserved]

Subpart P—Quality Control

431.800 Medicaid quality control (MQC) system.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

§ 431.1 Purpose.

This part establishes State plan requirements for the designation, organization, and general administrative activities of a State agency responsible for operating the State medicaid program, directly or through supervision of local administering agencies.

Subpart A—Single State Agency

§ 431.12 Medical care advisory committee.

(a) *Basis and purpose.* This section, based on sec. 1902(a)(4) of the Act, prescribes State plan requirements for establishment of a committee to advise the medicaid agency about health and medical care services.

(b) *State plan requirement.* A State plan must provide for a medical care advisory committee meeting the requirements of this section to advise the medicaid agency director about health and medical care services.

(c) *Appointment of members.* The agency director, or a higher State authority, must appoint members to the advisory committee on a rotating and continuous basis.

(d) *Committee membership.* The committee must include—

(1) Board-certified physicians and other representatives of the health professions who are familiar with the medical needs of low-income population groups and with the resources available and required for their care;

(2) Members of consumers' groups, including medicaid recipients, and consumer organizations such as labor unions, cooperatives, consumer-sponsored prepaid group practice plans, and others; and

(3) The director of the public welfare department or the public health department, whichever does not head the medicaid agency.

(e) *Committee participation.* The committee must have opportunity for participation in policy development and program administration, including furthering the participation of recipient members in the agency program.

(f) *Committee staff assistance and financial help.* The agency must provide the committee with—

(1) Staff assistance from the agency and independent technical assistance as needed to enable it to make effective recommendations; and

(2) Financial arrangements, if necessary, to make possible the participation of recipient members.

(g) *Federal financial participation.* FFP is available at 50 percent in expenditures for the committee's activities.

Subpart B—Administrative Requirements: General Program Services

§ 431.51 Free choice of providers.

(a) This sec. implements section 1902(a)(23) of the Act, which provides that recipients may obtain services from any qualified medicaid provider.

(b) A State plan (except in Puerto Rico, the Virgin Islands, and Guam) must provide that any recipient may obtain medicaid services from any institution, agency, pharmacy, person, or organization that is qualified to perform the services, including an organization that provides these services or arranges for their availability on a prepayment basis.

(c) If the medicaid agency contracts on a prepayment basis with an organization that provides services additional to those offered under the State plan, the agency may restrict the provision of the additional services to recipients who live in the area served by the organization and wish to obtain services from it.

(d) Paragraph (b) of this section does not prohibit the agency from—

(1) Establishing the fees it will pay providers for medicaid services; or

(2) Setting reasonable standards relating to the qualifications of providers.

§ 431.52 Payments for services furnished out of State.

(a) *Basis and purpose.* This section implements section 1902(a)(16) of the Act, which authorizes the Secretary to prescribe State plan requirements for furnishing medicaid to State residents who are absent from the State.

(b) *Payment for services.* A State plan must provide that the State will furnish medicaid to a recipient who is a resident of the State while that recipient is in another State, to the same extent that medicaid is furnished to residents in the State, when—

(1) Medical services are needed because of a medical emergency;

(2) Medical services are needed because the recipient's health would be endangered if he were required to travel to his State of residence;

(3) The State determines, on the basis of the attending physician's medical advice, that the needed medical services, or necessary supplementary resources, are more readily available in the other State; or

(4) It is general practice for recipients in a particular locality to use medical resources in another State.

(c) *Cooperation among States.* The plan must provide that the State will establish procedures to facilitate the furnishing of medical services to individuals who are present in the State and are eligible for medicaid under another State's plan.

§ 431.53 Assurance of transportation.

A State plan must—

(a) Specify that the medicaid agency will assure necessary transportation for recipients to and from providers; and

(b) Describe the methods that will be used to meet this requirement.

(Sec. 1902(a)(4) of the Act.)

Subpart C—Administrative Requirements: Provider Relations

§ 431.105 Consultation to medical facilities.

(a) *Basis and purpose.* This section implements section 1902(a)(24) of the Act, which requires that the State plan provide for consultative services by State agencies to certain institutions furnishing medicaid services.

(b) *State plan requirements.* A State plan must provide that health agencies and other appropriate State agencies furnish consultative services to hospitals, nursing homes, home health agencies, clinics, and laboratories in order to assist these facilities to—

(1) Qualify for payments under the maternal and child health and crippled children's program (title V of the Act), medicaid or medicare;

(2) Establish and maintain fiscal records necessary for the proper and efficient administration of the Act; and

(3) Provide information needed to determine payments due under the Act for services furnished to recipients.

(c) *State plan option: Consultation to other facilities.* The plan may provide that health agencies and other appropriate State agencies furnish consultation to other types of facilities if those facilities are specified in the plan and provide medical care to individuals receiving services under the programs specified in paragraph (b) of this section.

§ 431.107 Required provider agreement.

(a) *Basis and purpose.* This section implements section 1902(a)(27) of the Act, which requires agreements between medicaid agencies and providers.

(b) *Agreements.* A State plan must provide for an agreement between the medicaid agency and each provider furnishing services under the plan in which the provider agrees to—

(1) Keep any records necessary to disclose the extent of services the provider furnishes to recipients; and

(2) Furnish the agency or the Secretary with any information they may request regarding payments claimed by the provider for furnishing services.

V 4 3 / 1 9 0

§ 431.110 Participation by Indian Health Service facilities.

(a) *Basis.* This section is based on section 1902(a)(4) of the Act, proper and efficient administration; 1902(a)(23), free choice of provider; and 1911, reimbursement of Indian Health Service facilities.

(b) *State plan requirements.* A State plan must provide that an Indian Health Service facility meeting State requirements for medicaid participation must be accepted as a medicaid provider on the same basis as any other qualified provider. However, when State licensure is normally required, the facility need not obtain a license but must meet all applicable standards for licensure. In determining whether a facility meets these standards, a medicaid agency or State licensing authority may not take into account an absence of licensure of any staff member of the facility.

§ 431.115 Disclosure of survey information and provider/contractor evaluations.

(a) *Basis and purpose.* This section implements—

(1) Section 1902(a)(36) of the Act, which requires a State plan to provide that the State survey agency will make publicly available the findings from surveys of health care facilities, laboratories, agencies, clinics, or organizations; and

(2) Section 1106(d) of the Act, which places certain restrictions on the medicaid agency's disclosure of contractor and provider evaluations.

(b) *Definition of State survey agency.* The State survey agency referred to in this section means the agency specified under section 1902(a)(9) of the Act as responsible for establishing and maintaining health standards for private or public institutions in which medicaid recipients may receive services.

(c) *State plan requirement.* A State plan must provide that the requirements of this section are met.

(d) *Disclosure procedure.* The medicaid agency must have a procedure for disclosing pertinent findings obtained from surveys made by the State survey agency to determine if a health care facility, laboratory, agency, clinic or health care organization meets the requirements for participation in the medicaid program.

(e) *Documents subject to disclosure. Documents subject to disclosure include—*

(1) Survey reports, except for Joint Commission on the Accreditation of Hospitals reports prohibited from disclosure under § 422.426(b)(2) of this chapter;

(2) Official notifications of findings based on survey reports;

(3) Pertinent parts of written documents furnished by the health care provider to the survey agency that relate to the reports and findings; and

(4) Information regarding ownership of a skilled nursing facility (as prescribed in § 405.1121(a) of this chapter) and of an intermediate care facility (as prescribed in § 455.104 of this subchapter).

(f) *Availability for inspection and copy of statements listing deficiencies.* The disclosure procedure must provide that the State survey agency will—

(1) Make statements of deficiencies based on the survey reports available for inspection and copying in both the public assistance office and the Social Security Administration district office serving the area where the provider is located; and

(2) Submit to the Regional Medicaid Director, through the medicaid agency, a plan for making those findings available in other public assistance offices in standard metropolitan statistical areas where this information would be helpful to persons likely to use the health care provider's services.

(g) *When documents must be made available.* The disclosure procedure must provide that the State survey agency will—

(1) Retain in the survey agency office and make available upon request survey reports and current and accurate ownership information; and

(2) Make available survey reports, findings, and deficiency statements immediately upon determining that a health care provider is eligible to begin or continue participation in the medicaid program, or within 90 days after completion of the survey, whichever occurs first.

(h) *Evaluation reports on providers and contractors.* (1) If the Secretary sends the following reports to the medicaid agency, the agency must meet the requirements of paragraphs (h) (2) and (3) of this section in releasing them:

(i) Individual contractor performance reviews and other formal performance evaluations of carriers, intermediaries, and State agencies, including the reports of followup reviews;

(ii) Comparative performance evaluations of those contractors, including comparisons of either overall performance or of any particular aspect of contractor operations; and

(iii) Program validation survey reports and other formal performance evaluations of providers, including the reports of followup reviews.

(2) The agency must not make the reports public until—

(i) The contractor or provider has had a reasonable opportunity, not to exceed 30 days, to comment on them; and

(ii) Those comments have been incorporated in the report.

(3) The agency must ensure that the reports contain no identification of individual patients, individual health care practitioners or other individuals.

Subparts D–K—[Reserved]

Subpart L—Contracts with Fiscal Agents, Health Care Project Grant Centers, Private Nonmedical Institutions, Health Insuring Organizations, Health Maintenance Organizations and Prepaid Health Plans

General Provisions

§ 431.501 Basis and purpose.

(a) This subpart is based on section 1902(a)(4) of the Act, which requires that the State plan provide methods of administration that the Secretary finds necessary for the proper and efficient operation of the plan.

(b) This subpart prescribes State plan requirements governing contracts with certain organizations for processing or paying claims or providing medical services.

§ 431.502 Definitions.

For purposes of this subpart—

"Contractor" means any of the following entities that contract with the medicaid agency, under the terms of this subpart, to process claims or to pay for or provide medical services under a State plan in return for a payment:

(1) A fiscal agent.

(2) A health care project grant center.

(3) A private nonmedical institution.

(4) A health insuring organization.

(5) A health maintenance organization.

(6) A prepaid health plan.

"Enrolled recipient" means an individual who is eligible for medicaid and who enters into an agreement to receive services from a health maintenance organization or prepaid health plan that contracts with the agency under this subpart.

"Fiscal agent" means an entity that processes or pays vendor claims for the agency.

"Health care projects grant center" means an entity that—

(1) Is supported in whole or in part by Federal project grant financial assistance; and

(2) Provides or arranges for medical services to recipients.

"Health insuring organization" means an entity that—

(1) Pays for medical services provided to recipients in exchange for a premium or subscription charge paid by the agency; and

(2) Assumes an underwriting risk.

"Health maintenance organization (HMO)" means an entity determined by the Assistant Secretary for Health (Public Health Service) to meet the following requirements:

(1) It provides to its medicaid eligible enrollees as the "basic health services" required under sec. 1301 (b) and (c) of the Public Health Service Act—

(i) Inpatient hospital services;

(ii) Outpatient services;

(iii) Laboratory and X-ray services;

(iv) Family planning services and supplies;

(v) Physician services; and

(vi) Home health services for individuals entitled to those services under the medicaid State plan.

(2) It provides the services listed in paragraph (a) in the manner prescribed in sec. 1301(b) of the Public Health Service Act.

(3) It is organized and operated in the manner prescribed in sec. 1301(c) of the Public Health Service Act.

"Premium, subscription charge, or capitation fee" means the fee which is paid by the agency to a contractor for each recipient enrolled under a contract for the provision of medical services under the State plan, whether or not the recipient receives the services during the contract period.

"Prepaid health plan" means an entity that is not an HMO, and that provides medical services under contract with the medicaid agency to enrolled recipients on a prepaid capitation basis. This includes the providers identified in sec. 1903(m)(2)(B) (i), (ii), or (iii) of the act. That section refers to certain entities that received grants under the Public Health Service Act in the fiscal year ending June 30, 1976, certain rural primary health care entities, and certain entities that operated on a prepaid risk basis before 1970.

"Private nonmedical institution" means an entity that—

(1) Provides medical care through contracts or other arrangements with medical providers;

(2) Is paid on a prepaid capitation basis by the agency;

(3) Does not assume an underwriting risk; and

(4) Is not, as a matter of regular business, a prepaid health insuring organization or community health care center. Examples of private nonmedical institutions are child-care institutions and maternity homes.

"Risk" or "underwriting risk" means a significant chance of loss that—

(1) Is assumed by the contractor; and

(2) Arises because the cost of providing services may exceed the premiums, subscription charges, or capitation fees paid by the agency to the contractor during the contract period.

Contract Requirements

§ 431.503 All contracts.

A State plan must provide that contracts under this subpart—

(a) Are in writing;

(b) Specify the contract period;

(c) Specify the functions of the contractor;

(d) Identify the population covered by the contract;

(e) Specify any procedures for enrollment or reenrollment of the covered population;

(f) Specify the amount, duration, and scope of medical services to be provided or paid for;

(g) Provide that the agency and HEW may evaluate through inspection or other means, the quality, appropriateness and timeliness of services performed under the contract;

(h) Provide that the agency and HEW may audit and inspect any of the contractor's records that pertain to services performed and determination of amounts payable under the contract;

(i) Specify procedures and criteria for extending the contract;

(j) specify procedures and criteria for renegotiating the contract;

(k) Specify procedures and criteria for terminating the contract, including a requirement that the contractor promptly supply all information necessary for the reimbursement of any outstanding medicaid claims;

(l) Provide that the contractor maintains an appropriate record system for services to enrolled recipients;

(m) Provide that the records referred to in paragraph (l) are retained in accordance with the record retention requirements of 45 CFR part 74;

(n) Provide that the contractor safeguards information about recipients as required by 45 CFR 205.50;

(o) Specify any activities to be performed by the contractor that are related to third party liability requirements in § 433.135 of this subchapter;

(p) Specify which functions may be subcontracted; and

(q) Provide that any subcontracts meet the requirements of § 431.504.

§ 431.504 Subcontracts.

(a) Subcontracts must—

(1) Be in writing; and

(2) Fulfill the requirements of this subpart that are appropriate to the service or activity delegated under the subcontract.

(b) No subcontract terminates the legal responsibility of the contractor to the agency to assure that all activities under the contract are carried out.

Fiscal Agents, Private Nonmedical Institutions, and Health Insuring Organizations

§ 431.510 Fiscal agents.

If the plan provides for contracts with fiscal agents, it must provide that the contracts—

(a) Meet the requirements of §§ 431.503 and 431.504;

(b) Include termination procedures that require the contractors to supply promptly all material necessary for continued operation of payment and related systems. This material includes—

(1) Computer programs;

(2) Data files;

(3) User and operation manuals, and other documentation;

(4) System and program documentation; and

(5) Training programs for medicaid agency staff, their agents or designated representatives in the operation and maintenance of the system;

(c) Offer to the State one or both of the following options, if the fiscal agent or the fiscal agent's subcontractor has a proprietary right to material specified in paragraph (b) of this section:

(1) Purchase of the material.

(2) Purchasing the use of the material through leasing or other means;

(d) State the amount to be paid to the contractor for performing the functions under the contract;

(e) State the basis for the amount to be paid to the contractor;

(f) State when payment is to be made to the contractor; and

(g) State that payment to providers must be made in accordance with part 477 of this subchapter.

§ 431.511 Private nonmedical institutions.

If the plan provides for contracts for prepayment of services from private nonmedical institutions, it must provide that the contracts—

(a) Meet the requirements of §§ 431.503 and 431.504;

(b) Specify a capitation fee based on the cost of the services provided, in accordance with the reimbursement requirements prescribed in part 447 of this subchapter; and

(c) Specify when the capitation amount must be paid.

§ 431.512 Health insuring organization.

(a) If a plan provides for contracts with health insuring organizations, it must provide that the contracts—

(1) Meet the requirements of §§ 431.503 and 431.504;

(2) Specify that the premium or subscription charge must not exceed the limits set forth under part 447 of this subchapter;

(3) Specify that, except as permitted under paragraph (b) of this section,

SEP 29 1978

premiums or subscription charges paid on behalf of each recipient may not be renegotiated—

(i) During the contract period if the contract is for 1 year or less; or

(ii) More often than annually if the contract period is for more than 1 year;

(4) Specify that the premium or subscription charge must not include any amount for recoupment of any losses suffered by the contractor for risks assumed under the same contract or a prior contract with the agency;

(5) Specify that the contractor assumes at least part of the underwriting risk as follows:

(i) If the contractor assumes the full underwriting risk; payment of the premium or subscription charge to the contractor during the contract period constitutes full payment by the agency for the cost of medical services provided under the contract.

(ii) If the contractor assumes less than the full underwriting risk, the contract specifies the apportionment of the underwriting risk.

(6) Specify whether the contractor returns to the agency part of any savings remaining after allowable costs are deducted from the premium or subscription charge and, if savings are returned, the apportionment to the agency and the contractor;

(7) Specify the extent, if any, to which the contractor may obtain reinsurance of a portion of the underwriting risk;

(8) Specify the actuarial basis for computation of the premium or subscription charge.

(b) The premium or subscription charge may be renegotiated more often than annually for recipients who are not enrolled at the time of renegotiation or if the renegotiation is required by changes in Federal or State law.

HEALTH MAINTENANCE ORGANIZATIONS

§ 431.520 State plan requirements.

If the plan provides for contracts with HMO's, the plan must also provide that—

(a) Each contract with an HMO, including HMO's that have provisional status, meets the requirements of §§ 431.503 and 431.504 and the additional requirements of §§ 431.522 through 431.537; and

(b) The agency meets the requirements of §§ 431.540 through 431.550.

§ 431.521 HMO's with provisional status.

(a) The agency may determine that an entity is an HMO with provisional status if—

(1) More than 90 days have expired since the entity applied to the Public Health Service for HMO status; and

(2) The Assistant Secretary for Health has not determined whether the entity meets the definition of section 1903(m)(1)(A) of the Public Health Service Act.

(b) The provisional status remains in force until the earlier of the following:

(1) A final determination is made by the Assistant Secretary for Health.

(2) The contract expires.

HMO: CONTRACT REQUIREMENTS

§ 431.522 Services and organization.

(a) The contract must specify that the HMO—

(1) Provides services in the manner prescribed by section 1301(b) of the Public Health Service Act; and

(2) Is organized and operated as prescribed by section 1301(c) of the Public Health Service Act.

(b) For purposes of this subpart, HMO "basic health services" are those specified in paragraph (a) of "health maintenance organization" in § 431.502.

§ 431.523 Premiums or subscription charges.

(a) The contract must specify—

(1) The actuarial basis for computation of the premium or subscription charge;

(2) That the premium or subscription charge must not exceed the limits set forth under part 447 of this subchapter;

(3) That, except as permitted under paragraph (b) of this section, premiums or subscription charges paid on behalf of each enrolled recipient may not be renegotiated—

(i) During the contract period if the contract is for 1 year or less; or

(ii) More often than annually if the contract period is for more than 1 year; and

(4) That the premium or subscription charge must not include any amount for recoupment of any losses suffered by the contractor for risks assumed under the same contract or a prior contract with the agency.

(b) The premium or subscription charge may be renegotiated more often than annually for eligible recipients who are not enrolled at the time of the renegotiation or if the renegotiation is required by changes in Federal or State law.

§ 431.524 Risk.

The contract must specify that the contractor assumes at least part of the underwriting risk as follows:

(a) If the contractor assumes the full underwriting risk, payment of the premium or subscription charge to the contractor during the contract period constitutes full payment by the agency for the cost of medical services provided under the contract; and

(b) If the contractor assumes less than the full underwriting risk, the contract specifies the apportionment of the underwriting risk.

§ 431.525 Savings.

The contract must specify whether the contractor returns to the agency part of any savings remaining after allowable costs are deducted from the premium or subscription charge and, if savings are returned, the apportionment to the agency and the contractor.

§ 431.526 Reinsurance.

The contract must specify—

(a) The extent, if any, to which the contractor may obtain reinsurance of a portion of the underwriting risk; and

(b) That, if the contractor obtains reinsurance, he retains a substantial portion of the underwriting risk.

§ 431.527 Coverage and enrollment.

(a) The contract must specify an open enrollment period that meets the requirements of section 1301(d) of the Public Health Service Act, if the HMO—

(1) Has not incurred a financial deficit in the previous fiscal year; and

(2) Either has been in existence for at least 5 years, or has a minimum of 50,000 members.

(b) A contract with an HMO that does not meet the description of an HMO in paragraph (a) of this section must—

(1) Specify the period during which enrollment may be open;

(2) Provide that the contractor accepts individuals who are eligible to be covered under the contract—

(i) In the order in which they apply;

(ii) Without restrictions unless authorized by the Secretary; and

(iii) Up to the limits set in the contract with the State; and

(3) Provide that enrollment is voluntary.

§ 431.528 Population.

The contract must provide that—

(a) The contractor serves a population broadly representative of the various age, social, and income groups in the area served;

(b) Either less than 50 percent of the enrollees are medicare beneficiaries and medicaid recipients or the 50-percent requirement will be attained by October 8, 1979, or 3 years from the date that the contract is entered into, whichever is later;

(c) If the population does not meet the 50-percent requirement when the contract is entered into—

(1) The contractor will make continuous effort to progress toward compliance with paragraph (b) of this section; and

(2) The contractor will submit annual plans showing milestones for each year until the goal is achieved, in order to demonstrate progress to the Secretary's satisfaction.

§ 431.529 Duration of enrollment period.

The contract must specify the duration of the enrollment period.

§ 431.530 Termination of enrollment.

The contract—

(a) Must specify the reasons for which a recipient's enrollment may be terminated, which may not include an adverse change in a recipient's health;

(b) Must provide that a recipient who is enrolled has the right to terminate his enrollment without cause within 30 days of his enrollment;

(c) May allow termination by a recipient without cause at any time during the contract period; and

(d) Must provide that the agency approves each termination by the contractor.

§ 431.531 Choice of health professional.

The contract must allow each enrolled recipient to choose his health professional in the HMO to the extent possible and appropriate.

§ 431.532 Emergency medical services.

The contract must—

(a) Provide that all medical services that are covered under the contract and that are required on an emergency basis are available on a 24-hour basis, 7 days a week, either in the contractor's own facilities or through arrangements, approved by the agency, with another provider; and

(b) Provide for prompt payment by the contractor, under the upper limits prescribed in part 447 of this subchapter, for all services that are—

(1) Required by the contract;

(2) Furnished by providers that do not have arrangements with the contractor to provide the services; and

(3) Medically necessary to avoid endangering the recipient's health or causing him severe pain and discomfort that would occur if he had to use the contractor's facilities.

§ 431.533 Grievance procedure.

The contract must provide for an internal grievance procedure that—

(a) Is approved in writing by the agency;

(b) Provides for prompt resolution; and

(c) Assures the participation of individuals with authority to require corrective action.

§ 431.534 Quality assurance system.

The contract must provide for an internal quality assurance system that:

(a) Is consistent with the utilization control requirements of part 456 of this subchapter;

(b) Provides for review by appropriate health professionals of the process followed in providing health services;

(c) Provides for systematic data collection of performance and patient results;

(d) Provides for interpretation of this data to the practitioners; and

(e) Provides for making needed changes.

§ 431.535 Marketing.

The contract must provide that the HMO submits marketing plans, procedures, and materials to the agency for approval before using the plans.

§ 431.536 Health care information.

The contract must provide that the HMO advises enrolled recipients about the proper use of health care services and contributions they can make to the maintenance of their own health.

§ 431.537 Medical recordkeeping system.

The contract must provide for development of a medical recordkeeping system that—

(a) Collects all pertinent information relating to the medical management of each enrolled recipient; and

(b) Makes that information readily available to appropriate health professionals.

HMO: STATE AGENCY REQUIREMENTS

§ 431.540 Proof of HMO capability.

The agency must obtain from each HMO contractor proof of—

(a) Financial responsibility, including proof of adequate protection against insolvency; and

(b) The contractor's ability to provide the services under the contract efficiently, effectively, and economically.

§ 431.541 Enrollment.

(a) The agency must determine that there have been adequate feasibility and planning studies made that show that enough people will enroll to insure the HMO's economic success.

(b) The agency must determine that the duration of the enrollment period is a sufficient amount of time to—

(1) Insure continuity of care; and

(2) Avoid excessive cost due to rapid turnover of enrolled recipients.

§ 431.542 Provision of required services.

The agency must obtain assurances from the HMO that—

(a) It provides the health services required by enrolled recipients as promptly as is appropriate; and

(b) The services meet the agency's quality standards.

§ 431.543 Periodic medical audits.

(a) The agency must establish a system of periodic medical audits to insure that the HMO provides quality and accessible health care to enrolled recipients.

(b) The system of periodic medical audits must—

(1) Provide for audits conducted at least once a year for each HMO contractor;

(2) Identify and collect management data for use by medical audit personnel; and

(3) Provide that the data includes—

(i) Reasons for enrollment and termination; and

(ii) Use of services.

§ 431.544 Approval of marketing plans, procedures, and materials for enrollment.

(a) The agency must provide for a system for approval of the HMO's marketing plans, procedures, and materials submitted under § 431.535.

(b) The requirements for approval must be in writing.

(c) The system must provide that the HMO contractor not engage in marketing practices that mislead, confuse, or defraud either recipients or the agency.

§ 431.545 Distribution of general information.

The agency must provide that—

(a) Appropriate health or social services agencies are used to distribute information regarding—

(1) Coverage;

(2) Location;

(3) Hours of services; and

(4) Enrollment and termination practices;

(b) The information is distributed to eligible recipients in the area serviced by the HMO contractor; and

(c) The information is accurate and presented in clear, readable, and concise form.

§ 431.546 Payment to contractors.

No payment may be made to providers other than the HMO for services provided to an enrolled recipient, if the services were available under the contract.

§ 431.547 Continued service to formerly enrolled recipients.

The agency must arrange for medicaid services without delay for any recipient whose enrollment is terminated, unless it is terminated because of ineligibility for medicaid.

§ 431.548 Computation of premium rates and subscription charges.

The agency must document the basis for computing the premium rates or subscription charges.

V 43/190 SEP 29 78

§ 431.549 Monitoring procedures.

The agency must have procedures to—

(a) Monitor enrollment and termination practices; and

(b) Insure proper implementation of the contractor's grievance procedures.

§ 431.550 Contracts that provide fewer or more services than are available under the plan.

(a) If the contract does not cover all services available under the plan, the agency must arrange for services not included to be available and accessible. This may be done by having the HMO refer enrolled recipients to other providers or by some other means.

(b) The contract may cover services in addition to those available under the plan. See § 440.250 for exception to the requirement for comparability of services to all recipients in the State.

PREPAID HEALTH PLANS

§ 431.555 State plan requirements.

If the plan provides for contracts with prepaid health plans, the State plan must also provide that—

(a) Each of those contracts meets the requirements of §§ 431.503, 431.504, and 431.568 through 431.578;

(b) In addition to the requirements of paragraph (a)—

(1) Each contract with a prepaid health plan that assumes an underwriting risk meets the requirements of §§ 431.556 through 431.560; and

(2) Each contract with a prepaid health plan that does not assume an underwriting risk meets the requirements of § 431.565; and

(c) The agency meets the requirements of §§ 431.580 through 431.589.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—RISK BASIS

§ 431.556 Risk-basis contracts: General requirements.

The contract with a prepaid health plan that assumes an underwriting risk must meet the requirements of §§ 431.557-431.560.

§ 431.557 Premiums or subscription charges.

(a) The contract must specify—

(1) The actuarial basis for computation of the premium or subscription charge;

(2) That the premium or subscription charge must not exceed the limits set forth under part 447 of this subchapter;

(3) That, except as permitted under paragraph (b) of this section, premiums, or subscription charges paid on behalf of each enrolled recipient may not be renegotiated—

(i) During the contract period if the contract is for 1 year or less; or

(ii) More often than annually if the contract period is for more than 1 year; and

(4) That the premium or subscription charge must not include any amount for recoupment of any losses suffered by the contractor for risks assumed under the same contract or a prior contract in the agency.

(b) The premium or subscription charge may be renegotiated more often than annually for eligible recipients who are not enrolled at the time of the renegotiation or if the renegotiation is required by changes in Federal or State law.

§ 431.558 Amount of risk.

The contract must specify—

(a) That, if the contractor assumes the full underwriting risk, payment of the premium or subscription charge to the contractor during the contract period constitutes full payment by the agency for the cost of the medical services provided under the contract; and

(b) The apportionment of the underwriting risk if the contractor assumes less than the full underwriting risk.

§ 431.559 Savings.

The contract must specify whether the contractor returns to the agency part of any savings remaining after allowable costs are deducted from the premium or subscription charge and, if savings are returned, the apportionment to the agency and the contractor.

§ 431.560 Reinsurance.

The contract must specify—

(a) The extent, if any, to which the contractor may obtain reinsurance of a portion of the underwriting risk; and

(b) That, if the contractor obtains reinsurance, he retains a substantial portion of the underwriting risk.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—RISK BASIS

§ 431.565 Nonrisk contract: Allowable payment for services.

(a) The contract with a prepaid health plan that does not assume any underwriting risk must provide that payment to the contractor does not exceed the amount that could be paid under part 447 for those specified provider services actually delivered by the contractor to enrolled recipients.

(b) For purposes of this section, "payment" includes any necessary retroactive adjustments.

PREPAID HEALTH PLANS: CONTRACT REQUIREMENTS—ALL CONTRACTS

§ 431.568 Coverage and enrollment.

The contract must—

(a) Specify the period during which enrollment may be open;

(b) Provide that the contractor accepts individuals who are eligible to be covered under the contract—

(1) In the order in which they apply;

(2) Without restrictions unless authorized by the Secretary; and

(3) Up to the limits set in the contract with the State; and

(c) Provide that enrollment is voluntary.

§ 431.569 Population.

The contract must provide that—

(a) The contractor serves a population broadly representative of the various age, social, and income groups in the area served;

(b) Either less than 50 percent of the enrollees are medicare beneficiaries and medicaid recipients or the 50-percent requirement will be attained by October 8, 1979, or 3 years from the date the contract is entered into, whichever is later;

(c) The contractor may apply to the Secretary for waiver of the requirements of paragraphs (a) and (b) of this section based on good cause.

§ 431.570 Duration of enrollment period.

The contract must specify the duration of the enrollment period.

§ 431.571 Termination of enrollment.

The contract—

(a) Must specify the reasons for which a recipient's enrollment may be terminated, which may not include adverse change in a recipient's health;

(b) Must provide that a recipient who is enrolled has the right to terminate his enrollment without cause within 30 days of enrollment;

(c) May allow termination by a recipient without cause at any time during the contract period; and

(d) Must provide that the agency approves each termination by the contractor.

§ 431.572 Choice of health professional.

The contract must allow each enrolled recipient to choose his health professional in the prepaid health plan to the extent possible and appropriate.

§ 431.573 Emergency medical services.

The contract must—

(a) Provide that all medical services that are covered under the contract and that are required on an emergency basis are available on a 24-hour basis, 7 days a week, either in the contractor's own facilities or through arrangements, approved by the agency, with another provider; and

(b) Provide for prompt payment by the contractor, under the limits set forth under part 447 of this subchapter for all services that are—

(1) Required by the contract;

(2) Furnished by providers that do not have arrangements with the contractor to provide the services; and

(3) Medically necessary to avoid endangering the recipient's health or causing him severe pain and discomfort that would occur if he had to use the contractor's facilities.

§ 431.574 Grievance procedure.

The contract must provide for an internal grievance procedure that—

(a) Is approved in writing by the agency;

(b) Provides for prompt resolution; and

(c) Assures the participation of individuals with authority to require corrective action.

§ 431.575 Quality assurance system.

The contract must provide for an internal quality assurance system that—

(a) Is consistent with the utilization control requirements of part 456 of this subchapter;

(b) Provides for review by appropriate health professionals of the process followed in providing health service;

(c) Provides for systematic data collection of performance and patient results;

(d) Provides for interpretation of this data to the practitioners; and

(e) Provides for making needed changes.

§ 431.576 Marketing.

The contract must provide that the prepaid health plan submits marketing plans, procedures, and materials to the agency for approval before using the plans.

§ 431.577 Health care information.

The contract must provide that the prepaid health plan advises enrolled recipients about the proper use of health care services and contributions they can make to the maintenance of their own health.

§ 431.578 Medical recordkeeping system.

The contract must provide for development of a medical recordkeeping system that—

(a) Collects all pertinent information relating to the medical management of each enrolled recipient; and

(b) Makes that information readily available to appropriate health professionals.

PREPAID HEALTH PLANS: STATE AGENCY REQUIREMENTS

§ 431.580 Proof of prepaid health plan capability.

The agency must obtain from each prepaid health plan contractor proof of—

(a) Financial responsibility, including proof of adequate protection against insolvency; and

(b) The contractor's ability to provide the services under the contract efficiently, effectively, and economically.

§ 431.581 Enrollment.

(a) The agency must determine that there have been adequate feasibility and planning studies made that show that enough people will enroll to insure the prepaid health plan's economic success.

(b) The agency must determine that the duration of the enrollment period is a sufficient amount of time to—

(1) Insure continuity of care; and

(2) Avoid excessive cost due to rapid turnover of enrolled recipients.

§ 431.582 Provision of required services.

The agency must obtain assurances from the prepaid health plan that—

(a) It provides the health services required by enrolled recipients as promptly as is appropriate; and

(b) The services meet the agency's quality standards.

§ 431.583 Periodic medical audits.

(a) The agency must establish a system of periodic medical audits to insure that the prepaid health plan provides quality and accessible health care to enrolled recipients.

(b) The system of periodic medical audits must—

(1) Provide for audits conducted at least once a year for each contractor;

(2) Identify and collect management data for use by medical audit personnel; and

(3) Provide that the data includes—

(i) Reasons for enrollment and termination; and

(ii) Use of services.

§ 431.584 Approval of marketing plans, procedures and materials for enrollment.

(a) The agency must provide for a system for approval of the prepaid health plan's marketing plans, procedures, and materials submitted under § 431.576.

(b) The requirements for approval must be in writing.

(c) The system must provide that the contractor not engage in marketing practices that mislead, confuse, or defraud either recipients or the agency.

§ 431.585 Distribution of general information.

The agency must provide that—

(a) Appropriate health or social services agencies are used to distribute information regarding—

(1) Coverage;

(2) Location;

(3) Hours of services; and

(4) Enrollment and termination practices;

(b) The information is distributed to eligible recipients in the area serviced by the contractor; and

(c) The information is accurate and presented in clear, readable, and concise form.

§ 431.586 Payment to contractors.

No payment may be made to providers other than the contractor for services provided to an enrolled recipient, if the services were available under the contract.

§ 431.587 Computation of premium rates and subscription charges.

The agency must document the basis for computing the premium rates or subscription charges.

§ 431.588 Monitoring procedures.

The agency must have procedures to—

(a) Monitor enrollment and termination practices; and

(b) Insure proper implementation of the contractor's grievance procedures.

§ 431.589 Contracts that provide fewer or more services than are available under the plan.

(a) If the contract does not cover all services available under the plan, the agency must arrange for services not included to be available and accessible. This may be done by having the prepaid health plan refer recipients to other providers or by some other means.

(b) The contract may cover services in addition to those available under the plan. See § 440.250 for exception to requirement for comparability of services to all recipients in the State.

FEDERAL FINANCIAL PARTICIPATION

§ 431.591 Availability of FFP.

(a) FFP is available in expenditures for payments to contractors only for the periods that the contract—

(1) Meets the requirements of this subpart;

(2) Meets the appropriate requirements of 45 CFR Part 74; and

(3) Is in effect.

(b) The Administrator may determine that a contract is not in effect for any period if the State fails to carry out the plan requirements of this subpart or if he determines that there was a substantial failure of either party to carry out the terms of the contract required by this subpart.

(c) A State is entitled upon request to receive a reconsideration, in accordance with section 1116(d) of the Act and 45 CFR Part 16, of a disallowance of FFP under this section.

§ 431.592 Availability of FFP for HMOs with provisional status.

(a) FFP is available in expenditures for payments to HMOs with provisional status regardless of the final determination on its qualifications to be an HMO.

(b) The Assistant Secretary's determination that the entity with provisional status is not an HMO is not considered final until—

(1) All administrative, but not judicial, appeal procedures are exhausted; or

(2) The time for requesting administrative review has lapsed without a request for review.

§ 431.593 Prior approval of contracts over $100,000.

FFP is not available in expenditures made under any contract exceeding $100,000 unless prior to the execution of the contract the regional medicaid director has approved in writing the expenditures that can reasonably be expected to be made during the contract period.

§ 431.594 Costs under risk contracts.

Under each contract in which an underwriting risk is assumed by the contractor, the total amount paid by the agency for carrying out the provisions of the contract is a medical assistance cost.

§ 431.595 Costs under no-risk contracts.

Under each contract in which no underwriting risk is assumed by the contractor—

(a) The amount paid by the agency for furnishing medical services to eligible recipients is a medical assistance cost; and

(b) The amount paid by the agency for performing other functions is an administrative cost.

§ 431.596 Costs under fiscal agent contracts.

Under each contract with a fiscal agent—

(a) The amount paid to the provider of medical services is a medical assistance cost; and

(b) The amount paid to the contractor for performing the agreed-upon functions is an administrative cost.

§ 431.597 Nonavailability of FFP.

(a) Except as in paragraph (b), FFP is not available in expenditures for payments to an entity if—

(1) The entity operates on a risk basis; and

(2) The entity provides for—

(i) Inpatient hospital service and any other required Medicaid service; or

(ii) Any three or more of the required Medicaid services.

(b) The limitation under paragraph (a) of this section does not apply to HMOs or health insuring organizations, or to payments made to organizations meeting the criteria of sec. 1903(m)(2)(B) (i), (ii), or (iii) of the Act. These organizations generally include those that received grants under the Public Health Service Act in the fiscal year ending June 30, 1976, certain rural primary health care entities, and certain entities that operated on a prepaid risk basis before 1970.

Subpart M—Relations with Other Agencies

§ 431.610 Relations with standard-setting and survey agencies.

(a) *Basis and purpose.* This section implements—

(1) Sec. 1902(a)(9) of the Act, concerning the designation of State authorities to be responsible for establishing and maintaining health and other standards for institutions participating in medicaid; and

(2) Sec. 1902(a)(33) of the Act, concerning the designation of the State licensing agency to be responsible for determining whether institutions and agencies meet requirements for participation in the State's medicaid program.

(b) *Designated agency responsible for health standards.* A State plan must designate, as the State authority responsible for establishing and maintaining health standards for private or public institutions that provide services to medicaid recipients, the same State agency that is used by the Secretary to determine qualifications of institutions and suppliers of services to participate in medicare (see 42 CFR 405.1902). The requirement for establishing and maintaining standards does not apply with respect to Christian Science sanitoria operated, or listed and certified, by the First Church of Christ Scientist, Boston, Mass.

(c) ***Designated agency responsible for standards other than health standards.*** The plan must designate the medicaid agency or other appropriate State authority or authorities to be responsible for establishing and maintaining standards, other than those relating to health, for private or public institutions that provide services to medicaid recipients.

(d) *Description and retention of standards.* (1) The plan must describe the standards established under paragraphs (b) and (c) of this section.

(2) The plan must provide that the medicaid agency keeps these standards on file and makes them available to the Administrator upon request.

(e) *Designation of survey agency.* The plan must provide that—

(1) The agency designated in paragraph (b) of this section, or another State agency responsible for licensing health institutions in the State, determines for the medicaid agency if institutions and agencies meet the requirements for participation in the medicaid program; and

(2) The agency staff making the determination under paragraph (e)(1) of this section is the same staff responsible for making similar determinations for institutions or agencies participating under medicare.

(f) *Written agreement required.* The plan must provide for a written agreement (or formal written intra-agency arrangement) between the medicaid agency and the survey agency designated under paragraph (e) of this section, covering the activities of the survey agency in carrying out its responsibilities. The agreement must specify that—

(1) Federal standards and the forms, methods and procedures that the Administrator designates will be used to determine provider eligibility and certification under medicaid;

(2) Inspectors surveying the premises of a provider will—

(i) Complete inspection reports;

(ii) Note on completed reports whether or not each requirement for which an inspection is made is satisfied; and

(iii) Document deficiencies in reports;

(3) The survey agency will keep on file all information and reports used in determining whether participating facilities meet Federal requirements; and

(4) The survey agency will make the information and reports required under paragraph (f)(3) of this section readily accessible to HEW and the medicaid agency as necessary—

(i) For meeting other requirements under the plan; and

(ii) For purposes consistent with the medicaid agency's effective administration of the program.

(g) *Responsibilities of survey agency.* The plan must provide that, in certifying skilled nursing and intermediate care facilities, the survey agency designated under paragraph (e) of this section will—

(1) Review and evaluate the following information as it relates to health and safety requirements:

(i) Medical and independent professional review team reports obtained under Part 456 of this subchapter.

(ii) Statements from facility payroll records that show the average number and types of personnel, in full-time equivalents, on each shift during at least one week, selected by the team to occur irregularly, in each quarter;

(2) Take necessary action to achieve compliance or to withdraw certification; and

(3) Have qualified personnel perform on-site inspections—

(i) At least once during each certification period or more frequently if there is a compliance question; and

(ii) For institutions with deficiencies, within 6 months after initial correction plan approval and every 6 months thereafter as required under §§ 442.112(e) and 442.113(d) of this subchapter.

(h) *FFP for survey responsibilities.* (1) FFP is available in expenditures that the survey agency makes to carry out its survey and certification responsibilities under the agreement specified in paragraph (f) of this section.

(2) FFP is not available in any expenditures that the survey agency makes that are attributable to the State's overall responsibilities under State law and regulations for establishing and maintaining standards.

§ 431.615 Relations with State health and vocational rehabilitation agencies and title V grantees.

(a) *Basis and purpose.* This section implements sec. 1902(a)(11) and (22)(C) of the Act, by setting forth State plan requirements for arrangements and agreements between the medicaid agency and—

(1) State health agencies;

(2) State vocational rehabilitation agencies; and

(3) Grantees under title V of the Act, Maternal and Child Health and Crippled Children's Services.

(b) *Definitions.* For purposes of this section—

"Title V grantee" means the agency, institution, or organization receiving Federal payments for part or all of the cost of any service program or project authorized by title V of the Act, including—

(1) Maternal and child health services;

(2) Crippled children's services;

(3) Maternal and infant care projects;

(4) Children and youth projects; and

(5) Projects for the dental health of children.

(c) *State plan requirements.* A state plan must—

(1) Describe cooperative arrangements with the State agencies that administer, or supervise the administration of, health services and vocational rehabilitation services designed to make maximum use of these services;

(2) Provide for arrangements with title V grantees, under which the medicaid agency will utilize the grantee to furnish services that are included in the State plan;

(3) Provide that all arrangements under this section meet the requirements of paragraph (d); and

(4) Provide, if requested by the title V grantee in accordance with the arrangements made under this section, that the medicaid agency reimburse the grantee or the provider for the cost of services furnished recipients by or through the grantee.

(d) *Content of arrangements.* The arrangements referred to in paragraph (c) must specify, as appropriate—

(1) The mutual objectives and responsibilities or each party to the arrangement;

(2) The services each party offers and in what circumstances;

(3) The cooperative and collaborative relationships at the State level;

(4) The kinds of services to be provided by local agencies; and

(5) Methods for—

(i) Early identification of individuals under 21 in need of medical or remedial services;

(ii) Reciprocal referrals;

(iii) Coordinating plans for health services provided or arranged for recipients;

(iv) Payment or reimbursement;

(v) Exchange of reports of services furnished to recipients;

(vi) Periodic review and joint planning for changes in the agreements;

(vii) Continuous liaison between the parties, including designation of State and local liaison staff; and

(viii) Joint evaluation of policies that affect the cooperative work of the parties.

(e) *Federal financial participation.* FFP is available in expenditures for medicaid services provided to recipients through an arrangement under this section.

§ 431.625 Coordination of medicaid with medicare part B.

(a) *Basis and purpose.* (1) Section 1843(a) of the Act required the Secretary to enter into an agreement with any State that requested that agreement before January 1, 1970, under which the State could enroll certain medicare-eligible recipients under medicare part B by paying their premiums.

(2) Section 1902(a)(10)(C)(ii)(II) of the Act allows the State to meet deductibles, cost sharing, and other charges for recipients enrolled under medicare part B without obligating itself to provide the range of part B benefits to other recipients; and

(3) Section 1903(a)(1) and section 1903(b) of the Act authorize FFP for State payment of medicare part B premiums for certain recipients.

(4) This section—

(i) Specifies the exception, relating to part B coverage, from the requirement to provide comparable services to all recipients; and

(ii) Prescribes FFP rules concerning State payment for medicare premiums and for services that could have been covered under medicare.

(b) *Exception from obligation to provide comparable services; State plan requirement.* (1) The State's payment of premiums, deductibles, cost sharing, or similar charges under part B does not obligate it to provide the full range of part B services to recipients not covered by medicare.

(2) The State plan must specify this exception if it applies.

(c) *Federal financial participation.* (1) No FFP is available in State expenditures for medicare part B premiums for medicaid recipients who receive no money payments under title I, IV-A, X, XIV, XVI (AABD), or XVI (SSI) of the Act. However, FFP is available in these expenditures for—

(i) AFDC families required to be covered under §§ 435.112 and 436.116 of this subchapter, those eligible for continued medicaid coverage despite increased income from employment;

(ii) Recipients required to be covered under §§ 435.114, 435.134, and 436.112 of this subchapter, those eligible for continued medicaid coverage despite increased income from monthly insurance benefits under title II of the Act; and

(iii) Recipients required to be covered under §§ 435.135 of this subchapter, those eligible for continued medicaid coverage despite increased income from cost-of-living increases under title II of the Act.

(2) No FFP is available in State medicaid expenditures that could have been paid for under medicare part B but were not because the person was not enrolled in part B. This limit applies to all recipients eligible for enrollment under part B, whether individually or through an agreement under sec. 1843(a) of the Act. However, FFP is available in expenditures required by 45 CFR 206.10(a)(6)(ii) for retroactive coverage of recipients.

Subpart N—State Programs for Licensing Nursing Home Administrators

§ 431.700 Basis and purpose.

This subpart implements sections 1903(a)(29) and 1908 of the Act which require that the State plan include a State program for licensing nursing home administrators.

§ 431.701 Definitions.

Unless otherwise indicated, the following definitions apply for purposes of this subpart:

"Agency" means the State agency responsible for licensing individual

V 43/190 SEP 29 78 UMI

practitioners under the State's healing arts licensing act.

"Board" means an appointed State board established to carry out a State program for licensing administrators of nursing homes, in a State that does not have a healing arts licensing act or an agency as defined in this section.

"Licensed" means certified by a State agency or board as meeting all of the requirements for a licensed nursing home administrator specified in this subpart.

"Nursing home" means any institution, facility, or distinct part of a hospital that is licensed or formally recognized as meeting nursing home standards established under State law, or that is determined under § 431.704 to be included under the requirements of this subpart. The term does not include—

(a) A Christian Science sanatorium operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Mass.; or

(b) A distinct part of a hospital, if the hospital meets the definition in §§ 440.10 or 440.140 of this subchapter, and the distinct part is not licensed separately or formally approved as a nursing home by the State even though it is designated or certified as a skilled nursing facility.

"Nursing home administrator" means any person who is in charge of the general administration of a nursing home whether or not the person—

(a) Has an ownership interest in the home; or

(b) Shares his functions and duties with one or more other persons.

§ 431.702 State plan requirement.

A State plan must provide that the State has a program for licensing administrators of nursing homes that meets the requirements of §§ 431.703 through 431.713 of this subpart.

§ 431.703 Licensing requirement.

The State licensing program must provide that only nursing homes supervised by an administrator licensed in accordance with the requirements of this subpart may operate in the State.

§ 431.704 Nursing homes designated by other terms.

If a State licensing law does not use the term "nursing home," the HCFA Administrator will determine the term or terms equivalent to "nursing home" for purposes of applying the requirements of this subpart. To obtain this determination, the medicaid agency must submit to the Regional Medicaid Director copies of current State laws that define institutional health care facilities for licensing purposes.

§ 431.705 Licensing authority.

(a) The State licensing program must provide for licensing of nursing home administrators by—

(1) The agency designated under the healing arts act of the State; or

(2) A State licensing board.

(b) The State agency or board must perform the functions and duties specified in §§ 431.707 through 431.713 and the board must meet the membership requirements specified in § 431.706 of this subpart.

§ 431.706 Composition of licensing board.

(a) The board must be composed of persons representing professions and institutions concerned with the care and treatment of chronically ill or infirm elderly patients. However—

(1) A majority of the board members may not be representative of a single profession or category of institution; and

(2) Members not representative of institutions may not have a direct financial interest in any nursing home.

(b) For purposes of this section, nursing home administrators are considered representatives of institutions.

§ 431.707 Standards.

(a) The agency or board must develop, impose, and enforce standards that must be met by individuals in order to be licensed as a nursing home administrator.

(b) The standards must be designed to insure that nursing home administrators are—

(1) Of good character;

(2) Otherwise suitable; and

(3) Qualified to serve because of training or experience in instutitional administration.

§ 431.708 Procedures for applying standards.

The agency or board must develop and apply appropriate procedures and techniques, including examinations and investigations, for determining if a person meets the licensing standards.

§ 431.709 Issuance and revocation of license.

Except as provided in § 431.714 of this subpart, the agency or board must—

(a) Issue licenses to persons who meet the agency's or board's standards; and

(b) Revoke or suspend a license if the agency or board determines that the person holding the license substantially fails to meet the standards.

§ 431.710 Provisional licenses.

To fill a position of nursing home administrator that unexpectedly becomes vacant, the agency or board may issue one provisional license, for a single period not to exceed 6 months. The license may be issued to a person who does not meet all of the licensing requirements established under § 431.707 but who—

(a) Is of good character and otherwise suitable; and

(b) Meets any other standards established for provisional licensure by the agency or board.

§ 431.711 Compliance with standards.

The agency or board must establish and carry out procedures to insure that licensed administrators comply with the standards in this subpart when they serve as nursing home administrators.

§ 431.712 Failure to comply with standards.

The agency or board must investigate and act on all complaints it receives of violations of standards.

§ 431.713 Continuing study and investigation.

The agency or board must conduct a continuing study of nursing homes and administrators within the State to improve—

(a) Licensing standards; and

(b) The procedures and methods for enforcing the standards.

§ 431.714 Waivers.

The agency or board may waive any standards developed under § 431.707 of this subpart for any person who has served in the capacity of a nursing home administrator during all of the 3 calendar years immediately preceding the calendar year in which the State first meets the requirements in this subpart.

§ 431.715 Federal financial participation.

No FFP is available in expenditures by the licensing board for establishing and maintaining standards for the licensing of nursing home administrators.

Subpart O [Reserved]

Subpart P—Quality Control

§ 431.800 Medicaid quality control (MQC) system.

(a) *Basis and purpose.* This section establishes State plan requirements for a medicaid quality control system designed to reduce erroneous expenditures by monitoring eligibility determinations, third-party liability activities, and claims processing.

(Sec. 1902(a)(4) of the Act.)

(b) *Definitions.* For purposes of this section—

"Active case" means an individual or family determined to be currently eligible for medicaid.

"Claims processing error" means FFP has been claimed for a medicaid payment that was made—

(1) For a service not authorized under the State plan;

(2) To a provider not certified for participation in the medicaid program;

(3) For a service already paid for by medicaid; or

(4) In an amount above the allowable reimbursement level for that service.

"Eligibility error" means that medicaid coverage has been certified or payment has been made for a recipient under review who—

(1) Was ineligible when certified or when he received services under the State's plan; or

(2) Had not met recipient liability requirements when certified eligible for medicaid; that is, he had not incurred medical expenses equal to the amount of this excess income over the State's financial eligibility level.

"Negative case action" means a medicaid application that was denied or otherwise disposed of without a determination of eligibility (for instance, because the application was withdrawn or abandoned) or an individual or family for whom medicaid eligibility was terminated.

"State agency" means either the State medicaid agency, or a State agency that is responsible for determining eligibility for medicaid.

"Third-party liability error" means FFP has been claimed for a medicaid payment when—

(1) All or part of the medical services should have been paid for by a third party; and

(2) The State failed to meet the requirements of § 433.135 of this subchapter for considering third party liability.

(c) *State plan requirements.* A State plan must provide for operating a medicaid quality control (MQC) system that meets the requirements of paragraphs (d) through (h) of this section.

(d) *Basic elements of MQC system.* The agency—

(1) Must operate the MQC system in accordance with the policies, sampling methodology, review procedures, and reporting forms and requirements specified in medicaid quality control manuals issued by HCFA;

(2) Must select statistical samples of both active and negative case actions;

(3) Must review each case in the sample to identify eligibility errors; and

(4) Must review any claims pertaining to each active case to identify erroneous payments resulting from—

(i) Ineligibility;

(ii) Recipient understated or overstated liability;

(iii) Third-party liability; and

(iv) Claims processing errors;

(5) In order to verify eligibility information, must conduct field investigations, including—

(i) Personal interviews for each case in the active case sample; and

(ii) Personal interviews for cases in the negative case action sample, to the extent necessary to verify erroneous eligibility determinations; and

(6) Must use 6-month sampling periods, from April through September and from October through March.

(e) *Reporting requirements.* The agency must submit reports to the Administrator, in the form and at the time specified by him, including—

(1) A description of the State's sampling plan for active cases and negative cases;

(2) A monthly report on eligibility case reviews completed during the month for all cases in the active case sample for that month and selected cases from the negative case sample for that month;

(3) A monthly report on payment reviews completed during the month for cases in the active case sample. (States must wait 5 months after each sample month before accumulating claims paid for each case—through the fourth month following the sample month);

(4) A summary report on eligibility findings and payment error findings for all cases in the 6-month sample, to be submitted by May 31 of each year for the previous April–September sampling period, and by November 30 for the October–March sampling period; and

(5) Other data and reports that the Administrator requests.

(f) *Access to records.* The agency, upon request, must provide HEW staff with access to all records pertaining to its MQC reviews to which the State has access.

(g) *Corrective action.* The agency must—

(1) Take action to correct any eligibility, third-party liability, claims processing or negative case action errors found in the sample cases;

(2) Take administrative action to prevent or reduce the incidence of those errors; and

(3) By July 31 each year, submit to the Administrator a report on its error analysis and a corrective action plan.

(h) *Protection of recipient rights.* Any individual performing activities under the medicaid quality control program must do so in a manner consistent with 45 CFR 206.10(a)(10) concerning the rights of the recipient.

PART—432 STATE PERSONNEL ADMINISTRATION

Subpart A—General Provisions

Sec.
432.1 Basis and purpose.
432.2 Definitions.
432.10 Standards of personnel administration.

Subpart B—Training Programs; Subprofessional and Volunteer Programs

432.30 Training programs: General requirements.
432.31 Training and use of subprofessional staff.
432.32 Training and use of volunteers.

Subpart C—Staffing and Training Expenditures

432.50 FFP: Staffing and training costs.
432.55 Reporting training and administrative costs.
432.60 Sources of State share of training expenditures and cost allocation.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—General Provisions

§ 432.1 Basis and purpose.

This part prescribes regulations to implement sec. 1902(a)(4) of the Act, which relates to a merit system of State personnel administration and training and use of subprofessional staff and volunteers in State medicaid programs, and sec. 1903(a), rates of FFP for medicaid staffing and training costs. It also prescribes regulations, based on the general administrative authority in sec. 1902(a)(4), for State training programs for all staff.

§ 432.2 Definitions.

"Community service aides" means subprofessional staff, employed in a variety of positions, whose duties are an integral part of the agency's responsibility for planning, administration, and for delivery of health services.

"Fringe benefits" means the employer's share of premiums for workmen's compensation, employees' retirement, unemployment compensation, health insurance, and similar expenses.

"Full-time training" means training that requires employees to be relieved of all responsibility for performance of current agency work to participate in a training program.

"Part-time training" means training that allows employees to continue full-time in their agency jobs or requires only partial reduction of work activities to participate in the training activity.

"Skilled professional medical personnel" means physicians, dentists, and other health practitioners; nurses; medical and psychiatric social workers; medical, hospital, and public health administrators, and licensed nursing

V 43 / 190 SE 29 78 UMI

home administrators; and other specialized personnel in the field of medical care.

"Staff of other public agencies" means skilled professional medical personnel and supporting staff (as defined in this section), who are employed in State or local agencies other than the medicaid agency, whose duties are directly related to the administration of the medicaid program and are specified in an written agreement with the medicaid agency.

"Subprofessional staff" means persons performing tasks that demand little or no formal education; a high school diploma; or less than 4 years of college.

"Supporting staff" means secretarial, stenographic, clerical, and other subprofessional staff whose activities are directly necessary to the carrying out of the functions which are the responsibility of skilled professional medical personnel, as defined in this section.

"Training program" means a program of educational activities based on the agency's training needs and aimed at insuring that agency staff acquire the knowledge and skills necessary to perform their jobs.

"Volunteer" means a person who contributes personal service to the community through the agency's program but is not a replacement or substitute for paid staff.

§ 432.10 Standards of personnel administration.

(a) *State plan requirement.* A State plan must provide that the requirements of paragraphs (c) through (h) of this section are met.

(b) *Terms.* In this section, "standards" refer to those specified in paragraph (c).

(c) *Methods of personnel administration.* Methods of personnel administration must be established and maintained, in the medicaid agency and in local agencies administering the program, in conformity with:

(1) The standards for a Merit System of Personnel Administration, 45 CFR part 70, and any standards prescribed by the U.S. Civil Service Commission under section 208 of the Intergovernmental Personnel Act of 1970 modifying or superseding these standards; and

(2) 5 CFR part 900, subpart F, Administration of the Standards for Merit System of Personnel Administration.

(d) *Compliance of local jurisdictions.* The medicaid agency must have in effect methods to assure compliance with the standards by local jurisdictions included in the plan.

(e) *Review and adequacy of State laws, regulations, and policies.* The agency must—

(1) Assure that the U.S. Civil Service Commission has determined the adequacy of current State laws, regulations, and policy statements that effect methods of personnel administration in conformity with the standards and (2) submit any changes in them to the Commission for review.

(f) *Statements of acceptance by local agencies.* If the medicaid agency changes from a State-supervised, locally administered program, it must obtain statements of acceptance of the standards from the local agencies.

(g) *Affirmative action plan.* The medicaid agency must have in effect an affirmative action plan for equal employment opportunity, that includes specific action steps and timetables to assure that opportunity, and meets all other requirements of 45 CFR 70.4.

(h) *Submittal of requested materials.* The medicaid agency must submit to HEW, upon request, copies of the affirmative action plan and of the State and local materials that assure compliance with the standards.

Subpart B—Training Programs; Subprofessional and Volunteer Programs

§ 432.30 Training programs: General requirements.

(a) A State plan must provide for a program of training for medicaid agency personnel. (See also §§ 432.31 and 432.32 for training programs for subprofessional staff and for volunteers.)

(b) The program must—

(1) Include initial inservice training for newly appointed staff, and continuing training opportunities to improve the operation of the program;

(2) Be related to job duties performed or to be performed by the persons trained; and

(3) Be consistent with the program objectives of the agency.

§ 432.31 Training and use of subprofessional staff.

(a) *State plan requirement.* A State plan must provide for the training and effective use of subprofessional staff as community service aides, in accordance with the requirements of this section.

(b) *Recruitment and selection.* The medicaid agency must have methods of recruitment and selection that afford opportunity for full-time or part-time employment of persons of low income, including:

(1) Young, middle-aged, and older persons;

(2) Physically and mentally disabled; and

(3) Recipients.

(c) *Merit system.* Subprofessional positions must be subject to merit system requirements except where special exemption is approved on the basis of a State alternative plan for employment of disadvantaged persons.

(d) *Staffing plan.* The agency staffing plan must include the kinds of jobs that subprofessional staff can perform.

(e) *Career service.* The agency must have a career service program that allows persons:

(1) To enter employment at the subprofessional level; and

(2) To progress to positions of increasing responsibility and reward:

(i) In accordance with their abilities; and

(ii) Through work experience and pre-service and in-service training.

(f) *Training, supervision and supportive services.* The agency must have an organized training program, supervision, and supportive services for subprofessional staff.

(g) *Progressive expansion.* The agency must provide for annual increase in the number of subprofessional staff until:

(1) An appropriate ratio of subprofessional and professional staff has been achieved; and

(2) There is maximum use of subprofessional staff as community aides in the operation of the program.

§ 432.32 Training and use of volunteers.

(a) *State plan requirement.* A State plan must provide for the training and use of non-paid or partially paid volunteers in accordance with the requirements of this section.

(b) *Functions of volunteers.* The medicaid agency must make use of volunteers in:

(1) Providing services to applicants and recipients; and

(2) Assisting any advisory committees established by the agency.

As used in this paragraph, "partially paid volunteers" means volunteers who are reimbursed only for actual expenses incurred in giving service, without regard to the value of the service or the time required to provide it.

(c) *Staffing.* The agency must designate a position whose incumbent is responsible for:

(1) The development, organization, and administration of the volunteer program; and

(2) Coordination of the program with related functions.

(d) *Recruitment, selection, training, and supervision.* The agency must have:

(1) Methods of recruitment and selection that assure participation of volunteers of all income levels, in planning capacities and service provision; and

(2) A program of organized training and supervision of volunteers.

(e) *Reimbursement of expenses.* The agency must—

(1) Reimburse volunteers for actual expenses incurred in providing services; and

(2) Assure that no volunteer is deprived of the opportunity to serve because of the expenses involved.

(f) *Progressive expansion.* The agency must provide for annual increase in the number of volunteers used until the volunteer program is adequate for the achievement of the agency's service goals.

Subpart C—Staffing and Training Expenditures

§ 432.50 FFP: Staffing and training costs.

(a) *Availability of FFP.* FFP is available in expenditures for salary or other compensation, fringe benefits, travel, per diem, and training, at rates determined on the basis of the individual's position, as specified in paragraph (b) of this section.

(b) *Rates of FFP.* (1) For skilled professional medical personnel and supporting, staff of the medicaid agency or of other public agencies (as defined in § 432.2), the rate is 75 percent.

(2) For personnel engaged directly in the operation of mechanized claims processing and information retrieval systems, the rate is 75 percent.

(3) For personnel engaged in the design, development, or installation of mechanized claims processing and information retrieval systems, the rate is 50 percent for training and 90 percent for all other costs specified in paragraph (a) of this section.

(4) For personnel of the State licensing agency who are responsible for inspections of skilled nursing or intermediate care facilities, the rate is 100 percent through September 30, 1980:

(i) If a work plan and budget plan relative to this personnel have been approved by the HCFA regional office, and

(ii) Only for those expenditures that are not attributable to the overall cost of meeting the State licensing agency's responsibilities under State law and regulations, but are necessary and proper for carrying out the required inspections.

(5) For personnel administering family planning services and supplies, the rate is 90 percent.

(6) For all other staff of the medicaid agency or other public agencies providing services to the medicaid agency, and for training and other expenses of volunteers, the rate is 50 percent.

(c) *Specific limitations.* (1) Rates of FFP in excess of 50 percent are applicable only to those portions of the individual's working time that are devoted to the kinds of positions or duties that qualify for those rates.

(2) The special matching rates for persons working on mechanized claims processing and information retrieval systems (paragraph (b) (2) and (3) of this section) are applicable only if the design, development and installation, or the operation, have been approved by the Administrator in accordance with part 433, subpart C, of this subchapter.

432.55 Reporting training and administrative costs.

(a) *Scope.* This section identifies activities and costs to be reported as training or administrative costs on quarterly estimate and expenditure reports to HCFA.

(b) *Activities and costs to be reported on training expenditures.* (1) For fulltime training (with no assigned agency duties): Salaries, fringe benefits, dependency allowances, travel, tuition, books, and educational supplies.

(2) For part-time training: Travel, per diem, tuition, books and educational supplies.

(3) For State and local medicaid agency staff development personnel (including supporting staff) assigned fulltime training functions: Salaries, fringe benefits, travel, and per diem. Costs for staff spending less than full time on training for the medicaid program must be allocated between training and administration in accordance with 45 CFR 205.150.

(4) For experts engaged to develop or conduct special programs: Salary, fringe benefits, travel, and per diem.

(5) For agency training activities directly related to the program: Use of space, postage, teaching supplies, and purchase or development of teaching materials and equipment, for example, books and audiovisual aids.

(6) For field instruction in medicaid: Instructors' salaries and fringe benefits, rental of space, travel, clerical assistance, teaching materials and equipment such as books and audiovisual aids.

(c) *Activities and costs not to be reported as training expenditures.* The following activities are to be reported as administrative costs:

(1) Salaries of supervisors (day-to-day supervision of staff is not a training activity); and

(2) Cost of employing students on a temporary basis, for instance, during summer vacation.

§ 432.60 Sources of State share of training expenditures and cost allocation.

(a) *Public funds as the State's share.* (1) Public funds may be considered as the State's share in claiming FFP if they meet the conditions specified in paragraph (a) (2) and (3) of this section.

(2) The public funds are appropriated directly to the State or local medicaid agency, or transferred from other public agencies (including Indian tribes) to the State or local agency and under its administrative control, or certified by the contributing public agency as representing expenditures eligible for FFP under this section.

(3) The public funds are not Federal funds, or are Federal funds authorized by Federal law to be used to match other Federal funds.

(b) *Private donated funds as the State's share.* (1) Funds donated from private sources may be considered as the State's share in claiming FFP only if they meet the conditions specified in paragraph (b) (2) through (4) of this section.

(2) The private funds are transferred to the State or local medicaid agency and are under its administrative control.

(3) The private funds are donated without any restriction which would require their use for the training of particular individuals or at particular facilities or institutions.

(4) The private funds do not revert to the donor's facility or use unless the donor is a non-profit organization, and the medicaid agency, of its own volition, decides to use the donor's facility.

(c) *Cost allocation.* Costs of training are chargeable to medicaid only to the extent that the training benefits that program. If the training benefits both federally funded programs and other programs financed solely with State or local funds, the training costs must be allocated among programs as specified in 45 CFR part 74, appendix C and 45 CFR § 205.150.

PART 433—STATE FISCAL ADMINISTRATION

Sec.
433.1 Purpose.

Subpart A—Federal Matching Provisions

433.10 Rates of FFP for program services.
433.15 Rates of FFP for administration.

Subpart B—General Administrative Requirements

433.36 Liens and recoveries.
433.37 Reporting provider payments to Internal Revenue Service.

Subpart C—Mechanized Claims Processing and Information Retrieval Systems

433.110 Basis and purpose.
433.111 Definitions.
433.112 FFP for design, development, installation, or improvement of mechanized claims processing and information retrieval systems.

433.113 FFP for operation of mechanized claims processing and information retrieval systems.
433.114 Termination of FFP for failure to provide access to claims processing and information retrieval systems.

Subpart D—Third Party Liability

433.135 Third party liability: Determination of liability and collection procedures.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

§ 433.1 Purpose.

This part specifies the rates of FFP for services and administration, and prescribes requirements, prohibitions, and FFP conditions relating to State fiscal activities.

Subpart A—Federal Matching Provisions

§ 433.10 Rates of FFP for program services.

(a) *Basis.* Sections 1903(a)(1), 1903(g), and 1905(b) provide for payments to States, on the basis of a Federal medical assistance percentage, for part of their expenditures for services under an approved State plan.

(b) *Federal medical assistance percentage (FMAP).*—(1) *Computation.* The FMAP is determined by the formula described in sec. 1905(b) of the Act. Under the formula, if a State's per capita income is equal to the national average per capita income, the Federal share is 55 percent. If a State's per capita income exceeds the national average, the Federal share is lower, with a statutory minimum of 50 percent. If a State's per capita income is lower than the national average, the Federal share is increased, with a statutory maximum of 83 percent. The formula used in determining the State and Federal share is as follows:

State share=(State per capita income)²/(National per capita income)²×45 percent

Federal share=100 percent minus the State share (with a minimum of 50 percent and a maximum of 83 percent)

The formula provides for squaring both the State and national average per capita incomes; this procedure magnifies any difference between the State's income and the national average. Consequently, Federal matching to lower income States is increased, and Federal matching to higher income States is decreased, within the statutory 50–83 percent limits. The FMAP for Puerto Rico, the Virgin Islands, and Guam is set by statute at 50 percent and is subject to dollar limitations specified in sec. 1108 of the Act.

(2) *Publication.* The FMAP for each State is published in the FEDERAL REGISTER in each even-numbered year, effective for a 2-year period beginning October 1 of the next year.

(c) *Special provisions.* (1) Under sec. 1903(a)(5) of the Act, the Federal share of State expenditures for family planning services is 90 percent.

(2) Under sec. 1905(b), the Federal share of State expenditures for services provided through Indian Health Service facilities is 100 percent.

(3) Under sec. 1903(g), the FMAP is reduced if the State does not have an effective program to control use of institutional services.

§ 433.15 Rates of FFP for administration.

(a) *Basis.* Section 1903(a) (2)–(5) and (7) of the Act provide for payments to States, on the basis of specified percentages, for part of their expenditures for administration of an approved State plan.

(b) *Activities and rates.* (1) Compensation and training of personnel surveying long-term care facilities: 100 percent, through September 30, 1980. (Sec. 1903(a)(4); 42 CFR 432.50(b)(4).)

(2) Administration of family planning services: 90 percent. (Sec. 1903(a)(5); 42 CFR 432.50(b)(5).)

(3) Design, development, or installation of mechanized claims processing and information retrieval systems: 90 percent. (Sec. 1903(a)(3)(A)(i); 42 CFR part 433, subpart C, and § 432.50(b)(3).)

(4) Operation of mechanized claims processing and information retrieval systems: 75 percent. (Sec. 1903(a)(3)(B); 42 CFR part 433, subpart C and § 432.50(b)(2).)

(5) Compensation and training of skilled professional medical personnel and staff directly supporting those personnel: 75 percent. (Sec. 1903(a)(2); 42 CFR 432.50(b)(1).)

(6) All other activities the Secretary finds necessary for proper and efficient administration of the State plan: 50 percent. (Sec. 1903(a)(7).) (See also § 455.300 of this subchapter for FFP at 90 percent for State medicaid fraud control units under sec. 1903(a)(6).)

Subpart B—General Administrative Requirements

§ 433.36 Liens and recoveries.

(a) *Basis and purpose.* This section implements sec. 1902(a)(18) of the Act, which prohibits the State from placing a lien against a recipient's property and restricts the use of adjustments and recoveries against recipients.

(b) *Definition of property.* For purposes of this section, "property" includes the homestead and all other personal and real property in which the recipient has a legal interest.

(c) *State plan requirement.* A State plan must provide that the provisions of paragraphs (d) through (g) of this section are met.

(d) *Prohibition against lien or encumbrance.* No lien or encumbrance may be required from or imposed against any recipient's property prior to his death because of medicaid claims paid or to be paid on his behalf, unless placed as a result of a court judgment because of claims incorrectly paid.

(e) *Recipients under 65 years of age.* If a recipient is under 65 years of age when he receives medicaid—

(1) No lien or encumbrance may be imposed at any time against the recipient's property because of medicaid claims paid or to be paid on his behalf, unless placed as a result of a court judgment because of claims incorrectly paid; and

(2) There may be no adjustment or recovery of medicaid claims correctly paid.

(f) *Recipients 65 years of age or older.* If a recipient was 65 years of age or older when he received medicaid, an adjustment or recovery of medicaid claims correctly paid may be made only after his death, from his estate—

(1) After the death of the surviving spouse, if any; and

(2) When there is no surviving child who is under age 21 or blind or disabled as defined in the plan.

(g) *Prohibition of reduction of money payments.* No money payment under another program may be reduced as a means of recovering medicaid claims incorrectly paid.

§ 433.37 Reporting provider payments to Internal Revenue Service.

(a) *Basis and purpose.* This section, based on section 1902(a)(4) of the Act, prescribes requirements concerning—

(1) Identification of providers; and

(2) Compliance with the information reporting requirements of the Internal Revenue Code.

(b) *Identification of providers.* A State plan must provide for the identification of providers by—

(1) Social security number if—

(i) The provider is in solo practice; or

(ii) The provider is not in solo practice but billing is by the individual practitioner; or

(2) Employer identification number for all other providers.

(c) *Compliance with section 6041 of the Internal Revenue Code.* The plan must provide that the medicaid agency complies with the information reporting requirements of section 6041 of the Internal Revenue Code. (26 U.S.C. 6041). Section 6041 requires the filing of annual information returns showing amounts paid to providers, who are identified by name, address, and social security number or employer identification number.

Subpart C—Mechanized Claims Processing and Information Retrieval Systems

§ 433.110 Basis and purpose.

This subpart implements section 1903(a)(3) of the Act, which provides for FFP in State expenditures for the design, development, or installation of mechanized claims processing and information retrieval systems and for the operation of certain systems. Additional HEW regulations and medicaid bureau procedures for implementing these regulations are in 45 CFR Part 74, 45 CFR part 95, subpart F,* and part 7-71-00, Medical Assistance Manual.

§ 433.111 Definitions.

For purposes of this section:

"Advance Planning Document (APD)" means a written plan of action to acquire the proposed system. Content requirements for the APD are in 45 CFR part 95, subpart F,* and in part 7-71-00 of the Medical Assistance Manual.

"Design" or "system design" means the putting together of new or more efficient automatic data processing system. This includes the use of hardware to the extent necessary for the design phase.

"Development" means the definition of system requirements, detailing of system and program specifications, programming, and testing. This includes the use of hardware to the extent necessary for the development phase.

"Hardware" means automatic equipment used for a mechanized claims processing and information retrieval system. This equipment accepts and stores data, performs calculations and other processing steps, and produces information. Hardware includes:

(1) Electronic digital computers;

(2) Peripheral or auxiliary equipment used in support of electronic computers;

(3) Data transmission or communications equipment; and

(4) Data input equipment.

"Improvement" means modification of or addition to an existing operational mechanized claims processing and information retrieval system, which benefits the efficient, economical or effective administration of the State plan.

"Installation" means the integrated testing of programs and subsystems, system conversion, and turnover to operational status. This includes the use of hardware to the extent necessary for the installation phase.

"Mechanized claims processing and information retrieval system" means a system of software and hardware used to process medicaid claims, and to retrieve and produce utilization and management information about services that is required by the medicaid agency or Federal Government for administrative and audit purposes.

"Operation" means the automated processing of claims, payments, and reports. "Operation" includes the use of supplies, software, hardware, and personnel directly associated with the functioning of the mechanized system.

"Software" means computer programs, procedures, and associated documentation used to operate the hardware.

§ 433.112 FFP for design, development, installation or improvement of mechanized claims processing and information retrieval systems.

(a) FFP is available at 90 percent in expenditures for design, development, installation or improvement of a mechanized claims processing and information retrieval system, if the system is approved by the Administrator.

(b) The Administrator will approve the system if the following conditions are met:

(1) The Administrator determines the system is likely to provide more efficient, economical, and effective administration of the State plan.

(2) The system meets the system requirements in part 7-71-00 of the Medical Assistance Manual.

(3) The system is compatible with the claims processing and information retrieval systems used in the administration of medicare for prompt eligibility verification and for processing claims for persons eligible for both programs.

(4) The system supports the data requirements of Professional Standards Review Organizations established under part B of title XI of the Act.

(5) The State owns any software that is designed, developed, installed or improved with 90 percent FFP.

(6) The Department has a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use and authorize others to use software, modifications to software, and documentation that is designed, developed, installed or improved with 90 percent FFP.

(7) The costs of the system are determined in accordance with 45 CFR part 74, appendix C.

(8) The medicaid agency agrees in writing to use the system for the period of time specified in the advance planning document approved by the Administrator or for any shorter period of time that the Administrator determines justifies the Federal funds invested.

(9) The agency agrees in writing that the information in the system will be safeguarded in accordance with 45 CFR 205.50.

§ 433.113 FFP for operation of mechanized claims processing and information retrieval systems.

(a) FFP is available at 75 percent of expenditures for operation of a mechanized claims processing and information retrieval system approved by the Administrator.

(b) The Administrator will approve the system operation if the conditions in § 433.112(b), except (5) and (6), are met and the following conditions are met:

(1) The system has been operating continuously during the period for which FFP is claimed.

(2) The system provides written notice, within 45 days of the payment of a claim, to each person who received services covered by the State plan, or to each person in a sample group of people who received services. This notice must specify—

(i) The service furnished;

(ii) The name of the provider furnishing the service;

(iii) The date on which the service was furnished; and

(iv) The amount of the payment made under the plan for the service.

(3) The written notice must not specify confidential services (as defined by the State) and must not be sent if the only service furnished was confidential.

(4) The system provides both patient and provider profiles for program management and utilization review purposes.

§ 433.114 Termination of FFP for failure to provide access to claims processing and information retrieval systems.

The Administrator will terminate FFP at any time if the medicaid agency fails to provide State and Federal representatives with full access to the system, including on-site inspection. The Administrator may request such access at any time to determine whether the conditions in this subpart are being met.

Subpart D—Third Party Liability

§ 433.135 Third party liability: determination of liability and collection procedures.

(a) *Basis and purpose.* This subpart implements sec. 1902(a)(25) and 1903(d)(2) of the Act by setting forth State plan requirements concerning—

(1) The legal liability of third parties to pay for services provided under the plan; and

(2) Treatment of reimbursements by a third party to a State for medicaid furnished under the plan.

*45 CFR Part 95, Subpart F, is effective 90 days from September 29, 1978 (see 43 FR _; September 29, 1978).

V 43/190 SEP 29 78 UMI

V 43 / 190 SEP 29 78

(b) *Definitions.* For purposes of this subpart, "third party" means any entity that is or may be liable to pay all or part of the medical cost of injury, disease, or disability of an applicant or recipient of medicaid.

(c) *Requirements for State plans.* A State plan must provide that requirements of paragraphs (d)–(g) of this section are met.

(d) *Determining liability of third parties.* The medicaid agency must take reasonable measures to determine the legal liability of third parties to pay for services under the plan.

(e) *Payment of claims.* (1) If the agency has determined that—

(i) Third party liability exists for part or all of the services provided to a recipient; and

(ii) The third party will make payment within a reasonable time, the agency must pay only the amount, if any, by which the allowable claim exceeds the amount of the liability.

(2) The agency may not withhold payment for services provided to a recipient if third party liability or the amount of liability cannot be determined, or payments will not be available, within a reasonable time.

(f) *Reimbursement for medicaid.* The agency must seek reimbursement for medicaid to the extent of a third party's legal liability if—

(1) Liability is determined after medicaid is provided to an individual; or

(2) Liability was determined before providing medicaid but the agency failed to make use of it.

(g) *Repayment of Federal share.* If the State has received FFP in medicaid payments for which it receives third party reimbursement, the State must pay the Federal government a portion of the reimbursement determined in accordance with the FMAP for the State.

(h) *Federal financial participation.* FFP is not available in medicaid payments, to the extent of the Federal proportion of the third party liability, if—

(1) Third party liability existed when medicaid payments were made, but was disregarded at that time and not subsequently recovered;

(2) The agency failed to take reasonable steps to collect reimbursement from a third party; or

(3) The agency received reimbursement from a liable third party.

PART 435—ELIGIBILITY IN THE STATES AND DISTRICT OF COLUMBIA

Subpart A—Introduction, General Provisions, and Definitions

Sec.
435.1 Introduction.
435.2 Purpose and applicability.
435.3 Basis.
435.4 Definitions and use of terms.
435.10 State plan requirements.

Subpart B—Mandatory Coverage of the Categorically Needy

435.100 Scope.

MANDATORY COVERAGE OF FAMILIES AND CHILDREN

435.110 Individuals receiving aid to families with dependent children.
435.111 Individuals under age 21 who are ineligible for AFDC because of age or school attendance requirements.
435.112 Families terminated from AFDC because of increased earnings or hours of employment.
435.113 Individuals who are ineligible for AFDC because of requirements that do not apply under title XIX of the Act.
435.114 Individuals who would be eligible for AFDC except for increased OASDI income under Pub. L. 92-336 (July 1, 1972).

MANDATORY COVERAGE OF THE AGED, BLIND, AND DISABLED

435.120 Individuals receiving SSI.
435.121 Individuals in States using more restrictive requirements for medicaid than the SSI requirements.
435.122 Individuals who are ineligible for SSI or optional State supplements because of requirements that do not apply under title XIX of the Act.
435.130 Individuals receiving mandatory State supplements.
435.131 Individuals eligible as essential spouses in December 1973.
435.132 Institutionalized individuals who were eligible in December 1973.
435.133 Blind and disabled individuals eligible in December 1973.
435.134 Individuals who would be eligible except for the increase in OASDI benefits under Pub. L. 92-338 (July 1, 1972).
435.135 Individuals who become ineligible for cash assistance as a result of OASDI cost-of-living increases received after April 1977.

Subpart C—Options for Coverage as Categorically Needy

435.200 Scope.
435.201 Individuals included in optional groups.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN AND THE AGED, BLIND, AND DISABLED

435.210 Individuals who would be eligible for but are not receiving cash assistance.
435.211 Individuals who would be eligible for cash assistance except for their institutional status.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN

435.220 Individuals who would be eligible for AFDC if child care costs were paid from earnings.
435.221 Caretaker relatives of children who would be eligible for AFDC if they met age or school attendance requirements.
435.222 Individuals under age 21 who would be eligible for AFDC but do not qualify as dependent children.
435.223 Individuals who would be eligible for AFDC if coverage under the State's AFDC plan were as broad as allowed under title IV-A.

OPTIONS FOR COVERAGE OF THE AGED, BLIND, AND DISABLED

435.230 Individuals receiving only optional State supplements.
435.231 Individuals in institutions who would not be eligible for cash assistance if they were not institutionalized.

Subpart D—Optional Coverage of the Medically Needy

435.300 Scope.
435.301 General rule.
435.310 Medically needy coverage of families and children.
435.320 Medically needy coverage of the aged, blind, and disabled in States that cover individuals receiving SSI.
435.321 Medically needy coverage of the aged, blind, and disabled in States that impose more restrictive eligibility requirements.
435.325 Protected medically needy coverage for blind and disabled individuals eligible in December 1973.

Subpart E—General Eligibility Requirements

435.400 Scope.
435.401 General rules.
435.402 Citizenship and alienage.
435.403 State residence.
435.404 Applicant's choice of category.

Subpart F—Categorical Requirements for Eligibility

435.500 Scope.

DEPENDENCY

435.510 Determination of dependency.

AGE

435.520 Age requirements for the aged and children.

BLINDNESS

435.530 Definition of blindness.
435.531 Determinations of blindness.

DISABILITY

435.540 Definition of disability.
435.541 Determinations of disability.

Subpart G—General Financial Eligibility Requirements

435.600 Scope.
435.602 Limitation on the financial responsibility of relatives.
435.603 Applications for other benefits.

Subpart H—Financial Requirements for the Categorically Needy

435.700 Scope.

FINANCIAL REQUIREMENTS APPLICABLE TO OPTIONAL GROUPS: FAMILIES AND CHILDREN

435.711 General requirements.
435.712 Financial responsibility of spouses and parents.

FINANCIAL ELIGIBILITY REQUIREMENTS APPLICABLE TO OPTIONAL GROUPS: THE AGED, BLIND AND DISABLED IN STATES COVERING INDIVIDUALS RECEIVING SSI

435.721 General requirements.

Sec.
435.722 Institutionalized individuals who would not be eligible for cash assistance if they were not institutionalized.
435.723 Financial responsibility of spouses.
435.724 Financial responsibility of parents for blind or disabled children.
435.725 Post-eligibility treatment of income and resources of institutionalized individuals: Application of patient income to the cost of care.

FINANCIAL ELIGIBILITY FOR THE AGED, BLIND, DISABLED IN STATES USING MORE RESTRICTIVE REQUIREMENTS THAN SSI

435.731 General requirements for determining income eligibility in States using more restrictive requirements than SSI.
435.732 Procedures for determining income eligibility.
435.733 Institutionalized aged, blind or disabled individuals: Determination of countable income.
435.734 Financial responsibility of spouses and parents.

FINANCIAL REQUIREMENTS APPLICABLE TO INDIVIDUALS UNDER PROTECTED COVERAGE PROVISIONS

435.740 Protected Medicaid eligibility for individuals eligible in December 1973.

Subpart I—Financial Requirements for the Medically Needy

435.800 Scope.

MEDICALLY NEEDY INCOME STANDARDS

435.811 General requirement.
435.812 Medically needy income standard for one person, noninstitutionalized.
435.813 Medically needy income standard for one person, institutionalized.
435.814 Medically needy income standard for two persons, noninstitutionalized.
435.815 Medically needy income standards for institutionalized couples.
435.816 Medically needy income standards for three or more persons.

FINANCIAL RESPONSIBILITY OF RELATIVES

435.821 Financial responsibility of relatives: Families and children.
435.822 Financial responsibility of relatives of aged, blind, or disabled individuals in States using SSI eligibility requirements.
435.823 Financial responsibility of relatives of aged, blind, or disabled individuals in States using more restrictive requirements than SSI.

MEDICALLY NEEDY INCOME ELIGIBILITY

435.831 Income eligibility.
435.832 Determining countable income: Institutionalized individuals.

MEDICALLY NEEDY RESOURCE STANDARDS

435.840 Medically needy resource standards for individuals and two-person families.
435.841 Medically needy resource standards for families of three or more persons.

DETERMINING ELIGIBILITY ON THE BASIS OF RESOURCES

435.845 Medically needy resource eligibility.

Subpart J—[Reserved]

Subpart K—Federal Financial Participation (FFP)

Sec.
435.1000 Scope.

FFP IN EXPENDITURES FOR DETERMINING ELIGIBILITY AND PROVIDING SERVICES

435.1001 FFP for administration.
435.1002 FFP for services.
435.1003 Recipients determined ineligible for SSI.
435.1004 Recipients overcoming certain conditions of eligibility.

LIMITATIONS ON FFP

435.1005 Recipients in institutions eligible under special outside standard.
435.1006 Recipients of optional State supplements only.
435.1007 Medically needy.
435.1008 Institutionalized individuals.
435.1009 Definitions relating to institutional status.

REQUIREMENTS FOR STATE SUPPLEMENTS

435.1010 Requirement for mandatory State supplements.
435.1011 Requirement for maintenance of optional State supplement expenditures.

Subpart A—Introduction, Definitions, and General Provisions

§ 435.1 Introduction.

(a) This section provides a brief explanation of medicaid eligibility as affected by changes in the cash assistance programs under the Social Security Act.

(b) *Medicaid eligibility before enactment of Pub. L. 92-603.*—(1) *Required coverage of the categorically needy.* Before enactment of the Social Security Amendments of 1972 (Pub. L. 92-603, October 30, 1972), which established the Federal program of Supplemental Security Income (SSI), States were required to make all recipients of cash assistance eligible for medicaid. Cash assistance was provided through Federally-assisted, State-administered programs to needy individuals in four categories: Those age 65 or over (title I, Old Age Assistance), the blind (title X, Aid to the Blind), the disabled (title XIV, Aid to the Permanently and Totally Disabled), and certain types of families (title IV-A, Aid to Families with Dependent Children). At State option, cash assistance to the aged, blind, and disabled could be made available under a consolidated program of Aid to the Aged, Blind, and Disabled (title XVI).

Because an eligible individual had to be both categorically related (that is, eligible as aged, blind, disabled, or a member of a family with children deprived of the support of at least one parent) and financially eligible on the basis of income and resources, recipients of cash assistance were termed categorically needy.

(2) *Optional coverage of the categorically needy.* States could elect to cover selected groups of individuals under medicaid who were financially eligible for cash assistance but ineligible because of certain other requirements, or who did not wish to receive cash assistance. Individuals eligible under these optional coverage provisions were considered as categorically needy and were eligible for the same services provided under medicaid to cash assistance recipients.

(3) Coverage of the medically needy. States could limit coverage under medicaid to the categorically needy or could, in addition, extend medicaid to aged, blind, or disabled individuals, or members of families with dependent children, who had too much income to be eligible for cash assistance but not enough for medical care. These individuals were termed "medically needy." A State could set higher levels of income and resources for determining eligibility for medicaid than those used in determining eligibility for cash assistance. Whether it used higher levels for the medically needy or the same level as for the categorically needy, the State had to deduct an applicant's incurred medical expenses from income in determining his eligibility for medicaid. As a result, unlike eligibility for cash assistance, eligibility under the medically needy coverage provision did not depend solely on the absolute amount of an individual's income.

Because a State would be covering more people under the medically needy program, it was permitted to provide more limited medicaid services to the medically needy than to the categorically needy.

(c) *Changes in cash assistance resulting from enactment of Pub. L. 92-603.*—(1) *Supplemental Security Income.* Pub. L. 92-603 established a Federal program of cash benefits for the aged, blind, and disabled under a new title XVI of the Act. The SSI program, administered by the Social Security Administration, became effective January 1, 1974, and replaced the previous programs for the aged, blind, and disabled in all jurisdictions of the United States except Puerto Rico, Guam, and the Virgin Islands. In addition to establishing uniform nationwide eligibility standards and requirements, the new title expanded the definition of disability to include individuals under age 18. It also provided for State supplements to the Federal SSI benefit.

(2) *Mandatory State supplements.* In general, most individuals who had been receiving cash assistance under State programs that had used more liberal eligibility requirements than SSI were deemed to meet the new SSI requirements for purposes of medicaid coverage. In addition, States that had

V 43 / 190 SE 29 78

been making higher payments to individuals under the previous programs of cash assistance were required to pay the difference between the SSI benefit and the previous payment. States must provide medicaid to recipients of these mandatory State supplements.

(3) *Optional State supplementation.* States may also pay optional cash supplements either to all aged, blind, and disabled SSI recipients or only to reasonable classifications, such as the aged. Under certain conditions, States may provide medicaid to optional supplement recipients.

(d) *Changes in medicaid eligibility as a result of Pub. L. 92-603.*—(1) *General.* In view of the projected increase in the number of individuals who would qualify for cash assistance under SSI, Pub. L. 92-603 changed the requirements for medicaid coverage in that States are no longer required to cover all aged, blind, and disabled cash (SSI) recipients. It did not change the mandatory coverage of all AFDC recipients.

(2) *SSI option.* States may make SSI recipients eligible for medicaid. In addition, they may provide medicaid to individuals receiving only optional State supplements.

(3) *Restricted eligibility ("section 209(b)") option.* Section 209(b), Pub. L. 92-603 (sec. 1902(f) of the Act), permits States to limit medicaid eligibility for the aged, the blind, or the disabled to individuals who meet eligibility requirements more restrictive than those under SSI. However, States exercising this option must deduct SSI, optional State supplements, and incurred medical expenses from income in determining medicaid eligibility.

Thus, there is no fixed income ceiling under this option; it permits any aged, blind, or disabled individual with enough medical expenses to become eligible.

(4) *Protected medicaid eligibility.* Whichever major option for coverage of the aged, blind, or disabled a State elects, all States are required to provide medicaid to recipients of mandatory State supplements and to certain other groups of individuals who were eligible for medicaid in December 1973 under optional coverage provisions.

§ 435.2 Purpose and applicability.

This part sets forth, for the 50 States and the District of Columbia—

(a) The eligibility provisions that a State plan must contain;

(b) The mandatory and optional groups of individuals to whom medicaid is provided under a State plan;

(c) The eligibility requirements and procedures that the medicaid agency must use in determining and redetermining eligibility, and requirements it may not use;

(d) The availability of FFP for providing medicaid and for administering the eligibility provisions of the plan; and

(e) Other requirements concerning eligibility determinations, such as use of an institutionalized individual's income for the cost of care.

(See also 45 CFR 206.10, Application, Determination of Eligibility and Furnishing Assistance, for regulations on eligibility administration. These include such matters as content and processing of applications for medicaid, dates of entitlement, etc.)

§ 435.3 Basis.

This part implements the following sections of the Act, which state eligibility requirements and standards:

1902(a)(8) Opportunity to apply; assistance must be furnished promptly.
1902(a)(10) Required and optional groups.
1902(a)(12) Determination of blindness.
1902(a)(17) Standards for determining eligibility; flexibility in the application of income eligibility standards.
1902(a)(19) Safeguards for simplicity of administration and best interests of recipients.
1902(a)(34) Three-month retroactive eligibility.
1902(a) (third paragraph after (37)) Eligibility despite increased monthly insurance benefits under title II.
1902(b) Prohibited conditions for eligibility.
1902(e) Four-month continued eligibility for families ineligible because of increased hours or income from employment.
1902(f) State option to restrict medicaid eligibility for aged, blind, or disabled individuals to those who would have been eligible under State plan in effect in January 1972.
1903(f) Income limitations for medically needy and individuals covered by State supplement eligibility requirements.
1904(a)(1)–(vii) List of eligible individuals.
1905(a) (clause following (17)) Prohibitions against providing medicaid to certain institutionalized individuals.
1905(a) (second sentence) Definition of essential person.
1905(d)(2) Definition of resident of an intermediate care facility for the mentally retarded.
1905(j) Definition of State supplementary payment.
1905(k) Eligibility of essential spouses of eligible individuals.

§ 435.4 Definitions and use of terms.

As used in this part—

"AABD" means aid to the aged, blind, and disabled under title XVI of the Act;

"AB" means aid to the blind under title X of the Act;

"AFDC" means aid to families with dependent children under title IV-A of the Act;

"APTD" means aid to the permanently and totally disabled under title XIV of the Act;

"Categorically needy" means aged, blind or disabled individuals or families and children who are otherwise eligible for medicaid and who meet the financial eligibility requirements for AFDC, SSI, or an optional State supplement;

"Families and children" refers to eligible members of families with children who are financially eligible under AFDC or medically needy rules and who are deprived of parental support or care as defined under the AFDC program (see 45 CFR 233.90, 233.100). In addition, this group includes individuals under age 21 who are not deprived of parental support or care but are financially eligible under AFDC rules or medically needy rules (see optional coverage group, § 435.207). It does not include individuals under age 21 whose eligibility for medicaid is based on blindness or disability—for these individuals, SSI rules govern;

"Mandatory State supplement" means a cash payment a State is required to make under section 212, Pub. L. 93-66 (July 9, 1973) to an aged, blind, or disabled individual. Its purpose is to provide an individual with the same amount of cash assistance he was receiving under OAA, AB, APTD, or AABD if his SSI payment is less than that amount;

"Medically needy" means aged, blind, or disabled individuals or families and children who are otherwise eligible for medicaid and whose income and resources are above the limits prescribed for the categorically needy but are within limits set under the medicaid State plan;

"OAA" means old age assistance under title I of the Act;

"OASDI" means old age, survivors, and disability insurance under title II of the Act;

"Optional State supplement" means a cash payment made by a State, under section 1616 of the Act, to an aged, blind, or disabled individual;

"SSI" means supplemental security income under title XVI of the Act.

§ 435.10 State plan requirements.

A State plan must—

(a) Provide that the requirements of this part are met; and

(b) Specify the groups to whom medicaid is provided, as specified in subparts B, C, and D of this part, and the conditions of eligibility for individuals in those groups.

Subpart B—Mandatory Coverage of the Categorically Needy

§ 435.100 Scope.

This subpart prescribes requirements for coverage of categorically needy individuals.

Mandatory Coverage of Families and Children

§ 435.110 Individuals receiving aid to families with dependent children.

(a) A medicaid agency must provide medicaid to individuals receiving AFDC.

(b) For purposes of this section, an individual is receiving AFDC if his needs are included in determining the amount of the AFDC payment. This includes an individual whose presence in the home is considered essential to the well-being of a recipient (see 45 CFR 233.20(a)(2)(vi)) and who could be a recipient under the State's AFDC plan if that plan were as broad as allowed under the Act for FFP.

§ 435.111 Individuals under age 21 who are ineligible for AFDC because of age or school attendance requirements.

The agency must provide medicaid to individuals under age 21 who would be eligible for AFDC if they met the AFDC age or school attendance requirements.

§ 435.112 Families terminated from AFDC because of increased earnings or hours of employment.

(a) If a family loses AFDC solely because of increased income from employment or increased hours of employment, the agency must continue to provide medicaid for 4 months to all members of the family if—

(1) The family received AFDC in any 3 or more months during the 6-month period immediately before the month in which it became ineligible for AFDC; and

(2) At least one member of the family is employed throughout the 4-month period, although this need not be the same member for the whole period.

(b) The 4-month period begins on the date AFDC is terminated. If AFDC benefits are terminated retroactively, the 4-month period also begins retroactively with the first month in which AFDC was erroneously paid.

§ 435.113 Individuals who are ineligible for AFDC because of requirements that do not apply under title XIX of the Act.

The agency must provide medicaid to individuals who would be eligible for AFDC except for an eligibility requirement used in that program that is specifically prohibited under title XIX. (See, for example, § 433.36 of this subchapter which prohibits a medicaid agency from placing liens against a recipient's property.)

§ 435.114 Individuals who would be eligible for AFDC except for increased OASDI income under Pub. L. 92-336 (July 1, 1972).

The agency must provide medicaid to individuals who meet the following conditions:

(a) In August 1972, the individual was entitled to OASDI and—

(1) He was receiving AFDC; or

(2) He would have been eligible for AFDC if he had applied, and the medicaid plan covered this optional group; or

(3) He would have been eligible for AFDC if he were not in a medical institution or intermediate care facility, and the medicaid plan covered this optional group.

(b) The individual would currently be eligible for AFDC except that the increase in OASDI under Pub. L. 92-336 raised his income over the limit allowed under AFDC. This includes an individual who—

(1) Meets all current AFDC requirements except for the requirement to file an application; or

(2) Would meet all current AFDC requirements if he were not in a medical institution or intermediate care facility, and the current medicaid plan covers this optional group.

Mandatory Coverage of the Aged, Blind, and Disabled

§ 435.120 Individuals receiving SSI.

Except as allowed under § 435.121, the agency must provide medicaid to aged, blind, and disabled individuals or couples who receive SSI, including—

(a) Individuals receiving SSI pending a final determination of blindness or disability; and

(b) Individuals receiving SSI under an agreement with the Social Security Administration to dispose of resources that exceed the SSI dollar limits on resources.

§ 435.121 Individuals in States using more restrictive requirements for medicaid than the SSI requirements.

(a) The agency may use medicaid eligibility requirements for the aged, blind, or disabled that are more restrictive than the eligibility requirements for SSI or for an optional State supplement program that meets the conditions specified in § 435.230. The agency may be more restrictive in defining blindness or disability, more restrictive in setting financial requirements for income or resources, or both. The requirements may apply to the aged or the blind or the disabled, or to any combination. For example, the agency may use a more restrictive definition of disability for those applying for medicaid as disabled and a more restrictive income requirement for those who apply as aged, but provide medicaid to all individuals receiving SSI on the basis of blindness.

(b) If an agency uses more restrictive requirements under this section—

(1) Each requirement may be no more restrictive than that in effect under the State's medicaid plan on January 1, 1972, and no more liberal than that applied under SSI or an optional State supplement program that meets the conditions of § 435.230; and

(2) In determining financial eligibility of an individual in the category to which the more restrictive requirements apply, the agency must deduct, from the individual's income, his SSI payment, any optional supplement paid under a program described in § 435.230, and incurred medical expenses as specified in § 435.732.

(c) The following sections of this part apply to the agency's use of more restrictive eligibility requirements:

(1) Section 435.135, treatment of individuals who receive OASDI cost-of-living increases.

(2) Section 435.304, medically needy coverage.

(3) Section 435.530, more restrictive definitions of blindness.

(4) Section 435.540, more restrictive definitions of disability.

(5) Sections 435.731 through 435.733, more restrictive income and resource requirements.

(6) Sections 435.812, 435.813, 435.823, 435.831, 435.834, and 435.841, medically needy financial eligibility requirements.

§ 435.122 Individuals who are ineligible for SSI or optional State supplements because of requirements that do not apply under title XIX of the Act.

If an agency provides medicaid to aged, blind, or disabled individuals receiving SSI or optional State supplements, it must provide medicaid to individuals who would be eligible for SSI or optional State supplements except for an eligibility requirement used in those programs that is specifically prohibited under title XIX. (See, for example, § 433.36 of this subchapter which prohibits a medicaid agency from placing liens against a recipient's property.)

§ 435.130 Individuals receiving mandatory State supplements.

The agency must provide medicaid to individuals receiving mandatory State supplements.

§ 435.131 Individuals eligible as essential spouses in December 1973.

(a) The agency must provide medicaid to any person who was eligible for medicaid in December 1973 as an essential spouse of an aged, blind, or disabled individual who was receiving cash assistance, if the conditions in paragraph (b) of this section are met.

V 43/190 SE 29 78

An "essential spouse" is defined in section 1905(a) of the Act as one who is living with the individual; whose needs were included in determining the amount of cash payment to the individual under OAA, AB, APTD, or AABD; and who is determined essential to the individual's well-being.

(b) The agency must continue medicaid if—

(1) The aged, blind, or disabled individual continues to meet the December 1973 eligibility requirements of the applicable State cash assistance plan; and

(2) The essential spouse continues to meet the conditions that were in effect in December 1973 under the applicable cash assistance plan for having his needs included in computing the payment to the aged, blind, or disabled individual.

§ 435.132 Institutionalized individuals who were eligible in December 1973.

The agency must provide medicaid to individuals who were eligible for medicaid in December 1973, or any part of that month, as inpatients of medical institutions or residents of intermediate care facilities that were participating in the medicaid program and who—

(a) For each consecutive month after December 1973—

(1) Continue to meet the requirements for medicaid eligibility that were in effect under the State's plan in December 1973 for institutionalized individuals; and

(2) Remain institutionalized; and

(b) Are determined by the State or a professional standards review organization to continue to need institutional care.

§ 435.133 Blind and disabled individuals eligible in December 1973.

The agency must provide medicaid to individuals who—

(a) Meet all current requirements for medicaid eligibility except the criteria for blindness or disability;

(b) Were eligible for medicaid in December 1973 as blind or disabled individuals, whether or not they were receiving cash assistance in December 1973; and

(c) For each consecutive month after December 1973, continue to meet the criteria for blindness or disability and the other conditions of eligibility used under the medicaid plan in December 1973.

§ 435.134 Individuals who would be eligible except for the increase in OASDI benefits under Pub. L. 92-336 (July 1, 1972).

The agency must provide medicaid to individuals who meet the following conditions:

(a) In August 1972, the individual was entitled to OASDI and—

(1) He was receiving OAA, AB, APTD, or AABD; or

(2) He would have been eligible for one of those programs except that he had not applied, and the medicaid plan covered this optional group; or

(3) He would have been eligible for one of those programs if he were not in a medical institution or intermediate care facility, and the medicaid plan covered this optional group.

(b) The individual would currently be eligible for SSI except that the increase in OASDI under Pub. L. 92-336 raised his income over the limit allowed under SSI. This includes an individual who—

(1) Meets all current SSI requirements except for the requirement to file an application; or

(2) Would meet all current SSI requirements if he were not in a medical institution or intermediate care facility, and the State's medicaid plan covers this optional group.

§ 435.135 Individuals who become ineligible for cash assistance as a result of OASDI cost-of-living increases received after April 1977.

(a) If an agency provides medicaid to aged, blind, or disabled individuals receiving SSI or optional State supplements, it must provide medicaid to individuals who—

(1) Are receiving OASDI;

(2) Were receiving SSI or optional State supplements but become ineligible for those payments because of OASDI cost-of-living increases paid under section 215(i) of the Act after April 1977; and

(3) Would still be eligible for SSI or optional State supplements if the amount of OASDI cost-of-living increases paid after April 1977 were deducted from income.

(b) Cost-of-living increases include the increases received by the individual or his financially responsible spouse.

(c) If the agency adopts more restrictive eligibility requirements than those under SSI, it must provide medicaid to individuals specified in paragraph (a) of this section on the same basis as medicaid is provided to individuals continuing to receive SSI or optional State supplements. If the individual incurs enough medical expenses to reduce his income to the financial eligibility standard for the categorically needy, the agency must cover him as categorically needy. In determining the amount of his income, the agency may deduct the cost-of-living increase paid under section 215(i), up to the amount of the increase that made him ineligible for SSI, and subsequent increases.

Subpart C—Options fo Coverage as Categorically Needy.

§ 435.200 Scope.

This subpart specifies options for coverage of individuals as categorically needy.

§ 435.201 Individuals included in optional groups.

Except where otherwise specified, a medicaid agency that chooses to cover an optional group must provide medicaid to all eligible individuals in that group. For example, in the options applicable to families and children and the aged, blind, or disabled, the agency may not provide medicaid only to families and children; similarly, in the options applicable to the aged, blind, or disabled, it may not cover only the blind.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN AND THE AGED, BLIND, AND DISABLED

§ 435.210 Individuals who would be eligible for but are not receiving cash assistance.

The agency may provide medicaid to individuals who would be eligible for AFDC, SSI, or an optional State supplement as specified in § 435.230 but who are not receiving these benefits.

§ 435.211 Individuals who would be eligible for cash assistance except for their institutional status.

The agency may provide medicaid to individuals in medical institutions and intermediate care facilities who are ineligible for AFDC, SSI, or an optional State supplement because of lower income standards used under these programs to determine eligibility for institutionalized individuals, but who would be eligible for AFDC, SSI, or an optional State supplement as specified in § 435.230 if they were not institutionalized.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN

§ 435.220 Individuals who would be eligible for AFDC if child care costs were paid from earnings.

(a) The agency may provide medicaid to individuals who would be eligible for AFDC if their work-related child care costs were paid from their earnings rather than by a State agency as a service expenditure.

(b) The agency may use this option only if the State's AFDC plan deducts work-related child care costs from income to determine the amount of AFDC.

§ 435.221 Caretaker relatives of children who would be eligible for AFDC if they met age or school attendance requirements.

The agency may provide medicaid to individuals who meet the definition of a caretaker relative under 45 CFR 233.90(c)(1)(v)(A), if they have in their care a child under age 21 who would be eligible for AFDC if he met the AFDC age or school attendance requirements.

§ 435.222 Individuals under age 21 who would be eligible for AFDC but do not qualify as dependent children.

(a) The agency may provide medicaid to individuals under age 21 who would be eligible for AFDC if they met the definition of dependent child. (See 45 CFR 233.90(c)(1).)

(b) The agency may cover all individuals described in paragraph (a) of this section or individuals in reasonable classifications including the following:

(1) Individuals under age 21 in foster homes or private institutions for whom a public agency is assuming a full or partial financial responsibility. If the agency covers these individuals, it may also provide medicaid to individuals under age 21 placed in foster homes or private institutions by private nonprofit agencies.

(2) Individuals under age 21 in adoptions subsidized in full or in part by a public agency.

(3) Individuals under age 21 in intermediate care facilites, if intermediate care facility services are provided under the plan. If the agency covers these individuals, it may also provide medicaid to individuals in intermediate care facilities for the mentally retarded.

(4) Individuals under age 21 receiving active treatment as inpatients in psychiatric facilities or programs, if inpatient psychiatric services for individuals under 21 are provided under the plan.

§ 435.223 Individuals who would be eligible for AFDC if coverage under the State's AFDC plan were as broad as allowed under title IV-A.

(a) The agency may provide medicaid to individuals who—

(1) Would be eligible for AFDC if the State's AFDC plan included individuals whose coverage under title IV-A is optional (for example, medicaid may be provided to unborn children or members of families with unemployed fathers even though AFDC is not available to them under the State's AFDC plan); or

(2) Would be eligible for AFDC if the State's AFDC plan did not contain eligibility requirements more restrictive than, or in addition to, those required under title IV-A.

(b) The agency may cover any AFDC optional group without covering all such groups.

OPTIONS FOR COVERAGE OF THE AGED, BLIND, AND DISABLED

§ 435.230 Individuals receiving only optional State supplements.

(a) The agency may provide medicaid, in one or more of the following classifications, to individuals who receive only an optional State supplement that meets the conditions specified in paragraph (b) of this section and who would be eligible for SSI except for the level of their income:

(1) All aged individuals.

(2) All blind individuals.

(3) All disabled individuals.

(4) Only aged individuals in domiciliary facilities or other group living arrangements as defined under SSI.

(5) Only blind individuals in domiciliary facilities or other group living arrangements as defined under SSI.

(6) Only disabled individuals in domiciliary facilities or other group living arrangements as defined under SSI.

(7) Individuals receiving a federally administered optional State supplement that meets the conditions specified in this section.

(8) Individuals in additional classifications specified by the Secretary for federally administered supplementary payments under 20 CFR 416.2020(d).

(b) Payments under the optional supplement program must be—

(1) Based on need and paid in cash on a regular basis;

(2) Equal to the difference between the individual's countable income and the income standard used to determine eligibility for supplement. Countable income is income remaining after deductions required under SSI or, at State option, more liberal deductions are made (see § 435.1006 for limitations on FFP in medicaid expenditures for individuals receiving optional State supplements); and

(3) Available to all individuals in the State; however, the plan may provide for variations in the income standard by political subdivision according to cost-of-living differences.

§ 435.231 Individuals in institutions who would not be eligible for cash assistance if they were not institutionalized.

(a) If the agency provides medicaid under § 435.211 to individuals in institutions who would be eligible for AFDC, SSI, or State supplements except for their institutional status, it may also cover aged, blind, and disabled individuals in institutions who—

(1) Because of their income, would not be eligible for SSI or State supplements if they were not institutionalized; but

(2) Have income below a level specified in the plan under § 435.722. (See § 435.1005 for limitations on FFP in medicaid expenditures for individuals specified in this section.)

(b) The agency may cover individuals under this section whether or not the State pays optional supplements.

Subpart D—Optional Coverage of the Medically Needy

§ 435.300 Scope.

This subpart specifies the option for coverage of medically needy individuals.

§ 435.301 General rule.

(a) A medicaid agency may provide medicaid to individuals specified in this subpart who—

(1) Either—

(i) Have income that meets the standards in §§ 435.812 through 435.816; or

(ii) If their income is more than allowed under those standards, have incurred medical expenses at least equal to the difference between their income and the applicable income standard; and

(2) Have resources that meet the standards in §§ 435.840 or 435.841.

(b) If the agency chooses this option, the agency must provide medicaid to all the individuals specified in this subpart.

§ 435.310 Medically needy coverage of families and children.

If the agency provides medicaid to the medically needy, it must provide medicaid to the following individuals who meet the income and resource standards in subpart I of this part;

(a) Members of families with dependent children (§ 435.110);

(b) Individuals under age 21 who are ineligible for AFDC because of age or school attendance requirements (§ 435.111);

(c) Individuals who are ineligible for AFDC because of an eligibility requirement under that program that is specifically prohibited under title XIX (§ 435.113);

(d) The following individuals, if the agency provides medicaid to them as categorically needy:

(1) Individuals who would be eligible for AFDC if the State's AFDC plan were as broad as allowed under title IV-A (§ 435.223).

(2) Individuals who would be eligible for AFDC if child care costs were paid from earnings (§ 435.220).

(3) Caretaker relatives of children who are ineligible for AFDC because of age or school attendance requirements (§ 435.221).

(4) Individuals under age 21 who are ineligible for AFDC because they are not dependent children (§ 435.222).

V 43 / 190 / SE 29 78

§ 435.320 Medically needy coverage of the aged, blind, and disabled in States that cover individuals receiving SSI.

If the agency provides medicaid to individuals receiving SSI and elects to cover the medically needy, it must provide medicaid to the following individuals who meet the income and resource requirements of subpart I of this part:

(a) Aged, blind, and disabled individuals (§ 435.120).

(b) Aged, blind, and disabled individuals who are ineligible for SSI or an optional State supplement because of an eligibility requirement under those programs that is specifically prohibited under title XIX (§ 435.122).

§ 435.321 Medically needy coverage of the aged, blind, and disabled in States that impose more restrictive eligibility requirements.

(a) If an agency provides medicaid only to those aged, blind, or disabled individuals who meet more restrictive requirements than used under SSI and elects to cover the medically needy, it must provide medicaid to aged, blind, and disabled individuals who—

(1) Have income and resources within the standards established under subpart I of this part; and

(2) If applying as blind or disabled, meet the blindness or disability requirements established under § 435.121.

(b) To determine whether an individual is covered as categorically needy or medically needy, the agency must—

(1) Consider as categorically needy those individuals who meet the State's categorically needy financial standard and (i) who, before their incurred medical expenses are deducted from income, meet the financial eligibility requirements for SSI or a State supplement under § 435.230; or (ii) whose OASDI increases are not counted under §§ 435.134 and 435.135.

(2) Consider as medically needy all other individuals.

§ 435.325 Protected medically needy coverage for blind and disabled individuals eligible in December 1973.

If an agency provides medicaid to the medically needy, it must cover individuals who—

(a) Were eligible as medically needy under the medicaid plan in December 1973 on the basis of the blindness or disability criteria of the AB, APTD, or AABD plan;

(b) For each consecutive month after December 1973, continue to meet—

(1) Those blindness or disability criteria; and

(2) The eligibility requirements for the medically needy under the December 1973 medicaid plan; and

(c) Meet the current requirements for eligibility as medically needy under the medicaid plan except for blindness or disability criteria.

Subpart E—General Eligibility Requirements

§ 435.400 Scope.

This subpart prescribes general requirements for determining the eligibility of both categorically and medically needy individuals specified in subparts B, C, and D of this part.

§ 435.401 General rules.

(a) A medicaid agency may not impose any eligibility requirement that is prohibited under title XIX of the Act.

(b) The agency must base any optional group covered under subparts B and C of this part on reasonable classifications that do not result in arbitrary or inequitable treatment of individuals and groups and that are consistent with the objectives of title XIX.

(c) The agency must not use requirements for determining eligibility for optional coverage groups that are—

(1) For families and children, more restrictive than those used under the State's AFDC plan; and

(2) For aged, blind, and disabled individuals, more restrictive than those used under SSI, except for individuals receiving an optional State supplement as specified in § 435.230 or individuals in categories specified by the agency under § 435.121.

§ 435.402 Citizenship and alienage.

The agency must provide medicaid to otherwise eligible residents of the United States who are—

(a) Citizens; or

(b) Aliens lawfully admitted for permanent residence or permanently residing in the United States under color of law, including any alien who is lawfully present in the United States under sec. 203(a)(7) or sec. 212(d)(5) of the Immigration and Nationality Act.

§ 435.403 State residence.

(a) The agency must provide medicaid to otherwise eligible residents of the State.

(b) For purposes of this section—

(1) "Resident" of a State is an individual who is living in the State voluntarily with the intention of making his home there and is not living in the State for a temporary purpose. A child is a resident of the State in which he is living other than on a temporary basis.

(2) In determining residence, the agency may not consider the reason for which the individual entered the State, except to the extent that the reason may bear upon whether he is residing in the State voluntarily or for a temporary purpose.

(3) An individual retains his residence until he abandons it. Temporary absence from the State, with subsequent returns to the State or intent to return when the purposes of the absence have been accomplished, does not interrupt residence.

§ 435.404 Applicant's choice of category.

The agency must allow an individual who would be eligible under more than one category to have his eligibility determined for the category he selects.

Subpart F—Categorical Requirements for Eligibility

§ 435.500 Scope.

This subpart prescribes categorical requirements for determining the eligibility of both categorically and medically needy individuals specified in subparts B, C, and D of this part.

Dependency

§ 435.510 Determination of dependency.

For families with dependent children who are not receiving AFDC, the agency must use the definitions and procedures set forth under the State's AFDC plan to determine whether—

(a) An individual under age 21 is a dependent child because he is deprived of parental support or care; and

(b) An individual is an eligible member of a family with dependent children.

Age

§ 435.520 Age requirements for the aged and children.

(a) The agency must not impose—

(1) An age requirement of more than 65 years;

(2) An age requirement that excludes an individual under age 21 who would be eligible for AFDC if he met AFDC age or school attendance requirements; or

(3) A lower age requirement than that under the State's AFDC plan.

(b) In determining age, the agency must use the common-law method (under which an age is reached the day before the anniversary of birth), except—

(1) For families and children, the agency must use the popular usage method (under which an age is reached on the anniversary of birth), if this method is used under the State's AFDC plan; and

(2) For aged, blind, or disabled individuals, the agency may use the popular usage method, if the plan provides under § 435.121, for coverage of aged, blind, or disabled individuals who meet more restrictive eligibility requirements than those under SSI.

(c) The agency may use an arbitrary date, such as July 1, for determining an individual's age if the year, but not the month, of his birth is known.

Blindness

§ 435.530 Definition of blindness.

(a) *Definition.* The agency must use the same definition of blindness as used under SSI, except that—

(1) In determining the eligibility of individuals whose medicaid eligibility is protected under §§ 435.130 through 435.134, the agency must use the definition of blindness that was used under the medicaid plan in December 1973; and

(2) The agency may use a more restrictive definition to determine eligibility under § 435.121, if the definition is no more restrictive than that used under the medicaid plan on January 1, 1972.

(b) *State plan requirement.* The State plan must contain the definition of blindness, expressed in ophthalmic measurements.

§ 435.531 Determinations of blindness.

(a) Except as specified in paragraph (b) of this section, in determining blindness—

(1) A physician skilled in the diseases of the eye or an optometrist, whichever the individual selects, must examine him, unless both of the applicant's eyes are missing;

(2) The examiner must submit a report of examination to the medicaid agency; and

(3) A physician skilled in the diseases of the eye (for example, an ophthalmologist or an eye, ear, nose, and throat specialist) must review the report and determine on behalf of the agency—

(i) Whether the individual meets the definition of blindness; and

(ii) Whether and when re-examinations are necessary for periodic redeterminations of eligibility, as required under 45 CFR 206.10(a)(9)(iii). Blindness is considered to continue until the reviewing physician determines that the recipient's vision has improved so that he no longer meets the definition.

(b) If an agency provides medicaid to individuals receiving SSI on the basis of blindness, this section does not apply for those individuals.

Disability

§ 435.540 Definition of disability.

(a) *Definition.* The agency must use the same definition of disability as used under SSI, except that—

(1) In determining the eligibility of individuals whose medicaid eligibility is protected under §§ 435.130 through 435.134, the agency must use the definition of disability that was used under the medicaid plan in December 1973; and

(2) The agency may use a more restrictive definition to determine eligibility under § 435.121, if the definition is no more restrictive than that used under the medicaid plan on January 1, 1972.

(b) *State plan requirements.* The State plan must contain the definition of disability.

§ 435.541 Determinations of disability.

(a) Except as specified in paragraph (d) of this section, the agency must obtain a medical report and a social history for individuals applying for medicaid on the basis of disability. The medical report must include a diagnosis based on medical evidence. The social history must contain enough information to enable the agency to determine disability.

(b) A physician and a social worker, qualified by professional training and experience, must review the medical report and social history and determine on behalf of the agency whether the individual meets the definition of disability. The physician must determine whether and when reexaminations will be necessary for periodic redeterminations of eligibility as required under 45 CFR § 206.10(a)(9)(iii).

(c) In subsequently determining disability, the physician and social worker must review reexamination reports and the social history and determine whether the individual continues to meet the definition. Disability is considered to continue until this determination is made.

(d) If an agency provides medicaid to individuals receiving SSI on the basis of disability, this section does not apply for those individuals.

Subpart G—General Financial Eligibility Requirements

§ 435.600 Scope.

This subpart prescribes general financial requirements for determining the eligibility of both categorically and medically needy individuals specified in subparts B, C, and D of this part. Subparts H and I prescribe additional financial requirements.

§ 435.602 Limitation on the financial responsibility of relatives.

Except for a spouse of an individual or a parent for a child who is under age 21 or blind or disabled, the agency must not—

(a) Consider income and resources of any relative available to an individual; nor

(b) Collect reimbursement from any relative for amounts paid by the agency for services provided to an individual.

§ 435.603 Applications for other benefits.

(a) As a condition of eligibility, the agency must require applicants and recipients to take all necessary steps to obtain any annuities, pensions, retirement, and disability benefits to which they are entitled, unless they can show good cause for not doing so.

(b) Annuities, pensions, retirement and disability benefits include, but are not limited to, veterans' compensation and pensions, OASDI benefits, railroad retirement benefits, and unemployment compensation.

Subpart H—Financial Requirements for the Categorically Needy

§ 435.700 Scope.

This subpart prescribes financial requirements for determining the eligibility of categorically needy individuals under subparts B and C of this part. The requirements apply only to individuals who are not receiving AFDC, SSI, or an optional State supplement. The financial eligibility requirements of AFDC, SSI, or the State supplement apply to individuals receiving those payments. This subpart also prescribes requirements for applying an institutionalized recipient's income to cost of care.

Financial Requirements Applicable to Optional Groups: Families and Children

§ 435.711 General requirements.

In determining eligibility for families and children, a medicaid agency must apply the financial eligibility requirements of the State's AFDC plan.

§ 435.712 Financial responsibility of spouses and parents.

(a) For families and children, the agency must consider income and resources of spouses or parents as available to the individual whether or not they are actually contributed, if they live in the same household. For this purpose, "parent" includes a stepparent if he is equally liable with the natural parent for the support of children under State law of general applicability.

(b) If the spouse or parent does not live with the individual, the agency must consider only income and resources that are actually contributed to the individual from a parent or spouse as available to him.

(c) Even if State law confers adult status below age 21, the agency must consider parental income and resources as available to a child, if he is living with the parent, until he becomes 21.

V 43 / 190 SE 29 78

FINANCIAL ELIGIBILITY REQUIREMENTS APPLICABLE TO OPTIONAL GROUPS: THE AGED, BLIND, AND DISABLED IN STATES COVERING INDIVIDUALS RECEIVING SSI

§ 435.721 General requirements.

(a) This section applies when an agency provides medicaid to—

(1) All SSI recipients or to all SSI recipients and to State supplement recipients; and

(2) One or more of the optional coverage groups specified in §§ 435.210 (eligible for but not receiving cash), 435.211 and 435.231 (institutionalized individuals).

(b) If the agency, under § 435.120, provides medicaid to SSI recipients but not to optional State supplement recipients, it must use the SSI financial eligibility requirements to determine medicaid eligibility of aged, blind, and disabled individuals under the optional provisions of §§ 435.210, 435.211, and 435.231. However, under § 435.231, it may use a higher income standard than SSI to determine eligibility for institutionalized individuals.

(c) If the agency provides medicaid to SSI recipients and, under § 435.230, to individuals who are not receiving SSI but are receiving optional State supplements, the agency must use the following criteria to determine medicaid eligibility under the optional provisions of §§ 435.210, 435.211, and 435.231 for aged, blind, and disabled individuals:

(1) The agency must use the SSI financial eligibility requirements for individuals who would be eligible for SSI but would not be eligible for an optional State supplement.

(2) The agency must use the supplement program's financial eligibility requirements for individuals who would be eligible for an optional State supplement. However, the agency may use a higher income standard than SSI or the State supplement program to determine eligibility of institutionalized individuals under § 435.231.

(d) In determining eligibility under paragraph (b) or (c) of this section, the agency must use the SSI deductions from income and resources and budgeting methods set forth in 20 CFR part 416, unless greater deductions from income and higher income standards are used in an optional State supplement program that meets the requirements of § 435.230.

§ 435.722 Institutionalized individuals who would not be eligible for cash assistance if they were not institutionalized.

(a) If an agency, under § 435.231, provides medicaid to individuals in medical institutions and intermediate care facilities who would not be eligible for SSI or State supplements if they were not institutionalized, the agency must use income standards based on the greater need for financial assistance that the individuals would have if they were not in the institution. The standards may vary by the level of institutional care needed by the individual (hospital, skilled nursing, or intermediate level care), or by other factors related to individual needs. (See § 435.1005 for FFP limits on income standards established under this section.)

(b) In determining the eligibility of individuals under the income standards established under this section, the agency must not take into account income that would be disregarded in determining eligibility for SSI or for an optional State supplement.

(c) The agency must apply the income standards established under this section effective with the first full month of institutionalization.

§ 435.723 Financial responsibility of spouses.

(a) If the agency provides medicaid to SSI recipients, it must meet the requirements of this section in determining eligibility of aged, blind, and disabled individuals under the optional coverage provisions of §§ 435.210, 435.211, and 435.231.

(b) The agency must consider income and resources of spouses living in the same household as available to each other, whether or not they are actually contributed.

(c) If both spouses apply or are eligible as aged, blind, or disabled and cease to live together, the agency must consider their income and resources as available to each other for the first 6 months after the month they cease to live together. After this 6-month period, the agency must consider only the income and resources that are actually contributed by one spouse to the other.

(d) If only one spouse in a couple applies or is eligible and they cease to live together, the agency must consider only the income and resources of the eligible spouse that are actually contributed to the eligible spouse after the month in which they cease to live together.

§ 435.724 Financial responsibility of parents for blind or disabled children.

(a) If the agency provides medicaid to SSI recipients, it must meet the requirements of this section in determining eligibility of blind and disabled children under the optional coverage provisions of §§ 435.210, 435.211, and 235.231.

(b) If the child is under age 18 and is living in the same household with a parent or spouse of a parent, the agency must consider the parent's or spouse's income and resources available to the child, whether or not they are actually contributed. This rule also applies to a child under 21 living in the same household, if he is regularly attending a school, college, or university or is receiving technical training designed to prepare him for gainful employment.

(c) After the month in which the child ceases to live with a parent or spouse of a parent, the agency must consider only the income and resources of that parent or spouse that are actually contributed to the child. This rule applies even if the child returns to the household for periodic visits.

§ 435.725 Post-eligibility treatment of income and resources of institutionalized individuals: Application of patient income to the cost of care.

(a) The agency must reduce its payment to an institution, for services provided to an individual specified in paragraph (b) of this section, by deducting the amounts specified in paragraph (c) from the individual's income.

(b) This section applies to the following individuals in medical institutions and intermediate care facilities:

(1) Individuals receiving cash assistance under SSI or AFDC who are eligible for medicaid under §§ 435.110 or 435.120.

(2) Individuals who would be eligible for AFDC, SSI, or an optional State supplement except for their institutional status and who are eligible for medicaid under §435.211.

(3) Aged, blind, and disabled individuals who are eligible for medicaid, under §435.231, under a higher income standard than the standard used in determining eligibility for SSI or optional State supplements.

(c) In reducing its payment to the institution, the agency must deduct the following amounts, in the following order, from the individual's total income including amounts disregarded in determining eligibility:

(1) A personal needs allowance that is reasonable in amount for clothing and other personal needs of the individual while in the institution. This protected personal needs allowance must be at least—

(i) $25 a month for an aged, blind, or disabled individual, including a child applying for medicaid on the basis of blindness or disability;

(ii) $50 a month for an institutionalized couple if both spouses are aged, blind, or disabled and their income is considered available to each other in determining eligibility; and

(iii) For other individuals, a reasonable amount set by the agency, based on a reasonable difference in their personal needs from those of the aged, blind, and disabled. Although the personal needs allowance is protected for his use, the individual must use it to pay for any cost-sharing charges the agency imposes under §§ 447.50 through 447.59 of this subchapter, if he has no other income.

(2) For an individual with only a spouse at home, an additional amount for the maintenance needs of the spouse. This amount must be based on a reasonable assessment of need but must not exceed the highest of—

(i) The amount of the income standard used to determine eligibility for SSI for an individual living in his own home, if the agency provides medicaid only to individuals receiving SSI;

(ii) The amount of the highest income standard, in the appropriate category of age, blindness, or disability, used to determine eligibility for an optional State supplement for an individual in his own home, if the agency provides medicaid to optional State supplement recipients under § 435.230; or

(iii) The amount of the medically needy income standard for one person established under § 435.812, if the agency provides medicaid under the medically needy coverage option.

(3) For an individual with a family at home, an additional amount for the maintenance needs of the family. This amount must—

(i) Be based on a reasonable assessment of their financial need;

(ii) Be adjusted for the number of family members living in the home; and

(iii) Not exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's AFDC plan or the medically needy income standard established under subpart I of this part for a family of the same size.

(4) Amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including—

(i) Medicare and other health insurance premiums, deductibles, or coinsurance charges; and

(ii) Necessary medical or remedial care recognized under State law but not covered under the State's medicaid plan, subject to reasonable limits the agency may establish on amounts of these expenses.

(d) In determining the amount of the individual's income to be used to reduce the agency's payment to the institution, the agency may, for single individuals, deduct an amount (in addition to the personal needs allowance) for maintenance of the individual's home if—

(1) The amount is deducted for not more than a 6-month period; and

(2) A physician has certified that the individual is likely to return to his home within that period.

FINANCIAL ELIGIBILITY FOR THE AGED, BLIND, AND DISABLED IN STATES USING MORE RESTRICTIVE REQUIREMENTS THAN SSI

§ 435.731 General requirements for determining income eligibility in States using more restrictive requirements than SSI.

(a) *Requirements applicable to all individuals.* If the agency, under § 435.121, uses any requirement for aged, blind, or disabled individuals more restrictive than an eligibility requirement under SSI or optional State supplement program, the agency must determine income in accordance with § 435.732 with respect to any category for which more restrictive requirements are imposed. The agency must use the procedures in § 435.732 regardless of the type of restrictive eligibility factor imposed.

(b) *Income standard for institutionalized individuals.* The agency must use lower income standards to determine eligibility for individuals who are in medical institutions or intermediate care facilities than it uses for noninstitutionalized individuals. Those standards must be reasonable in amount for clothing and personal needs of the individual and must be at least—

(1) $25 a month for single individuals; and

(2) $50 a month for an institutionalized coupled if both spouses are aged, blind, or disabled and their income is considered available to each other in determining eligibility.

§ 435.732 Procedures for determining income eligibility.

The agency must determine income eligibility of individuals in the categories specified in § 435.731(a) in the following manner:

(a) *Determining countable income.* Except for individuals in medical institutions and intermediate care facilities, the agency must deduct the following amounts from income to determine the individual's countable income (see § 435.733 for determining countable income for institutionalized individuals):

(1) Any SSI benefit the individual receives.

(2) Any optional State supplement the individual receives.

(3) Increases in OASDI that are deducted under §§ 435.134 and 435.135(c) for individuals specified in those sections.

(4) Other deductions from income applied under the medicaid plan.

(b) *Eligibility based on countable income.* If countable income determined under paragraph (a) of this section or, for institutionalized individuals, under § 435.733, is equal to or less than the applicable income standard established under §§ 435.121 or 435.731(b), the individual is eligible for medicaid.

(c) *Deduction of incurred medical expenses.* (1) If countable income exceeds the income standard, the agency must deduct from income expenses incurred by the individual or financially responsible relatives for necessary medical and remedial services that are recognized under State law and are not subject to payment by a third party, including medicare and other health insurance premiums, deductibles or coinsurance charges, and copayments or deductibles imposed under §§ 447.51 or 447.53 of this subchapter.

(2) The agency may set reasonable limits on the types of incurred medical expenses to be deducted from income.

(d) *Eligibility based on incurred medical expenses.* If, after incurred medical expenses are deducted, countable income is equal to or less than the income standard, the individual is eligible for medicaid.

§ 435.733 Institutionalized aged, blind, or disabled individuals: Determination of countable income.

For purposes of § 435.732(a), the agency must determine countable income for institutionalized individuals in the following manner:

(a) The agency must consider all of the individual's income available to him without deducting the amounts specified in § 435.732(a) (1)-(4) (SSI and State supplement payments, OASDI increases, and other deductions specified in the medicaid plan);

(b) If the individual has only a spouse at home, the agency must deduct from the individual's income an amount for the spouse's maintenance needs. This amount must be based on a reasonable assessment of need but must not exceed the higher of—

(i) The more restrictive income standard established under § 435.121; or

(ii) The medically needy standard for an individual;

(c) If the individual has a family at home, the agency must deduct from his income an amount for their maintenance needs. This amount must—

(i) Be based on a reasonable assessment of their financial need;

(ii) Be adjusted for the number of family members; and

(iii) Not exceed the higher of the need standard under the State's AFDC plan or the medically needy standard for a family of the same size; and

(d) For an individual with no spouse or family at home, the agency may deduct from his income an amount for maintenance of his home if—

(1) The amount is deducted for not more than a 6-month period; and

V 43 / 190 SE 29 78

(2) A physician has certified that the individual is likely to return to his home within that period.

§ 435.734 Financial responsibility of spouses and parents.

In determining medicaid eligibility of an aged, blind, or disabled individual under requirements more restrictive than those used under SSI, the agency must consider the income and resources of spouses and parents as available to the individual in the manner specified in §§ 435.723 and 435.724 or in a more extensive manner, but not more extensive than the requirements in effect under the medicaid plan on January 1, 1972.

FINANCIAL REQUIREMENTS APPLICABLE TO INDIVIDUALS UNDER PROTECTED COVERAGE PROVISIONS

§ 435.740 Protected medicaid eligibility for individuals eligible in December 1973.

In determining whether individuals continue to meet the income requirements used in December 1973, for purposes of determining eligibility under §§ 435.131, 435.132, and 435.133, the agency must deduct increased OASDI payments to the same extent that these deductions were in effect in December 1973. These deductions are required by section 306 of the Social Security Amendments of 1972 (Pub. L. 92-603) and section 1007 of Pub. L. 91-172 (enacted Dec. 30, 1969), modified by section 304 of Pub. L. 92-603.

Subpart I—Financial Requirements for the Medically Needy

§ 435.800 Scope.

This subpart prescribes financial requirements for determining the eligibility of medically needy individuals under subpart D of this part.

MEDICALLY NEEDY INCOME STANDARDS

§ 435.811 General requirement.

To determine eligibility of medically needy individuals and families, a medicaid agency must use one income standard for all single individuals and one standard for all families of the same size.

§ 435.812 Medically needy income standard for one person, noninstitutionalized.

(a) Except as allowed under paragraph (b) of this section, the agency must use an income standard to determine eligibility of noninstitutionalized individuals that at least equals the highest of the following amounts:

(1) The amount of the payment standard for an individual that is generally used to determine eligibility under the State's AFDC plan.

(2) If the agency provides medicaid to all individuals receiving SSI, the amount of the income standard used to determine eligibility under SSI of an individual in his home.

(3) If the agency provides medicaid, under § 435.230, to individuals receiving only optional State supplements, the amount of the highest income standard generally used to determine eligibility for an optional State supplement of an individual in his home.

(4) If the agency provides medicaid only to aged, blind, or disabled individuals who meet more restrictive eligibility requirements than those under SSI, the amount of the highest income standard used to determine medicaid eligibility of an aged, blind, or disabled individual.

(b) An agency may use a lower income standard for individuals if—

(1) The income standard used under paragraph (a) of this section exceeds the maximum dollar amount on income allowed for purposes of FFP under § 435.1007; and

(2) The lower income standard at least equals the maximum amount allowed for purposes of FFP.

§ 435.813 Medically needy income standard for one person, institutionalized.

(a) The agency must use a lower income standard than that specified in § 435.812 to determine eligibility of individuals in medical institutions and intermediate care facilities.

(b) The lower income standard must be reasonable in amount for clothing and personal needs of the individual while in the institution and must be at least—

(1) $25 a month for aged, blind, or disabled individuals including a child applying for medicaid on the basis of blindness or disability; and

(2) A reasonable amount set by the agency for other medically needy individuals, based on a reasonable difference in their personal needs from those of the aged, blind, and disabled.

§ 435.814 Medically needy income standard for two persons, non-institutionalized.

(a) Except as provided in paragraph (b) of this section, the agency must use an income standard to determine eligibility for two persons who are not institutionalized that at least equals the highest of the following amounts:

(1) The amount of the payment standard for a family of two that is generally used to determine eligibility under the State's AFDC plan.

(2) If the agency provides medicaid to all individuals receiving SSI, the amount of the income standard used to determine eligibility under SSI of a couple in which both spouses apply as aged, blind, or disabled and live in the same household.

(3) If the agency provides medicaid, under § 435.230, to individuals receiving only optional State supplements, the amount of the highest income standard generally used to determine eligibility for an optional State supplement for couples in which both spouses apply as aged, blind, or disabled and live in the same household.

(4) If the agency provides medicaid only to aged, blind, or disabled individuals who meet more restrictive eligibility requirements than those under SSI, the amount of the highest income standard used to determine medicaid eligibility of couples in which both spouses apply as aged, blind, or disabled and are living in the same household.

(b) An agency may use a lower income standard for two persons if—

(1) The income standard used under paragraph (a) of this section exceeds the maximum dollar amount on income allowed for purposes of FFP under § 435.1007; and

(2) The lower income standard at least equals the maximum amount allowed for purposes of FFP.

§ 435.815 Medically needy income standards for institutionalized couples.

(a) The agency must use a lower income standard than that specified in § 435.814 to determine the eligibility of couples in a medical institution or intermediate care facility if—

(1) Both spouses apply for medicaid and are aged, blind, or disabled; and

(2) Their income is considered available to each other in determining their eligibility for medicaid.

(b) The lower income standard must be reasonable in amount for clothing and personal needs of the couple while in the institution and must be at least $50 a month.

§ 435.816 Medically needy income standards for three or more persons.

The agency must use an income standard to determine eligibility of families of three or more that at least equals the amount of the payment standard generally used to determine eligibility under the State's AFDC plan for families of the same size. This rule also applies in determining eligibility of an individual under age 21 living with his parents who is not eligible as a dependent child and whose parents' income and resources are considered available to him under § 435.821.

FINANCIAL RESPONSIBILITY OF RELATIVES

§ 435.821 Financial responsibility of relatives: Families and children.

(a) The agency must meet the requirements of this section in determining eligibility, under § 435.310, of medically needy families and children.

(b) The agency must consider income and resources of spouses or parents as available to the individual whether or not they are actually contributed, if they live in the same household. For this purpose, "parent" includes a stepparent if he is equally liable with the natural parent for the support of children under State law of general applicability.

(c) If the spouse or parent does not live with the individual, the agency must consider income and resources that are actually contributed by the spouse or parent as available to him. The agency must use the methods and procedures of the State's AFDC plan to determine whether an individual is living with a spouse or parent.

(d) Even if State law of general applicability confers adult status below age 21, the agency must consider parental income and resources as available to a child, if he is living with the parent, until he becomes 21.

§ 435.822 Financial responsibility of relatives of aged, blind, or disabled individuals in States using SSI eligibility requirements.

(a) The agency must meet the requirements of this section in determining eligibility, under § 435.320 of medically needy aged, blind, or disabled individuals.

(b) For aged, blind, or disabled individuals with spouses—

(1) The agency must consider income and resources of spouses living in the same household as available to each other whether or not they are actually contributed;

(2) If both spouses apply or are eligible as aged, blind, or disabled and cease to live together, the agency must consider their income and resources as available to each other for the first 6 months after the month they cease to live together. After this 6-month period, the agency must consider only the income and resources that are actually contributed by one spouse to the other; and

(3) If only one spouse in a couple applies or is eligible and they cease to live together, the agency must consider only the income and resources of the ineligible spouse that are actually contributed to the eligible spouse after the month in which they cease to live together.

(c) For blind or disabled children—

(1) If the child is under age 18 and is living in the same household with a parent or spouse of a parent, the agency must consider the parent's or spouse's income and resources as available to the child whether or not they are actually contributed. This rule also applies to a child under 21 living in the same household, if he is regularly attending a school, college, or university or is receiving technical training designed to prepare him for gainful employment;

(2) After the month in which the child ceases to live with a parent or spouse of a parent, the agency must consider only the income and resources of that parent or spouse that are actually contributed to him. This rule applies even if the child returns to the household for periodic visits.

§ 435.823 Financial responsibility of relatives of aged, blind, or disabled individuals in States using more restrictive requirements than SSI.

In determining medicaid eligibility, under § 435.321, of medically needy aged, blind, or disabled individuals, the agency must consider the income and resources of spouses and parents available in the same manner as they are considered available under § 435.734 for categorically needy aged, blind, or disabled individuals.

MEDICALLY NEEDY INCOME ELIGIBILITY

§ 435.831 Income eligibility.

The agency must determine income eligibility of medically needy individuals in the following manner:

(a) *Determining countable income.* Except for individuals in medical institutions and intermediate care facilities, the agency must deduct the following amounts from income to determine the individual's countable income. (See § 435.832 for countable income for institutionalized individuals.) The agency must use a prospective period of not more than 6 months to compute income.

(1) For families and children, the agency must deduct amounts that would be deducted in determining eligibility under the State's AFDC plan.

(2) For aged, blind, or disabled individuals in States covering all SSI recipients, the agency must deduct amounts that would be deducted in determining eligibility under SSI. However, the agency must also deduct the highest amounts from income that would be deducted in determining eligibility for optional State supplements if these supplements are paid to all individuals who are receiving SSI or would be eligible for SSI except for their income.

(3) For aged, blind, or disabled individuals in States using income requirements more restrictive than SSI, the agency must deduct amounts that are no more restrictive than those used under the medicaid plan on January 1, 1972 and no more liberal than those deducted in determining eligibility under SSI or an optional State supplement. However, the amounts must be at least the same as those that would be deducted in determining eligibility, under § 435.121, of the categorically needy.

(b) *Eligibility based on countable income.* If countable income determined under paragraph (a) of this section or, for institutionalized individuals, under § 435.832, is equal to or less than the applicable income standard under §§ 435.812 through 435.816, the individual or family is eligible for medicaid.

(c) *Deduction of incurred medical expenses.* (1) If countable income exceeds the income standard, the agency must deduct from income, in the following order, incurred medical expenses that are not subject to payment by a third party:

(i) Medicare and other health insurance premiums, deductibles, or coinsurance charges, incurred by the individual or family or financially responsible relatives, including enrollment fees, copayments, or deductibles imposed under §§ 447.51 or 447.53 of this subchapter.

(ii) Expenses incurred by the individual or family or financially responsible relatives for necessary medical and remedial services that are recognized under State law but not included in the plan.

(iii) Expenses incurred by the individual or family or by financially responsible relatives for necessary medical and remedial services that are included in the plan.

(2) The agency may set reasonable limits on the amounts of incurred medical expenses to be deducted from income.

(d) *Eligibility based on incurred medical expenses.* If, after incurred medical expenses are deducted, countable income is equal to or less than the income standard, the individual or family is eligible for the rest of the period for which eligibility is determined.

§ 435.832 Determining countable income: Institutionalized individuals.

To determine countable income for purposes of § 435.831 of medically needy individuals in medical institutions and intermediate care facilities, the agency must deduct the following amounts from the total income available to the individual.

(a) *Deduction for spouse.* If an individual has only a spouse at home, the agency must deduct an amount for the spouse's maintenance needs. This amount must be based on a reasonable assessment of the spouse's financial need but must not exceed the highest of the following amounts:

(1) The amount of the income standard used to determine eligibility under SSI of an individual in his home, if the agency provides medicaid to all individuals receiving SSI.

(2) The amount of the highest income standard generally used to determine eligibility for an optional

V 43 / 190 SE 29 78

State supplement of an individual in his home, if the agency provides medicaid under § 435.230(a) (1) through (3) to aged, blind, or disabled individuals receiving a supplement.

(3) The amount of the highest income standard used to determine medicaid eligibility of aged, blind, or disabled individuals, if the agency provides medicaid under § 435.121 only to aged, blind, or disabled individuals who meet more restrictive income requirements than those under SSI.

(4) The amount of the medically needy income standard for one person established under § 435.812.

(b) *Deduction for family.* If an individual in an institution has a family at home, the agency must deduct an amount for their maintenance needs. This amount must—

(1) Be based on a reasonable assessment of their financial need;

(2) Be adjusted for the number of family members; and

(3) Not exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's AFDC plan or the medically needy income standard for a family of the same size established under § 435.816.

(c) *Deduction for home maintenance.* The agency may, for single individuals, deduct an amount to maintain his home, if—

(1) The amount is deducted for not more than a 6-month period.

(2) A physician has certified that the individual is likely to return to his home within that period.

MEDICALLY NEEDY RESOURCE STANDARDS

§ 435.840 Medically needy resource standards for individuals and two-person families.

(a) Except as allowed in paragraph (b) of this section, the agency must use resource standards to determine eligibility of individuals and two-person families that are at least equal to the higher of the following standards by type of resource, such as a savings account or personal property:

(1) For an individual, the resource standard generally used under the State's AFDC plan or the resource standard used under SSI for an individual.

(2) For a two-person family, the resource standard used under the State's AFDC plan for a two-person family or the resource standard used under SSI for a couple in which both individuals are aged, blind, or disabled.

(b) The agency may use more restrictive resource standards for aged, blind, or disabled individuals or couples if—

(1) The agency uses, under § 435.121, more restrictive resource requirements to determine eligibility of the categorically needy than those used under SSI; and

(2) Those resource requirements are no more restrictive than those used for the categorically needy under § 435.121.

(c) The standard for liquid assets must increase by family size.

§ 435.841 Medically needy resource standards for families of three or more persons.

(a) The agency must use resource standards to determine eligibility of families of three or more that are at least equal to the higher of the following standards by type of resource:

(1) The resource standards generally used under the State's AFDC plan to determine eligibility of families of the same size.

(2) The resource standards used under SSI to determine eligibility of a couple in which both spouses are aged, blind, or disabled.

(b) The standard for liquid assets must increase by family size.

DETERMINING ELIGIBILITY ON THE BASIS OF RESOURCES

§ 435.845 Medically needy resource eligibility.

To determine eligibility on the basis of resources for medically needy individuals, the agency must—

(a) Consider only the individual's resources and those that are considered available to him under the financial responsibility requirements for relatives in §§ 435.821, 435.822, or 435.823;

(b) Consider only resources available during the period for which income is computed under § 435.831(a);

(c) For families and children deduct the value of resources that would be deducted in determining eligibility under the State's AFDC plan;

(d) For aged, blind, or disabled individuals in States covering all SSI recipients, deduct the value of resources that would be deducted in determining eligibility under SSI;

(e) For aged, blind, or disabled individuals in States using resource requirements more restrictive than SSI, deduct the value of resources in an amount no more restrictive than those deducted under the medicaid plan on January 1, 1972 and no more liberal than those deducted in determining eligibility under SSI.

However, the amounts must be at least the same as those that would be deducted in determining, under § 435.121, the eligibility of the categorically needy; and

(f) Apply the resource standards established under §§ 435.840 or 435.841.

Subpart J [Reserved]

Subpart K—Federal Financial Participation

§ 435.1000 Scope.

This subpart specifies when, and the extent to which, FFP is available in expenditures for determining eligibility and for medicaid services to individuals determined eligible under this part, and prescribes limitations and conditions on FFP for those expenditures.

FFP IN EXPENDITURES FOR DETERMINING ELIGIBILITY AND PROVIDING SERVICES

§ 435.1001 FFP for administration.

(a) FFP is available in the necessary administrative costs the State incurs in determining and redetermining medicaid eligibility and in providing medicaid to eligible individuals.

(b) Administrative costs include any costs incident to an eye examination or medical examination to determine whether an individual is blind or disabled.

§ 435.1002 FFP for services.

(a) Except for the limitations and conditions specified in §§ 435.1007 and 435.1008, FFP is available in expenditures for medicaid services for all recipients whose coverage is required or allowed under this part.

(b) FFP is available in expenditures for services provided to recipients who were eligible for medicaid in the month in which the medical care or services were provided except that, for recipients who establish eligibility for medicaid by deducting incurred medical expenses from income, FFP is not available for expenses that are the recipient's liability. (See 45 CFR 206.10(a)(6) for regulations on retroactive eligibility for medicaid.)

§ 435.1003 Recipients determined ineligible for SSI.

(a) If the Social Security Administration (SSA) notifies an agency that a recipient has been determined ineligible for SSI, FFP is available in medicaid expenditures for services to the recipient as follows:

(1) If the agency receives the SSA notice by the 10th day of the month, FFP is available under this section only through the end of the month unless the recipient requests a hearing under 45 CFR 205.10.

(2) If the agency receives the SSA notice after the 10th day of the month, FFP is available only through the end of the following month, unless the recipient requests a hearing under 45 CFR 205.10.

(3) If a recipient requests a hearing, FFP is available as specified in 45 CFR 205.10.

(b) The agency must take prompt action to determine eligibility after receiving the SSA notice.

§ 435.1004 Recipients overcoming certain conditions of eligibility.

(a) FFP is available, as specified in paragraph (b) of this section, in expenditures for services provided to recipients who are overcoming certain eligibility conditions, including blindness, disability, continued absence or incapacity of a parent, or unemployment of a father.

(b) FFP is available for a period not to exceed—

(1) The period during which a recipient of AFDC, SSI or an optional State supplement continues to receive cash payments while these conditions are being overcome; or

(2) For recipients eligible for medicaid only and recipients of AFDC, SSI or an optional State supplement who do not continue to receive cash payments, the second month following the month in which the recipient's medicaid eligibility would have been terminated.

LIMITATIONS ON FFP

§ 435.1005 Recipients in institutions eligible under special outside standard.

For recipients in institutions whose medicaid eligibility is based on a special income standard established under § 435.231, FFP is available in expenditures for services provided to those individuals only if their income before deductions does not exceed 300 percent of the SSI benefit amount payable under section 1611(b)(1) of the Act to an individual in his own home who has no income or resources.

§ 435.1006 Recipients of optional State supplements only.

FFP is available in expenditures for services provided to individuals receiving optional State supplements but not receiving SSI, if their income before deductions does not exceed 300 percent of the SSI benefit amount payable under section 1611(b)(1) of the Act to an individual who has no income and resources.

§ 435.1007 Medically needy.

(a) FFP is available in expenditures for services provided to medically needy recipients whose annual income after deductions specified in § 436.831 (a) and (c) and § 436.832 does not exceed the following amounts, rounded to the next higher multiple of $100:

(1) For couples and families of two or more, 133⅓ percent of the highest money payment that would ordinarily be made under the State's AFDC plan to a family of the same size without income and resources. If the State's AFDC plan specifies a maximum family size beyond which there is no increase in benefits, the medically needy income levels for families whose size exceeds that maximum will be determined by adding an amount for each family member over the maximum size. These amounts must be reasonably related to the amounts by which the State's AFDC plan increases benefits for additional family members in families below the maximum size.

(2) For individuals, 133⅓ percent of an amount reasonably related to the highest money payment which would ordinarily be made under the State's AFDC plan to a family of two without income and resources.

§ 435.1008 Institutionalized individuals.

(a) Except as provided in paragraph (b) of this section, FFP is not available in expenditures for services provided to—

(i) Individuals who are inmates of public institutions as defined in § 435.1009; or

(ii) Individuals under age 65 who are patients in an institution for tuberculosis or mental diseases unless they are under age 22 and are receiving inpatient psychiatric services under § 440.160 of this subchapter.

(b) FFP is available in expenditures for services furnished to eligible individuals during the month in which they become inmates of a public institution or patients in an institution for tuberculosis or mental diseases.

(c) An individual on conditional release or convalescent leave from an institution for mental diseases is not considered to be a patient in that institution. However, such an individual who is under age 22 and has been receiving inpatient psychiatric services under § 440.160 of this subchapter is considered to be a patient in the institution until he is unconditionally released or, if earlier, the date he reaches age 22.

§ 435.1009 Definitions relating to institutional status.

For purposes of FFP, the following definitions apply:

"Active treatment in institutions for the mentally retarded" requires the following:

(a) The individual's regular participation, in accordance with an individual plan of care, in professionally developed and supervised activities, experiences, or therapies.

(b) An individual written plan of care that sets forth measurable goals or objectives stated in terms of desirable behavior and that prescribes an integrated program of activities, experiences or therapies necessary for the individual to reach those goals or objectives. The overall purpose of the plan is to help the individual function at the greatest physical, intellectual, social, or vocational level he can presently or potentially achieve.

(c) An interdisciplinary professional evaluation that—

(1) Is completed, for a recipient, before admission to the institution but not more than 3 months before and, for an individual applying for medicaid after admission, before the institution requests payment;

(2) Consists of complete medical, social, and psychological diagnosis and evaluations and an evaluation of the individual's need for institutional care; and

(3) Is made by a physician, a social worker and other professionals, at least one of whom is a qualified mental retardation professional as defined in § 442.401 of this subchapter.

(d) Reevaluation medically, socially, and psychologically at least annually by the staff involved in carrying out the resident's individual plan of care. This must include review of the individual's progress toward meeting the plan objectives, the appropriateness of the individual plan of care, assessment of his continuing need for institutional care, and consideration of alternate methods of care.

(e) An individual postinsti- tutionalization plan, as part of the individual plan of care, developed before discharge by a qualified mental retardation professional and other appropriate professionals. This must include provision for appropriate services, protective supervision, and other follow-up services in the resident's new environment.

"In an institution" refers to an individual who is admitted to live there and receive treatment or services provided there that are appropriate to his requirements.

"Inmate of a public institution" means a person who is living in a public institution. An individual is not considered an inmate if—

(1) He is in a public educational or vocational training institution for purposes of securing education or vocational training; or

(2) He is in a public institution for a temporary period pending other arrangements appropriate to his needs.

"Inpatient" means a patient who has been admitted to a medical institution on recommendation of a physician or dentist and is receiving room, board, and professional services in the institution on a continuous 24-hour-a-day basis.

"Institution" means an establishment that furnishes (in single or multiple facilities) food, shelter, and some treatment or services to four or more persons unrelated to the proprietor.

V 43 / 190 SE 29 78 UMI

"Institution for mental diseases" means an institution that is primarily engaged in providing diagnosis, treatment or care of persons with mental diseases, including medical attention, nursing care and related services. Whether an institution is an institution for mental diseases is determined by its overall character as that of a facility established and maintained primarily for the care and treatment of individuals with mental diseases, whether or not it is licensed as such. An institution for the mentally retarded is not an institution for mental diseases.

"Institution for the mentally retarded or persons with related conditions" means an institution (or distinct part of an institution) that—

(1) Is primarily for the diagnosis, treatment, or rehabilitation of the mentally retarded or persons with related conditions; and

(2) Provides, in a protected residential setting, ongoing evaluation, planning, 24-hour supervision, coordination, and integration of health or rehabilitative services to help each individual function at his greatest ability.

"Institution for tuberculosis" means an institution that is primarily engaged in providing diagnosis, treatment, or care of persons with tuberculosis, including medical attention, nursing care, and related services. Whether an institution is an institution for tuberculosis is determined by its overall character as that of a facility established and maintained primarily for the care and treatment of tuberculosis, whether or not it is licensed as such.

"Medical institution" means an institution that—

(1) Is organized to provide medical care, including nursing and convalescent care;

(2) Has the necessary professional personnel, equipment, and facilities to manage the medical, nursing, and other health needs of patients on a continuing basis in accordance with accepted standards;

(3) Is authorized under State law to provide medical care; and

(4) Is staffed by professional personnel who are responsible to the institution for professional medical and nursing services. The services must include adequate and continual medical care and supervision by a physician; registered nurse or licensed practical nurse supervision and services and nurses' aid services, sufficient to meet nursing care needs; and a physician's guidance on the professional aspects of operating the institution.

"Patient" means an individual who is receiving needed professional services that are directed by a licensed practitioner of the healing arts toward maintenance, improvement, or protection of health, or lessening of illness, disability, or pain.

"Persons with related conditions" means individuals who have epilepsy, cerebral palsy, or other developmental disabilities as defined under part C of the Developmental Disabilities Services and Facilities Construction Act, Pub. L. 91-517 (enacted Oct. 30, 1970), as amended.

"Public institution" means an institution that is the responsibility of a governmental unit or over which a governmental unit exercises administrative control. The term "public institution" does not include a medical institution as defined in this section, an intermediate care facility as defined in §§ 440.140 and 440.150 of this chapter, or a publicly operated community residence that serves no more than 16 residents, as defined in this section.

"Publicly operated community residence that serves no more than 16 residents" is defined in 20 CFR 416.231(b)(6)(i). A summary of that definition is repeated here for the information of readers.

(a) In general, a publicly operated community residence means—

(i) It is publicly operated as defined in 20 CFR 416.231(b)(2).

(ii) It is designed or has been changed to serve no more than 16 residents and it is serving no more than 16; and

(iii) It provides some services beyond food and shelter such as social services, help with personal living activities, or training in socialization and life skills. Occasional medical or remedial care may also be provided as defined in 45 CFR 228.1; and

(2) A publicly operated community residence does not include the following facilities, even though they accommodate 16 or fewer residents:

(i) Residential facilities located on the grounds of, or immediately adjacent to, any large institution or multiple purpose complex.

(ii) Educational or vocational training institutions that primarily provide an approved, accredited, or recognized program to individuals residing there.

(iii) Correctional or holding facilities for individuals who are prisoners, have been arrested or detained pending disposition of charges, or are held under court order as material witnesses or juveniles.

(iv) Hospitals, skilled nursing facilities, and intermediate care facilities.

"Resident of an intermediate care facility" is an individual who is—

(1) In need of and receiving professional services to maintain, improve, or protect health or lessen disability or pain under the direction of a practitioner of the healing arts;

(2) Admitted to an intermediate care facility in accordance with §§ 450.370 through 450.381 of this subchapter;

(3) Under care and supervision 24 hours a day; and

(4) If he is in an institution for the mentally retarded, receiving active treatment as defined in this section.

REQUIREMENTS FOR STATE SUPPLEMENTS

§ 435.1010 Requirement for mandatory State supplements.

(a) Except as specified in paragraph (b) of this section, FFP is not available in medicaid expenditures in any quarter in which the State does not have in effect an agreement with the Secretary under section 212 of Pub. L. 93-66 (July 9, 1973) for minimum mandatory State supplements of the basic SSI benefit.

(b) This section does not apply to any State that meets the conditions of section 212(f) of Pub. L. 93-66.

§ 435.1011 Requirement for maintenance of optinal State supplement expenditures.

(a) This section applies to States that make optional State supplement payments under section 1616(a) of the Act and mandatory supplement payments under section 212(a) of Pub. L. 93-66.

(b) FFP in medicaid expenditures is not available in the following periods, if the State does not have in effect an agreement with the Secretary under section 1618 of the Act to maintain its December 1976 supplementary payment expenditure levels:

(1) Any calendar quarter after June 30, 1977; or

(2) If later, any calendar quarter after the one in which the State first makes supplementary payments.

PART 436—ELIGIBILITY IN GUAM, PUERTO RICO, AND THE VIRGIN ISLANDS

Subpart A—General Provisions and Definitions

Sec.
436.1 Purpose and applicability.
436.2 Basis.
436.3 Definitions and use of terms.
436.10 State plan requirements.

Subpart B—Mandatory Coverage of the Categorically Needy

436.100 Scope.
436.110 Individuals receiving cash assistance.
436.111 Individuals who are not eligible for cash assistance because of a requirement not applicable under medicaid.
436.112 Individuals who would be eligible for cash assistance except for increased OASDI under Pub. L. 92-336, Pub. L. 92-336 (July 1, 1972).
436.115 Individuals under 21 who are ineligible for AFDC because of age and school attendance requirements.
436.116 Families terminated from AFDC because of increased earnings or hours of employment.

Subpart C—Options for Coverage as Categorically Needy

Sec.
436.200 Scope.
436.201 Individuals included in optional group.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN AND THE AGED, BLIND, AND DISABLED

436.210 Individuals who would be eligible for but are not receiving cash assistance.
436.211 Individuals who would be eligible for cash assistance except for their institutional status.
436.212 Individuals who would be eligible for cash assistance if the State plan for AFDC, OAA, AB, APTD, or AABD were as broad as allowed under the Act.

OPTIONS FOR COVERAGE OF FAMILIES AND CHILDREN

436.220 Individuals who would be eligible for AFDC if child care costs were paid from earnings.
436.221 Caretaker relatives of children who would be eligible for AFDC if they met age or school attendance requirements.
436.222 Individuals under age 21 who would be eligible for AFDC but do not qualify as dependent children.

OPTIONS FOR COVERAGE OF THE AGED, BLIND, AND DISABLED

436.230 Essential spouses of aged, blind, or disabled individuals receiving cash assistance.

Subpart D—Optional Coverage of the Medically Needy

436.300 Scope.
436.301 General rule.
436.310 Medically needy coverage of families and children.
436.320 Medically needy coverage of the aged, blind, and disabled.
436.330 Medically needy coverage of families and children and the aged, blind, and disabled.

Subpart E—General Eligibility Requirements

436.400 Scope.
436.401 General rules.
436.202 Citizenship and alienage.
436.403 State residence.
436.404 Applicant's choice of category.

Subpart F—Categorical Requirements for Eligibility

436.500 Scope.

DEPENDENCY

436.510 Determination of dependency.

AGE

436.520 Age requirements for the aged and children.

BLINDNESS

436.530 Definition of blindness.
436.531 Determination of blindness.

DISABILITY

436.540 Definition of disability.
436.541 Determination of disability.

Subpart G—General Financial Eligibility Requirements

Sec.
436.600 Scope.
436.602 Limitation on the financial responsibility of relatives.
436.603 Applications for other benefits.

Subpart H—Financial Requirements for the Categorically Needy

436.700 Scope.
436.711 Determination of financial eligibility.

Subpart I—Financial Requirements for the Medically Needy

436.800 Scope.

MEDICALLY NEEDY INCOME STANDARDS

436.811 General requirement.
436.812 Medically needy income standards for noninstitutionalized individuals.
436.813 Medically needy income standard for institutionalized individuals.

FINANCIAL RESPONSIBILITY OF RELATIVES

436.821 Financial responsibility of spouses and parents.

MEDICALLY NEEDY INCOME ELIGIBILITY AND LIABILITY FOR PAYMENT OF MEDICAL EXPENSES

436.831 Income eligibility.
436.832 Determining countable income: Institutionalized individuals.

MEDICALLY NEEDY RESOURCE STANDARDS

436.840 Medically needy resource standards.

DETERMINING ELIGIBILITY ON THE BASIS OF RESOURCES

436.845 Medically needy resource eligibility.

Subpart J [Reserved]

Subpart K—Federal Financial Participation (FFP)

436.1000 Scope.

FFP FOR EXPENDITURES FOR DETERMINING ELIGIBILITY AND PROVIDING SERVICES

436.1001 FFP for administration.
436.1002 FFP for services.
436.1003 Recipients overcoming certain conditions of eligibility.
436.1004 Institutionalized individuals.
436.1005 Definitions relating to institutional status.

PART 436—ELIGIBILITY IN GUAM, PUERTO RICO, AND THE VIRGIN ISLANDS

Subpart A—General Provisions and Definitions

§ 436.1 Purpose and applicability.

This part sets forth, for Guam, Puerto Rico, and the Virgin Islands—

(a) The eligibility provisions that a State plan must contain;

(b) The mandatory and optional groups of individuals to whom medicaid is provided under a State plan;

(c) The eligibility requirements and procedures that a medicaid agency must use in determining and redetermining eligibility, and requirements it may not use; and

(d) The availability of FFP for providing medicaid and for administering the eligibility provisions of the plan.

See also 45 CFR 206.10, Application, Determination of Eligibility and Furnishing Assistance, for regulations on eligibility administration. These include such matters as content and processing of applications for medicaid, dates of entitlement, etc.

§ 436.2 Basis.

This part implements the following sections of the Act, which state requirements and standards for eligibility:

1902(a)(8) Opportunity to apply; assistance must be furnished promptly.
1902(a)(10) Required and optional groups.
1902(a)(12) Determination of blindness.
1902(a)(16) Out-of-State care for State residents.
1902(a)(17) Standards for determining eligibility; flexibility in the application of income eligibility standards.
1902(a)(19) Safeguards for simplicity of administration and best interests of recipients.
1902(a)(34) Three-month retroactive eligibility.
1902(a)(a) (third paragraph after (37)) Eligibility despite increased monthly insurance benefits under title II.
1902(b) Prohibited conditions for eligibility.
1902(e) Four-month continued eligibility for families ineligible because of increased hours or income from employment.
1905(a) (i)-(vii) List of eligible individuals.
1905(a) (clause following (17)) Prohibitions against providing medicaid to certain institutionalized individuals.
1905(a) (second sentence) Definition of essential person.
1905(d)(2) Definition of resident of an intermediate care facility for the mentally retarded.

§ 436.3 Definitions and use of terms.

As used in this part—

"AABD" means aid to the aged, blind, and disabled under title XVI of the Act;

"AB" means aid to the blind under title X of the Act;

"AFDC" means aid to families with dependent children under title IV-A of the Act;

"APTD" means aid to the permanently and totally disabled under title XIV of the Act;

"Categorically needy" means aged, blind, or disabled individuals or families and children who are otherwise eligible for medicaid and who meet the financial eligibility requirements for OAA, AFDC, AB, APTD, or AABD;

V 43 / 190 SEP 29 78 UMI

"Families and children" refers to eligible members of families with children who are financially eligible under AFDC or medically needy rules and who are deprived of parental support or care as defined under the AFDC program (see 45 CFR 233.90; 233.100). In addition, this group includes individuals under age 21 who are not deprived of parental support or care but who are financially eligible under AFDC or medically needy rules (see optional coverage group, § 436.222);

"Medically needy" means aged, blind, or disabled individuals or families and children who are otherwise eligible for medicaid and whose income and resources are above the limits prescribed for the categorically needy but are within limits set under the medicaid State plan.

"OAA" means old age assistance under title I of the Act;

"OASDI" means old age, survivors, and disability insurance under title II of the Act.

§ 436.10 State plan requirements.

A State plan must—

(a) Provide that the requirements of this part are met; and

(b) Specify the groups to whom medicaid is provided, as specified in subparts B, C, and D of this part, and the conditions of eligibility for individuals in those groups.

Supart B–Mandatory Coverage of the Categorically Needy

§ 436.100 Scope.

This subpart prescribes requirements for coverage of categorically needy individuals.

§ 436.110 Individuals receiving cash assistance.

(a) A medicaid agency must provide medicaid to individuals receiving cash assistance under OAA, AFDC, AB, APTD, or AABD.

(b) For purposes of this section, an individual is receiving cash assistance if his needs are considered in determining the amount of the payment. This includes an individual whose presence in the home is considered essential to the well-being of a recipient under the State's plan for OAA, AFDC, AB, APTD, or AABD if that plan were as broad as allowed under the Act for FFP.

§ 436.111 Individuals who are not eligible for cash assistance because of a requirement not applicable under medicaid.

The agency must provide medicaid to individuals who would be eligible for OAA, AFDC, AB, APTD, or AABD except for an eligibility requirement used in those programs that is specifically prohibited under title XIX. (See, for example, § 433.36 of this subchapter, which prohibits a medicaid agency from placing liens against a recipient's property.)

§ 436.112 Individuals who would be eligible for cash assistance except for increased OASDI under Pub. L. 92-336 (July 1, 1972).

The agency must provide medicaid to individuals who meet the following conditions:

(a) In August 1972, the individual was entitled to OASDI and—

(1) He was receiving cash assistance; or

(2) He would have been eligible for cash assistance if he had applied, and the medicaid plan covered this optional group; or

(3) He would have been eligible for cash assistance if he were not in a medical institution or intermediate care facility, and the medicaid plan covered this optional group.

(b) The individual would currently be eligible for cash assistance except that the increase in OASDI under Pub. L. 92-336 raised his income over the limit allowed under the cash assistance program. This includes an individual who—

(1) Meets all current requirements for cash assistance except for the requirement to file an application; or

(2) Would meet all current requirements for cash assistance if he were not in a medical institution or intermediate care facility, and the medicaid plan covers this optional group.

§ 436.115 Individuals under 21 who are ineligible for AFDC because of age and school attendance requirements.

The agency must provide medicaid to individuals under age 21 who would be eligible for AFDC if they met the AFDC age or school attendance requirements.

§ 436.116 Families terminated from AFDC because of increased earnings or hours of employment.

(a) If a family loses AFDC solely because of increased income from employment of increased hours of employment, the agency must continue to provide medicaid for 4 months to all members of the family if—

(1) The family received AFDC in any 3 or more months during the 6-month period immediately before the month in which it became ineligible for AFDC; and

(2) At least one member of the family is employed throughout the 4-month period, although this need not be the same member for the whole period.

(b) The 4-month period begins on the date AFDC is terminated. If AFDC benefits are terminated retroactively, the 4-month period also begins retroactively with the first month in which AFDC was erroneously paid.

Subpart C—Options for Coverage as Categorically Needy

§ 436.200 Scope.

This subpart specifies options for coverage of individuals as categorically needy.

§ 436.201 Individuals included in optional group.

Except where otherwise specified, an agency that chooses to cover an optional group must provide medicaid to all eligible individuals in that group. For example, in the options applicable to families and children and the aged, blind, or disabled, the agency may not provide medicaid only to families and children; similarly, in the options applicable to the aged, blind, or disabled, it may not cover only the blind.

Options for Coverage of Families and Children and the Aged, Blind, and Disabled

§ 436.210 Individuals who would be eligible for but are not receiving cash assistance.

The agency may provide medicaid to individuals who would be eligible for OAA, AFDC, AB, APTD, or AABD but who are not receiving these benefits.

§ 436.211 Individuals who would be eligible for cash assistance except for their institutional status.

The agency may provide medicaid to individuals in medical institutions and intermediate care facilites who are ineligible for OAA, AFDC, AB, APTD, or AABD because of lower income standards used under those programs to determine eligibility for institutionalized individuals, but who would be eligible for those programs if they were not institutionalized.

§ 436.212 Individuals who would be eligible for cash assistance if the State plan for OAA, AFDC, AB, APTD, or AABD were as broad as allowed under the Act.

(a) The agency may provide medicaid to individuals who—

(1) Would be eligible for OAA, AFDC, AB, APTD, or AABD if the State's plan under those programs included individuals whose coverage under title I, IV-A, X, XIV, or XVI is optional (for example, the agency may provide medicaid to unborn children or members of families with unemployed fathers even though the State's AFDC plan does not include them); or

Would qualify for OAA, AFDC, AB, APTD, or AABD if the State's plan under those programs did not contain eligibility requirements more restrictive than, or in addition to, those required under the appropriate title of the Act. (For example, the agency may provide medicaid to individuals who would meet the Federal definition of disability, 45 CFR 233.80, but who do not meet the State's more restrictive definitions.)

(b) The agency may cover one or more optional groups under any of the titles of the Act without covering all such groups.

Options for Coverage of Families and Children

§ 436.220 Individuals who would be eligible for AFDC if child care costs were paid from earnings.

(a) The agency may provide medicaid to individuals who would be eligible for AFDC if their work-related child care costs were paid from their earnings rather than by a State agency as a service expenditure.

(b) The agency may use this option only if the State's AFDC plan deducts work-related child care costs from income to determine the amount of AFDC.

§ 436.221 Caretaker relatives of children who would be eligible for AFDC if they met age or school attendance requirements.

The agency may provide medicaid to individuals who meet the definition of a caretaker relative under 45 CFR 233.90(c)(1)(v)(A), if they have in their care a child under age 21 who would be eligible for AFDC if they met the AFDC age or school attendance requirements.

§ 436.222 Individuals under age 21 who would be eligible for AFDC but do not qualify as dependent children.

(a) The agency may provide medicaid to individuals under age 21 who would be eligible for AFDC if they met the definition of dependent child. (See 45 CFR 233.90(c)(1).)

(b) The agency may cover all individuals described in paragraph (a) of this section or individuals in reasonable classifications including the following:

(1) Individuals under 21 in foster homes or private institutions for whom a public agency is assuming a full or partial financial responsibility. If the agency covers these individuals, it may also provide medicaid to individuals under age 21 in foster homes or private institutions by private nonprofit agencies.

(2) Individuals under age 21 in adoptions subsidized in full or in part by a public agency.

(3) Individuals under age 21 in intermediate care facilities, if intermediate care facility services are provided under the plan. If the agency covers these individuals, it may also provide medicaid to individuals in intermediate care facilities for the mentally retarded.

(4) Individuals under age 21 receiving active treatment as inpatients in psychiatric facilities or programs, if inpatient psychiatric services for individuals under 21 are provided under the plan.

Options for Coverage of the Aged, Blind, and Disabled

§ 436.230 Essential spouses of aged, blind, or disabled individuals receiving cash assistance.

The agency may provide medicaid to the spouse of an individual receiving OAA, AB, APTD, or AABD, if—

(a) The spouse is living with the individual receiving cash assistance;

(b) The cash assistance agency has determined that the spouse is essential to the well-being of the individual and has considered the spouse's needs in determining the amount of cash assistance provided to the individual.

Subpart D—Optional Coverage of the Medically Needy

§ 436.300 Scope.

This subpart specifies the option for coverage of medically needy individuals.

§ 436.301 General rules.

(a) A medicaid agency may provide medicaid to individuals specified in this subpart who—

(1) Either—

(i) Have income that meets the standards in §§ 436.812 or 436.813; or

(ii) If their income is more than allowed under those standards, have incurred medical expenses at least equal to the difference between their income and the applicable income standards; and

(2) Have resources that meet the standards in § 436.840.

(b) If the agency chooses this option, the agency must provide medicaid to all individuals specified in this subpart.

§ 436.310 Medically needy coverage of families and children.

If the agency provides medicaid to the medically needy, it must provide medicaid to the following individuals who meet the income and resource standards in subpart I of this part:

(a) Members of families with dependent children (§ 436.110).

(b) Individuals under age 21 who are ineligible for AFDC because of age or school attendance requirements (§ 436.115).

(c) The following individuals, if the agency provides medicaid to them as categorically needy:

(1) Individuals who would be eligible for AFDC if child care costs were paid from earnings (§ 436.220).

(2) Caretaker relatives of children who are ineligible for AFDC because of age or school attendance requirements (§ 436.221).

(3) Individuals under age 21 who are ineligible for AFDC because they are not dependent children (§ 436.222).

§ 436.320 Medically needy coverage of the aged, blind, and disabled.

If the agency provides medicaid to the medically needy, it must provide medicaid to aged, blind, and disabled individuals who would be eligible as categorically needy under § 436.110 except for their income and resources and who meet the income and resource requirements in subpart I of this part.

§ 436.330 Medically needy coverage of families and children and the aged, blind, and disabled.

If the agency provides medicaid to the medically needy, it must provide medicaid to the following individuals who meet the income and resource standards in subpart I of this part:

(a) Individuals who are ineligible for OAA, AFDC, AB, APTD, or AABD because of an eligibility requirement under those programs that is specifically prohibited under title XIX (§ 436.111).

(b) Individuals who would be eligible for OAA, AFDC, AB, APTD, or AABD if those State plans were as broad as allowed under the Act and if the agency provides medicaid to these individuals as categorically needy under § 436.212.

Subpart E—General Eligibility Requirements

§ 436.400 Scope.

This subpart prescribes general requirements for determining the eligibility of both categorically needy and medically needy individuals specified in subparts B, C, and D of the part.

§ 436.401 General rules.

(a) The agency may not impose any eligibility requirement that is prohibited under title XIX.

(b) The agency must base any optional group covered under subpart B and C of this part on reasonable classifications that do not result in arbitrary or inequitable treatment of individuals and groups and are consistent with the objectives of title XIX.

(c) The agency must not use requirements for determining eligibility for optional coverage groups that are more restrictive than those used under the State plans for OAA, AFDC, AB, APTD, or AABD.

V 43 / 190 / SEP 29 78

§ 436.402 Citizenship and alienage.

The agency must provide medicaid to otherwise eligible residents of the United States who are—

(a) Citizens; or

(b) Aliens lawfully admitted for permanent residence or permanently residing in the United States under color of law, including any alien who is lawfully present in the United States under section 203(a)(7) or section 212(d)(5) of the Immigration and Nationality Act.

§ 436.403 State residence.

(a) The agency must provide medicaid to otherwise eligible residents of the State.

(b) For purposes of this section—

(1) "Resident" of a State is an individual who is living in the State voluntarily with the intention of making his home there and is not living in the State for a temporary purpose. A child is a resident of the State in which he is living other than on a temporary basis.

(2) In determining residence, the agency must not consider the reason for which the individual entered the State, except to the extent that the reason may bear upon whether he is residing in the State voluntarily or for a temporary purpose.

(3) Residence is retained until abandoned. Temporary absence from the State (with subsequent return to the State or intent to return when the purposes of the absence have been accomplished) does not interrupt residence.

§ 436.404 Applicant's choice of category.

The agency must allow an individual who would be eligible under more than one category to have his eligibility determined for the category he selects.

Subpart F—Categorical Requirements for Medicaid Eligibility

§ 436.500 Scope.

This subpart prescribes categorical requirements for determining the eligibility of both categorically needy and medically needy individuals specified in subparts B, C, and D of this part.

Dependency

§ 436.510 Determination of dependency.

For families with dependent children who are not receiving AFDC, the agency must use the definitions and procedures used under the State's AFDC plan to determine whether—

(a) An individual under age 21 is a dependent child because he is deprived of parental support or care; and

(b) An individual is an eligible member of a family with dependent children.

Age

§ 436.520 Age requirements for the aged and children.

(a) The agency must not impose—

(1) An age requirement of more than 65 years;

(2) An age requirement that excludes an individual under age 21 who would be eligible for AFDC if he met AFDC age or school attendance requirements; or

(3) A lower age requirement than that under the State AFDC plan.

(b) In determining age, the agency must use the common law method (under which an age is reached the day before the anniversary of birth) or the popular usage method (under which a specific age is reached on the anniversary of birth), whichever is used under the corresponding State plan for OAA, AFDC, AB, APTD, or AABD.

(c) The agency may use an arbitrary date, such as July 1, for determining an individual's age if the year, but not the month, of his birth is known.

Blindness

§ 436.530 Definition of blindness.

(a) *Definition.* The agency must use the definition of blindness that is used in the State plan for AB or AABD.

(b) *State plan requirement.* The State plan must contain the definition of blindness, expressed in ophthalmic measurements.

§ 436.531 Determination of blindness.

In determining blindness—

(a) A physician skilled in the diseases of the eye or an optometrist, whichever the individual selects, must examine him, unless both of the applicant's eyes are missing;

(b) The examiner must submit a report of examination to the medicaid agency; and

(c) A physician skilled in the diseases of the eye (for example, an ophthalmologist or an eye, ear, nose, and throat specialist) must review the report and determine on behalf of the agency—

(1) Whether the individual meets the definition of blindness; and

(2) Whether and when reexaminations are necessary for periodic redeterminations of eligibility, as required under 45 CFR 206.10(a)(9)(iii). Blindness is considered to continue until the reviewing physician determines that the recipient's vision no longer meets the definition.

Disability

§ 436.540 Definition of disability.

(a) *Definition.* The agency must use the definition of permanent and total disability that is used in the State plan for APTD or AABD. (See 45 CFR 233.80(a)(1) for the Federal recommended definition of permanent and total disability.)

(b) *State plan requirement.* The State plan must contain the definition of permanent and total disability.

§ 436.541 Determination of disability.

(a) The agency must obtain a medical report and a social history for individuals applying for medicaid on the basis of disability. The medical report must include a diagnosis based on medical evidence. The social history must contain enough information to enable the agency to determine disability.

(b) A physician and social worker, qualified by professional training and experience, must review the medical report and social history and determine on behalf of the agency whether the individual meets the definition of disability. The physician must determine whether and when reexaminations will be necessary for periodic redeterminations of eligibility as required under 45 CFR 206.10(a)(9)(iii).

(c) In subsequently determining disability, the physician and social worker must review reexamination reports and the social history and determine whether the individual continues to meet the definition. Disability is considered to continue until this determination is made.

Subpart G—General Financial Eligibility Requirements

§ 436.600 Scope.

This subpart prescribes general financial requirements for determining the eligibility of both categorically needy and medically needy individuals specified in subparts B, C, and D of this part. Subparts H and I prescribe additional financial requirements.

§ 436.602 Limitation on the financial responsibility of relatives.

Except for a spouse of an individual or a parent for a child who is under 21 or blind or disabled, the agency must not—

(a) Consider income and resources of any relative available to an individual; nor

(b) Collect reimbursement from any relative for amounts paid by the agency for services provided to an individual.

§ 436.603 Applications for other benefits.

(a) As a condition of eligibility, the agency must require applicants and recipients to take all necessary steps to obtain any annuities, pensions, and retirement and disability benefits to which they are entitled, unless they can show good cause for not doing so.

(b) Annuities, pensions, and retirement and disability benefits include, but are not limited to, veterans' compensation and pensions, OASDI benefits, railroad retirement benefits, and unemployment compensation.

Subpart H—Financial Requirements for the Categorically Needy

§ 436.700 Scope.

This subpart prescribes financial requirements for determining the eligibility of categorically needy individuals under subparts B and C of this part. The requirements apply only to individuals who are not receiving cash assistance under OAA, AFDC, AB, APTD, or AABD. The financial eligibility requirements of the cash assistance programs apply to those individuals who are receiving cash assistance.

§ 436.711 Determination of financial eligibility.

In determining eligibility of individuals specified in subparts B and C of this part who are not recipients of cash assistance, the agency must apply the financial eligibility requirements of the State plan for OAA, AFDC, AB, APTD, or AABD that would be used if the individual were applying for cash assistance. This includes requirements on financial responsibility of spouses and parents, except that, in determining eligibility of families and children, the agency must consider parental income and resources as available to a child who is living with the parents until he becomes 21, even if State law confers adult status below age 21.

Subpart I—Financial Requirements for the Medically Needy

§ 436.800 Scope.

This subpart prescribes financial requirements for determining the eligibility of medically needy individuals under subpart D of this part.

Medically Needy Income Standards

§ 436.811 General requirement.

To determine eligibility of medically needy individuals and families, the agency must use one income standard for all single individuals and one standard for all families of the same size.

§ 436.812 Medically needy income standards: Noninstitutionalized individuals.

To determine eligibility of individuals who are not institutionalized, the agency must use—

(a) For an individual or two persons, an income standard that at least equals the amount of the highest income standard used on or after January 1, 1966, to determine eligibility for OAA, AFDC, AB, APTD, or AABD; and

(b) For families of three or more, an income standard that at least equals the amount of the payment standard generally used to determine eligibility under the State's AFDC plan for families of the same size. This rule also applies in determining eligibility of an individual under age 21 living with his parents who is not eligible as a dependent child and whose parents' income and resources are considered available to him under § 436.821.

§ 436.813 Medically needy income standard for individuals in institutions.

(a) The agency must use a lower income standard than that specified in § 436.812 to determine eligibility of individuals in medical institutions and intermediate care facilities.

(b) The lower income standard must be reasonable in amount for clothing and personal needs of the individual.

Financial Responsibility of Relatives

§ 436.821 Financial responsibility of spouses and parents.

In determining eligibility of medically needy individuals, the agency must use the rules for determining whether the income of a spouse or parent is available to the individual that would be used if he were applying for OAA, AFDC, AB, APTD or AABD. However, for families and children, the agency must consider parental income and resources available to a child who is living with the parent until he becomes 21, even if State law confers adult status below age 21.

Medically Needy Income Eligibility and Liability For Payment of Medical Expenses

§ 436.831 Income eligibility.

The agency must determine income eligibility of medically needy individuals in the following manner:

(a) *Determining countable income.* Except for individuals in medical institutions and intermediate care facilities, the agency must, to determine countable income, deduct amounts that would be deducted in determining eligibility under the State's plan for OAA, AFDC, AB, APTD, or AABD. (See § 436.832 for countable income for institutionalized individuals.) The agency must use a prospective period of not more than six months to compute income.

(b) *Eligibility based on countable income.* If countable income determined under paragraph (a) of this section or, for institutionalized individuals, under § 436.832, is equal to or less than the applicable income standard under §§ 436.811 or 436.812, the individual is eligible for Medicaid.

(c) *Deduction of incurred medical expenses: Order of deduction.* (1) If countable income exceeds the income standard, the agency must deduct from income, in the following order, incurred medical expenses that are not subject to payment by a third party:

(i) Medicare and other health insurance premiums, deductibles, or coinsurance charges incurred by the individual or family or financially responsible relatives, including enrollment fees, copayments, or deductibles imposed under §§ 447.51 or 447.53 of this subchapter.

(ii) Expenses incurred by the individual or family or financially responsible relatives for necessary medical and remedial services that are recognized under State law but not included in the plan.

(iii) Expenses incurred by the individual or family or by financially responsible relatives for necessary medical and remedial services that are included in the plan.

(2) The agency may set reasonable limits on the amounts of incurred medical expenses to be deducted from income.

(d) *Eligibility based on incurred medical expenses.* If, after incurred medical expenses are deducted, countable income is equal to or less than the income standard, the individual is eligible for the rest of the period for which eligibility is determined.

§ 436.832 Determining countable income: Institutionalized individuals.

To determine countable income for purposes of § 436.831 of medically needy individuals in medical institutions and intermediate care facilities, the agency must deduct the following amounts from the total income available to the individual:

(a) *Deduction for spouse.* If an individual has only a spouse at home, the agency must deduct an amount for the spouse's maintenance needs. This amount must be based on a reasonable assessment of the spouse's financial need but must not exceed the higher of—

(1) The amount of the highest need standard for an individual without income and resources under the State's plan for OAA, AFDC, AB, APTD, or AABD; or

(2) The amount of the medically needy income standard for one person established under § 436.811.

(b) *Deduction for family.* If an individual in an institution has a family at home, the agency must deduct an amount for their maintenance needs. This amount must—

(1) Be based on a reasonable assessment of their financial need;

V 43/190 SE 29 78 UMI

(2) Be adjusted for the number of family members; and

(3) Not exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's AFDC plan or the medically needy income standard for a family of the same size established under § 436.811.

(c) *Deduction for home maintenance.* The agency may, for a single individual, deduct an amount to maintain his home, if—

(1) The amount is deducted for not more than a 6-month period; and

(2) A physician has certified that the individual is likely to return to his home within that period.

MEDICALLY NEEDY RESOURCE STANDARDS

§ 436.840 Medically needy resource standards.

(a) To determine eligibility of individuals and families under subpart E of this part, the agency must use resource standards that are at least equal to the most liberal standard for resources used to determine eligibility for OAA, AFDC, AB, APTD, or AABD on or after January 1, 1966.

(b) The standards for liquid assets must increase by family size.

DETERMINING ELIGIBILITY ON THE BASIS OF RESOURCES

§ 436.845 Medically needy resource eligibility.

To determine eligibility on the basis of resources for medically needy individuals, the agency must—

(a) Consider only the individual's resources and those that are considered available to him under the financial responsibility requirements for relatives under § 436.821;

(b) Consider only resources available during the period for which income is computed under § 436.831(a);

(c) Deduct the value of resources that would be deducted in determining eligibility under the State's plan for OAA, AFDC, AB, APTD, or AABD; and

(d) Apply the resource standards established under § 436.840.

Subpart J [Reserved]

Subpart K—Federal Financial Participation (FFP)

§ 436.1000 Scope.

This subpart specifies when, and the extent to which, FFP is available in expenditures for determining eligibility and for medicaid services to individuals determined eligible under this part, and prescribes limitations and conditions on FFP for those expenditures.

FFP FOR EXPENDITURES FOR DETERMINING ELIGIBILITY AND PROVIDING SERVICES

§ 436.1001 FFP for administration.

(a) FFP is available in the necessary administrative costs the State incurs in determining and redetermining medicaid eligibility and in providing medicaid to eligible individuals.

(b) Administrative costs include any costs incident to an eye examination or medical examination to determine whether an individual is blind or disabled.

§ 436.1002 FFP for services.

(a) FFP is available in expenditures for medicaid services for all recipients whose coverage is required or allowed under this part.

(b) FFP is available in expenditures for services provided to recipients who were eligible for medicaid in the month in which the medical care or services were provided, except that, for recipients who establish eligibility for medicaid by deducting incurred medical expenses from income, FFP is not available for expenses that are the recipient's liability. (See 45 CFR 206.10 (a)(6) for regulations on retroactive eligibility for medicaid.)

§ 436.1003 Recipients overcoming certain conditions of eligibility.

FFP is available for a temporary period specified in the State plan in expenditures for services provided to recipients who are overcoming certain eligibility conditions, including blindness, disability, continued absence or incapacity of a parent, or unemployment of a father.

§ 436.1004 Institutionalized individuals.

(a) Except as provided in paragraph (b) of this section, FFP is not available in expenditures for services provided to—

(1) Individuals who are inmates of public institutions as defined in § 435.1009; or

(2) Individuals under age 65 who are patients in an institution for tuberculosis or mental diseases unless they are under age 22 and are receiving inpatient psychiatric services under § 440.160 of this subchapter.

(b) FFP is available in expenditures for services provided to eligible individuals during the month in which they become inmates of a public institution or patients in an institution for tuberculosis or mental diseases.

(c) An individual on conditional release or convalescent leave from an institution for mental diseases is not considered to be a patient in that institution. However, such an individual who is under age 22 and has been receiving inpatient pyschiatric services under § 440.160 of this subchapter is considered to be a patient in the institution until he is unconditionally released or, if earlier, the date he reaches age 22.

§ 436.1005 Definitions relating to institutional status.

For purposes of FFP, the definitions in § 435.1009 of this subchapter apply to this part.

PART 440—SERVICES: GENERAL PROVISIONS

Subpart A—Definitions

Sec.
440.1 Basis and purpose.
440.2 Specific definitions; definitions of services for FFP purposes.
440.10 Inpatient hospital services, other than services in an institution for tuberculosis or mental diseases.
440.20 Outpatient hospital services and rural health clinic services.
440.30 Other laboratory and X-ray services.
440.40 Skilled nursing facility services for individuals age 21 or older (other than services in an institution for tuberculosis or mental diseases), EPSDT, and family planning services and supplies.
440.50 Physicians' services.
440.60 Medical or other remedial care provided by licensed practitioners.
440.70 Home health services.
440.80 Private duty nursing services.
440.90 Clinic services.
440.100 Dental services.
440.110 Physical therapy, occupational therapy, and services for individuals with speech, hearing, and language disorders.
440.120 Prescribed drugs, dentures, prosthetic devices, and eyeglasses.
440.130 Diagnostic, screening, preventive, and rehabilitative services.
440.140 Inpatient hospital services, skilled nursing facility services, and intermediate care facility services for individuals age 65 or older in institutions for tuberculosis or mental diseases.
440.150 Intermediate care facility services, other than in institutions for tuberculosis or mental diseases.
440.160 Inpatient pyschiatric services for individuals under age 21.
440.170 Any other medical or remedial care recognized under State law and specified by the Secretary.

Subpart B—Requirements and Limits Applicable to All Services

440.200 Basis, purpose, and scope.
440.210 Required services for the categorically needy.
440.220 Required services for the medically needy.
440.230 Sufficiency of amount, duration, and scope.
440.240 Comparability of services for groups.
440.250 Limits on comparability of services.
440.260 Methods and standards to assure quality of services.
440.270 Religious objections.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—Definitions

§ 440.1 Basis and purpose.

This subpart interprets sec. 1905(a) of the act, which lists the services included in the term "medical assistance," and secs. 1905 (c), (d), (f)–(i), and (l), which define some of those services.

§ 440.2 Specific definitions; definitions of services for FFP purposes.

(a) *Specific definitions.* "Outpatient" means a patient who is receiving professional services at an organized medical facility, or distinct part of such a facility, which is not providing him with room and board and professional services on a continuous 24-hour-a-day basis.

"Patient" means an individual who is receiving needed professional services that are directed by a licensed practitioner of the healing arts toward the maintenance, improvement, or protection of health, or lessening of illness, disability, or pain. (See also § 435.1009 of this subchapter for definitions relating to institutional care.)

(b) *Definitions of services for FFP purposes.* Except as limited in part 441, FFP is available in expenditures under the State plan for medical or remedial care and services as defined in this subpart.

§ 440.10 Inpatient hospital services, other than services in an institution for tuberculosis or mental diseases.

"Inpatient hospital services" means services that are ordinarily furnished in a hospital for the care and treatment of an inpatient under the direction of a physician or dentist and that are furnished in an institution that—

(a) Is maintained primarily for the care and treatment of patients with disorders other than tuberculosis or mental diseases;

(b) Is licensed or formally approved as a hospital by an officially designated authority for State standard-setting;

(c) Meets the requirements for participation in medicare; and

(d) Has in effect a utilization review plan, applicable to all medicaid patients, that meets the requirements of § 405.1035 of this chapter, unless a waiver has been granted by the Secretary.

§ 440.20 Outpatient hospital services and rural health clinic services.

(a) *"Outpatient hospital services"* means preventive, diagnostic, therapeutic, rehabilitative, or palliative services provided to an outpatient, by or under the direction of a physician or dentist, by an institution that—

(1) Is licensed or formally approved as a hospital by an officially designated authority for State standard-setting; and

(2) Meets the requirements for participation in medicare.

(b) *Rural health clinic services.* If nurse practitioners or physician assistants (as defined in § 481.1 of this chapter) are not prohibited by State law from furnishing primary health care, "rural health clinic services" means the following services when furnished by a rural health clinic that has been certified in accordance with part 481 of this chapter.

(1) Services furnished by a physician within the scope of practice of his profession under State law, if the physician performs the services in the clinic or the services are furnished away from the clinic and the physician has an agreement with the clinic providing that he will be paid by it for such services.

(2) Services furnished by a physician assistant, nurse practitioner, nurse midwife or other specialized nurse practitioner (as defined in §§ 405.2401 and 481.2 of this chapter) if the services are furnished in accordance with the requirements specified in § 405.2414(a) of this chapter.

(3) Services and supplies that are furnished as an incident to professional services furnished by a physician, physician assistant, nurse practitioner, nurse midwife, or specialized nurse practitioner. (See §§ 405.2413 and 405.2415 of this chapter for the criteria for determining whether services and supplies are included under this paragraph.)

(4) Part-time or intermittent visiting nurse care and related medical supplies (other than drugs and biologicals) if:

(i) The clinic is located in an area in which the Secretary has determined that there is a shortage of home health agencies (see § 405.2417 of this chapter);

(ii) The services are furnished by a registered nurse or licensed practical nurse or a licensed vocational nurse employed by, or otherwise compensated for the services by, the clinic;

(iii) The services are furnished under a written plan of treatment that is established and reviewed at least every 60 days by a supervising physician of the clinic or that is established by a physician, physician assistant, nurse practitioner, nurse midwife, or specialized nurse practitioner and reviewed and approved at least every 60 days by a supervising physician of the clinic; and

(iv) The services are furnished to a homebound recipient. For purposes of visiting nurse care, a "homebound" recipient means one who is permanently or temporarily confined to his place of residence because of a medical or health condition. He may be considered homebound if he leaves the place of residence infrequently. For this purpose, "place of residence" does not include a hospital or a skilled nursing facility.

(c) *Other ambulatory services furnished by a rural health clinic.* If the State plan covers rural health clinic services, other ambulatory services means ambulatory services other than rural health clinic services, as defined in paragraph (b) of this part, that are otherwise included in the plan and meet specific State plan requirements for furnishing those services. Other ambulatory services furnishd by a rural health clinic are not subject to the physician supervision requirements specified in § 481.8(b) of this chapter, unless required by State law or the State plan.

§ 440.30 Other laboratory and X-ray services.

"Other laboratory and X-ray services" means professional and technical laboratory and radiological services—

(a) Ordered and provided by or under the direction of a physician or other licensed practitioner of the healing arts within the scope of his practice as defined by State law;

(b) Provided in an office or similar facility other than a hospital outpatient department or clinic; and

(c) Provided by a laboratory that meets the requirements for participation in medicare.

§ 440.40 Skilled nursing facility services for individuals age 21 or older (other than services in an institution for tuberculosis or mental diseases). EPSDT, and family planning services and supplies.

(a) *Skilled nursing facility services.* (1) "Skilled nursing facility services for individuals age 21 or older, other than services in an institution for tuberculosis or mental diseases," means services that are—

(i) Needed on a daily basis and required to be provided on an inpatient basis under §§ 405.127, 405.128, and 405.128a of this chapter;

(ii) Provided by a facility or distinct part of a facility that is certified to meet the requirements for participation under subpart C of part 442 of this subchapter, as evidenced by a valid agreement between the medicaid agency and the facility for providing skilled nursing facility services and making payments for services under the plan; and

(iii) Ordered by and under the direction of a physician.

(2) Skilled nursing facility services includes services provided by any facility located on an Indian reservation and certified by the Secretary as meet-

V 43/190 SEP 29 78

ing the requirements of subpart K of part 405 of this chapter.

(b) *EPSDT.* "Early and periodic screening and diagnosis and treatment" means—

(1) Screening and diagnostic services to determine physical or mental defects in recipients under age 21; and

(2) Health care, treatment, and other measures to correct or ameliorate any defects and chronic conditions discovered. (See subpart B of part 441 of this subchapter.)

(c) *Family planning services and supplies for individuals of child-bearing age.* [Reserved]

§ 440.50 Physicians' services.

"Physcians' services," whether furnished in the office, the recipient's home, a hospital, a skilled nursing facility, or elsewhere, means services provided—

(a) Within the scope of practice of medicine or osteopathy as defined by State law; and

(b) By or under the personal supervision of an individual licensed under State law to practice medicine or osteopathy.

§ 440.60 Medical or other remedial care provided by licensed practitioners.

(a) "Medical care or any other type remedial care provided by licensed practitioners" means any medical or remedial care or services, other than physicians' services, provided by licensed practitioners within the scope of practice as defined under State law.

(b) Chiropractors' services include only services that—

(1) Are provided by a chiropractor who is licensed by the State and meets standards issued by the Secretary under § 405.232b of this chapter; and

(2) Consists of treatment by means of manual manipulation of the spine that the chiropractor is legally authorized by the State to perform.

§ 440.70 Home health services.

(a) "Home health services" means the services in paragraph (b) of this section that are provided to a recipient—

(1) At his place of residence, as specified in paragraph (c) of this section; and

(2) On his physician's orders as part of a written plan of care that the physician reviews every 60 days.

(b) Home health services includes—

(1) Nursing service, as defined in the State Nurse Practice Act, that is provided on a part-time or intermittent basis by a home health agency as defined in paragraph (d) of this section, or if there is no agency in the area, a registered nurse who—

(i) Is currently licensed to practice in the State;

(ii) Receives written orders from the patient's physician;

(iii) Documents the care and services provided; and

(iv) Has had orientation to acceptable clinical and administrative recordkeeping from a health department nurse;

(2) Home health aide service provided by a home health agency;

(3) Medical supplies, equipment, and applicances suitable for use in the home; and

(4) Physicial therapy, occupational therapy, or speech pathology and audiology services, provided by a home health agency or by a facility licensed by the State to provide medical rehabilitation services. (See § 441.15 of this subchapter.)

(c) A recipient's place of residence, for home health services, does not include a hospital, skilled nursing facility, or intermediate care facility except for home health services in an intermediate care facility that are not required to be provided by the facility under subparts F and G of part 442 of this subchapter. For example, a registered nurse may provide short-term care for a recipient in an intermediate care facility during an acute illness to avoid the recipient's transfer to a skilled nursing facility.

(d) "Home health agency" means a public or private agency or organization, or part of an agency or organization, that meets requirements for participation in medicare.

(e) A "facility licensed by the State to provide medical rehabilitation services" means a facility that—

(1) Provides therapy services for the primary purpose of assisting in the rehabilitation of disabled individuals through an integrated program of—

(i) Medical evaluation and services; and

(ii) Psychological, social, or vocational evaluation and services; and

(2) Is operated under competent medical supervision either—

(i) In connection with a hospital; or

(ii) As a facility in which all medical and related health services are prescribed by or under the direction of individuals licensed to practice medicine or surgery in the State.

§ 440.80 Private duty nursing services.

"Private duty nursing services" means nursing services for recipients who require more individual and continuous care than is available from a visiting nurse or routinely provided by the nursing staff of the hospital or skilled nursing facility, and that are provided—

(a) By a registered nurse or a licensed practical nurse;

(b) Under the direction of the recipient's physician; and

(c) To a recipient in his own home or in a hospital or skilled nursing facility.

§ 440.90 Clinic services.

"Clinic services" means preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services provided to an outpatient, by or under the direction of a physician or dentist, by a facility that is not part of a hospital but is organized and operated to provide medical care to outpatients.

§ 440.100 Dental services.

(a) "Dental services" means diagnostic, preventive, or corrective procedures provided by or under the direction of a dentist in the practice of his profession, including treatment of—

(1) The teeth and other structures of the oral cavity; and

(2) Disease, injury, or impairment that may affect the oral or general health of the recipient.

(b) "Dentist" means an individual licensed to practice dentistry or dental surgery.

§ 440.110 Physical therapy, occupational therapy, and services for individuals with speech, hearing, and language disorders.

(a) *Physical therapy.* (1) "Physical therapy" means services prescribed by a physician and provided to a recipient by or under the direction of a qualified physical therapist. It includes any necessary supplies and equipment.

(2) A "quilified physical therapist" is an individual who is—

(i) A graduate of a program of physical therapy approved by both the Council on Medical Education of the American Medical Association and the American Physical Therapy Association or its equivalent; and

(ii) Where applicable, licensed by the State.

(b) *Occupational therapy.* (1) "Occupational therapy" means services prescribed by a physician and provided to a recipient by or under the direction of a qualified occupational therapist. It includes any necessary supplies and equipment.

(2) A "qualified occupation therapist" is an individual who is—

(i) Registered by the American Occupational Therapy Association; or

(ii) A graduate of a program in occupational therapy approved by the Council on Medical Education of the American Medical Association and engaged in the supplemental clinical experience required before registration by the American Occupational Therapy Association.

(c) *Services for individuals with speech, hearing, and language disorders.* (1) "Services for individuals with speech, hearing, and language disorders" means diagnostic, screening, preventive, or corrective services provided by or under the direction of a speech pathologist or audiologist. It includes any necessary supplies and equipment.

(2) A "speech pathologist or audiologist" is an individual who—

(i) Has a certificate of clinical competence from the American Speech and Hearing Association;

(ii) Has completed the equivalent educational requirements and work experience necessary for the certificate; or

(iii) Has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

§ 440.120 Prescribed drugs, dentures, prosthetic devices, and eyeglasses.

(a) "Prescribed drugs" means simple or compound substances or mixtures of substances prescribed for the cure, mitigation, or prevention of disease, or for health maintenance that are—

(1) Prescribed by a physician or other licensed practitioner of the healing arts within the scope of this professional practice as defined and limited by Federal and State law;

(2) Dispensed by licensed pharmacists and licensed authorized practitioners in accordance with the State Medical Practice Act; and

(3) Dispensed by the licensed pharmacist or practitioner on a written prescription that is recorded and maintained in the pharmacist's or practitioner's records.

(b) "Dentures" are artificial structures made by or under the direction of a dentist to replace a full or partial set of teeth.

(c) "Prosthetic devices" means replacement, corrective, or supportive devices prescribed by a physician or other licensed practitioner of the healing arts within the scope of his practice as defined by State law to—

(1) Artificially replace a missing portion of the body;

(2) Prevent or correct physical deformity or malfunction; or

(3) Support a weak or deformed portion of the body.

(d) "Eyeglasses" means lenses, including frames, and other aids to vision prescribed by a physician skilled in diseases of the eye or an optometrist.

§ 440.130 Diagnostic, screening, preventive, and rehabilitative services.

(a) "Diagnostic services," except as otherwise provided under this subpart, includes any medical procedures or supplies recommended by a physician or other licensed practitioner of the healing arts, within the scope of his practice under State law, to enable him to identify the existence, nature, or extent of illness, injury, or other health deviation in a recipient.

(b) "Screening services" means the use of standardized tests given under medical direction in the mass examination of a designated population to detect the existence of one or more particular diseases or health deviations or to identify for more definitive studies individuals suspected of having certain diseases.

(c) "Preventive services" means services provided by a physician or other licensed practitioner of the healing arts within the scope of his practice under State law to—

(1) Prevent disease, disability, and other health conditions or their progression;

(2) Prolong life; and

(3) Promote physical and mental health and efficiency.

(d) "Rehabilitative services," except as otherwise provided under this subpart, includes any medical or remedial services recommended by a physician or other licensed practitioner of the healing arts, within the scope of his practice under State law, for maximum reduction of physical or mental disability and restoration of a recipient to his best possible functional level.

§ 440.140 Inpatient hospital services, skilled nursing facility services, and intermediate care facility services for individuals age 65 or older in institutions for tuberculosis or mental diseases.

(a) *Inpatient hospital services.* (1) "Inpatient hospital services for individuals age 65 or older in institutions for tuberculosis or mental diseases" means services provided under the direction of a physician for the care and treatment of recipients in—

(i) An institution for tuberculosis that meets the requirements under medicare, § 405.1036 of this chapter; and

(ii) An institution for mental diseases that meets the requirements under medicare, §§ 405.1035 and 405.1036 of this chapter, except the requirements for admission reviews under § 405.1035(f) of this chapter, or utilization review under § 405.1035 of this chapter if the institution has been granted a waiver under sec. 1903(i)(4) and subpart H of part 456 of this subchapter.

(2) "Institution for mental diseases" means an institution that is primarily engaged in providing diagnosis, treatment, or care of individuals with mental diseases, including medical care, nursing care, and related services.

(3) "Institution for tuberculosis" means an institution that is primarily engaged in providing diagnosis, treatment, or care of individuals with tuberculosis, including medical attention, nursing care, and related services.

(b) *Skilled nursing facility services.* "Skilled nursing facility services for individuals age 65 or older in institutions for tuberculosis or mental diseases" means skilled nursing facility services as defined in § 440.40 that are provided in institutions for tuberculosis or mental diseases, as defined in paragraph (a) of this section.

(c) *Intermediate care facility services.* "Intermediate care facility services for individuals age 65 or older in institutions for tuberculosis or mental diseases" means intermediate care facility services as defined in § 440.150 of this subpart, that are provided to recipients who are—

(1) Determined under §§ 456.360-456.372 of this subchapter to be in need of services; and

(2) In institutions for tuberculosis and mental diseases, as defined in paragraph (a) of this section.

§ 440.150 Intermediate care facility services, other than in institutions for tuberculosis or mental diseases.

(a) "Intermediate care facility services, other than in an institution for tuberculosis or mental diseases" means services provided in a facility that—

(1) Fully meets the requirements for a State license to provide, on a regular basis, health-related services to individuals who do not require hospital or skilled nursing facility care, but whose mental or physical condition requires services that—

(i) Are above the level of room and board; and

(ii) Can be made available only through institutional facilities;

(2) Has been certified to meet the requirements of subpart C of part 442 of this subchapter as evidenced by a valid agreement between the medicaid agency and the facility for providing intermediate care facility services and making payments for services under the plan; and

(3) Meets the conditions of subpart E of part 442 of this subchapter.

(b) "Intermediate care facility services" include services—

(1) Considered appropriate by the State and provided by a Christian Science sanatorium operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Mass.; or

(2) Provided by a facility located on an Indian reservation that—

(i) Furnishes, on a regular basis, health-related services; and

(ii) Is certified by the Secretary to meet the standards in subpart E of part 442 of this subchapter.

(c) "Intermediate care facility services" may include services in an institution for the mentally retarded or persons with related conditions if—

(1) The primary purpose of the institution is to provide health or rehabili-

V 43 / 190 SEP 29 78

tative services for mentally retarded individuals or persons with related conditions;

(2) The institution meets the standards in subpart E of part 442 of this subchapter; and

(3) The mentally retarded recipient for whom payment is requested is receiving active treatment as defined in § 435.1009.

(d) "Intermediate care facility services" may include services provided in a distinct part of a facility other than an intermediate care facility if the distinct part—

(1) Meets all requirements for an intermediate care facility;

(2) Is an identifiable unit, such as an entire ward or contiguous ward, a wing, floor, or building;

(3) Consists of all beds and related facilities in the unit;

(4) Houses all recipients for whom payment is being made for intermediate care facility services, except as provided in paragraph (e) of this section;

(5) Is clearly identified; and

(6) Is approved in writing by the survey agency.

(e) If a State includes as intermediate care facility services those services provided by a distinct part of a facility other than an intermediate care facility, it may not require transfer of a recipient within or between facilities if, in the opinion of the attending physician, it might be harmful to the physical or mental health of the recipient.

§ 440.160 Inpatient phychiatric services for individuals under age 21.

"Inpatient psychiatric services for individuals under age 21" means services that—

(a) Are provided under the direction of a physician;

(b) Are provided in a facility or program accredited by the Joint Commission on Accreditation of Hospitals; and

(c) Meet the requirements in subpart D of part 441.

§ 440.170 Any other medical care or remedial care recognized under State law and specified by the Secretary.

(a) *Transportation.* (1) "Transportation" includes expenses for transportation and other related travel expenses determined to be necessary by the agency to secure medical examinations and treatment for a recipient.

(2) Transportation, as defined in this section, is furnished only by a provider to whom a direct vendor payment can appropriately be made by the agency. If other arrangements are made to assure transportation under § 431.52 of this subchapter, FFP is available as an administrative cost.

(3) "Travel expenses" include—

(i) The cost of transportation for the recipient by ambulance, taxicab, common carrier, or other appropriate means;

(ii) The cost of meals and lodging en route to and from medical care, and while receiving medical care; and

(iii) The cost of an attendant to accompany the recipient, if necessary, and the cost of the attendant's transportation, meals, lodging, and, if the attendant is not a member of the recipient's family, salary.

(b) *Services of Christian Science nurses.* "Services of Christian Science nurses" mean services provided by nurses who are listed and certified by the First Chruch of Christ, Scientist, Boston, Mass., if—

(1) The services have been requested by the recipient; and

(2) The services are provided—

(i) By or under the supervision of a Christian Science visiting nurse organization listed and certified by the First Church of Christ, Scientist, Boston, Mass.; or

(ii) As private duty services to a recipient in his home or in a Christian Science sanatorium operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Mass., if the recipient requires individual and continuous care beyond that available from a visiting nurse or that routinely provided by the nursing staff of the sanatorium.

(c) *Services in Christian Science sanatoriums.* "Services in Christian Science sanatoriums" means services provided in Christian Science sanatoriums that are operated by, or listed and certified by, the First Church of Christ, Scientist, Boston, Mass.

(d) *Skilled nursing facility services for individuals under age 21.* "Skilled nursing facility services for individuals under 21" means those services specified in § 440.40 that are provided to recipients under 21 years of age.

(e) *Emergency hospital services.* "Emergency hospital services" means services that—

(1) Are necessary to prevent the death or serious impairment of the health of a recipient; and

(2) Because of the threat to the life or health of the recipient necessitate the use of the most accessible hospital available that is equipped to furnish the services, even if the hospital does not currently meet—

(i) The conditions for participation under medicare; or

(ii) The definitions of inpatient or outpatient hospital services under §§ 440.10 and 440.20.

(f) *Personal care services in a recipient's home.* "Personal care services in a recipient's home" means services prescribed by a physician in accordance with the recipient's and provided by an individual who is—

(1) Qualified to provide the services;

(2) Supervised by a registered nurse; and

(3) Not a member of the recipient's family.

Subpart B—Requirements and Limits Applicable to All Services

§ 440.200 Basis, purpose, and scope.

(a) This subpart implements—

(1) Section 1902(a)(10), regarding comparability of services for groups of recipients;

(2) Section 1902(a)(13) (B) and (C) of the Act, which prescribes the amount, duration, and scope of services described in 1905(a) of the Act that the State plan must provide for recipients;

(3) Section 1902(a)(22)(D), which provides for standards and methods to assure quality of services; and

(4) Section 1907 on observance of religious beliefs.

(b) The requirements and limits of this subpart apply for all services defined in subpart A of this part.

§ 440.210 Required services for the categorically needy.

A State plan must specify that, as a minimum, categorically needy recipients are provided the services as specified in §§ 440.10–440.50.

§ 440.220 Required services for the medically needy.

If the plan includes the medically needy, it must specify that the medically needy are provided, as a minimum—

(a) The medical and remedial services in §§ 440.10–440.50; or

(b) The services contained in any seven of the sections in §§ 440.10–440.160 and, if the plan includes inpatient hospital services or skilled nursing facility services, physicians' services to recipients who are patients in a hospital or skilled nursing facility, even though physician services, as defined in § 440.50, are not otherwise included for the medically needy.

§ 440.230 Sufficiency of amount, duration, and scope.

(a) The plan must specify the amount and duration of each service that it provides.

(b) Each service must be sufficient in amount, duration, and scope to reasonably achieve its purpose.

(c) (1) The medicaid agency may not deny or reduce the amount, duration, or scope of a required service under §§ 440.210 and 440.220 to an otherwise eligible recipient solely because of the diagnosis, type of illness, or condition.

(2) The agency may place appropriate limits on a service based on medical necessity or on utilization control procedures.

§ 440.240 Comparability of services for groups.

Except as limited in § 440.250—

(a) The plan must provide that the services available to any categorically needy recipient under the plan are not less in amount, duration, and scope than those services available to a medically needy recipient; and

(b) The plan must provide that the services available to either the categorically or medically needy are equal in amount, duration, and scope for all recipients within the group.

§ 440.250 Limits on comparability of services.

(a) Skilled nursing facility services (§ 440.40(a)) may be limited to recipients age 21 or older.

(b) Early and periodic screening, diagnosis, and treatment (§ 440.40(b)) must be limited to recipients under age 21.

(c) Family planning services and supplies must be limited to recipients of childbearing age, including minors who can be considered sexually active and who desire the services and supplies.

(d) If covered under the plan, services to recipients in institutions for tuberculosis or mental diseases (§ 440.140) must be limited to those age 65 or older.

(e) If covered under the plan, inpatient psychiatric services (§ 440.160) must be limited to recipients age 21 or younger.

(f) If medicare benefits are made available to recipients through a buy-in agreement or payment of premiums, deductibles, cost sharing or similar charges, they may be limited to recipients who are covered by the agreement or payment.

(g) If services in addition to those offered under the plan are made available under a contract between the agency or political subdivision and an organization providing comprehensive health services, those additional services may be limited to recipients who reside in the geographic area served by the contracting organization and who elect to receive services from it.

§ 440.260 Methods and standards to assure quality of services.

The plan must include a description of methods and standards used to assure that services are of high quality.

§ 440.270 Religious objections.

(a) Except as specified in paragraph (b) of this section, the agency may not require any individual to undergo any medical service, diagnosis, or treatment or to accept any other health service provided under the plan if the individual objects, or in the case of a child, a parent or guardian objects, on religious grounds.

(b) If a physical examination is necessary to establish eligibility based on disability or blindness, the agency may not find an individual eligible for medicaid unless he undergoes the examination.

PART 441—SERVICES: REQUIREMENTS AND LIMITS APPLICABLE TO SPECIFIC SERVICES

Sec.
441.1 Purpose.

Subpart A—General Provisions

441.10 Basis.
441.11 Continuation of FFP for institutional services.
441.13 Prohibitions on FFP: Institutionalized individuals.
441.15 Home health services.
441.20 Family planning services.
441.30 Optometric services.
441.40 End-stage renal disease.

Subpart B—Early and Periodic Screening, Diagnosis, and Treatment of Individuals Under Age 21

441.50 Basis and purpose.
441.51 State plan requirements.
441.52 Required services.
441.53 Additional services under EPSDT.
441.54 Administration.
441.55 Services from title V grantees.
441.56 Maximum utilization of existing services.

Subpart C—Medicaid for Individuals Age 65 or Over in Institutions for Mental Diseases [Reserved]

Subpart D—Inpatient Psychiatric Services for Individuals Under Age 21 in Psychiatric Facilities or Programs

441.150 Basis and purpose.
441.151 General requirements.
441.152 Certification of need for services.
441.153 Team certifying need for services.
441.154 Active treatment.
441.155 Individual plan of care.
441.156 Team developing individual plan of care.
441.180 Maintenance of effort: General rule.
441.181 Maintenance of effort: Explanation of terms and requirements.
441.182 Maintenance of effort: Computation.

Subpart E—Abortions

441.200 Basis and purpose.
441.201 Definitions.
441.202 General rule.
441.203 Life of mother would be endangered.
441.204 Severe and long-lasting damage to physical health.
441.205 Rape and incest.
441.206 Documentation needed by the medicaid agency.
441.207 Drugs and devices and termination of ectopic pregnancies.
441.208 Recordkeeping requirements.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

§ 441.1 Purpose.

This part sets forth State plan requirements and limits on FFP for specific services defined in part 440 of this subchapter. Standards for payments for services provided in intermediate care facilities and skilled nursing facilities are set forth in part 442 of this subchapter.

Subpart A—General Provisions

§ 441.10 Basis.

This subpart is based on the following sections of the Act which state requirements and limits on the services specified or provide Secretarial authority to prescribe regulations relating to services:

(a) Sections 1902(a)(13)(A)(ii) and 1905(a)(7) for home health services (§ 441.15).

(b) Section 1905(a)(4)(C) for family planning (§ 441.20).

(c) Section 1905(a)(12) and (e) for optometric services (§ 441.30).

(d) Section 1102 for end-stage renal disease (§ 441.40).

(e) Section 1905(a) (following (a)(17)), which prohibits FFP in expenditures for certain services (§ 441.12).

§ 441.11 Continuation of FFP for institutional services.

(a) If a medicaid agency terminates or fails to renew a provider agreement for the services specified in paragraph (c) of this section because the services no longer meet the applicable definitions, FFP may be continued for a period specified in paragraph (b) of this section, only—

(1) For payment for individuals admitted to the facility before the provider agreement terminated or was not renewed; and

(2) If the agency makes reasonable efforts to transfer the individuals to another facility or to alternate care.

(b) FFP may be continued under the conditions specified in paragraph (a) of this section, for no more than 30 days from—

(1) The termination or expiration date by HCFA of the facility's provider agreement under medicare;

(2) The termination or expiration date by the agency of its provider agreement; or

(3) For a facility or program providing inpatient psychiatric services for individuals under age 21, the earlier of either—

(i) The effective date of its loss of accreditation by the Joint Commission on Accreditation of Hospitals; or

(ii) The termination by the agency of its provider agreement.

V 43/190 SE 29 78

(c) FFP may be continued, as specified in this section, for the following services:

(1) Inpatient hospital services as defined in § 440.10 of this subchapter.

(2) Inpatient hospital services for individuals age 65 or older in an institution for tuberculosis or mental diseases, as defined in § 440.140 of this subchapter.

(3) Skilled nursing facility services for individuals age 21 or older, as defined in § 440.40(a) of this subchapter.

(4) Skilled nursing facility services for individuals age 65 or older in an institution for tuberculosis or mental diseases, as defined in § 440.140 of this subchapter.

(5) Intermediate care facility services, as defined in § 440.150 of this subchapter.

(6) Intermediate care facility services for individuals age 65 or older in an institution for tuberculosis or mental diseases, as defined in § 440.140 of this subchapter.

(7) Inpatient psychiatric services for individuals under age 21, as defined in § 440.160 of this subchapter.

§ 441.13 Prohibitions on FFP: Institutionalized individuals.

(a) FFP is not available in expenditures for services for—

(1) Any individual who is in a public institution, as defined in § 435.1009 of this subchapter; or

(2) Any individual who is under age 65 and is in an institution for tuberculosis or mental diseases, except an individual who is under age 22 and receiving inpatient psychiatric services under subpart D of this part.

(b) Payments to institutions for the mentally retarded or persons with related conditions and to psychiatric facilities or programs providing inpatient psychiatric services to individuals under age 21 may not include reimbursement for vocational training and educational activities.

§ 441.15 Home health services.

A State plan must provide that—

(a) Home health services include, as a minimum—

(1) Nursing services;

(2) Home health aide services; and

(3) Medical supplies, equipment, and appliances.

(b) The agency provides home health services to—

(1) Categorically needy recipients age 21 or over;

(2) Categorically needy recipients under age 21, if the plan provides skilled nursing facility services for them; individuals; and

(3) Medically needy recipients to whom skilled nursing facility services are provided under the plan.

(c) The eligibility of a recipient to receive home health services does not depend on his need for or discharge from institutional care.

§ 441.20 Family planning services.

For recipients eligible under the plan for family planning services, the plan must provide that each recipient is free from coercion or mental pressure and free to choose the method of family planning to be used.

§ 441.30 Optometric services.

The plan must provide for payment of optometric services as physician services, whether furnished by an optometrist or a physician, if—

(a) The plan does not provide for payment for services provided by an optometrist, except for eligibility determinations under §§ 435.531 and 436.531 of this subchapter, but did provide for those services at an earlier period; and

(b) The plan specifically provides that physicians' services include services an optometrist is legally authorized to perform.

§ 441.40 End-stage renal disease.

FFP in expenditures for services described in subpart A of part 440 is available for facility treatment of end-stage renal disease only if the facility has been approved by the Secretary to furnish those services under medicare. This requirement for approval of the facility does not apply under emergency conditions permitted under medicare (see § 405.1011 of this chapter).

Subpart B—Early and Periodic Screening, Diagnosis and Treatment of Individuals Under Age 21

§ 441.50 Basis and purpose.

This subpart implements sec. 1905 of the Act by prescribing State plan requirements for early and periodic screening and diagnosis of individuals under age 21 to ascertain physical and mental defects, and treatment to correct or ameliorate defects and chronic conditions found. (See 45 CFR 205.146(c) relating to reduction in FFP under AFDC for failure to provide EPSDT to individuals under age 21.)

§ 441.51 State plan requirements.

A State plan must provide that the requirements of this subpart are met with respect to early and periodic screening, diagnosis and treatment (EPSDT) of individuals under age 21, as defined in § 440.40 of this subchapter.

§ 441.52 Required services.

(a) The medicaid agency must make available, to recipients under age 21, early and periodic screening and diagnosis to determine physical and mental defects and treatment of conditions discovered within the limits in the plan on amount, duration, and scope.

(b) Subject to utilization controls it may impose, the agency must also make available, if they are not otherwise included in the plan—

(1) Treatment of visual and hearing defects, including provision of eyeglasses and hearing aids; and

(2) Dental services needed for relief of pain and infection, restoration of teeth, and maintenance of dental health.

§ 441.53 Additional services under EPSDT.

The agency may provide any other services defined in subpart A of part 440 of this subchapter under the EPSDT program to recipients under age 21, even if it does not provide those services or provides them in a lesser amount, duration, or scope to other recipients.

§ 441.54 Administration.

The agency must establish administrative procedures to—

(a) Identify available screening and diagnostic facilities;

(b) Assure that recipients under age 21 may receive services of those facilities; and

(c) Make available EPSDT services covered under the plan.

§ 441.55 Services from title V grantees.

The agency must—

(a) Identify all recipients eligible for EPSDT services, including those who are in need of medical or remedial services furnished through title V grantees; and

(b) Assure that recipients eligible for title V services are—

(1) Informed of the services; and

(2) Referred to title V grantees for services, as appropriate.

§ 441.56 Maximum utilization of existing services.

The agency must provide for agreements to assure maximum use of existing screening, diagnostic, and treatment services provided by public and voluntary agencies such as child health clinics, neighborhood health centers, and similar agencies.

Subpart C—Medicaid for Individuals Age 65 or Over in Institutions for Mental Diseases [Reserved]

Subpart D—Inpatient Psychiatric Services for Individuals Under Age 21 in Psychiatric Facilities or Programs

§ 441.150 Basis and purpose.

This subpart specifies requirements applicable if a State provides inpatient psychiatric services to individuals under age 21, as defined in § 440.160 of this subchapter and authorized under sec. 1905 (a)(16) and (h) of the Act.

§ 441.151 General requirements.

Inpatient psychiatric services for recipients under age 21 must be provided—

(a) Under the direction of a physician;

(b) By a psychiatric facility or an inpatient program in a psychiatric facility, either of which is accredited by the Joint Commission on Accreditation of Hospitals; and

(c) Before the recipient reaches age 21 or, if the recipient was receiving the services immediately before he reached age 21, before the earlier of the following—

(1) The date he no longer requires the services; or

(2) The date he reaches age 22.

§ 441.152 Certification of need for services.

(a) A team specified in § 441.154 must certify that—

(1) Ambulatory care resources available in the community do not meet the treatment needs of the recipient;

(2) Proper treatment of the recipient's psychiatric condition requires services on an inpatient basis under the direction of a physician; and

(3) The services can reasonably be expected to improve the recipient's condition or prevent further regression so that the services will no longer be needed.

(b) The certification specified in this section and in § 441.153 satisfies the utilization control requirement for physician certification in §§ 456.60, 456.160, 456.260, and 456.360 of this subchapter.

§ 441.153 Team certifying need for services.

Certification under § 441.152 must be made by terms specified as follows:

(a) For an individual who is a recipient when admitted to a facility or program, certification must be made by an independent team that—

(1) Includes a physician;

(2) Has competence in diagnosis and treatment of mental illness, preferably in child psychiatry; and

(3) Has knowledge of the individual's situation.

(b) For an individual who applies for medicaid while in the facility of program, the certification must be—

(1) Made by the team responsible for the plan of care as specified in § 441.156; and

(2) Cover any period before application for which claims are made.

(c) For emergency admissions, the certification must be made by the team responsible for the plan of care (§ 441.156) within 14 days after admission.

§ 441.154 Active treatment.

Inpatient psychiatric services must involve "active treatment", which means implementation of a professionally developed and supervised individual plan of care, described in § 441.155 that is—

(a) Developed and implemented no later than 14 days after admission; and

(b) Designed to achieve the recipient's discharge from inpatient status at the earliest possible time.

§ 441.155 Individual plan of care.

(a) "Individual plan of care" means a written plan developed for each recipient in accordance with §§ 456.180–456.181, and 456.280–456.281 of this subchapter, to improve his condition to the extent that inpatient care is no longer necessary.

(b) The plan of care must—

(1) Be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral and developmental aspects of the recipient's situation and reflects the need for inpatient psychiatric care;

(2) Be developed by a team of professionals specified under § 441.156 in consultation with the recipient; and his parents, legal guardians, or others in whose care he will be released after discharge;

(3) State treatment objectives;

(4) Prescribe an integrated program of therapies, activities, and experiences designed to meet the objectives; and

(5) Include, at an appropriate time, post-discharge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school, and community upon discharge.

(c) The plan must be reviewed every 30 days by the team specified in § 441.156 to—

(1) Determine that services being provided are or were required on an inpatient basis, and

(2) Recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient.

(d) The development and review of the plan of care as specified in this section satisfies the utilization control requirements for—

(1) Physician recertification under §§ 456.60, 456.160, 456.260, and 456.360 of this subchapter; and

(2) Establishment and periodic review of the plan of care under §§ 456.80, 456.180, 456.280, and 456.380 of this subchapter.

§ 441.156 Team developing individual plan of care.

(a) The individual plan of care under § 441.155 must be developed by an interdisciplinary team of physicians and other personnel who are employed by, or provide services to patients in, the facility.

(b) Based on education and experience, preferably including competence in child psychiatry, the team must be capable of—

(1) Assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities;

(2) Assessing the potential resources of the recipient's family;

(3) Setting treatment objectives; and

(4) Prescribing therapeutic modalities to achieve the plan's objectives.

(c) The team must include, as a minimum, either—

(1) A Board-eligible or Board-certified psychiatrist;

(2) A clinical psychologist who has a doctoral degree and a physician licensed to practice medicine or osteopathy; or

(3) A physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnosis and treatment of mental diseases, and a psychologist who has a master's degree in clinical psychology or who has been certified by the State or by the State psychological association.

(d) The team must also include one of the following:

(1) A psychiatric social worker.

(2) A registered nurse with specialized training or one year's experience in treating mentally ill individuals.

(3) An occupational therapist who is licensed, if required by the State, and who has specialized training or one year of experience in treating mentally ill individuals.

(4) A psychologist who has a master's degree in clinical psychology or who has been certified by the State or by the State psychological association.

§ 441.180 Maintenance of effort: General rule.

FFP is available only if the State maintains fiscal effort as prescribed under this subpart.

§ 441.181 Maintenance of effort: Explanation of terms and requirements.

(a) For purposes of § 441.182:

(1) The base year is the 4-quarter period ending December 31, 1971.

(2) Quarterly per capita non-Federal expenditures are expenditures for inpatient psychiatric services determined by reimbursement principles under medicare. (See Part 405, subpart D.)

V 43 / 190 SE 29 78

(3) The number of individuals receiving inpatient psychiatric services in the current quarter means—

(i) The number of individuals receiving services for the full quarter; plus

(ii) The full quarter composite number of individuals receiving services for less than a full quarter.

(4) In determining the per capita expenditures for the base year, the medicaid agency must compute the number of individuals receiving services in a manner similar to that in paragraph (a)(3) of this section.

(5) Non-Federal expenditures means the total amount of funds expended by the State and its political subdivisions, excluding Federal funds received directly or indirectly from any source.

(6) Expenditures for the current calendar quarter exclude Federal funds received directly or indirectly from any source.

(b) As a basis for determining the correct amount of Federal payments, each State must submit estimated and actual cost data and other information necessary for this purpose in the form and at the times specified in this subchapter and by HCFA guidelines.

(c) The agency must have on file adequate records to substantiate compliance with the requirements of § 441.182 and to ensure that all necessary adjustments have been made.

(d) Facilities that did not meet the requirements of §§ 441.151–441.156 in the base year, but are providing inpatient psychiatric services under those sections in the current quarter, must be included in the maintenance of effort computation if, during the base year, they were—

(1) Providing inpatient psychiatric services for individuals under age 21; and

(2) Receiving State aid.

§ 441.182 Maintenance of effort: Computation.

(a) For expenditures for inpatient psychiatric services for individuals under age 21, in any calendar quarter, FFP is available only to the extent that the total State medicaid expenditures in the current quarter for inpatient psychiatric services and outpatient psychiatric treatment for individuals under age 21 exceed the sum of the following:

(1) The total number of individuals receiving inpatient psychiatric services in the current quarter times the average quarterly per capita non-Federal expenditures for the base year; and

(2) The average non-Federal quarterly expenditures for the base year for outpatient psychiatric services for individuals under age 21.

(b) FFP is available for 100 percent of the increase in expenditures over the base year period, but may not exceed the Federal medical assistance percentage times the expenditures under this subpart for inpatient psychiatric services for individuals under age 21.

Subpart E—Abortions

§ 441.200 Basis and purpose.

This subpart implements sec. 101 of Pub. L. 95-205 by prohibiting the use of Federal funds for abortions except under certain circumstances stated in this subpart.

§ 441.201 Definitions.

As used in this subpart—

"Law enforcement agency" means an agency, or any part of an agency, charged under applicable law with enforcement of the general penal statutes of the United States or of any State of local jurisdiction.

"Medical procedures performed upon a victim of rape or incest" means any medical service, including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest.

"Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine and surgery by the State in which he practices.

"Public health service" means—

(1) An agency of the United States or of a State of local government that provides health or medical services; and

(2) A "rural health clinic," as defined under sec. 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485, except that any agency or facility whose principal function is the performance of abortions is specifically excluded from this definition.

§ 441.202 General rule.

FFP is not available in expenditures for an abortion except under circumstances described in §§ 441.203 through 441.205.

§ 441.203 Life of the mother would be endangered.

FFP is available in expenditures for an abortion when a physician has found, and certified in writing to the medicaid agency, that on the basis of his professional judgment, the life of the mother would be endangered if the fetus were carried to term. The certification must contain the name and address of the patient.

§ 441.204 Severe and long-lasting damage to physical health.

(a) FFP is available in expenditures for an abortion when two physicians have found, and certified in writing to the medicaid agency, that on the basis of their professional judgment, severe and long lasting physical damage to the mother would result if the pregnancy were carried to term. The cetification must contain the name and address of the patient.

(b) At least one of the two physicians must also certify that he is not an interested physician, as defined in paragraph (c) of this section.

(c) For purposes of paragraph (b) of this section, an "interested physician" is a physician—

(1) Whose income is directly or indirectly affected by the fee paid for the performance of the abortion; or

(2) Who is the spouse of, or another relative who lives with, a physician whose income is directly or indirectly affected by the fee paid for the performance of the abortion.

§ 441.205 Rape and incest.

(a) FFP is available in expenditures for medical procedures performed upon a victim of rape or incest if the medicaid agency has received signed documention from a law enforcement agency or public health service stating—

(1) That the recipient upon whom the medical procedure was performed was reported to have been the victim of an incident of rape or incest;

(2) The date of the incident;

(3) The date of the report, which must be within 60 days of the incident;

(4) The name and address of the victim;

(5) The name and address of the individual who reported the rape or incest, if different from the victim; and

(6) That the report included the signature of the individual who reported the incident.

(b) FFP is also available in expenditures for abortions for victims of rape or incest under the circumstances described in §§ 441.203 and 441.204 without regard to the requirements of this section.

§ 441.206 Documentation needed by the medicaid agency.

FFP is not available in any expenditures for abortions or other medical procedures otherwise provided for under §§ 441.203 through 441.205 if the medicaid agency has paid without first having received the certifications and documentation specified in those sections.

§ 441.207 Drugs and devices and termination of ectopic pregnancies.

FFP is available in expenditures for drugs or devices to prevent implantation of the fertilized ovum and for medical procedures necessary for the termination of an ectopic pregnancy.

§ 441.208 Recordkeeping requirements.

Medicaid agencies must maintain copies of the certifications and documentation specified in §§ 441.203 through 441.205 for 3 years under the recordkeeping requirements at 45 CFR 74.20.

PART 442—STANDARDS FOR PAYMENT FOR SKILLED NURSING AND INTERMEDIATE CARE FACILITY SERVICES

Subpart A—General Provisions

Sec.
442.1 Basis and purpose.
442.2 Terms.

Subpart B—Provider Agreements

442.10 State plan requirement.
442.12 Provider agreement: General requirements.
442.15 Duration of agreement.
442.16 Extension of agreement.
442.20 Additional requirements for agreements with SNF's participating in medicare.
442.30 Agreement as evidence of certification.

Subpart C—Certification of SNF's and ICF's

442.100 State plan requirements.
442.101 Obtaining certification.
442.105 Certification with deficiencies: General provisions.
442.110 Certification period: General provisions.
442.111 Certification period: Facilities with deficiencies.
442.112 Extended period for correcting deficiencies: ICF's other than ICF's/MR; environment, sanitation and Life Safety Code deficiencies.
442.113 Extended period for correcting deficiencies: ICF's/MR; Life Safety Code and living/dining/therapy area deficiencies.
442.115 Correction plans.

Subpart D—Skilled Nursing Facility Requirements

442.200 Purpose.
442.201 State licensing standards.
442.202 Federal definitions and standards.

Subpart E—Intermediate Care Facility Requirements: All Facilities

442.250 Purpose.
442.251 State licensing standards.
442.252 State safety and sanitation standards.
442.253 Federal definition and standards.
442.254 Standards for hospitals and SNF's providing ICF services.

Subpart F—Standards for Intermediate Care Facilities Other Than Facilities for the Mentally Retarded

442.300 Basis and purpose.

ADMINISTRATION

442.301 Methods of administration.
442.302 Staffing.
442.303 Administrator.
442.304 Resident services director.
442.305 Written policies and procedures: General requirements.
442.306 Written policies and procedures: Admission.
442.307 Written policies and procedures: Transfer and discharge.
442.308 Written policies and procedures: Chemical and physical restraints.
442.309 Written policies and procedures: Resident complaints and recommendations.
442.310 Written policies and procedures: Resident records.
442.311 Written policies and procedures: Resident's bill of rights.
442.312 Written policies and procedures: Delegation of rights and responsibilities.
442.313 Emergencies.
442.314 Staff training programs.
442.315 Health and safety laws.
442.316 Transfer agreements.
442.317 Arrangements with outside resources.
442.318 Resident record system.
442.319 Overall plan of care.
442.320 Resident financial records.

SAFETY STANDARDS

442.321 Fire protection.
442.322 Fire protection: Exception for smaller ICF's.
442.323 Fire protection: Waivers.

ENVIRONMENTAL AND SANITATION STANDARDS

442.324 Resident living areas.
442.325 Resident rooms.
442.326 Bathroom facilities.
442.327 Linen supplies.
442.328 Therapy and isolation areas.
442.329 Dining, recreation, and social rooms.
442.330 Building accessibility and use.

MEAL SERVICE

442.331 Meal service.
442.332 Menu planning and supervision.

MEDICATIONS

442.333 Licensed pharmacist.
442.334 Orders for medications.
442.335 Methods to control medication dosage.
442.336 Review of medications.
442.337 Administering medications.

HEALTH SERVICES

442.338 Health services.
442.339 Supervision.
442.340 24-hour staffing.
442.341 Individual health care plan.
442.342 Nursing care.

OTHER SERVICES

442.343 Rehabilitative services.
442.344 Social services.
442.345 Activities program.
442.346 Physician services.

Subpart G—Standards for Intermediate Care Facilities for the Mentally Retarded

442.400 Basis and purpose.
442.401 Definitions.

ADMINISTRATIVE POLICIES AND PROCEDURES

442.402 Philosophy, objectives, and goals.
442.403 Resident's civil rights
442.404 Resident's bill of rights.
442.405 Delegation of rights and responsibilities.
442.406 Resident finances.
442.407 Policy and procedure manuals.
442.408 Management audit plan.
442.409 Governing body.
442.410 Chief executive officer.
442.411 Qualified Mental Retardation Professional.
442.412 Organization chart.
442.413 Staff-resident communications.
442.414 Communication with residents and parents.
442.415 Health and safety laws.
442.416 Research statement.
442.417 Agreements with outside resources.

ADMISSION AND RELEASE

442.418 Admission criteria and evaluations.
442.419 Availability of rules and procedures.
442.420 Number of residents.
442.421 Review of pre-admission evaluation.
442.422 Annual review of resident's status.
442.423 Record and reports of reviews.
442.424 Release from the ICF/MR.
442.425 Transfer to another facility.
442.426 Emergencies or death of a resident.

PERSONNEL POLICIES

442.427 Written policies.
442.428 Licensure and professional standards.
442.429 Suspension and dismissal.
442.430 Staff treatment of residents.
442.431 Sufficient staffing and resident work.
442.432 Staff training program.

RESIDENT LIVING

442.433 Responsibilities of living unit staff.
442.434 Resident evaluation and program plans.
442.435 Resident activities.
442.436 Personal possessions.
442.437 Control and discipline of residents.
442.438 Physical restraint of residents.
442.439 Mechanical devices used for physical restraint.
442.440 Chemical restraint of residents.
442.441 Behavior modification programs.
442.442 Resident clothing.
442.443 Health, hygiene, grooming and toilet training.
442.444 Grouping and organization of living units.
442.445 Resident-living staff.
442.446 Resident-living areas.
442.447 Resident bedrooms: Space and occupancy.
442.448 Resident bedrooms: Furniture and bedding.
442.449 Storage space in living units.
442.450 Resident bathrooms.
442.451 Heating and ventilation in living units.
442.452 Floors in living units.
442.453 Emergency lighting.

PROFESSIONAL AND SPECIAL PROGRAMS AND SERVCES

442.454 Needed services.
442.455 Quality standards for outside resources.
442.456 Planning and evaluation.

DENTAL SERVICES

442.457 Diagnostic services.
442.458 Treatment.
442.459 Education and training.
442.460 Records.
442.461 Formal arrangements.
442.462 Staff.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—General Provisions

§ 442.1 Basis and purpose.

(a) This part states requirements for provider agreements, facility certification, and facility standards relating to the provision of skilled nursing facility and intermediate care facility services to medicaid recipients. The requirements apply to State medicaid agencies and survey agencies and to the facilities. This part is based on the following sections of the Act:

(1) Section 1902(a)(4), administrative methods for proper and efficient operation of the State plan;

(2) Section 1902(a)(27), provider agreements;

(3) Section 1902(a)(28), skilled nursing facility standards;

(4) Section 1902(a)(33)(B), State survey agency functions;

(5) Section 1905 (c) and (d), definition of intermediate care facility services;

(6) Section 1905 (f) and (i), definition of skilled nursing facility services; and

(7) Section 1910, participation of medicare-certified skilled nursing facilities in medicaid.

(b) Section 431.610 of this subchapter contains requirements for designating the State licensing agency to survey these facilities and for certain survey agency responsibilities.

§ 442.2 Terms.

In this part—

"Facility" refers to a skilled nursing facility (SNF), an intermediate care facility (ICF), and an intermediate care facility for the mentally retarded or persons with related conditions (ICF/MR). Except where otherwise specified, "ICF" refers to both an ICF and an ICF/MR.

"Facility", and any specific type of facility referred to, may include a distinct part of a facility as specified in § 440.40 or § 440.150 of this subchapter.

Subpart B—Provider Agreements

§ 442.10 State plan requirement.

A State plan must provide that requirements of this subpart are met.

§ 442.12 Provider agreement: General requirements.

(a) A medicaid agency may not execute a provider agreement with a facility for SNF or ICF services nor make medicaid payments to a facility for those services unless the Secretary or the State survey agency has certified the facility under this part to provide those services. (See § 442.101 for certification by the Secretary or by the State survey agency. This certification requirement does not apply with respect to Christian Science sanitoria operated, or listed and certified, by the First Church of Christ Scientist, Boston, Mass.

(b) The effective date of an agreement may not be earlier than the date of certification.

(c) An agreement must be in accordance with the certification provisions set by the Secretary or the survey agency under subpart C of this part.

(d) If the medicaid agency has adequate documentation showing good cause, it may refuse to execute an agreement, or may cancel an agreement, with a certified facility.

§ 442.15 Duration of agreement.

(a) Except as specified under § 442.16, the duration of an agreement may not exceed 12 months.

(b) The agreement must be for the same duration as the certification period set by the survey agency. However, if the medicaid agency has adequate documentation showing good cause, it may make an agreement for less than this period.

(c) FFP is available for services provided by a facility for up to 30 days after its agreement expires or terminates under the conditions specified in § 441.11 of this subchapter.

§ 442.16 Extension of agreement.

A medicaid agency may extend a provider agreement for up to 2 months beyond its original expiration date if it receives written notice from the survey agency, before the expiration date of the agreement, that extension will not jeopardize the patients' health and safety, and—

(a) Is needed to prevent irreparable harm to the facility or hardship to the recipients in the facility; or

(b) Is needed because it is impracticable to determine, before the expiration date, whether the facility meets certification standards.

§ 442.20 Additional requirements for agreements with SNF's participating in medicare.

(a) The medicaid agency's agreement with a SNF participating in medicare must—

(1) Provide for the same terms and conditions as medicare certification; and

(2) Be for the same duration as the medicare certification.

(b) When the Secretary notifies the medicaid agency that a medicare agreement with a SNF has been terminated, the agency must terminate its medicaid agreement with that SNF.

(c) If the medicaid agency has terminated an agreement under paragraph (b) of this section, it may not make another agreement with that SNF until—

(1) The conditions causing the termination are removed; and

(2) The SNF provides reasonable assurance to the survey agency that the conditions will not recur.

§ 442.30 Agreement as evidence of certification.

(a) Under §§ 440.40(a) and 440.150 of this subchapter, FFP is available in expenditures for SNF and ICF service only if the facility has been certified as meeting the requirements for medicaid participation, as evidenced by a provider agreement executed under this part. An agreement is not valid evidence that a facility has met those requirements if the Administrator determines that—

(1) The survey agency failed to apply the applicable certification standards required under subpart D, E, F, or G of this part;

(2) The survey agency failed to follow the rules and procedures for certification set forth in subpart C of this part and § 431.610 of this subchapter;

(3) The survey agency failed to perform any of the functions specified in § 431.610(g) of this subchapter relating to evaluating and acting on information about the facility and inspecting the facility;

(4) The survey agency failed to use the Federal standards and the forms, methods, and procedures required under § 431.610(f)(1) for determining qualifications of providers; or

(5) The agreement's terms and conditions do not meet the requirements of this subpart.

(b) The Administrator will make the determination under paragraph (a) of this section through onsite surveys, other Federal reviews, State certification records, or reports he may require from the medicaid or survey agency.

(c) If the Administrator disallows a State's claim for FFP because of a determination under paragraph (a) of this section, the State is entitled upon request to reconsideration of the disallowance under 45 CFR Part 16.

Subpart C—Certification of SNF's and ICF's

§ 442.100 State plan requirements.

A State plan must provide that the requirements of this subpart are met.

§ 442.101 Obtaining certification.

(a) This section states the requirements for obtaining notice of a facility's certification before a medicaid agency executes a provider agreement under § 442.12.

(b) The agency must obtain notice of certification from the Secretary for—

(1) A facility located on an Indian reservation; and

(2) A SNF that has been certified for medicare payments.

(c) The agency must obtain notice of certification from the survey agency for all other facilities.

(d) The notice must state that the facility—

(1) Meets the applicable requirements under subpart D, E, F, or G of this part, except for waivers or variations granted by the Secretary or the survey agency under those subparts; or

(2) Has been certified with provision for correcting deficiencies in meeting those requirements, under the conditions of this subpart.

(e) For purposes of certification of facilities under this subpart, a waiver of standards is not a deficiency.

§ 442.105 Certification with deficiencies: General provisions.

If a survey agency finds a facility deficient in meeting the standards specified under subpart D, E, F, or G of this part, the agency may certify the facility for medicaid purposes under the following conditions:

(a) The agency finds that the facility's deficiencies, individually or in combination, do not jeopardize the patient's health and safety, nor seriously limit the facility's capacity to give adequate care. The agency must maintain a written justification of these findings.

(b) The agency finds acceptable the facility's written plan for correcting the deficiencies.

(c) If a facility was previously certified with a deficiency and has a different deficiency at the time of the next survey, the agency documents that the facility—

(1) Was unable to stay in compliance with the standard for reasons beyond its control, or despite intensive efforts to comply; and

(2) Is making the best use of its resources to furnish adequate care.

(d) If a facility has the same deficiency it had under the prior certification, the agency documents that the facility—

(1) Did achieve compliance with the standard at some time during the prior certification period;

(2) Made a good faith effort, as judged by the survey agency, to stay in compliance; and

(3) Again became out of compliance for reasons beyond its control.

(e) If an ICF or ICF/MR has a deficiency of the types specified in §§ 442.112 or 442.113 that requires a plan of correction extending beyond 12 months, the agency documents that the conditions of those sections are met.

§ 442.110 Certification period: General provisions.

(a) A survey agency may certify a facility that fully meets applicable requirements for up to 12 months.

(b) The survey agency may notify the medicaid agency that the term of a provider agreement may be extended up to 2 months after the expiration date of the agreement under the conditions specified in § 442.16.

§ 442.111 Certification period: Facilities with deficiencies.

(a) Facilities with deficiencies may be certified under § 442.105 for the period specified in either paragraph (b) or (c) of this section. However, ICF's with deficiencies that may require more than 12 months to correct may be certified under §§ 442.112 and 442.113.

(b) The survey agency may certify a facility for a period that ends no later than 60 days after the last day specified in the plan for correcting deficiencies. The certification period must not exceed 12 months, including the period allowed for corrections.

(c) The survey agency may certify a facility for up to 12 months with a condition that the certification will be automatically canceled on a specified date within the certification period unless—

(1) The survey agency finds that all deficiencies have been satisfactorily corrected; or

(2) The survey agency finds and notifies the medicaid agency that the facility has made substantial progress in correcting the deficiencies and has a new plan for correction that is acceptable.

The automatic cancellation date must be no later than 60 days after the last day specified in the plan for correction of deficiencies under § 442.105.

§ 442.112 Extended period for correcting deficiencies: ICF's other than ICF's/MR; environment, sanitation, and Life Safety Code deficiencies.

(a) *Scope.* This section applies to ICF's other than ICF's/MR that are deficient in meeting requirements for—

(1) Environment and sanitation (§§ 442.324–442.330); or

(2) Life Safety Code (§§ 442.321–442.323).

(b) *Certification period.* The survey agency may certify an ICF other than an ICF/MR under § 442.105 for up to 12 months even though the facility has deficiencies that may take up to 2 years after the first certification of the facility to correct, if the conditions in this section are met.

V 4 3 / 1 9 0 SEP 29 78

(c) *Written plan for correction.* The ICF must submit a written plan for correcting the deficiencies that—

(1) Specifies the steps the facility will take to correct each deficiency;

(2) Specifies a timetable for taking each of those steps and a date for completion of correction of each deficiency that is not later than 2 years after the date the facility is first certified; and

(3) Is acceptable to the survey agency.

(d) *Feasibility of plan.* The survey agency must find that the facility can—

(1) Potentially meet the requirements in which it is deficient by taking the steps specified in the plan for correction; and

(2) Correct each deficiency by the date specified in the plan for correction.

(e) *Progress in meeting correction plan.* Within each 6-month period after acceptance of the plan for correction, the survey agency must find, and record in the survey record, that the facility has made substantial progress in meeting its plan for correction. These findings must be based on onsite surveys by qualified surveyors. The survey agency must support these findings by placing signed contracts, work orders, or other documents in the survey record.

(f) *State fire safety and sanitation requirements.* The survey agency must find that, during the period allowed for corrections, the facility meets State fire safety and sanitation codes and regulations.

§ 442.113 Extended period for correcting deficiencies: ICF's/MR; Life Safety Code and living/dining/therapy area deficiencies.

(a) *Scope.* This section applies to ICF's/MR that are deficient in meeting requirements for—

(1) Life Safety Code (§§ 442.507-442.509);

(2) Living units (§§ 442.447(a) (1), (2), (4), (5), (b), (c), 442.448(d), 442.449 (a), (b), 442.450(a)(2), 442.451(a), 442.452, 442.453);

(3) Dining rooms (§ 442.471(a)-(c)); or

(4) Therapy areas (§ 442.488(e)).

(b) *Certification period.* The survey agency may certify an ICF/MR under § 442.105 for up to 12 months even though the deficiencies listed in paragraph (a) of this section may take more than 12 months to correct, if the conditions in this section and § 442.115 are met.

(c) *Written plan for correction.* Before certifying an ICF/MR under this section, the survey agency must approve, in writing, the ICF/MR's written plan for correcting those deficiencies. The plan must—

(1) State the extent to which the ICF/MR complies with the requirements it does not fully meet;

(2) Specify the steps the ICF/MR will take to correct the deficiencies;

(3) Specify a timetable for taking each of those steps and a date for completion of corrections;

(4) For a public ICF/MR, be approved by the State or political subdivision that has jurisdiction over its operation (A public facility is defined in § 435.1009 of this subchapter as one that is the "responsibility of a governmental unit or over which a governmental unit exercises administrative control."); and

(5) Meet the conditions of § 442.115.

(d) *Progress in meeting correction plan.* Within each 6-month period after initial approval of the plan, the survey agency must find, and record in the survey record, that the ICF/MR has made substantial progress in meeting the plan for correction. These findings must be based on onsite surveys by qualified surveyors. The survey agency must support these findings by placing signed contracts, work orders, or other documentation in the survey record.

(e) *State fire safety and sanitation requirements.* The survey agency must find that, during the period allowed for corrections, the ICF/MR meets the State fire safety and sanitation codes and regulations.

§ 442.115 Correction plans.

(a) The ICF/MR's plan required by § 442.113 must provide for completion of corrections by July 18, 1980, or, if authorized by the Secretary under paragraph (b) of this section, by July 18, 1982.

(b) If, at the time of the first survey of the ICF/MR after July 17, 1977, it is unable to develop a plan to complete corrections by July 18, 1980, the survey agency may request the Secretary to authorize approval of a plan to complete them by July 18, 1982. The Secretary will authorize this approval for each deficiency if he determines that time beyond July 18, 1977, is needed—

(1) As a practical matter to complete the corrections;

(2) To prevent unreasonable hardship to the ICF/MR; and

(3) To insure continued care for recipients served by the ICF/MR.

(c) If the plan provides for correction through structural change or renovation, it must—

(1) Contain a timetable showing the corrective steps and their completion dates;

(2) Specify the structural change or renovation; and

(3) Document that sufficient financial resources are available to complete the change or renovation on schedule.

(d) If the plan provides for correction by phasing out part or all of the ICF/MR, it must—

(1) Contain a timetable showing the buildings or units to be closed and describing the steps for phasing them out;

(2) Describe the methods that insure the recipients' health and safety until the building or unit is closed; and

(3) Provide that no new recipients will be admitted to the building or unit after the plan has been approved.

Subpart D—Skilled Nursing Facility Requirements

§ 442.200 Purpose.

This subpart specifies the requirements that a SNF must meet to obtain certification from the Secretary or the State survey agency as a qualified medicaid provider of SNF services.

§ 442.201 State licensing standards.

(a) A SNF must meet State nursing home licensing standards. However, if a SNF that formerly met State licensing standards does not currently meet them, it may continue to receive medicaid payments as a qualified provider during a period specified by the responsible licensing authority if, during that period, the SNF takes the steps needed to again meet the standards.

(b) For purposes of this subpart, the fact that a SNF actually holds a current license is immaterial if the responsible State licensing authority determines that, in fact, the standards are not met.

(c) In accordance with § 431.110 of this subchapter, an Indian Health Service SNF must meet State licensing standards although it need not obtain a license. In making this determination, the licensing authority may not take into account an absence of licensure of any staff member of the facility.

§ 442.202 Federal definitions and standards.

The SNF must meet—

(a) The definition of a "skilled nursing facility" in § 440.40(a) of this subchapter;

(b) The definition in section 1861(j) of the Act; and

(c) The standards specified in part 405, subpart K, of this chapter: Conditions of participation; skilled nursing facilities, except for provisions waived under that subpart or accepted by the Secretary or the State survey agency under a plan of correction as specified in subpart B of this part. Provisions that may be waived under part 405, subpart K, include:

(1) Building accessibility, § 405.1134(c);

(2) Patient room and toilet facilities, § 405.1134(e); and

(3) Utilization review, § 405.1137, if authorized under §§ 456.501-456.508 of this subchapter.

Subpart E—Intermediate Care Facility Requirements; All Facilities

§ 442.250 Purpose.

This subpart specifies the requirements that an ICF must meet to obtain certification from the State survey agency as a qualified provider of ICF services.

§ 442.251 State licensing standards.

(a) Except as provided in paragraph (b), an ICF must meet standards for a State license to provide, on a regular basis, health-related care and services to individuals who do not require hospital or SNF care, but whose mental or physical condition requires services—

(1) Above the level of room and board; and

(2) That can be provided only by an institution.

(b) An ICF that formerly met State licensing standards but does not currently meet them may continue to receive medicaid payments as a qualified provider during a period specified by the State authority responsible for licensing the facility if, during that period, the ICF takes the steps needed to again meet the standards.

(c) An ICF operated by a government agency must meet the licensing standards that apply to the same type of facility operated under any other ownership.

(d) In accordance with § 431.110 of this subchapter, an Indian Health Service ICF must meet State licensing standards although it need not obtain a license. In making this determination, the licensing authority may not take into account an absence of licensure of any staff member of the facility.

§ 442.252 State safety and sanitation standards.

An ICF must meet State safety and sanitation standards for nursing homes.

§ 442.253 Federal definition and standards.

(a) An ICF other than an ICF/MR must meet the definition in § 440.150 of this subchapter and the standards specified in this subpart and subpart F of this part, except for provisions waived or accepted under plans of corrections as specified in subpart C of this part.

(b) An ICF/MR must meet the definition in § 440.150 of this subchapter and the standards specified in this subpart and subpart G of this part, except for provisions waived or accepted under plans of correction as specified in subpart C of this part.

§ 442.254 Standards for hospitals and SNF's providing ICF services.

(a) If a hospital or SNF participating in medicare or medicaid is also a provider of ICF services other than ICF/MR services, it must meet the following ICF standards:

(1) 442.304, resident services director.

(2) 442.317 (a), (b), agreements with outside resources for institutional services.

(3) 442.319, plan of care.

(4) 442.320, resident financial records.

(5) 442.324 (b), handrails.

(6) 442.338 through 442.342, health services.

(7) 442.343, rehabilitative services.

(8) 442.344, social services.

(9) 442.345, activities program.

(10) 442.346, physician services.

(b) If a hospital or SNF participating in medicare or medicaid is also a provider of ICF/MR services, it must meet the standards in subpart G of this part.

Subpart F—Standards for Intermediate Care Facilities Other Than Facilities for the Mentally Retarded

§ 442.300 Basis, purpose, and scope.

This subpart implements section 1905(c) of the Act, which gives the Secretary authority to prescribe standards for care, safety, and sanitation in intermidiate care facilities. It applies to ICF's other than ICF's/MR.

Administration

§ 442.301 Methods of administration.

An ICF must have methods of administrative management that insure that it meets the requirements of §§ 442.302 through 442.315.

442.302 Staffing.

The ICF must have staff on duty 24 hours a day sufficient in number and qualifications to carry out the policies, responsibilities, and programs of the ICF.

§ 442.303 Administrator.

(a) The ICF must have an administrator who is—

(1) A nursing home administrator with a current State license; or

(2) A hospital administrator, if the ICF is a hospital qualifying as an intermediate care facility.

(b) The administrator's responsibilities must include—

(1) Managing the ICF; and

(2) Implementing established policies and procedures.

§ 442.304 Resident services director.

(a) The ICF must designate the administrator or a professional staff member as resident services director.

(b) The duties of the resident services director must include coordinating and monitoring each resident's overall plan of care.

§ 442.305 Written policies and procedures: General requirements.

The ICF must have written policies and procedures that—

(a) Govern all services provided by the ICF; and

(b) Are available to the staff, residents, members of the family and legal representatives of residents, and the public.

§ 442.306 Written policies and procedures: Admission.

The ICF must have written policies and procedures that insure that it admits as residents only those individuals whose needs can be met—

(a) By the ICF itself;

(b) By the ICF in cooperation with community resources; or

(c) By the ICF in cooperation with other providers of care affiliated with or under contract to the ICF.

§ 442.307 Written policies and procedures: Transfer and discharge.

The ICF must have written policies and procedures that insure that—

(a) It transfers a resident promptly to a hospital, skilled nursing facility, or other appropriate facility, when a change occurs in the resident's physical or mental condition that requires care or service that the ICF cannot adequately provide; and

(b) Except in an emergency, it—

(1) Consults the resident, his next of kin, the attending physician, and the responsible agency, if any, at least 5 days before a transfer or discharge; and

(2) Uses casework services or other means to insure that adequate arrangements are made to meet the resident's needs through other resources.

§ 442.308 Written policies and procedures: Chemical and physical restraints.

The ICF must have written policies and procedures that—

(a) Define the uses of chemical and physical restraints;

(b) Identify the professional personnel who may, under § 442.311(h), authorize use of these restraints in emergencies; and

(c) describe the procedures for monitoring and controlling the use of these restraints.

V 43 / 190 SE 29 78

§ 442.309 Written policies and procedures: Resident complaints and recommendations.

The ICF must have written policies and procedures that—

(a) Describe the procedures the ICF uses to receive complaints and recommendations from its residents; and

(b) Insure that the ICF responds to these complaints and recommendations.

§ 442.310 Written policies and procedures: Resident records.

The ICF must have written policies and procedures governing access to, duplication of, and dissemination of information from the resident's record.

§ 442.311 Written policies and procedures: Residents' bill of rights.

The ICF must have written policies and procedures that insure the following rights for each resident: (a) *Information.* (1) Each resident must be fully informed, before or at the time of admission, of his rights and and responsibilities and of all rules governing resident conduct.

(2) If the ICF amends its policies on residents' rights and responsibilities and its rules governing conduct, each resident in the ICF at that time must be informed.

(3) Each resident must acknowledge in writing receipt of the information and any amendments to it.

(4) Each resident must be fully informed in writing of all services available in the ICF and of the charges for these services including any charges for services not paid for by medicaid or not included in the ICF's basic rate per day. The ICF must provide this information either before or at the time of admission and on a continuing basis as changes occur in services or charges during the resident's stay.

(b) *Medical condition and treatment.* (1) Each resident must—

(i) Be fully informed by a physician of his health and medical condition unless the physician decides that informing the resident is medically contraindicated;

(ii) Be given the opportunity to participate in planning his total care and medical treatment;

(iii) Be given the opportunity to refuse treatment; and

(iv) Give informed, written consent before participating in experimental research.

(2) If the physician decides that informing the resident of his health and medical condition is medically contraindicated, the physician must document this decision in the resident's record.

(c) *Transfer and discharge.* Each resident must be transferred or discharged only for—

(1) Medical reasons;

(2) His welfare or that of the other residents; or

(3) Nonpayment except as prohibited by the medicaid program.

(d) *Exercising rights.* Each resident must be—

(1) Encouraged and assisted to exercise his rights as a resident of the ICF and as a citizen; and

(2) Allowed to submit complaints or recommendations concerning the policies and services of the ICF to staff or to outside representatives of the resident's choice or both, free from restraint, interference, coercion, discrimination, or reprisal.

(e) *Financial affairs.* Each resident must be allowed to manage his personal financial affairs. If a resident requests assistance from the ICF in managing his personal financial affairs—

(1) The request must be in writing; and

(2) The ICF must comply with the recordkeeping requirements of § 442.320.

(f) *Freedom from abuse and restraints.* (1) Each resident must be free from mental and physical abuse.

(2) Each resident must be free from chemical and physical restraints unless the restraints are—

(i) Authorized by a physician in writing for a specified period of time; or

(ii) Used in an emergency under the following conditions:

(A) The use is necessary to protect the resident from injuring himself or others.

(B) The use is authorized by a professional staff member identified in the written policies and procedures of the facility as having the authority to do so.

(C) The use is reported promptly to the resident's physician by that staff member.

(g) *Privacy.* (1) Each resident must be treated with consideration, respect, and full recognition of his or her dignity and individuality.

(2) Each resident must be given privacy during treatment and care of personal needs.

(3) Each resident's records, including information in an automatic data bank, must be treated confidentially.

(4) Each resident must give written consent before the ICF may release information from his record to someone not otherwise authorized by law to receive it.

(5) A married resident must be given privacy during visits by his spouse.

(6) If both husband and wife are residents of the ICF, they must be permitted to share a room.

(h) *Work.* No resident may be required to perform services for the ICF.

(i) *Freedom of association and correspondence.* Each resident must be allowed to—

(1) Communicate, associate, and meet privately with individuals of his choice, unless this infringes on the rights of another resident; and

(2) Send and receive personal mail unopened.

(j) *Activities.* Each resident must be allowed to participate in social, religious, and community group activities.

(k) *Personal possessions.* Each resident must be allowed to retain and use his personal possessions and clothing as space permits.

§ 442.312 Written policies and procedures: Delegation of rights and responsibilities.

(a) The ICF must have written policies and procedures that provide that all rights and rsponsibilities of a resident pass to the resident's guardian, next of kin, or sponsoring agency or agencies if the resident—

(1) Is adjudicated incompetent under State law; or

(2) Is determined by his physician to be incapable of understanding his rights and responsibilities.

(b) If the resident is determined to be incapable of understanding his rights and responsibilities, the physician who made the determination must record the specific reason in the resident's record.

§ 442.313 Emergencies.

The ICF must—

(a) Have a written plan for staff and residents to follow in case of an emergency such as a fire or an explosion and rehearse the plan regularly; and

(b) Have written procedures for the staff to follow in case of an emergency involving a resident. These emergency procedures must include directions for—

(1) Caring for the resident;

(2) Notifying the attending physician and other individuals responsible for the resident; and

(3) Arranging for transportation, hospitalization, or other appropriate services.

§ 442.314 Staff training programs.

The ICF must—

(a) Conduct an orientation program for all new employees that includes a review of all its policies;

(b) Plan and conduct an inservice staff development program for all personnel to assist them in developing and improving their skills; and

(c) Maintain a record of each orientation and staff development program it conducts. The record must include the content of the program and the names of the participants.

§ 442.315 Health and safety laws.

The ICF must meet all Federal, State, and local laws, regulations, and codes pertaining to health and safety, such as provisions regulating—

(a) Buying, dispensing, safeguarding, administering, and disposing of medications and controlled substances;

(b) Construction, maintenance, and equipment for the ICF;

(c) Sanitation;

(d) Communicable and reportable diseases; and

(e) Post mortem procedures.

§ 442.316 Transfer agreements.

(a) Except as provided in paragraph (b) of this section, the ICF must have in effect a transfer agreement with one or more hospitals sufficiently close by to make feasible the prompt transfer of the resident and his records to the hospital and to support a working arrangement between the ICF and the hospital for providing inpatient hospital services to residents when needed.

(b) If the survey agency finds that the ICF tried in good faith to enter into an agreement but could not, the ICF will be considered to meet the requirements of paragraph (a) as long as the survey agency finds that it is in the public interest and essential to assuring ICF services for eligible individuals in the community.

§ 442.317 Arrangements with outside resources.

(a) If the ICF does not employ a qualified professional to furnish a required institutional service, it must have in effect a written agreement with a qualified professional outside the ICF to furnish the required service.

(b) The agreement must—

(1) Contain the responsibilities, functions, objectives, and other terms agreed to by the ICF and the qualified professional; and

(2) Be signed by the administrator or his representative and by the qualified professional.

(c) The ICF must maintain effective arrangements with outside resources for promptly providing medial and remedical services required by a resident but not regularly provided within the ICF.

§ 442.318 Resident record system.

(a) The ICF must maintain an organized resident record system that contains a record for each resident.

(b) The ICF must make resident records available to staff directly involved with the resident and to appropriate representatives of the medicaid agency.

(c) Each resident's record must contain—

(1) Identification information;

(2) Admission information, including the medical and social history of the resident;

(3) An overall plan of care as described in § 442.319;

(4) Copies of the initial and periodic examinations, evaluations, progress notes, all plans of care with subsequent changes, and discharge summaries;

(5) Description of treatments and services provided and medications administered; and

(6) All indications of illness or injury including the date, time, and action taken regarding each.

(d) The ICF must protect the resident records against destruction, loss, and unauthorized use.

(e) The ICF must keep a resident's record for at least 3 years after the date the resident is discharged.

§ 442.319 Overall plan of care.

The overall plan of care required by § 442.318 must—

(a) Set the goals to be accomplished by the resident;

(b) Prescribe an integrated program of activities, therapies, and treatments designed to help each resident achieve his goals; and

(c) Indicate which professional service or individual is responsible for each service prescribed in the plan.

§ 442.320 Resident financial records.

(a) The ICF must maintain a current, written financial record for each resident that includes written receipts for—

(1) All personal possessions and funds received by or deposited with the ICF; and

(2) All disbursements made to or for the resident.

(b) The financial record must be available to the resident and his family.

Safety Standards

§ 442.321 Fire protection.

(a) Except as provided in §§ 442.322 and 442.323 and paragraph (b) of this section, the ICF must meet the provisions of the Life Safety Code of the National Fire Protection Association, 1967 edition, that apply to institutional occupancies.

(b) If the Secretary finds that the State has a fire and safety code imposed by State law that adequately protects residents in ICF's, the State survey agency may apply the State code for the purposes of medicaid certification instead of the Life Safety Code.

§ 442.322 Fire protection: Exception for smaller ICF's.

The State survey agency may apply the lodgings or rooming houses section of the residential occupancy requirements of the Life Safety Code of the National Fire Protection Association, 1967 edition, instead of the institutional occupancy provisions required by § 442.321 to an ICF that has 15 beds or less if the ICF is primarily engaged in the treatment of alcoholism and drug abuse and a physician certifies that each resident is—

(a) Ambulatory;

(b) Engaged in an active program for rehabilitation designed to and reasonably expected to lead to independent living; and

(c) Capable of following directions and taking appropriate action for self-preservation under emergency conditions.

§ 442.323 Fire protection: Waivers.

(a) The State survey agency may waive specific provisions of the Life Safety Code required by § 442.321, for as long as it considers appropriate, if—

(1) The waiver would not adversely affect the health and safety of the residents;

(2) Rigid application of specific provisions of the Code would result in unreasonable hardship for the ICF as determined under guidelines contained in the HCFA Long Term Care Manual; and

(3) The waiver is granted in accordance with criteria contained in the Long Term Care Manual.

(b) If the State survey agency waives provisions of the Code for an existing building of two or more stories that is not built of at least 2-hour fire-resistive construction, the ICF may not house a blind, nonambulatory, or physically handicapped resident above the street-level floor unless it is built of—

(1) One-hour protected, noncombustible construction as defined in National Fire Protection Association Standard No. 220;

(2) Fully sprinklered, 1-hour protected, ordinary construction; or

(3) Fully sprinklered, 1-hour protected, wood frame construction.

Environmental and Sanitation Standards

§ 442.324 Resident living areas.

The ICF must—

(a) Design and equip the resident living areas for the comfort and privacy of each resident; and

(b) Have handrails that are firmly attached to the walls in all corridors used by residents.

§ 442.325 Residents' rooms.

(a) Each resident room must—

(1) Be equipped with or conveniently located near toilet and bathing facilities;

(2) Be at or above grade level;

V 43 / 190 / SEP 29 1978

(3) Contain a suitable bed for each resident and other appropriate furniture;
(4) Have closet space that provides security and privacy for clothing and personal belongings;
(5) Contain no more than four beds;
(6) Measure at least 100 square feet for a single-resident room or 80 square feet for each resident for a multiresident room; and
(7) Be equipped with a device for calling the staff member on duty.
(b) For an existing building, the State survey agency may waive the space and occupancy requirements of paragraphs (a) (5) and (6) of this section for as long as it is considered appropriate if it finds that—
(1) The requirements would result in unreasonable hardship on the ICF if strictly enforced; and
(2) The waiver serves the particular needs of the residents and does not adversely affect their health and safety.

§ 442.326 Bathroom facilities.

The ICF must—
(a) Have toilet and bathing facilities that are located in or near residents' rooms and are appropriate in number, size, and design to meet the needs of the residents;
(b) Provide an adequate supply of hot water at all times for resident use; and
(c) Have plumbing fixtures with control valves that automatically regulate the temperature of the hot water used by residents.

§ 442.327 Linen supplies.

The ICF must have available at all times enough linen for the proper care and comfort of the residents and have clean linen on each bed.

§ 442.328 Therapy and isolation areas.

(a) The ICF's therapy area must be of sufficient size and appropriate design to—
(1) Accommodate the necessary equipment;
(2) Conduct an examination; and
(3) Provide treatment.
(b) The ICF must make provision for isolating residents with infectious diseases.

§ 442.329 Dining, recreation, and social rooms.

(a) The ICF must provide one or more areas, not used for corridor traffic, for dining, recreation, and social activities.
(b) A multipurpose room may be used if it is large enough to accommodate all of the activities without their interfering with each other.

§ 442.330 Building accessibility and use.

(a) The ICF must—
(1) Be accessible to and usable by all residents, personnel, and the public, including individuals with disabilities; and
(2) Meet the requirements of American National Standards Institute (ANSI) standard No. A117.1 (1961), American standard specifications for making building and facilities accessible to and usable by the physically handicapped.
(b) The State survey agency may waive, for as long as it considers appropriate, provisions of ANSI standard No. A117.1 (1961) if—
(1) The construction plans for the ICF or a part of it were approved and stamped by the responsible State agency before March 18, 1974;
(2) The provisions would result in unreasonable hardship on the ICF if strictly enforced; and
(3) The waiver does not adversely affect the health and safety of the residents.

Meal Service

§ 442.331 Meal service.

The ICF must—
(a) Serve at least three meals or their equivalent each day at regular times, with not more than 14 hours between a substantial evening meal and breakfast;
(b) Procure, store, prepare, distribute, and serve all food under sanitary conditions; and
(c) Provide special eating equipment and utensils for residents who need them.

§ 442.332 Menu planning and supervision.

(a) The ICF must have a staff member trained or experienced in food management or nutrition who is responsible for—
(1) Planning menus that meet the nutritional needs of each resident, following the orders of the resident's physician and, to the extent medically possible, the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences (Recommended Dietary Allowances (8th ed., 1974) is available from the Printing and Publications Office, National Academy of Sciences, Washington, D.C. 20418); and
(2) Supervising the meal preparation and service to insure that the menu plan is followed.
(b) If the ICF has residents who require medically prescribed special diets, the ICF must—
(1) Have the menus for those residents planned by a professionally qualified dietitian, or reviewed and approved by the attending physician; and
(2) Supervise the preparation and serving of meals to insure that the resident accepts the special diet.
(c) The ICF must keep for 30 days a record of each menu as served.

Medications

§ 442.333 Licensed pharmacist.

The ICF must either—
(a) Employ a licensed pharmacist; or
(b) Have a formal arrangement with a licensed pharmacist to advise the ICF on ordering, storage, administration, disposal, and recordkeeping of drugs and biologicals.

§ 442.334 Orders for medications.

(a) The resident's attending or staff physician must order all medications for the resident.
(b) The order may be either oral or written.
(c) If the order is oral—
(1) The physician must give it only to a licensed nurse, pharmacist, or another physician; and
(2) The individual receiving the order must record and sign it immediately and have the attending physician sign it in a manner consistent with good medical practice.

§ 442.335 Methods to control medication dosage.

The ICF must have written policies and procedures for controlling medication dosage, by automatic stop orders or other methods, when the physician does not include in the order a specific limit on the time or number of doses. These procedures must include notice to the attending physician that the medication is being stopped as of a certain date or after a certain number of doses.

§ 442.336 Review of medications.

(a) A registered nurse must review medications monthly for each resident and notify the physician if changes are appropriate.
(b) The attending or staff physician must review the medications quarterly.

§ 442.337 Administering medications.

(a) Before administering any medication to a resident, a staff member must complete a State-approved training program in medication administration.
(b) The ICF may allow a resident to give himself a medication only if the attending physician gives permission.

Health Services

§ 442.338 Health services.

(a) The ICF must provide for each resident health services that—
(1) Meet the requirements of §§ 442.339 through 442.342; and
(2) Include treatment, medications, diet, and any other health service prescribed or planned for the resident.
(b) The ICF must provide these services 24 hours a day.

§ 442.339 Supervision.

(a) The ICF must have a registered nurse or a licensed practical or vocational nurse to supervise the ICF's health services full time, 7 days a week, on the day shift.
(b) The nurse must have a current license to practice in the State.
(c) If the ICF employs a licensed practical or vocational nurse to supervise health services, the ICF must have a formal contract with a registered nurse to consult with the licensed practical or vocational nurse at regular intervals, but not less than 4 hours each week.
(d) To be qualified to serve as a health services supervisor, a licensed practical or vocational nurse must—
(1) Be a graduate of a State-approved school of practical nursing;
(2) Have education or other training that the State authority responsible for licensing practical nurses considers equal to graduation from a State-approved school of practical nursing; or
(3) Have passed the Public Health Service examination for waivered licensed practical or vocational nurses.
(e) The ICF may employ as charge nurse an individual who is licensed by the State in a category other than registered nurse or licensed practical or vocational nurse if—
(1) The individual has completed a training program to get the license that included at least the same number of classroom and practice hours in all nursing subjects as in the program of a State-approved school of practical or vocational nursing; and
(2) The State agency responsible for licensing the individual submits a report to the medicaid agency comparing State licensed practical nurse or vocational nurse course requirements with those for the program completed by the individual.

§ 442.340 24-hour staffing.

The ICF must have responsible staff members on duty and awake 24 hours a day to take prompt, appropriate action in case of injury, illness, fire, or other emergency.

§ 442.341 Individual health care plan.

(a) Appropriate staff must develop and implement a written health care plan for each resident according to the instructions of the attending or staff physician.
(b) The plan must be reviewed and revised as needed but at least quarterly.

§ 442.342 Nursing care.

The ICF must provide nursing care for each resident as needed, including restorative nursing care that enables each resident to achieve and maintain the highest possible degree of function, self-care, and independence.

Other Services

§ 442.343 Rehabilitative services.

(a) The ICF must provide rehabilitative services for each resident as needed.
(b) The ICF must either provide these services itself or arrange for them with qualified outside resources.
(c) The rehabilitative services must be designed to—
(1) Maintain and improve the resident's ability to function independently;
(2) Prevent, as much as possible, advancement of progressive disabilities; and
(3) Restore maximum function.
(d) The rehabilitative services must be provided by—
(1) Qualified therapists or qualified assistants, as defined in 42 CFR 405.1101 (m), (n), (q), (r), and (t), in accordance with accepted professional practices; or
(2) Other supportive personnel under appropriate supervision.
(e) The rehabilitative services must be provided under a written plan of care that is—
(1) Developed in consultation with the attending physician and, if necessary, an appropriate therapist; and
(2) Based on the attending physician's orders and an assessment of the resident's needs.
(f) The resident's progress under the plan must be reviewed regularly and the plan must be changed as necessary.

§ 442.344 Social services.

(a) The ICF must provide social services for each resident as needed.
(b) The ICF must either provide these services itself or arrange for them with qualified outside resources.
(c) The ICF must designate one staff member, qualified by training or experience, to be responsible for—
(1) Arranging for social services; and
(2) Integrating social services with other elements of the plan of care.
(d) These services must be provided under a written plan of care that is—
(1) Placed in the resident's record; and
(2) Evaluated periodically in conjunction with the resident's overall plan of care.

§ 442.345 Activities program.

The ICF must—
(a) Provide an activities program designed to encourage each resident to maintain normal activity and to return to self-care;
(b) Designate one staff member, qualified by training or experience in directing group activity, to be responsible for it;
(c) Have a plan for independent and group activities for each resident that is—
(1) Developed according to his needs and interests;
(2) Incorporated in his overall plan of care;
(3) Reviewed, with his participation, at least quarterly; and
(4) Changed as needed.
(d) Provide adequate recreation areas with sufficient equipment and materials to support the program.

§ 442.346 Physician services.

(a) The ICF must have policies and procedures to insure that the health care of each resident is under the continuing supervision of a physician.
(b) The physician must see the resident whenever necessary but at least once every 60 days unless the physician decides that this frequency is unnecessary and records the reasons for that decision.

Subpart G—Standards for Intermediate Care Facilities for the Mentally Retarded

§ 442.400 Basis and purpose.

This subpart implements section 1905 (c) and (d) of the Act which gives the Secretary authority to prescribe standards for intermediate care facility services in institutions for the mentally retarded or persons with related conditions.

§ 442.401 Definitions.

As used in this subpart:
"Ambulatory" means able to walk without assistance.
"Living unit" means a resident living unit that includes sleeping areas and may include dining and activity areas.
"Mobile nonambulatory" means unable to walk without assistance, but able to move from place to place with the use of a device such as a walker, crutches, a wheel chair, or a wheeled platform.
"Nonambulatory" means unable to walk without assistance.
"Nonmobile" means unable to move from place to place.
"Qualified mental retardation professional" means a person who has specialized training or 1 year of experience in treating or working with the mentally retarded and is one of the following:
(1) A psychologist with a master's degree from an accredited program.
(2) A licensed doctor of medicine or osteopathy.

V 4 3 / 1 9 0

(3) An educator with a degree in education from an accredited program.

(4) A social worker with a bachelor's degree in—

(i) Social work from an accredited program; or

(ii) A field other than social work and at least 3 years of social work experience under the supervision of a qualified social worker.

(5) A physical or occupational therapist as defined in § 405.1101 (m) or (q) of this chapter.

(6) A speech pathologist or audiologist as defined in § 405.1105(t) of this chapter.

(7) A registered nurse.

(8) A therapeutic recreation specialist who—

(i) Is a graduate of an accredited program; and

(ii) If the State has a licensing or registration procedure, is licensed or registered in the State.

(9) A rehabilitation counselor who is certified by the Committee on Rehabilitation Counselor Certification.

"Resident living" means pertaining to residential services provided by an ICF/MR.

"Training and habilitation services" means those intended to aid the intellectual, sensorimotor, and emotional development of a resident.

ADMINISTRATIVE POLICIES AND PROCEDURES

§ 442.402 Philosophy, objectives, and goals.

(a) The ICF/MR must have a written outline of the philosophy, objectives, and goals it is striving to achieve that includes, at least—

(1) The ICF/MR's role in the State comprehensive program for the mentally retarded;

(2) The ICF/MR's goals for its residents; and

(3) The ICF/MR's concept of its relationship to the parents or legal guardians of its residents.

(b) The outline must be available for distribution to staff, consumer representatives, and the interested public.

§ 442.403 Resident's civil rights.

The ICF/MR must have written policies and procedures that insure the civil rights of all residents.

§ 442.404 Residents' bill of rights.

The ICF/MR must have written policies and procedures that insure the following rights for each resident:

(a) *Information.* (1) Each resident must be fully informed, before or at admission, of his rights and responsibilities and of all rules governing resident conduct.

(2) If the ICF/MR amends its policies on residents' rights and responsibilities and its rules governing conduct, each resident in the ICF/MR at that time must be informed.

(3) Each resident must acknowledge in writing receipt of the information and any amendments to it. A mentally retarded resident's written acknowledgement must be witnessed by a third person.

(4) Each resident must be fully informed in writing of all services available in the ICF/MR and of the charges for these services including any charges for services not paid for by medicaid or not included in the ICF/MR's basic rate per day. The ICF/MR must provide this information either before or at the time of admission and on a continuing basis as changes occur in services or charges during the resident's stay.

(b) *Medical condition and treatment.* (1) Each resident must—

(i) Be fully informed by a physician of his health and medical condition unless the physician decides that informing the resident is medically contraindicated;

(ii) Be given the opportunity to participate in planning his total care and medical treatment;

(iii) Be given the opportunity to refuse treatment; and

(iv) Give informed, written consent before participating in experimental research.

(2) If the physician decides that informing the resident of his health and medical condition is medically contraindicated, he must document this decision in the resident's record.

(c) *Transfer and discharge.* Each resident must be transferred or discharged only for—

(1) Medical reasons;

(2) His welfare or that of the other residents; or

(3) Nonpayment except as prohibited by the medicaid program.

(d) *Exercising rights.* Each resident must be—

(1) Encouraged and assisted to exercise his rights as a resident of the ICF/MR and as a citizen; and

(2) Allowed to submit complaints or recommendations concerning the policies and services of the ICF/MR to staff or to outside representatives of the resident's choice or both, free from restraint, interference, coercion, discrimination, or reprisal.

(e) *Financial affairs.* Each resident must be allowed to manage his personal financial affairs. If a resident requests assistance from the ICF/MR in managing his personal financial affairs—

(1) The request must be in writing; and

(2) The ICF/MR must comply with the recordkeeping requirements of § 442.406 (d), (e).

(f) *Freedom from abuse and restraints.* (1) Each resident must be free from mental and physical abuse.

(2) Each resident must be free from chemical and physical restraints unless the restraints are—

(i) Authorized by a physician in writing for a specified period of time;

(ii) Used in an emergency under the following conditions:

(A) The use is necessary to protect the resident from injuring himself or others.

(B) The use is authorized by a professional staff member identified in the written policies and procedures of the facility as having authority to do so.

(C) The use is reported promptly to the resident's physician by that staff member; or

(iii) Used during a behavior modification session for a mentally retarded resident under the following conditions:

(A) The use is authorized in writing by a physician or a qualified mental retardation professional.

(B) The parent or legal guardian of the mentally retarded resident gives his informed consent to the use of restraints or aversive stimuli.

(g) *Privacy.* (1) Each resident must be treated with consideration, respect, and full recognition of his dignity and individuality.

(2) Each resident must be given privacy during treatment and care of personal needs.

(3) Each resident's records, including information in an automatic data bank, must be treated confidentially.

(4) Each resident must give written consent before the ICF/MR may release information from his record to someone not otherwise authorized by law to receive it.

(5) A married resident must be given privacy during visits by his spouse.

(6) If both husband and wife are residents of the ICF/MR, they must be permitted to share a room.

(h) *Work.* No resident may be required to perform services for the ICF/MR.

(i) *Freedom of association and correspondence.* Each resident must be allowed to—

(1) Communicate, associate, and meet privately with individuals of his choice, unless this infringes on the rights of another resident; and

(2) Send and receive personal mail unopened.

(j) *Activities.* Each resident must be allowed to participate in social, religious, and community group activities unless a qualified mental retardation professional—

(1) Determines that these activities are contraindicated for a mentally retarded resident; and

(2) Documents that determination in the resident's record.

(k) *Personal possessions.* Each resident must be allowed to retain and use his personal possessions and clothing as space permits.

§ 442.405 Delegation of rights and responsibilities.

(a) The ICF/MR must have written policies and procedures that provide that all rights and responsibilities of a resident pass to the resident's guardian, next of kin, or sponsoring agency or agencies if the resident—

(1) Is adjudicated incompetent under State law; or

(2) Is determined by a qualified mental retardation professional to be incapable of understanding his rights and responsibilities.

(b) If the resident is determined to be incapable of understanding his rights and responsibilities, the qualified mental retardation professional who made the determination must record the specific reason in the resident's record.

§ 442.406 Resident finances.

(a) The ICF/MR must written policies and procedures that protect the financial interests of each resident.

(b) If large sums accrue to a resident, the policies and procedures must provide for appropriate protection of these funds and for counseling the resident concerning their use.

(c) Each resident must be allowed to possess and use money in normal ways or be learning to do so.

(d) The ICF/MR must maintain a current, written financial record for each resident that includes written receipts for—

(1) All personal possessions and funds received by or deposited with the ICF/MR; and

(2) All disbursements made to or for the resident.

(e) The financial record must be available to the resident and his family.

§ 442.407 Policy and procedure manuals.

The ICF/MR must have manuals that—

(a) Describe the policies and procedures in the major operating units of the ICF/MR;

(b) Are current, relevant, and available; and

(c) Are complied with the units.

§ 442.408 Management audit plan.

The ICF/MR must have a plan for a continuing management audit to insure that the ICF/MR—

(a) Complies with State laws and regulations; and

(b) Effectively implements its policies and procedures.

§ 442.409 Governing body.

(a) The ICF/MR must have a governing body that—

(1) Exercises general direction over the affairs of the ICF/MR;

(2) Establishes policies concerning the operation of the ICF/MR and the welfare of the individuals it serves;

(3) Establishes qualifications for the chief executive officer in the following areas:

(i) Education.

(ii) Experience.

(iii) Personal factors.

(iv) Skills; and

(4) Appoints the chief executive officer.

(b) The governing body may consist of one individual or a group.

§ 442.410 Chief executive officer.

(a) The chief executive officer must—

(1) Act for the governing body in the overall management of the ICF/MR; and

(2) Arrange for one individual to be responsible for the administrative direction of the ICF/MR at all times.

(b) The chief executive officer must be an individual licensed in the State as a nursing home administrator or a qualified mental retardation professional except—

If the ICF/MR is licensed as a nursing home, the chief executive officer must be an individual licensed in the State as a nursing home administrator;

(2) If the ICF/MR is a hospital qualifying as an institution for the mentally retarded or persons with related conditions, the chief executive officer must be a hospital administrator.

(c) Job titles for the chief executive officer may include any of the following: superintendent, director, and administrator.

§ 442.411 Qualified mental retardation professional.

The ICF/MR must have a qualified mental retardation professional who is responsible for—

(a) Supervising the delivery of each resident's individual plan of care;

(b) Supervising the delivery of training and habilitation services;

(c) Integrating the various aspects of the ICF/MR's program;

(d) Recording each resident's progress; and

(e) Initiating a periodic review of each individual plan of care for necessary changes.

§ 442.412 Organization chart.

The ICF/MR must have an organization chart that shows—

(a) The major operating programs of the ICF/MR;

(b) The staff divisions of the ICF/MR;

(c) The administrative personnel in charge of the programs and divisions; and

(d) The lines of authority, responsibility, and communication for administrative personnel.

§ 442.413 Staff-resident communications.

The ICF/MR must provide for effective staff and resident participation and communication in the following manners:

(a) The ICF/MR must establish appropriate standing committees such as human rights, research review, and infection.

(b) The committees must meet regularly and include direct-care staff whenever appropriate.

(c) Reports of staff meetings and standing and ad hoc committee meetings must include recommendations and their implementation, and be filed.

§ 442.414 Communication with residents and parents.

(a) The ICF/MR must have an active program of communication with the residents and their families, that includes—

(1) Keeping residents' families or legal guardians informed of resident activities that may be of interest to them or of significant changes in the resident's condition;

(2) Answering communications from resident's relatives promptly and appropriately;

(3) Allowing close relatives and guardians to visit at any reasonable hour, without prior notice, unless the resident's needs limit visits;

(4) Allowing parents to visit any part of the ICF/MR that provides services to residents;

(5) Encouraging frequent and informal visits home by the residents; and

(6) Having rules that make it easy to arrange visits home.

(b) The ICF/MR must insure that individuals allowed to visit the ICF/MR under paragraph (a)(3) of this section do no infringe on the privacy and rights of the other residents.

§ 442.415 Health and safety laws.

The ICF/MR must meet all Federal, State, and local laws, regulations and codes pertaining to health and safety, such as provisions regulating—

(a) Buying, dispensing, safeguarding, administering, and disposing of medications and controlled substances;

(b) Construction, maintenance, and equipment for the ICF/MR;

(c) Sanitation;

(d) Communicable and reportable diseases; and

(e) Post-mortem procedures.

§ 442.416 Research statement.

If the ICF/MR conducts research, it must comply with the statement of assurance on research involving human subjects required by 45 CFR 46.104 through 46.108.

§ 442.417 Agreements with outside resources.

(a) If the ICF/MR does not employ a qualified professional to furnish a required institutional service, it must have in effect a written agreement with a qualified professional outside the ICF/MR to furnish the required service.

(b) The agreement must—

(1) Contain the responsibilities, functions, objectives, and other terms agreed to by the ICF/MR and the qualified professional; and

(2) Be signed by the administrator or his representative and by the qualified professional.

ADMISSION AND RELEASE

§ 442.418 Admission criteria and evaluations.

(a) Except as provided in paragraph (c) of this section, an ICF/MR may not admit an individual as a resident unless his needs can be met and an interdisciplinary professional team has determined that admission is the best available plan for that individual.

(b) The team must—

(1) Conduct a comprehensive evaluation of the individual covering physical, emotional, social, and cognitive factors; and

(2) Before the individual's admission—

(i) Define his need for service without regard to the availability of those services; and

(ii) Review all available and applicable programs of care, treatment, and training and record its findings.

(c) If admission is not the best plan but the individual must be admitted nevertheless, the ICF/MR must—

(1) Clearly acknowledge that the admission is inappropriate; and

(2) Initiate plans to actively explore alternatives.

§ 442.419 Availability of rules and procedures.

The facility must make available for distribution a summary of the laws, regulations, and procedures concerning admission, readmission, and release of a resident.

§ 442.420 Number of residents.

The ICF/MR must admit only that number of individuals that does not exceed—

(a) Its rated capacity; and

(b) Its capability to provide adequate programing.

§ 442.421 Review of preadmission evaluation.

Within 1 month after admission, the interdisciplinary professional team must—

(a) Review and update the preadmission evaluation with the participation of direct care personnel;

(b) Develop, with the participation of direct care personnel, a prognosis that can be used for programing and placement;

(c) Record the results of the evaluation in the resident's record kept in the living unit; and

(d) Write an interpretation of the evaluation in terms of specific actions to be taken for—

(1) The direct care personnel and the special services staff responsible for carrying out the resident's program; and

(2) The resident's parents or legal guardian.

§ 442.422 Annual review of resident's status.

(a) All relevant personnel of the ICF/MR, including personnel in the living unit, must jointly review the status of each resident at least once a year and produce program recommendations.

(b) This review must include consideration of the following:

(1) The advisability of continued residence and alternative programs.

(2) When the resident legally becomes an adult—

(i) The need for guardianship; and

(ii) How the resident may exercise his civil and legal rights.

§ 442.423 Record and reports of reviews.

The results of the reviews required by §§ 442.421 and 442.422 must be—

(a) Recorded in the resident's record kept in the living unit;

(b) Made available to personnel involved in the direct care of the resident;

(c) Interpreted to the resident's parents or legal guardian who are involved in planning and decisionmaking; and

(d) Interpreted to the resident, when appropriate.

§ 442.424 Release from the ICF/MR.

(a) The ICF/MR must establish procedures for counseling a parent or guardian who requests the release of a resident concerning the advantages and disadvantages of the release.

(b) Planning for release of a resident must include providing for appropriate services in the resident's new environment, including protective supervision and other followup services.

(c) When a resident is permanently released, the ICF/MR must prepare and place in the resident's record a summary of findings, progress, and plans.

§ 442.425 Transfer to another facility.

(a) Except as provided in paragraph (b) of this section, the ICF/MR must have in effect a transfer agreement with one or more hospitals sufficiently close by to make feasible the prompt transfer of the resident and his records to the hospital and to support a working arrangement between the ICF/MR and the hospital for providing inpatient hospital services to residents when needed.

(b) If the survey agency finds that the ICF/MR tried in good faith to enter into an agreement but could not, the ICF/MR will be considered to meet the requirements of paragraph (a) as long as the survey agency finds that it is in the public interest and essential to assuring ICF/MR services for eligible individuals in the community.

(c) When a resident is transferred to another facility, the ICF/MR making the transfer must—

(1) Record the reason for the transfer and a summary of findings, progress, and plans; and

(2) Except in an emergency, inform the resident and his parent or guardian in advance and obtain their written consent to the transfer.

§ 442.426 Emergencies or death of a resident.

(a) The ICF/MR must notify promptly the resident's next of kin or guardian of any unusual occurence concerning the resident, including serious illness, accident, or death.

(b) If any autopsy is performed after a resident's death—

(1) A qualified physician who has no conflict of interest or loyalty to the ICF/MR must perform the autopsy; and

(2) The resident' family must be told of the autopsy findings if they so desire.

PERSONNEL POLICIES

§ 442.427 Written policies.

The ICF/MR must—

(a) Have written personnel policies that are available to all employees;

(b) Make written job descriptions available for all positions; and

(c) Have written policies that prohibit employees with symptoms or signs of a communicable disease from working.

§ 442.428 Licensure and professional standards.

The ICF/MR must—

(a) Require the same licensure, certification, or standards for positions in the facility as are required for comparable positions in community practice; and

(b) Take into account in its personnel activities the ethical standards of professional conduct developed by professional societies.

§ 442.429 Suspension and dismissal.

The ICF/MR must have an authorized procedure, consistent with due process, for suspending or dismissing an employee.

§ 442.430 Staff treatment of residents.

(a) The ICF/MR must have written policies that prohibit mistreatment, neglect, or abuse of a resident by an employee of the ICF/MR.

(b) The ICF/MR must insure that all alleged violations of these policies are reported immediately.

(c) The ICF/MR must have evidence that—

(1) All violations are investigated thoroughly;

(2) The results of the investigation are reported to the chief executive or his designated representative within 24 hours of the report of the incident; and

(3) If the alleged violation is verified, the chief executive officer imposes an appropriate penalty.

§ 442.431 Sufficient staffing and resident work.

(a) The ICF/MR must have a staff of sufficient size that the ICF/MR does not depend on residents or volunteers for services.

(b) The ICF/MR must have a written policy to protect residents from exploitation if they engage in productive work.

§ 442.432 Staff training program.

(a) The ICF/MR must have a staff training program, appropriate to the size and nature of the ICF/MR, that includes—

(1) Orientation for each new employee to acquaint him with the philosophy, organization, program, practices, and goals of the ICF/MR;

(2) Inservice training for any employee who has not achieved the desired level of competence;

(3) Continuing inservice training for all employees to update and improve their skills; and

(4) Supervisory and management training for each employee who is in, or a candidate for, a supervisory position.

(b) If appropriate to the size and nature of the ICF/MR it must have someone designated to be responsible for staff development and training.

RESIDENT LIVING

§ 442.433 Responsibilities of living unit staff.

(a) The living unit staff must make care and development of the residents their primary responsibility. This includes training each resident in the activities of daily living and in the development of self-help and social skills.

(b) The ICF/MR must insure that the staff are not diverted from their primary responsibilities by excessive housekeeping or clerical duties or other activities not related to resident care.

(c) Members of the living unit staff from all shifts must participate in appropriate activities relating to the care and development of the resident including, at least, referral, planning, initiation, coordination, implementation, followthrough, monitoring, and evaluation.

§ 442.434 Resident evaluation and program plans.

The ICF/MR must have specific evaluation and program plans for each resident that are—

(a) Available to direct care staff in each living unit; and

(b) Reviewed by a member or members of an interdisciplinary professional team at least monthly with documentation of the review entered in the resident's record.

§ 442.435 Resident activities.

(a) The ICF/MR must develop an activity schedule for each resident that—

(1) Does not allow periods of unscheduled activity to extend longer than 3 continuous hours;

(2) Allows free time for individual or group activities using appropriate materials, as specified by the program team; and

(3) Includes planned outdoor periods all year round.

(b) Each resident's activity schedule must be available to direct care staff and be carried out daily.

(c) The ICF/MR must insure that a multiple-handicapped or nonambulatory resident—

(1) Spends a major portion of the waking day out of bed;

(2) Spends a portion of the waking day out of his bedroom area;

(3) Has planned daily activity and exercise periods; and

(4) Moves around by various methods and devices whenever possible.

§ 442.436 Personal possessions.

The ICF/MR must allow the residents to have personal possessions such as toys, books, pictures, games, radios, arts and crafts materials, religious articles, toiletries, jewelry, and letters.

§ 442.437 Control and discipline of residents.

(a) The ICF/MR must have written policies and procedures for the control and discipline of residents that are available in each living unit and to parents and guardians.

(b) If appropriate, residents must participate in formulating these policies and procedures.

(c) The ICF/MR may not allow—

(1) Corporal punishment of a resident;

(2) A resident to discipline another resident, unless it is done as part of an organized self-government program conducted in accordance with written policy; or

(3) A resident to be placed alone in a locked room.

§ 442.438 Physical restraint of residents.

(a) Except as provided for behavior modification programs in § 442.422, the ICF/MR may allow the use of physical restraint on a resident only if absolutely necessary to protect the resident from injuring himself or others.

(b) The ICF/MR may not use physical restraint—

(1) As punishment;

(2) For the convenience of the staff; or

(3) As a substitute for activities or treatment.

(c) The ICF/MR must have a written policy that specifies—

(1) How and when physical restraint may be used;

(2) The staff members who must authorize its use; and

(3) The method for monitoring and controlling its use.

(d) An order for physical restraint may not be in effect longer than 12 hours.

(e) Appropriately trained staff must check a resident placed in a physical restraint at least every 30 minutes and keep a record of these checks.

(f) A resident who is in a physical restraint must be given an opportunity for motion and exercise for a period of not less than 10 minutes during each 2 hours of restraint.

§ 442.439 Mechanical devices used for physical restraint.

(a) Mechanical devices used for physical restraint must be designed and used in a way that causes the resident no physical injury and the least possible physical discomfort.

(b) A totally enclosed crib or a barred enclosure is a physical restraint.

(c) Mechanical supports used to achieve proper body position and balance are not physical restraints. However, mechanical supports must be designed and applied—

V 4 3 / 1 9 0 SE 29 78

V 43 / 190 SE 29 78 UMI

(1) Under the supervision of a qualified professional; and

(2) In accordance with principles of good body alinement, concern for circulation, and allowance for change of position.

§ 442.440 Chemical restraint of residents.

The ICF/MR may not use chemical restraint—

(a) Excessively;

(b) As punishment;

(c) For the convenience of the staff;

(d) As a substitute for activities or treatment; or

(e) In quantities that interfere with a resident's habilitation program.

§ 442.441 Behavior modification programs.

(a) For purposes of this section—

"Aversive stimuli" means things or events that the resident finds unpleasant or painful that are used to immediately discourage undesired behavior.

"Time out" means a procedure designed to improve a resident's behavior by removing positive reinforcement when his behavior is undesirable.

(b) Behavior modification programs involving the use of aversive stimuli or time-out devices must be—

(1) Reviewed and approved by the ICF/MR's human rights committee or the qualified mental retardation professional;

(2) Conducted only with the consent of the affected resident's parents or legal guardian; and

(3) Described in written plans that are kept on file in the ICF/MR.

(c) A physical restraint used as a time-out device may be applied only during behavior modification exercises and only in the presence of the trainer.

(d) For time-out purposes, time-out devices and aversive stimuli may not be used for longer than one hour, and then only during the behavior modification program and only under the supervision of the trainer.

§ 442.442 Resident clothing.

The ICF/MR must insure that each resident—

(a) Has enough neat, clean, suitable, and seasonable clothing;

(b) Has his own clothing marked with his name when necessary;

(c) Is dressed daily in his own clothes unless this is contraindicated in written medical orders;

(d) Is trained and encouraged, as appropriate, to—

(1) Select his daily clothing;

(2) Dress himself;

(3) Change his clothes to suit his activities; and

(e) Has storage space for his clothing that is accessible to him even if he is in a wheelchair.

§ 442.443 Health, hygiene, grooming and toilet training.

(a) Each resident must be trained to be as independent as possible in health, hygiene, and grooming practices, including bathing, brushing teeth, shampooing, combing and brushing hair, shaving, and caring for toenails and fingernails.

(b) Each resident who does not eliminate appropriately and independently must be in a regular, systematic toilet training program and a record must be kept of his progress in the program.

(c) A resident who is incontinent must be bathed or cleaned immediately upon voiding or soiling, unless specifically contraindicated by the training program, and all soiled items must be changed.

(d) The ICF/MR must establish procedures for—

(1) Weighing each resident monthly, unless the special needs of the resident require more frequent weighing;

(2) Measuring the height of each resident every 3 months until the resident reaches the age of maximum growth;

(3) Maintaining weight and height records for each resident; and

(4) Insuring that each resident maintains a normal weight.

(e) At least every 3 days, a physician must review orders prescribing bed rest or prohibiting a resident from being outdoors.

(f) The ICF/MR must furnish, maintain in good repair, and encourage the use of dentures, eyeglasses, hearing aids, braces, and other aids prescribed for a resident by an appropriate specialist.

§ 442.444 Grouping and organization of living units.

(a) The ICF/MR may not house residents of grossly different ages, developmental levels, and social needs in close physical or social proximity unless the housing is planned to promote the growth and development of all those housed together.

(b) The ICF/MR may not segregate residents on the basis of their physical handicaps. It must integrate residents who are mobile nonambulatory, deaf, blind, epileptic, and so forth with others of comparable social and intellectual development.

§ 442.445 Resident living staff.

(a) Each resident living unit must have sufficient, appropriately qualified, and adequately trained personnel to conduct the resident living program as required by this subpart.

(b) The ICF/MR must have an individual, whose training and experience is appropriate to the program, who is administratively responsible for resident living personnel.

(c) Each resident living unit, regardless of organization or design, must have, as a minimum, overall staff-resident ratios (allowing for a 5-day work week plus holiday, vacation, and sick time) as follows unless program needs justify otherwise:

(1) For units serving children under the age of 6 years, severely and profoundly retarded, severely physically handicapped, or residents who are aggressive, assaultive, or security risks, or who manifest severely hyperactive or psychotic-like behavior, the overall ration is 1 to 2.

(2) For units serving moderately retarded residents requiring habit training, the overall ration is 1 to 2.5.

(3) For units serving residents in vocational training programs and adults who work in sheltered employment situations, the overall ration is 1 to 5.

§ 442.446 Resident living areas.

The ICF/MR must design and equip the resident living areas for the comfort and privacy of each resident.

§ 442.447 Resident bedrooms: Space and occupancy.

(a) Bedrooms must—

(1) Be at or above street grade level;

(2) Be outside rooms;

(3) Be equipped with or located near adequate toilet and bathing facilities;

(4) Accommodate no more than 4 residents unless granted a variance under paragraph (b) of this section; and

(5) Measure at least 60 square feet per resident in multiple resident bedrooms and at least 80 square feet in single resident bedrooms.

(b) The survey agency may grant a variance from the limit of 4 residents per room if it finds that—

(1) A physician or psychologist who meets the definition of a qualified mental retardation professional in § 442.401 has justified in each affected resident's plan of care that assignment to a bedroom of more than 4 residents is in accordance with the program needs of that resident; and

(2) The variance does not adversely affect the health or safety of the residents.

(c) The variance may be granted only for the period of a specific certification.

§ 442.448 Resident bedrooms: Furniture and bedding.

The ICF/MR must provide each resident with—

(a) A separate bed of proper size and height for the convenience of the resident;

(b) A clean, comfortable mattress;

(c) Bedding appropriate to the weather and climate; and

(d) Appropriate furniture, such as a chest of drawers, a table or desk, and an individual closet with clothes racks and shelves accessible to the resident.

§ 442.449 Storage space in living units.

The ICF/MR must provide—

(a) Space for equipment for daily out-of-bed activity for all residents who are not yet mobile, except those who have a short-term illness or those few residents for whom out-of-bed activity is a threat to life;

(b) Suitable storage space, accessible to the resident, for personal possessions, such as toys and prosthetic equipment; and

(c) Adequate clean linen and dirty linen storage areas for each living unit.

§ 442.450 Resident bathrooms.

(a) The ICF/MR must—

(1) Have toilet and bathing facilities appropriate in number, size, and design to meet the needs of the residents;

(2) Provide for individual privacy in toilets, bathtubs, and showers unless specifically contraindicated by program needs;

(3) Equip bathrooms and bathroom appliances for use by the physically handicapped; and

(4) Control the temperature of the hot water at all taps to which residents have access, by using thermostatically controlled mixing valves or other means, so that the water does not exceed 110 degrees fahrenheit.

(b) The survey agency may grant a variance from the requirement in paragraph (a)(4) of this section if—

(1) The hot water taps are in supervised areas; and

(2) The purpose of the variance is to train residents in the use of hot water.

(c) The variance must be part of the survey record.

§ 442.451 Heating and ventilation in living units.

(a) Each habitable room in the ICF/MR must have—

(1) At least one window; and

(2) Direct outside ventilation by means of windows, louvers, air conditioning, or mechanical ventilation horizontally and vertically.

(b) The ICF/MR must—

(1) Maintain the temperature and humidity within a normal comfort range by heating, air conditioning or other means; and

(2) Use a heating apparatus that does not constitute a burn hazard to residents.

§ 442.452 Floors in living units.

The ICF/MR must have—

(a) Floors that have a resilient, nonabrasive, and slip-resistant surface; and

(b) Nonabrasive carpeting, if the living unit is carpeted and serves residents who crawl.

§ 442.453 Emergency lighting.

If a living unit houses more than 15 residents, it must have emergency lighting with automatic switches for stairs and exits.

Professional and Special Programs and Services

§ 442.454 Needed services.

In addition to the resident living services detailed in §§ 442.432 through 442.453, the ICF/MR must provide professional and special programs and services to residents based upon their needs for these programs and services.

§ 442.455 Quality standards for outside resources.

(a) Programs and services provided by the ICF/MR or to the ICF/MR by outside agencies or individuals must meet the standards for quality of services required in this subpart.

(b) All contracts for these services must state that these standards will be met.

§ 442.456 Planning and evaluation.

Interdisciplinary teams consisting of individuals representative of the professions or service areas included in this subpart that are relevant in each particular case, must—

(a) Evaluate each resident's needs;

(b) Plan an individualized habilitation program to meet each resident's identified needs; and

(c) Periodically review each resident's responses to his program and revise the program accordingly.

Dental Services

§ 442.457 Diagnostic services.

(a) The ICF/MR must provide each resident with comprehensive diagnostic dental services that include a complete extraoral and intraoral examination, using all diagnostic aids necessary to properly evaluate the resident's oral condition, not later than 1 month after a resident's admission to the ICF/MR, unless he received the examination within 6 months before admission.

(b) The ICF/MR must review the results of the examination and enter them in the resident's record.

§ 442.458 Treatment.

The ICF/MR must provide each resident with comprehensive dental treatment that includes—

(a) Provision for emergency dental treatment on a 24-hour-a-day basis by a qualified dentist; and

(b) A system that assures that each resident is reexamined as needed but at least once a year.

§ 442.459 Education and training.

The ICF/MR must provide education and training in the maintenance of oral health that includes—

(a) A dental hygiene program that informs residents and all staff on nutrition and diet control measures and residents and living unit staff on proper oral hygiene methods; and

(b) Instruction of parents or guardians in the maintenance of proper oral hygiene in appropriate instances, for example when a resident leaves the ICF/MR.

§ 442.460 Records.

The ICF/MR must—

(a) Keep a permanent dental record for each resident;

(b) Enter a summary dental progress report at stated intervals in each resident's record kept in the living unit;

(c) Provide a copy of the permanent dental record to any facility to which the resident is transferred.

§ 442.461 Formal arrangements.

The ICF/MR must have a formal arrangement for providing each resident with the dental services required under this subpart.

§ 442.462 Staff.

(a) The ICF/MR must have enough qualified dental personnel and support staff to carry out the dental services program.

(b) Each dentist and dental hygienist providing services to the facility must be licensed to practice in the State.

Training and Habilitation Services

§ 442.463 Required services.

(a) The ICF/MR must provide training and habilitation services to all residents, regardless of age, degree of retardation, or accompanying disabilities or handicaps.

(b) Individual evaluations of residents must—

(1) Be based upon the use of empirically reliable and valid instruments, whenever these instruments are available; and

(2) Provide the basis for prescribing an appropriate program of training experiences for the resident.

(c) The ICF/MR must have written training and habilitation objectives for each resident that are—

(1) Based upon complete and relevant diagnostic and prognostic data; and

(2) Stated in specific behavioral terms that permit the progress of each resident to be assessed.

(d) The ICF/MR must provide evidence of services designed to meet the training and habilitation objectives for each resident.

(e) The training and habilitation staff must—

(1) Maintain a functional training and habilitation record for each resident; and

(2) Provide training and habilitation services to residents with hearing, vision, perceptual, or motor impairments.

§ 442.464 Staff.

The ICF/MR must have enough qualified training and habilitation personnel and support staff, supervised by a qualified mental retardation professional, to carry out the training and habilitation program.

FOOD AND NUTRITION SERVICES

§ 442.465 Required services.

The ICF/MR's food services must include—

(a) Menu planning;

(b) Initiating food orders or requisitions;

(c) Establishing specifications for food purchases and insuring that the specifications are met;

(d) Storing and handling food;

(e) Preparing and serving food;

(f) Maintaining sanitary standards in compliance with State and local regulations; and

(g) Orienting, training, and supervising food service personnel.

§ 442.466 Diet requirements.

(a) The ICF/MR must provide each resident with a nourishing, well-balanced diet.

(b) Modified diets must be—

(1) Prescribed by the resident's interdisciplinary team with a record of the prescription kept on file;

(2) Planned, prepared, and served by individuals who have received adequate instruction; and

(3) Periodically reviewed and adjusted as needed.

(c) The ICF/MR must furnish a nourishing, well-balanced diet, in accordance with the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences, adjusted for age, sex, activity, and disability, unless otherwise required by medical needs. (Recommended Dietary Allowances (8th ed., 1974) is available from the Printing and Publication Office, National Academy of Sciences, Washington, D.C. 20418.)

(d) A resident may not be denied a nutritionally adequate diet as a form of punishment.

§ 442.467 Meal service.

(a) The ICF/MR must serve at least three meals daily, at regular times comparable to normal mealtimes in the community with—

(1) Not more than 14 hours between a substantial evening meal and breakfast of the following day; and

(2) Not less than 10 hours between breakfast and the evening meal of the same day.

(b) Food must be served—

(1) In appropriate quantity;

(2) At appropriate temperature;

(3) In a form consistent with the developmental level of the resident; and

(4) With appropriate utensils.

(c) Food served and uneaten must be discarded.

§ 442.468 Menus.

(a) Menus must—

(1) Be written in advance;

(2) Provide a variety of foods at each meal; and

(3) Be different for the same days of each week and adjusted for seasonal changes.

(b) The ICF/MR must keep on file, for at least 30 days, records of menus as served and of food purchased.

§ 442.469 Food storage.

The ICF/MR must store—

(a) Dry or staple food items at least 12 inches above the floor, in a ventilated room not subject to sewage or waste water backflow or contamination by condensation, leakage, rodents or vermin; and

(b) Perishable foods at proper temperatures to conserve nutritive values.

§ 442.470 Work areas.

The ICF/MR must—

(a) Have effective procedures for cleaning all equipment and work areas; and

(b) Provide handwashing facilities, including hot and cold water, soap, and paper towels adjacent to work areas.

§ 442.471 Dining areas and service.

The ICF/MR must—

(a) Serve meals for all residents, including the mobile nonambulatory, in dining rooms, unless otherwise required for health reasons or by decision of the team responsible for the resident's program;

(b) Provide table service for all residents who can and will eat at a table, including residents in wheelchairs;

(c) Equip areas with table, chairs, eating utensils, and dishes designed to meet the developmental needs of each resident; and

(d) Supervise and staff dining rooms adequately to direct self-help dining procedures and to assure that each resident receives enough food.

§ 442.472 Training of residents and direct-care staff.

(a) The ICF/MR must provide residents with systematic training to develop appropriate eating skills, using special eating equipment and utensils if it serves the developmental process.

(b) Direct-care staff must be trained in and use proper feeding techniques.

(c) The ICF/MR must insure that residents eat in an upright position, unless medically contraindicated, and in a manner consistent with their developmental needs.

§ 442.473 Staff.

(a) The ICF/MR must have enough competent personnel to meet the food and nutrition needs of residents.

(b) A dietitian who directs food and nutrition services in ICF's/MR of 20 beds or more must meet the qualification requirements of § 405.1101 of this chapter.

(c) The ICF/MR must designate a staff member who is trained or experienced in food management or nutrition to direct food and nutrition services in an ICF/MR with less than 20 beds.

MEDICAL SERVICES

§ 442.474 Required services.

The ICF/MR must—

(a) Provide medical services through direct contact between physicians and residents and through contact between physicians and individuals working with the residents;

(b) Provide health services including treatment, medications, diet, and any other health service prescribed or planned for the resident, 24 hours a day;

(c) Have available electroencephalographic services as needed;

(d) Have enough space, facilities, and equipment to fulfill the medical needs of residents; and

(e) Provide evidence, such as utilization review committee records, that hospital and laboratory services are used in accordance with professional standards.

§ 442.475 Goals and evaluations.

(a) Physicians must participate, when appropriate, in—

(1) The continuing interdisciplinary evaluation of individual residents for the purposes of beginning, monitoring, and following up on individualized habilitation programs; and

(2) The development for each resident of a detailed, written statement of—

(i) Case management goals for physical and mental health, education, and functional and social competence; and

(ii) A management plan detailing the various habilitation or rehabilitation services to achieve those goals, with

clear designation of responsibility for implementation.

(b) The ICF/MR must review and update the statement of treatment goals and management plans as needed, but at least annually, to insure—

(1) Continuing appropriateness of the goals;

(2) Consistency of management methods with the goals; and

(3) The achievement of progress toward the goals.

§ 442.476 Arrangements with outside resources.

The ICF/MR must—

(a) Have a formal arrangement for providing each resident with medical care that includes care for medical emergencies on a 24-hour-a-day basis;

(b) Designate a physician, licensed to practice medicine in the State, to be responsible for maintaining the general health conditions and practices of the ICF/MR and

(c) Maintain effective arrangements, for residents to receive prompt medical and remedial services that they require but that the ICF/MR does not regularly provide.

§ 442.477 Preventive health services.

The ICF/MR must have preventive health services for residents that include—

(a) Means for the prompt detection and referral of health problems, through adequate medical surveillance, periodic inspection, and regular medical examinations;

(b) Annual physical examinations that include—

(1) Examination of vision and hearing; and

(2) Routine screening laboratory examinations as determined necessary by the physician, and special studies when needed;

(c) Immunizations, using as a guide the recommendations of the Public Health Service Advisory Committee on Immunization Practices and of the Committee on the Control of Infectious Diseases of the American Academy of Pedeatrics;

(d) Tuberculosis control, appropriate to the ICF/MR's population, in accordance with the recommendations of the American College of Chest Physicians or the section on diseases of the chest of the American Academy of Pediatrics or both; and

(e) Reporting of communicable diseases and infections in accordance with law.

§ 442.478 Required services.

The ICF/MR must provide residents with nursing services, in accordance with their needs, that include, as appropriate, the following:

(a) Registered nurse participation in—

(1) The preadmission evaluation study and plan;

(2) The evaluation study, program design, and placement of the resident at the time of admission;

(3) The periodic reevaluation of the type, extent, and quality of services and programing;

(4) The development of the discharge plan; and

(5) The referral to appropriate community resources.

(b) Training in habits of personal hygiene, family life, and sex education that includes but is not limited to family planning and venereal disease counseling.

(c) Control of communicable diseases and infections through—

(1) Identification and assessment;

(2) Reporting to medical authorities; and

(3) Implementation of appropriate protective and preventive measures.

(4) Development of a written nursing services plan for each resident as part of the total habilitation program.

(5) Modification of the nursing plan, in terms of the resident's daily needs, at least annually for adults and more frequently for children, in accordance with developmental changes.

§ 442.479 Training.

(a) A registered nurse must participate, as appropriate, in the planning and implementation of training of the ICF/MR's personnel.

(b) The ICF/MR must have direct-care personnel trained in—

(1) Detecting signs of illness or dysfunction that warrant medical or nursing intervention;

(2) Basic skills required to meet the health needs and problems of the residents; and

(3) First aid for accident or illness.

§ 442.480 Staff.

(a) The ICF/MR must have available enough nursing staff, which may include currently licensed practical nurses and other supporting personnel, to carry out the various nursing services.

(b) The individual responsible for the delivery of nursing services must have knowledge and experience in the field of developmental disabilities.

(c) Nursing service personnel at all levels of experience and competence must be—

(1) Assigned responsibilities in accordance with their qualifications;

(2) Delegated authority commensurate with their responsibility; and

(3) Provided appropriate professional nursing supervision.

§ 442.481 Supervision of health services.

(a) The ICF/MR must have a registered nurse or licensed practical or vocational nurse to supervise the health services full time, 7 days a week, on the day shift.

(b) The nurse must have a current license to practice in the State.

(c) If the ICF/MR employs a licensed practical or vocational nurse to supervise health services, it must have a formal arrangement with a registered nurse to consult with the licensed practical or vocational nurse at regular intervals, but not less than 4 hours each week.

(d) To be qualified to serve as a health services supervisor, a licensed practical nurse must—

(1) Be a graduate of a State-approved school of practical nursing;

(2) Have education or other training that the State authority responsible for licensing practical nurses considers equal to graduation from a State-approved school of practical nursing; or

(3) Have passed the Public Health Service examination for waivered licensed practical or vocational nurses.

(e) The ICF/MR may employ as a nurse an individual who is licensed by the State in a category other than registered nurse or licensed practical or vocational nurse if—

(1) The individual has completed a training program to get the license that included at least the same number of classroom and practice hours in all nursing subjects as in the program of a State-approved school of practical or vocational nursing; and

(2) The State agency responsible for licensing the individual submits a report to the Medicaid agency comparing State LPN or vocational nurse course requirements with those for the program completed by the individual.

(f) The ICF/MR must have responsible staff members on duty and awake 24 hours a day to take prompt, appropriate action in case of injury, illness, fire, or other emergency.

(g) An ICF/MR that has 15 beds or less, and only admits residents certified by a physician as not in need of professional nursing services, may meet the requirements of paragraphs (a) through (f) of this section by—

(1) Contracting for the services of a public health nurse or other registered nurse to care for minor illnesses, injuries, or emergencies, and to consult on the health aspects of the individual plan of care; and

(2) Having a responsible staff member on duty 24 hours a day who is immediately accessible to the residents to take reports of injuries, symptoms of illness, and emergencies.

(h) The health services supervisor is responsible for developing, supervising the implementation of, reviewing, and

V 43 / 190 SE 29 78

V 43/190 SE 29 78 UMI

revising a written health care plan for each resident that is—

(1) Developed and implemented according to the instructions of the attending or staff physician; and

(2) Reviewed and revised as needed but not less often than quarterly.

PHARMACY SERVICES

§ 442.482 Required services.

The ICF/MR must—

(a) Make formal arrangements for qualified pharmacy services, including provision for emergency service.

(b) Have a current pharmacy manual that—

(1) Includes policies and procedures and defines the functions and responsibilities relating to pharmacy services; and

(2) Is revised annually to keep abreast of current developments in services and management techniques; and

(c) Have a formulary system approved by a responsible physician and pharmacist and other appropriate staff. Copies of the ICF/MR's formulary system and of the American Hospital Formulary Service must be located and available in the facility.

§ 442.483 Pharmacist.

(a) Pharmacy services must be provided under the direction of a qualified licensed pharmacists.

(b) The pharmacist must—

(1) When a resident is admitted, obtain, if possible, a history of prescription and nonprescription drugs used and enter this information in the resident's record;

(2) Receive the original, or a direct copy, of the physician's drug treatment order;

(3) Maintain for each resident an individual record of all prescription and nonprescription medications dispensed, including quantities and frequency of refills;

(4) Participate, as appropriate, in the continuing interdisciplinary evaluation of individual residents for the purposes of beginning, monitoring, and following up on individualized habilitation programs; and

(5) Establish quality specifications for drug purchases and insure that they are met.

(c) A pharmacist or registered nurse must regularly review the medication record of each resident for potential adverse reactions, allergies, interactions, contraindications, rationality and laboratory test modifications and advise the physician of any recommended changes with reasons and with an alternate drug regimen.

(d) As appropriate to the ICF/MR, the responsible pharmacist, physician, nurse, and other professional staff must write policies and procedures that govern the safe administration and handling of all drugs. The following policies and procedures must be included:

(1) There must be a written policy governing the self administration of drugs, whether prescribed or not.

(2) The pharmacist or an individual under his supervision must compound, package, label, and dispense drugs including samples and investigational drugs. Proper controls and records must be kept of these processes.

(3) Each drug must be identified up to the point of administration.

(4) Whenever possible, the pharmacist must dispense drugs that require dosage measurements in a form ready to be administered to the resident.

§ 442.484 Drugs and medications.

(a) A medication must be used only by the resident for whom it is issued. Only appropriately trained staff may administer drugs.

(b) Any drug that is discontinued or outdated and any container with a worn, illegible, or missing label must be returned to the pharmacy for proper disposition.

(c) The ICF/MR must have—

(1) An automatic stop order on all drugs;

(2) A drug recall procedure that can be readily used;

(3) A procedure for reporting adverse drug reactions to the Food and Drug Administration; and

(4) An emergency kit available to each living unit and appropriate to the needs of its residents.

(d) Medication errors and drug reactions must be recorded and reported immediately to the practitioner who ordered the drug.

§ 442.485 Drug storage.

The ICF/MR must—

(a) Store drugs under proper conditions of sanitation, temperature, light, moisture, ventilation, segregation, and security;

(b) Store poisons, drugs used externally, and drugs taken internally on separate shelves or in separate cabinets, at all locations;

(c) Keep medication that is stored in a refrigerator containing other items in a separate compartment with proper security;

(d) Keep all drugs under lock and key unless an authorized individual is in attendance;

(e) If there is a drug storeroom separate from the pharmacy, keep a perpetual inventory of receipts and issues of all drugs from that storeroom; and

(f) Meet the drug security requirements of Federal and State laws that apply to storerooms, pharmacies, and living units.

PHYSICAL AND OCCUPATIONAL THERAPY SERVICES

§ 442.486 Required services.

(a) The ICF/MR must provide physical and occupational therapy services through direct contact between therapists and residents and through contact between therapists and individuals involved with the residents.

(b) Physical and occupational therapy staff must provide treatment training programs that are designed to—

(1) Preserve and improve abilities for independent function, such as range of motion, strength, tolerance, coordination, and activities of daily living; and

(2) Prevent, insofar as possible, irreducible or progressive disabilities through means such as the use of orthotic and prosthetic appliances, assistive and adaptive devices, positioning, behavior adaptations, and sensory stimulation.

(c) The therapist must—

(1) Work closely with the resident's primary physician and with other medical specialists;

(2) Record regularly and evaluate periodically the treatment training progress; and

(3) Use the treatment training progress as the basis for continuation or change in the resident's program.

§ 442.487 Records and evaluations.

The ICF/MR must have evaluation results, treatment objectives, plans and procedures, and continuing observations of treatment progress—

(a) Recorded accurately, summarized, and communicated to all relevant parties;

(b) Used in evaluating progress; and

(c) Included in the resident's record kept in the living unit.

§ 442.488 Staff and facilities.

(a) The ICF/MR must have available enough qualified staff and support personnel to carry out the various physical and occupational therapy services in accordance with stated goals and objectives.

(b) Physical and occupational therapy personnel must be—

(1) Assigned responsibilities in accordance with their qualifications;

(2) Delegated authority commensurate with their responsibilities; and

(3) Provided professional direction and consultation.

(c) Therapy assistants must work under the supervision of a qualified therapist.

(d) Physical and occupational therapists and therapy assistants must meet the qualification requirements of § 405.1101 of this chapter.

(e) The ICF/MR must provide enough space and equipment and supplies for efficient and effective physical and occupational therapy services.

PSYCHOLOGICAL SERVICES

§ 442.489 Required services.

The ICF/MR must—

(a) Provide psychological services through personal contact between psychologists and residents and through contact between psychologists and individuals involved with the residents; and

(b) Have available enough qualified staff and support personnel to furnish the following psychological services based on need:

(1) Psychological services for residents, including evaluation, consultation, therapy, and program development.

(2) Administration and supervision of psychological services.

(3) Staff training.

§ 442.490 Psychologist.

Psychologists must—

(a) Have at least a master's degree from an accredited program and experience or training in the field of mental retardation;

(b) Participate, when appropriate, in the continuing interdisciplinary evaluation of each individual resident, for the purposes of beginning, monitoring, and following up on the resident's individualized habilitation program;

(c) Report and disseminate evaluation results in a manner that—

(1) Promptly provides information useful to staff working directly with the resident; and

(2) Maintains accepted standards of confidentiality;

(d) Participate, when appropriate, in the development of written, detailed, specific, and individualized habilitation program plans that—

(1) Provide for periodic review, followup, and updating; and

(2) Are designed to maximize each resident's development and acquisition of the following: Perceptual skills, sensorimotor skills, self-help skills, communication skills, social skills, self-direction, emotional stability, and effective use of time, including leisure time.

RECREATION SERVICES

§ 442.491 Required services.

The ICF/MR must—

(a) Coordinate recreational services with other services and programs provided to each resident, in order to—

(1) Make the fullest possible use of the ICF/MR's resources; and

(2) Maximize benefits to the residents;

(b) Design and construct or modify recreation areas and facilities so that all residents, regardless of their disabilities, have access to them; and

(c) Provide recreation equipment and supplies in a quantity and variety that is sufficient to carry out the stated objectives of the activities programs.

§ 442.492 Records.

The ICF/MR's resident records must include—

(a) Periodic surveys of the residents' recreation interests; and

(b) The extent and level of the residents' participation in the recreation program.

§ 442.493 Staff.

(a) The ICF/MR must have enough qualified staff and support personnel available to carry out the various recreation services in accordance with stated goals and objectives.

(b) Staff conducting the recreation program must have—

(1) A bachelor's degree in recreation, or in a speciality area, such as art, music, or physical education;

(2) An associate degree in recreation and 1 year of experience in recreation;

(3) A high school diploma, or an equivalency certificate and—

(i) Two years of experience in recreation; or

(ii) One year of experience in recreation plus completion of comprehensive inservice training in recreation; or

(4) Demonstrated proficiency and experience in conducting activities in one or more recreation program areas.

SOCIAL SERVICES

§ 442.494 Required services.

The ICF/MR must provide, as part of an interdisciplinary set of services, social services to each resident directed toward—

(a) Maximizing the social functioning of each resident;

(b) Enhancing the coping capacity of each resident's family;

(c) Asserting and safeguarding the human and civil rights of the retarded and their families; and

(d) Fostering the human dignity and personal worth of each resident.

§ 442.495 Social workers.

(a) During the evaluation process to determine whether or not admission to the ICF/MR is necessary, social workers must help the resident and his family—

(1) Consider alternative services, based on the retarded individual's status and important family and community factors; and

(2) Make a responsible choice as to whether and when residential placement is indicated.

(b) Social workers must participate, when appropriate, in the continuing interdisciplinary evaluation of individual residents for the purposes of beginning, monitoring, and following up on individualized habilitation programs.

(c) During the retarded individual's admission to, and residence in the facility or while he is receiving services from the facility, social workers must, as appropriate, provide liaison between him, the ICF/MR, the family, and the community, in order to—

(1) Help the staff—

(i) Individualize and understand the needs of the resident and his family in relation to each other;

(ii) Understand social factors in the resident's day-to-day behavior, including staff-resident relationships; and

(iii) Prepare the resident for changes in his living situation;

(2) Help the family develop constructive and personally meaningful ways to support the resident's experience in the ICF/MR through—

(i) Counseling concerning the problems of changes in family structure and functioning; and

(ii) referral to specific services, as appropriate; and

(3) Help the family participate in planning for the resident's return to home or other community placement.

(d) After the resident leaves the ICF/MR, social workers must provide systematic followup to assure referral to appropriate community agencies.

(e) The ICF/MR must have available enough qualified staff and support personnel to carry out the various social services activities.

(f) Social workers providing service to the ICF/MR must meet the qualification requirements of § 405.1101 of this chapter.

(g) Social work assistants or aides employed by the ICF/MR must be supervised by a social worker.

SPEECH PATHOLOGY AND AUDIOLOGY SERVICES

§ 442.496 Required services.

(a) The ICF/MR must provide speech pathology and audiology services through direct contact between speech pathologists and audiologists and residents, and working with other personnel, including but not limited to teachers and direct-care staff.

(b) Speech pathology and audiology services available to the ICF/MR must include—

(1) Screening and evaluation of residents with respect to speech and hearing functions;

(2) Comprehensive audiological assessment of residents, as indicated by screening results, that include tests of puretone air and bone conduction, speech audiometry, and other procedures, as necessary, and the assessment of the use of visual cues;

(3) Assessment of the use of amplification;

V 43 / 190 SE 29 78

(4) Provision for procurement, maintenance, and replacement of hearing aids, as specified by a qualified audiologist;

(5) Comprehensive speech and language evaluation of residents, as indicated by screening results, including appraisal of articulation, voice, rhythm, and language;

(6) Participation in the continuing interdisciplinary evaluation of individual residents for purposes of beginning, monitoring, and following up on individualized habilitation programs;

(7) Treatment services as an extension of the evaluation process, that include—

(i) Direct counseling with residents;

(ii) Consultation with appropriate staff for speech improvement and speech education activities; and

(iii) Work with appropriate staff to develop specialized programs for developing each resident's communication skills in comprehension, including speech, reading, auditory training, and hearing aid utilization, and skills in expression, including improvement in articulation, voice, rhythm, and language; and

(8) Participation in inservice training programs for direct-care and other staff.

§ 442.497 Evaluations and assessments.

(a) Speech pathologists and audiologists must accurately and systematically report evaluation and assessment results in order to—

(1) Provide information, when appropriate, that is useful to other staff working directly with the resident; and

(2) Include evaluative and summary reports in the resident's record kept in the living unit.

(b) Continuing observations of treatment progress must be—

(1) Recorded accurately, summarized, and communicated; and

(2) Used in evaluating progress.

§ 442.498 Staff and facilities.

(a) The ICF/MR must have available enough qualified staff and support personnel to carry out the various speech pathology and audiology services, in accordance with stated goals and objectives.

(b) Staff who assume independent responsibilities for clinical services must meet the qualification requirements of § 405.1101 of this chapter.

(c) The ICF/MR must provide adequate, direct, and continuing supervision to personnel, volunteers, or support personnel used in providing clinical services.

(d) The ICF/MR must have enough space, equipment, and supplies to provide efficient and effective speech pathology and audiology services.

RECORDS

§ 442.499 Maintenance of resident records.

(a) The ICF/MR must maintain a record for each resident that is adequate for—

(1) Planning and continuous evaluation of the resident's habilitation program;

(2) Furnishing documentary evidence of each resident's progress and response to his habilitation program; and

(3) Protecting the legal rights of the residents, the ICF/MR, and the staff.

(b) Any individual who makes an entry in a resident's record must make it legibly, date it, and sign it.

(c) The ICF/MR must provide a legend to explain any symbol or abbreviation used in a resident's record.

§ 442.500 Admission records.

At the time a resident is admitted, the ICF/MR must enter in the individual's record the following information:

(a) Name, date of admission, birth date and place, citizenship status, marital status, and social security number.

(b) Father's name and birthplace, mother's maiden name and birthplace, and parents' marital status.

(c) Name and address of parents, legal guardian, and next of kin if needed.

(d) Sex, race, height, weight, color of hair, color of eyes, identifying marks, and recent photograph.

(e) Reason for admission or referral problem.

(f) Type and legal status of admission.

(g) Legal competency status.

(h) Language spoken or understood.

(i) Sources of support, including social security, veterans' benefits, and insurance.

(j) Religious affiliation, if any.

(k) Reports of the preadmission evaluations.

(l) Reports of previous histories and evaluations, if any.

§ 442.501 Record entries during residence.

(a) Within 1 month after the admission of each resident, the ICF/MR must enter in the resident's record—

(1) A report of the review and updating of the preadmission evaluation;

(2) A prognosis that can be used for programing and placement; and

(3) A comprehensive evaluation and individual program plan, designed by an interdisciplinary team.

(b) the ICF/MR must enter the following information in a resident's record during his residence:

(1) Reports of accidents, seizures, illnesses, and treatments for these conditions.

(2) Records of immunizations.

(3) Records of all periods that restraints were used, with justification and authorization for each.

(4) Reports of regular, at least annual, review and evaluation of the program, developmental progress, and status of each resident.

(5) Enough observations of the resident's response to his program to enable evaluation of its effectiveness.

(6) Records of significant behavior incidents.

(7) Records of family visits and contacts.

(8) Records of attendance and absences.

(9) Correspondence pertaining to the resident.

(10) Periodic updates of the information recorded at the time of admission.

(11) Appropriate authorizations and consents.

(c) The ICF/MR must enter a discharge summary in the resident's record at the time he is discharged.

§ 442.502 Confidentiality.

(a) The ICF/MR must keep confidential all information contained in a resident's records, including information contained in an automated data bank.

(b) The record is the property of the ICF/MR which must protect it from loss, damage, tampering, or use by unauthorized individuals.

(c) The ICF/MR must have written policies governing access to, duplication of, and release of information from the record.

(d) The ICF/MR must obtain written consent of the resident, if competent, or his guardian before it releases information to individuals not otherwise authorized to receive it.

§ 442.503 Central record service.

The ICF/MR must—

(a) Maintain an organized central record service for the collection and release of resident information;

(b) Make records readily accessible to authorized personnel if a centralized system is used;

(c) Have appropriate records available in the resident living units;

(d) Have a master alphabetical index of all residents admitted to the ICF/MR; and

(e) Retain records for a period consistent with HEW regulations and the statute of limitations of the State in which the ICF/MR is located.

§ 442.504 Staff and facilities.

The ICF/MR must have—

(a) Enough qualified staff and support personnel to accurately process, check, index, file, and retrieve records and record data promptly; and

(b) Adequate space, equipment, and supplies to provide efficient and effective record services.

SAFETY AND SANITATION

§ 442.505 Emergency plan and procedures.

(a) The ICF/MR must have a written staff organization plan and detailed written procedures to meet all potential emergencies and disasters such as fire, severe weather, and missing residents.

(b) The ICF/MR must—

(1) Clearly communicate and periodically review the plan and procedures with the staff; and

(2) Post the plan and procedures at suitable locations through the facility.

§ 442.506 Evacuation drills.

(a) The ICF/MR must hold evacuation drills at least quarterly for each shift of personnel and under varied conditions to—

(1) Insure that all personnel on all shifts are trained to perform assigned tasks;

(2) Insure that all personnel on all shifts are familiar with the use of the ICF/MR's firefighting equipment; and

(3) Evaluate the effectiveness of emergency and disaster plans and procedures.

(b) The ICF/MR must—

(1) Actually evacuate residents to safe areas during at least one evacuation drill each year, on each shift;

(2) Make special provisions for the evacuation of the physically handicapped, such as fire chutes and mattressloops with poles;

(3) Write and file a report and evaluation of each evacuation drill; and

(4) Investigate all accidents and take corrective action to prevent similar accidents in the future.

§ 442.507 Fire protection.

(a) Except as provided in §§ 442.508, 442.509, and paragraph (b) of this section, the ICF/MR must meet the provisions of the Life Safety Code of the National Fire Protection Association, 1967 edition, that apply to institutional occupancies.

(b) If the Secretary finds that the State has a fire and safety code imposed by State law that adequately protects residents in ICF's/MR, the State survey agency may apply the State code for purposes of medicaid certification instead of the Life Safety Code.

§ 442.508 Fire protection exceptions for smaller ICF's/MR.

The State survey agency may apply the lodgings or rooming houses section of the residential occupancy requirements of the Life Safety Code of the National Fire Protection Association, 1967 edition, instead of the institutional occupancy provisions required by § 442.507, to an ICF/MR that has 15 beds or less if a physician or psychologist who meets the definition of qualified mental retardation professional under § 442.401 certifies that each resident is—

(a) Ambulatory;

(b) Receiving active treatment; and

(c) Capable of following directions and taking appropriate action for self-preservation under emergency conditions.

§ 442.509 Fire protection waivers.

(a) The State survey agency may waive specific provisions of the Life Safety Code required by § 442.507, for as long as it considers appropriate, if—

(1) The waiver would not adversely affect the health and safety of the residents;

(2) Rigid application of specific provisions would result in unreasonable hardship for the ICF/MR as determined under guidelines contained in the HCFA long-term care manual; and

(3) The waiver is granted in accordance with criteria contained in the long-term care manual.

(b) If a State agency waives provisions of the Code for an existing building of two or more stories that is not built of at least 2-hour fire-resistive construction, the ICF/MR may not house a blind, nonambulatory, or physically handicapped resident above the street-level floor unless it is built of—

(1) One-hour protected, noncumbustible construction as defined in National Fire Protection Association Standard No. 220;

(2) Full sprinklered, 1-hour protected, ordinary construction;

(3) Full sprinklered, 1-hour protected, wood frame construction.

§ 442.510 Paint.

The ICF/MR must—

(a) Use lead-free paint inside the facility; and

(b) Remove or cover old paint or plaster containing lead so that it is not accessible to residents.

§ 442.511 Building accessibility and use.

(a) The ICF/MR must—

(1) Be accessible to and usable by all residents, personnel, and the public, including individuals with disabilities; and

(2) Meet the requirements of American National Standards Institute (ANSI) Standard No. A117.1 (1961) American Standard Specifications for Making Buildings and Facilities Accessible to and Usable by the Physically Handicapped.

(b) The State survey agency may waive, for as long as it considers appropriate, specific provisions of ANSI Standard No. A117.1 (1961) if—

(1) The construction plans for the ICF/MR or a part of it were approved and stamped by the responsible State agency before March 18, 1974;

(2) The provision would result in unreasonable hardship on the ICF/MR if strictly enforced; and

(3) The waiver does not adversely affect the health and safety of the residents.

§ 442.512 Sanitation records and reports.

The ICF/MR must keep—

(a) Records that document compliance with the sanitation, health, and environmental safety codes of the State or local authorities having primary jurisdiction over the ICF/MR; and

(b) Written reports of inspections by State or local health authorities, and records of action taken on their recommendations.

ADMINISTRATIVE SERVICES

§ 442.513 Support services.

(a) The ICF/MR must provide adequate, modern administative support to efficiently meet the needs of residents and facilitate attainment of the ICF/MR's goals and objectives.

(b) The ICF/MR must—

(1) Document its purchasing process;

(2) Adequately operate its inventory control system and stockroom;

(3) Have appropriate storage facilities for all supplies and surplus equipment; and

(4) Have enough trained and experienced persomnel to do purchase, supply, and property control functions.

§ 442.514 Communication system.

(a) The ICF/MR must have an adequate communication system, including telephone service, that insures—

(1) Prompt contact of onduty personnel; and

(2) Prompt notification of responsible personnel in an emergency.

§ 442.515 Engineering and maintenance.

The ICF/MR must have—

(a) An appropriate, written preventive maintenance program; and

(b) Enough trained and experienced personnel for engineering and maintenance functions.

§ 442.516 Laundry services.

The ICF/MR must manage its laundry services so that it meets daily clothing and linen needs without delay.

PART 447—PAYMENTS FOR SERVICES

Subpart A—Payments: General Provisions

Sec.

447.1 Purpose.
447.10 Prohibition against reassignment of provider claims.
447.15 Acceptance of State payment as payment in full.

V 43 / 190 SE 29 78 UMI

Sec.
447.25 Direct payments to certain recipients for physicians' or dentists' services.
447.30 Suspension of payments to former medicare providers with unresolved overpayments.
447.35 Limits on FFP for capital expenditures.
447.40 Payments for reserving beds in institutions.

COST SHARING

447.50 Cost sharing: Basis and purpose.

ENROLLMENT FEE, PREMIUM OR SIMILAR COST SHARING CHARGE

447.51 Requirements and options.
447.52 Minimum and maximum income-related charges.

DEDUCTIBLE, COINSURANCE, COPAYMENT OR SIMILAR COST-SHARING CHARGE

447.53 Applicability; specifications; multiple charges.
447.54 Maximum allowable charges.
447.55 Standard copayment.
447.56 Income-related charges.
447.57 Restrictions on payments to providers.
447.58 Payments to prepaid capitation organizations.

FEDERAL FINANCIAL PARTICIPATION

447.59 FFP: Conditions relating to cost-sharing.

Subpart B—Payment Methods: General Provisions

447.200 Basis and purpose.
447.201 State plan requirements.
447.202 Audits.
447.203 Documentation of payment rates.
447.204 Encouragement of provider participation.

Subpart C—Payment Methods and Upper Limits for Specific Services

447.250 Basis and purpose.
447.251 State plan requirements.
447.252 Adherence to upper limits; FFP.

INPATIENT HOSPITAL SERVICES

447.261 Reasonable cost payment for inpatient hospital services.
447.262 Upper limits: Inpatient hospital services.

REASONABLE COST-RELATED PAYMENT FOR LONG-TERM CARE FACILITY SERVICES

447.272 Definitions.
447.273 Reasonable cost-related basis for long-term care facility services.

COST FINDING AND REPORTING

447.274 Provider cost reports.
447.275 Dates of cost reporting year.
447.276 Cost finding method.
447.277 Recordkeeping.
447.278 Items of expense included in allowable cost: General provisions.
447.279 Cost of meeting certification standards.
447.281 Costs of routine services.
447.282 Bad debts.
447.283 Items of expenses not included in allowable costs.
447.284 Purchases from related organizations: Limit on costs.

AUDITS

447.290 Audit procedures.
447.291 Cost report desk analysis.
447.292 Onsite audits and exemption.
447.293 Continuing audits.
447.294 Audit standards.
447.295 Audit report.
447.296 Accounting for overpayment found in audits.

PAYMENT DETERMINATION

447.301 Methods and standards for setting reasonable cost-related payment rates.
447.302 Actual costs.
447.303 Economic conditions and trends.
447.304 Redetermination of prospective payment rates.
447.305 Class rate determination.
447.306 Retroactive downward adjustment provisions.
447.307 Opportunity for public comment on rates.

PAYMENT ASSURANCE

447.311 Payment assurance.

UPPER LIMITS: SNF's, ICF's

447.315 Upper limits: General provisions.
447.316 Upper limits: Retrospective payment.

OUTPATIENT HOSPITAL AND CLINIC SERVICES

447.321 Outpatient hospital services and clinic services: Upper limits of payment.

OTHER INPATIENT AND OUTPATIENT FACILITIES

447.325 Other inpatient and outpatient facility services: Upper limits of payment.

DRUGS

447.331 Drugs: Upper limits of payment.
447.332 Cost of drugs.
447.333 Dispensing fee.
447.334 Upper limits for drugs furnished as part of services.

INDIVIDUAL PRACTITIONERS

447.341 Individual practitioners: Upper limits of payment.

OTHER NONINSTITUTIONAL SERVICES

447.351 Other noninstitutional services: Upper limits of payment.

PREPAID CAPITATION PLANS

447.361 Prepaid capitation plans: Upper limits of payment.

RURAL HEALTH CLINICS

447.371 Services furnished by rural health clinics.

AUTHORITY: Sec. 1102 of the Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—Payments: General Provisions

§ 447.1 Purpose.

This subpart prescribes State plan requirements, FFP limitations and procedures concerning payments made by State medicaid agencies for medicaid services.

§ 447.10 Prohibition against reassignment of provider claims.

(a) *Basis and purpose.* This section implements sec. 1902(a)(32) of the Act which prohibits State payments for medicaid services to anyone other than a provider or recipient, except in specified circumstances.

(b) *Definitions.* For purposes of this section:

"Facility" means an institution that furnishes health care services to inpatients.

"Factor" means an individual or an organization, such as a collection agency or service bureau, that advances money to a provider for accounts receivable that the provider has assigned, sold or transferred to the individual organization for an added fee or a deduction of a portion of the accounts receivable. Factor does not include a business representative as described in paragraph (f) of this section.

"Organized health care delivery system" means a public or private organization for delivering health services. It includes, but is not limited to, a clinic, a group practice prepaid capitation plan, and a health maintenance organization.

(c) *State plan requirements.* A State plan must provide that the requirements of paragraphs (d) through (h) are met.

(d) *Who may receive payment.* Payment may be made only—

(1) To the provider; or

(2) To the recipient if he is a noncash recipient eligible to receive the payment under § 447.25; or

(3) In accordance with paragraphs (e), (f), and (g) of this section.

(e) *Reassignments.* Payment may be made in accordance with a reassignment from the provider to a government agency or reassignment by a court order.

(f) *Business agents.* Payment may be made to a business agent, such as a billing service or an accounting firm, that furnishes statements and receives payments in the name of the provider, if the agent's compensation for this service is—

(1) Related to the cost of processing the billing;

(2) Not related on a percentage or other basis to the amount that is billed or collected; and

(3) Not dependent upon the collection of the payment.

(g) *Individual practitioners.* Payment may be made to—

(1) The employer of the practitioner, if the practitioner is required as a condition of employment to turn over fees to the employer;

(2) The facility in which the service is provided, if the practitioner has a contract under which the facility submits the claim; or

(3) A foundation, plan, or similar organization operating an organized health care delivery system, if the practitioner has a contract under which the organization submits the claim.

(h) *Prohibition of payment to factors.* Payment for any service furnished to a recipient by a provider may not be made to or through a factor, either directly or by power of attorney.

§ 447.15 Acceptance of State payment as payment in full.

A State plan must provide that the medicaid agency must limit participation in the medicaid program to providers who accept, as payment in full, the amounts paid by the agency. (Sec. 1902(a)(4) of the Act.)

§ 447.25 Direct payments to certain recipients for physicians' or dentists' services.

(a) *Basis and purpose.* This section implements sec. 1905(a) of the Act by prescribing requirements applicable to States making direct payments to certain recipients for physicians' or dentists' services.

(b) *State plan requirements.* Except for groups specified in paragraph (c) of this section, a State may make direct payments to recipients for physicians' or dentists' services. If it does so, the State plan must—

(1) Provide for direct payments; and

(2) Specify the conditions under which payments are made.

(c) *Federal financial participation.* No FFP is available in expenditures for direct payment for physicians' or dentists' services to any recipient—

(1) Who is receiving assistance under the State's approved plan under title I, IV-A, X, XIV or XVI (AABD) of the Act; or

(2) To whom supplemental security benefits are being paid under title XVI of the Act; or

(3) Who is receiving or eligible for a State supplementary payment or would be eligible if he were not in a medical institution, and who is eligible for medicaid as a categorically needy recipient.

(d) *Federal requirements.* (1) Direct payments to recipients under this section are an alternative to payments directly to providers and are subject to the same conditions; for example, the State's reasonable charge schedules are applicable.

(2) Direct payments must be supported by providers' bills for services.

§ 447.30 Suspension of payments to former medicare providers with unresolved overpayments.

(a) *Basis and purpose.* This section implements sec. 1903(j) of the Act, which provides for the suspension of FFP for medicaid payments to an institution if that institution has not arranged to repay medicare overpayments or has failed to provide information to determine the amount of the overpayments.

(b) *When suspension occurs.* The Administrator may suspend medicaid payments to a State for an institution that—

(1) Does not have in effect, when the suspension is made, a medicare provider agreement with the Secretary under sec. 1866 of the Act and part 405, subpart F of this chapter;

(2) Did have a medicare provider agreement in effect, before the Administrator suspended payment; and

(3) Has failed either to—

(i) Repay or make satisfactory arrangements with the Administrator to repay medicare overpayments made to it; or

(ii) Submit appropriate information to enable the Administrator to determine the amount of medicare overpayments, if any.

(c) *Notice of suspension.* (1) When the Administrator suspends payments under this subpart, he will notify the medicaid agency of each State that he believes may use the institution's services under medicaid.

(2) The Administrator will send the notice by certified mail, return receipt requested.

(d) *Effective date of suspension.* Suspension of payment will become effective on the 60th day after the day on which the agency receives notice of suspension.

(e) *Termination of suspension.* The Administrator will terminate the suspension if he determines that—

(1) The institution is participating in substantial negotiations to remedy the conditions that gave rise to the order;

(2) Medicare overpayments are no longer due from the institution; or

(3) The institution has made a satisfactory arrangement to repay the amount it owes.

(f) *Notice of termination.* The Administrator will notify each State that previously received notice of the suspension that the suspension has been terminated.

(g) *Duration of FFP suspension.* No FFP is available in expenditures for services that are provided by a suspended institution from the date on which the suspension becomes effective until the first day of the month in which the suspension is terminated.

§ 447.35 Limits on FFP for capital expenditures.

(a) *Basis and purpose.* (1) Sec. 1122 of the Act provides for exclusion from FFP of expenses related to certain capital expenditures. The cost containment and quality control regulations of the Public Health Service (part 100 of this title) concern agreements between the Secretary and the States under sec. 1122, procedures for reviewing proposed capital expenditures, and determinations by the Secretary as to allowability of expenses related to capital expenditures.

(2) This section identifies categories of expenses for which FFP is not available under medicaid if a State has an agreement under sec. 1122 and the Secretary has determined under sec. 1122 and part 100 that the expenses are not allowable.

(b) *FFP limits.* Except as provided in § 100.108(b) of this title, no FFP is available in expenses related to a capital expenditure if the Secretary determines that—

(1) The State designated planning agency had not been given timely written notice of a capital expenditure in accordance with § 100.106 of this title; or

(2) The planning agency has, under sec. 1122 and part 100 of this title, submitted to the Secretary its finding that the proposed expenditure is not consistent with the standards, criteria or plans described in § 100.104(a)(2) of this title.

(c) *Expenses related to a capital expenditure.* Expenses related to a capital expenditure include the following, regardless of the manner in which the expenses are recorded in the provider's records and cost report:

(1) Depreciation.

(2) Interest on borrowed funds.

(3) A return on equity capital (in the case of proprietary facilities).

(4) Other costs of activities that are essential to the acquisition, improvement, modernization, expansion, or replacement of the plant, buildings, and equipment with respect to which the expenditure is made, including, but not limited to—

(i) Studies, surveys, designs, plans, working drawings, and specifications;

(ii) Transportation;

(iii) Installation and start-up expenses;

(iv) In-transit insurance;

(v) Costs of grading and paving;

(vi) Taxes assessed during the construction period;

(vii) Costs of demolishing or razing structures on land;

(viii) Title fees;

(ix) Permit and license fees;

(x) Broker commissions;

(xi) Architectural, legal, accounting, and appraisal fees; and

(xii) Interest, finance, or carrying charges on bonds, notes, and other costs incurred for borrowing funds.

(d) *FFP for costs of conformity determination.* FFP is available in expenditures for reasonable costs incurred by a provide to determine whether a proposed capital expenditure is in conformity with applicable standards, cri-

V 43 / 190 SE 29 78 UMI

teria, or plans for adequate health care resources in the area. However, no FFP is available if the provider makes the capital expenditure without the approval required by part 100 of this title.

(e) *Exclusion of expenses related to capital expenditures: Payment on a reasonable cost or cost-related basis.* If payment is made on a reasonable cost or cost-related basis, expenses related to capital expenditures that are not available for FFP must be specifically excluded from allowable cost computations.

(f) *Exclusion of expenses related to capital expenditures: Payment on other than a reasonable cost or cost-related basis.* If payment is made on a per capita, fixed fee, negotiated rate, or any other basis (other than reasonable cost or cost-related), expenses related to capital expenditures that are not available for FFP must be excluded from the payment rate as follows:

(1) For a facility that participates in the medicare program, the State shall—

(i) Compute the percentage difference between the medicare allowable costs before and after the deduction of unallowed expenses; and

(ii) Reduce the medicaid payment rate to the facility by that percentage.

(2) For a facility that does not participate in the medicare program, the State must reduce the payment rate by an estimated amount. The estimate is based upon a comparative analysis of the facility's expenses related to capital expenditures as reflected in the facility's periodic financial statements. For example, the State may compute the percentage difference between the facility's expenses related to capital expenditures as recorded in its financial statements and those expenses less the amounts for which FFP is not available, and reduce the payment rate by that percentage.

(g) *Equivalent deduction if a facility is obtained by a lease.* If a person obtained by lease or comparable arrangement any facility, part of a facility, or equipment for a facility that would have been considered a capital expenditure if the person had purchased it—

(1) In determining payments for services furnished in that facility, an amount must be deducted from rental expense which is a reasonable equivalent of the amount that would have been excluded if the person had purchased the facility or equipment; and

(2) In computing the person's return on equity capital, any amount deposited under the terms of the lease or comparable arrangement must be deducted from that return.

(h) *Capital assets acquired by donation or exchange.* If a person acquired by donation or exchange any facility, part of a facility, or equipment for a facility that would have been considered a capital expenditure if the person had purchased it, the acquisition is treated as a capital expenditure for purposes of excluding expenses related to capital expenditures.

(i) *Reconsideration of FFP determination.* (1) Any person or State adversely affected by a determination by the Secretary under sec. 1122 of the Act, this subpart or part 100 of this title may, within 6 months of the date of the determination, request the Secretary to reconsider the determination. A determination by the Secretary under sec. 1122 of the Act is not subject to administrative or judicial review.

(2) A State is also entitled upon request to receive a reconsideration of a disallowance under this subpart, in accordance with sec. 1116(d) of the Act and 45 CFR part 16.

§ 447.40 Payments for reserving beds in institutions.

(a) The medicaid agency may make payments to reserve a bed during a recipient's temporary absence from an inpatient facility, if—

(1) The recipient's plan of care provides for absences other than for hospitalization; and

(2) The State plan provides for such payments and describes any limitations on the reserved bed policy.

(b) An agency that pays for reserved beds in an inpatient facility may pay less for a reserved bed than an occupied bed if there is a cost differential between the two beds. (Sec. 1102 of the Act.)

COST SHARING

§ 447.50 Cost sharing: Basis and purpose.

(a) Section 1902(a)(14) of the Act permits States to require certain recipients to share some of the costs of medicaid by imposing upon them such payments as enrollment fees, premiums, deductibles, coinsurance, co-payments, or similar cost sharing charges. For States that impose cost sharing payments, §§ 447.51–59 prescribe State plan requirements and options for cost sharing, specify the standards and conditions under which States may impose cost sharing, set forth minimum amounts and the methods for determining maximum amounts, and prescribe conditions for FFP that relate to cost sharing requirements.

ENROLLMENT FEE, PREMIUM OR SIMILAR COST SHARING CHARGE

§ 447.51 Requirements and options.

(a) The plan must provide that the medicaid agency does not impose any enrollment fee, premium, or similar charge upon categorically needy individuals, as defined in §§ 435.4 and 436.3 of this subchapter, for any services available under the plan.

(b) The plan may impose an enrollment fee, premium, or similar charge on medically needy individuals, as defined in §§ 435.4 and 436.3 of this subchapter, for any services available under the plan.

(c) For each charge imposed under paragraph (b) of this section, the plan must specify—

(1) The amount of the charge;

(2) The period of liability for the charge; and

(3) The consequences for an individual who does not pay.

(d) The plan must provide that any charge imposed under paragraph (b) of this section is related to total gross family income as set forth under § 447.52.

§ 447.52 Minimum and maximum income-related charges.

For the purpose of relating the amount of an enrollment fee, premium, or similar charge to total gross family income, as required under § 447.51(d), the following rules apply:

(a) *Minimum charge.* A charge of at least $1.00 per month is imposed on each—

(1) One- or two-person family with monthly gross income of $150 or less;

(2) Three- or four-person family with monthly gross income of $300 or less; and

(3) Five- or more-person family with monthly gross income of $350 or less.

(b) *Maximum charge.* Any charge related to gross family income that is above the minimum listed in paragraph (a) of this section may not exceed the standards shown in the following table:

Maximum Monthly Charge

Gross family income (per month)	Family size		
	1 or 2	3 or 4	5 or more
$150 or less	$1	$1	$1
$151 or $200	2	1	1
$201 to $250	3	1	1
$251 to $300	4	1	1
$301 to $350	5	2	1
$351 to $400	6	3	2
$401 to $450	7	4	3
$451 to $500	8	5	4
$501 to $550	9	6	5
$551 to $600	10	7	6
$601 to $650	11	8	7
$651 to $700	12	9	8
$701 to $750	13	10	9
$751 to $800	14	11	10
$801 to $850	15	12	11
$851 to $900	16	13	12
$901 to $950	17	14	13
$951 to $1,000	18	15	14
$More than $1,000	19	16	15

DEDUCTIBLE, COINSURANCE, CO-PAYMENT OR SIMILAR COST-SHARING CHARGE

§ 447.53 Applicability; specifications; multiple charges.

(a) *Categorically needy.* (1) The plan must provide that the medicaid agency does not impose any deductible, coinsurance, co-payment, or similar charge upon categorically needy individuals for those services listed in §§ 440.40-440.50 and 440.70 of this subchapter. These services are inpatient and outpatient hospital services; rural health clinic services; other laboratory and X-ray services; skilled nursing facility services for individuals 21 years of age or older; early and periodic screening, diagnosis and treatment of individuals under the age of 21; family planning services and supplies for individuals of child-bearing age; physicians' services; and home health care services.

(2) The plan may impose a deductible, coinsurance, co-payment, or similar charge upon categorically needy individuals for any other service under the plan.

(b) *Medically needy.* The plan may impose a deductible, coinsurance, co-payment or similar charge upon medically needy persons for any service under the plan.

(c) *Prohibition against multiple charges.* For any service, the plan may not impose more than one type of charge referred to in paragraph (a)(2) and (b) of this section.

(d) *State plan specifications.* For each charge imposed under this section, the plan must specify—

(1) The service for which the charge is made;

(2) The amount of the charge; and

(3) The basis for determining the charge.

§ 447.54 Maximum allowable charges.

(a) *Non-institutional services.* For non-institutional services, the plan must provide that—

(1) Any deductible it imposes does not exceed $2.00 per month per family for each period of medicaid eligibility. For example, if medicaid eligibility is certified for a 3-month period, the maximum deductible which may be imposed on a family for that period of eligibility is $6.00;

(2) Any coinsurance rate it imposes does not exceed 5 percent of the payment the agency makes for the services; and

(3) Any co-payments it imposes do not exceed the amounts shown in the following table:

State's payment for the service:	*Maximum co-payment chargeable to recipient*
$10 or less	$.50
$11 to $25	1.00
$26 to $50	2.00
$51 or more	3.00

(b) *Institutional services.* For institutional services, the plan must provide that the maximum deductible, coinsurance or co-payment charge for each admission does not exceed 50 percent of the payment the agency makes for the first day of care in the institution.

(c) *Cumulative maximum.* The plan may provide for a cumulative maximum amount for all deductible, coinsurance or co-payment charges that it imposes on any family during a specified period of time.

§ 447.55 Standard co-payment.

(a) The plan may provide for a standard, or fixed, co-payment amount for any service.

(b) This standard copayment amount for any service may be determined by applying the maximum co-payment amounts specified in §447.54 (a) and (b) to the agency's average or typical payment for that service. For example, if the agency's typical payment for prescribed drugs is $4 to $5 per prescription, the agency might set a standard copayment of $0.50 per prescription.

§ 447.56 Income-related charges.

Subject to the maximum allowable charges specified in § 447.54 (a) and (b), the plan may provide for income-related deductible, coinsurance or co-payment charges. For example, an agency may impose a higher charge on medically needy recipients than it imposes upon categorically needy recipients.

§ 447.57 Restrictions on payments to providers.

(a) The plan must provide that the agency does not increase the payment it makes to any provider to offset uncollected amounts for deductibles, coinsurance, copayments or similar charges that the provider has waived or are uncollectable, except as permitted under paragraph (b) of this section.

(b) For those providers that the agency reimburses under medicare reasonable cost reimbursement principles, in accordance with subpart B of this part, an agency may increase its payment to offset uncollected deductible, coinsurance, copayment, or similar charges that are bad debts of providers.

§ 447.58 Payments to prepaid capitation organizations.

If the agency contracts with a prepaid capitation organization that does not impose the agency's deductibles, coinsurance, copayments or similar charges on its recipient members, the plan must provide that the agency calculates its payments to the organization as if those cost sharing charges were collected.

FEDERAL FINANCIAL PARTICIPATION

§ 447.59 FFP: Conditions relating to cost sharing.

No FFP in the State's expenditures for services is available for—

(a) Any cost sharing amounts that recipients should have paid as enrollment fees, premiums, deductibles, coinsurance, copayments, or similar charges under § 447.50–58 (except for amounts that the agency pays as bad debts of providers under § 447.57); and

(b) Any amounts paid by the agency on behalf of ineligible individuals, whether or not the individual had paid any required premium or enrollment fee.

Subpart B—Payment Methods: General Provisions

§ 447.200 Basis and purpose.

This subpart prescribes State plan requirements for setting payment rates to implement, in part, section 1902(a)(30) of the act, which requires that payments for services do not exceed reasonable charges consistent with efficiency, economy, and quality of care.

§ 447.201 State plan requirements.

(a) A State plan must provide that the requirements in this subpart are met.

(b) The plan must describe the policy and the methods to be used in setting payment rates for each type of service included in the State's medicaid program.

§ 447.202 Audits.

The medicaid agency must assure appropriate audit of records if payment is based on costs of services or on a fee plus cost of materials.

§ 447.203 Documentation of payment rates.

(a) The agency must maintain documentation of payment rates and make it available to HEW upon request.

(b) The agency must record, in State manuals or other official files, the following information for increases in payment rates for individual practitioner services:

(1) An estimate of the percentile of the range of customary charges to which the revised payment structure equates and a description of the methods used to make the estimate.

(2) An estimate of the composite average percentage increase of the revised payment rates over the preceding rates.

V 43/190 SEP 29 78 LIMI

§ 447.204 Encouragement of provider participation.

The agency's payments must be sufficient to enlist enough providers so that services under the plan are available to recipients at least to the extent that those services are available to the general population.

Subpart C—Payment Methods and Upper Limits for Specific Services

§ 447.250 Basis and purpose.

Section 447.261 of this subpart implements section 1902(a)(13)(D) of the act, which requires that the State plan provide for payment of the reasonable cost of inpatient hospital services. Sections 447.272 through 447.311 implement section 1902(a)(13)(E) of the act, which requires that the State plan provide for payment for long-term care facility services on a reasonable cost-related basis. Sections 447.251, 447.252, 447.262, and 447.315 through 447.361 implement section 1902(a)(30) of the act, which requires that payments must not exceed reasonable charges consistent with efficiency, economy and quality of care. Section 447.371 implements section 1902(a)(13)(F) of the act, which requires that the State plan provide for payment for rural health clinic services in accordance with regulations prescribed by the Secretary.

§ 447.251 State plan requirements.

A State plan must provide that the requirements of this subpart are met.

§ 447.252 Adherence to upper limits; FFP.

(a) The medicaid agency must not pay more than the upper limits described in this subpart.

(b) The upper limits do not apply to payments made under the plan for deductibles and coinsurance imposed under medicare. Deductible and coinsurance payments may be made up to the reasonable charge under medicare.

(c) FFP is available in expenditures for payments for services that do not exceed the upper limits.

NOTE.—The Secretary may waive any limitation on reimbursement imposed by subpt. C of this part for experiments conducted under sec. 402 of Pub. L. 90-428, Incentives for Economy Experimentation, as amended by sec. 222(b) of Pub. L. 92-603, and under sec. 222(a) of Pub. L. 92-603.

INPATIENT HOSPITAL SERVICES

§ 447.261 Reasonable cost payment for inpatient hospital services.

(a) The medicaid agency must pay the reasonable cost of inpatient hospital services under methods and standards developed by the State and approved by the Regional Medicaid Director before implementation.

(b) The methods and standards must—

(1) Be consistent with the capital expenditure provisions of section 1122 of the Act, as specified in § 447.35, if the State has an agreement under those provisions; and

(2) Adopt the medicare standards and principles for determining reasonable cost reimbursement in §§ 405.402 through 405.455 of this chapter or, as an alternative, meet the criteria in paragraph (d) of this section.

(c) If the medicare standards and principles are adopted, they must be modified to—

(1) Exclude the inpatient routine nursing salary cost differential under § 405.430 of this chapter; and

(2) Apply the limits established by the Secretary under § 405.460 of this chapter.

(d) If the medicare standards and principles are not adopted, the alternative methods and standards must meet all of the following criteria:

(1) They provide incentives for efficiency and economy.

(2) They provide for payment rates that are no higher than the amounts that would be determined using medicare principles of cost reimbursement, as modified by paragraph (c) of this section.

(3) They assure adequate participation of hospitals in the State's medicaid program and the availability of hospital services of high quality to recipients.

(4) They afford providers and other interested members of the public an opportunity to review and comment on proposed methods and standards before they are submitted as State plan amendments.

(5) They provide for keeping a written record of the comments and the consideration given to them.

(6) At a minimum, they afford individual providers an opportunity to submit evidence and obtain prompt administrative review of payment rates set for them if—

(i) Costs of capital improvements were approved by a State's planning agency after the payment rates were set, and those costs were not considered in the rate calculation;

(ii) Costs of improvements were incurred because of certification or licensing requirements established after the payment rates were set, and those costs were not considered in the rate calculation; or

(iii) Incorrect data were used or an error was made in the rate calculation.

(7) They provide for documentation that is adequate to evaluate experience under the approved methods and standards.

§ 447.262 Upper limits: Inpatient hospital services.

The agency must not pay a provider of inpatient hospital services more than the lower of—

(1) The reasonable cost of services determined under this subpart; or

(2) The provider's customary charges to the general public.

REASONABLE COST-RELATED PAYMENT FOR LONG-TERM CARE FACILITY SERVICES

§ 447.272 Definitions.

For the purposes of §§ 450.271-450.316—

"Accrual method of accounting" means that revenue is reported in the period when it is earned, regardless of when it is collected, and expenses are reported in the period in which they are incurred, regardless of when they are paid.

"Bad debts" are amounts considered to be uncollectable from accounts and notes receivable for services provided.

"Cash method of accounting" means that revenues are recognized only when cash is received, and expenditures for expense and asset items are not recorded until cash is disbursed for them.

"Charity allowances" are reductions in the provider's charges because of the patient's indigence or medical indigence.

"Cost finding" means the process of recasting the data derived from the accounts ordinarily kept by a provider to determine costs of each type of service by allocating direct costs and prorating indirect costs.

"Courtesy allowances" are a reduction in the provider's charges in the form of an allowance to physicians, clergy, and others. Employee fringe benefits, such as hospitalization and personnel health programs, not are courtesy allowances.

"Generally accepted accounting principles" means accounting principles approved by the American Institute of Certified Public Accountants.

"Generally accepted auditing standards" means auditing standards approved by the American Institute of Certified Public Accountants.

"Long-term care facility services" means skilled nursing care facility services and intermediate care facility services.

"Provider" means a provider of skilled nursing facility or intermediate care facility services.

"Retrospective payment system" means a system in which payment is made on the basis of a provisional payment rate set prospectively for an accounting period, and in which payments may be retrospectively adjusted on the basis of the cost experience during the accounting period.

§ 447.273 Reasonable cost-related basis for long-term care facility services.

The medicaid agency must pay for long-term care facility services on a reasonable cost-related basis in accordance with §§ 447.274 through 447.311.

COST FINDING AND REPORTING

§ 447.274 Provider cost reports.

(a) No later than 3 months after the close of the cost reporting year, each provider must submit a cost report to the medicaid agency.

(b) The cost report must include—

(1) An itemized list of the provider's allowable costs under §§ 447.278-447.284 for the cost reporting year or for the period of participation in the plan if less than a full year; and

(2) A list of the costs of the various services provided under the plan, as determined by applying the agency's approved cost-finding method to the provider's allowable costs.

(c) The itemized list of allowable costs must be compiled on the basis of generally accepted accounting principles and the accrual method of accounting. The cash method of accounting is acceptable for public institutions.

(d) There must be a uniform cost report form for all skilled nursing facilities (SNF's) and a uniform cost report form for all intermediate care facilities (ICF's). However, the same form may be used by both SNF's and ICF's.

§ 447.275 Dates of cost reporting year.

(a) The State plan must specify the inclusive dates of the cost reporting year. The year need not be the same for all providers.

(b) The plan must specify the beginning date of the first cost reporting year, which must be no later than January 1, 1977.

§ 447.276 Cost-finding method.

(a) The plan must specify the cost-finding method or methods to be used by providers.

(b) There must be a uniform method for all SNF's and a uniform method for all ICF's. The same method may be used by both.

(c) The cost-finding method must be approved by the Regional Medicaid Director. Medicare cost-finding methods specified under § 405.453(d) of this chapter will be approved automatically. The Regional Medicaid Director may approve other cost-finding methods.

§ 447.277 Recordkeeping.

(a) Each provider must keep its financial and statistical records for the cost reporting year for at least 3 years after the date of submission of the cost report form to the medicaid agency.

(b) The records must be accurate and in sufficient detail to substantiate the costs reported under § 447.274.

(c) Each provider must make the records available on request to representatives of the agency or HEW.

(d) The agency must keep all costs reports for at least 3 years after it receives them from providers.

§ 447.278 Items of expense included in allowable cost: General provisions.

The plan must specify the items of expense that are allowable costs.

§ 447.279 Cost of meeting certification standards.

Allowable costs for SNF's and ICF's include all items of expense providers must incur—

(a) To meet the definition of SNF services or ICF services in § 440.40(a) or § 440.150 of this subchapter;

(b) To comply with the standards for SNF's or ICF's in part 442 of this subchapter;

(c) To comply with requirements established by the State agency responsible for establishing and maintaining health standards under § 431.610 of this subchapter; and

(d) To comply with any other requirements for licensing under State law that must be met to provide SNF or ICF services.

§ 447.281 Costs of routine services.

(a) Allowable costs include all items of expense that providers incur in providing routine services.

(b) "Routine services" means regular room, dietary and nursing services; minor medical and surgical supplies; and the use of equipment and facilities.

(c) The following are examples of expenses that allowable costs for routine services must include:

(1) All general nursing services, including but not limited to administration of oxygen and related medications, handfeeding, incontinency care, tray service, and enemas.

(2) Items furnished routinely and relatively uniformly to all patients, such as patient gowns, water pitchers, basins, and bedpans.

(3) Items stocked at nursing stations or on the floor in gross supply and distributed or used individually in small quantities such as alcohol, applicators, cotton balls, bandaids, antacids, aspirin (and other nonlegend drugs ordinarily kept on hand), suppositories, and tongue depressors.

(4) Items used by individual patients but which are reusable and expected to be available, such as ice bags, bedrails, canes, crutches, walkers, wheelchairs, traction equipment, and other durable medical equipment;

(5) Special dietary supplements used for tube feeding or oral feeding, such as elemental high nitrogen diet, even if written as a prescription item by a physician (because these supplements have been classified by the Food and Drug Administration as a food rather than a drug);

(6) Laundry services other than for personal clothing.

§ 447.282 Bad debts.

Allowable costs include only bad debts that are attributed to cost sharing amounts as defined in §§ 447.50-447.59.

§ 447.283 Items of expenses not included in allowable costs.

Allowable costs do not include charity and courtesy allowances.

§ 447.284 Purchases from related organizations: Limit on costs.

(a) Costs of services, facilities, and supplies furnished by organizations related to the provider by common ownership or control must not exceed the lower of the cost to the organization or the price of comparable services, facilities, or supplies purchased elsewhere.

(b) The cost report must identify related organizations and costs.

AUDITS

§ 447.290 Audit procedures.

The plan must describe the State's procedures for audits.

§ 447.291 Cost report desk analysis.

The agency must analyze each cost report within 6 months of its receipt to verify, to the extent possible, that the provider has complied with § 447.274.

§ 447.292 Onsite audits and exemption.

(a) The agency must provide for an onsite audit of the financial and statistical records of at least one-third of the providers each year of a 3-year period that begins at the close of the first cost reporting year (see § 447.275). All providers must be audited within the 3-year period.

(b) The Regional Medicaid Director may exempt a State from paragraph (a) of this section if—

(1) The State has a continuing audit program;

(2) The agency has completed onsite audits of the financial and statistical records of all providers during the 3-year period preceding the end of the first cost reporting period; and

(3) Each onsite audit was conducted in accordance with generally accepted auditing standards and was sufficiently comprehensive in scope to determine—

V 43 / 190 SEP 29 78 UMI

(i) That only proper items of cost applicable to medicaid services were in the provider's calculation of its costs; and

(ii) Whether expenses attributable to the items of cost were accurately determined and reasonable.

§ 447.293 Continuing audits.

(a) Each year the agency must provide for onsite audit of the financial and statistical records of at least 15 percent of participating facilities selected as follows:

(1) At least 5 percent of participating facilities selected at random.

(2) At least 10 percent of participating facilities selected by profiles of costs or other factors established by the agency.

(b) These yearly audits must begin in the fourth year after the first cost reporting year. However, for a State exempted from onsite audits under § 447.292, these audits must begin in the year after the first cost reporting year.

§ 447.294 Audit standards.

(a) Audits must meet generally accepted auditing standards. The adoption of the audit standards in Health Insurance Manual (HIM-18), issued under the medicare program, is recommended, but the agency may establish its own standards.

(b) Audits of providers' cost reports, financial records, and other pertinent documents must be adequate to verify—

(1) That the provider has included only those expense items that the agency has specified as allowable costs under § 450.278 in compiling the costs of services;

(2) That the provider has accurately determined allowable costs under § 447.274(b)(1);

(3) That the provider has accurately attributed allowable costs to cost of services under § 447.274(b)(2); and

(4) That the provider's allowable costs are reasonable.

§ 447.295 Audit report.

(a) Upon conclusion of each audit under §§ 447.292 the auditor must submit an audit report to the agency.

(b) The report must meet generally accepted auditing standards.

(c) The report must state the auditor's opinion as to whether, in all material respects, the cost report submitted by the provider under § 447.274 complies with § 447.294(b) (1) and (2).

(d) The agency must keep audit reports for at least 3 years after receipt.

§ 447.296 Accounting for overpayment found in audits.

The agency must account for overpayments found in audits on the quarterly statement of expenditures no later than the second quarter following the quarter in which the overpayment was found. (See 45 CFR 201.66 for accounting for overpayments.)

PAYMENT DETERMINATION

§ 447.301 Methods and standards for setting reasonable cost-related payment rates.

(a) The plan must set forth the methods and standards used by the agency to set reasonable cost-related payment rates.

(b) The methods and standards must be developed by the agency on the basis of cost-finding methods approved under § 447.276.

(c) The agency must set payment rates on the basis of the methods and standards. The payment rates must be effective no later than January 1, 1978.

§ 447.302 Actual costs.

(a) Methods and standards for determining payment rates must reasonably take into account actual costs of the allowable items set forth in §§ 447.-278 through 447.284, reported under § 447.274 and as verified by audits under §§ 447.292 and 447.293.

(b) Payment rates must not be set lower than rates that the agency reasonably finds to be adequate to reimburse in full the actual allowable costs of a facility that is economically and efficiently operated.

§ 447.303 Economic conditions and trends.

The methods and standards for determining payment rates must reasonably take into account economic conditions and trends during the period for which the rates are set.

§ 447.304 Redetermination of prospective payment rates.

Prospectively determined payment rates must be redetermined at least annually.

§ 447.305 Class rate determination.

If payment rates are determined for a class of facilities, the plan must set forth reasonable criteria for the class and the methods and standards for determining the rate of payment for the class.

§ 447.306 Retroactive downward adjustment provisions.

(a) If facilities are classed by quality of services or level of care and the payment rates provide for adjustment to a prospectively set lower rate for facilities with service deficiencies, the plan must set forth the service deficiencies for which payment may be adjusted to the lower rate.

(b) A ratesetting method that provides for adjustment downward to a prospectively set lower rate is not subject to the upper limits under § 447.316.

§ 447.307 Opportunity for public comment on rates.

(a) Members of the public must have an opportunity to review and comment on proposed rates and the ratesetting methodology before they become effective.

(b) If proposed rates or rate formulas provide for retroactive downward adjustments under § 447.306, the agency, in publishing the proposed rates or rate formulas for public comment, must state the deficiencies under which an adjustment would be made and the amount or percentage rate of the adjustment.

PAYMENT ASSURANCE

§ 447.311 Payment assurance.

The agency must pay amounts determined for long-term care facility services according to the methods and standards set forth in the plan under § 447.301.

UPPER LIMITS: SNF'S, ICF'S

§ 447.315 Upper limits: General provisions.

(a) The agency may not pay more for long-term care facility services than the provider's customary charge.

(b) Public facilities that provide services free or at a nominal charge may be reimbursed on a reasonable cost-related basis under this subpart.

(c) Any limitation on coverage of costs published under §§ 405.460 and 405.461 of this chapter will apply to payments for long-term care facility services.

§ 447.316 Upper limits: Retrospective payment.

(a) If the agency pays a provider under a retrospective payment system, it may not pay more than would be paid under the medicare principles of provider reimbursement under part 405, subpart D, of this chapter. Payments meet this requirement—

(1) If, in a random sample of all medicaid facilities, the payment is not more than the amount that would have been paid under medicare in at least 90 percent of the facilities in the sample; or

(2) If the average payment to all facilities within a class is not more than the amount that would have been paid under medicare.

(b) To determine what would have been paid under medicare—

(1) For facilities that participate in medicare, the interim rate paid to the facility under medicare (adjusted for services not included in the plan) may be used to determine the upper limit; and

(2) For facilities that are not participating in medicare, the agency must

set payment rates that are consistent with the intent that payments do not exceed amounts that would be determined using medicare's principles. In complying with this requirement, the agency need not use medicare's cost reports or methods of cost finding or audit the facilities to use medicare's principles.

OUTPATIENT HOSPITAL AND CLINIC SERVICES

§ 447.321 Outpatient hospital services and clinic services: Upper limits of payment.

The agency may not pay more than the combined payments the provider gets from the beneficiaries and carriers or intermediaries for providing comparable services under comparable circumstances under medicare.

OTHER INPATIENT AND OUTPATIENT FACILITIES

§ 447.325 Other inpatient and outpatient facility services: Upper limits of payment.

The agency may pay the customary charges of the provider but must not pay more than the prevailing charges in the locality for comparable services under comparable circumstances.

DRUGS

§ 447.331 Drugs: Upper limits of payment.

(a) The agency may not pay more for prescribed drugs than the lower of ingredient cost plus a dispensing fee or the provider's usual and customary charge to the general public.

(b) Cost must be determined in accordance with § 447.332.

(c) The dispensing fee must be set by the agency under § 447.333.

§ 447.332 Cost of drugs.

(a) Multiple-source drugs. A "multiple-source drug" means a drug marketed or sold by two or more manufacturers or labelers or a drug marketed or sold by the same manufacturer or labeler under two or more different proprietary names or both under a proprietary name and without such a name. Except as specified in paragraph (b), the cost of each multiple source drug designated by the Pharmaceutical Reimbursement Board (45 CFR Part 19) and published in the FEDERAL REGISTER must be the lower of—

(1) The maximum allowable cost (MAC) established by the Board and published in the FEDERAL REGISTER; or

(2) The estimated acquisition cost as described in paragraph (c) of this section.

(b) *Exception: Certification of brand name drugs.* (1) The cost of a multiple-source drug is not limited to the MAC if a physician certifies in his own handwriting that, in his medical judgment, a specific brand is medically necessary for a particular recipient.

(2) The agency must decide what certification form and procedure are used.

(3) A checkoff box on a form is not acceptable but a notation like "brand necessary" is allowable.

(4) The agency may allow providers to keep the certification forms if the forms will be available for inspection by the agency or HEW.

(c) *All other drugs.* (1) The agency must set the cost of all other prescribed drugs at the estimated acquisition cost.

(2) "Estimated acquisition cost" means the agency's best estimate of what price providers generally are paying for a drug.

(3) The basis for the estimate must be the package size providers buy most frequently.

NOTE.—To help medicaid agencies with these estimates, HEW makes available information, on a current basis, on the acquisition cost of the most frequently prescribed drugs.

§ 447.333 Dispensing fee.

(a) The agency may set the dispensing fee by taking into account the results of surveys of the costs of pharmacy operation. The agency must periodically survey pharmacy operations including—

(1) Operational data;

(2) Professional services data;

(3) Overhead data; and

(4) Profit data.

(b) The dispensing fee may vary according to—

(1) Size and location of pharmacy;

(2) Whether the drug is a legend item (for which Federal law requires a prescription) or nonlegend item; and

(3) Whether the drug is dispensed by a physician or an outpatient department of an institution.

(c) The dispensing fee may also vary for drugs furnished recipients in institutions by a pharmacy using a unit dose system. In those cases—

(1) The dispensing fee is added to the ingredient cost of the drug actually used; and

(2) The fee is either—

(i) An amount added to the cost of each unit dose; or

(ii) A daily or monthly capitation rate per recipient being furnished drugs.

§ 447.334 Upper limits for drugs furnished as part of services.

The upper limits for payment for prescribed drugs in this subpart also apply to payment for drugs provided as part of skilled nursing facility services and intermediate care facility services and under prepaid capitation arrangements.

INDIVIDUAL PRACTITIONERS

§ 447.341 Individual practitioners: Upper limits of payment.

(a) This section applies to doctors of medicine, dentistry, osteopathy, podiatry, and any other individual practitioner services the agency chooses to include.

(b) The agency must not pay the individual practitioner more than the lowest of—

(1) His actual charge for service;

(2) His reasonable charge for the same service under part B, medicare (part 405, subpart D, of this chapter); or

(3) His median charge for a given service.

(c) The median charge for a given service is determined from claims submitted during all of the calendar year preceding the fiscal year in which the determination is made.

(d) The agency must not pay more than the highest of—

(1) The 75th percentile of the range of weighted customary charges in the same locality that are set under medicare during the calendar year preceding the fiscal year in which the determination is made; or

(2) The prevailing reasonable charge under part B, medicare.

OTHER NONINSTITUTIONAL SERVICES

§ 447.351 Selected medical services, supplies and equipment: Upper limits.

(a) Under the medicare criteria for determination of reasonable charges, the Secretary selects and lists in the FEDERAL REGISTER, under § 405.511 of this chapter, medical services, supplies, and equipment (including equipment servicing) that do not generally vary significantly in quality from one supplier to another. Medicare carriers calculate the lowest charge levels at which such services, supplies, and equipment are widely and consistently available within their locality, according to the procedures prescribed in § 405.511.

(b) For those selected services and items furnished under both medicare and medicaid, the agency must not pay more than the lowest charge level calculated by the medicare carrier for the item or service in the locality.

(c) For those selected services and items furnished only under medicaid, the agency must not pay more than the lowest charge levels calculated by the agency under the procedures specified in § 405.511 (c) and (d) of this chapter.

§ 447.352 Other noninstitutional services: Upper limits.

(a) For any noninstitutional item or service furnished under both medicare and medicaid and not subject to the

upper limits specified in § 447.351 or other sections of this part, the agency must not pay more than the reasonable charge established for that item or service by a medicare carrier serving part or all of the State.

(b) For all other noninstitutional items or services furnished only under medicaid and not subject to the upper limits specified in § 447.351 or other sections of this part, the agency must not pay more than the customary charge for a provider or the prevailing charge in the locality for comparable items or services under comparable circumstances, whichever is lower. For this purpose, the agency must set prevailing charges on the basis of the combined payments that providers receive from other third party insurers and their subscribers and policyholders.

PREPAID CAPITATION PLANS

§ 447.361 Prepaid capitation plans: Upper limits of payment.

The agency must not pay more for a defined scope of services to a defined number of recipients under a capitation arrangement than the cost of providing those same services on a fee-for-service basis, and must not pay more than other third party payors are paying for comparable services under comparable circumstances.

RURAL HEALTH CLINIC SERVICES

§ 447.371 Services furnished by rural health clinics.

The agency must pay for rural health clinic services, as defined in § 440.20(b) of this subchapter, and for other ambulatory services furnished by a rural health clinic, as defined in § 440.20(c) of this subchapter, as follows:

(a) For provider clinics, the agency must pay the reasonable cost of rural health clinic services and other ambulatory services on the basis of the cost reimbursement principles in subpart D of part 405 of this chapter. For purposes of this section, a provider clinic is an integral part of a hospital, skilled nursing facility, or home health agency that is participating in medicare and is licensed, governed, and supervised with other departments of the facility.

(b) For clinics other than provider clinics that do not offer any ambulatory services other than rural health clinic services, the agency must pay for rural health clinic services at the reasonable cost rate per visit determined by a medicare carrier under §§ 405.2426 through 405.2429 of this chapter.

(c) For clinics other than provider clinics that do offer ambulatory services other than rural health clinic services, the agency must pay for the other ambulatory services by one of the following methods:

(1) The agency may pay for other ambulatory services and rural health clinic services at a single rate per visit that is based on the cost of all services furnished by the clinic. The rate must be determined by a medicare carrier under §§ 405.2526 through 405.2429 of this chapter.

(2) The agency may pay for other ambulatory services at a rate set for each service by the agency. The rate must not exceed the upper limits in this subpart. The agency must pay for rural health clinic services at the medicare reimbursement rate per visit, as specified in § 405.2426 of this chapter.

(3) The agency may pay for dental services at a rate per visit that is based on the cost of dental services furnished by the clinic. The rate must be determined by a medicare carrier under §§ 405.2426 through 405.2429 of this chapter. The agency must pay for ambulatory services other than dental services under paragraph (c) (1) or (2) of this section.

(d) For purposes of paragraph (c) (1) and (3) of this section, "visit" means a face-to-face encounter between a clinic patient and any health professional whose services are reimbursed under the State plan. Encounters with more than one health professional, and multiple encounters with the same health professional, that take place on the same day and at a single location constitute a single visit, except when the patient, after the first encounter, suffers illness or injury requiring additional diagnosis or treatment.

PART 455—PROGRAM INTEGRITY

Subpart A—Medicaid Agency Fraud Detection and Investigation Program

Sec.
455.10 Basis and purpose.
455.11 Definition of fraud.
455.12 State plan requirement.
455.13 Methods for identification, investigation, and referral.
455.14 Preliminary investigation.
455.15 Full investigation.
455.16 Resolution of full investigation.
455.17 Reporting to HCFA.
455.18 Provider's statements on claim form.
455.19 Provider's statement on check.
455.20 Recipient verification procedure.
455.21 Cooperation with State medicaid fraud control unit.
455.22 Notification of penalties.
455.23 Denial of FFP.

Subpart B—Disclosure of Information by Providers and Fiscal Agents

455.104 Disclosure by intermediate care facilities of ownership and control information.

Subpart D—State Medicaid Fraud Control Units

455.300 State medicaid fraud control units.

AUTHORITY: Sec. 1102 Social Security Act, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—Medicaid Agency Fraud Detection and Investigation Program

§ 455.10 Basis and purpose.

This subpart—

(a) Prescribes requirements, based on section 1902(a)(4) of the Act, for medicaid agency prevention and control of program fraud and abuse;

(b) Requires agencies to inform providers and recipients of the Federal penalties for fraud under section 1909 of the Act; and

(c) Implements section 1903(i)(2) of the Act, prohibiting FFP for payments to Medicaid providers who are ineligible for payments under medicare because of a determination by the Secretary relating to false or excessive claims.

§ 455.11 Definition of fraud.

For purposes of this subpart the definition of fraud is determined according to State law.

§ 455.12 State plan requirement.

A State plan must meet the requirements of §§ 455.13–455.22.

§ 455.13 Methods for identification, investigation and referral.

The medicaid agency must have—

(a) Methods and criteria for identifying suspected fraud cases;

(b) Methods for investigating these cases that—

(1) Do not infringe on the legal rights of persons involved; and

(2) Afford due process of law; and

(c) Procedures, developed in cooperation with State legal authorities, for referring suspected fraud cases to law enforcement officials. The procedures must include designating an agency position with responsibility for making referrals.

§ 455.14 Preliminary investigation.

If the agency receives a complaint of fraud or abuse from any source, it must conduct a preliminary investigation to determine whether there is sufficient merit to warrant the initiation of a full investigation.

§ 455.15 Full investigation.

If the findings of a preliminary investigation give the agency reason to believe the allegation, the agency must conduct a full investigation to determine if—

(a) The allegation is true; and

(b) There is sufficient evidence that can be developed to support a civil or criminal fraud or abuse action under State law.

§ 455.16 Resolution of full investigation.

A full investigation must continue until—

(a) Appropriate legal action is initiated;

(b) The case is closed or dropped because of insufficient evidence to support the allegations of fraud or abuse; or

(c) The matter is resolved between the agency and the provider. This resolution may include but is not limited to—

(1) Sending a warning letter to the provider giving notice that continuation of the activity in question will result in further action;

(2) Suspending the provider from participation in the medicaid program;

(3) Terminating the provider from participation in the medicaid program; or

(4) Seeking recovery of payments made to the provider.

§ 455.17 Reporting to HCFA.

The agency must report the following fraud and abuse information to the Regional HCFA Administrator at intervals prescribed in HCFA instructions:

(a) The number of complaints of fraud and abuse made to the agency that warrant preliminary investigation.

(b) For each case of suspected fraud and abuse that warrants a full investigation—

(1) The provider's name and number;

(2) The source of the complaint;

(3) The type of provider;

(4) The nature of the complaint;

(5) The approximate range of dollars involved; and

(6) The legal and administrative disposition of the case, including actions taken by law enforcement officials to whom the case has been referred.

(c) A summary of the information reported in paragraph (b) of this section.

§ 455.18 Provider's statements on claims form.

(a) Except as provided in § 455.19, the agency must provide that all provider claims forms be imprinted in boldface type with the following statements, or with alternate wording that is approved by the Regional HCFA Administrator:

(1) "This is to certify that the foregoing information is true, accurate, and complete."

(2) "I understand that payment of this claim will be from Federal and State funds, and that any falsification, or concealment of a material fact, may be prosecuted under Federal and State laws."

(b) The statements may be printed above the claimant's signature or, if they are printed on the reverse of the form, a reference to the statements must appear immediately preceding the claimant's signature.

§ 455.19 Provider's statement on check.

As an alternative to the statements required in § 455.18, the agency may print the following wording above the claimant's endorsement on the reverse of checks or warrants payable to each provider: "I understand in endorsing or depositing this check that payment will be from Federal and State funds and that any falsification, or concealment of a material fact, may be prosecuted under Federal and State laws."

§ 455.20 Recipient verification procedure.

(a) The agency must have a method for verifying with recipients whether services billed by providers were received.

(b) In States receiving Federal matching funds for a mechanized claims processing and information retrieval system under part 433, subpart C, of this subchapter, the agency must provide prompt written notice as required by § 433.113(b)(2) to—

(1) Each recipient for whom services were billed; or

(2) Each recipient in a sample group of recipients for whom services were billed.

(c) In States not receiving Federal matching funds for a mechanized system, verification may be made by:

(1) A random sample of recipients for each provider who is paid significant amounts (i.e., high-volume providers); and

(2) A random sample of recipients for groups of providers who are not paid significant amounts (i.e., low-volume providers).

§ 455.21 Cooperation with State medicaid fraud control units.

In a State with a medicaid fraud control unit established and certified under subpart F of this part:

(a) The agency must—

(1) Refer all cases of suspected provider fraud to the unit;

(2) If the unit determines that it may be useful in carrying out the unit's responsibilities, promptly comply with a request from the unit for—

(i) Access to, and free copies of, any records or information kept by the agency or its contractors;

(ii) Computerized data stored by the agency or its contractors. This data must be supplied without charge and in the form requested by the unit; and

(iii) Access to any information kept by providers to which the agency is authorized access by sec. 1902(a)(27) of the Act and § 431.107 of this subchapter. In using this information, the unit must protect the privacy rights of recipients; and

(3) On referral from the unit, initiate any available administrative or judicial action to recover improper payments to a provider.

(b) The agency need not comply with specific requirements under this subpart that are the same as the responsibilities placed on the unit under subpart F of this part.

§ 455.22 Notification of penalties.

The agency must notify providers and recipients of the provisions of sec. 1909 of the Act that provide Federal penalties for fraudulent acts and false reporting.

§ 455.23 Denial of FFP.

No FFP is available in payments for services by a provider or other person who is ineligible to receive payment under medicare because of a determination under § 405.315a or § 405:614 of this chapter relating to false or excessive claims. Suspension of FFP is effective when the Administrator notifies the agency of the determination, and continues for the period of ineligibility under medicare.

Subpart B—Disclosure of Information by Providers and Fiscal Agents

§ 455.104 Disclosure by intermediate care facilities of ownership and control information.

(a) A State plan must provide that an intermediate care facility receiving medicaid payments must submit to the State licensing agency the information specified in this section and must promptly report any changes in it.

(b) The facility must submit complete information on the identity of—

(1) Each individual who has, directly or indirectly, an ownership interest of 5 percent or more in the facility;

(2) Each individual who owns, in whole or in part, any mortgage, deed of trust, note or other obligation secured, in whole or in part, by the facility or by any property or asset of the facility;

(3) Each corporation officer or director, if the facility is a corporation; and

(4) Each partner, if the facility is a partnership.

Subpart D—State Medicaid Fraud Control Units

§ 455.300 State medicaid fraud control units.

(a) *Definitions.* As used in this section, unless otherwise indicated by the context:

"Employ" or "employee", as the context requires, means full-time duty intended to last at least a year. It includes an arrangement whereby an individual is on full-time detail or assign-

V 4 3 / 1 9 0
SE 29 78

ment to the unit from another government agency, if the detail or assignment is for a period of at least 1 year and involves supervision by the unit.

"Provider" means an individual or entity which furnishes items or services for which payment is claimed under medicaid.

"Unit" means the State medicaid fraud control unit.

(b) *Scope and purpose.* This section implements section 1903(a)(6), 1903(b)(3), and 1903(q) of the Social Security Act, as amended by the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142 of October 25, 1977). The statute authorizes the Secretary to pay a State 90 percent of the costs of establishing and operating a State medicaid fraud control unit, as defined by the statute, for the purpose of eliminating fraud in the State medicaid program.

(c) *Basic requirement.* A State medicaid fraud control unit must be a single identifiable entity of the State government certified by the Secretary as meeting the requirements of paragraphs (d) through (g) of this section.

(d) *Organization and location requirements.* Any of the following three alternatives is acceptable:

(1) The unit is located in the office of the State attorney general or another department of State government which has statewide authority to prosecute individuals for violations of criminal laws with respect to fraud in the provision or administration of medical assistance under a State plan implementing title XIX of the Act; or

(2) If there is no State agency with statewide authority and capability for criminal fraud prosecutions, the unit has established formal procedures which assure that the unit refers suspected cases of criminal fraud in the State medicaid program to the appropriate State prosecuting authority or authorities, and provides assistance and coordination to such authority or authorities in the prosecution of such cases; or

(3) The unit has a formal working relationship with the office of the State attorney general and has formal procedures for referring to the attorney general suspected criminal violations occurring in the State medicaid program and for effective coordination of the activities of both entities relating to the detection, investigation and prosecution of those violations. Under this requirement, the office of the State attorney general must agree to assume responsibility for prosecuting alleged criminal violations referred to it by the unit. However, if the attorney general finds that another prosecuting authority has the demonstrated capacity, experience and willingness to prosecute an alleged violation, he may refer a case to that prosecuting authority, as long as his office maintains oversight responsibility for the prosecution and for coordination between the unit and the prosecuting authority.

(e) *Relationship to, and agreement with, the medicaid agency.* (1) The unit must be separate and distinct from the medicaid agency.

(2) No official of the medicaid agency shall have authority to review the activities of the unit or to review or overrule the referral of a suspected criminal violation to an appropriate prosecuting authority.

(3) The unit shall not receive funds paid under this section either from or through the medicaid agency.

(4) The unit shall enter into an agreement with the medicaid agency under which the medicaid agency will agree to comply with all requirements of § 455.21(a)(2).

(f) *Duties and responsibilities of the unit.* (1) The unit shall conduct a statewide program for investigating and prosecuting (or referring for prosecution) violations of all applicable State laws pertaining to fraud in the administration of the medicaid program, the provision of medical assistance, or the activities of providers of medical assistance under the State medicaid plan.

(2) The unit shall also review complaints alleging abuse or neglect of patients in health care facilities receiving payments under the State medicaid plan and may review complaints of the misappropriation of patient's private funds in such facilities.

(i) If the initial review indicates substantial potential for criminal prosecution, the unit shall investigate the complaint or refer it to an appropriate criminal investigative or prosecutive authority.

(ii) If the initial review does not indicate a substantial potential for criminal prosecution, the unit shall refer the complaint to an appropriate State agency.

(3) If the unit, in carrying out its duties and responsibilities under paragraphs (f) (1) and (2) of this section, discovers that overpayments have been made to a health care facility or other provider of medical assistance under the State medicaid plan, the unit shall either attempt to collect such overpayment or refer the matter to an appropriate State agency for collection.

(4) Where a prosecuting authority other than the unit is to assume responsibility for the prosecution of a case investigated by the unit, the unit shall insure that those responsible for the prosecutive decision and the preparation of the case for trial have the fullest possible opportunity to participate in the investigation from its inception and will provide all necessary assistance to the prosecuting authority throughout all resulting prosecutions.

(5) The unit shall make available to Federal investigators or prosecutors all information in its possession concerning fraud in the provision or administration of medical assistance under the State plan and shall cooperate with such officials in coordinating any Federal and State investigations or prosecutions involving the same suspects or allegations.

(6) The unit shall safeguard the privacy rights of all individuals and shall provide safeguards to prevent the misuse of information under the unit's control.

(g) *Staffing requirements.* (1) The unit shall employ sufficient professional, administrative, and support staff to carry out its duties and responsibilities in an effective and efficient manner. The staff must include:

(i) One or more attorneys experienced in the investigation or prosecution of civil fraud or criminal cases, who are capable of giving informed advice on applicable law and procedures and providing effective prosecution or liaison with other prosecutors;

(ii) One or more experienced auditors capable of supervising the review of financial records and advising or assisting in the investigation of alleged fraud;

(iii) A senior investigator with substantial experience in commercial or financial investigations who is capable of supervising and directing the investigative activities of the unit.

(2) The unit shall employ, or have available to it, professional staff who are knowledgeable about the provision of medical assistance under title XIX and about the operation of health care providers.

(h) *Applications, certification, and recertification.*—(1) *Initial application.* In order to receive FFP under this section, the unit must submit to the Secretary, an application approved by the Governor, containing the following information and documentation.

(i) A description of the applicant's organization, structure, and location within State government, and an indication of whether it seeks certification under paragraph (d)(1), (d)(2), or (d)(3) of this section;

(ii) A statement from the State attorney general that the applicant has authority to carry out the functions and responsibilities set forth in this section. If the applicant seeks certification under paragraph (d)(2) of this section, the statement must also specify either that there is no State agency with the authority to exercise statewide prosecuting authority for the violations with which the unit is concerned, or that, although the State

attorney general may have common law authority for statewide criminal prosecutions, he has not exercised that authority.

(iii) A copy of whatever memorandum of agreement, regulation, or other document sets forth the formal procedures required under paragraph (d)(2) of this section or the formal working relationship and procedures required under paragraph (d)(3) of this section;

(iv) A copy of the agreement with the medicaid agency required under paragraph (e) of this section;

(v) A statement of the procedures to be followed in carrying out the functions and responsibilities of this section;

(vi) A projection of the caseload and a proposed budget for the 12-month period for which certification is sought; and

(vii) Current and projected staffing, including the names, education, and experience of all senior professional staff already employed and job descriptions, with minimum qualifications, for all professional positions.

(2) *Conditions for, and notification of certification.* (i) The Secretary will approve an application only if he has specifically approved the applicant's formal procedures under paragraph (d)(2) or (d)(3) of this section, if either of those provisions is applicable, and has specifically certified that the applicant meets the requirements of paragraph (d) of this section.

(ii) The Secretary will promptly notify the applicant whether the application meets the requirements of this section and is approved. If the application is not approved, the applicant may submit an amended application at any time. Approval and certification will be for a period of 1 year.

(3) *Conditions for recertification.* In order to continue receiving payments under this section, a unit must submit a reapplication to the Secretary at least 60 days prior to the expiration of the 12-month certification period. A reapplication must:

(i) Advise the Secretary of any changes in the information or documentation required under paragraph (h)(1) (i) through (v) of this section.

(ii) Provide projected caseload and proposed budget for the recertification period; and

(iii) Include or incorporate by reference the annual report required under paragraph (i) of this section.

(4) *Basis for recertification.* (i) The Secretary will consider the unit's reapplication, the reports required under paragraph (i) of this section, and any other reviews or information he deems necessary or warranted, and will promptly notify the unit whether he has approved the reapplication and recertified the unit.

(ii) In reviewing the reapplication, the Secretary will give special attention to whether the unit has used its resources effectively in investigating cases of possible fraud, in preparing cases for prosecution, and in prosecuting cases or cooperating with the prosecuting authorities.

(i) *Reporting requirements.*—(1) *Annual report.* At least 60 days prior to the expiration of the certification period, the unit shall submit to the Secretary a report covering the last 12 months (the first 9 months of the certification period for the first annual report), and containing the following information:

(i) The number of investigations initiated and the number completed or closed, categorized by type of provider;

(ii) The number of cases prosecuted or referred for prosecution; the number of cases finally resolved and their outcomes; and the number of cases investigated but not prosecuted or referred for prosecution because of insufficient evidence;

(iii) The number of complaints received regarding abuse and neglect of patients in health care facilities; the number of such complaints investigated by the unit; and the number referred to other identified State agencies.

(iv) The number of recovery actions initiated by the unit; the number of recovery actions referred to another agency; the total amount of overpayments identified by the unit; and the total amount of overpayments actually collected by the unit;

(v) The number of recovery actions initiated by the medicaid agency under its agreement with the unit; and the total amount of overpayments actually collected by the medicaid agency under this agreement;

(vi) Projections for the succeeding 12 months for items listed in paragraphs (i)(1) (i) through (v) of this section;

(vii) The costs incurred by the unit, by major budget category; and

(viii) A narrative that evaluates the unit's performance; describes any specific problems it has had in connection with the procedures and agreements required under this section; and discusses any other matters that have impaired its effectiveness.

(2) The unit shall also provide any additional reports that the Secretary requests, and shall comply with any measures the Secretary deems necessary to assure the accuracy and completeness of all reports required under this paragraph (i).

(j) *Federal financial participation (FFP).*—(1) *Rate of FFP.* Subject to the limitations specified in this paragraph, the Secretary will reimburse each certified State medicaid fraud control unit, by an amount equal to 90 percent of the costs incurred by that unit which are attributable to carrying out its functions and responsibilities under this section. The costs subject to reimbursement will be determined under 45 CFR part 74, except as provided otherwise in this part or in the grant award.

(2) *Basis and period of payment.* (i) Payment will be made for each quarter, based on quarterly reports submitted by the unit in the format and containing the information requested by the Secretary.

(ii) Payments are available for each quarter during fiscal years 1978, 1979, and 1980.

(iii) The Secretary may grant certification retroactive to the date on which the unit first met all the requirements of the statute and of this section. For any quarter with respect to which the unit is certified, the Secretary will provide reimbursement for the entire quarter.

(3) *Amount of FFP.* The amount paid during any quarter shall not exceed the higher of $125,000 or one-quarter of 1 percent of the sums expended by the Federal, State, and local governments during the previous quarter in carrying out the State medicaid program.

(4) *Costs subject to FFP.* FFP is available under this section for the expenditures attributable to the establishment and operation of the unit, including the cost of training personnel employed by the unit. Reimbursement shall be limited to costs attributable to the specific responsibilities and functions set forth in this section in connection with the investigation and prosecution of suspected fraudulent activities and the review of complaints of alleged abuse or neglect of patients in health care facilities. Establishment costs are limited to clearly identifiable costs of personnel that:

(i) Devote full time to the establishment of the unit which does achieve certification; and

(ii) Continue as full-time employees after the unit is certified.

All establishment costs will be deemed made in the first quarter of certification.

(5) *Costs not subject to FFP.* FFP is not available under this section for expenditures attributable to:

(i) The investigation of cases involving program abuse or other failures to comply with applicable laws and regulations, if these cases do not involve substantial allegations or other indications of fraud;

(ii) Efforts to identify situations in which a question of fraud may exist, including the screening of claims, analysis of patterns of practice, or routine verification with recipients of whether services billed by providers were actually received;

V 43 / 190 SE 29 78

(iii) The routine notification of providers that fraudulent claims may be punished under Federal or State law;

(iv) The performance by a person other than a full-time employee of the unit of any management function for the unit, any audit or investigation, any professional legal function, or any criminal, civil or administrative prosecution of suspected providers;

(v) The investigation or prosecution of cases of suspected recipient fraud not involving suspected conspiracy with a provider; or

(vi) Any payment, direct or indirect, from the unit to the medicaid agency, other than payments for the salaries of employees on detail to the unit.

PART 456—UTILIZATION CONTROL

Subpart A—General Provisions

Sec.
456.1 Basis and purpose of part.
456.2 State plan requirements.
456.3 Statewide surveillance and utilization control program.
456.4 Responsibility for monitoring the utilization control program.
456.5 Evaluation criteria.
456.6 Review by State medical agency of appropriateness and quality of services.

Subpart B—Utilization Control: All Medicaid Services

456.21 Scope.
456.22 Sample basis evaluation of services.
456.23 Postpayment review process.

456.113 Confidentiality.

UR PLAN: REVIEW OF NEED FOR ADMISSION

456.121 Admission review required.
456.122 Evaluation criteria for admission review.
456.123 Admission review process.
456.124 Notification of adverse decision.
456.125 Time limits for admission review.
456.126 Time limits for final decision and notification of adverse decision.

Sec.
456.127 Preadmission review.
456.128 Initial continued stay review date.
456.129 Description of methods and criteria: Initial continued stay review date; close professional scrutiny; length of stay modification.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

456.131 Continued stay review required.
456.132 Evaluation criteria for continued stay.
456.133 Subsequent continued stay review dates.
456.134 Description of methods and criteria: Subsequent continued stay review dates; length of stay modification.
456.135 Continued stay review process.
456.136 Notification of adverse decision.
456.137 Time limits for final decision and notification of adverse decision.

UR PLAN: MEDICAL CARE EVALUATION STUDIES

456.141 Purpose and general description.
456.142 UR plan requirements for medical care evaluation studies.
456.143 Content of medical care evaluation studies.
456.144 Data sources for studies.
456.145 Number of studies required to be performed.

Subpart D—Utilization Control: Mental Hospitals

456.150 Scope.
456.151 Definitions.

CERTIFICATION OF NEED FOR CARE

456.160 Physician certification and recertification of need for inpatient care.
456.170 Medical, psychiatric, and social evaluations.
456.171 Medicaid agency review of need for admission.

PLAN OF CARE

456.180 Individual written plan of care.
456.181 Reports of evaluations and plans of care.

UTILIZATION REVIEW (UR) PLAN: GENERAL REQUIREMENT

456.200 Scope.
456.201 UR plan required for inpatient mental hospital services.

UR PLAN: ADMINISTRATIVE REQUIREMENTS

456.205 UR committee required.
456.206 Organization and composition of UR committee; disqualification from UR committee membership.

UR PLAN: INFORMATIONAL REQUIREMENTS

456.211 Recipient information required for UR.
456.212 Records and reports.
456.213 Confidentiality.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

456.231 Continued stay review required.
456.232 Evaluation criteria for continued stay.
456.233 Initial continued stay review date.
456.234 Subsequent continued stay review dates.
456.235 Description of methods and criteria: Continued stay review dates; length of stay modification.

Sec.
456.236 Continued stay review process.
456.237 Notification of adverse decision.
456.238 Time limits for final decision and notification of adverse decision.

UR PLAN: MEDICAL CARE EVALUATION STUDIES

456.241 Purpose and general description.
456.242 UR plan requirements for medical care evaluation studies.
456.243 Content of medical care evaluation studies.
456.244 Data sources for studies.
456.245 Number of studies required to be performed.

Subpart E—Utilization Control: Skilled Nursing Facilities

456.250 Scope.
456.251 Definitions.

CERTIFICATION OF NEED FOR CARE

456.260 Physician certification and recertification of need for inpatient care.

MEDICAL, PSYCHIATRIC, AND SOCIAL EVALUATIONS, AND ADMISSION REVIEW

456.270 Medical, psychiatric, and social evaluations.
456.271 Medicaid agency review of need for admission.

PLAN OF CARE

456.280 Individual written plan of care.
456.281 Reports of evaluations and plans of care.

UTILIZATION REVIEW (UR) PLAN: GENERAL REQUIREMENT

456.300 Scope.
456.301 UR plan required for skilled nursing facility services.

UR PLAN: ADMINISTRATIVE REQUIREMENTS

456.305 UR committee required.
456.306 Organization and composition of UR committee; disqualification from UR committee membership.

UR PLAN: INFORMATIONAL REQUIREMENTS

456.311 Recipient information required for UR.
456.312 Records and reports.
456.313 Confidentiality.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

456.331 Continued stay review required.
456.332 Evaluation criteria for continued stay.
456.333 Initial continued stay review date.
456.334 Subsequent continued stay review dates.
456.335 Description of methods and criteria: Continued stay review dates; length of stay modification.
456.336 Continued stay review process.
456.337 Notification of adverse decision.
456.338 Time limits for final decision and notification of adverse decision.

UR PLAN: MEDICAL CARE EVALUATION STUDIES

456.341 Purpose and general description.
456.342 UR plan requirement for medical care evaluation studies.
456.343 Content of medical care evaluation studies.
456.344 Data sources for studies.

Sec.
456.345 Number of studies required to be performed.

DISCHARGE PLAN

456.346 Discharge plan.
456.347 Discharge planning procedures.
456.348 Information about discharged recipients.

Subpart F—Utilization Control: Intermediate Care Facilities

456.350 Scope.
456.351 Definition.

CERTIFICATION OF NEED FOR CARE

456.360 Physician certification and recertification of need for inpatient care.

MEDICAL, PSYCHOLOGICAL, AND SOCIAL EVALUATIONS AND ADMISSION REVIEW

456.370 Medical, psychological, and social evaluations.
456.371 Exploration of alternative services.
456.372 Medicaid agency review of need for admission.

PLAN OF CARE

456.380 Individual written plan of care.
456.381 Reports of evaluations and plans of care.

UTILIZATION REVIEW (UR) PLAN: GENERAL REQUIREMENT

456.400 Scope.
456.401 State plan UR requirements and options; UR plan required for intermediate care facility services.

UR PLAN: ADMINISTRATIVE REQUIREMENTS

456.405 Description of UR review function: How and when.
456.406 Description of UR review function: Who performs UR; disqualification from performing UR.
456.407 UR responsibilities of administrative staff.

UR PLAN: INFORMATIONAL REQUIREMENTS.

456.411 Recipient information required for UR.
456.412 Records and reports.
456.413 Confidentiality.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

456.431 Continued stay review required.
456.432 Evaluation criteria for continued stay.
456.433 Initial continued stay review date.
456.434 Subsequent continued stay review dates.
456.435 Description of methods and criteria: Continued stay review dates.
456.436 Continued stay review process.
456.437 Notification of adverse decision.
456.438 Time limits for notification of adverse decision.

Subpart G—Inpatient Psychiatric Services for Individuals Under Age 21: Admission and Plan of Care Requirements

456.480 Scope.
456.481 Admission certification and plan of care.
456.482 Medical, psychiatric, and social evaluations.

Subpart H—Utilization Review Plans: FFP, Waivers, and Variances for Hospitals, Mental Hospitals, and Skilled Nursing Facilities

Sec.
456.500 Purpose.
456.501 UR plans as a condition for FFP.

UR PLAN: WAIVER OF REQUIREMENTS

456.505 Applicability of waiver.
456.506 Waiver options for medicaid agency.
456.507 Review and granting of waiver requests.
456.508 Withdrawal of waiver.

UR PLAN: REMOTE FACILITY VARIANCES FROM TIME REQUIREMENTS

456.520 Definitions.
456.521 Conditions for granting variance requests.
456.522 Content of request for variance.
456.523 Revised UR plan.
456.524 Notification of Administrator's action and duration of variance.
456.525 Request for renewal of variance.

Subpart I—Inspections of Care in Skilled Nursing and Intermediate Care Facilities and Institutions for Mental Diseases

456.600 Purpose.
456.601 Definitions.
456.602 Inspection team.
456.603 Financial interests and employment of team members.
456.604 Physician team member inspecting care of recipients.
456.605 Number and location of teams.
456.606 Frequency of inspections.
456.607 Notification before inspection.
456.608 Personal contact with and observation of recipients and review of records.
456.609 Determinations by team.
456.610 Basis for determinations.
456.611 Reports on inspections.
456.612 Copies of reports.
456.613 Action on reports.
456.614 Inspections by utilization review committee.

Subpart A—General Provisions

§ 456.1 Basis and purpose of part.

(a) This part prescribes requirements concerning control of the utilization of medicaid services including—

(1) A statewide program of control of the utilization of all medicaid services; and

(2) Specific requirements for the control of the utilization of medicaid services in institutions.

(b) The requirements in this part are based on the following sections of the Act. Table 1 shows the relationship between these sections of the Act and the requirements in this part.

(1) *Methods and procedures to safeguard against unnecessary utilization of care and services.* Section 1902(a)(30) requires that the State plan provide methods and procedures to safeguard against unnecessary utilization of care and services.

(2) *Penalty for failure to have an effective program to control utilization of institutional services.* Section 1903(g)(1) provides for a reduction in the amount of Federal medicaid funds paid to a State for long-stay inpatient services if the State does not make a showing satisfactory to the Secretary that it has an effective program of control over utilization of those services. This penalty provision applies to inpatient services in hospitals, mental hospitals, skilled nursing facilities (SNF's), and intermediate care facilities (ICF's). Specific requirements are:

(i) Under sec. 1903(g)(1)(A), a physician must certify at admission, and periodically recertify, the individual's need for inpatient care.

(ii) Under sec. 1903(g)(1)(B), services must be furnished under a plan established and periodically evaluated by a physician.

(iii) Under sec. 1903(g)(1)(C), the State must have in effect a continuous program of review of utilization of care and services under section 1902(a)(30) whereby each admission is reviewed or screened in accordance with criteria established by medical and other professional personnel.

(iv) Under sec. 1903(g)(1)(D), the State must have an effective program under sections 1902(a) (26) and (31) of review of care in skilled nursing and intermediate care facilities and mental hospitals. This must include evaluation at least annually of the professional management of each case.

(3) *Medical review in skilled nursing facilities and mental hospitals.* Section 1902(a)(26)(A) requires that the plan provide for a program of medical review that includes a medical evaluation of each individual's need for care in a SNF or mental hospital, a plan of care, and, where applicable, a plan of rehabilitation.

(4) *Independent professional review in intermediate care facilities.* Section 1902(a)(31)(A) requires that the plan provide for a program of independent professional review that includes a medical evaluation of each individual's need for intermediate care and a written plan of service.

(5) *Inspection of care and services in institutions.* Sections 1902(a)(26) (B) and (C) and 1902(a)(31) (B) and (C) require that the plan provide for periodic inspections and reports, by a team of professional persons, of the care being provided to each recipient in SNF's, institutions for mental diseases (IMD's), and ICF's participating in medicaid.

(6) *Denial of FFP for failure to have specified utilization review procedures.* Section 1903(i)(4) provides that FFP is not available in a State's expenditures for hospital, mental hospital, or SNF services unless the institution has in effect a utilization review plan that meets medicare requirements. However, the Secretary may waive this requirement if the medicaid

V 43 / 190 / SEP 29 78 UMI

agency demonstrates to his satisfaction that it has utilization review procedures superior in effectiveness to the medicare procedures.

(7) *State health agency guidance on quality and appropriateness of care and services.* Section 1902(a)(33)(A) requires that the plan provide that the State health or other appropriate medical agency establish a plan for review, by professional health personnel, of the appropriateness and quality of medicaid services to provide guidance to the medicaid agency and the State licensing agency in administering the medicaid program.

TABLE 1

This table relates the regulations in this part to the sections of the Act on which they are based.

Subpart A—General	1902(a)(30) 1902(a)(33)(A)
Subpart B—Utilization Control: All Medicaid Services	1902(a)(30)
Subpart C—Utilization Control: Hospitals	
Certification of need for care	1903(g)(1)(A)
Plan of care	1903(g)(1)(B)
Utilization review plan (including admission review)	1902(a)(30) 1903(g)(1)(C) 1903(i)(4)
Subpart D—Utilization Control: Mental Hospitals	
Certification of need for care	1903(g)(1)(A)
Medical evaluation and admission review	1902(a)(26)(A) 1903(g)(1)(C)
Plan of care	1902(a)(26)(A) 1903(g)(1)(B)
Admission and plan of care requirements for individuals under 21	1902(a)(26)(A) 1903(g)(1)(B), (C)
Utilization review plan	1902(a)(30) 1903(g)(1)(C) 1903(i)(4)
Subpart E—Utilization Control: Skilled Nursing Facilities	
Certification of need for care	1903(g)(1)(A)
Medical evaluation and admission review	1902(a)(26)(A) 1903(g)(1)(C)
Plan of care	1902(a)(26)(A) 1903(g)(1)(B)
Utilization review plan	1902(a)(30) 1903(g)(1)(C) 1903(i)(4)
Discharge plan	1902(a)(30)
Subpart F—Utilization Control: Intermediate Care Facilities	
Certification of need for care	1903(g)(1)(A)
Medical evaluation and admission review	1902(a)(31)(A) 1903(g)(1)(C)
Plan of care	1902(a)(31)(A) 1903(g)(1)(B)
Utilization review plan	1902(a)(30) 1903(g)(1)(C) 1903(i)(4)
Subpart G—Inpatient Psychiatric Services for Individuals Under Age 21: Admission and Plan of Care Requirements	1905 (a)(16) and (h)
Subpart H—Utilization Review Plans: FFP, Waivers, and Variances for Hospitals, Mental Hospitals and Skilled Nursing Facilities	1902(a)(30) 1903(i)(4)
Subpart I—Inspections of Care in Skilled Nursing and Intermediate Care Facilities and Institutions for Mental Diseases	1902(a) (26) (B), (C), (31) (B), (C) 1903(g)(1)(D)

§ 456.2 State plan requirements.

A State plan must provide that the requirements of this part are met.

§ 456.3 Statewide surveillance and utilization control program.

The medicaid agency must implement a statewide surveillance and utilization control program that—

(a) Safeguards against unnecessary or inappropriate use of medicaid services and against excess payments;

(b) Assesses the quality of those services;

(c) Provides for the control of the utilization of all services provided under the plan in accordance with subpart B of this part; and

(d) Provides for the control of the utilization of inpatient services in accordance with subparts C through I of this part.

§ 456.4 Responsibility for monitoring the utilization control program.

(a) The agency must—

(1) Monitor the statewide utilization control program;

(2) Take all necessary corrective action to ensure the effectiveness of the program;

(3) Establish methods and procedures to implement this section;

(4) Keep copies of these methods and procedures on file; and

(5) Give copies of these methods and procedures to all staff involved in carrying out the utilization control program.

§ 456.5 Evaluation criteria.

The agency must establish and use written criteria for evaluating the appropriateness and quality of medicaid services. This section does not apply to services in hospitals, mental hospitals, and SNF's. For these facilities, see the following sections: §§ 456.122 and 456.132 of subpart C; § 456.232 of subpart D; and § 456.332 of subpart E.

§ 456.6 Review by State medical agency of appropriateness and quality of services.

(a) The medicaid agency must have an agreement with the State health agency or other appropriate State medical agency, under which the health or medical agency is responsible for establishing a plan for the review by professional health personnel of the appropriateness and quality of medicaid services.

(b) The purpose of this review plan is to provide guidance to the medicaid agency in the administration of the State plan and, where applicable, to the State licensing agency described in § 431.610.

Subpart B—Utilization Control: All Medicaid Services

§ 456.21 Scope.

This subpart prescribes utilization control requirements applicable to all services provided under a State plan.

§ 456.22 Sample basis evaluation of services.

To promote the most effective and appropriate use of available services and facilities the medicaid agency must have procedures for the on-going evaluation, on a sample basis, of the need for and the quality and timeliness of medicaid services.

§ 456.23 Post-payment review process.

The agency must have a post-payment review process that—

(a) Allows State personnel to develop and review—

(1) Recipient utilization profiles;

(2) Provider service profiles; and

(3) Exceptions criteria; and

(b) Identifies exceptions so that the agency can correct misutilization practices of recipients and providers.

Subpart C—Utilization Control: Hospitals

§ 456.50

Scope.

This subpart prescribes requirements for control of utilization of inpatient hospital services, including requirements concerning—

(a) Certification of need for care;

(b) Plan of care; and

(c) Utilization review plans.

§ 456.51 Definitions.

As used in this subpart:

"Inpatient hospital services"—

(a) Include—

(1) Services provided in an institution other than an institution for tuberculosis or mental disease, as defined in § 440.10;

(2) Services provided in an institution for tuberculosis, as defined in § 440.140; and

(3) Services provided in specialty hospitals and

(b) Exclude services provided in mental hospitals. Utilization control requirements for mental hospitals appear in subpart D.

"Medical care appraisal norms" or "norms" means numerical or statistical measures of usually observed performance.

"Medical care criteria" or "criteria" means predetermined elements against which aspects of the quality of a medical service may be compared. These criteria are developed by health professionals relying on their expertise and the professional health care literature.

CERTIFICATION OF NEED FOR CARE

§ 456.60 Physician certification and recertification of need for inpatient care.

(a) A physician must certify and recertify for each applicant or recipient that inpatient services in a hospital are or were needed.

(b) The certification must be made at the time of admission or, if an individual applies for assistance while in a hospital, before the medicaid agency authorizes payment.

(c) Recertifications must be made at least every 60 days after certification.

PLAN OF CARE

§ 456.80 Individual written plan of care.

(a) Before admission to a hospital or before authorization for payment, a physician and other personnel involved in the care of the individual must establish a written plan of care for each applicant or recipient.

(b) The plan of care must include—

(1) Diagnoses, symptoms, complaints, and complications indicating the need for admission;

(2) A description of the functional level of the individual;

(3) Any orders for—

(i) Medications;

(ii) Treatments;

(iii) Restorative and rehabilitative services;

(iv) Activities;

(v) Social services;

(vi) Diet;

(4) Plans for continuing care, as appropriate; and

(5) Plans for discharge, as appropriate.

(c) Orders and activities must be developed in accordance with physician's instructions.

(d) Orders and activities must be reviewed and revised as appropriate by all personnel involved in the care of an individual.

(e) A physician and other personnel involved in the recipient's case must review each plan of care at least every 60 days.

UTILIZATION REVIEW (UR) PLAN: GENERAL REQUIREMENT

§ 456.100 Scope.

Sections 456.101 through 456.145 of this subpart prescribe requirements for a written utilization review (UR) plan for each hospital providing medicaid services. Sections 456.105 and 456.106 prescribe administrative requirements: §§ 456.111 through 456.113 prescribe informational requirements; §§ 456.121 through 456.129 prescribe requirements for admission review; §§ 456.131 through 456.137 prescribe requirements for continued stay review; and §§ 456.141 through 456.145 prescribe requirements for medical care evaluation studies.

§ 456.101 UR plan required for inpatient hospital services.

(a) A State plan must provide that each hospital furnishing inpatient services under the plan has in effect a written UR plan that provides for review of each recipient's need for the services that the hospital furnishes him.

(b) Each written hospital UR plan must meet the requirements under §§ 456.101 through 456.145.

UR PLAN: ADMINISTRATIVE REQUIREMENTS

§ 456.105 UR committee required.

The UR plan must—

(a) Provide for a committee to perform UR required under this subpart;

(b) Describe the organization, composition, and functions of this committee; and

(c) Specify the frequency of meetings of the committee.

§ 456.106 Organization and composition of UR committee; disqualification from UR committee membership.

(a) For the purpose of this subpart, "UR committee" includes any group organized under paragraphs (b) and (c) of this section.

(b) The UR committee must be composed of two or more physicians, and assisted by other professional personnel.

(c) The UR committee must be constituted as—

(1) A committee of the hospital staff;

(2) A group outside the hospital staff, established by the local medical or osteopathic society and at least some of the hospitals and SNF's in the locality;

(3) A group capable of performing utilization review, established and organized in a manner approved by the Secretary.

(d) The UR committee may not include any individual who—

(1) Is directly responsible for the care of the patient whose care is being reviewed; or

(2) Has a financial interest in any hospital.

UR PLAN: INFORMATIONAL REQUIREMENTS

§ 456.111 Recipient information required for UR.

The UR plan must provide that each recipient's record includes information needed for the UR committee to perform UR required under this subpart. This information must include, at least, the following:

(a) Identification of the recipient.

(b) The name of the recipient's physician.

(c) Date of admission, and dates of application for and authorization of medicaid benefits if application is made after admission.

(d) The plan of care required under § 456.70.

(e) Initial and subsequent continued stay review dates described under § 456.128 and § 456.133.

(f) Date of operating room reservation, if applicable.

(g) Justification of emergency admission, if applicable.

(h) Reasons and plan for continued stay, if the attending physician believes continued stay is necessary.

(i) Other supporting material that the committee believes appropriate to be included in the record.

§ 456.112 Records and reports.

The UR plan must describe—

(a) The types of records that are kept by the committee; and

(b) The type and frequency of committee reports and arrangements for their distribution to appropriate individuals.

§ 456.113 Confidentiality.

The UR plan must provide that the identities of individual recipients in all UR records and reports are kept confidential.

UR PLAN: REVIEW OF NEED FOR ADMISSION [1]

§ 456.121 Admission review required.

The UR plan must provide for a review of each recipient's admission to the hospital to decide whether it is needed, in accordance with the requirements of §§ 456.122 through 456.129.

§ 456.122 Evaluation criteria for admission review.

The UR plan must provide that—

(a) The committee develops written medical care criteria to assess the need for admission; and

[1] The Department was enjoined in 1975 in the case of American Medical Assn. et al. v. Weinberger, 395 F. Supp. 515 (N.D. Ill., 1975), aff'd., 522 F2d 921 (7th cir., 1975) from implementing the admission review requirements contained in §§ 456.121–456.127. This case was dismissed on the condition that these requirements be revised. They are presently being revised, and will not be in force until that revision is completed.

V 43/190 SE 29 78

(b) The committee develops more extensive written criteria for cases that its experience shows are—
(1) Associated with high costs;
(2) Associated with the frequent furnishing of excessive services; or
(3) Attended by physicians whose patterns of care are frequently found to be questionable.

§ 456.123 Admission review process.

The UR plan must provide that—
(a) Admission review is conducted by—
(1) The UR committee;
(2) A subgroup of the UR committee; or
(3) A designee of the UR committee;
(b) The committee, subgroup, or designee evaluates the admission against the criteria developed under § 456.122 and applies close professional scrutiny to cases selected under § 456.129(b);
(c) If the committee, subgroup, or designee finds that the admission is needed, the committee assigns an initial continued stay review date in accordance with § 456.128;
(d) If the committee, subgroup, or designee finds that the admission does not meet the criteria, the committee or a subgroup that includes at least one physician reviews the case to decide the need for admission;
(e) If the committee or subgroup making the review under paragraph (d) of this section finds that the admission is not needed, it notifies the recipient's attending physician and gives him an opportunity to present his views before it makes a final decision on the need for the continued stay;
(f) If the attending physician does not present additional information or clarification of the need for the admission, the decision of the committee or subgroup is final; and
(g) If the attending physician presents additional information or clarification, at least two physician members of the committee review the need for the admission. If they find that the admission is not needed, their decision if final.

§ 456.124 Notification of adverse decision.

The UR plan must provide that written notice of any adverse final decision on the need for admission under § 456.123 (e) through (g) is sent to—
(a) The hospital administrator;
(b) The attending physician;
(c) The medicaid agency;
(d) The recipient; and
(e) If possible, the next of kin or sponsor.

§ 456.125 Time limits for admission review.

Except as required under § 456.127, the UR plan must provide that review of each recipient's admission to the hospital is conducted—
(a) Within one working day after admission, for an individual who is receiving medicaid at that time; or
(b) Within one working day after the hospital is notified of the application for medicaid, for an individual who applies while in the hospital.

§ 456.126 Time limits for final decision and notification of adverse decision.

Except as required under § 456.127, the UR plan must provide that the committee makes a final decision on a recipient's need for admission and gives notice of an adverse final decision—
(a) Within two working days after admission, for an individual who is receiving medicaid at that time; or
(b) Within two working days after the hospital is notified of the application for medicaid, for an individual who applies while in the hospital.

§ 456.127 Pre-admission review.

The UR plan must provide for review and final decision prior to admission for certain providers or categories of admissions that the UR committee designates under § 456.142(b)(4)(iii) to receive pre-admission review.

§ 456.128 Initial continued stay review date.

The UR plan must provide that—
(a) When a recipient is admitted to the hospital under the admission review requirements of this subpart, the committee assigns a specified date by which the need for his continued stay will be reviewed;
(b) The committee bases its assignment of the initial continued stay review date on—
(1) The methods and criteria required to be described under § 456.129;
(2) The individual's condition; and
(3) The individual's projected discharge date;
(c)(1) The committee uses any available appropriate regional medical care appraisal norms, such as those developed by abstracting services or third party payors, to assign the initial continued stay review date;
(2) These regional norms are based on current and statistically valid data on duration of stay in hospitals for patients whose characteristics, such as age and diagnosis, are similar to those of the individual whose case is being reviewed;
(3) If the committee uses norms to assign the initial continued stay review date, the number of days between the individual's admission and the initial continued stay review date is no greater than the number of days reflected in the 50th percentile of the norms. However, the committee may assign a later review date if it documents that the later date is more appropriate; and
(d) The committee ensures that the initial continued stay review date is recorded in the individual's record.

§ 456.129 Description of methods and criteria: Initial continued stay review date; close professional scrutiny; length of stay modification.

The UR plan must describe—
(a) The methods and criteria, including norms if used, that the committee uses to assign the initial continued stay review date under § 456.128.
(b) The methods that the committee uses to select categories of admission to receive close professional scrutiny under § 456.123(b); and
(c) The methods that the committee uses to modify an approved length of stay when the recipient's condition or treatment schedule changes.

UR Plan: Review of Need for Continued Stay

§ 456.131 Continued stay review required.

The UR plan must provide for a review of each recipient's continued stay in the hospital to decide whether it is needed, in accordance with the requirements of §§ 456.132 through 456.137.

§ 456.132 Evaluation criteria for continued stay.

The UR plan must provide that—
(a) The committee develops written medical care criteria to assess the need for continued stay.
(b) The committee develops more extensive written criteria for cases that its experience shows are—
(1) Associated with high costs;
(2) Associated with the frequent furnishing of excessive services; or
(3) Attended by physicians whose patterns of care are frequently found to be questionable.

§ 456.133 Subsequent continued stay review dates.

The UR plan must provide that—
(a) The committee assigns subsequent continued stay review dates in accordance with §§ 456.128 and 456.134(a);
(b) The committee assigns a subsequent review date each time it decides under § 456.135 that the continued stay is needed; and
(c) The committee ensures that each continued stay review date it assigns is recorded in the recipient's record.

§ 456.134 Description of methods and criteria: Subsequent continued stay review dates; length of stay modification.

The UR plan must describe—
(a) The methods and criteria, including norms if used, that the committee uses to assign subsequent continued stay review dates under § 456.133; and
(b) The methods that the committee uses to modify an approved length of stay when the recipient's condition or treatment schedule changes.

§ 456.135 Continued stay review process.

The UR plan must porovide that—
(a) Review of continued stay cases is conducted by—
(1) The UR committee;
(2) A subgroup of the UR committee; or
(3) A designee of the UR committee;
(b) The committee, subgroup or designee reviews a recipient's continued stay on or before the expiration of each assigned continued stay review date;
(c) For each continued stay of a recipient in the hospital, the committee, subgroup or designee reviews and evaluates the documentation described under § 456.111 against the criteria developed under § 456.132 and applies close professional scrutiny to cases selected under § 456.129(b);
(d) If the committee, subgroup, or designee finds that a recipient's continued stay in the hospital is needed, the committee assigns a new continued stay review date in accordance with § 456.133;
(e) If the committee, subgroup, or designee finds that a continued stay case does not meet the criteria, the committee or a subgroup that includes at least one physician reviews the case to decide the need for continued stay;
(f) If the committee or subgroup making the review under paragraph (e) of this section finds that a continued stay is not needed, it notifies the recipient's attending physician and gives him an opportunity to present his reviews before it makes a final decision on the need for the continued stay;
(g) If the attending physician does not present additional information or clarification of the need for the continued stay, the decision of the committee or subgroup is final; and
(h) If the attending physician presents additional information or clarification, at least two physician members of the committee review the need for the continued stay. If they find that the recipient no longer needs inpatient hospital services, their decision is final.

§ 456.136 Notification of adverse decision.

The UR plan must provide that written notice of any adverse final decision on the need for continued stay under § 456.135 (f) through (h) is sent to—
(a) The hospital administrator;
(b) The attending physician;
(c) The medicaid agency;
(d) The recipient; and
(e) If possible, the next of kin or sponsor.

§ 456.137 Time limits for final decision and notification of adverse decision.

The UR plan must provide that—
(a) The committee makes a final decision on a recipient's need for continued stay and gives notice under § 456.136 of an adverse final decision within 2 working days after the assigned continued stay review dates, except as required under paragraph (b) of this section.
(b) If the committee makes an adverse final decision on a recipient's need for continued stay before the assigned review date, the committee gives notice under § 456.136 within 2 working days after the date of the final decision.

UR Plan: Medical Care Evaluation Studies

§ 456.141 Purpose and general description.

(a) The purpose of medical care evaluation studies is to promote the most effective and efficient use of available health facilities and services consistent with patient needs and professionally recognized standards of health care.
(b) Medical care evaluation studies—
(1) Emphasize identification and analysis of patterns of patient care; and
(2) Suggest appropriate changes needed to maintain consistently high quality patient care and effective and efficient use of services.

§ 456.142 UR plan requirements for medical care evaluation studies.

(a) The UR plan must describe the methods that the committee uses to select and conduct medical care evaluation studies under paragraph (b)(1) of this section.
(b) The UR plan must provide that the UR committee—
(1) Determines the methods to be used in selecting and conducting medical care evaluation studies in the hospital;
(2) Documents for each study—
(i) Its results; and
(ii) How the results have been used to make changes to improve the quality of care and promote more effective and efficient use of facilities and services;
(3) Analyzes its findings for each study; and
(4) Takes action as needed to—
(i) Correct or investigate further any deficiencies or problems in the review process for admissions or continued stay cases;
(ii) Recommend more effective and efficient hospital care procedures; or
(iii) Designate certain providers or categories of admissions for review prior to admission.

§ 456.143 Content of medical care evaluation studies.

Each medical care evaluation study must—
(a) Indentify and analyze medical or administrative factors related to the hospital's patient care;
(b) Include analysis of at least the following:
(1) Admissions;
(2) Durations of stay;
(3) Ancillary services furnished, including drugs and biologicals;
(4) Professional services performed in the hospital; and
(c) If indicated, contain recommendations for changes beneficial to patients, staff, the hospital, and the community.

§ 456.144 Data sources for studies.

Data that the committee uses to perform studies must be obtained from one or more of the following sources:
(a) Medical records or other appropriate hospital data;
(b) External organizations that compile statistics, design profiles, and produce other comparative data;
(c) Cooperative endeavors with—
(1) PSRO's;
(2) Fiscal agents;
(3) Other service providers; or
(4) Other appropriate agencies.

§ 456.145 Number of studies required to be performed.

The hospital must, at least, have one study in progress at any time and complete one study each calendar year.

Subpart D—Utilization Control: Mental Hospitals

§ 456.150 Scope.

This subpart prescribes requirements for control of utilization of inpatient services in mental hospitals, including requirements concerning—
(a) Certification of need for care;
(b) Medical evaluation and admission review;
(c) Plan of care; and
(d) Utilization review plans.

§ 456.151 Definitions.

As used in this subpart:
"Medical care appraisal norms" or "norms" means numerical or statistical measures of usually observed performance.
"Medical care criteria" or "criteria" means predetermined elements against which aspects of the quality of a medical service may be compared. These criteria are developed by health professionals relying on their expertise and the professional health care literature.

V 43 / 190 SE 29 78

CERTIFICATION OF NEED FOR CARE

§ 456.160 Physician certification and recertification of need for inpatient care.

(a) A physician must certify and recertify for each applicant or recipient that inpatient services in a mental hospital are or were needed.

(b) The certification must be made at the time of admission or, if an individual applies for assistance while in a mental hospital, before the Medicaid agency authorizes payment.

(c) Recertifications must be made at least every 60 days after certification.

MEDICAL, PSYCHIATRIC, AND SOCIAL EVALUATIONS AND ADMISSION REVIEW

§ 456.170 Medical, psychiatric, and social evaluations.

(a) Before admission to a mental hospital or before authorization for payment, the attending physician or staff physician must make a medical evaluation of each applicant's or recipient's need for care in the hospital; and appropriate professional personnel must make a psychiatric and social evaluation.

(b) Each medical evaluation must include—

(1) Diagnoses;

(2) Summary of present medical findings;

(3) Medical history;

(4) Mental and physical functional capacity;

(5) Prognoses; and

(6) A recommendation by a physician concerning—

(i) Admission to the mental hospital; or

(ii) Continued care in the mental hospital for individuals who apply for Medicaid while in the mental hospital.

§ 456.171 Medicaid agency review of need for admission.

Medical and other professional personnel of the medicaid agency or its designess must evaluate each applicant's or recipient's need for admission by reviewing and assessing the evaluations required by § 456.170.

PLAN OF CARE

§ 456.180 Individual written plan of care.

(a) Before admission to a mental hospital or before authorization for payment, the attending physician or staff physician must establish a written plan of care for each applicant or recipient.

(b) The plan of care must include—

(1) Diagnoses, symptoms, complaints, and complications indicating the need for admission;

(2) A description of the functional level of the individual;

(3) Objectives;

(4) Any orders for—

(i) Medications;

(ii) Treatments;

(iii) Restorative and rehabilitative services;

(iv) Activities;

(v) Therapies;

(vi) Social services;

(vii) Diet; and

(viii) Special procedures recommended for the health and safety of the patient;

(5) Plans for continuing care, including review and modification to the plan of care; and

(6) Plans for discharge.

(c) The attending or staff physician and other personnel involved in the recipient's care must review each plan of care at least every 90 days.

§ 456.181 Reports of evaluations and plans of care.

A written report of each evaluation and plan of care must be entered in the applicant's or recipient's record—

(a) At the time of admission; or

(b) If the individual is already in the facility, immediately upon completion of the evaluation or plan.

UTILIZATION REVIEW (UR) PLAN: GENERAL REQUIREMENTS

§ 456.200 Scope.

Sections 456.201 through 456.245 of this subpart prescribe requirements for a written utilization review (UR) plan for each mental hospital providing medicaid services. Sections 456.205 and 456.206 prescribe administrative requirements; §§ 456.211 through 456.213 prescribe informational requirements; §§ 456.231 through 456.238 prescribe requirements for continued stay review; and §§ 456.241 through 456.245 prescribe requirements for medical care evaluation studies.

§ 456.201 UR plan required for inpatient mental hospital services.

(a) The State plan must provide that each mental hospital furnishing inpatient services under the plan has in effect a written UR plan that provides for review of each recipient's need for the services that the mental hospital furnishes him.

(b) Each written mental hospital UR plan must meet the requirements under §§ 456.201 through 456.245.

UR PLAN: ADMINISTRATIVE REQUIREMENTS

§ 456.205 UR committee required.

The UR plan must—

(a) Provide for a committee to perform UR required under this subpart;

(b) Describe the organization, composition, and functions of this committee; and

(c) Specify the frequency of meetings of the committee.

§ 456.206 Organization and composition of UR committee; disqualification from UR committee membership.

(a) For the purpose of this subpart, "UR committee" includes any group organized under paragraphs (b) and (c) of this section.

(b) The UR committee must be composed of two or more physicians, one of whom is knowledgeable in the diagnosis and treatment of mental diseases, and assisted by other professional personnel.

(c) The UR committee must be constituted as—

(1) A committee of the mental hospital staff;

(2) A group outside the mental hospital staff, established by the local medical or osteopathic society and at least some of the hospital and SNF's in the locality; or

(3) A group capable of performing utilization review, established and organized in a manner approved by the Secretary.

(d) The UR committee may not include any individual who—

(1) Is directly responsible for the care of patients whose care is being reviewed; or

(2) Has a financial interest in any mental hospital.

UR PLAN: INFORMATIONAL REQUIREMENTS

§ 456.211 Recipient information required for UR.

The UR plan must provide that each recipient's record includes information needed to perform UR required under this subpart. This information must include, at least, the following:

(a) Identification of the recipient.

(b) The name of the recipient's physician.

(c) Date of admission, and dates of application for and authorization of medicaid benefits if application is made after admission.

(d) The plan of care required under § 456.172.

(e) Initial and subsequent continued stay review dates described under §§ 456.233 and 456.234.

(f) Reasons and plan for continued stay, if the attending physician believes continued stay is necessary.

(g) Other supporting material that the committee believes appropriate to be included in the record.

§ 456.212 Records and reports.

The UR plan must describe—

(a) The types of records that are kept by the committee; and

(b) The type and frequency of committee reports and arrangements for their distribution to appropriate individuals.

§ 456.213 Confidentiality.

The UR plan must provide that the identities of individual recipients in all UR records and reports are kept confidential.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

§ 456.231 Continued stay review required.

The UR plan must provide for a review of each recipient's continued stay in the mental hospital to decide whether it is needed, in accordance with the requirements of §§ 456.232 through 456.238.

§ 456.232 Evaluation criteria for continued stay.

The UR plan must provide that—

(a) The committee develops written medical care criteria to assess the need for continued stay.

(b) The committee develops more extensive written criteria for cases that its experience shows are—

(1) Associated with high costs;

(2) Associated with the frequent furnishing of excessive services; or

(3) Attended by physicians whose patterns of care are frequently found to be questionable.

§ 456.233 Initial continued stay review date.

The UR plan must provide that—

(a) When a recipient is admitted to the mental hospital under admission review requirements of this subpart, the committee assigns a specified date by which the need for his continued stay will be reviewed;

(b) If an individual applies for medicaid while in the mental hospital, the committee assigns the initial continued stay review date within 1 working day after the mental hospital is notified of the application for medicaid;

(c) The committee bases its assignment of the initial continued stay review date on—

(1) The methods and criteria required to be described under § 456.235(a);

(2) The individual's condition; and

(3) The individual's projected discharge date;

(d) (1) The committee uses any available appropriate regional medical care appraisal norms, such as those developed by abstracting services or third party payors, to assign the initial continued stay review date;

(2) These norms are based on current and statistically valid data on duration of stay in mental hospitals for patients whose characteristics, such as age and diagnosis, are similar to those of the individual whose need for continued stay is being reviewed;

(3) If the committee uses norms to assign the initial continued stay review date, the number of days between the individual's admission and the initial continued stay review date is no greater than the number of days reflected in the 50th percentile of the norms. However, the committee may assign a later review date if it documents that the later date is more appropriate;

(e) The initial continued stay review date is not in any case later than 30 days after admission of the individual or notice to the mental hospital of his application for medicaid; and

(f) The committee insures that the initial continued stay review date is recorded in the individual's record.

§ 456.234 Subsequent continued stay review dates

The UR plan must provide that—

(a) The committee assigns subsequent continued stay review dates in accordance with §§ 456.235(a) and 456.233;

(b) The committee assigns a subsequent continued stay review date at least every 90 days each time it decides under § 456.236 that the continued stay is needed; and

(c) The committee insures that each continued stay review date it assigns is recorded in the recipient's record.

§ 456.235 Description of methods and criteria: Continued stay review dates; length of stay modification.

The UR plan must describe—

(a) The methods and criteria, including norms if used, that the commitee uses to assign initial and subsequent continued stay review dates under §§ 456.233 and 456.234 of this subpart; and

(b) The methods that the committee uses to modify an approved length of stay when the recipient's condition or treatment schedule changes.

§ 456.236 Continued stay review process.

The UR plan must provide that—

(a) Review of continued stay cases is conducted by—

(1) The UR committee;

(2) A subgroup of the UR committee; or

(3) A designee of the UR committee;

(b) The committee, subgroup or designee reviews a recipient's continued stay on or before the expiration of each assigned continued stay review date;

(c) For each continued stay of a recipient in the mental hospital, the committee, subgroup or designee reviews and evaluates the documentation described under § 456.211 against the criteria developed under § 456.232 and applies close professional scrutiny to cases described under § 456.232(b).

(d) If the committee, subgroup of designee finds that a recipient's continued stay in the mental hospital is needed, the committee assigns a new continued stay review date in accordance with § 456.234;

(e) If the committee, subgroup or designee finds that a continued stay case does not meet the criteria, the committee or a subgroup that includes at least one physician reviews the case to decide the need for continue stay;

(f) If the committee or subgroup making the review under paragraph (e) of this section finds that a continued stay is not needed, it notifies the recipient's attending or staff physician and gives him an opportunity to present his views before it makes a final decision on the need for the continued stay;

(g) If the attending or staff physician does not present additional information or clarification of the need for the continued stay, the decision of the committe or subgroup is final; and

(h) If the attending of staff physician presents additional information or clarification, at least two physician members of the committee, one of whom is knowledgeable in the treatment of mental diseases, review the need for the continued stay. If they find that the recipient no longer needs inpatient mental hospital services, their decision is final.

§ 456.237 Notification of adverse decision.

The UR plan must provide that written notice of any adverse final decision on the need for continued stay under § 456.236(f) through (h) is sent to—

(a) The hospital administrator;

(b) The attending or staff physician;

(c) The medicaid agency;

(d) The recipient; and

(e) If possible, the next of kin or sponsor.

§ 456.238 Time limits for final decision and notification of adverse decision.

The UR plan must provide that—

(a) The committee makes a final decision on a recipient's need for continued stay and gives notice under § 456.237 of an adverse decision within 2 working days after the assigned continued stay review date, except as required under paragraph (b) of this section.

(b) If the committee makes an adverse final decision on a recipient's need for continued stay before the assigned review date, the committee gives notice under § 456.237 within 2 working days after the date of the final decision.

UR PLAN: MEDICAL CARE EVALUATION STUDIES

§ 456.241 Purpose and general description.

(a) The purpose of medical care evaluation studies is to promote the most effective and efficient use of available health facilities and services consistent with patient needs and profession-

V 43 / 190 SE 29 78 UMI

ally recognized standards of health care.

(b) Medical care evaluation studies—

(1) Emphasize identification and analysis of patterns of patient care; and

(2) Suggest appropriate changes needed to maintain consistently high quality patient care and effective and efficient use of services.

§ 456.242 UR plan requirements for medical care evaluation studies.

(a) The UR plan must describe the methods that the committee uses to select and conduct medical care evaluation studies under paragraph (b)(1) of this section.

(b) The UR plan must provide that the UR committee—

(1) Determines the methods to be used in selecting and conducting medical care evaluation studies in the mental hospital;

(2) Documents for each study—

(i) Its results; and

(ii) How the results have been used to make changes to improve the quality of care and promote more effective and efficient use of facilities and services;

(3) Analyzes its findings for each study; and

(4) Takes action as needed to—

(i) Correct or investigate further any deficiencies or problems in the review process; or

(ii) Recommend more effective and efficient hospital care procedures.

§ 456.243 Content of medical care evaluation studies.

Each medical care evaluation study must—

(a) Identify and analyze medical or administrative factors related to the mental hospital's patient care;

(b) Include analysis of at least the following:

(1) Admissions.

(2) Durations of stay.

(3) Ancillary services furnished, including drugs and biologicals.

(4) Professional services performed in the hospital; and

(c) If indicated, contain recommendations for change beneficial to patients, staff, the hospital, and the community.

§ 456.244 Data sources for studies.

Data that the committee uses to perform studies must be obtained from one or more of the following sources:

(a) Medical records or other appropriate hospital data.

(b) External organizations that compile statistics, design profiles, and produce other comparative data.

(c) Cooperative endeavors with—

(1) PSRO's;

(2) Fiscal agents;

(3) Other service providers; or

(4) Other appropriate agencies.

§ 456.245 Number of studies required to be performed.

The mental hospital must, at least, have one study in progress at any time and complete one study each calendar year.

Subpart E—Utilization Control: Skilled Nursing Facilities

§ 456.250 Scope.

(a) This subpart prescribes requirements for control of utilization of skilled nursing facility (SNF) services including requirements concerning—

(1) Certification of need for care;

(2) Medical evaluation and admission review;

(3) Plan of care;

(4) Utilization review plans; and

(5) Discharge plans.

§ 456.251 Definitions.

"Skilled nursing facility services" means those items and services defined in §§ 440.40 and 440.140 of this subchapter, but excludes those services if they are provided in Christian Science sanitoria.

"Medical care criteria" means predetermined elements against which aspects of the quality of a medical service may be compared. These criteria are developed by health professionals relying on their expertise and the professional health care literature.

Certification of Need for Care

§ 456.260 Physician certification and recertification of need for inpatient care.

(a) A physician must certify and recertify for each applicant or recipient that SNF services are or were needed.

(b) The certification must be made at the time of admission or, if an individual applies for assisance while in a SNF, before the medicaid agency authorizes payment.

(c) Recertification must be made at least every 60 days after certification.

Medical, Psychiatric, and Social Evaluation, and Admission Review

§ 456.270 Medical, psychiatric, and social evaluations.

(a) Before admission to a SNF or before authorization for payment, the attending physician must make—

(1) A medical evaluation of each applicant's or recipient's need for care in the SNF; and

(2) A plan of rehabilitation, where applicable.

(b) In a SNF that cares primarily for mental patients, appropriate professional personnel must make a psychiatric and a social evaluation of need for care.

(c) Each medical evaluation must include—

(1) Diagnoses;

(2) Summary of present medical findings;

(3) Medical history;

(4) Mental and physical functional capacity;

(5) Prognoses; and

(6) A recommendation by a physician concerning—

(i) Admission to the SNF; or

(ii) Continued care in the SNF for individuals who apply for medicaid while in the facility.

§ 456.271 Medicaid agency review of need for admission.

Medical and other professional personnel of the medicaid agency or its designees must evaluate each applicant's or recipient's need for admission by reviewing and assessing the evaluations required by § 456.270.

Plan of Care

456.280 Individual written plan or care.

(a) Before admission to a SNF or before authorization for payment, the attending physician must establish a written plan of care for each applicant or recipient in a SNF.

(b) The plan of care must include—

(1) Diagnoses, symptoms, complaints and complications indicating the need for admission;

(2) A description of the functional level of the individual;

(3) Objectives;

(4) Any orders for—

(i) Medications;

(ii) Treatments;

(iii) Restorative and rehabilitative services;

(iv) Activities;

(v) Therapies;

(vi) Social services;

(vii) Diet; and

(viii) Special procedures recommended for the health and safety of the patient;

(5) Plans for continuing care, including review and modification to the plan of care; and

(6) Plans for discharge.

(c) The attending or staff physician and other personnel involved in the recipient's care must review each plan of care at least every 60 days.

§ 456.281 Reports of evaluations and plans of care.

A written report of each evaluation and plan of care must be entered in the applicant's or recipient's record—

(a) At the time of admission; or

(b) If the individual is already in the SNF, immediately upon completion of the evaluation or plan.

Utilization Review (UR) Plan: General Requirement

§ 456.300 Scope.

Sections 456.301 through 456.345 of this subpart prescribe requirements for a written utilization review (UR) plan for each SNF providing medicaid services. Sections 456.305 and 456.306 prescribe administrative requirements; §§ 456.311 through 456.313 prescribe informational requirements; §§ 456.331 through 456.338 prescribe requirements for continued stay review; and §§ 456.341 through 456.345 prescribe requirements for medical care evaluation studies.

§ 456.301 UR plan required for skilled nursing facility services.

(a) The State plan must provide that each SNF furnishing inpatient services under the plan has in effect a written UR plan that provides for review of each recipient's need for the services that the SNF furnishes him.

(b) Each written SNF UR plan must meet the requirements under §§ 456.301 through 456.345.

UR Plan: Administrative Requirements

§ 456.305 UR committee required.

The UR plan must—

(a) Provide for a committee to perform UR required under this subpart;

(b) Describe the organization, composition, and functions of this committee; and

(c) Specify the frequency of meetings of the committee.

§ 456.306 Organization and composition of UR committee; disqualification from UR committee membership.

(a) For the purpose of this subpart, "UR committee" includes any group organized under paragraphs (b) and (c) of this section.

(b) The UR committee must be composed of two or more physicians and assisted by other professional personnel and, in a SNF that cares primarily for mental patients, include at least one physician member who is knowledgeable in the diagnosis and treatment of mental diseases.

(c) The UR committee must be constituted as—

(1) A committee of individuals with SNF staff privileges;

(2) A group outside the SNF established by the local medical or osteopathic society and at least some of the hospitals and SNFs in the locality; or

(3) A group capable of performing utilization review and established and organized in a manner approved by the Secretary.

(d) The UR committee may not include any individual who—

(1) Is directly responsible for the care of patients whose care is being reviewed;

(2) Is employed by the SNF; or

(3) Has a financial interest in any SNF.

UR Plan: Informational Requirements

§ 456.311 Recipient information required for UR.

The UR plan must provide that each recipient's record includes information needed to perform UR required under this subpart. This information must include, at least, the following:

(a) Identification of the recipient.

(b) The name of the recipient's physician.

(c) Date of admission and dates of application for and authorization of medicaid benefits if application is made after admission.

(d) The plan of care required under § 456.272.

(e) Initial and subsequent continued stay review dates described under §§ 456.333 and 456.334.

(f) Reasons and plan for continued stay if the attending physician believes continued stay is necessary.

(g) Other supporting material that the committee believes appropriate to be included in the record.

§ 456.312 Records and reports.

The UR plan must describe—

(a) The types of records that are kept by the committee; and

(b) The type and frequency of committee reports, and arrangements for their distribution to appropriate individuals.

§ 456.313 Confidentiality.

The UR plan must provide that the identities of individual recipients in all UR records and reports are kept confidential.

UR Plan: Review of Need for Continued Stay

§ 456.331 Continued stay review required.

The UR plan must provide for a review of each recipient's continued stay in the SNF to decide whether it is needed, in accordance with the requirements of §§ 456.332-456.338.

§ 456.332 Evalnation criteria for continued stay.

The UR plan must provide that—

(a) The committee develops written medical care criteria to assess the need for continued stay; and

(b) The committee develops more extensive written criteria for cases that its experience shows are—

(1) Associated with high costs;

(2) Associated with the frequent furnishing of excessive services; or

(3) Attended by physicians whose patterns of care are frequently found to be questionable.

§ 456.333 Initial continued stay review date.

The UR plan must provide that—

(a) When a recipient is admitted to the SNF under admission review requirements of this subpart, the committee assigns a specified date by which the need for his continued stay will be reviewed;

(b) If an individual applies for medicaid while in the SNF, the committee assigns the initial continued stay review date within one working day after the SNF is notified of the application for medicaid;

(c) The committee bases its assignment of the initial continued stay review date on the methods and criteria required to be described under § 456.335(a);

(d) The initial continued stay review date is either—

(1) Not later than 90 days after the date of the individual's admission or notice to the SNF of his application for medicaid, if the date is established using specific periods for diagnostic categories or categories based on functional capabilities; or

(2) Not later than 30 days after the date of the individual's admission or notice of application, if the date is established by another method; and

(e) The committee ensures that the initial continued stay review date is recorded in the individual's record.

§ 456.334 Subsequent continued stay review dates.

The UR plan must provide that—

(a) The committee assigns subsequent continued stay review dates in accordance with §§ 456.333 and 456.335(a).

(b) The committee assigns subsequent continued stay review dates each time it decides under § 456.336 that the continued stay is needed—

(1) At least every 90 days if the dates are established using specific periods for diagnostic categories based on functional capabilities; or

(2) At least every 30 days for the first 90 days and at least every 90 days thereafter if the dates are established by another method; and

(c) The committee ensures that each continued stay review date that it assigns is recorded in the recipient's record.

§ 456.335 Description of methods and criteria: Continued stay review dates; lengh of stay modification.

The UR plan must describe—

(a) The methods and criteria that the committee uses to assign initial and subsequent continued stay review dates under §§ 456.333 and 456.334; and

V 43 / 190 SEP 29 78

(b) The methods used by the committee to modify an approved length of stay when the recipient's condition or treatment schedule changes.

§ 456.336 Continued stay review process.

The UR plan must provide that—

(a) Review of continued stay cases is conducted by—

(1) The UR committee;

(2) A subgroup of the UR committee; or

(3) A designee of the UR committee;

(b) The committee, subgroup or designee reviews a recipient's continued stay on or before the expiration of each assigned continued stay review date;

(c) For each continued stay of a recipient in the SNF, the committee, subgroup or designee reviews and evaluates the documentation described under § 456.311 against the criteria developed under § 456.332 and applies close professional scrutiny to cases described under § 456.332(b);

(d) If the committee, subgroup or designee finds that the recipient's continued stay in the SNF is needed, the committee assigns a new continued stay review date in accordance with § 456.334;

(e) If the committee, subgroup or designee finds that a continued stay does not meet the criteria, the committee or a subgroup that includes at least one physician reviews the case to decide the need for continued stay;

(f) If the committee or subgroup making the review under paragraph (e) of this section finds that a continued stay is not needed, it notifies the recipient's attending physician and gives him an opportunity to present his views before it makes a final decision on the need for the continued stay;

(g) If the attending physician does not present additional information or clarification of the need for the continued stay, the decision of the committee of subgroup is final; and

(h) If the attending physician presents additional information or clarification, at least two physician members of the committee review the need for the continued stay. In a SNF that cares primarily for mental patients, one of these two physicians must be knowledgeable in the treatment of mental diseases. If they find that the recipient no longer needs SNF services, their decision is final.

§ 456.337 Notification of adverse decision.

The UR plan must provide that written notice of any adverse final decision on the need for continued stay under § 456.336 (f) through (h) is sent to—

(a) The SNF administrator;

(b) The attending physician;

(c) The medicaid agency;

(d) The recipient; and

(e) If possible, the next of kin or sponsor.

§ 456.338 Time limits for final decision and notification of adverse decision.

The UR plan must provide that—

(a) The committee makes a final decision on a recipient's need for continued stay and gives notice under § 456.337 of an adverse decision within three working days after the assigned review date, except as required under paragraph (b) of the section.

(b) If the committee makes an adverse final decision on a recipient's need for continued stay before the assigned review date, the committee gives notice under § 456.337 within 2 working days after the date of the final decision.

UR Plan: Medical Care Evaluation Studies

§ 456.341 Purpose and general description.

(a) The purpose of medical care evaluation studies is to promote the most effective and efficient use of available health facilities and services consistent with patient needs and professionally recognized standards of health care.

(b) Medical care evaluation studies—

(1) Emphasize identification and analyses of patterns of patient care; and

(2) Suggest appropriate changes needed to maintain consistently high quality patient care and effective and efficient use of services.

§ 456.342 UR plan requirement for medical care evaluation studies.

(a) The UR plan must describe the methods that the committee uses to select and conduct medical care evaluation studies under paragraph (b)(1) of this section.

(b) The UR plan must provide that the UR committee—

(1) Determines the methods to be used in selecting and conducting medical care evaluation studies in the SNF;

(2) Documents for each study—

(i) Its results; and

(ii) How the results have been used to make changes to improve the quality of care and promote more effective and efficient use of facilities and services;

(3) Analyzes its findings for each study; and

(4) Takes action as needed to—

(i) Correct or investigate further any deficiencies or problems in the review process; or

(ii) Recommend more effective and efficient skilled nursing care procedures.

§ 456.343 Content of medical care evaluation studies.

Each medical care evaluation study must—

(a) Identify and analyze medical or administrative factors related to the SNF's patient care;

(b) Include analysis of at least the following:

(1) Admissions.

(2) Durations of stay.

(3) Ancillary services furnished, including drugs and biologicals.

(4) Professional services performed in the SNF; and

(c) If indicated, contain recommendations for change beneficial to patients, staff, the SNF and the community.

§ 456.344 Data sources for studies.

Data that the committee uses to perform studies must be obtained from one or more of the following sources:

(a) Medical records or other appropriate data.

(b) External organizations that compile statistics, design profiles, and produce other comparative data.

(c) Cooperative endeavors with—

(1) PSRO's;

(2) Fiscal agents;

(3) Other providers of services; or

(4) Other appropriate agencies.

§ 456.345 Number of studies required to be performed.

The SNF must, at least, have one study in progress at any time and complete one study each calendar year.

Discharge Plan

§ 456.346 Discharge plan.

(a) The UR committee must review each recipient's discharge plan.

(b) Each discharge plan must insure that the recipient has a planned program of post-discharge continuing care that takes his needs into account.

§ 456.347 Discharge planning procedures.

Each SNF must maintain discharge planning procedures that describe the following:

(a) The staff member of the SNF or the health, social, or welfare agency responsible for discharge planning.

(b) The authority of the member or agency, and the methods used in discharge planning, including the relationship with the SNF's staff.

(c) The time allowed for determining each recipient's need for discharge planning. The period must not be longer than 7 days after the day of admission.

(d) The period after which each recipient's discharge plan will be reevaluated.

(e) The local resources available to the SNF, the recipient, and the attending physician to assist in developing and implementing discharge plans.

(f) The provisions for periodic review and reevaluation of the SNF's discharge planning program.

§ 456.348 Information about discharged recipients.

(a) When a recipient is discharged, the SNF must provide information that will insure the optimal continuity of care, such as—

(1) Current information relative to diagnoses;

(2) Prior treatment;

(3) Rehabilitation potential;

(4) Physician advice concerning immediate care; and

(5) Pertinent social information.

(b) This information must be provided to those persons who are responsible for the recipient's post-discharge care.

Subpart F—Utilization Control: Intermediate Care Facilities

§ 456.350 Scope.

This subpart prescribes requirements for control of utilization of intermediate care facility (ICF) services including requirements concerning—

(a) Certification of need for care;

(b) Medical evaluation and admission review;

(c) Plan of care; and

(d) Utilization review plans.

§ 456.351 Definition.

As used in this subpart:

"Intermediate care facility services" means those items and services furnished in an intermediate care facility as defined in §§ 440.140 and 440.150 of this subchapter, but excludes those services if they are provided in Christian Science sanitoria.

Certification of Need for Care

§ 456.360 Physician certification and recertification of need for inpatient care.

(a) A physician must certify and recertify for each applicant or recipient that ICF services are or were needed.

(b) The certification must be made at the time of admission or, if an individual applies for assistance while in an ICF, before the medicaid agency authorizes payment.

(c) Recertifications must be made at least every 60 days after certification.

Medical, Psychological, and Social Evaluations and Admission Review

§ 456.370 Medical, psychological, and social evaluations.

(a) Before admission to an ICF or before authorization for payment, an interdisciplinary team of health professionals must make a comprehensive medical and social evaluation and, where appropriate, a psychological evaluation of each applicant's or recipient's need for care in the ICF.

(b) In an institution for the mentally retarded or persons with related conditions, the team must also make a psychological evaluation of need for care. The psychological evaluation must be made before admission or authorization of payment, but not more than three months before admission.

(c) Each evaluation must include—

(1) Diagnoses;

(2) Summary of present medical, social, and where appropriate, developmental findings;

(3) Medical and social family history;

(4) Mental and physical functional capacity;

(5) Prognoses;

(6) Kinds of services needed;

(7) Evaluation by an agency worker of the resources available in the home, family and community; and

(8) A recommendation concerning—

(i) Admission to the ICF; or

(ii) Continued care in the ICF for individuals who apply for medicaid while in the ICF.

§ 456.371 Exploration of alternative services.

If the comprehensive evaluation recommends ICF services for an applicant or recipient whose needs could be met by alternative services that are currently unavailable, the facility must enter this fact in the recipient's record and begin to look for alternative services.

§ 456.372 Medicaid agency review of need for admission.

Medical and other professional personnel of the medicaid agency or its designees must evaluate each applicant's or recipient's need for admission by reviewing and assessing the evaluations required by § 456.370.

Plan of Care

§ 456.380 Individual written plan of care.

(a) Before admission to an ICF or before authorization for payment, a physician must establish a written plan of care for each applicant or recipient.

(b) The plan of care must include—

(1) Diagnoses, symptoms, complaints, and complications indicating the need for admission;

(2) A description of the functional level of the individual;

(3) Objectives;

(4) Any orders for—

(i) Medications;

(ii) Treatments;

(iii) Restorative and rehabilitative services;

(iv) Activities;

(v) Therapies;

(vi) Social services;

(vii) Diet; and

(viii) Special procedures designed to meet the objectives of the plan of care;

(5) Plans for continuing care, including review and modification of the plan of care; and

(6) Plans for discharge.

(c) The team must review each plan of care at least every 90 days.

§ 456.381 Reports of evaluations and plans of care.

A written report of each evaluation and plan of care must be entered in the applicant's or recipient's record—

(a) At the time of admission; or

(b) If the individual is already in the ICF, immediately upon completion of the evaluation or plan.

Utilization Review (UR) Plan: General Requirement

§ 456.400 Scope.

Sections 456.401 through 456.438 of this subpart prescribe requirements for a written utilitzation review (UR) plan for each ICF providing medicaid services. Sections 456.405 through 456.407 prescribe administrative requirements; §§ 456.411 through 456.413 prescribe informational requirements; and §§ 456.431 through 456.438 prescribe requirements for continued stay review.

§ 456.401 State plan UR requirements and options; UR plan required for intermediate care facility services.

(a) The State plan must provide that—

(1) UR is performed for each ICF that furnishes inpatient services under the plan;

(2) Each ICF has on file a written UR plan that provides for review of each recipient's need for the services that the ICF furnishes him; and

(3) Each written ICF UR plan meets requirements under §§ 456.401 through 456.438.

(b) The State plan must specify the method used to perform UR, which may be—

(1) Review conducted by the facility;

(2) Direct review in the facility by individuals—

(i) Employed by the medical assistance unit of the Medicaid agency; or

(ii) Under contract to the medicaid agency; or

(3) Any other method.

UR Plan: Administrative Requirements

§ 456.405 Description of UR review function: How and when.

The UR plan must include a written description of—

(a) How UR is performed in the ICF; and

(b) When UR is performed.

V 43 / 190 SEP 29 1978

§ 456.406 Description of UR review function: Who performs UR; disqualification from performing UR.

(a) The UR plan must include a written description of who performs UR in the ICF.

(b) UR must be performed using a method specified under § 456.401(b) by a group of professional personnel that includes—

(1) At least one physician;

(2) In an ICF that cares primarily for mental patients, at least one individual knowledgeable in the treatment of mental diseases; and

(3) In an institution for the mentally retarded, a least one individual knowledgeable in the treatment of mental retardation.

(c) The group performing UR may not include any individual who—

(1) Is directly responsible for the care of the recipient whose care is being reviewed;

(2) Is employed by the ICF; or

(3) Has a financial interest in any ICF.

§ 456.407 UR responsibilties of administrative staff.

The UR plan must describe—

(a) The UR support responsibilities of the ICF's administrative staff; and

(b) Procedures used by the staff for taking needed corrective action.

UR PLAN: INFORMATIONAL REQUIREMENTS

§ 456.411 Receipient information required for UR.

The UR plan must provide that each recipient's record include information needed to perform UR required under this subpart. This information must include, at least, the following:

(a) Identification of the recipient.

(b) The name of the recipient's physician.

(c) The name of the qualified mental retardation professional (as defined under § 442.461 of this subchapter), if applicable.

(d) Date of admission, and dates of application for and authorization of medicaid benefits if application is made after admission.

(e) The plan of care required under § 456.372;

(f) Initial and subsequent continued stay review dates described under §§ 456.433 and 456.434.

(g) Reasons and plan for continued stay, if the attending physician or qualified mental retardation professional believes continued stay is necessary.

(h) Other supporting material that the UR group believes appropriate to be included in the record.

§ 456.412 Records and reports.

The UR plan must describe—

(a) The types of records that are kept by the group performing UR; and

(b) The type and frequency of reports made by the UR group, and arrangements for distribution of the reports to appropriate individuals.

§ 456.413 Confidentiality.

The UR plan must provide that the identities of individual recipients in all UR records and reports are kept confidential.

UR PLAN: REVIEW OF NEED FOR CONTINUED STAY

§ 456.431 Continued stay review required.

(a) The UR plan must provide for a review of each recipients continued stay in the ICF at least every 6 months to decide whether it is needed.

(b) The UR plan requirement for continued stay review may be met by—

(1) Reviews that are performed in accordance with the requirements of §§ 456.432 through 456.437; or

(2) Reviews that meet on-site inspection requirements under Subpart I if—

(i) The composition of the independent professional review team under Subpart I meets the requirements of § 456.406; and

(ii) Reviews are conducted as frequently as required under §§ 456.333 and 456.334.

§ 456.432 Evaluation criteria for continued stay.

The UR plan must provide that—

(a) The group performing UR develops written criteria to assess the need for continued stay.

(b) The group develops more extensive written criteria for cases that its experience shows are—

(1) Associated with high costs;

(2) Associated with the frequent furnishing of excessive services; or

(3) Attended by physicians whose patterns of care are frequently found to be questionable.

§ 456.433 Initial continued stay review date.

The UR plan must provide that—

(a) When a recipient is admitted to the ICF under admission review requirements of this subpart, the group performing UR assigns a specified date by which the need for his continued stay will be reviewed;

(b) The group performing UR bases its assignment of the initial continued stay review date on the methods and critieria required to be described under § 456.435(a);

(c) The initial continued stay review date is—

(1) Not later than 6 months after admission; or

(2) Earlier than 6 months after admission, if indicated at the time of admission; and

(d) The group performing UR insures that the initial continued stay review date is recorded in the recipient's record.

§ 456.434 Subsequent continued stay review dates.

The UR plan must provide that—

(a) The group performing UR assigns subsequent continued stay review dates in accordance with § 456.435.

(b) The group assigns a subsequent continued stay review date each time it decides under § 456.436 that the continued stay is needed—

(1) At least every 6 months; or

(2) More frequently than every six months if indicated at the time of continued stay review; and

(c) The group insures that each continued stay review date it assigns is recorded in the recipient's record.

§ 456.435 Description of methods and criteria: Continued stay review dates.

The UR plan must describe the methods and criteria that the group performing UR uses to assign initial and subsequent continued stay review dates under §§ 456.433 and 456.434.

§ 456.436 Continued stay review process.

The UR plan must provide that—

(a) Review of continued stay cases is conducted by—

(1) The group performing UR; or

(2) A designee of the UR group;

(b) The group or its designee reviews a recipient's continued stay on or before the expiration of each assigned continued stay review date.

(c) For each continued stay of a recipient in the ICF, the group or its designee reviews and evaluates the documentation described under § 456.411 against the criteria developed under § 456.432 and applies close professional scrutiny to cases described under § 456.432(b);

(d) If the group or its designee finds that a recipient's continued stay in the ICF is needed, the group assigns a new continued stay review date in accordance with § 456.434;

(e) If the group or its designee finds that a continued stay case does not meet the criteria, the group or a subgroup that includes at least one physician reviews the case to decide the need for continued stay;

(f) If the group or subgroup making the review under paragraph (e) of this section finds that a continued stay is not needed, it notifies he recipient's attending physician or, in institutions for the mentally retarded, the recipient's qualified mental retardation professional, within 1 working day of its decision, and gives him 2 working days from the notification date to present his views before it makes a final decision on the need for the continued stay;

(g) If the attending physician or qualified mental retardation professional does not present additional information or clarification of the need for the continued stay, the decision of the UR group is final;

(h) If the attending physician or qualified mental retardation professional presents additional information or clarification, the need for continued stay is reviewed by—

(1) The physician member(s) of the UR group, in cases involving a medical determination; or

(2) The UR group, in cases not involving a medical determination; and

(i) If the individuals performing the review under paragraph (h) of this section find that the recipient no longer needs ICF services, their decision is final.

§ 456.437 Notification of adverse decision.

The UR plan must provide that written notice of any adverse final decision on the need for continued stay under § 456.436 (g) through (i) is sent to—

(a) The ICF administrator;

(b) The attending physician;

(c) The qualified mental retardation professional, if applicable;

(d) The medicaid agency;

(e) The recipient; and

(f) If possible, the next of kin or sponsor.

§ 456.438 Time limits for notification of adverse decision.

The UR plan must provide that the group gives notice under § 456.437 of an adverse decision not later than 2 days after the date of the final decision.

Subpart G—Inpatient Psychiatric Services for Individuals Under Age 21: Admission and Plan of Care Requirements

§ 456.480 Scope.

This subpart concerns admission and plan of care requirements that apply to inpatient psychiatric services for individuals under age 21 in hospitals, mental hospitals, skilled nursing facilities, and intermediate care facilities.

§ 456.481 Admission certification and plan of care.

If a facility provides inpatient psychiatric services to a recipient under age 21—

(a) The admission certification by the review team required in § 441.152 satisfies the requirement for physician certification of need for care in §§ 456.60, 456.160, 456.260, and 456.360; and

(b) The development and review of the plan of care required in § 441.154 satisfies the requirement for physician recertification of need for care in the sections cited in paragraph (a) and the requirement for establishment and periodic review of the plan of care in §§ 456.80, 456.180, 456.280, and 456.380.

(c) The plan of care must be established by the team described in § 441.156.

§ 456.482 Medical, psychiatric, and social evaluations.

If a facility provides inpatient psychiatric services to a recipient under age 21, the medical, psychiatric, and social evaluations required by §§ 456.170, 456.270, and 456.370 must be made by the team described in § 441.153.

Subpart H—Utilization Review Plans: FFP, Waivers, and Variances for Hospitals, Mental Hospitals, and Skilled Nursing Facilities

§ 456.500 Purpose.

For hospitals, mental hospitals and SNF's, this subpart—

(a) Prescribes conditions for the availability of FFP relating to UR plans;

(b) Prescribes conditions for granting a waiver of UR plan requirements; and

(c) Prescribes conditions for granting a variance in UR plan requirements for remote facilities.

§ 456.501 UR plans as a condition for FFP.

(a) Except when waived under §§ 456.505 through 456.508, FFP is not available in expenditures for medicaid services furnished by a hospital, mental hospital, or SNF unless the facility has in effect a UR plan that meets the utilization review requirements for medicare under sec. 1861(k) of the act.

(b) A facility that participates in medicare and medicaid must use the same UR standards and procedures and review committee for medicaid as it uses for medicare.

(c) A facility that does not participate in medicare must meet the UR plan requirements in subpart C, D, or E of this part, which are equivalent to the medicare UR plan requirements in §§ 405.1035, 405.1036, and 405.1137 of this chapter.

UR PLAN: WAIVER OF REQUIREMENTS

§ 456.505 Applicability of waiver.

The Administrator may waive the UR plan requirements of subparts C, D, or E of this part, except for provisions relating to disqualification of UR committee members under § 456.106 of subpart C, § 456.206 of subpart D, and § 456.306 of subpart E, if the medicaid agency—

(a) Applies for a waiver; and

(b) Demonstrates to the Administrator's satisfaction that it has in operation specific UR procedures that are superior in their effectiveness to the UR plan requirements under subparts C, D, or E.

§ 456.506 Waiver options for medicaid agency.

(a) The agency may apply for a waiver at any time it has the procedures referred to under § 456.505(b) in operation at least—

(1) On a demonstration basis; or

(2) In any part of the State.

(b) Any hospital, mental hospital, or SNF participating under the plan that is not covered by a waiver must continue to meet all the UR plan requirements under subpart C, D, or E of this part.

§ 456.507 Review and granting of waiver requests.

(a) When the agency applies for a waiver, the Administrator will assess the agency's UR procedures and grant the waiver if he determines that the procedures meet criteria he establishes.

(b) The Administrator will review and evaluate each waiver between 1 and 2 years after he has granted it and between 1 and 2 years periodically thereafter.

§ 456.508 Withdrawal of waiver.

(a) The Administrator will withdraw a waiver if he determines that State procedures are no longer superior in their effectiveness to the procedures required for UR plans under subparts C, D, or E.

(b) If a waiver is withdrawn by the Administrator, each hospital, mental hospital, or SNF covered by the waiver must meet all the UR plan requirements under subparts C, D, or E of this part.

UR PLAN: REMOTE FACILITY VARIANCES FROM TIME REQUIREMENTS

§ 456.520 Definitions.

As used in §§ 456.521 through 456.525 of this subpart:

"Available physician or other professional personnel" means an individual who—

(a) Is professionally qualified;

(b) Is not precluded from participating in UR under § 456.107 of subpart C; § 456.207 of subpart D; or § 456.307 of subpart E; and

(c) Is not precluded from effective participation in UR because he requires more than approximately 1 hour to travel between the remote facility and his place of work.

V 43 190 SE 29 78

"Remote facility" means a facility located in an area that does not have enough available physicians or other professional personnel to perform UR as required under subparts C, D, or E of this part, and for which the State requests a variance.

"Variance" means permission granted by the Administrator to the medicaid agency for a specific remote facility to use time periods different from those specified for the start and completion of reviews of all cases under the following sections: Sections 456.125, 456.128, 456.136, and 456.137 of subpart C; § 456.238 of subpart D; and §§ 456.333, 456.334, and 456.336 of subpart E.

§ 456.521 Conditions for granting variance requests.

(a) Except as described under paragraph (b) of this section, the administrator may grant a variance for a specific remote facility if the agency submits concurrently—

(1) A request for the variance that documents to his satisfaction that the facility is unable to meet the time requirements for which the variance is requested; and

(2) A revised UR plan for the facility.

(b) The Administrator will not grant a variance if the remote facility is operating under a UR plan waiver that the Secretary has granted or is considering under §§ 456.505 through 456.508.

§ 456.522 Content of request for variance.

The agency's request for a variance must include—

(a) The name, location, and type of the remote facility;

(b) The number of total patient admissions and the average daily patient census at the facility in the 6 months preceding the request;

(c) The number of medicare and medicaid patient admissions and the average daily medicare and medicaid patient census at the facility in the 6 months preceding the request;

(d) The name and location of each hospital, mental hospital, SNF, and ICF located within a 50-mile radius of the facility;

(e) The distance and average travel time between the remote facility and each facility listed in paragraph (c) of this section;

(f) Documentation by the facility of its attempts to obtain the services of available physicians or other professional personnel, or both;

(g) The names of all physicians on the active staff, and the names of all other professional personnel on the staff whose availability is relevant to the request;

(h) The practice locations of available physicians and the estimated number of available professional personnel whose availability is relevant to the request;

(i) Documentation by the facility of its inability to perform UR within the time requirements for which the variance is requested and its good faith efforts to comply with the UR plan requirements of subparts C, D, or E of this part;

(j) An assurance by the facility that it will continue its good faith efforts to meet the UR plan requirements of subpart C, D, or E of this part; and

(k) A statement of whether a planning or conditional PSRO exists in the area where the facility is located.

§ 456.523 Revised UR plan.

(a) The revised UR plan for the remote facility must specify the methods and procedures that the facility will use if a variance is granted to insure that it—

(1) Maintains effective and timely control over the utilization of services; and

(2) Conducts reviews in a way that improves the quality of care provided to patients.

(b) The revised UR plan for the remote facility is the basis for validation of UR under sec. 1903(g)(2) of the Act for the period when a variance is in effect.

§ 456.524 Notification of Administrator's action and duration of variance.

(a) The Administrator—

(1) Will notify the agency of the action he takes on its request for a variance; and

(2) Will specify the period of time, not to exceed 1 year, for which the variance may be granted.

(b) When it receives the Administrator's notification, the agency must promptly notify the remote facility of his action.

§ 456.525 Request for renewal of variance.

(a) The agency must submit a request for renewal of a variance to the Administrator at least 30 days before the variance expires.

(b) The renewal request must contain the information required under § 456.522.

(c) The renewal request must show, to the Administrator's satisfaction, that the remote facility continues to meet the requirements of §§ 456.521 through 456.523.

Subpart I—Inspections of Care in Skilled Nursing and Intermediate Care Facilities and Institutions for Mental Diseases

§ 456.600 Purpose.

This subpart prescribes requirements for periodic inspections of care and services in skilled nursing facilities (SNF's), intermediate care facilities (ICF's), and institutions for mental diseases (IMD's).

§ 456.601 Definitions.

For purposes of this subpart—

"Facility" means a skilled nursing facility, an institution for mental diseases, or an intermediate care facility.

"Intermediate care facility" includes institutions for the mentally retarded or persons with related conditions but excludes Christian Science sanatoria operated, or listed and certified, by the First Church of Christ Scientist, Boston, Mass.

"Institution for mental diseases" includes a mental hospital, a psychiatric facility, and a skilled nursing or intermediate care facility that primarily cares for mental patients.

"Psychiatric facility" includes a psychiatric program as defined in subpart D of Part 441.

§ 456.602 Inspection team.

(a) A team, as described in this section and § 456.603 must periodically inspect the care and services provided to recipients in each facility.

(b) Each team conducting periodic inspections must have a least one member who is at physician or registered nurse and other appropriate health and social service personnel.

(c) For an IMD other than an ICF, each team must have a psychiatrist or physician knowledgeable about mental institutions and other appropriate mental health and social service personnel.

(d) For an ICF that primarily cares for mental patients, each team must have at least one member who knows the problems and needs of mentally retarded individuals.

(e) For an institution for the mentally retarded or persons with related conditions, each team must have at least one member who knows the problems and needs of mentally retarded individuals.

(f) For ICFs primarily serving individuals 65 years of age or older, each team must have at least one member who knows the problems and needs of those individuals.

(g) If there is no physician on the team, the medicaid agency must insure that a physician is available to provide consultation to the team.

(h) If a team has one or more physicians, it must be supervised by a physician.

§ 456.603 Financial interests and employment of team members.

(a) Except as provided in paragraph (b) of this section—

(1) No member of a team that reviews care in a SNF may have a financial interest in or be employed by any SNF; and

(2) No member of a team that reviews care in an ICF may have a financial interest in or be employed by any ICF.

(b) A member of a team that reviews care in an IMD or an institution for the mentaly retarded or persons with related conditions—

(1) May not have a financial interest in any institution of that same type but may have a financial interest in other facilities or institutions; and

(2) May not review care in an institution where he is employed but may review care in any other facility or institution.

§ 456.604 Physician team member inspecting care of recipients.

No physician member of a team may inspect the care of a recipient for whom he is the attending physician.

§ 456.605 Number and location of teams.

There must be a sufficient number of teams so located within the State that onsite inspections can be made at appropriate intervals in each facility caring for recipients.

§ 456.606 Frequency of inspections.

The team and the agency must determine, based on the quality of care and services being provided in a facility and the condition of recipients in the facility, at what intervals inspections will be made. However, the team must inspect the care and services provided to each recipient in the facility at least annually.

§ 456.607 Notification before inspection.

No facility may be notified of the time of inspection more than 48 hours before the scheduled arrival of the team.

§ 456.608 Personal contact with and observation of recipients and review of records.

(a) For recipients under age 21 in psychiatric facilities and recipients in SNFs and ICFs, other than those described in paragraph (b) of this section, the team's inspection must include—

(1) Personal contact with and observation of each recipient; and

(2) Review of each recipient's medical record.

(b) For recipients age 65 or older in IMDs, the team's inspection must include—

(1) Review of each recipient's medical record; and

(2) If the record does not contain complete reports of periodic assessments required by 45 CFR 208.1(a)(2) or if such reports are inadequate, personal contact with and observation of each recipient.

§ 456.609 Determinations by team.

The team must determine in its inspection whether—

(a) The services available in the facility are adequate to—

(1) Meet the health needs of each recipient, and the rehabilitative and social needs of each recipient in an ICF; and

(2) Promote his maximum physical, mental, and psychosocial functioning.

(b) It is necessary and desirable for the recipient to remain in the facility;

(c) It is feasible to meet the recipient's health needs and, in an ICF, the recipient's rehabilitative needs, through alternative institutional or noninstitutional services; and

(d) Each recipient under age 21 in a psychiatric facility and each recipient in an institution for the mentally retarded or persons with related conditions is receiving active treatment as defined in § 441.154 of this subchapter.

§ 456.610 Basis for determinations.

In making the determinations on adequacy of services and related matters under § 456.609 for each recipient, the team may consider such items as whether—

(a) The medical evaluation, any required social and psychological evaluations, and the plan of care are complete and current; the plan of care and, where required, the plan of rehabilitation are followed; and all ordered services, including dietary orders, are provided and properly recorded;

(b) The attending physician reviews prescribed medications—

(1) At least every 30 days in SNFs, psychiatric facilities, and mental hospitals; and

(2) At least quarterly in ICFs;

(c) Tests or observations of each recipient indicated by his medication regimen are made at appropriate times and properly recorded;

(d) Physician, nurse, and other professional progress notes are made as required and appear to be consistent with the observed condition of the recipient;

(e) The recipient receives adequate services, based on such observations as—

(1) Cleanliness;

(2) Absence of bedsores;

(3) Absence of signs of malnutrition or dehydration; and

(4) Apparent maintenance of maximum physical, mental, and psychosocial funtion;

(f) In an ICF, the recipient receives adequate rehabilitative services, as evidenced by—

(1) A planned program of activities to prevent regression; and

(2) Progress toward meeting objectives of the plan of care;

(g) The recipient needs any service that is not furnished by the facility or through arrangements with others; and

(h) The recipient needs continued placement in the facility or there is an appropriate plan to transfer the recipient to an alternate method of care.

§ 456.611 Reports on inspections.

(a) The team must submit a report promptly to the agency on each inspection.

(b) The report must contain the observations, conclusions, and recommendations of the team concerning—

(1) The adequacy, appropriateness, and quality of all services provided in the facility or through other arrangements, including physician services to recipients; and

(2) Specific findings about individual recipients in the facility.

§ 456.612 Copies of reports.

The agency must send a copy of each inspection report to—

(a) The facility inspected;

(b) The facility's utilization review committee;

(c) The agency responsible for licensing, certification, or approval of the facility for purposes of medicare and medicaid; and

(d) Other State agencies that use the information in the reports to perform their official function, including, if inspection reports concern IMD's, the appropriate State mental health authorities.

§ 456.613 Action on reports.

The agency must take corrective action as needed based on the report and recommendations of the team submitted under this subpart.

§ 456.614 Inspections by utilization review committee.

A utilization review committee under subparts C through F of this part may conduct the periodic inspections required by this subpart if—

(a) The committee is not based in the facility being reviewed; and

(b) The composition of the committee meets the requirements of this subpart.

FLOODPLAIN MANAGEMENT AND PROTECTION OF WETLANDS

Implementation of Executive Orders 11988 and 11990

V 43 / 190 SEP 29 78

[3510-17]

DEPARTMENT OF COMMERCE

Office of the Secretary

[Dept. Administrative Order 216-11; Transmittal 308]

FLOODPLAIN AND WETLANDS EXECUTIVE ORDERS

Availability for Public Comment on Department of Commerce Procedures for Implementation

AGENCY: U.S. Department of Commerce.

ACTION: Notice of availability for public comment on departmentwide procedures for implementation of the floodplain and wetlands Executive orders.

SUMMARY: The Department of Commerce is making available for public review and comment the procedures (U.S. Department of Commerce Administrative Order No. 216-11) it will use to implement Executive Order 11988, Floodplain Management, and Executive Order 11990, Protection of Wetlands. Both orders required all Federal agencies to review their activities, procedures, and rules and regulations. The Department of Commerce procedures for these orders provide that the heads of organization units with programs that may produce impacts on floodplains or wetlands shall issue specific procedures for complying with the Executive orders.

DATE: Comments must be received on or before October 30, 1978.

ADDRESS: All comments should be sent to Executive Secretariat, U.S. Department of Commerce, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT:

Dr. Sidney R. Galler, Office of Environmental Affairs, U.S. Department of Commerce, Washington, D.C. 20230, phone 202-377-4335.

SUPPLEMENTARY INFORMATION:

Executive Order 11988, Floodplain Management, affirmed that it is the policy to protect and enhance the natural and beneficial values of floodplains and to actively discourage noncompatible development. The Executive Order 11990, for protection of wetlands, recognized that our remaining wetlands are a valuable national resource. All Federal agencies are to do everything possible to avoid direct or indirect support on new construction in wetlands wherever there is a practical alternative.

The U.S. Water Resources Council's Floodplain Management Guidelines for Implementing E.O. 11988 (43 FR 6030, Feb. 10, 1978) provide the basic implementation guidelines. The Commerce procedures incorporate the Water Resources Council's guidelines and insure that all Department of Commerce actions further the intent and purpose of both Presidential Executive orders.

Subject: Floodplain Management and Protection of Wetlands. This order is effective September 11, 1978.

SECTION 1. PURPOSE

The purpose of this order is to prescribe the Department of Commerce policies and procedures for implementing Executive Orders 11988 and 11990.

SECTION 2. SCOPE

On May 24, 1977, the President issued Executive Orders 11988 (Floodplain Management) and 11990 (Protection of Wetlands). These Orders direct Federal agencies to avoid, to the extent possible, all actions associated with the modification or destruction of floodplains and wetlands, or that may increase the risk of loss of life and property resulting from flood and storm damage.

SECTION 3. DEFINITIONS

.01 *Flood or flooding* is a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland and/or tidal waters, and/or the unusual and rapid accumulation or runoff of surface waters from any source.

.02 *Floodplains.* Floodplains are lowland and relatively flat areas adjoining inland and coastal waters including flood prone areas of offshore islands, including at a minimum, that area subjet to a one percent or greater chance of flooding in any given year. The term floodplain shall be taken to mean the *base floodplain* unless the action is a critical action, in which case the *critical action floodplain* is a minimum floodplain of concern.

a. *Base floodplain* (or 100-year floodplain)—the area subject to inundation from a flood of a magnitude that occurs once every 100 years on the average (1.0 percent chance flood).

b. *Critical action floodplain* (or 500-year floodplain)—the area subject to unundation from a flood of a magnitude that occurs once every 500 years on the average (0.2 percent chance flood).

.03 *Wetlands.* Wetlands are those areas that are inundated by surface or ground water with a frequency sufficient to support and under normal circumstances does or would support a prevalence of vegetation or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Examples of wetlands include swamps, fresh and salt water marshes, beaches, bogs, sloughs, potholes, wet meadows, mud flats, river overflows, natural ponds, as well as areas separated from their natural supply of water through man-made alterations such as dikes, berms, floodwalls, and levees.

.04 *Organization unit.* As used in this order, organization unit(s) means all Departmental offices and operating units of the Department of Commerce with program responsibilities subject to the floodplain and wetland Executive Orders.

.05 *Action.* An action is any Department activity including:

(a) acquiring, managing, and disposing of Federal lands and facilities;

(b) providing financial assistance including, but not limited to, grants, loans, contracts, subsidies, and guarantees or amendments to such forms of assistance for the acquisition of land and the construction of facilities and improvements; and

(c) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating and licensing activities.

.06 *Critical action.* A critical action is an action which, if located in a floodplain, poses a greater than normal risk for flood-caused loss of life or property. The minimum floodplain of concern for critical actions is the 500-year floodplain. Critical actions include, but are not limited to, actions which create facilities or extend the useful life of facilities:

(a) which produce, use, or store highly volatile, flammable, explosive, toxic, or water-reactive materials;

(b) such as schools, hospitals, and nursing homes, which are likely to contain occupants who may not be sufficiently mobile to avoid the loss of life or injury should flooding occur; and

(c) such as emergency operation centers, essential public utilities, and data storage centers, which contain records or services that may become lost or inoperative should flooding occur.

.07 *Related activities.* Related activities are those undertakings that are interdependent parts of an action. They either make possible or support an action, or are themselves induced or supported by an action or related activities. Related activities may or may not be federally permitted or assisted.

.08 *Impacts.* Impacts are changes in flood plain or wetland values and functions. Impacts may occur as either direct or indirect results of an action. Impacts are a direct result of an action whenever the action causes a change in floodplain or wetland values and functions. Impacts are an indirect result of an action whenever an action induces or makes possible related activities which affect the natural values and functions of floodplains or wetlands.

.09 *Alternatives.* Alternatives are those actions, in addition to the proposed action, with similar benefits and which eliminate or minimize impacts on a floodplain or wetland.

.10 *Minimize.* Minimize means to reduce to the smallest amount or degree practicable.

.11 *Mitigation measures.* Mitigation measures are measures to minimize the impacts of the proposed action on a floodplain or wetland, including measures to preserve and, wherever practicable, restore natural values and functions. Examples of mitigation measures include, but are not limited to:

(a) floodplain or wetland habitat restoration;

(b) collecting and treating runoff resulting from an action prior to its discharge into a floodplain or a wetland;

(c) establishing a vegetative buffer zone between the site of a proposed action and adjacent floodplains or wetlands; or

(d) improving habitat values and functions through management.

.12 *Practicable.* Practicable is defined as an action capable of being performed within

existing constraints. This test depends upon the particular situation and the constraints imposed by environmental, economic, legal, and technological considerations. However, the test is *not* limited by the temporary unavailability of sufficient financial resources to implement either an alternative to a proposed action or a mitigation measure necessary to minimize impact. Thus, alternatives or mitigation measures shall not be rejected as "impracticable" solely on the basis of an increase in cost.

SECTION 4. POLICY

.01 The head of each organization unit shall insure that all of its activities related to this order are conducted in accordance with Executive Orders 11988 and 11990 and the Water Resources Council's "Floodplain Management Guidelines" (43 FR 6030). The heads of organization units with programs that may produce impacts on floodplains or wetlands shall issue specific procedures for complying with the Executive Orders. It shall be the responsibility of the heads of all organization units to devise mechanisms and to inform all prospective participants in their programs of the intent of Executive Orders 11988 and 11990 and the Department's policy as stated in this order.

.02 No organization unit shall participate in any action that would impact a floodplain or wetland until that organization unit determines that no practicable alternative exists to the action. In this case, the no action alternative shall be considered. Where a determination is made that no practicable alternative exists to impacting a floodplain or wetland and the no action alternative is unacceptable, the organization unit shall ensure that the action choses is the alternative which minimizes those impacts, *and* that all practicable mitigation measures are incorporated into the action which:

(a) minimize the risks of loss of life and property due to flood and storm damage; and

(b) minimize the adverse impacts on floodplain and wetland values and functions.

.03 Whenever an action requires locating in a floodplain or wetland area, each organization unit shall require locating the action, if practicable, within the floodplain and not within the wetland.

.04 The following proposed actions that impact wetlands not located within the floodplain are exempt from these procedures:

a. Federally assisted or permitted actions under construction prior to the effective date of this order; or

b. Federal actions for which a draft or final Environmental Impact Statement (EIS) was filed prior to October 1, 1977.

.05 Each organization unit, in carrying out this policy, shall insure that its actions are consistent with State coastal zone management programs as approved by the Secretary under the Coastal Zone Management Act of 1972 as amended (16 U.S.C. 1451 *et seq.*). Each organization unit shall also insure that its actions are in compliance with Section 10 of the Rivers and Harbors Act of 1899 and with Section 404 of the Clean Water Act of 1977 which require Department of the Army permits for construction and disposal of dredged material in waters of the United States, including adjacent wetlands (33 CFR 320-340).

SECTION 5. PROCEDURES.

.01 Organization Unit Responsibilities.

(a) The Deputy Assistant Secretary for Environmental Affairs shall serve as the focal point in the Department for implementing the requirements of this order.

(b) Each organization unit in implementing DAO 216-6 shall in addition determine whether the action under consideration is located in or would otherwise impact a floodplain or wetland. The determination shall be made in accordance with the Water Resources Council's "Guidance for Determining a Floodplain Location," (Vol. 42 FR 52590-52599; September 30, 2977).

(c) If a determination is made that a floodplain or wetland is impacted, each organization unit shall:

1. Determine if there is a practicable alternative which would avoid such impact. If no such alternative exists, determine if there is a practicable alternative which minimizes the impact on floodplains and wetlands; and

2. Identify and analyze resulting impacts including impacts on public health, safety and welfare; and floodplain and wetland natural values and functions.

.02 Public Notification Requirements.

(a) If it is determined that a proposed action would impact a floodplain or wetland, each organization unit shall insure that a notice of the proposed action is published in the newspaper of greatest circulation in the vicinity of the proposed action. The notice shall appear for at least three consecutive days and shall include a physical description of the location and surrounding area and the nature and extent of the proposed action. Attempts should also be made to inform the community, by publication or other means, in the area where the impact of the proposed action will occur. The organization unit shall allow at least 30 days from the publication date of the last required notice for receipt of public comments.

(b) The organization unit shall arrange for a public meeting to discuss the action where the organization unit determines that a public meeting will serve the public interest. The organization unit shall insure that at least two notices of such public meeting are published in the newspaper having the greatest circulation in the vicinity of the proposed action. Wherever possible, the community in the action's area of impact shall also be informed. The first of the required notices shall be published 15 to 20 days before the meeting date, and the second notice 2 to 4 days before the meeting date. Such notice shall include the location, date, and time of the meeting, a description of the proposed action's location and the surrounding area, and a brief description of the proposed action. In addition, copies of the notices shall be mailed to appropriate local, State and Federal agencies, public interest groups, news media, and any other agencies, groups, or individuals who have an interest in the action. If a public meeting is held conerning a proposal which requires an EIS, the meeting shall not be held until at least 15 days have elapsed from the date of publication of the draft EIS. The organization unit shall insure that a written transcript of the meeting is prepared.

(c) Each organization unit shall coordinate publication activities under this order with the Office of Public Affairs.

(d) In coorinating organization unit procedures under this order and DAO 216-6, each organization unit may establish additional public notification and consultative procedures, as appropriate, or as required by other authorities.

.03 Final Notice and Findings.

Upon determination of the practicable alternative and mitigation measures, the organization unit shall insure the publication of a final notice of the proposed action. The notice shall be published in the newspaper of greatest circulation in the vicinity of the proposed action for at least 3 consecutive days, and shall include a physical description of the location and surrounding area, a detailed description of the proposed action, the measures used to mitigate impacts, and the projected date of the action's initiation and completion. Attempts should also be made to inform the community, by publication or other means, in the area where the impact of the proposed action will occur. The organization unit shall wait 15 days after publication of final notice before initiating the action.

ELSA A. PORTER,
Assistant Secretary for Administration.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Notice 78-11]

PRESERVATION OF WETLANDS

Issuance of Internal Order

AGENCY: Department of Transportation (DOT).

ACTION: Notice of issuance of internal order.

SUMMARY: DOT herewith publishes for the information of the public its internal order implementing Executive Order 11990, Preservation of Wetlands.

EFFECTIVE DATE: August 24, 1978.

FOR FURTHER INFORMATION CONTACT

Martin Convisser, Director, Office of Environment and Safety, Office of the Assistant Secretary for Policy and International Affairs, Department of Transportation, 400 Seventh Street SW. Washington, D.C. 20590, 202-426-4357.

SUPPLEMENTARY INFORMATION: The principal drafter of the order is Sonya Hill, Office of Environment and Safety.

V 43/190 SEP 29 78

Issued in Washington, D.C., on September 22, 1978.

MARTIN CONVISSER,
Director, Office of Environment and Safety.

DEPARTMENT OF TRANSPORTATION

[Order 5660.1A]

PRESERVATION OF THE NATION'S WETLANDS

1. *Purpose.* This order sets forth the Department of Transportation (DOT) policy that transportation facilities and projects should be planned, constructed, and operated to assure the protection, preservation, and enhancement of the nation's wetlands to the fullest extent practicable, and establishes procedures for implementation of the policy.

2. *Cancellation.* DOT 5660.1, Preservation of the Nation's Wetlands, of 5-21-75.

3. *Background and Authority.* This order is issued pursuant to the following Executive Order and statutes:

(a) Executive Order 11990, dated May 24, 1977, "Protection of Wetlands," establishes a national policy "to avoid to the extent possible the long- and short-term adverse impacts associated with the destruction or modification of wetlands and to avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative." The order further provides that each agency shall provide leadership to minimize the destruction, loss, or degradation of wetlands and to preserve and enhance the natural and beneficial values of wetlands in carrying out the agency's responsibilities for (1) acquiring, managing, and disposing of federal lands and facilities, (2) providing federally undertaken, financed, or assisted construction and improvements, and (3) conducting federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

(b) Sections 2 (b) and 4(f) of the Department of Transportation Act of 1966 (49 U.S.C. 1651 et seq.) provide that it is "national policy that special effort should be made to preserve the natural beauty of the countryside and the park and recreation lands, wildlife and waterfowl refuges, and historic sites."

(c) The National Environmental Policy Act of 1969 (NEPA) as amended (42 U.S.C. 4321 et seq.) establishes a national policy to "* * * promote efforts which will prevent or eliminate danger to the environment and biosphere and stimulate the health and welfare of man * * *." NEPA requires preparation of an environmental impact statement (EIS) for any major Federal action significantly affecting the quality of the human environment. Order DOT 5610.1B, "Procedures for Considering Environmental Impacts," of September 30, 1974, requires that information on impacts on fresh water and coastal wetlands be included in the EISs prepared pursuant to NEPA.

d. Section 2 of the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.) provides for consultation with the U.S. Fish and Wildlife Service and the State wildlife resources agency when " * * * waters of any stream or other body of water are proposed to be controlled or modified * * *."

e. The Water Bank Act (16 U.S.C. 1301) expresses the congressional finding that "it is in the public interest to preserve, restore, and improve the wetlands of the nation * * *."

f. The Coastal Zone Management Act (16 U.S.C. 145) establishes a policy to "preserve, protect, and develop natural resources of the coastal zone and where possible to restore them."

g. The Federal Water Pollution Control Act Amendments 1972 (33 U.S.C. 1151) establish a policy to "restore and maintain the chemical, physical, and biological intergrity of the Nation's waters."

4. *Definition.*

a. Wetlands are defined as lowlands covered with shallow and sometimes temporary or intermittent waters. This includes, but is not limited to, swamps, marshes, bogs, sloughs, potholes, wet meadows, river overflows, and tidal overflows, as well as estuarine areas, and shallow lakes and ponds with emergent vegetation. Areas covered with water for such a short time that there is no effect on moist-soil vegetation are not included in the definition, nor are the permanent waters of streams, reservoirs, and deep lakes. The wetlands ecosystem includes those areas which affect or are affected by the wetland area itself; e.g., adjacent uplands or regions up and down stream. An activity may affect the wetlands indirectly by impacting regions up or down stream from the wetland or by disturbing the water table of the area in which the wetland lies. Attachment 1 references the wetlands classification system.

b. "New construction" for purposes of this order shall include any draining, dredging, channelizing, filling, diking, impounding, and related activities, and any structures or facilities begun or authorized after the effective date of this order. This does not include routine repairs and maintenance of existing facilities.

5. *Policy.* It is the policy of DOT to assure the protection, preservation, and enhancement of the Nation's wetlands to the fullest extent practicable during the planning, construction, and operation of transportation facilities and projects. In accordance with E.O. 11990, new construction located in wetlands shall be avoided unless there is no practicable alternative to the construction and the proposed action includes all practicable measures to minimize harm to wetlands which may result from such contruction. In making a finding of no practicable alternative, economic, environmental and other factors may be taken into account. Some additonal cost alone will not necessarily render alternatives or minimization measures impractical since additonal cost would normally be recognized as necessary and justified to meet national wetland policy objectives.

6. *Responsibilities.*

a. The Assistant Secretary for Policy and International Affairs (P-1) shall oversee the implementation of the policy set forth in this order, shall recommend any modifications of procedures that may be appropriate, and shall consult with the Department of the Interior, the Council on Environmental Quality, and other agenices as appropriate concerning the Department's implementation of these policies.

b. Heads of operating administrations shall distribute this order or promulgate appropriate guidance consistent with this order and the Executive Order and shall be responsible for the full implementation of the policies within their respective administrations.

c. The Assistant Secretary (P-1) and the heads of operating administrations jointly shall be responsible for preparation and/or dissemination of appropriate guidance, informational materials, training programs, and other materials necessary to comply with the Executive order's requirement that agencies provide leadership in the field of wetland protection. Such leadership should be particularly aimed at informing and guiding the actions of State and local transportation officials operating with the assistance of or subject to permits from DOT.

7. *Procedures.* The following procedures should be integrated into existing environmental and public participation processes to the maximum extent feasible. The policy of this order applies to any project located in or having an impact on wetlands.

a. New authorizations or appropriations transmitted to the Office of Management and Budget will indicate, if a specific action to be proposed will be located in wetlands, whether the proposed action is in accord with E.O. 11990.

b. The impacts of new construction projects on wetlands should be identified and discussed in any submissions made to State and metropolitan clearinghouses under Office of Management and Budget Circular A-95. Submissions to A-95 will not be required solely to address wetland issues. Appropriate opportunity for early review of proposals for new construction in wetlands should be provided to the public and to agencies with special interest in wetlands. This may include early public involvement approaches.

c. Any project which will have a significant impact on wetlands will require preparation of an EIS. Prior to the preparation of an EIS, agencies with jurisdiction and expertise concerning wetland impacts (U.S. Fish and Wildlife Service, State wildlife or natural resources agencies, and the Corps of Engineers, as appropriate) should be consulted for advice and assistance concerning the proposed undertaking.

d. An EIS (or negative declaration) on a proposal for new construction in wetlands should reflect the results of early coordination and should identify specific impacts of the project on the wetlands taking into consideration the matters listed in paragraph 6(f).

e. When federally owned wetlands or portions of wetlands are proposed for lease, easement, right-of-way, or disposal to non-Federal public or private parties, the agency with jurisdiction over the lands should either (1) reference in the conveyance those uses that are restricted under this policy and other relevant Federal, State, or local wetlands regulations; or (2) attach other appropriate restrictions to the use of properties by the grantee or purchaser and any successor, except where prohibited by law; or (3) withhold such properties from disposal.

f. In carrying out any activities (including small scale projects which do not require documentation) with a potential effect on wetlands, operating agencies should consider the following factors in implementing the Department policy relevant to a proposal's effect on the survival and quality of wetland:

(1) Public health, safety, and welfare, including water supply, water quality, recharge and discharge, and pollution; flood and storm hazards; and sedimentation and erosion.

(2) Maintenance of natural systems, including conservation and long-term activity of existing flora and fauna, species and habitat diversity and stability, hydrologic utility, fish and wildlife, timber, and food and fiber resources; and other uses of wetlands in the public interest, including recreational scientific, and cultural uses as well as transportation uses and objectives.

g. Alternatives which would avoid new construction in wetlands must be studied, giving consideration to environmental and economic factors. If uses of wetlands is proposed, the alternatives analysis for major actions should have demonstrated that there is no practicable alternative to the use of the wetlands and that all practicable measures to minimize harm to the wetlands have been included.

h. For any major action which entails new construction located in wetlands, a specific finding should be made by the affected operating administration that (1) there is no practicable alternative to construction in the wetland and (2) that all practicable measures to mininmize harm have been included. The proposed finding should ordinarily be included in the final EIS or negative declaration for the proposal.

8. Applicability.

a. All programs and projects proposed for direct construction, assistance, or permit by the DOT shall be reviewed for consistency with the policy of this order.

b. This order does not apply to projects presently under construction or to projects for which all funds have been obligated through fiscal year 1977, to projects and programs for which a draft or final EIS was filed prior to October 1, 1977.

c. Nothing in this order shall apply to assistance provided for emergency work essential to save lives and protect property or public and safety, performed pursuant to sections 305 and 306 of the Disaster Relief Act of 1974 or pursuant to other emergency operations.

ALAN BUTCHMAN,
The Deputy Secretary.

ATTACHMENT 1

Further information concerning the type, number, and location of wetland areas may be obtained from Circular No. 39 of the Department of the Interior, Fish and Wildlife Service, or from the wetlands inventories maintained by the various States. The classification system presently contained in Circular No. 39 is being revised to provide uniformity in concept and terminology throughout the United States. A notice of intent to adopt the classification system was published in the December 12, 1977, FEDERAL REGISTER. Copies of the new classification system may be obtained from the Fish and Wildlife Service, Suite 217, Dade Building, 9620 Executive Center Drive, St. Petersburg, Fla. 33702.

The Fish and Wildlife Service is also developing a national wetlands inventory maps which will be complete in 1981. They will display typical wetland information on U.S. Geological Survey base maps for all of the States and U.S. territories and possessions. Maps are currently available to coastal Texas and Louisiana. On new projects, Fish and Service should be contacted to determined whether maps have been developed.

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Proposed Criteria for Accrediting Testing Laboratories That Test Thermal Insulation Materials

V 43 / 190 SEP 29 78

[3510-13]

DEPARTMENT OF COMMERCE

Office of the Secretary

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Proposed Criteria for Accrediting Testing Laboratories That Test Thermal Insulation Materials

AGENCY: Assistant Secretary of Commerce for Science and Technology.

ACTION: Notice of proposed criteria to be used by the Department of Commerce for accrediting laboratories that test thermal insulation materials.

SUMMARY: Pursuant to the procedures for a National Voluntary Laboratory Accreditation Program (NVLAP) (15 CFR Part 7) this notice gives the text of the proposed general and specific criteria to be used by the Secretary of Commerce (Secretary) in accrediting testing laboratories that voluntarily request such accreditation. These proposed criteria are based on the recommendations of the National Laboratory Accreditation Criteria Committee for Thermal Insulation Materials (Committee) submitted to the Secretary on August 3, 1978. These recommendations were developed by the 21-member Committee during three meetings on May 22-23, June 29-30, and July 25-26, 1978. The procedure to be used by the National Bureau of Standards (NBS) in examining the laboratories requesting accreditation was described during these meetings. Although such procedure is not an integral part of the criteria, knowledge of it is pertinent to an understanding of the scope of the criteria.

The procedure for accrediting a testing laboratory testing thermal insulation materials will begin when the laboratory formally requests such accreditation of the Secretary. A detailed questionnaire, based on the final laboratory accreditation criteria, will then be sent to the laboratory for completion. The accreditation procedure will include three separate evaluations. First will be an evaluation of the completed written questionnaire submitted by the laboratory. When this evaluation is completed, an on-site visit by NVLAP inspectors will be arranged in which the information submitted will be verified and a comparison will be made between the laboratory's capabilities and the requirements of the test methods and the criteria. Finally, the laboratory will be required to participate in proficiency sample testing programs, and test data submitted to NBS upon completion of these programs will be evaluated. The decision to accredit a testing laboratory will be based upon all three of these evaluations.

The criteria proposed herein, as may be amended upon consideration of public comment, will form the basis for examination of the laboratory. Each criterion presented in this notice is followed by a note, summarizing the factors to be used in evaluating the laboratories. These notes are explanatory and are not part of the criterion. The substantive issues section in this notice describes some of the factors considered by the Committee in arriving at its recommendations.

This proposal substantively deviates from the Committee's recommendations in only five sections. In sections G2.1.4 and G3.2.3, the Secretary has broadened and added language to include consideration of how a laboratory handles all complaints, including complaints from the public, rather than just complaints from its clients. In sections G2.3 and S1.2, parenthetical material has been added to provide examples intended to clarify the meaning of those provisions. In section S2.2, material has been added to assure adequate concern for the accuracy of test equipment.

DATES: Written comments are due on or before November 13, 1978. A request for an informal public hearing may be made before October 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. Howard I. Forman, Deputy Assistant Secretary for Product Standards, Room 3876, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-3221.

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER on February 25, 1976 (41 FR 8163-8168), the Department of Commerce issued procedures (15 CFR Part 7) for the operation of a National Voluntary Laboratory Accreditation Program (NVLAP). As announced in that notice, the goal of the program is to provide a national voluntary system to examine, upon request, the professional and technical competence of private and public testing laboratories. The procedures guide the development of accreditation criteria, such as those proposed in this notice, for evaluating laboratories which serve regulatory and nonregulatory product evaluation and certification needs. As criteria are developed and issued, the Secretary will accredit those laboratories which meet the criteria. In the Department Organization Order 10-1, Amendment 1, dated June 4, 1976, the Secretary has delegated to the Assistant Secretary for Science and Technology (Assistant Secretary) the authorities to exercise the pertinent functions of the Secretary in carrying out NVLAP as described in the procedures.

Pursuant to the referenced procedures, the Thermal Insulation Manufacturers Association, Inc., Mount Kisco, N.Y.; the National Mineral Wool Insulation Association, Inc., Summit, N.J.; and the Cellulose Insulation Manufacturers Association, Inc., Elk Grove Village, Ill., filed with the Secretary of Commere on December 1, 1976, a joint request that the Secretary find that there is a need to accredit testing laboratories which render services in the field of thermal insulation.

In a notice published in the FEDERAL REGISTER on October 12, 1977 (42 FR 55020-55023), the Department announced a final finding of need to accredit testing laboratories that test thermal insulation materials using the standards and test methods identified in the notice. In a separate notice published simultaneously in the FEDERAL REGISTER (42 FR 55023-24) the Department announced the formation of a National Laboratory Accreditation Criteria Committee (Committee) of 21 members to develop criteria to be used to evaluate those laboratories. Committee members were appointed in April 1978, met in May, June, and July for 2 days at each of the three sessions, and recommended criteria to the Assistant Secretary on August 3, 1978. Those recommendations provide the basis for this FEDERAL REGISTER Notice.

The Secretary will accredit a testing laboratory upon request, on the basis of an evaluation by NBS of the laboratory's ability to meet the provisions of the final criteria. The final criteria will be based on these proposed criteria with appropriate changes made after careful consideration and evaluation of all public comments received as a result of this notice. The final criteria published in the FEDERAL REGISTER will contain specific instructions for making application for accreditation by testing laboratories which test thermal insulation materials.

Upon receipt of a request for accreditation from a testing laboratory, the Assistant Secretary shall acknowledge the request and ask NBS to send an application package to the laboratory. This package will describe the accreditation program and will help the requesting laboratory select those portions of the program in which it specifically seeks accreditation. The application, when returned to NBS, will be used in assembling a questionnaire package, based upon the final criteria and the specific standards and test methods for which the laboratory desires accreditation. This questionnaire, tailored to the needs of the requesting laboratory, will elicit specific information about its qualifications and capabilities.

In completing the questionnaire for the test methods of interest, a laboratory may find that a duplication of information is needed in several portions of the questionnaire. Such duplication is not required. For instance, if information is contained in the response to the general criteria, identical information need not be supplied in response to the specific criteria. Likewise, information supplied in response to specific criteria for one test method need not be supplied in response to specific criteria for another test method if such information is identical.

Upon receipt of the completed questionnaire, NBS will evaluate the laboratory's ability to meet the criteria which apply to the areas in which the laboratory desires accreditation. In conducting this evaluation, the evaluators will reference specific detailed requirements for each of the test methods (e.g. test instruments required, reference documents cited, standardization equipment called for, and any special facilities called for) and will compare the data submitted by the laboratory with these requirements. A listing of these requirements as stated in each test method is now being developed and copies of the supplemental listing pertaining to each test method for which accreditation is sought will be supplied to the laboratory along with the questionnaire. Consultation with the laboratory will be arranged, if necessary, to complete the questionnaire.

Upon successful completion of this evaluation, NBS will then schedule an on-site visit by a NVLAP inspector whose inspection will include verification of the information submitted and comparison of the laboratory's capabilities and the requirements of the test methods and criteria. In conducting the inspection, the inspectors will reference specific detailed requirements for each of the test methods and each criterion and will compare the laboratory's capabilities with these requirements. A listing of these requirements as stated in each test method is now being developed and copies of inspector verification forms pertaining to each test method for which accreditation is sought will be supplied to the laboratory along with the questionnaire.

NBS will also schedule all required participation of the laboratory in proficiency testing programs as required. The questionnaire, inspector's report, and proficiency test data will then be evaluated by NBS and their recommendation concerning accreditation will be made to the Assistant Secretary. After review by the Assistant Secretary, accreditation will be granted or a letter denying accreditation will be sent to the laboratory.

To be accredited, the laboratory must also pay accreditation fees and charges. A schedule of estimated fees and charges the Department proposes to establish is published simultaneously in a separate notice in this FEDERAL REGISTER issue as required by the NVLAP procedures. These fees and charges are in amounts calculated to cover the costs of NVLAP examinations and are furnished at this time for information and guidance purposes only in order that the public may evaluate the proposed criteria in light of the expected fees to be charged for the assessment and accreditation of interested laboratories based upon those criteria.

To be accredited, the testing laboratory must agree to be examined and audited initially and on a continuing basis. During the deliberations of the Committee, an interval between examination for accreditation and reexamination for reaccreditation of 2 years was suggested as nominal based on the experience in other laboratory evaluation programs. The Committee has strongly recommended that testing laboratories be inspected on a yearly basis. The Department has carefully weighed this recommendation in light of the following factors: (a) inspection costs constitute a substantial portion of the total costs of examination and it is believed that annual inspection may increase the fee to unduly burdensome levels for a number of laboratories; (b) it is recognized that inspections may cause a significant (albeit temporary) disruption in the business of the laboratory and as such should be no more frequent than absolutely necessary; (c) other mechanisms exist by which to determine any deterioration in the competence of the laboratory between inspections; and (d) the Secretary reserves the right to call for inspections of laboratories at any time between regular inspections for the purpose of insuring continued compliance with the criteria. Until operating experience suggests a need to do otherwise, it is proposed to call for the regular examination (including inspection) of a laboratory at an interval of 2 years plus or minus 3 months. This tolerance of plus or minus 3 months is in recognition of practical problems of scheduling a series of inspections in different parts of the country. Public comments on this issue are encouraged.

Finally, to be accredited, the testing laboratory must avoid reference by itself and forbid others utilizing its services from referencing its accredited status in consumer media and product advertising, or on product labels, containers, or packages or the contents therein. This provision was included in the basic NVLAP procedures because the attributes of a product depend not only on whether the laboratory that tests it is accredited for that test method, but also on a number of other factors including the frequency of such tests, and the manner in which the manufacturer uses the test results to control the quality with which the product is manufactured. A laboratory may indicate on its letterhead and in professional, technical, and trade publications that it has been accredited by the Department to test products using a specific test method. Moreover, the Department will publish a list of accredited laboratories in the FEDERAL REGISTER so that the facts of such accreditation are available to users of testing laboratory services.

SUBSTANTIVE ISSUES

During the development of the criteria which were recommended to the Secretary by the Committee, a number of substantive issues were discussed in detail. These discussions are summarized in the following paragraphs in order to provide background information for the reader of this notice.

ORGANIZATIONAL STRUCTURE OF THE LABORATORY

Several members of the Committee strongly advocated that only independent laboratories be accredited. Such a provision is prohibited by the NVLAP procedures. (15 CFR 7.7(c)(1).) "No action will be taken or criteria developed that would prohibit the accreditation of a testing laboratory solely on the basis of that laboratory's association or nonassociation with manufacturing, distributing, or vending organizations * * *"). It was also pointed out that a definition of "independent" was itself subject to interpretation and challenge. (Is a laboratory truly independent if it performs 25 percent of its work for one client? 50 percent? What happens when a laboratory becomes part of a conglomerate organization?) There also seemed to be some confusion between laboratory accreditation and product certification. Accreditation of a laboratory means that the laboratory has the capability to conduct the specified tests appropriately; Certification of a product indicates that the product meets the requirements of a standard using designated product tests. NVLAP deals only with laboratory accreditation. NVLAP procedures specifically forbid reference to an accredited laboratory in product advertising, or in product labels, containers, and packaging or the contents therein, to avoid any inference of product certification.

The Committee explored the idea of requiring the names and resumes of all management and supervisory personnel in each operating, support, and service unit of the laboratory. To many members of the Committee this seemed like an excessive documenta-

V 4 3 / 1 9 0 SEP 29 78 UMI

tion burden—particularly for some of the larger laboratories. This was particularly so when considering section G4.1 of the criteria which requires an update of such information within 30 days of the occurrence of any substantive changes in the laboratory related to these criteria. The Committee voted to accept an amendment which calls for the names and resumes or the personnel requirements only for the positions identified. However, the Department believes that it may be necessary to know the names and actual qualifications of the persons filling key positions since, if a key person should leave a laboratory and not be replaced by another qualified person, the continued capability of the laboratory could be in serious doubt. Some people who choose a NVLAP accredited laboratory may do so because of its accreditation by the Department. Any material change in a basis for the accredited status must be evaluated by the Department promptly so that if that status deserves to be changed, the public may be notified of that fact in timely fashion. In order to meet the Committee's concern regarding paperwork, yet provide what could be critical information, it may be appropriate to require names and resumes (which need not exceed one page) of individuals that are key to the operation of a testing laboratory (e.g., the laboratory director or manager and those key supervisors in the area for which accreditation is sought). Public comments on this issue are encouraged.

The committee rejected a proposed criterion which would have required a laboratory to describe its sources and manner of financial support or other evidence of financial stability. Proponents of this provision argued that such a provision was needed to evaluate a laboratory's ability to develop and manage testing programs on a continuing basis. One member of the committee so strongly favored this provision that he submitted a minority comment to the Secretary with the final recommeded criteria stating, that in his opinion, there would be a high risk that a labortory in an unstable financial condition might not maintain quality performance in its laboratory practices. Opponents of this position argued that it would be very unfair to new and developing laboratories, and almost impossible to evaluate appropriately. Also to be considered is the provision in the NVLAP procedures (15 CFR 7.7(e)(5)) that the Secretary will not ask for or accept confidential business data, trade secrets, or other proprietary information.

PROFESSIONAL AND ETHICAL BUSINESS PRACTICES

Under this heading, the committee discussed factors including: the handling of complaints; protection of test data, records and reports; and limitation of work in accordance with demonstrated capacities and competences. The issues of independence arose again and was resolved by requiring the laboratory to supply evidence that there is an independent decisional relationship between the testing laboratory function and other functions of the company or from other organization with which the laboratory does business.

The only area of substantial deviation from the criteria recommeded by the committee is in the area of complaint handling. The department is of the view that it is vitally important for the laboratory to handle appropriately all complaints. In order to accomplish this, a new section, G2.1.4, was added to criterion G2 dealing with the quality control system. This section would require that the laboratory describe its procedures for obtaining, tracing the validity of, and responding to complaints and charges about the quality of test work. To further support this important point, the committee's recommendation for section 3.2.3 of criterion G3 dealing with professional and business practices was modified by deleting the words "from clients." In effect, this deletion broadens that provision and requires documentary evidence that the laboratory considers and properly handles all appeals and complaints, irrespective of whether such complaints come from clients or the public.

The Committee considered requiring that the laboratory provide complete details of any litigation in which an applicant laboratory may have been involved over the past 5 years. A majority of the Committee agreed to delete such a requirement on the basis that: (1) in an ongoing suit a laboratory should be judged free of wrongdoing until shown otherwise, as required by our system of jurisprudence; (2) if a laboratory has been found guilty, or a judgment entered against it for wrongdoing, presumably it will be forced to pay for its mistakes as a result; and (3) the volume of paperwork could be enormous. Committee members favoring such a provision suggested that it would be inappropriate to accredit a laboratory which has a number of adverse judgments against it. The Department believes that conditions which lead to such litigation are likely to show up during the evaluation. In any event, the Secretary is prepared to followup on complaints received from the public about any laboratory accredited or about to be accredited.

NOTIFICATION OF CHANGES.

The Committee agreed after some discussion that the laboratory should notify NVLAP of substantive changes in the laboratory related to the criteria requirements on a timely basis, even though for a large facility this could involve substantial paperwork.

The NVLAP program is designed to adapt to changes in the cited standards and test methods as they are approved ability to designate some other effective date if deemed necessary.

LABORATORY FACILITIES AND EQUIPMENT.

Some test methods define required facilities, equipment, and special features very explicitly while other test methods do not. In some test methods, equipment has to be fabricated and constructed on site using general design guidance. The degree of conformance of the facilities and equipment to the requirements of the test methods is also a significant issue. In its deliberations, the Committee stressed the need to relate facilities and equipment to calibration and verification requirements to assure accurate and precise data.

A major discussion centered on the use of equipment, facilities, or procedures which have received modifications that keep them from being in strict conformance to the test method but which are judged to be noncritical modifications. Some Committee members encouraged such modifications, arguing that improvements which reduce costs or improve accuracy of measurements should be allowed and perhaps openly encouraged. The Department supports this goal, and therefore modified criterion S2.2 to encourage concern that equipment provide requisite accuracy and precision.

During the discussion of improvements and modifications some Committee members indicated a need to retain the pure methodology of the test method. The Committee therefore recommended the allowance of noncritical modifications provided the testing laboratory which is being accredited demonstrates appropriately through comparative analysis that such modifications do not degrade the precision or accuracy of the data obtained in using the test method.

In reviewing this recommendation, the Department concluded that criterion S2 might not provide necessary encouragement to modernization especially on new tests and methods undergoing significant development. The Department notes that criterion S1 encourages attention to training of personnel to assure continuous proficiency. The question of whether similar encouragement is needed on the currency of equipment with advances in technology remains open. Such encouragement could be added in an additional subsection dealing with and calling for a review of the laboratories' efforts to maintain knowledge of advancing technology through such means as professional literature, trade and professional meetings, seminars, and professional education, etc. Public comments on these issues are invited.

The Committee also addressed issues associated with the use of subcontractors. It was agreed that in many cases it is not uncommon for even the most accomplished laboratories to employ specialists to perform some specific functions such as preparation of samples, preliminary assessments, or computer and statistical analysis. It was agreed that only a testing laboratory having the measuring facilities and equipment to produce the final test values could be accredited for the test for which accreditation is sought. When subcontracting is performed to obtain test specimens or intermediate values, the testing laboratory producing the final test values would be responsible for the work of the subcontractor. Subcontractors need not be accredited for the test method or for that portion of the test method they conduct in order for accreditation to be granted to the primary testing laboratory.

THE PROPOSED CRITERIA

Compliance by testing laboratories with these general and specific criteria and accreditation of a laboratory by the Secretary shall in no way relieve such laboratory from the necessity of observing and being in compliance with existing Federal, State and local statues, ordinances, and regulations that may be applicable to the operation of such laboratory, including consumer protection and anti-trust laws.

GENERAL CRITERIA

For initial accreditation or continued accreditation, an applicant laboratory shall provide the information listed below for the general product and testing areas for which accreditation is sought.

A single or double asterik preceding a section number identifies section to be included in quality control procedures as explained in section G2.6.

Criterion G1. *The laboratory has an organizational structure that enables it to develop and maintain a testing capability to perform satisfactorily the functions for which accreditation is sought.*

G1.1 A description of the laboratory's organization, including:

*G1.1.1 The complete legal name and address of the main office, or parent company if part of a larger organization;

*G1.1.2 The name and location of the laboratory if different from that stated in G1.1.1;

G1.1.3 A general description of the laboratory, including its equipment and facilities;

G1.1.4 The laboratory's and parent company's principal ownership and management structure, including the names and positions of the principal officers and board of directors;

*G1.1.5 An outline or chart showing the titles or positions of all key management and supervisory personnel in each operating, support, and service unit in the laboratory's functional organization, and their reporting relationships relative to this accreditation request;

**G1.1.6 The names and resumes of the individuals assigned to each of the positions identified in G1.1.5 or the personnel requirements for the individuals occupying those positions.

G1.2 A listing of the relevant technical services performed.

*G1.3 A list of test method standards for which accreditation is sought, showing the approximate number of times each test is performed per year.

NOTE.—This criterion and its sections require a relatively straightforward description of the testing laboratory. The examiner will review data supplied by the laboratory in response to this criterion for appropriate definition of authority and responsibility, for the personnel qualifications, and for consistency between services offered and personnel and facilities available. The inspector will verify data on the facility and organization, and personnel, and conduct appropriately related examinations:

Criterion G2. *The laboratory has and maintains a quality control system to assure the technical integrity of its work.*

**G2.1 A description of the laboratory's system for auditing and monitoring its test work, including procedures for:

G2.1.1 Preventing or reducing testing errors and discrepancies;

G2.1.2 Identifying and correcting known errors and discrepancies;

G2.1.3 Specifying the frequency and the sample size (quantity) of the audit sampling of the test results of testing personnel.

G2.1.4 Obtaining, tracing the validity of, and responding to complaints and charges about the quality of test work.

**G2.2 A description of the laboratory's system for insuring that all test equipment and reference standards are calibrated or verified to the requisite degree of accuracy, including procedures for:

G2.2.1 Maintaining written descriptions of the standardization (calibration and verification) procedures for all test equipment and reference standards;

G2.2.2 Maintaining standardization records, including:

(a) Equipment description or name,

(b) Name of manufacturer,

(c) Model, style, and serial number or other identification,

(d) Equipment variables subject to standardization,

(e) Range of operation and range of standardization,

(f) Resolution of the instrument and allowable error tolerances on readings,

(g) Standardization schedule (intervals),

(h) Date and result of last standardization and date of next standardization,

(i) Name of laboratory person or standardization service providing the above standardization,

(j) Traceability to NBS or other authority as required;

G2.2.3 Insuring that all test equipment is recalled periodically for verification and/or recalibration.

**G2.3 A description of the laboratory's system for assuring that all equipment and facilities are properly maintained (e.g., routine operational checks and upkeep, maintenance of instructions for equipment operation and repair, power sources, electricity, and gases).

**G2.4 A description of the laboratory's system for controlling the flow of work, including procedures for at least the following:

G2.4.1 Specifying work flowfrom reception to reporting;

G2.4.2 Specifying the functions to be performed at each step along the workflow path;

G2.4.3 Data recording, processing and reporting;

G2.4.4 Selecting specimens for testing;

G2.4.5 Retention or disposal of specimens tested.

**G2.5 A description of the laboratory's system for maintaining records, including records of:

G2.5.1 Test reports;

G2.5.2 Data generated during testing;

G2.5.3 Receiving, shipping and disposal of test samples;

G2.5.4 Current regulations, test standards and specifications;

G2.5.5 Personnel (including training);

G2.5.6 Appeals actions contesting results.

G2.6. A copy of the laboratory's quality control manual or procedures which should:

G2.6.1 Explicitly include the information required by the single starred (*) sections of these general and specific criteria;

G2.6.2 Clearly state where in the laboratory this information is maintained or explicitly include the information required by the double starred (**) sections of these general and specific criteria.

V 43 / 190 SEP 29 1978

•G2.6.3 Explicitly include the procedures to be followed for maintaining the manual current and the name or title of the person responsible for implementing those procedures.

NOTE.—In assessing a laboratory's capability to meet this criterion, the examiners, based on data submitted by the laboratory, will be making judgments about the adequacy of the test auditing and monitoring program of the laboratory, about the adequacy of the laboratory's calibration system, about the appropriateness of the laboratory's equipment and facility maintenance, about the laboratory's system for controlling the flow of work, and about the laboratory's system for maintaining records. The inspector will verify the data supplied and examine the laboratory for related information.

The laboratory's quality control system must be documented, by a quality control manual or written procedures. The purpose of the manual is to provide, in one convenient location, detailed descriptions, or clear instructions where such descriptions may be found, of the operating and quality assurance procedures governing the human and material resources of the laboratory. The manual must be available at all times to serve as a guide for the laboratory staff, and procedures must exist for maintaining and periodically updating it. It is subject to review during on-site laboratory inspections by NVLAP personnel. An example of how such a manual might be structured is presented in the American Council of Independent Laboratories (ACIL) publication, *Quality Control, Requirements for a Testing and Inspection Laboratory, Manual of Practice—1976.* As a minimum, the manual should be structured in accordance with sections G2.6.1, G2.6.2, and G2.6.3 above.

Criterion G3. *The laboratory is operated in accordance with generally accepted professional and ethical business practices.*

G3.1 The laboratory has a stated and effective policy which assures that reported values accurately reflect all properly measured data.

G3.2 Documentary evidence assuring that:

G3.2.1 Test work is limited to that for which competence and capacity are available;

G3.2.2 Test data, records, and reports are treated as proprietary information and are released only to such other individuals as the client agrees to in writing;

G3.2.3 Appeals and complaints contesting test results are considered and properly handled.

G.3.3 For a laboratory that is part of a larger organization, dependent on manufacturing or supplier interest: evidence that there is an independent decisional relationship between the testing and other components of the organization. (This may be demonstrated, for example, by a letter of authority from the parent organization management.)

G3.4 For a private laboratory that is not part of a larger manufacturing or supplier organization: Evidence that there is an independent decisional relationship between the laboratory and other organizations, including clients (e.g., a policy declaration or a contract provision that the laboratory's relationship with these organizations are not allowed to affect the laboratory's capacity to render reports of findings objectively and without bias).

NOTE.—The examiners will review data supplied by the laboratory and compare them with other data provided under criteria G1 and G2 to evaluate compliance with this criterion. Particular attention will be paid under this criterion relative to complaints received about the laboratory by the Assistant Secretary. The inspectors will verify data provided and explore with the laboratory personnel individual complaints which may have arisen.

Criterion G4. *During the processing of the application and following accreditation, the laboratory reports to NBS, within specified times, any substantive changes in the laboratory related to the general and specific criteria, and documents these changes as per the original submission.*

G4.1 A description of the change mailed within 30 days following a substantive change relative to the general and specific criteria.

G4.2 Implementation within 45 days of the effective or "official notice" date, whichever is later, of all changes necessitated by a revision in the standard test method, unless another date is established by notice from NBS. (The "official notice" date is the date the organization responsible for the standard test method gives notice in its official publication that the standard has been revised. In some cases the organization may indicate a later "effective" date.)

NOTE.—The examiners will evaluate changes as they may affect other aspects of the criterion and the inspectors will report absence of unreported substantive changes.

SPECIFIC CRITERIA

For *each standard test method* for which accreditation or continued accreditation is sought, an applicatant laboratory shall provide the information required.

Criterion S1. *The laboratory is staffed with trained and experienced personnel competent in the principles and practices of measurement in the area of testing for which accreditation is sought.*

••S1.1 A list of, or the requirements of, the personnel responsible for and capable of conducting the tests specified in the test method, if not specifically addressed in the response to section G1.1.6 of the general criteria.

••S1.2 A description of the specific training program to assure proficiency and uniformity in applying the test method to the requisite degree of accuracy and precision (e.g., methods for ensuring job competence, probationary periods under close supervision, audits of test work performed, and performance reviews with affected personnel).

NOTE.—For each test method for which a laboratory requests accreditation, the examiner will evaluate the competence of the personnel function and the training function. Of concern also would be how personnel newly trained moved into the work force, the nature of periodic reviews of competence, and the kinds of continuous education programs available. The inspector would verify the content and utilization of training programs and as a result of observations made to assess compliance with other specific criteria, would attest to the competence of the personnel.

Criterion S2. *The laboratory's facilities and equipment are appropriate to the functions for which accreditation is sought and are properly maintained.*

••S2.1 A description of the test setups and a list of test instruments used, sufficiently identified to allow correlation with the calibration information requested in criterion S3. (Provide diagrams and photographs, if helpful in demonstrating conformance with the test requirements.)

••S2.2 A description of all special or laboratory-fabricated equipment listed in section S2.1, and evidence that this equipment conforms to the requirements of the test method and assures requisite accuracy and precision. (Provide schematics or shop drawings with annotated photographs, if helpful in demonstrating conformance with the test requirements.)

••S2.3 A description of any auxiliary equipment, facilities, or procedures required by or used for the test method, such as: storage and conditioning of samples; environmental conditions or controls (including how compliance is measured and percentage of time within required limits); automatic data collection, reduction or analysis; housekeeping, safety and custodial care; maintenance of laboratory equipment and facilities.

••S2.4 An inventory of the laboratory's collection of applicable standards and other documents referred to or used for the test method.

••S2.5 Evidence by analytical or other means that the test results are not degraded by the use of equipment or facilities which have received non-critical modifications not in strict conformance with the standard method of test.

NOTE.—For this criterion, the examiner would evaluate the set-ups, instrumentation, special equipment, facilities, etc. of the laboratory as compared to the requirements

of each test method for which accreditation is sought. Evidence would be evaluated to confirm that non-critical modifications have not degraded the test results. The inspector would explore evidence justifying claims made by the laboratory during his visit to the laboratory by comparing selected measurements with the requirement of the test methods.

Criterion S3. *The laboratory's equipment and procedures are standardized (calibrated and verified) periodically.*

••S3.1 A description of the standardization equipment (including diagrams, etc., as appropriate) and a listing of the standardization schedule to ensure continuing adequate performance and accuracy of results.

••S3.2 Either references to recognized standardization procedures or descriptions of standardization procedures used for each laboratory standard and test instrument to assure that all measurements can be made to the requisite precision and accuracy.

••S3.3 A listing of the reference standards and materials being used with the test method, including:

S3.3.1 The source, the identify and latest dates and results of the standardization of the reference standards and materials;

S3.3.2 For other than specifically required standards and standard reference materials, the procedures used to reference the standards to national standards;

S3.3.3 Clear identification and differentiation between reference and working standards.

••S3.4 A listing of the measurement assurance, collaborative reference or other program(s), appropriate to the test method, in which the laboratory participates.

NOTE.—This criterion relates to the laboratory's fundamental program for establishing and maintaining basic references upon which its testing program is built. In some cases, much of the standardization procedures required herein will be part of an overall computerized laboratory program. In other cases, such standardization will be accomplished on a test method by test method basis. The examiners and inspectors will be responsive to evaluation and verification in either case.

Criterion S4. *The laboratory maintains documented and acceptable in-house operating protocols for the test method to assure the requisite degree of accuracy and precision.*

••S4.1 A copy of the in-house instructions, if any, supplementing the instructions of the standard test method, including those necessary for equipment maintenance and calibration checks, sample preparation, testing and disposal, data reduction, and reporting of test results.

••S4.2 A copy of the instructions to the subcontractor, and a description of how the laboratory assures the required precision and accuracy for any highly specialized part of the test method which is subcontracted.

NOTE.—Only that laboratory having the measuring equipment by which final test values are obtained can be accredited.

••S4.3 Evidence by analytical or other means that the use of non-critical variations in the procedure from that specified in the standard test method does not degrade the results of the test.

••S4.4 Evidence demonstrating the capability of satisfactorily complying with the intent of the standard test method when any variation in test equipment or procedures is made necessary by environmental conditions or by special requirements of a product for which accreditation is sought.

••S4.5 A sample test report (with name of client deleted) showing test results accompanied by the raw data and a copy of the worksheet showing the steps to reduce the raw data and the method of data reduction or reference to approprate "calculation" sections of the test protocol or standard.

NOTE.—This criterion deals with the fundamental ability of the laboratory to obtain test results to the required precision and accuracy of the test methods. When reviewing data submitted by the laboratory, the examiner's emphasis will be placed upon evaluation of instructions and procedures for the staff of the laboratory and for any subcontracted segments of the work. The applicability of nonconforming test procedures will also be carefully evaluated. A sample report will be reviewed and the inspectors will look for evidence that such sample reports are typical rather than specially produced for the accreditation program.

REQUEST FOR COMMENTS

Interested persons desiring to comment on the proposed criteria set out above are invited to submit such comments, in four copies, on or before November 13, 1978, to the Assistant Secretary for Science and Technology, Department of Commerce, Room 3864, Main Commerce Building, Washington, D.C. 20230.

Any person desiring to express his or her views in an informal hearing relative to the mentioned proposed criteria shall do so by communicating that desire in writing on or before October 16, 1978, to the Assistant Secretary for Science and Technology at the address shown in the preceding paragraph. Upon receipt of such request, informal public hearings will be held so as to give all interested persons an opportunity for the oral presentation of data, views, or arguments, in addition to the opportunity to make written submissions. If deemed appropriate, such hearings may be held at two locations, one of which shall be east of the Mississippi River and the other west thereof. Notice of such hearings will be published in the FEDERAL REGISTER at least twenty (20) days in advance thereof. A transcript will be made of any oral presentation.

PROCEDURE FOLLOWING RECEIPT OF COMMENTS

Upon receipt of all written and oral comments, the Criteria Committee will be requested to conduct and return to the Assistant Secretary, within a specified time, its evaluation and recommendations with respect to such comments. After considering the Criteria Committee's evaluation and recommendations, the Assistant Secretary will prepare his evaluation and publish in the FEDERAL REGISTER a notice:

(1) Announcing the final general and specific criteria that testing laboratories must meet in order to be accredited and the date when such final criteria shall go into effect which shall not be less than thirty (30) days after the date of publication of such notice;

(2) Stating that the proposed general and specific criteria will be further developed before final publication; or

(3) Withdrawing the proposed general and specific criteria from further consideration.

RELATED INFORMATION

A list of test methods which will be included in this program, along with a statement of the requisite precision and accuracy of each method and an indication of the requisite reference programs is set out in appendix 1. Further research may require that the values for the requisite precision and accuracy or participation in requisite reference programs change during the course of the program. When such changes are developed, they will be published and made effective immediately on publication. Specific information on each test method will be supplied in the questionnaire booklet to a laboratory requesting accreditation.

Although the data presented in appendix 1 are considered part of the operational material of the program and are not part of the criteria, comments from the public are nonetheless solicited at this time, especially as related to the requisite precision and accuracy of those data.

All written and oral comments and testimony that are furnished in response to the invitation made by this notice will be made part of the public record and will be available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 5317, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230.

Dated: September 26, 1978.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

APPENDIX 1. U.S. DEPARTMENT OF COMMERCE NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM (NVLAP)

PROPOSED CRITERIA AND COMPLIANCE INFORMATION SUPPLEMENT FOR THERMAL INSULATION MATERIALS

This table establishes the performance requirements for the initial and continued accreditation of laboratories that test thermal insulation materials. It also specifies the available reference and related programs that help assure that performance.

The performance requirements are specified in terms of the requisite precision and accuracy in applying the test method; that is, the overall precision and accuracy of application involving such potential sources of error as test operator, test environment, test equipment, test protocol and test sample. The capability of a laboratory to perform to these overall requirements is judged from the written information it submits in response to the examination material and from the findings of the on-site inspection. The ability of the laboratory to apply this capability is determined from the results of its performance in a proficiency testing program.

Precision is expressed in terms of repeatability (R) and comparability (C). Repeatability is a measure of the ability of a laboratory to repeat its own test result on the same or essentially identical samples. Comparability is a measure of the ability of a laboratory to compare two materials (intended for the same use), obtaining comparative test results (e.g. difference between or ratio of the two test results) consistent with comparisons obtained by other laboratories. Accuracy (A), is a measure of the ability of a laboratory to obtain a test result in agreement with the "true" or target test result.

The limits specified in the table for precision and accuracy are for "good" performance. Approximately 95 percent of the laboratories should be able to achieve this. Limits approximately 50 percent wider are used to define "acceptable" performance for accreditation purposes. CAUTION: The limits presented in this table for laboratory accreditation purposes should not be interpreted as setting specification limits on products.

In addition to utilizing or participating in the requisite reference programs listed below for each test method, each laboratory should maintain a uniform batch of test specimens for more frequent checks of its performance (or should use other means for this purpose). The sources for the requisite reference programs are listed at the end of the table. The table shows those programs currently available. As other programs become available, especially for methods not now covered, and are determined to be desirable for NVLAP, they will be added to the table.

NVLAP Code Test Method No.	Complexity	Short title (property) subtitle (if applicable)	Requisite precision and accuracy Requisite reference program(s)	
01/D01—ASTM C136	B_1[1]	Sieve or screen analysis	R=4 pct aggregate—A=4.4 pct aggregate.	SRM's 1017a,[2] 1018a, 1019a or NBS sieve verification service.[3]

[1]The letter B followed by a numerical subscript 1, 2, or 3 indicates the complexity of the test method for examination purposes. Subscript 1 indicates relatively simple test methods, subscript 2 indicates moderate test methods and subscript 3 indicates complex text methods.

[2]SRM—Standard reference materials may be obtained from the National Bureau of Standards. Ordering information may be obtained from the Office of Standard Reference Materials, B311 Chemistry Bldg., National Bureau of Standards, Washington, D.C. 20234 (telephone 301-921-2045).

[3]NBS sieve verification service—Information may be obtained from the Dimensional Metrology Section, B104 Metrology Bldg., National Bureau of Standards, Washington, D.C. 20234 (J. Beers, telephone 301-921-2216).

[4]TIM CRP—Collaborative reference program on thermal insulation materials sponsored by the Collaborative Testing Services, Inc. Information may be obtained from NBS Collaborative Reference Programs, B360 Polymer Bldg., National Bureau of Standards, Washington, D.C. 20234 (telephone 301-921-2946).

[5]Laboratory need be in only one CRP of D04, D05 and D07.

[6]TMVS—Testing machine verification service is obtainable from a number of sources. Specify verification to ASTM Standard E4. Most manufacturers of testing machines can provide information on sources of verification service.

[7]Participation in CRP for S01 and S02 is required for accreditation for S01 through S08 and S11, and in either TAPPI CRP or TIM CRP for S01 and S02 for accreditation for S10.

[8]Eligible for accreditation only if accredited for 01/S03.

[9]TAPPI CRP—Collaborative reference program sponsored by the Technical Association of the Pulp & Paper Industry. Information may be obtained from NBS Collaborative Reference Programs, B360 Polymer Bldg., National Bureau of Standards, Washington, D.C. 20234 (telephone 301-921-2946).

[10]Participation in T02 CRP required for C177 accreditation for any material. In addition, T01 or T02 participation required for accreditation for indicated materials.

[11]Not required if in T02.

[12]Not required if in T03.

[13]Not required if in T01.

[14]Eligible for accreditation only if laboratory is accredited for C177, C236 or C518 for same class of materials.

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Estimated Fees and Charges To Accredit Laboratories Which Test Thermal Insulation Materials

In a separate notice appearing in this issue of the FEDERAL REGISTER, the Department of Commerce announced the issuance of proposed criteria for accrediting testing laboratories which test thermal insulation materials. Pursuant to paragraph (a) of section 7.10 of the procedures for a national voluntary laboratory accreditation program (15 CFR Part 7) notice is hereby given of the estimated fees and charges which the Secretary of Commerce (Secretary) proposes to establish for this laboratory accreditation program (LAP). The proposed schedule of estimated fees and charges is furnished for informational and guidance purposes so the public may evaluate the proposed criteria in light of the expected fees to be charged.

The estimated fees and charges are in amounts calculated to cover the cost of examining, accrediting, and auditing laboratories that test thermal insulation materials. The cost associated with developing this LAP has not been included. The estimated fees and charges are intended to pay for the evaluation of information supplied by the laboratory in response to a questionnaire, for onsite inspection of the laboratory facilities, and for the participation of the laboratory in proficiency sample testing programs.

Basis for estimates. These fees and charges are based on the assumption that each laboratory that tests thermal insulation materials will be evaluated every 2 years (plus or minus 3 months), and that approximately one-third of such laboratories will undergo one unannounced reinspection during this period. The bulk of the costs will accrue during the first year of accreditation when each of the laboratories is visited and examined. However, these costs would be spread over a 2-year period so that fees would be charged annually and accreditation (or reaccreditation) would be issued annually. This accreditation procedure would insure a specific review of proficiency sample test results from each laboratory on a scheduled basis and would be a basis for identifying those laboratories which would be subject to the unannounced reinspection.

It is unlikely that any one laboratory will seek accreditation for all 53 test methods which are included in this LAP. Therefore, the fees and charges are of necessity flexible, allowing the total charges to vary with the number and complexity of the individual test methods selected by the laboratory.

Estimated fees and charges. The first element of the estimated fee is composed of a fixed charge to cover personnel costs incurred in the examination of the laboratory to meet the general criteria and basic travel cost of the inspector to the laboratory. To the fixed charge will be added a charge which varies depending upon the number and level(s) of complexity of the test method(s) selected. The fee to any laboratory will be determined by the following equation:

$$F=A+B_1(N_1)+B_2(N_2)+B_3(N_3)$$

where F is the fee in dollars, A is the fixed charge in dollars, B is the variable charge in dollars and N is the number of test methods for which the laboratory requests accreditation. Subscripts 1, 2, and 3 represent the three levels of complexity into which the test methods fall when considered for examination purposes. The fee for the simpler test methods is represented as B_1. N_1 is the number of such test methods. Test methods of intermediate complexity are represented by B_2 and N_2 in the equation, and the most complex test methods are represented by B_3 and N_3. Estimated values for each element in the equation are: A=$650, B_1=$25, B_2=$75, and B_3=$125. The level of complexity for each test method is shown by the letter B with subscript 1, 2, or 3 in the first column of appendix 1 to the FEDERAL REGISTER announcement referenced in the first sentence of this notice.

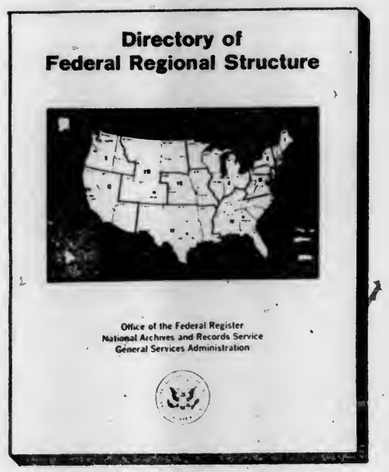
Proficiency sample fees. In addition to the basic inspection and evaluation charges referenced above, there will be a fee associated with participation in proficiency sample tests where such tests are required. The last column in appendix 1 referred to above labeled "Requisite Reference Programs" identifies those test methods for which proficiency sample tests are anticipated. Proficiency sample fees pay for distribution of samples (where appropriate), the collection and analysis of the data, and the reporting of requests. The estimated annual fee for the proficiency sample testing associated with each of the test methods is nominally $80. In arriving at this figure, it has been assumed that two proficiency samples will be provided each year.

Example calculation. In order to clearly illustrate the way the annual fee would be calculated, the following example is provided. If a laboratory was to choose to be accredited for four simple test methods (B_1), three intermediate test methods (B_2) and two complex test methods (B_3), the fee equation would become:

$$F=\$650+\$25(4)+\$75(3)+\$125(2)=\$1,225$$

Added to this would be the cost of proficiency samples. If proficiency sample tests were required for two of these nine test methods at a cost of $80 each, the total cost of proficiency sample testing would be $160. The total annual accreditation fee for the testing laboratory in this example would be $1,385.

Inquiries. Any inquiries may be addressed to Dr. Howard I. Forman, Deputy Assistant Secretary for Product Standards, Room 3876, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-3221.



Dated: September 26, 1978.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

Directory of Federal Regional Structure

[Revised as of May 1, 1978]

The Directory serves as a guide to the regional administrative structure of the departments and agencies of the Federal Government.

Designed to provide the public with practical information about regional offices, the Directory is particularly useful to citizens residing outside the Nation's Capital.

Included in the Directory is a map showing the 10 standard Federal regions followed by tables listing the key personnel, addresses, and telephone numbers for agencies with offices in those regions. In addition, maps and tables are provided for those agencies with regional structures other than that of the standard regional system.

INDEX

This INDEX is based on a consolidation of contents entries appearing in the daily issues of the FEDERAL REGISTER together with broad subject references. It is published monthly, quarterly, and annually.

A general index to the entire code of Federal Regulations, the CFR INDEX AND FINDING AIDS, is revised as of July 1 each year.

Numerical Finding Aids. The LSA, a cumulative list of CFR sections affected, is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

This publication was prepared under the editorial direction of Martha B. Girard assisted by Ruth Pontius, with Nan Whalen and Roy Nanovic as Chief Editors.

INQUIRIES may be made to the Finding Aids Unit at area code 202–523–5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

International Energy Agency Industry Advisory Board, 45631, 50732
International Energy Agency Industry Working Party, 47000
National Petroleum Council, 47606, 50013, 50237
Second National Energy Plan, 46927
Nuclear waste management, draft report; availability, 48683
Regulatory agenda, semiannual, 50812
Southwestern Power Administration Administrator; salary adjustment, 46363
Uranium hexafluoride; charges, enriching services, specifications, and packaging, 49831

ENERGY INFORMATION ADMINISTRATION

NOTICES
Energy emergency management information system; inquiry, 46564

ENGINEERS CORPS

RULES
Danger zones:
California, 49305
Flood control:
Federal participation in covered flood control channels, 47470
Reservoir projects; allocated storage use, 47184

NOTICES
Meetings:
Environmnetal Advisory Board, 46891

ENVIRONMENTAL PROTECTION AGENCY

RULES
Air pollutants, hazardous; National emission standards:
Rhode Island, authority delegation, 47692
Air pollution; standards of performance for new stationary sources:
Rhode Island, authority delegation, 47692
Air pollution control, new motor vehicles and engines:
Northern Mariana Islands; motor vehicle importation and fuel use prohibitions; suspension, 47728
Trucks and vehicles, light-duty; evaporative emission standards; correction, 45583
Air programs; fuels and fuel additives:
Northern Mariana Islands; motor vehicle importation and fuel use prohibitions; suspension, 47728
Air quality control regions; criteria and control techniques:
Attainment status designations, 46003
Air quality implementation plans; approval and promulgation; various States, etc.:
California, 47727
Guam, 48639
Wyoming, 48638
Air quality implementation plans; delayed compliance orders:
Maine, 47728
Ohio, 49537
Washington, 50681, 50682
Air quality implementation plans; preparation, adoption, and submittal:
Lead, National ambient air quality standard, 46269
Air quality standards, National primary and secondary:
Lead, 46258
Environmental impact statements, preparation of:
Water quality management program, 49792
Grants, State and local assistance:
Underground water source protection programs, 47131
Grants; subagreements:
Procurement under EPA grants; minimum standards; effective date change, 47975
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.:
Aldicarb, 47729
Carbaryl, 49305, 50429
2,6-Dimethyl-4-tridecylmorpholine, 50176
Malathion, 45584
N-(Mercaptomethyl) phthalimide S-(O,O-dimethyl phosphorodithioate), 46538
Methidathion, 45363
Terbacil, 49306
Regulatory analysis statements, 47131
Water pollution; effluent guidelines for certain point source categories:
Phosphate manufacturing; revocation, 46020

PROPOSED RULES
Air pollution; ambient air monitoring reference and equivalent methods:
Lead, 46272
Air pollution control, aircraft and aircraft engines:
Turbine engines, large in-use gas; standards; hearings, 45411
Air quality implementation plans; approval and promulgation; various States, etc.
Alabama, 49327
Arkansas, 46869
California, 46870, 50218
Delaware, 45401

McDonnell Douglas, 45380, 46037
Short Brothers, 49989, 50444
Airworthiness standards:
Multiengine small airplanes, reciprocating and turbopropeller powered; increase in approved takeoff weights and passenger seating capacities, 46734, 48653
Operations review program, 46230
Transport category airplanes; aircraft cabin ozone contamination, 46034
Control areas, 45381, 49312
Definitions:
Airworthiness standards; multiengine small airplanes, reciprocating and turbopropellar powered; increase in approved takeoff weights and passenger seating capacities, 46734
Jet routes, 50445
Restricted areas, 49990
Transition area, 45381, 45382, 46038, 46549, 46978, 46979, 48653, 49310, 49311, 49312, 49989
VOR Federal airways, 49313, 49314
NOTICES
Airport and airway system; reduction of nonessential federal expenditures; users inquiry, 46105
Meetings:
Aeronautics Radio Technical Commission, 49387
Air Traffic Procedures Advisory Committee, 46105
Radio Technical Commission for Aeronautics, 45486, 46617
Wake Vortex Alleviation and Avoidance, FAA/NASA Workshop, 49387
Organization and functions:
Control Tower, Martha's Vineyard, Mass.; decommissioning, 46617
Control tower, Newport News, Va.; reduction of hours, 50529
Wake Vortex Alleviation and Avoidance, FAA/NASA workshop, 49387

FEDERAL COMMUNICATIONS COMMISSION

RULES
Cable television (SEE ALSO Radio broadcast services):
Certification procedure replaced by registration, 49008
Domestic public radio services:
Land mobile channels in 13 largest urbanized U.S. areas, 49800
Educational FM broadcast stations (SEE ALSO Radio broadcast services):
Class D, 47975
Experimental broadcast services:
Educational FM stations, class D, 47975
FM broadcast stations; table of assignments (SEE ALSO Radio broadcast services):
California, 49003
Maritime services, land and shipboard stations:
Pilot communications; frequency 156.875 MHz available for exclusive use, 45365
Organization and functions:
Cable Television Bureau, Chief; authority delegation; registration procedure, special relief petitions, 49008
Chief Administrative Law Judge; consolidation of related proceedings; authorization, 49307
Practice and procedure:
Forfeiture procedures, 49308
Reregulation of television and radio broadcasting, 45844, 47507
Radio broadcast services (SEE ALSO Cable television; Educational FM stations; FM stations; Television stations):
Reregulation of television and radio broadcasting, 45844, 47507, 50683
Television broadcast stations; table of assignments (SEE ALSO Radio broadcast services):
Alabama, 46972
PROPOSED RULES
Aviation services:
Aeronautical advisory frequencies, use by aeronautical utility mobile stations, 47220
Aeronautical advisory frequencies; use by ground vehicles at landing areas without control tower or flight service station, 46871, 49017, 49331
Cable television (SEE ALSO Radio broadcast services):
Multiple ownership of AM, FM and television stations and CATV systems; extension of time, 47222
Network non-duplication rules, 48667
Domestic public radio services:
Permission to use "offset" channels in 150 MHz band; extension of time, 46983
FM broadcast stations; table of assignments (SEE ALSO Radio broadcast services):
Arkansas, 47985
Colorado, 46876
Georgia, 46872
Kentucky, 47985
Michigan, 47577, 49552
Missouri, 46871
North Carolina; extension of time, 45620
Oklahoma, 47986
Tennessee, 47985
Texas, 47576, 47986
Virginia, 49552
Wisconsin, 46873
Frequency allocations and radio treaty matters:
Aeronautical advisory frequencies, use by aeronautical utility mobile stations, 47220
Aeronautical advisory frequencies; use by ground vehicles at landing areas without control tower or flight service station, 46871, 49017, 49331
Industrial, scientific, and medical equipment, 46326
Industrial radio services:
Oil transfer operations, permissible communications to aid pollution prevention, 47578
Maritime services, land and shipboard stations:
Mississippi River System; bridge-to-bridge communications frequencies, 45901
Oil transfer operations, permissible communications to aid pollution prevention, 47578
Practice and procedure:
Fee refunds and future fee program; inquiry, 46658
International record carriers; scope of operations in continental U.S.; extension of time, 46982
Radio broadcast services (SEE ALSO Cable television; FM stations; Television stations):
AM stereophonic broadcasting, 48659
Community leader survey, primer amendment; extension of time, 49021
"Community Service" programs, "Public Affairs" program category expansion, etc., 50002
Multiple ownership of AM, FM and television stations and CATV systems; extension of time, 47222
Personal attack; fairness doctrine, 45899, 50005
Public service announcement airing by broadcast licensees; extension of time, 49022
Standard television; transmission of program related signal, 49334
Radio frequency devices:
Television receiver equipment grading, 49550
Telephone companies:
Cross ownership rules, telephone company - cable television; processing policies for waivers; extension of time, 47576
Traffic statistics, detailed reporting, 45892
Telephone network, connection of terminal equipment:
National defense and security, etc.; registration exceptions, 49020
Television broadcast stations; table of assignments (SEE ALSO Radio broadcast services):
California, 46049
Florida, 45620
Florida; extension of time, 49022
Kansas, 47221
Wisconsin, 46875

INDEX

Television broadcast stations (SEE ALSO Radio broadcast services):
Children's programming and advertising practices; inquiry; reactivation; extension of time, 46048
Multiple ownership of AM, FM and television stations and CATV systems; extension of time, 47222
Network practices, commercial; programming acquisition and distribution, 50126
Network representation of TV stations in national spot sales; exemptions, 45895

NOTICES
AM broadcast applications ready and available for processing, 48015, 48710, 49560
Emergency Broadcast System; closed circuit test, 46078
Environmental statements; availability, etc.:
Tucson FM Broadcasting Corp., Ariz.; antenna and transmitter, 48714
Fee refund program; meeting, 50505
FM broadcast applications ready and available for processing, 46581, 46899, 46900, 47282, 48015, 49049
Improving Government regulations, 48707
Meetings:
Fee refund program, 50505
Marine Services Radio Technical Commission, 45477, 50505
Meetings; Sunshine Act, 45942, 46626, 47076, 47359, 47649, 48812, 48813, 49106, 49603, 50280
Mexican standard broadcast stations; notification list, 47610
Minority ownership of broadcasting facilities, distress sale policy clarification, 47612
Public safety and special radio services; corporate applicants; use of current application forms for licenses, 46899
Radio broadcast services:
Multiple ownership of AM broadcast stations, etc.; transmittal sheet corrections, 48013
Real estate brokers, mobile unit licensing; policy clarification, 46581
Rulemaking proceedings, informal; ex parte presentations, 50735
Rulemaking proceedings filed, granted, denied, etc.; petitions by various companies, 46078, 49849
Satellite communications; unauthorized interception and use, 46581
Television broadcast applications ready and available for processing, 46906
World Administrative Radio Conference, 50505
Hearings, etc.:
Charlottesville Broadcasting Associates, Inc., et al., 48712
Faith Center Inc., 47282
Granfalloon Denver-Educational Broadcasting, Inc., et al., 49560

FEDERAL CONTRACT COMPLIANCE PROGRAMS OFFICE

RULES
Equal employment opportunity; compliance responsibility, 49240

FEDERAL COUNCIL ON THE AGING

See Aging, Federal Council.

FEDERAL DEPOSIT INSURANCE CORPORATION

RULES
Applications, requests, and submittals:
Community reinvestment, 47158
Section 19 applications; employment with insured banks, 48622
Community reinvestment, 47151

PROPOSED RULES
Advertisement of membership:
Remote service facility procedures, 46976, 49014
Applications, requests, and submittals:
Remote service facility procedures, 46976, 49014
Forms, instructions, and reports:
Remote service facility procedures, 46976, 49014

NOTICES
International banking:
Puerto Rico; bank branches located in U.S.; FDIC coverage extension, 45919
Meetings:
State and Federal Regulation of Banks Advisory Committee, 48714
Meetings; Sunshine Act, 45687, 45688, 46155, 46922, 47077, 48098, 50280, 50281

FEDERAL DISASTER ASSISTANCE ADMINISTRATION

NOTICES
Disaster and emergency areas:
Arkansas, 46383
California, 50509
Louisiana, 46383

FEDERAL ELECTION COMMISSION

NOTICES
Advisory opinion cumulative index; availability, 50736
Meetings; Sunshine Act, 46155, 46626, 49106, 50539

FEDERAL ENERGY ADMINISTRATION

See Economic Regulatory Administration.

FEDERAL ENERGY REGULATORY COMMISSION

RULES
Freedom of informtion; requests and appeals, 46528
Natural gas companies:
Rate schedules and tariffs; Louisiana First Use Tax, pipeline recovery, 45553
Rate schedules and tariffs; purchased gas cost adjustment clause, 50170
Policy and interpretations:
Natural gas; optional procedure for certificating new producer sales; policy statement, 48992
Practice and procedure:
Freedom of information; request and appeals, 46528

PROPOSED RULES
Natural gas companies:
Alaska Natural Gas Transportation System, conditional certificates of public convenience and necessity; incentive rate of return, 45595
Rate schedules and tariffs; gas cost adjustment clause or general rate cases, 50191
Pipeline companies:
Valuation; hearing change, 47542
Practice and procedure:
Proceedings before the Commission; extension of time, 47542

NOTICES
Committees; establishment, renewals, terminations, etc.:
Pipeline Valuation Advisory Committee, 47605
Environmental statements; availability, etc.:
Sitka, City and Borough of, Alaska; Green Lake Dam, etc., 49048
Western LNG Terminal Associates et al., 50237
Meetings; Sunshine Act, 46155, 46416, 46417, 46626, 47649, 47650, 48813, 48814, 49107, 49411, 50124, 50281, 50282, 50799
Natural gas companies:
Certificates of public convenience and necessity; applications, abandonment of service and petitions to amend, 49350, 49354
Pipeline carriers:
Tentative valuation reports, 47000, 50501
Hearings, etc.:

See Unemployment Compensation, National Commission.

NATIONAL COMMUNICATIONS SYSTEM

NOTICES
Telecommunications; digital communication performance parameters; proposed Federal standard 1033; extension of time, 46086

NATIONAL CREDIT UNION ADMINISTRATION

PROPOSED RULES
Federal Credit Unions:
Investment activities, 47731, 49543

NATIONAL FIRE PREVENTION AND CONTROL ADMINISTRATION

NOTICES
Meetings:
National Academy for Fire Prevention and Control Board of Visitors, 46362

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

See Arts and Humanities, National Foundation.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

RULES
Consumer information:
Tire quality grading, uniform; testing temperature, 50440
Fuel economy standards, average:
Trucks, light, and nonpassenger automobiles, 46547
Passenger automobiles and light trucks, enforcement, 47513
Motor vehicle safety standards:
Air brake systems, 48646
Motorcycle brake systems, 46547
Tire quality grading, uniform; testing temperature, 50440
Tires, new pneumatic, for passenger cars, 45366
Vehicle classification; light trucks and nonpassenger automobiles; 1980-81 models, 46547
PROPOSED RULES
Fuel economy standards, average; passenger automobile; exemption:
Checker Motors Corp., 49336
Motor vehicle in use inspection standards; spacers in suspension systems; report, 48669
NOTICES
Highway safety:
Highway fatality counting rule, 45486
Meetings:
National Highway Safety Advisory Committee, 49389, 50530
Pedestrian Impact Injury Workshop et al., 50067
Motor vehicle safety standards; exemption petitions, etc.:
American Honda Motor Co., Inc., 49389
Budd Co., 49389
General Motors Corp., 47631

INDEX

Jet Industries, Inc., 49390
Marathon Electric Vehicles, Inc.; low emission vehicle, 49388
Modular Ambulance Corp., 47632
Officine Alfieri Maserati S.p.A.; average fuel economy, 46106
Travel Equipment Corp., 47632
Motorized bicycles (Mopeds), safety aspects; inquiry, 47040

NATIONAL INSTITUTE OF EDUCATION

NOTICES
Educational research and development, unsolicited proposals to conduct; reminder of closing date and change in mailing requirements, 50045
Meetings:
Laboratory and Center Operations Review Panel, 47015

NATIONAL INSTITUTES OF HEALTH

NOTICES
Advisory Committees; annual reports filing, 47285
Carcinogenesis bioassay reports; availability:
Allyl chloride, 50253
1-Amino-2-methylanthraquinone, 47289
4-Amino-2-nitrophenol, 45645
3-Amino-9-ethylcarbazole (hydrochloride), 47289
Anilazine, 49055
Aniline hydrochloride, 50741

NATIONAL LABOR RELATIONS BOARD

NOTICES
Meetings; Sunshine Act, 46627, 50124

NATIONAL MEDIATION BOARD

PROPOSED RULES
Representation disputes under Railway Labor Act; time limits on applications, 49015

NOTICES
Meetings; Sunshine Act, 48814

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

RULES
Financial aid to fisheries:
Foreign vessel caused damage in U.S. Fishery Conservation Zone; compensation, 45870
Fishery conservation and management:
Atlantic groundfish, 45874
Foreign fishing; Bering Sea Pacific cod and sablefish; incremental apportionment of allocations, 50442
Surf clam and ocean quahog fisheries; fishing time increase and quota reallocation, 46033
Surf clam and ocean quahog fisheries; fishing time per week reduction, 50442
Surf clam and ocean quahog fisheries; quota adjustment, 50442
Marine mammals:
Dolphin, northern striped; commercial fishing operations; taking prohibited, 46975
Whaling Commission, International; schedule amendments, 47528

PROPOSED RULES
Fishery conservation and management:
Domestic fishing; Gulf of Alaska groundfish, 46349, 47222, 50474
Fishery management plans; development guidelines, 49023
Foreign fishing; Bering Sea Pacific cod and sablefish; incremental apportionment of allocations, 46054
Foreign fishing; Gulf of Alaska groundfish, 46349, 47222, 50474
Foreign fishing; Pacific billfishes and sharks; hearings, 49024
Foreign fishing; trawl and herring gillnet fisheries in Bering Sea, etc.; optimum yield increase, 50473
Halibut off coast of Alaska; draft fishery management plan, 45909, 46054, 50477
Surf clam and ocean quahog fisheries, Atlantic; vessel moratorium extension, 46880
Marine mammals, fish, and reptiles; designated critical habitat:
Sea turtles, Kemp's ridley and loggerhead, 45905, 48669

NOTICES
Endangered species; interagency cooperation:
Salmon (Pacific) and trout (steelhead); Upper Columbia River Basin, 45628
Fishery management plans, environmental statements, meetings, etc.:
Foreign fishing permits; preliminary determinations, 49032
Marine mammal permit applications, etc.:
Alaska, Department of Fish and Game, 45628
Herman, Dr. Louis, 50727
LeBouef, Dr. Burney J., et al., 47994
Quinlan Marine Attractions, 45912

INDEX

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the "Federal Register Index," or both.

LSA (List of CFR Sections Affected)
$10.00
per year

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index **$8.00**
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the LSA (List of CFR Sections Affected) will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

LSA—LIST OF CFR SECTIONS AFFECTED

The LIST OF CFR SECTIONS AFFECTED is designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles, except for Title 41, in which proposed rules follow each chapter.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1–16—as of Jan. 1
17–27—as of April 1
28–41—as of July 1
42–50—as of Oct. 1

To bring these regulations up to date, consult this LIST OF CFR SECTIONS AFFECTED for any changes, additions, or deletions published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing at the front of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Cite a page reference from this publication as 43 FR for 1978 page numbers. Example: Page 15628 cite as 43 FR 15628.

ISSUES TO BE SAVED

There is no single annual issue of the LIST OF CFR SECTIONS AFFECTED. Four ANNUAL ISSUES must be saved: the DECEMBER issue is the ANNUAL for Titles 1–16; the MARCH issue is the ANNUAL for Titles 17–27; the JUNE issue is the ANNUAL for Titles 28–41; the SEPTEMBER issue is the ANNUAL for Titles 42–50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50 which contains references to the U.S. Code sections cited as authority for CFR regulations added or revised since July 1, 1977.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the inclusive page numbers and corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly, quarterly, and annually for the calendar year. A separate volume, the CFR INDEX and finding aids to the entire Code of Federal Regulations, is revised as of July 1 each year.

INQUIRIES AND SUGGESTIONS

This publication was prepared under the editorial direction of Martha B. Girard assisted by Rose Steinman, with Loren Myers and Carol Blanchard as Chief Editors. INQUIRIES, telephone 202–523–5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

TITLE 10—ENERGY

Chapter I—Nuclear Regulatory Commission

0.735–42 (e) amended ... 1929
1.3 (b) amended ... 32741
1.20 Revised ... 30270
1.40 (o) and (p) added ... 28810
2 Heading revised ... 6921, 18989
2.1 Amended ... 6921, 18989
2.101 (a) (3) (ii) and (b) revised ... 46293
2.104 (b) (3) (i) amended ... 7210
Footnote 1 revised ... 30794
2.202 (a) introductory text amended ... 16446
2.402 (b) amended ... 17801
2.706 Amended ... 17801
2.710 Amended ... 17801
2.714 (a), (b), and (c) revised ... 17801
2.714a (a) amended ... 17802
2.715 (a) amended; (c) revised; and (d) added ... 17802
2.716 Revised ... 17802
2.730 (c) amended ... 17802
2.740 (f) amended ... 17802
2.740a (f) amended ... 17802
2.743 (b) amended ... 17802
2.749 (a) amended ... 17802
2.751a (a) amended ... 17802
2.754 (a) and (b) revised ... 17802
2.760 (a) amended ... 17802
2.762 (a) and (b) amended ... 17802
2.771 (b) amended ... 17802
2.772 (c) and (d) amended; (e) through (g) added ... 22346
2.788 (a) and (b) amended ... 17802
2 Appendix A amended ... 7210, 17803
8.3 Removed ... 17803

Title 10, Chapter I—Continued

	Page
9.103 Amended	13055, 37421
9.108 (c) corrected	10
20.103 Footnotes 2 and 3 revised	29270
20.203 (c)(6)(i) corrected	2167
(c)(6) and (7) approval; eff. 3-14-78	5357
(f)(4) added	22172
20.403 (a)(4) amended	2719
20.405 (a) amended	29270
20.407 Revised	44829
20.408 Revised	44829
20 Appendix D amended	32741
21.2 Amended	48621
21.3 (a) amended; (a-1) and (c-1) added	48622
21.7 Amended	48622
30 Heading revised	6921
Effective date confirmed	18989
30.1 Amended	6921
Effective date confirmed	18989
30.3 Amended	6921
Effective date confirmed	18989
30.4 Introductory text, (b), (i), and (q) amended	6921
Effective date confirmed	18989
30.5 Amended	6921
Effective date confirmed	18989
30.6 Amended	6921
Effective date confirmed	18989
30.11 (a) amended; footnote removed	6921

30.12 Amended	6921
Effective date confirmed	18989
30.13 Amended	6921
Effective date confirmed	18989
30.14 (a) and (c) amended	6921
Effective date confirmed	18989
30.15 (a)(10) added	2307
(a) and (b) amended	6921
Effective date confirmed	18989
30.16 Amended	6921
Effective date confirmed	18989
30.18 (c) and (d) amended	6921
Effective date confirmed	18989
30.19 (a) and (b) amended	6921
Effective date confirmed	18989
30.20 (a) and (b) amended	6921
Effective date confirmed	18989
30.31 Amended	6922
Effective date confirmed	18989
30.32 (d) amended	6922
Effective date confirmed	18989
30.33 (a)(4) amended	6922
Effective date confirmed	18989
30.34 Nomenclature change; (c) amended	6922
Effective date confirmed	18989
30.39 Amended	6922
Effective date confirmed	18989
30.41 (b)(6) redesignated as (b)(7); new (b)(6) added	6922
Effective date confirmed	18989
30.51 Nomenclature change; (a) and (c) amended; (c)(2) removed	6922
Effective date confirmed	18989
30.53 Amended	6922
Effective date confirmed	18989
30.54 (a), (b)(1) and (2) amended; (b)(3) and (4) removed	6922
Effective date confirmed	18989
30.55 (c) and (e)(1) amended; (e)(2) and (3) removed	6922
Effective date confirmed	18989
30.61 (a) amended	6922
Effective date confirmed	18989
31 Heading revised	6922
Effective date confirmed	18989
31.2 Amended	6922
Effective date confirmed	18989
31.5 (b) and (c)(7) amended	6922
Effective date confirmed	18989
31.7 (a) and (d) amended	6922
Effective date confirmed	18989
31.8 (b) and (c)(2) amended	6922
Effective date confirmed	18989
31.10 (a) amended	6922
Effective date confirmed	18989
32 Heading revised	6922
Effective date confirmed	18989
32.1 (a) amended	6922
Effective date confirmed	18989
32.14 Heading, introductory text, and (b)(6) amended	6922
Effective date confirmed	18989
32.15 (d) amended	6922
Effective date confirmed	18989
32.16 Heading and text amended	6922
Effective date confirmed	18989
32.17 Heading, introductory text, and (c)(1) amended	6922
Effective date confirmed	18989
32.18 Introductory text amended	6922
Effective date confirmed	18989
32.22 Heading, (a) introductory text and (a)(2)(x) amended	6923
Effective date confirmed	18989
32.25 Heading, (b) and (c) amended	6923
Effective date confirmed	18989
32.26 Heading, introductory text and (b)(10) amended	6923
Effective date confirmed	18989
32.29 Heading, (b) and (c) amended	6923
Effective date confirmed	18989

	Page
32.40 Introductory text amended	6923
Effective date confirmed	18989
32.51 Heading, (a) introductory text, and (3)(iii) and footnote 1 amended	6923
Effective date confirmed	18989
32.52 Introductory text amended	6923
Effective date confirmed	18989
32.53 Heading and introductory text amended	6923
Effective date confirmed	18989
32.54 Nomenclature change; (a) and (b) amended	6923
Effective date confirmed	18989
32.57 Heading and introductory text amended	6923
Effective date confirmed	18989
32.58 Amended	6923
Effective date confirmed	18989
32.61 Heading and introductory text amended	6923
Effective date confirmed	18989
32.62 Introductory text removed	6923
Effective date confirmed	18989
33 Heading revised	6923
Effective date confirmed	18989
33.11 (a), (b), and (c) amended	6923
Effective date confirmed	18989
35.4 Added	37421
Effective date confirmed	47975
35.100 (c)(3)(ix) amended; (c)(3)(x) added	2167
(c)(3)(x) amended; (c)(3)(xi) added	4972
(c)(3)(xi) amended; (c)(3)(xii) added	25994
(c)(3)(v) revised	39748

205.107 (a) amended	14437
205.130 Amended	14437
205.132 (a) and (b) amended	14437
205.134 (a) amended	14437
205.135 (b) amended	14437
205.190 Revised	1931, 3997
205.191 Revised	1931, 3997
205.192 Revised	1932, 3997
205.193 Revised	1932, 3997
205.194 Revised	1932, 3998
205.195 Revised	1932, 3998
205.196 Revised	1932, 3998
205.197 Revised	1933, 3998
205.198 Added	1933, 3999
205.199 Added	1934, 3999
205.199A Added	1934, 3999
205.199B Added	1934, 3999
205.199C Added	1934, 4000
205.199D Added	1934, 4000
205.199E Added	1935, 4001
205.199F Added	1935, 4001
205.199G Added	1936, 4001
205.199H Added	1936, 4001
205.199I Added	1936, 4001
205.199J Added	1936, 4001
205.260—205.270 (Subpart U) Added	39083
209.24 (b) and (c) revised	12854
209.34 (b) and (c) revised; (e) added	12854
210.92 (a) and (d) revised	27781
211 Rulings	1292
Hearing	44468
211.62 Amended	21432, 26545, 49684
211.65 (b)(4) and (i)(3) revised	6208
211.66 (h) revised	26546
(h)(5) revised	33688
(j) revised	49684
211.67 (a)(5) and (d)(8) added	21432
(a)(1) and (4) revised; (g)(6) removed	26546
(b)(2), (g)(2), (i)(4), and (l) revised	33688
(a)(3) and (d)(4) revised	49684
212 Hearing	44468
212.31 Amended	24268
212.54 (b) revised	33697
212.71—212.77 (Subpart D) Appendix amended	10331, 24824, 40685
212.73 (a) revised	33689
212.75 Heading and (c) through (f) revised; (b) amended; (g) added	33697
212.78 Added	33689
212.82 Amended	5800
212.83 (c)(2)(iii) (C) and (E) amended	50388
(c)(2)(iii)(E) amended	50664
212.92 Amended	24268, 50665
212.93 (a) revised	24268
(b)(1)(i) and (1)(ii)(A) revised; (b)(1)(ii)(C) and (1)(ii)(D) added	50665
212.131 (a)(2)(i), (3)(i) and (b)(1) revised	26546
(a)(2)(i), (3)(i), (4), and (b)(1) revised	33691
212.161 Revised	43000
Effective date suspended	50842
212.162 Amended	43000
Effective date suspended	50842
212.165 Revised	43000
Effective date suspended	50842

[1] Chapter II will be renamed to reflect that it contains regulations administered by Energy Department.

CHANGES JANUARY 3 THROUGH OCTOBER 31, 1978

Title 10, Chapter II—Continued

Page

212.166 Redesignated as 212.167; new 212.166 added 43003
Effective date suspended 50842
212.167 Redesignated as 212.168 and (f) removed; new 212.167 redesignated from 212.166 43003
Effective date suspended 50842
212.168 Redesignated as 212.170; new 212.168 redesignated from 212.167 and (f) removed 43003
Effective date suspended 50842
212.169 Redesignated as 212.171; new 212.169 added 43003
Effective date suspended 50842
212.170 Redesignated as 212.172 and revised; new 212.170 redesignated from 212.168 43003
Effective date suspended 50842
212.171 Redesignated as 212.173 and revised; new 212.171 redesignated from 212.169 43003
Effective date suspended 50842
212.172 Redesignated from 212.170 and revised 43003
Effective date suspended 50842
212.173 Redesignated from 212.171 and revised 43003
Effective date suspended 50842
213.5 (a) amended 18990
213.9 (a) and (b) amended 18990

TITLE 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Energy Regulatory Commission, Department of Energy

1.3a (b)(1) amended; (b)(2) redesignated as (4); new (b)(2) and (3) added 20790
1b Added 27176
1.7 (d) revised 36434
1.8 (a)(2), (d), (e), and (f)(2) revised 36434
1.14 (a)(2) amended 36435
1.27 (b)(10) redesignated as (b)(11); new (b)(10) added 36435
1.31 (b)(1)(iv) revised 39983
1.36 (16) redesignated as (17); second (15) redesignated as (16) and revised 41965
(f)(1) and (2) existing texts designated as (f)(1)(i) and (2)(i); (f)(1)(ii) and (2)(ii) added 46528
1.40 Added 35909
2.75 (o) revised 23565
(o) technical modification 48992
3.5 (a), (b), and (d) revised; (c), (f), and (g) added 36435
3.8 (j)(4) amended; (j)(5) added 20790
3.114 (b) revised 40217
3.170 Form No. 69 removed; Form EIA–50 added 27178
4.60 Revised 40217
16.12 Revised 40217
35.2 (c) amended 36437
101 Balance sheet accounts:
Acct. 127 amended 15418
Acct. 215.1 redesignated from Acct. 264 redesignated as Acct. 215.1 and revised 15418
104 Balance sheet accounts:
Acct. 125 amended 15419
Acct. 215.1 redesignated from Acct. 264 and revised 15418
Acct. 264 redesignated as Acct. 215.1 and revised 15419
131.6 Revised 40217
141.1 Form No. 1 amended 15420, 19382
141.2 Form No. 1–F amended 15422
141.13 (c) and Form No. 9 amended 15419

CHANGES APRIL 3 THROUGH OCTOBER 31, 1978

Page

154.38 (h) added 45553
(d)(4)(iv)(a) through (c) revised; (d)(4)(viii) added 50170
157.8 Amended 36437
201 Balance sheet accounts:
Acct. 108 amended 19356
Acct. 111 amended 19356
Acct. 164.2 amended 19356
Acct. 164.3 added 19356
Gas plant accounts:
Subsection 3 heading revised 19357
Accts. 364.1—364.8 added 19357
Gas plant instruction 3 amended 19356
Operation and maintenance expense accounts:
Acct. 804.1 added 19359
Acct. 808 redesignated as Acct. 808.1 19359
Acct. 809 redesignated as Acct. 808.2 19359
201 Operation and maintenance expense accounts—Continued
Acct. 809.1 added 19359
Acct. 809.2 added 19359
Subsection 2 heading revised 19359
Accts. 843 through 848.3 redesignated as 843.1 through 843.9 19359
Accts. 844.1 through 847.8 added 19359
Table of contents corrected 35911
216 Storage plant heading revised 19362
Subsection 3 heading revised 19362
Accts. 361—364 (Subheading B) revised 19362
Acct. 362 heading revised 19362
Acct. 363 revised 19362
Accts. 363.1—363.5 added 19362
Accts. 364.2—364.8 added 19362
260.1 Form No. 2 amended 15420, 19363
Form No. 2 corrected 35912
260.2 Form No. 2–A amended 15422
260.13 (d) revised 34454
260.15 Form No. 69 removed; Form EIA–50 added 27178

675 45909, 46054, 50477

Presidential documents (e.g., Proclamations, Executive Orders, Reorganization Plans) cited as authorities for rules are now being included as a part of this Parallel Table.

Additions to Table 1, July through October 1978

This table lists the sections of the U.S. Code and U.S. Statutes at Large and Presidential documents which are being added to Table 1 as a result of authority citations carried in the *Federal Register* from July through October 1978. Recent legislation is carried by public law number at the end of the list.

Table 1 is in the CFR Index and finding aids revised as of July 1, 1977. Additions from July 1977 through June 1978 are in the June 1978 List of CFR Sections Affected.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, consult the List of CFR Sections Affected above.

V 43 / 191

"The Federal Register—What It Is and How To Use It"

FOR: Any person who uses the Federal Register and the Code of Federal Regulations.

WHAT: Resumption of free Friday workshops presenting:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between Federal Register and the Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHEN: October 13, 27; November 3, 17; or December 1, 15—from 9–11:30 a.m.

WHERE: Office of the Federal Register, Room 9409, 1100 L Street NW., Washington, D.C.

RESERVATIONS: Call Mike Smith, Workshop Coordinator, 202–523–5235.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Table of Effective Dates and Time Periods—October 1978

This table is for use in computing dates certain in connection with documents which are published in the FEDERAL REGISTER subject to advance notice requirements or which impose time limits on public response.

Federal Agencies using this table in calculating time requirements for submissions must allow sufficient extra time for FEDERAL REGISTER scheduling procedures.

In computing dates certain, the day after publication counts as one. All succeeding days are counted except that when a date certain falls on a weekend or holiday, it is moved forward to the next Federal business day. (See 1 CFR 18.17)

A new table will be published monthly in the first issue of each month. January dates are in 1979.

Dates of FR publication	15 days after publication	30 days after publication	45 days after publication	60 days after publication	90 days after publication
October 2	October 17	November 1	November 16	December 1	January 2

IMPROVING GOVERNMENT REGULATIONS

SCHEDULE OF SEMIANNUAL AGENDAS OF REGULATIONS

Executive order 12044, Improving Government Regulations, (43 FR 12661) requires that executive agencies publish semiannual agendas of significant regulations under development. At a minimum each agenda is to describe the regulations being considered by the agency, the need for and legal basis for the action being taken, the name and telephone number of a knowledgeable agency official, and the status of regulations previously published.

The agencies have chosen the following dates to publish their agendas. The Office of the Federal Register compiled this schedule as a public service.

If necessary, additions to the following schedule will be published on Tuesday, October 10, 1978.

ACTION	Jan. 8, 1979; July 9, 1979.
Administrative Committee of the Federal Register	Jan. 8, 1979; July 9, 1979.
Agriculture Department	Nov. 15, 1978; May 15, 1979.
American Battle Monuments Commission	Nov. 6, 1978; May 7, 1979.
Commerce Department	Feb. 15, 1979; Aug. 15, 1979.
Committee for Purchase from the Blind and Other Severely Handicapped	Dec. 1, 1978; June 1, 1979.
Community Services Administration	Nov. 10, 1978; May 11, 1979.
Defense Department	Nov. 30, 1978; May 30, 1979.
Energy Department	Oct. 31, 1978; Apr. 30, 1979.
Environmental Protection Agency	Nov. 1, 1978; Feb. 1, 1979; May 1, 1979; Aug. 1, 1979.
Environmental Quality Council	Jan. 5, 1979; July 5, 1979.
Equal Employment Opportunity Commission	Jan. 31, 1979; July 31, 1979.
Farm Credit Administration	Oct. 31, 1978; Mar. 30, 1979.
Federal Mediation and Conciliation Service	May 1, 1979; Oct. 1, 1979.
General Services Administration	Nov. 17, 1978; May 18, 1979.
Health, Education, and Welfare Department	Dec. 1, 1978; June 1, 1979.
Housing and Urban Development Department	Dec. 15, 1978; June 15, 1979.
Interior Department	Jan. 15, 1979; July 16, 1979.
Justice Department	Mar. 1, 1979; Sept. 1, 1979.
Management and Budget Office	Dec. 1, 1978; June 1, 1979.
National Aeronautics and Space Administration	Oct. 2, 1978; April 2, 1979.
National Credit Union Administration	Dec. 15, 1978; June 30, 1979.
National Foundation on the Arts and the Humanities	Nov. 1, 1978; Apr. 2, 1979.
National Science Foundation	Dec. 1, 1978; June 1,, 1979.
Pension Benefit Guaranty Corporation	Dec. 22, 1978; June 22, 1979.
Railroad Retirement Board	Jan. 31, 1979; July 31, 1979.

Title 3—The President

Executive Order 12085 — **September 28, 1978**

Creating an Emergency Board To Investigate a Dispute Between the Norfolk and Western Railway Company and Certain of its Employees

A dispute exists between the Norfolk and Western Railway Company and certain of its employees represented by the Brotherhood of Railway, Airline and Steamship Clerks, Freight Handlers, Express and Station Employes, a labor organization;

This dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

This dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by the authority vested in me by Section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), it is hereby ordered as follows:

1-101. *Establishment of Board.* There is established a board of three members to be appointed by the President to investigate this dispute. No member of the board shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier.

1-102. *Report.* The board shall report its finding to the President with respect to the dispute within 30 days from the date of this Order.

1-103. *Maintaining Conditions.* As provided by Section 10 of the Railway Labor Act, as amended, from this date and for 30 days after the board has made its report to the President, no change, except by agreement, shall be made by the Norfolk and Western Railway Company, or by its employees, in the conditions out of which the dispute arose.

Jimmy Carter

THE WHITE HOUSE,

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[1505-01]

Title 1—General Provisions

CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

CFR CHECKLIST

1977/1978 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1977 and 1978. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

For a checklist of current CFR volumes comprising a complete CFR set, see the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription service to all revised volumes is $400 domestic, $100 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

CFR Unit (Rev. as of Jan. 1, 1978):

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Delegation of Authority Under Capper-Volstead Act

AGENCY: Department of Agriculture.

ACTION: Final rule.

SUMMARY: The Secretary of Agriculture has determined that, in order better to carry out the functions conferred upon him by section 2 of the Capper-Volstead Act, authority to perform certain of such functions—including the issuance of a complaint against a cooperative association of producers—should be delegated to the Director of Economics, Policy Analysis and Budget.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert L. Siegler, Deputy Director, Research and Operations Division, Office of the General Counsel, U.S. Department of Agriculture, 202-447-6035.

V 43 / 191

Accordingly, Part 2, Subtitle A, Title 7, Code of Federal Regulations is amended by adding to § 2.27 the following new paragraph (b)(13) to read as follows:

§ 2.27 Delegations of authority to the Director of Economics, Policy Analysis and Budget.

* * * * *

(b) *Related to farmer cooperatives, economics research, and statistical reporting.* * * *

(13) Exercise the functions vested in the Secretary by the first sentence of section 2 of the Capper-Volstead Act (7 U.S.C. 292), i.e., all functions of the Secretary under that section up through and including issuance of a complaint requiring an association of producers to show cause why an order should not be made directing it to cease and desist from monopolization or restraint of trade.

* * * * *

(5 U.S.C. 301 and Reorganization Plan No. 2 of 1953.)

Dated: September 25, 1978.

BOB BERGLAND,
Secretary.

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 29—TOBACCO INSPECTION

U.S. Type 31—Burley Tobacco; Experimental Sales in Untied Form

AGENCY: Agricultural Marketing Service.

ACTION: Final rule.

SUMMARY: Exclusively for the 1978-79 burley marketing season, the Official Standard Grades for Burley Tobacco, U.S. Type 31, grown primarily in Kentucky, Tennessee, Ohio, Indiana, Virginia, North Carolina, West Virginia, and Missouri are amended to permit burley tobacco, heretofore eligible for all official grades only when marketed tied in hands, to be also eligible for all official grades when marketed untied in bales in limited quantities and during specified times during the season for educational and research purposes.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Leonard J. Ford, Director, Tobacco Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-7235.

SUPPLEMENTARY INFORMATION: A notice was published on July 6, 1978, (43 FR 29129) that the Department was considering a modification of the Official Standard Grades for Burley Tobacco, U.S. Type 31, pursuant to the authority contained in the Tobacco Inspection Act (49 Stat. 731, U.S.C. 511 et seq.).

During the 1974-75 and 1975-76 burley marketing seasons, the Department cooperated with the University of Kentucky which was conducting experimental sales of untied baled burley tobacco. In these experiments, Federal tobacco graders applied unofficial grades to the tobacco. This unofficial grading involved a determination by the Federal grader as to the official grade a particular lot of tobacco would have warranted if the lot had been properly prepared for market and displayed as part of a regularly scheduled auction. In the 1976-77 season, experimental sales were conducted, using both baled tobacco and tobacco packed loose on burlap sheets, by the Universities of Kentucky and Tennessee and various State farm bureaus. Again, only unofficial grades were applied by Government graders. Experimental sales were discontinued during the 1977-78 season and the Council for Burley Tobacco appointed a committee to further study the entire project. Subsequent to this study the Council made recommendations to the Secretary of Agriculture for the conducting of further experimental sales of baled barley tobacco in the 1978-79 marketing year.

Based on numerous requests from the burley industry and, particularly, on the recommendations of the Council, the Department proposed solely for the 1978-79 season and solely for experimental purposes, that on certain days during the season Federal graders apply official grades eligible for price-support to limited quantities of untied burley tobacco packed straight in bales and offered for sale at auction throughout the entire burley production area.

Numerous comments on the proposal were received by the Department. After a thorough analysis and evaluation of those comments, the Department is hereby modifying the Official Standard Grades for Burley Tobacco as proposed with certain clarifications.

The majority of comments received favored the amendment as proposed. The points made by these commentators include:

1. Increased cost pressures caused by the large amount of labor required to grow burley tobacco have already forced many small producers to abandon the crop in favor of other commodities that lend themselves to one or two-man farming. This alone could pose a threat to the stability of this country's burley supplies. Also, the lack of availability of farm labor in burley growing areas has placed an added squeeze on farmers. Preliminary research efforts indicate that untied sales could result in substantial savings in farmers' labor requirements compared to the traditional tied-in-hands method.

2. Bales require less skill on the part of workers in the stripping room, therefore, burley could be stripped in a drier condition; grading in the barn is easier, and loading and unloading for the trip to market is faster and easier.

The major objection voiced by opponents was that the quality of untied, baled tobacco would deteriorate in comparison to the traditionally tied-in-hands method of marketing. This objection, of course, is one the Department has been aware of since "untied" burley sales were first requested in 1974. The possible quality deterioration exists and producers will require an advance educational program stressing quality maintenance in order to avoid it. Experimental sales are to be in effect for one full marketing season, 1978-79. During this time, the Department will observe, particularly, the quality of the product, and it will be one of the factors considered in determining whether permanent changes in the Burley Standards should be made.

Many commentors recommended that sales of burley loose on burlap sheets also be permitted. However, the Council for Burley Tobacco, after its study of various packaging alternatives, declined to recommend such inclusion. The Department in its determination to cooperate with the Council, therefore, declines to expand the one-year experimental program to include sheeting of tobacco.

The majority of the buying concerns remained neutral on the "tied-untied" burley issue, but expressed concern over not having recourse to growers when some bales in a lot are inferior to the one inspected. This experimental program contemplated by the Council for Burley Tobacco and adopted by the Secretary will provide adequate recourse by the buyer to the particular warehouse, along with adequate recourse by the warehouse to the particular producer. The Department feels that educational programs, for the benefit of growers, conducted by the land-grant colleges will alleviate the greater part of this problem. The integrity of the producer must be respected and, as stated in the proposal, "the producer, by offering baled burley tobacco for sale, certifies that the bale inspected by a grader is representative of the grade of all the tobacco in that lot * * *." Based on the one-year experimental nature of this change in marketing practices, if certain bales in a lot are found to be inferior this would point out that further educational programs are needed and different requirements on the grower submitting baled tobacco for sale might be necessary.

Several commentors recommended that a referendum be held to determine if producers favored the untied, baled burley tobacco program. The Tobacco Inspection Act does not contain authority for the holding of a binding referendum on this point. Of course, this does not preclude the holding of an advisory referendum in the future if the 1978-79 experimental phase proves acceptable to the industry and the Department determines it is in the best interests of all concerned to proceed with amending its regulations to provide for sales of "untied" burley tobacco.

Several commentors objected to restrictions, in the definition of "rework," by the words, "that the bales do not contain any foreign matter or material." The commentors' objection to this phrase was based on their belief that even if one sucker, stalk, string, rubberband, etc., was found in the bale during the inspection process that the entire lot would be graded "No-G." This is not the case, however, as substantiated by Rule 8 of the Official Standard Grades for Burley Tobacco which reads: "In determining the grade of a lot of tobacco, the lot as a whole shall be considered. Minor irregularities which do not affect over one percent of the tobacco shall be overlooked." Rule 8 would apply to both methods of burley tobacco marketing: baled or the traditional "tied-in-hands" method. Therefore, no change in wording is necessary, and the portion of "rework" in question is hereby adopted as proposed.

In response to other comments received and upon further consideration of the proposed modifications, the following shall be included in the definition of "rework" § 29.3050, for the 1978-79 marketing season only.

(1) The leaves in the bales must not be tied in hands;

(2) The bales may contain only untied tobacco packed straight; and

(3) The size of the bales must be approximately 1 x 2 x 3 feet in size. Additionally, a fourth point will be included as follows:

(4) Only untied, baled tobacco which is identified by filed certifications under 7 CFR, Part 1464 of the regulations governing the price support program as being part of the experiment will receive an official, price-supported grade.

Such baled burley tobacco shall be officially graded only during 5 sales days at each warehouse during the 1978-79 season. Such sale dates shall be determined by the Burley Sales Committee or other appropriate organization, however, three of the sale dates shall be during 3 separate weeks preceding the Christmas holiday recess and two of the sale dates shall be during 2 separate weeks after the recess.

Responsibilities imposed upon warehousemen and producers, respectively, by the adoption of the Department's proposal include:

1. It is the responsibility of the operator of a warehouse to open the particular bale in a lot of tobacco chosen by a grader for inspection and to reseal that bale after inspection; and

2. The producer is responsible for certifying that the bale inspected by a grader is representative of the grade of all the tobacco in that lot, and that the leaf was stalk-cured, that the bales do not contain any foreign matter or material and that the bales are not nested.

The Department's instructions to graders will be amended to conform to these understandings.

Accordingly, § 29.3050 of the regulations is hereby amended as follows:

§ 29.3050 Rework.

Any lot of tobacco which needs to be resorted or otherwise reworked to prepare it properly for market in the manner which is customary in the type area, including: (a) Tobacco which is so mixed that it cannot be classified properly in any grade of the type because the lot contains a substantial quantity of two or more distinctly different grades which should be separated by sorting; (b) tobacco which contains an abnormally large quantity of foreign matter or an unusual number of muddy or extremely dirty leaves which should be removed; and (c) tobacco not tied in hands, not packed straight, not properly tied, or otherwise not properly prepared for market: *Provided*, That during the burley marketing season which will begin in November or December 1978 and end by April 1979, burley tobacco which is offered for sale in bales shall not be considered to require rework if the tobacco in said bales is not tied in hands, is packed straight, the size of the bale is approximately 1 x 2 x 3 feet and is identified by filed certifications under 7 CFR, Part 1464 of the regulations governing the price support program as being part of the experiment. *Provided further*, That: (1) Tobacco marketed untied in bales will be officially graded only during 5 sales days at each warehouse which sale dates may be determined by the Burley Sales Committee or other appropriate organization; however, three of the sale dates shall be during 3 separate weeks preceding the Christmas holiday recess and two of the sale dates shall be during 3 separate weeks after the recess; (2) the operator of any warehouse at which baled burley tobacco is offered for sale shall open and later close and secure the particular bale, in a lot of tobacco, chosen by a grader for inspection; and (3) the producer, by offering baled burley tobacco for sale, certifies that the bale inspected by a grader is representative of the grade of all the tobacco in that lot, that the leaf was stalk-cured, that the bales do not contain any foreign matter or material and are not nested.

Dated: September 26, 1978.

JERRY C. HILL,
Deputy Assistant Secretary.

[3410-02]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Pear Reg. 17, Amdt. 1]

PART 927—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Extension of Effective Period for Minimum Quality Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment continues through November 1, 1978, certain quality requirements applicable to fresh shipments of Beurre D'Anjou pears shipped from designated areas of Oregon and Washington. This action is necessary to assure that the pears shipped will be of suitable quality in the interest of consumers and producers.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Notice was published in the FEDERAL REGISTER issue of August 1, 1978 (43 FR 33732), that the Depart-

OCT 2 1978

V 4 3 / 1 9 1

0 C 2 7 8

UMI

ment was giving consideration to a proposal submitted by the Control Committee to amend § 927.317 by changing the expiration date thereof from October 1, 1978, to November 1, 1978. The notice invited interested persons to submit written data, views, or arguments on the proposal not later than September 8, 1978. No such material was received.

This amendment to pear regulation 17 is to be issued under the applicable provisions of the amended marketing agreement and Order No. 927 (7 CFR part 927), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The regulation requires that Beurre D'Anjou variety of pears shipped from Oregon and Washington be accompanied by a certificate indicating that core temperatures have been lowered to 35 degrees fahrenheit or less; and those pears for domestic shipment must have an average pressure test of 14 pounds or less. The quality regulation hereinafter provided is necessary to prevent the handling during the specified period of any Beurre D'Anjou pears of lower quality than specified so as to provide satisfactory quality fruit in the interest of producers and consumers consistent with the declared policy of the act.

After consideration of all relevant matters presented, including the recommendations made by the committee and other available information, it is hereby found that the regulation, as hereinafter set forth, is in accordance with the said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) Shipments of D'Anjou pears are currently in progress and to effectuate the declared policy of the act, the regulation, as hereinafter amended, should be extended without interruption during the specified period; (2) compliance with the regulation will not require any special preparation on the part of handlers which cannot be completed by the effective time hereof; and (3) the provisions of this amendment are identical with the recommendation of the committee which was published in the aforesaid notice.

The provisions of § 927.317 (Pear Regulation 17; 43 FR 31119) are hereby amended to read as follows:

§ 927.317 Pear regulation 17.

(a) During the period August 1 through November 1, 1978, no handler shall ship any Beurre D'Anjou variety of pears, grown in the following Districts, unless such pears are handled in accordance with paragraph (1) of this section:

(1) Beurre D'Anjou pears shipped from the Medford, Hood River-White Salmon-Underwood, Wenatchee, and Yakima Districts shall have an appropriate certification by the Federal-State Inspection Service, issued prior to shipment, showing that the core temperature of such pears has been lowered to 35 degrees fahrenheit or less and any such pears for domestic shipment shall have an average pressure test of 14 pounds or less.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 27, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-27789 Filed 9-29-78; 8:45 am]

[3410-02]

PART 966—TOMATOES GROWN IN FLORIDA

Expenses, Rate of Assessment, and Carryover of Unexpended Funds

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses of $122,000 and establishes a rate of assessment of one-half cent ($0.005) per 30-pound equivalent of tomatoes for the functioning of the Florida Tomato Committee. The regulation will enable the committee to collect assessments from first handlers on all assessable tomatoes handled and to use the resulting funds for its expenses.

EFFECTIVE DATE: August 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to marketing order No. 966, as amended (7 CFR Part 966), regulating the handling of tomatoes grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the committee, established under the marketing order, and upon other information, it is found that the expenses and rate of assessment, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rulemaking and that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), as the order requires that the rate of assessment for a particular fiscal period shall apply to all assessable tomatoes handled from the beginning of such period. Handlers and other interested persons were given an opportunity to submit information and views on the expenses and assessment rate at an open meeting of the committee. It is necessary to effectuate the declared purposes of the act to make these provisions effective as specified.

The regulation is as follows:

§ 966.215 Expenses, rate of assessment and carryover of unexpended funds.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending July 31, 1979, by the Florida Tomato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $122,000.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be one-half cent ($0.005) per 30-pound container or equivalent quantity, of tomatoes handled by him as the first handler thereof during the fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 966.44(a)(2).

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 26, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-SO-59, Amdt. No. 39-3309]

PART 39—AIRWORTHINESS DIRECTIVES

Gulfstream American Corp. Model GA-7

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires the removal of original fuel system valves and replacement with a modified, reidentified fuel selector valve in Gulfstream American Model GA-7 airplanes. The AD is needed to prevent locking of the fuel selector valve in one position, thus preventing its being moved to another position, adversely affecting operation of the fuel system.

DATES: Effective date—October 9, 1978.

ADDRESSES: The applicable Service Bulletin No. ME-10 may be obtained from the Gulfstream American Corp. (formerly Grumman American Aviation Corp.), P.O. Box 2206, Savannah, Ga. 31402. A copy of that service bulletin is contained in room 264, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, Southern Region, 3400 Whipple Street, East Point, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

W. S. Thomas, Engineering and Manufacturing Branch, Flight Standards Division, FAA, 3400 Whipple Street, East Point, Ga. 30320, telephone 404-763-7435.

SUPPLEMENTARY INFORMATION: The FAA has determined that on fuel selector valves installed in Gulfstream American Model GA-7 airplanes an accumulation of tolerances on a ball detent that maintains the valve in selected positions may permit a ball to enter the detent position sufficiently that excessive force is required to reposition the valve. In one instance, the valve could not be moved. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which will require the removal of the original fuel selector valves and replacement with redesigned and reidentified fuel selector valves on Gulfstream American Model GA-7 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

Gulfstream American Corp. (GAC) (formerly Grumman American Aviation Corp.) (GAAC): Applies to Model GA-7 serial Nos. GA7-001 through GA7-0039.

Compliance is required within the next 25 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent a hazard to the airplane caused by excessive force required to move the fuel selector valve from one position to another position, accomplish the following:

(1) Remove the two original fuel selector valves, Gerdes Part No. A980-5, and install two new improved fuel selector valves, Gerdes Part No. A980-7, utilizing the procedures and precautions contained in GA-7 maintenance manual, section 28-2-1, pages 202 and 204, fuel selector valve removal, and fuel selector valve installations.

(2) After the Gerdes Part No. A980-7 fuel selector valve installation has been completed in accordance with the above maintenance manual procedures, set each selector to ON, OFF, and CROSSFEED positions while observing each selector valve to insure that the valve operates correctly, no fuel leakage occurs, and a positive detent is noted at each position selected on the valve.

(Gulfstream American Service Bulletin No. ME-10, dated Aug. 16, 1978, applies to this same subject.)

This amendment becomes effective October 9, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.89).)

Issued in East Point, Ga., September 21, 1978.

PHILLIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 78-ASW-31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Georgetown, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to alter the transition area at Georgetown, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing a new instrument approach procedure to the Georgetown Municipal Airport. The circumstance which created the need for the action was the establishment of a nondirectional radio beacon (NDB) on the airport to provide capability for flight under instrument flight rules (IFR) procedures to the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On July 27, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 32435) stating that the Federal Aviation Administration proposed to alter the Georgetown, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. We received no objections to the proposal. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation regulations (14 CFR 71) alters the Georgetown, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing the newly established instrument approach procedure to the Georgetown Municipal Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows:

In subpart G, 71.181 (43 FR 440), the following transition area is altered to read:

GEORGETOWN, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Georgetown Municipal Airport (latitude

V 4 3 / 1 9 1

30°40'45" N., longitude 97°40'45" W.), within 3.5 miles each side of the 358° bearing from the NDB (latitude 30°41'03" N., longitude 97°40'45" W.) extending from the 5-mile radius to 11.5 miles northwest of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Fort Worth, Tex., on September 21, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[FR Doc. 78-27689 Filed 9-29-78; 8:45 am]

[4910-13]

[Airspace Docket No. 78-CE-14]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW POINT ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area—Larned, Kans.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to alter the 700-foot transition area at Larned, Kans., to provide additional controlled airspace for aircraft executing a new instrument approach procedure to the Larned-Pawnee County Airport which is based on an existing nondirectional radio beacon (NDB), a navigational aid installed on the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION: An additional instrument approach procedure to the Larned-Pawnee County Airport, Larned, Kans., is being established utilizing an NDB installed on the airport. The establishment of a new instrument approach procedure based on this navigational aid entails alteration of the transition area at Larned, Kans., at and above 700 feet above the ground (AGL) within which aircraft are provided air traffic control service. The intended effect of this action is to insure additional adequate controlled airspace for aircraft executing this new instrument approach procedure.

DISCUSSION OF COMMENTS

On pages 28208 and 28209 of the FEDERAL REGISTER dated June 29, 1978, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of part 71 of the Federal Aviation Regulations so as to alter the transition area at Larned, Kans. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the notice of proposed rulemaking.

Accordingly, subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440) is amended effective 0901 G.m.t., December 28, 1978, by altering the following transition area:

LARNED, KANS.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the Larned, Kans. NDB located at latitude 38°12'16" N, longitude 99°05'17" W, and within 3 miles either side of the 276° bearing from the NDB, extending from 5.5-mile radius to 8 miles west of the NDB, and within 3 miles either side of the 001° bearing from the NDB extending from the 5.5-mile radius to 8 miles north of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Kansas City, Mo., on September 18, 1978.

JOHN E. SHAW,
Acting Director,
Central Region.

[FR Doc. 78-27445 Filed 9-29-78; 8:45 am]

[4910-13]

[Airspace Docket No. 78-CE-71]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW POINT ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area—Marysville, Kans.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to designate a 700-foot transition area at Marysville, Kans., to provide controlled airspace for aircraft executing a new instrument approach procedure to the Marysville Municipal Airport, Marysville, Kans., which is based on a nondirectional radio beacon (NDB) navigational aid installed on the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION: The city of Marysville, Kans., has installed a nondirectional radio beacon (NDB) on the airport. The establishment of an instrument approach procedure based on this navigational aid entails designation of a transition area at Marysville, Kans., at and above 700 feet above the ground (AGL) within which aircraft are provided air traffic control service. The intended effect of this action is to insure segregation of aircraft using the new approach procedure under instrument flight rules (IFR) and other aircraft operating under visual flight rules (VFR).

DISCUSSION OF COMMENTS

On page 28209 of the FEDERAL REGISTER dated June 29, 1978, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of part 71 of the Federal Aviation Regulations so as to designate a transition area at Marysville, Kans. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the notice of proposed rulemaking.

Accordingly, subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), is amended effective 0901 G.m.t., December 28, 1978, by adding the following new transition area:

MARYSVILLE, KANS.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of Marysville Municipal Airport, Marysville, Kans.; latitude 39°51'12" N., longitude 96°37'49" W.; within 3 miles each side of the Marysville NDB 357° bearing extending from the 5.5-mile radius area to 8 miles north of the airport; and within 3 miles each side of the Marysville NDB 147° bearing extending from the 5.5-mile radius area to 8 miles southeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Mo., on September 18, 1978.

JOHN E. SHAW,
Acting Director, Central Region.

[4910-13]

[Airspace Docket No. 77-AL-11]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Designation of Area High Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates two area high routes over the Gulf of Alaska to provide additional routings between Anchorage, Alaska, and Seattle, Wash. This action will increase the efficiency of airspace use by permitting uninterrupted climb/descent for air traffic between Anchorage and Seattle.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. John Watterson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8525.

SUPPLEMENTARY INFORMATION:

HISTORY

On July 20, 1978, the FAA proposed to amend subpart D of part 75 of the Federal Aviation Regulations (14 CFR Part 75) to designate two area high routes southeast of Anchorage to provide additional routings for air traffic operating between Anchorage and Seattle (43 FR 31163). Interested persons were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. The comment received expressed no objection. This amendment is that proposed in the notice. Section 75.400 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 730).

THE RULE

This amendment to part 75 of the Federal Aviation Regulations (14 CFR Part 75) designates J-886R and J-997R southeast of Anchorage to provide better air traffic handling between Anchorage and Seattle. Aircraft departing/landing Anchorage via current routings are frequently stair-stepped during climb/descent until conflicting traffic is no longer a factor. Designation of these routes will provide lateral airspace for uninterrupted climb/descent to/from cruising altitudes.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart D of part 75 of the Federal Aviation regulations (14 CFR Part 75) as republished (43 FR 730) is amended, effective 0901 G.m.t., December 28, 1978, as follows:

§ 75.400 [Amended]

Under § 75.400, the following is added:

J-886R Anchorage, Alaska, to Yakutat, Alaska:

Waypoint, Name, Location, and Reference Facility
NOWEL, 60°29'01" N., 148°38'01" W., Anchorage, Alaska.
ARISE, 60°00'02" N., 146°09'06" W., Middleton Island, Alaska.
KONKS, 59°33'04" N., 144°00'00" W., Middleton Island, Alaska.
KILLA, 58°45'00" N., 140°35'00" W., Yakutat, Alaska.

J-997R Anchorage, Alaska, to Annette Island, Alaska:

Waypoint Name, Location, and Reference Facility
NOWEL, 60°29'01" N., 148°38'01" W., Anchorage, Alaska.
TONTS, 59°51'06" N., 146°18'00" W., Middleton Island, Alaska.
DUNKS, 57°58'07" N., 140°14'00" W., Yakutat, Alaska.
HOLLI, 56°40'00" N., 137°00'00" W., Biorka Island, Alaska.
MOCHA, 54°29'05" N., 133°00'02" W., Annette Island, Alaska.

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510); Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Washington, D.C., on September 21, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 4]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Subpart K—Employment—Wages—Self—Employment—Self-Employment Income

DEEMED FILING OF WAIVER OF TAX EXEMPTION BY RELIGIOUS, CHARITABLE, OR OTHER ORGANIZATION DESCRIBED IN SECTION 501(c)(3) OF THE INTERNAL REVENUE CODE

AGENCY: Social Security Administration, HEW.

ACTION: Final regulation.

SUMMARY: Certain religious, charitable, educational, or other organizations are excluded from social security coverage unless they file a waiver certificate of tax exemption from taxes under the Federal Insurance Contributions Act (FICA). Some of these organizations did not file a waiver certificate but nevertheless paid social security taxes under the Federal Insurance Contributions Act (FICA) on the wages paid to their employees. These amendments add a provision which reflects legislation allowing these organizations, under certain circumstances, to be deemed to have elected to cover the services of their employees under social security even though the organization failed to file the waiver certificate or was granted a refund of the taxes paid on the reported wages.

EFFECTIVE DATE: The regulations are effective October 2, 1978.

COMMENTS DUE: Consideration will be given to any comments submitted in writing on or before December 1, 1978.

ADDRESSES: Send comments to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Md. 21203. Copies of all comments received in response to the regulations will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 5131, 330 Independence Avenue SW., Washington, D.C. 20201.

V 43/191
OCT 2 78

FOR FURTHER INFORMATION CONTACT:

Mr. Kenneth J. Dyer, Legal Assistant, Social Security Administration, 6401 Security Boulevard, Baltimore, Md. 21235, telephone 301-594-7454.

SUPPLEMENTARY INFORMATION: Services performed as an employee of a religious, charitable, educational, or other organization that is exempt from income taxes under section 501(c)(3) of the Internal Revenue Code of 1954 (IRC), are excluded from social security coverage. However, the employing organization may file a certificate (see sec. 3121(k) of the IRC) waiving its tax exempt status from social security taxes. A study by the General Accounting Office in 1975 revealed that a substantial number of these organizations had not filed waiver certificates with the Internal Revenue Service. The study further showed that these organizations were nevertheless reporting wages and paying social security taxes on them. Pub. L. 94-563, approved on October 19, 1976, made it possible for employees of such organizations to receive social security coverage for the reported wages.

Pub. L. 94-563 amended both the Social Security Act and the IRC. It provides that if the organization failed to file the waiver certificate but paid social security taxes under the Federal Insurance Contribution Act on wages paid its employees for three or more consecutive calendar quarters after 1972, it will be deemed to have filed the certificate. Section 312 of Pub. L. 95-216, further amended only section 3121(k) of the IRC, to change social security tax provisions in light of Pub. L. 94-563.

Public Law 94-563 and Pub. L. 95-216 are discussed only in general terms since the provisions relating to the filing of a waiver certificate, the collection and refund of social security taxes and coverage of organizations and their employees' taxes, are contained in the Internal Revenue Code of 1954 and are the responsibility of the Internal Revenue Service. Consequently, the regulations refer the user to the appropriate IRC provisions. The regulations are being published as final regulations since a notice of proposed rulemaking is unnecessary in that the regulations merely reflect the provisions of statutes already in effect.

Accordingly, the amendments are adopted as set forth below.

(Secs. 205, and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended, 42 U.S.C. 405 and 1302 as amended.)

(1977 Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security—Disability Insurance, 13.803, Social Security—Retirement Insurance; 13.804, Social Security—Special Benefits for Persons Age 72 and Over; and 13.805, Social Security—Survivors Insurance.)

Dated: August 15, 1978.

DON WORTMAN,
Acting Commissioner of Social Security.

Approved: September 27, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary of Health, Education, and Welfare.

Part 404 of title 20 of the Code of Federal Regulations is amended as set forth below:

1. In § 404.1016 the heading and paragraph (a) are revised to read as follows:

§ 404.1016 Election of coverage by religious, charitable, educational, or other organizations exempt from income tax.

(a) *General.* Services performed by an employee in the employ of a religious, charitable, educational, or other organization described in section 501(c)(3) of the Internal Revenue Code of 1954 which is exempt from income tax under section 501(a) of the Internal Revenue Code of 1954 (sec. 101(6) of the Internal Revenue Code of 1939) are excepted from employment. This exception does not apply to services performed during the period for which a form SS-15, Certificate Waiving Exemption From Taxes Under the Federal Insurance Contributions Act, is filed under paragraph (a)(1) of this section, or an organization is deemed to have filed a waiver certificate under paragraph (a)(2) of this section.

(1) *Formal election of coverage—Filing of form SS-15, Certificate Waiving Exemption From Taxes Under the Federal Insurance Contributions Act, and form SS-15a, List of Concurring Employees.* Form SS-15 and form SS-15a, filed under section 3121(k) of the Internal Revenue Code of 1954, have the effect of covering services performed by an employee:

(i) Whose signature appears on the form SS-15a, List of Concurring Employees (or a supplemental list); or

(ii) Who became an employee of the organization after the calendar quarter in which the form SS-15 was filed; or

(iii) Who became a member of a group of employees as described in section 3121(k)(1)(E) of the Internal Revenue Code of 1954 after the calendar quarter in which the form SS-15 was filed with respect to that group.

(2) *No certificate filed—deemed filing of waiver certificate.* Under certain conditions, an organization which has never filed a waiver certificate but has reported wages and paid social security taxes for its employees shall be deemed: (i) To have filed a waiver certificate waiving its social security tax exemption, and (ii) to have elected to cover the services of its employees under social security. Each employee listed on the filed wage reports shall be deemed to have concurred in the filing of the certificate and/or having his or her services covered. The authority and conditions with respect to the deemed filing of a waiver certificate and employee coverage for social security purposes are found in section 3121(k) of the Internal Revenue Code of 1954.

(3) *Coverage of individual employees.* In order for the remuneration for services performed by employees of organizations described in paragraph (a)(2) of this section to be considered wages from covered employment as defined in § 404.1026(a)(2), the employee (or his or her representative) must:

(i) Request that the remuneration be considered wages from covered employment when a deemed filed certificate is not effective for certain periods because of section 3121(k)(4)(C) of the Internal Revenue Code; or

(ii) Request that the remuneration be considered wages from covered employment when, for periods between March 31, 1972, and the date a deemed filed certificate is effective, the remuneration was reported for social security purposes and the employer has obtained a refund or credit for the social security taxes paid on that remuneration.

The request must be in writing and filed with either the Social Security Administration or the Internal Revenue Service on or before April 15, 1980. The written request should identify the employer or employers, the periods in which the services were performed and the approximate amount of wages paid in these periods. The employee must show that he has paid to the Internal Revenue Service his share of the social security taxes due on his wages or that he has made arrangements with the Internal Revenue Service to make the required payment.

[8320-01]

Title 38—Pensions, Bonuses and Veterans' Relief
CHAPTER I—VETERANS ADMINISTRATION
PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

RATING CONSIDERATIONS RELATIVE TO SPECIFIC DISEASES

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: The Veterans Administration is amending its regulations governing service connection for tuberculosis. The law currently provides that active tuberculosis developing within 3 years from the date of separation from active service may be presumptively service connected. The Veterans Administration, by regulation, added additional presumptive periods of 6 months for minimally advanced tuberculosis, 9 months for moderately advanced tuberculosis, and 12 months for far advanced tuberculosis. This was done on the advice of medical authorities on the theory that those degrees of advancement indicated preexistence of the disease by the specified periods. This theory is no longer tenable. "Diagnostic Standards and Classification of Tuberculosis and Other Mycobacterial Diseases" published by the American Lung Association has discontinued classification of tuberculosis as minimal, moderate, or far advanced and such classifications are no longer taught or used in modern medical practice. The major effect of this change is to remove the regulatory presumptions of 6, 9, and 12 months which are in addition to the 3-year statutory presumption. This brings the regulation into accord with the statute and current medical standards.

EFFECTIVE DATE: September 19, 1978.

FOR FURTHER INFORMATION CONTACT:

T. H. Spindle, 202-389-3005.

SUPPLEMENTARY INFORMATION: On pages 28824-28826 of the FEDERAL REGISTER of July 3, 1978, there was published a notice of proposed regulatory development to amend §§ 3.307, 3.370, 3.371, 3.374, 3.375, and 3.378 relative to abrogating the presumptions that tuberculosis manifest during the fourth year after service may be considered to be service connected.

Interested persons were given 30 days to submit comments, suggestions, or objections to the proposed regulation changes. Four comments were received. The first commentator favored retaining the 4-year presumptive period but offered no evidence or argument to support her position. The second commentator wanted the "change in time limit to also be related to all other diseases * * *" but did not explain what was meant by that comment. The third commentator wanted the 4-year presumptive period extended to 10 years but cited no medical evidence to warrant adoption of his proposal. The fourth commentator suggested that the Veterans Administration use Mantoux skin tests to determine whether a case of tuberculosis was service connected. The procedure would require that the test be given at induction and then 90 days after discharge. This suggestion cannot be adopted because the Mantoux skin test has not been universally given at induction and the Veterans Administration has no authority to require a former service member to report for such a test 90 days after discharge.

The proposed regulatory changes are adopted without amendment.

Approved: September 19, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

1. In § 3.307, paragraph (c) is revised to read as follows:

§ 3.307 Presumptive service connection for chronic, tropical, or prisoner of war related disease; wartime and service on or after January 1, 1947.

* * * * * *

(c) *Prohibition of certain presumptions.* No presumptions may be invoked on the basis of advancement of the disease when first definitely diagnosed for the purpose of showing its existence to a degree of 10 percent within the applicable period. This will not be interpreted as requiring that the disease be diagnosed in the presumptive period, but only that there be then shown by acceptable medical or lay evidence characteristic manifestations of the disease to the required degree, followed without unreasonable time lapse by definite diagnosis. Symptomatology shown in the prescribed period may have no particular significance when first observed, but in the light of subsequent developments it may gain considerable significance. Cases in which a chronic condition is shown to exist within a short time following the applicable presumptive period, but without evidence of manifestations within the period, should be developed to determine whether there was symptomatology which in retrospect may be identified and evaluated as manifestation of the chronic disease to the required 10-percent degree. The consideration of service incurrence provided for chronic diseases will not be interpreted to permit any presumption as to aggravation of a preservice disease or injury after discharge.

* * * * * *

2. In § 3.370, paragraph (b) is revised to read as follows:

§ 3.370 Pulmonary tuberculosis shown by X-ray in active service.

* * * * * *

(b) *Inactive disease.* Where the veteran was examined at time of entrance into active service but X-ray was not made, or if made, is not available and there was no notation or other evidence of active or inactive reinfection type pulmonary tuberculosis existing prior to such entrance, it will be assumed that the condition occurred during service and direct service connection will be in order for inactive pulmonary tuberculosis shown by X-ray evidence during service in the manner prescribed in paragraph (a) of this section, unless lesions are first shown so soon after entry on active service as to compel the conclusion, on the basis of sound medical principles, that they existed prior to entry on active service.

* * * * * *

3. In § 3.371, paragraphs (a) and (c) are revised to read as follows:

§ 3.371 Presumptive service connection for tuberculous disease; wartime and service on or after January 1, 1947.

(a) *Pulmonary tuberculosis.* (1) Evidence of activity on comparative study of X-ray films showing pulmonary tuberculosis within the 3-year presumptive period provided by § 3.307(a)(3) will be taken as establishing service connection for active pulmonary tuberculosis subsequently diagnosed by approved methods but service connection and evaluation may be assigned only from the date of such diagnosis or other evidence of clinical activity.

(2) A notation of inactive tuberculosis of the reinfection type at induction or enlistment definitely prevents the grant of service connection under § 3.307 for active tuberculosis, regardless of the fact that it was shown within the appropriate presumptive period.

* * * * * *

(c) *Tuberculous pleurisy and endobronchial tuberculosis.* Tuberculous pleurisy and endobronchial tuberculosis fall within the category of pulmonary tuberculosis for the purpose of service connection on a presumptive basis. Either will be held incurred in service when initially manifested within 36 months after the veteran's

V 43/191 OCT 2 78

separation from service as determined under § 3.307(a)(2).

* * * * *

4. In § 3.374, paragraph (d) is revoked.

§ 3.374 Effect of diagnosis of active tuberculosis.

* * * * *

(d) [Revoked]

5. In § 3.375, paragraph (a) is revised to read as follows:

§ 3.375 Determination of inactivity (complete arrest) in tuberculosis.

(a) *Pulmonary tuberculosis.* A veteran shown to have had pulmonary tuberculosis will be held to have reached a condition of "complete arrest" when a diagnosis of inactive is made.

* * * * *

6. Section 3.378 is revised to read as follows:

§ 3.378 Changes from activity in pulmonary tuberculosis pension cases.

A permanent and total disability rating in effect during hospitalization will not be discontinued before hospital discharge on the basis of a change in classification from active. At hospital discharge, the permanent and total rating will be discontinued unless (a) the medical evidence does not support a finding of complete arrest (§ 3.375), or (b) where complete arrest is shown but the medical authorities recommend that employment not be resumed or be resumed only for short hours (not more than 4 hours a day for a 5-day week). If either of the two aforementioned conditions is met, discontinuance will be deferred pending examination in 6 months. Although complete arrest may be established upon that examination, the permanent and total rating may be extended for a further period of 6 months provided the veteran's employment is limited to short hours as recommended by the medical authorities (not more than 4 hours a day for a 5-day week). Similar extensions may be granted under the same conditions at the end of 12 and 18 months periods. At the expiration of 24 months after hospitalization, the case will be considered under § 3.321(b) if continued short hours of employment is recommended or if other evidence warrants submission.

[8320-01]

PART 4—SCHEDULE FOR RATING DISABILITIES

Updating the Schedule for Rating Disabilities

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: The Veterans Administration is amending its regulations to provide additional ratings for prosthetic implants to both the upper and lower extremities, to redefine the criteria for the 100-percent evaluation for rheumatic, hypertensive, and arteriosclerotic heart disease and to include a rating for coronary artery bypass. Also, the degrees of advancement of tuberculosis have been eliminated and instructions for continuing the total rating for malignant growths of the brain and spinal cord for 2 years following cessation of treatment have been included. These changes were made to conform to advances in medical science and surgery and to make the evaluations for the various heart diseases more realistic. Also additional charts for rating multiple losses of extremities, and loss of vision due to concentric contraction of field vision have been included. In compliance with Pub. L. 94-168, the "Metric Conversion Act of 1975," all measurements on the rating schedule have been metricated.

EFFECTIVE DATE: September 22, 1978. An amendment to appendix A, table of amendments and effective dates since 1946, is added to include effective dates.

FOR FURTHER INFORMATION CONTACT:

Robert C. Macomber, Chief, Rating Policy Staff, Compensation and Pension Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, 202-389-2635.

SUPPLEMENTARY INFORMATION: On pages 28826 through 28840 of the FEDERAL REGISTER of July 3, 1978, the Veterans Administration published a notice of proposed regulatory development to amend 38 CFR part 4 to include the additional material summarized above.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations. Three written comments were received. The first commentator requested information relative to the discontinuance of the various degrees of advancement of pulmonary tuberculosis, particularly how this change would affect claims pending adjudication. The inquirer was informed that all claims pending on the effective date of approval of the change will be adjudicated under the criteria in effect prior to the change. Only those claims received after the effective date of this change will be adjudicated under the new criteria; and, all claims adjudicated under the old criteria and properly on the rolls will remain undisturbed insofar as service connection is concerned. The second comment was complimentary in nature, took no exception to the proposed changes but objected to the fact that the Veterans Administration did not grant service connection for his several claimed disabilities. The third comment was received from the American Optometric Association requesting that the requirement of an ophthalmologist to conduct the muscle function test described in § 4.77 of the rating schedule be changed since optometrists are qualified to conduct that examination. We are in agreement with the suggestion and have changed ophthalmologist to examiner.

In conformity with Pub. L. 94-168, the "Metric Conversion Act of 1975," diagnostic code 7802 has been included to metricate the measurement of 1 square foot, which was inadvertently omitted in the proposed change of July 3, 1978. Also the heading immediately preceding codes 6701 through 6724 has been changed to read "Ratings for Pulmonary Tuberculosis Entitled on August 19, 1978," and put in abbreviated language to conform to a similar heading for pulmonary tuberculosis entitled after August 19, 1978.

Approved: September 22, 1978.

MAX CLELAND,

Administrator of Veterans Affairs.

1. Section 4.17 is revised to read as follows:

§ 4.17 Total disability ratings for pension based on unemployability and age of the individual.

All veterans who are basically eligible and who are unable to secure and follow a substantially gainful occupation by reason of disabilities which are likely to be permanent shall be rated as permanently and totally disabled. For the purpose of pension, the permanence of the percentage requirements of § 4.16 is a requisite. The percentage requirements, however, are reduced on the attainment of age 55 to a 60 percent rating for one or more disabilities, with no percentage requirements for any one disability. The requirement at age 60 through 64 will be a 50 percent rating for one or more disabilities. A veteran who has become 65 years of age or older, or became unemployable after age 65, is conclusively presumed to be permanently and totally disabled by statute; hence, rating action for this purpose is unnecessary. When the reduced percentage requirements are met, and the disabilities involved are of a permanent nature, a rating of permanent and total disability will be assigned if the veteran is found to be unable to secure and follow substantially gainful employment by reason of such disability. Prior employment or unemployment status is immaterial if in the judgment of the rating board the veteran's disabilities render him or her unemployable. In making such determinations, the following guidelines will be used:

(a) Marginal employment, for example, as a self-employed farmer or other person, while employed in his or her own business, or at odd jobs or while employed at less than half the usual remuneration will not be considered incompatible with a determination of unemployability, if the restriction, as to securing or retaining better employment, is due to disability.

(b) Claims of all veterans who fail to meet the percentage standards but who meet the basic entitlement criteria and are unemployable, will be referred by the rating board to the Adjudication Officer under § 3.321(b)(2) of this chapter.

§ 4.17a [Amended]

2. Section 4.17a is amended by deleting the sentence following paragraph (b).

§ 4.18 [Amended]

3. Section 4.18 is amended by deleting the word "cases" and inserting the word "claims" in the third sentence.

§ 4.19 [Amended]

4. Section 4.19 is amended by adding a semicolon after the word "disability" and deleting the word "cases" and inserting the word "claims" in the first sentence.

5. Section 4.53 is revised to read as follows:

§ 4.53 Muscle patterns.

Every movement calls into action the muscles necessary for that movement constituting a definite muscle pattern which is invariable for that movement. None of the muscles can be left out of action in performing the movement nor can any other muscle be called into play to execute the movement. Every movement requires full efficiency, the full complement of muscles included in its specific pattern. If one, or more, of the group is injured or destroyed the efficiency of the movement is permanently impaired. It is the distortion of the intricate mechanism of muscle structures, the intermuscular binding, the obliteration of fascial planes and welding of aponeurotic sheaths that results in permanent residual disabilities. The typical symptoms associated with severe muscle injuries are: Fatigue rapidly coming on after moderate use of the affected muscle groups; pain occurring shortly after the incidence of fatigue sensations, the type of pain being that which is characteristic of and normally associated with prolonged severe muscular effort (fatigue-pain); inability to make certain movements with the same degree of strength as before injury; uncertainty in making certain movements, particularly when made quickly. When the subjective evidence in an individual claim appears as the natural result of a pathological condition shown objectively, and particularly when consistent from time of first examination, i.e., when obviously not based upon information given to the claimant by previous examiners or relayed to him or her from the claims file, it will be given due weight.

§ 4.54 [Amended]

6. Section 4.54 is amended by adding the words "of disability" after the word "type" in the first, fifth, and sixth sentences.

7. In § 4.55, paragraph (b) is revised to read as follows:

§ 4.55 Principles of combined ratings.

* * * * *

(b) Two or more severe muscle injuries affecting the motion (particularly strength of motion) about a single joint may be combined but not in combination receive more than the rating for ankylosis of that joint at an "intermediate" angle, except that with severe injuries involving the shoulder girdle and arm, the combination may not exceed the rating for unfavorable ankylosis of the scapulohumeral joint. Claims of an unusually severe degree of disability involving the shoulder girdle and arm or the pelvic girdle and thigh muscles wherein the evaluation under the criteria in this section appears inadequate may be submitted to the Director, Compensation and Pension Service for consideration under § 3.321(b)(1) of this chapter.

* * * * *

8. Section 4.56 is amended as follows:

(a) By amending "History and complaint" in paragraph (c) as set forth below:

(b) By deleting the word "Faradism" and inserting "faradic current" in the sixth sentence of "Objective findings" in paragraph (d).

§ 4.56 Factors to be considered in the evaluation of disabilities residual to healed wounds involving muscle groups due to gunshot or other trauma.

* * * * *

(c) *Moderately severe disability of muscles.*

* * * * *

History and complaint. Service department record or other sufficient evidence showing hospitalization for a prolonged period in service for treatment of wound of severe grade. Record in the file of consistent complaint of cardinal symptoms of muscle wounds. Evidence of unemployability because of inability to keep up with work requirements is to be considered, if present.

* * * * *

§ 4.60 [Revoked]

9. Section 4.60 is revoked.

§ 4.63 [Amended]

10. Section 4.63 is amended by adding "(8.9 cms.)" after "3½ inches" in paragraph (a).

§ 4.71 [Amended]

11. Section 4.71 is amended by adding "(See Plate III)" after the word "joints" and deleting the word "inches" and inserting "centimeters" in the last sentence.

12. In § 4.71a, the following revisions and additions are made to read as follows:

(a) Diagnostic code 5003 is revised;

(b) A new center title, Prosthetic Implants, and diagnostic codes 5051, 5052, 5053, 5054, 5055, and 5056 are added;

(c) Following diagnostic code 5111, a new Table II is added;

(d) Under "Amputations: Lower Extremity," diagnostic code 5166 is revised and diagnostic code 5174 is revoked;

(e) Under "The Elbow and Forearm," diagnostic codes 5211 and 5212 are revised;

(f) Under "The Wrist," the NOTE following diagnostic code 5214 is revised;

(g) Under "Multiple Fingers: Unfavorable Ankylosis", subparagraph (3) preceding diagnostic code 5216 and paragraph (b) following diagnostic code 5219 are revised;

(h) Under "Multiple Fingers: Favorable Ankylosis", subparagraph (3) preceding diagnostic code 5220 and paragraph (a) following diagnostic code 5223 are revised;

(i) Under "Ankylosis of Individual Fingers", the NOTE following diagnostic code 5227 is revised;

(j) Under "The Knee and Leg", diagnostic code 5264 is revoked; and

(k) Under "Shortening of the Lower Extremity", diagnostic code 5275 is revised.

§ 4.71a Schedule of ratings—musculoskeletal system.

ACUTE, SUBACUTE, OR CHRONIC DISEASES

. . . . . .

	Rating
	5003 Arthritis, degenerative (hypertrophic or osteoarthritis).
Degenerative arthritis established by X-ray findings will be rated on the basis of limitation of motion under the appropriate diagnostic codes for the specific joint or joints involved (DC 5200 etc.). When however, the limitation of motion of the specific joint or joints involved is noncompensable under the appropriate diagnostic codes, a rating of 10 pct is for application for each such major joint or group of minor joints affected by limitation of motion, to be combined, not added under diagnostic code 5003. Limitation of motion must be objectively confirmed by findings such as swelling, muscle spasm, or satisfactory evidence of painful motion. In the absence of limitation of motion, rate as below:	
With X-ray evidence of involvement of 2 or more major joints or 2 or more minor joint groups, with occasional incapacitating exacerbations	20
With X-ray evidence of involvement of 2 or more major joints or 2 or more minor joint groups	10

NOTE (1). The 20 pct and 10 pct ratings based on X-ray findings, above, will not be combined with ratings based on limitation of motion.

NOTE (2). The 20 pct and 10 pct ratings based on X-ray findings, above, will not be utilized in rating conditions listed under diagnostic codes 5013 to 5024, inclusive.

. . . . . .

PROSTHETIC IMPLANTS

	Rating	
	Major	Minor
5051 Shoulder replacement (prosthesis).		
Prosthetic replacement of the shoulder joint:		
For 1 year following implantation of prosthesis	100	100
With chronic residuals consisting of severe, painful motion or weakness in the affected extremity	60	50
With intermediate degrees of residual weakness, pain or limitation of motion, rate by analogy to diagnostic codes 5200 and 5203	30	20
Minimum rating		
5052 Elbow replacement (prosthesis).		
Prosthetic replacement of the elbow joint:		
For 1 year following implantation of prosthesis	100	100
With chronic residuals consisting of severe painful motion or weakness in the affected extremity	50	40

PROSTHETIC IMPLANTS—Continued

	Rating	
	Major	Minor
With intermediate degrees of residual weakness, pain or limitation of motion rate by analogy to diagnostic codes 5205 through 5208.		
Minimum evaluation	30	20
5053 Wrist replacement (prosthesis).		
Prosthetic replacement of wrist joint:		
For 1 year following implantation of prosthesis	100	100
With chronic residuals consisting of severe, painful motion or weakness in the affected extremity	40	30
With intermediate degrees of residual weakness, pain or limitation of motion, rate by analogy to diagnostic code 5214.		
Minimum rating	20	20

NOTE.—The 100 pct rating for 1 year following implantation of prosthesis will commence after initial grant of the 1-month total rating assigned under § 4.30 following hospital discharge.

	Rating
5054 Hip replacement (prosthesis).	
Prosthetic replacement of the head of the femur or of the acetabulum:	
For 1 year following implantation of prosthesis	100
Following implantation of prosthesis with painful motion or weakness such as to require the use of crutches	[1]90
Markedly severe residual weakness, pain or limitation of motion following implantation of prosthesis	70
Moderately severe residuals of weakness, pain or limitation of motion	50
Minimum rating	30
5055 Knee replacement (prosthesis).	
Prosthetic replacement of knee joint:	
For 1 year following implantation of prosthesis	100
With chronic residuals consisting of severe painful motion or weakness in the affected extremity	60
With intermediate degrees of residual weakness, pain or limitation of motion rate by analogy to diagnostic codes 5256, 5261, or 5262.	
Minimum rating	30
5056 Ankle replacement (prosthesis).	
Prosthetic replacement of ankle joint:	
For 1 year following implantation of prosthesis	100
With chronic residuals consisting of severe painful motion or weakness	40
With intermediate degrees of residual weakness, pain or limitation of motion rate by analogy to 5270 or 5271.	
Minimum rating	20

[1] Also entitled to special monthly compensation.

NOTE (1). The 100 pct rating for 1 year following implantation of prosthesis will commence after initial grant of the 1-month total rating assigned under § 4.30 following hospital discharge.

NOTE (2). Special monthly compensation is assignable during the 100 pct rating period the earliest date permanent use of crutches is established.

AMPUTATIONS: LOWER EXTREMITY

. . . . .

	Rating
5166 Forefoot, amputation proximal to metatarsal bones (more than one-half of metatarsal loss)	[2]40

[2] Also entitled to special monthly compensation.

. . . . .

5174 [Revoked.]

THE ELBOW AND FOREARM

. . . . .

	Rating	
	Major	Minor
5211 Ulna, impairment of.		
Nonunion in upper half, with false movement:		
With loss of bone substance (1 inch (2.5 cms.) or more) and marked deformity	40	30
Without loss of bone substance or deformity	30	20
Nonunion in lower half	20	20
Malunion of, with bad alignment	10	10
5212 Radius, impairment of.		
Nonunion in lower half, with false movement:		
With loss of bone substance (1 inch (2.5 cms.) or more) and marked deformity	40	30
Without loss of bone substance or deformity	30	20
Nonunion in upper half	20	20
Malunion of, with bad alignment	10	10

. . . . .

THE WRIST

5214 Wrist, ankylosis of

. . . . .

NOTE.—Extremely unfavorable ankylosis will be rated as loss of use of hands under diagnostic code 5125.

. . . . .

MULTIFLE FINGERS: UNFAVORABLE ANKYLOSIS

. . . . .

(3) With only one joint of a digit ankylosed or limited in its motion, the determination will be made on the basis of whether motion is possible to within 2 inches (5.1 cms.) of the median transverse fold of the palm; when so possible, the rating will be for favorable ankylosis, otherwise unfavorable.

. . . . .

5219 • • •

(b) The ratings for codes 5216 through 5219 apply to unfavorable ankylosis or limited motion preventing flexion of tips to within 2 inches (5.1 cms.) of median transverse fold of the palm.

. . . . .

MULTIPLE FINGERS: FAVORABLE ANKYLOSIS

. . . . .

(3) With only one joint of a digit ankylosed or limited in its motion, the determination will be made on the basis of whether motion is possible to within 2 inches (5.1 cms.) of the median transverse fold of the palm; when so possible, the rating will be for favorable ankylosis, otherwise unfavorable.

. . . . .

5223 • • •

(a) The ratings for codes 5220 through 5223 apply to favorable ankylosis or limited motion permitting flexion of the tips to within 2 inches (5.1 cms.) of the transverse fold of the palm. Limitation of motion of less than 1 inch (2.5 cms.) in either direction is not considered disabling.

. . . . .

ANKYLOSIS OF INDIVIDUAL FINGERS

. . . . .

5227 • • •

NOTE.—Extremely unfavorable ankylosis will be rated as amputation under diagnostic codes 5152 through 5156.

THE KNEE AND LEG

. . . . .

5264 [Revoked]

SHORTENING OF THE LOWER EXTREMITY

	Rating
5275 Bones, of the lower extremity, shortening of:	
Over 4 inches (10.2 cms.)	[2]60
3½ to 4 inches (8.9 cms. to 10.2 cms.)	[2]50
3 to 3½ inches (7.6 cms. to 8.9 cms.)	40
2½ to 3 inches (6.4 cms. to 7.6 cms.)	30
2 to 2½ inches (5.1 cms. to 6.4 cms.)	20
1¼ to 2 inches (3.2 cms. to 5.1 cms.)	10

[2] Also entitled to special monthly compensation.

NOTE.—Measure both lower extremities from anterior superior spine of the ilium to the internal malleolus of the tibia. Not to be combined with other ratings for fracture or faulty union in the same extremity.

§ 4.73 [Amended]

13. Section 4.73 is amended as follows:

(a) The spelling of the word "Maissiat's" is corrected in diagnostic codes 5314 and 5317.

(b) The spelling of the word "iliacus" is corrected in diagnostic code 5316.

(c) Footnote 4 in diagnostic code 5317 is revised to read: "[4] If bilateral, see § 4.64 for consideration of special monthly compensation for loss of use of buttocks."

14. Section 4.76 is revised and § 4.76a, Table III, Figure 1 and example of computation of concentric contraction are added so that the revised and added material reads as follows:

§ 4.76 Examination of field vision.

Measurement of the visual field will be made when there is disease of the optic nerve or when otherwise indicated. The usual perimetric methods will be employed, using a standard perimeter and 3 mm. white test object. At least 16 meridians 22½ degrees apart will be charted for each eye. (See Figure 1. For the 8 principal meridians, see Table III.) The charts will be made a part of the report of examination. Not less than 2 recordings, and when possible, 3 will be made. The minimum limit for this function is established as a concentric central contraction of the visual field to 5°. This type of contraction of the visual field reduces the visual efficiency to zero. Where available the examination for form field should be supplemented, when indicated, by the use of target screen or campimeter. This last test is especially valuable in detection of scotoma.

§ 4.76a Computation of average concentric contraction of visual fields.

The extent of contraction of visual field in each eye is determined by recording the extent of the remaining visual fields in each of the eight 45 degree principal meridians. The number of degrees lost is determined at each meridian by subtracting the remaining degrees from the normal visual fields given in Table III. The degrees lost are then added together to determine total degrees lost. This is subtracted from 500. The difference represents the total remaining degrees of visual field. The difference divided by eight represents the average contraction for rating purposes.

TABLE III.—*Normal visual field extent at 8 principal meridians*

Meridian:	Normal degrees
Temporally	85
Down temporally	85
Down	65
Down nasally	50
Nasally	60
Up nasally	55
Up	45
Up temporally	55
Total	500

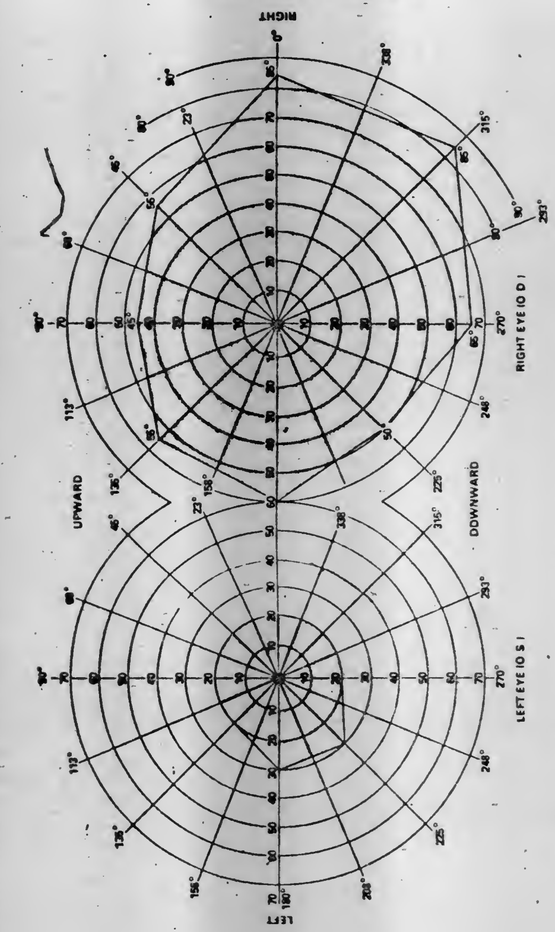

Figure 1. Chart of visual field showing normal field right eye and abnormal contraction visual field left eye.

Example of computation of concentric contraction under the schedule with abnormal findings taken from Figure 1.

Loss:	Degrees
Temporally	55
Down temporally	55
Down	45
Down nasally	30
Nasally	40
Up nasally	35
Up	25
Up temporally	35
Total loss	320

Remaining field 500° minus 320° = 180°. 180° ÷ 8 = 22½° average concentric contraction.

15. Section 4.77 is revised and the illustration immediately following § 4.77 is revised and designated Figure 2 so that the revised material reads as follows:

§ 4.77 Examination of muscle function.

(a) The measurement of muscle function will be undertaken only when the history and findings reflect disease or injury of the extrinsic muscles of the eye, or of the motor nerves supplying these muscles. The measurement will be performed using an industrial motor field chart, as in Figure 2, the dimensions of the individual rectangles being 8¾ inches (21.3 cms.) by 10½ inches (26.7 cms.) for use at 10 feet (3.0 m.).

(b) The claimant will face the chart directly, fixating upon the central point, and without moving the head, successively turn the eyes to the individual rectangles, as the examiner moves a test object which should be a self-illuminated white dot of about 3 mm. in diameter attached to a wand from rectangle to rectangle, reporting whether he or she sees it singly or doubly. Repetition of the test will be made under the close supervision of the examiner. Impairment of muscle function is to be supported in each instance by record of actual appropriate pathology. Diplopia which is only occasional or correctable is not considered a disability.

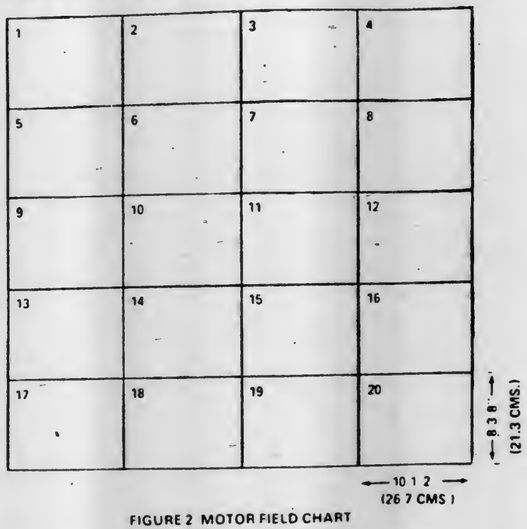

FIGURE 2 MOTOR FIELD CHART

§ 4.78 [Amended]

16. Section 4.78 is amended by deleting "38 U.S.C. 360" and inserting "§ 3.383(a) of this chapter" in the last line.

17. Section 4.79 is revised to read as follows:

§ 4.79 Loss of use of one eye, having only light perception.

Loss of use or blindness of one eye, having only light perception, will be held to exist when there is inability to recognize test letters at 1 foot (.30m.) and when further examination of the eyes reveals that perception of objects, hand movements or counting fingers cannot be accomplished at 3 feet (.91m.), lesser extents of visions, particularly perception of objects, hand movements, or counting fingers at distances less than 3 feet (.91 m.), being considered of negligible utility. With visual acuity 5/200 (1.5/60) or less or the visual field reduced to 5° concentric contraction, in either event in both eyes, the question of entitlement on account of regular aid and attendance will be determined on the facts in the individual case.

§ 4.83 [Amended]

18. Section 4.83 is amended by adding "(6/30)", "(6/21)" and "(6/30)" following "20/100", "20/70", and "20/100" respectively in the last sentence.

§ 4.83a [Amended]

19. Section 4.83a is amended by deleting "III" and inserting "V" following the word "table" in the first sentence and inserting "(1.5/60)" and "(6/21)" following "5/200" and "20/70" respectively in the second sentence.

20. Section 4.84a is amended as follows:

(a) By inserting "(1.5/60)" and "(6/30)" after "5/200" and "20/100" respectively in diagnostic code 6019.

(b) By inserting "(6/21)": after "20/70" in the fourth sentence of the note following diagnostic code 6029.

(c) By making the changes as set forth below:

(1) Revising and redesignating Table II as Table IV.

(2) Revising diagnostic codes 6061 through 6079 under "Impairment of Central Visual Acuity."

(3) Revising and redesignating Table III as Table V.

(4) Revising diagnostic code 6080 and notes under "Ratings for Impairment of Field Vision."

(5) Revising diagnostic code 6090 and notes under "ratings for Impairment of Muscle Function."

§ 4.84a Schedule of ratings — eye.

6 ADD 10 PERCENT IF ARTIFICIAL EYE CANNOT BE WORN ALSO ENTITLED TO SPECIAL MONTHLY COMPENSATION

V 43 / 191

RATINGS FOR IMPAIRMENT OF FIELD VISION

	Rating
6080 Field vision, impairment of:	
Homonymous hemianopsia	30
Field, visual, loss of temporal half:	
Bilateral	30
Unilateral	10
Or rate as 20/70 (6/21).	
Field, visual, loss of nasal half:	
Bilateral	20
Unilateral	10
Or rate as 20/50 (6/15).	
Field, visual, concentric contraction of:	
To 5°:	
Bilateral	100
Unilateral	30
Or rate as 5/200 (1.5/60).	
To 15° but not to 5°:	
Bilateral	70
Unilateral	20
Or rate as 20/200 (6/60)	
To 30° but not to 15°:	
Bilateral	50
Unilateral	10
Or rate as 20/100 (6/30)	
To 45° but not to 30°:	
Bilateral	30
Unilateral	10
Or rate as 20/70 (6/21):	
To 60° but not to 45°:	
Bilateral	20
Unilateral	10
Or rate as 20/50 (6/15).	

NOTE (1). Correct diagnosis reflecting disease or injury should be cited.

NOTE (2). Demonstrable pathology commensurate with the functional loss will be required. The concentric contraction ratings require contraction within the stated degrees, temporally; the nasal contraction may be less. The alternative ratings are to be employed when there is ratable defect of visual acuity, or a different impairment of the visual field in the other eye. Concentric contraction resulting from demonstrable pathology to 5 degrees or less will be considered on a parity with reduction of central visual acuity to 5/200 (1.5/60) or less for all purposes including entitlement under § 3.350(b)(2) of this chapter; not however, for the purpose of § 3.350(a) of this chapter. Entitlement on account of blindness requiring regular aid and attendance, § 3.350(c) of this chapter, will continue to be determined on the facts in the individual case.

* * * * *

RATINGS FOR IMPAIRMENT OF MUSCLE FUNCTION

	Rating
6090 Muscle function, ocular, impairment of:	
Producing diplopia in 19–20 rectangles.	
Rate as 5/200 (1.5/60).	
Producing diplopia in 17–18 rectangles.	
Rate as 10/200 (3/60).	
Producing diplopia in 14–16 rectangles.	
Rate as 15/200 (4.5/60).	
Producing diplopia in 12–13 rectangles.	
Rate as 20/200 (6/60).	
Producing diplopia in 9–11 rectangles.	
Rate as 20/100 (6/30).	
Producing diplopia in 6–8 rectangles.	
Rate as 20/70 (6/21).	
Producing diplopia in 3–5 rectangles.	
Rate as 20/50 (6/15).	
Producing diplopia in 0–2 rectangles.	
Rate as 20/40 (6/12).	

NOTE (1). Correct diagnosis reflecting disease or injury should be cited.

NOTE (2). The ratings under diagnostic code 6090 are to be applied only to the poorer eye if both have ratable impairment of visual acuity or visual field; if only one eye has a ratable impairment, to that eye, but not in combination with any other eye rating.

* * * * *

21. Section 4.85 is revised to read as follows:

§ 4.85 Hearing impairments reported as a result of regional office or authorized audiology clinic examinations.

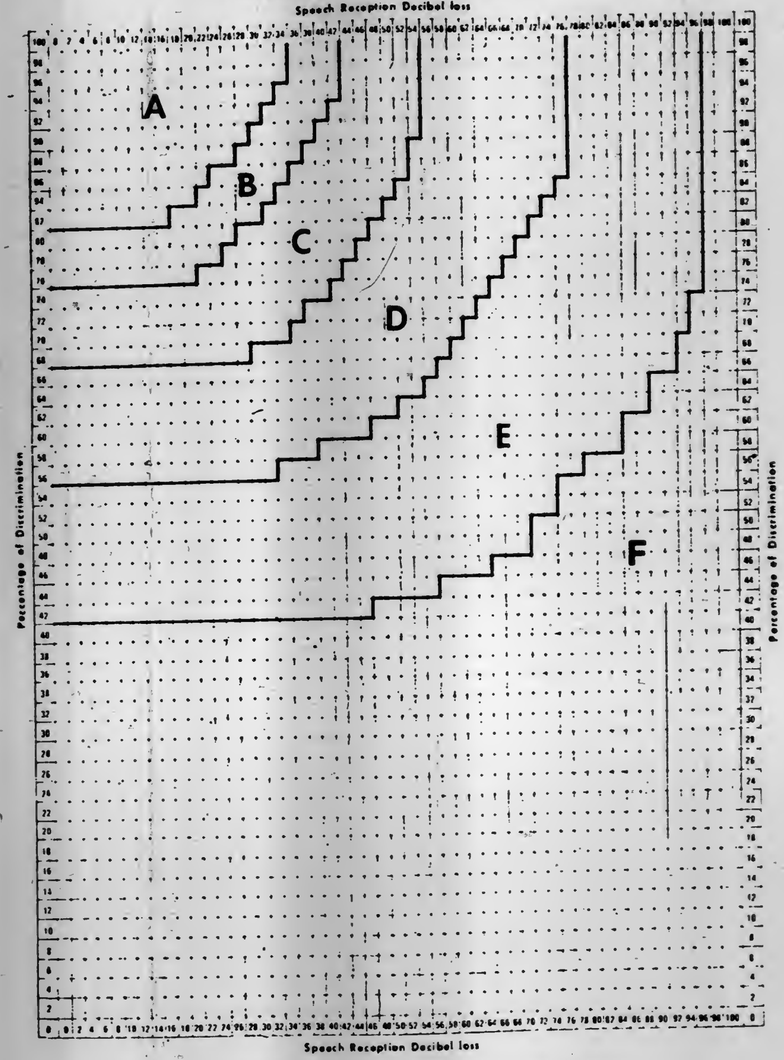
(a) If the results of controlled speech reception tests are used, the letter, A through F, designating the impairment in efficiency of each ear separately, will be ascertained from table VI. Table VI indicates six areas of impairment in efficiency. The literal designation of impaired efficiency (A, B, C, D, E, or F) will be determined by intersecting the horizontal row appropriate for percentage of discrimination and the vertical column appropriate to the speech reception decibel loss; thus, with a speech reception decibel loss of 62 db and a percentage discrimination of 72 percent the literal designation is "D"; if the speech reception decibel loss is 62 db and the percentage discrimination is 70 percent, the literal designation is "E".

(b) The percentage evaluation will be found from table VII by intersecting the horizontal row appropriate for the literal designation for the ear having the better hearing and the vertical column appropriate to the literal designation for the ear having the poorer hearing. For example, if the better ear has a literal designation of "B" and the poorer ear has a literal designation of "C", the percentage evaluation is in the second horizontal row from the bottom and in the third vertical column from the right and is 10 percent and the diagnostic code is 6293.

(c) If the results of pure tone audiometry are used, the equivalent literal designation for each ear, separately, will be ascertained from table VII, and the percentage evaluation determined in the same manner as for speech reception impairment in paragraph (b) of this section. For example, if the average pure tone decibel loss for the frequencies 500, 1,000 and 2,000 is not more than 57 db and there is no loss more than 70 db for any of these three frequencies, the equivalent literal designation is "C"; if in the other ear, the average is not more than 79 db, and there is no loss more than 90 db, the equivalent literal designation is "D". The percentage evaluation is therefore found in the horizontal row opposite "C", and in the vertical column under "D", and is 20 percent and the diagnostic code is 6289. Note that if in the first instance any of the 3 frequencies has a loss of more than 70 db, or in the second instance more than 90 db, the literal designation will be higher, i.e., further from "A" in the alphabetical series.

§ 4.86a [Amended]

22. Section 4.86a is amended.



(a) By adding "(meters)" after the word "feet" in the first sentence;

(b) By adding "(metric)" after the word "footage" and deleting "V" and inserting "VII" in the third sentence.

23. Following § 4.87, Tables IV and V are revised and redesignated Tables VI and VII respectively as follows:

TABLE VI

Literal Designation of Hearing Impairment

5 to 7 feet (1.5 m. to 2.1 m.)	Average not more than 79; none more than 90.	D	40 (6279)	40 (6284)	40 (6288)			
8 to 9 feet (2.4 m. to 2.7 m.)	Average not more than 57, none more than 70.	C	30 (6280)	30 (6285)	20 (6289)	20 (6292)		
10 to 14 feet (3.0 m. to 4.3 m.)	Average not more than 45, none more than 55.	B	20 (6281)	20 (6286)	20 (6290)	10 (6293)	10 (6295)	
15 to 40 feet (4.6 m. to 12.2 m.)	Average not more than 37, none more than 45.	A	10 (6282)	10 (6287)	10 (6291)	0 (6294)	0 (6296)	0 (6297)

This chart is based upon ANSI norm.

[7] ENTITLED TO SPECIAL MONTHLY COMPENSATION

§ 4.87a [Amended]

24. Section 4.87a is amended by deleting "V" and inserting "VII" after the word "Table" in diagnostic codes 6277 through 6297.

§ 4.88 [Amended]

25. Section 4.88 is amended by deleting "quinine or other" and inserting "medication" in the last sentence.

§ 4.88a [Amended]

26. Section 4.88a is amended by inserting "(Hansen's Disease)" after "Leprosy" in diagnostic code 6302.

§ 4.89 [Amended]

27. Section 4.89 is amended by deleting the word "NOTE" preceding "Pub. L. 90-493" following the section title.

§ 4.94 [Revoked]

28. section 4.94 is revoked.

29. In § 4.97 under "Diseases of the Lungs and Pleura-Tuberculosis," diagnostic codes 6701 through 6732 are revised to read as follows:

§ 4.97 Schedule of ratings—respiratory system.

* * * * * *

DISEASES OF THE LUNGS AND PLEURA—TUBERCULOSIS

RATINGS FOR PULMONARY TUBERCULOSIS ENTITLED ON AUGUST 19, 1978

	Rating
6701 Tuberculosis, pulmonary, chronic, far advanced, active	
6702 Tuberculosis, pulmonary, chronic, moderately advanced, active	
6703 Tuberculosis, pulmonary, chronic, minimal, active	
6704 Tuberculosis, pulmonary, chronic, active, advancement unspecified	100
6721 Tuberculosis, pulmonary, chronic, far advanced, inactive	
6722 Tuberculosis, pulmonary, chronic, moderately advanced, inactive	
6723 Tuberculosis, pulmonary, chronic, minimal, inactive	
6724 Tuberculosis, pulmonary, chronic, inactive, advancement unspecified	
General Rating Formula for Inactive Pulmonary Tuberculosis:	
For 2 years after date of inactivity, following active pulmonary tuberculosis, which was clinically identified during active service, or subsequently	100
Thereafter, for 4 years, or in any event, to 6 years after date of inactivity	50
Thereafter, for 5 years, or to 11 years after date of inactivity	30
Following far advanced lesions diagnosed at any time while the disease process was active, minimum	30
Following moderately advanced lesions, provided there is continued disability, emphysema, dyspnea on exertion, impairment of health, etc	20
Otherwise	0

NOTE (1). The 100 pct rating under codes 6701 through 6724 is not subject to a requirement of precedent hospital treatment. It will be reduced to 50 percent for failure to submit to examination or to follow prescribed treatment upon report to that effect from the medical authorities. When a veteran is placed on the 100 pct rating for inactive tuberculosis, the medical authorities will be appropriately notified of the fact, and of the necessity under 38 U.S.C. 356 to notify the Adjudication Division in the event of failure to submit to examination or to follow prescribed treatment.

NOTE (2). The graduated 50 pct and 30 pct ratings and the permanent 30 pct and 20 pct ratings for inactive pulmonary tuberculosis are not to be combined with ratings for other respiratory disabilities. Following thoracoplasty the rating will be for removal of ribs combined with the rating for collapsed lung. Resection of ribs incident to thoracoplasty will be rated as removal.

RATINGS FOR PULMONARY TUBERCULOSIS INITIALLY ENTITLED AFTER AUG. 19, 1968

	Rating
6730 Tuberculosis, pulmonary, chronic, active	100
6731 Tuberculosis, pulmonary, chronic, inactive:	
For 1 year after date of attainment of inactivity of tuberculosis	100
Thereafter, rate residuals attributable to tuberculosis:	
Pronounced: Advanced fibrosis with severe ventilatory deficit manifested by dyspnea at rest, marked restriction of chest expansion, with pronounced impairment of bodily vigor	100
Severe; extensive fibrosis, severe dyspnea on slight exertion with corresponding ventilatory deficit confirmed by pulmonary function tests with marked impairment of health	60
Moderate; with considerable pulmonary fibrosis and moderate dyspnea on slight exertion, confirmed by pulmonary function tests	30
Definitely symptomatic with pulmonary fibrosis and moderate dyspnea on extended exertion	10
Healed lesions, minimal or no symptoms	0

Active pulmonary tuberculosis will be considered permanently and totally disabling for non-service-connected pension purposes in the following circumstances:

(a) Associated with active tuberculosis involving other than the respiratory system.

(b) With severe associated symptoms or with extensive cavity formation.

(c) Reactivated cases, generally.

(d) With definite advancement of lesions on successive examinations or while under treatment.

(e) Without retrogression of lesions or other evidence of material improvement at the end of 6 months hospitalization or without change of diagnosis from "active" at the end of 12 months hospitalization.

NOTE.—"Material improvement" means lessening or absence of clinical symptoms, and X-ray findings of a stationary or retrogressive lesion.

	Rating
6732 Pleurisy, tuberculous, active or inactive:	
Active	100
Inactive: See §§ 4.88b and 4.89.	

30. In § 4.104, diagnostic codes 7000, 7004, 7005, and 7007 are revised and 7017 is added so that the revised and added codes read as follows:

§ 4.104 Schedule of ratings—cardiovascular system.

DISEASES OF THE HEART

	Rating
7000 Rheumatic heart disease:	
As active disease and, with ascertainable cardiac manifestation, for a period of 6 months	100
Inactive:	
Definite enlargement of the heart confirmed by roentgenogram and clinically; dyspnea on slight exertion; rales, pretibial pitting at end of day or other definite signs of beginning congestive failure; more than sedentary employment is precluded	100
The heart definitely enlarged; severe dyspnea on exertion, elevation of systolic blood pressure, or such arrhythmias as paroxysmal auricular fibrillation or flutter or paroxysmal tachycardia; more than light manual labor is precluded	60
From the termination of an established service episode of rheumatic fever, or its subsequent recurrence, with cardiac manifestations, during the episode or recurrence, for 3 years, or diastolic murmur with characteristic EKG manifestations or definitely enlarged heart	30
With identifiable valvular lesion, slight, if any dyspnea, the heart not enlarged; following established active rheumatic heart disease	10
* * * * *	
7004 Syphilitic heart disease:	
Rate as rheumatic heart disease, inactive.	
7005 Arteriosclerotic heart disease:	
During and for 6 months following acute illness from coronary occlusion or thrombosis, with circulatory shock, etc	100
After 6 months, with chronic residual findings of congestive heart failure or angina on moderate exertion or more than sedentary employment precluded	100
Following typical history of acute coronary occlusion or thrombosis as above, or with history of substantiated repeated anginal attacks, more than light manual labor not feasible	60
Following typical coronary occlusion or thrombosis, or with history of substantiated anginal attack, ordinary manual labor feasible	30
* * * * *	
7007 Hypertensive heart disease:	
With definite signs of congestive failure, more than sedentary employment precluded	100
With marked enlargement of the heart, confirmed by roentgenogram, or the apex beat beyond midclavicular line, sustained disastolic hypertension, diastolic 120 or more, which may later have been reduced, dyspnea on exertion, more than light manual labor is precluded	60
With definite enlargement of the heart, sustained diastolic hypertension of 100 or more, moderate dyspnea on exertion	30
* * * * *	
7017 Coronary artery bypass:	
For 1 year following bypass surgery	100
Thereafter, rate as arteriosclerotic heart disease.	
Minimum rating	30

NOTE.—Authentic myocardial insufficiency with arteriosclerosis may be substituted for occlusion.

NOTE.—The 100 pct rating for 1 year following bypass surgery will commence after the initial grant of the 1-month total rating assigned under § 4.30 following hospital discharge.

31. In § 4.118, diagnostic code 7801 and 7802 are revised to read as follows:

V 4 3 / 1 9 1
0 C 2 7 8
UMI

§ 4.118 Schedule of ratings—skin.

	Rating
7801 Scars, burns, third degree:	
Area or areas exceeding 1 square foot (0.1 m.²)	40
Area or areas exceeding one-half square foot (0.05 m.²)	30
Area or areas exceeding 12 square inches (77.4 cm.²)	20
Area or areas exceeding 6 square inches (38.7 cm.²)	10

NOTE (1). Actual third degree residual involvement required to the extent shown under 7801.

NOTE (2). Ratings for widely separated areas, as on two or more extremities or on anterior and posterior surfaces of extremities or trunk, will be separately rated and combined.

	Rating
7802 Scars, burns, second degree:	
Area or areas approximating 1 square foot (0.1 m.²)	10

NOTE.—See NOTE (2) under diagnostic code 7801.

32. In § 4.124a, following diagnostic codes 8002 and 8021 a note is added to read as follows:

§ 4.124a Schedule of ratings—neurological conditions and convulsive disorders.

	Rating
Brain, new growth of:	
8002 Malignant	100
NOTE.—The rating in code 8002 will be continued for 2 years following cessation of surgical, chemotherapeutic or other treatment modality. At this point, if the residuals have stabilized, the rating will be made on neurological residuals according to symptomatology. Minimum rating	30
Spinal cord, new growths of:	
8021 Malignant	100
NOTE.—The rating in code 8021 will be continued for 2 years following cessation of surgical, chemotherapeutic or other treatment modality. At this point, if the residuals have stabilized, the rating will be made on neurological residuals according to symptomatology. Minimum rating	30

33. In § 4.150, diagnostic codes 9900 and 9905 are revised to read as follows:

§ 4.150 Schedule of ratings—dental and oral conditions.

	Rating
9900 Maxilla or mandible, osteomyelitis of, chronic:	
Rate as osteomyelitis, chronic under diagnostic code 5000	
9905 Temporomandibular articulation, limited motion of:	
Motion limited to ¼ inch (6.3 mm.)	40
Motion limited to ½ inch (12.7 mm.)	20
Any definite limitation, interfering with mastication or speech	10

APPENDIX A.—TABLE OF AMENDMENTS AND EFFECTIVE DATES SINCE 1946

1. Section 4.71a is revised to read as follows:

Sec.
4.71a Diagnostic Code 5000—60 percent; February 1, 1962.
Diagnostic Code 5000 NOTE (2):
First three sentences; July 10, 1956.
Last sentence; July 6, 1950.
Diagnostic Code 5002—100 percent, 60 percent, 40 percent, 20 percent; March 1, 1963.
Diagnostic Code 5003; July 6, 1950.
Diagnostic Code 5012—NOTE; March 10, 1976.
In sentence following DC 5024: "except gout which will be rated under 5002"; March 1, 1963.
Diagnostic Code 5051;
Diagnostic Code 5052;
Diagnostic Code 5053;
Diagnostic Code 5054; September 9, 1975.
Diagnostic Code 5055; September 9, 1975.
Diagnostic Code 5056;
Diagnostic Code 5164—60 percent; June 9, 1952.
Diagnostic Code 5172; July 6, 1950.
Diagnostic Code 5173; June 9, 1952.
Diagnostic Code 5255 "or hip"; July 6, 1950.
Diagnostic Code 5257—Evaluation; July 6, 1950.
Diagnostic Code 5297—(Removal of one rib) "or resection of 2 or more"; August 23, 1948.
Diagnostic Code 5297—NOTE (2): Reference to lobectomy; pneumonectomy and graduated ratings; February 1, 1962.
Diagnostic Code 5298; August 23, 1948.
4.94 [Revoked]

2. Section 4.94 is revoked;

3. Section 4.104 is revised to read as follows:

4.104 Diagnostic Code 7000—30 percent; July 6, 1950.
Diagnostic Code 7000—100 percent inactive "with signs of congestive failure upon any exertion beyond rest in bed" revoked;
Diagnostic Code 7005—60 percent revoked;
Diagnostic Code 7007—80 percent revoked;
Diagnostic Code 7015—100 percent Evaluation. Criteria for All Evaluations and NOTES (1) and (2); September 9, 1975.
Diagnostic Code 7016; September 9, 1975.
Diagnostic Code 7017;
Diagnostic Code 7100—20 percent; July 6, 1950.
Diagnostic Code 7101 "or more"; September 1, 1960.
Diagnostic Code 7101—NOTE (2); September 9, 1975.
Diagnostic Code 7110—Criteria for 100 percent, NOTE and 60 percent and 20 percent Evaluations; September 9, 1975.
Diagnostic Code 7111—NOTE; September 9, 1975.
Diagnostic Codes 7114, 7115, 7116, and NOTE; June 9, 1952.
Diagnostic Code 7117 and NOTE; June 9, 1952.
NOTE following Diagnostic Code 7120; July 6, 1950.
Diagnostic Code 7121—100 percent Criterion and Evaluation and 60 percent Criterion; March 10, 1976. Criteria for 30 percent and 10 percent and NOTE; July 6, 1950.
Last sentence of NOTE following Diagnostic Code 7122; July 6, 1950.

4. Section 4.124a is revised to read as follows:

4.124a Diagnostic Code 8002, NOTE;
Diagnostic Code 8021, NOTE;
Diagnostic Code 8045; October 1, 1961.
Diagnostic Code 8046; October 1, 1961.
Diagnostic Code 8100—Evaluations; June 9, 1953.
Diagnostic Codes 8910 through 8914; October 1, 1961.
Diagnostic Codes 8910 through 8914 General Rating Formula—Criteria and Evaluations; September 9, 1975.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 980-1; PP 6F1782, 7F1984, 7F1986, and 7F1987/R171]

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Methidathion

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of the insecticide methidathion on various raw agricultural commodities. The regulation was requested by Ciba-Geigy Corp. This rule establishes maximum permissible levels for residues of methidathion on various raw agricultural commodities.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James Rea, Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington D.C. 20460, 202-755-9315.

SUPPLEMENTARY INFORMATION: On July 6, 1976, August 23, 1977, and September 28, 1977, notice was given (41 FR 27776, 42 FR 42372, and 42 FR 49839, respectively) that Ciba-Geigy Corp., P.O. Box 11422, Greensboro, N.C. 27409, had filed pesticide petitions (PP 6F1782, 7F1984, 7F1986, and 7F1987) with the EPA.

PP 7F1782 proposed that 40 CFR 180.298 be amended by the establishment of tolerances for residues of the insecticide methidathion (*O,O*-dimethyl phosphorodithioate, *S*-ester with 4-(mercaptomethyl)-2-methoxy-Δ^2-1,3,4-thiadiazolin-5-one) in or on the raw agricultural commodity almond hulls at 6 parts per million (ppm) and in or on the raw agricultural commodity group nuts at 0.05 ppm.

PP 7F1984 proposed amending 40 CFR 180.298 by establishing tolerances for residues of methidathion in or on the raw agricultural commodities pome and stone fruits at 0.05 ppm.

PP 7F1986 proposed amending 40 CFR 180.298 by establishing tolerances for residues of methidathion in or on the raw agricultural commodity olives at 0.05 ppm.

PP 7F1987 proposed amending 40 CFR 180.298 by establishing a tolerance for residues of methidathion in or on the raw agricultural commodity artichokes at 0.05 ppm. No comments were received in response to these notices of filing.

The data submitted in the petitions and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerances included 2-year dog feeding studies with no-observable-effect levels (NOEL) of 4 ppm; a rhesus monkey 2-year feeding study with an NOEL of 5 ppm; a rat multigeneration teratology/reproduction study with an NOEL of 32 ppm; a rat teratology study with an NOEL of 5 milligrams (mg)/kilogram (kg) of body weight (bw)/day; a mouse dominant lethal mutagenicity assay, which was negative at up to 45 mg/kg bw; and a hen demyelination study, which was negative at up to 350 mg/kg, the highest dose administered.

Based on the 2-year rat feeding study with a 4-ppm NOEL and using a 10-fold safety factor, the acceptable daily intake (ADI) for man is 0.02 mg/kg bw/day. The theoretical maximal residue contribution (TMRC) in the human diet from the proposed tolerances and the tolerances which have previously been established for residues of methidathion on a variety of raw agricultural commodities at levels ranging from 6 ppm to 0.05 ppm does not exceed the ADI.

Desirable data that is lacking from the petitions is a 24-month oncogenicity study, which is underway and is expected to be completed in early 1979. The petitioner in a letter of July 13, 1978, agreed to voluntarily delete the use of methidathion on almond hulls, nuts, pome fruits, stone fruits, artichokes, and olives from the label should the second oncogenicity study exceed the risk criteria for chronic toxicity in 40 CFR 162.11.

The metabolism of methidathion is adequately understood, and an adequate analytical method (gas chromatography using flame photometric detection) is available for enforcement purposes. No actions are currently pending against continued registration of methidathion, nor are there any other relevant considerations involved in establishing the proposed tolerances. There is no reasonable expectation of residues in eggs, meat, milk, or poultry.

The pesticide is considered useful for the purposes for which tolerances are sought, and it is concluded that the tolerances of 6 ppm on almond hulls and 0.05 ppm on nuts, artichokes, olives, pome fruits, and stone fruits established by amending 40 CFR 180.298 will protect the public health. It is concluded, therefore, that the tolerances be established as set forth below.

Any person adversely affected by this regulation may, on or before November 1, 1978, file written objections with the Hearing Clerk, EPA, room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective October 2, 1978, part 180 is amended as set forth below.

Dated: September 22, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

Part 180, subpart C, § 180.298 is amended by alphabetically inserting almond hulls at 6 ppm and nuts, pome and stone fruits, olives, and artichokes at 0.05 ppm in the table to read as follows:

§ 180.298 Methidathion; tolerances for residues.

Commodity:	Parts per million
Almonds, hulls	6
Artichokes	0.05
Fruits, pome	0.05
Fruits, stone	0.05
Nuts	0.05
Olives	0.05

[FR Doc. 78-27618 Filed 9-29-78; 8:45 am]

[8320-01]

Title 41—Public Contracts and Property Management

CHAPTER 8—VETERANS ADMINISTRATION

PART 8-12—LABOR

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: This amendment revises the VA procurement regulations § 8-12.304 to conform the language of the Authorized Variation To The Contract Work Hours And Safety Standards Act to the language currently contained in the pertinent regulations of the Department of Labor. Also, the amendment deletes subpart 8-12.9 of the procurement regulations on the Service Contract Act of 1965 because certain of the sections of those regulations have been superseded by amendments to the Federal Procurement Regulations and others have become obsolete.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

A. G. Vetter, Policy and Interagency Staff, Supply Service, Veterans Administration, Washington, D.C. 20420, 202-389-2334.

It is the general policy of the Veterans Administration to allow time for interested parties to participate in the rulemaking process (§ 1.12, Title 38, Code of Federal Regulations). For the reasons stated above, however, compliance is unnecessary in this instance, as it would serve no useful purpose.

Approved: September 25, 1978.

By direction of the Administrator:

RUFUS H. WILSON,
Deputy Administrator.

1. In subpart 8-12.3, § 8-12.304 is revised.

§ 8-12.304 Variations and tolerances.

When a contract is for nursing home care, the clause prescribed by FPR 1-12.303 will be modified to reflect the

V 4 3 / 1 9 1

0 C 2 7 8

variation set forth in 29 CFR 5.14(d)(3) as follows: "In the performance of any contract entered into pursuant to the provisions of 38 U.S.C. 620 to provide nursing home care of veterans, no contractor or subcontractor under such contract shall be deemed in violation of section 102 of the Contract Work Hours and Safety Standards Act by virtue of failure to pay the overtime wages required by such section for work in excess of 8 hours in any calendar day or 40 hours in the workweek to any individual employed by an establishment which is an institution primarily engaged in the care of the sick, the aged, or the mentally ill or defective who reside on the premises if, pursuant to an agreement or understanding arrived at between the employer and the employee before performance of the work, a work period of 14 consecutive days is accepted in lieu of the workweek of 7 consecutive days for the purpose of overtime compensation and if such individual receives compensation for employment in excess of 8 hours in any workday and in excess of 80 hours in such 14-day period at a rate not less than 1½ times the regular rate at which the individual is employed, computed in accordance with the requirements of the Fair Labor Standards Act of 1938, as amended."

Subpart 8–12.9 [Revoked]

2. Subpart 8–12.9 is revoked.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[SS Docket No. 78-153; FCC 78-658]

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Making Frequency 156.875 MHz Available for Exclusive Use for Communications to and From Pilots

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission is restricting the use of the frequency 156.875 MHz to communications to and from pilots. We are taking this action because numerous complaints by pilots cite interference from other users during critical communications between pilots on vessels and other support personnel. This rulemaking provides a frequency exclusively for communications by and to pilots and, as a result, substantially improves the reliability of communications during the movement and docking of vessels.

EFFECTIVE DATE: November 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Kemp J. Beaty, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER (PROCEEDING TERMINATED)

Adopted: September 19, 1978.

Released: September 28, 1978.

In the matter of amendment of parts 81 and 83 of the rules to make the frequency 156.875 MHz available for exclusive use for communications to and from pilots; SS Docket No. 78-153.

By the Commission: Commissioner Quello absent.

BACKGROUND

1. On May 30, 1978, the Commission released a notice of proposed rulemaking which would restrict the use of the frequency 156.875 MHz (channel 77) to communications concerning the movement and docking of vessels between pilots and other support personnel. Except in an emergency, transmissions on channel 77 would be limited to no more than 1 watt output power. The proposal was published in the FEDERAL REGISTER on June 12, 1978 (43 FR 24863). The period allotted for public comments has passed.

2. This rulemaking was initiated as a result of an informal approach to the Commission by a number of ship's pilots. These pilots basically said:

(a) That they were engaged in the movement and docking of large ships in crowded port areas;

(b) That during the movement and docking of a large ship the pilot must rely on the assistance of tugboat operators and other support personnel;

(c) That communications between pilots and other support personnel are usually conducted over short distances using low powered, hand held VHF "walkie-talkies"; and

(d) That in large port areas communications were frequently interfered with by much higher powered transmitters, even though those transmitters were located some distances away. Therefore, the pilots requested assistance from the Commission in solving this problem.

3. We agree that low power communications between pilots and other support personnel merit protection. A large, slow moving ship has a very limited amount of maneuverability, and interference-free communications are a necessity. Interference to these critical communications could result in a collision causing widespread damage, pollution and possible loss of life.

4. Therefore we proposed:

(a) The reservation of 156.875 MHz for communications to and from pilots;

(b) A power limitation of 1 watt output power to minimize potential interference;

(c) In emergencies, ship use of up to 25 watts output power, which is the maximum power permitted a ship station, and coast station use of up to 10 watts power; and

(d) On a limited basis, the use of 156.875 MHz for shore to ship communications.

COMMENTS AND COMMENTERS

5. Comments were submitted by the Southern California Marine Radio Council, the American Institute of Marine Shipping (AIMS), the Central Committee on Telecommunications of the American Petroleum Institute (API), the Pacific Merchant Shipping Association (PMSA), the American Waterways Operators, the Portsmouth Pilots, Jacobsen Pilot Service, Inc. and the U.S. Coast Guard. Tug Communications, Inc. submitted a reply comment.

6. All of the commenters supported our proposal. However, several of them requested some minor clarifications and wording changes:

(a) PMSA and AIMS expressed a desire to have the 10-watt limitation in the proposed § 81.356 eliminated so a ship's VHF radio system could be used in emergencies;

(b) AIMS and API suggested that the wording "ship to ship" be changed to "vessel to vessel" because the merchant marine industry considers a tugboat to be a "vessel", not a "ship";

(c) PMSA requested extending the definition of pilot to include "vessel masters who are piloting their own vessels under their Federal Pilots Endorsement"; and

(d) API requested that we insure that 156.875 MHz does not turn into a routine "business" channel for pilots. To this end, they suggested that coast to ship communications should take place on other appropriate frequencies.

CONCLUSION

7. With respect to the comments, we make the following observations.

(a) The 10-watt limitation applies only to a coast station. As explained above, ships are permitted to use 25 watts output power under emergency conditions;

(b) We recognize that the merchant marine industry uses the term "vessel" when referring to tugboats. However, our rules consistently use the term "ship", not "vessel". Further, it is clear that tugboats are considered ships within the meaning of the Communications Act of 1934, as amended, since section 3(w)(1) of the Act defines "ship" or "vessel" as "• • • every description of watercraft or other artificial contrivance, except aircraft, used or capable of being used as a means of transportation on water, whether or not afloat."

(c) Vessel masters piloting their own ship under their Federal Pilots Endorsement are considered pilots. They are included among the pilots required by the authority of 46 U.S.C. 364 (Vessels Navigating Coastwise and On the Great Lakes).

(d) We agree with API that coast-to-pilot communications are more appropriate on other frequencies. We are therefore not adopting the proposed changes to part 81 which would have permitted coast station use of 156.875 MHz on a secondary basis.

8. Regarding questions on matters covered in this document contact Kemp J. Beaty, telephone 202-632-7197.

9. Accordingly, it is ordered, that pursuant to the authority contained in section 4(i) and 303(r) of the Communications Act of 1934, as amended, the Commission's rules are amended, as set forth in the attached appendix, effective November 3, 1978.

10. It is further ordered, that this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Attachment: Appendix.

Part 83 of chapter I of title 47 of the Code of Federal Regulations is amended to read as follows:

1. In § 83.6, paragraph (h) is added to read as follows:

§ 83.6 Operational.

• • • • • •

(h) *Pilot.* Pilot means a Federal pilot required by 46 U.S.C. 764, a State pilot required under the authority of 46 U.S.C. 211, or a registered pilot required by 46 U.S.C. 216.

2. In § 83.351, paragraph (a) table is amended and (b)(64) is added to read as follows:

§ 83.351 Frequencies available.

(a) • • •

Carrier frequency (kHz)	Conditions of use: Section	Conditions of use: Limitations
•	•	•
(MHz)		
•	•	•
156.850	83.359	40, 41, 48, 57.
156.875	83.359	40, 45, 64.
•	•	•

(b) • • •

(64) The use of this frequency is limited to communications to and from pilots, concerning the movement and docking of ships. Power used on this frequency shall not exceed 1 watt except under emergency conditions.

3. In § 83.359, table under "Port Operations" and under "Commercial" is amended to read as follows:

[02]0026

§ 83.359 Frequencies in the band 156–162 MHz available for assignment.

Channel designator	Frequency (megahertz): Ship	Frequency (megahertz): Coast	Point of communication
•	•	•	•
Port operations			
•	•	•	•
74	156.725	156.725	Do.
77	156.875		Intership.
20	157.000	161.600	Intership and ship to coast.
•	•	•	•
Commercial			
•	•	•	•
11	156.550	156.550	Do.
18	156.900	156.900	Do.
•	•	•	•

Title 49—Transportation

CHAPTER I—RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. HM-165; Amdt. Nos. 101-1, 102-1, 106-1, 107-4]

PART 106—RULEMAKING PROCEDURES

PART 107—HAZARDOUS MATERIALS PROGRAM PROCEDURES

Redesignation and Revision

Correction

In FR Doc. 78-26828, appearing at page 43305 in the issue of Monday, September 25, 1978, make the following changes:

1. On page 43307 in item 14, the third line of Appendix A should read "authorized to conduct rulemaking proceed-".

2. In § 107.205, on page 43308 in the first line of paragraph (b) "be" should read "by".

3. In § 107.373, the seventh line which now reads "reports it to the Office of the Chief", should read "shall report it to the Office of the Chief".

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-03; Notice 5]

PART 571—FEDERAL MOTOR VEHICLE STANDARDS

New Pneumatic Tires—Passenger Cars

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Final rule.

SUMMARY: Pursuant to petitions by the European Tyre and Rim Technical Organisation (ETRTO) and by the Rubber Manufacturers Association (RMA), this notice amends Federal Motor Vehicle Safety Standard No. 109, New Pneumatic Tires—Passenger Cars, by adding 10 new tire size designations to table I of appendix A of the standard. The amendment permits the introduction into interstate commerce of the new tire sizes.

EFFECTIVE DATE: November 1, 1978, if objections are not received prior to that date.

ADDRESS: Comments should refer to the docket number and be submitted to Room 5108, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:
John Diehl, Office of Automotive Ratings, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20690, 202-426-1714.

SUPPLEMENTARY INFORMATION: According to agency practice, the National Highway Traffic Safety Administration (NHTSA) responds to petitions for adding new tire sizes to table I of appendix A of standard No. 109 by quarterly issuing final rules under an abbreviated rulemaking procedure for expediting such routine amendments. Guidelines for this procedure (October 5, 1968, 33 FR 14964, as amended May 4, 1971, 36 FR 8298; July 22, 1971, 36 FR 13601; and August 13, 1974, 39 FR 28980) provide that these final rules become effective 30 days after their date of publication if no comments objecting to them are received by the agency during this 30-day period. If objections are received, regular rulemaking procedures for issuing and amending motor vehicle safety standards (49 CFR part 553) are to be initiated.

On March 20, 1978, the ETRTO petitioned for the addition of four new English-unit tire size designations to existing tables within table I of appendix A of standard No. 109. On April 11, 1978, April 25, 1978, May 25, 1978, and June 16, 1978, the RMA petitioned for the addition of six new English-unit tire size designations to existing tables within table I of appendix A of standard No. 109. The bases for accepting or denying requests to add new tire size designations are set forth in introductory guidelines to the appendix (October 5, 1968, 33 FR 14964, as amended May 4, 1971, 36 FR 8298; July 22, 1971, 36 FR 13601; and August 13, 1974, 39 FR 28980). In sum, the tests are appropriateness of the information submitted for inclusion in the tire tables, and appropriateness of the requested location within the tables of the requested tire sizes. The 10 new tire size designations requested to be added to standard No. 109 meet these criteria. Accordingly, the ETRTO and the RMA petitions are granted, and the 10 new tire size designations are added to table I of appendix A of the standard pursuant to the abbreviated rulemaking procedure.

In accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) and Executive Order 12044, the NHTSA has reviewed the environmental and economic impacts of these amendments. There should be no negative environmental impacts. Further, since these are minor technical amendments of the standard which will permit the production of four new tire sizes, there should be no costs associated with their implementation. The agency has further concluded that this is not a significant regulation within the meaning of the Executive order.

In consideration of the foregoing, title 49 of the Code of Federal Regulations (part 571.109 (standard No. 109, New Pneumatic Tires—Passenger Cars)) is amended as specified below, subject to the 30-day comment provision discussed above:

§ 571.109 [Appendix amended]

In tables I-X, I-BB, I-DD, I-GG, I-HH, I-JJ, I-LL, and I-MM the following new tire size designations and corresponding values are added:

TABLE I - GG

TIRE LOAD RATING, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR 'P/80' SERIES ISO TYPE TIRES

Tire size 1/ designation	Maximum tire loads (kilograms) at various cold inflation pressures (kPa)					Test rim width (inches)	Minimum size factor (mm)	Section 2/ width (mm)
	120	140	160	180	200	220	240	260	280			
P155/80R15	345	370	395	420	445	465	485	505	525	4 ½	774	157

TABLE I - HH

TIRE LOAD RATING, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR 'P/75' SERIES ISO TYPE TIRES

Tire size 1/ designation	Maximum tire loads (kilograms) at various cold inflation pressures (kPa)									Test rim width (inches)	Minimum size factor (mm)	Section 2/ width (mm)
	120	140	160	180	200	220	240	260	280			
P175/75R15	395	425	455	480	510	535	555	580	600	5	807	177

TABLE I - JJ

TIRE LOAD RATING, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR 'P/70' SERIES ISO TYPE TIRES

Tire size 1/ designation	Maximum tire loads (kilograms) at various cold inflation pressures (kPa)									Test rim width (inches)	Minimum size factor (mm)	Section 2/ width (mm)
	120	140	160	180	200	220	240	260	280			
P175/70R13	315	340	365	385	410	430	445	465	485	5	740	177

1/ The letters "P" for diagonal and "B" for bias belted may be used in place of the "R."

2/ Actual section width and overall width shall not exceed the specified width by more than the amount specified in S4.2.2.2.

TABLE I - KK

TIRE LOAD RATING, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR 'P/60' SERIES ISO TYPE TIRES

Tire size 1/ designation	Maximum tire loads (kilograms) at various cold inflation pressures (kPa)									Test rim width (inches)	Minimum size factor (mm)	Section 2/ width (mm)
	120	140	160	180	200	220	240	260	280			
P235/60R14	475	515	550	585	615	645	675	700	730	6 1/2	834	235
P245/60R15	535	580	620	655	690	725	760	790	820	7	907	248

TABLE I - LL

TIRE LOAD RATING, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR "T SERIES" 60LB/IN^2 TIRES

Tire size 1/	Maximum tire load (pounds at 60 psi cold inflation pressure	Test rim width (inches)	Minimum size factor (mm)	Section 2/ width (mm)
T125/90D16	1995	4	29.41	5.16

1/ The letter "D" for diagonal and "B" for bias belted may be used in place of the "R."

2/ Actual section width and overall width shall not exceed the specified section sidth by more than the amount specified in S4.2.2.2.

TABLE I - X

TIRE LOAD RATINGS, TEST RIMS, MINIMUM SIZE FACTORS, AND SECTION WIDTHS FOR MILLIMETRIC '50' SERIES RADIAL PLY TIRES

Tire size 1/ designation	MAXIMUM TIRE LOADS, (pounds) at various cold inflation pressures (psi)													Test rim width (inches)	Minimum size factor (inches)	Section width 2/ (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40			
75/50R13	500	535	565	595	625	655	680	710	735	760	785	810	835	5 1/2	26.67	7.13

/ The letter "H," "S" or "V" may be included in any specfied tire size designation adjacent to the "R."

/ Actual section width and overall width shall not exceed the specified section width by more than 7 percent.

TABLE I - BB

TIRE LOAD RATINGS, TEST RIMS, MINIMUM SIZE FACTORS, AND SECTION WIDTHS FOR "40 SERIES" RADIAL PLY TIRES

Tire size 1/ designation	MAXIMUM TIRE LOADS, (pounds) at various cold inflation pressures (psi)													Test rim width (inches)	Minimum size factor (inches)	Section width 2/ (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40

All comments submitted must be limited to 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a succinct and concise fashion. It is requested but not required that 10 copies of comments be submitted.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential information, should be submitted to the Chief Counsel, NHTSA, at the address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. Any claim of confidentiality must be supported by a statement demonstrating that the information falls within 5 U.S.C. section 552(b)(4), and that disclosure of the information is likely to result in substantial competitive damage; specifying the period during which the information must be withheld to avoid that damage; and showing that earlier disclosure would result in that damage. In addition, the commenter or, in the case of a corporation, a responsible corporate official authorized to speak for the corporation must certify in writing that each item for which confidential treatment is requested is in fact confidential within the meaning of section 552(b)(4) and that a diligent search has been conducted by the commenter or its employees to assure that none of the specified items has previously been released to the public.

The principal authors of this notice are John Diehl of the Tire Performance Group and Nancy Eager of the Office of Chief Counsel.

(Secs. 103, 119, 201, and 202, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407, 1421, and 1422); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on September 25, 1978.

MICHAEL M. FINKELSTEIN,
Acting Associate Administrator for Rulemaking.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE AND PLANTS

PART 10—GENERAL PROVISIONS

List of Addresses of Law Enforcement District Offices; Amendment

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Rule.

SUMMARY: This amendment shows a change of address for the Portland, Oreg., district office of the Division of Law Enforcement, U.S. Fish and Wildlife Service.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Marshall L. Stinnett, Special Agent in Charge, Branch of Regulations and Penalties, Division of Law Enforcement, Fish and Wildlife Service, U.S. Department of the Interior, P.O. Box 19183, Washington, D.C. 20236—202-343-9242.

SUPPLEMENTARY INFORMATION: In subpart C of part 10, title 50 of the Code of Federal Regulations, § 10.22, the address list of Law Enforcement district offices, is amended to show a new address for the Portland, Oreg., office.

Since it merely makes changes within a list of addresses in this part, the amendment's effect is administrative and does not change agency procedure, and therefore the "notice" requirements of 5 U.S.C. 533(b) are not applicable. In addition, it is not a substantive rule requiring a delayed effective date pursuant to 5 U.S.C. 553(d).

This amendment was prepared by Margaret C. Cash, Regulations Coordinator, Division of Law Enforcement.

§ 10.22 [Amended]

Section 10.22 of subpart C, part 10, title 50 of the Code of Federal Regulations, is amended by changing the address of the Portland, Oreg., district office to read "Lloyd 500 Building, Suite 1490, 500 Northeast Multnomah Street, Portland, Oreg. 97232 * * *"

NOTE.—The Service has determined that this document does not contain a major action requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 26, 1978.

ROBERT S. COOK,
Acting Director, Fish and Wildlife Service.

[FR Doc. 78-27680 Filed 9-29-78; 8:45 am]

[4310-55]

PART 18—MARINE MAMMALS

State Laws and Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: Regulations are issued which revise subpart F of part 18 of title 50, Code of Federal Regulations. The regulations implement section 109(a) of the Marine Mammal Protection Act which provides for the adoption and enforcement of State laws relating to the protection and taking of marine mammals. The regulations establish procedures for States to follow in requesting review and approval of their marine mammal laws. The regulations also set forth procedures, standards, and criteria that the Service will use in reviewing, approving, monitoring, and superseding the State provisions.

EFFECTIVE DATE: November 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Rupert R. Bonner, Marine Mammal Coordinator, Office of Wildlife Assistance, U.S. Fish and Wildlife Service, Washington, D.C. 20240, telephone: 202-632-2202.

SUPPLEMENTARY INFORMATION: The Marine Mammal Protection Act of 1972 provides that subject to certain exceptions, a State may not adopt or enforce any law or regulation relating to the taking of marine mammals within its jurisdiction. 16 U.S.C. 1379(a)(1). In the case of *Fouke Co.* v. *Mandel*, 386 F. Supp. 1341 (D. Md. 1974), the Act was construed to preempt State laws and regulations relating to importation as well as taking.

However, the Act also provides that a State may adopt and enforce laws and regulations relating to the protection or taking of marine mammal species or population stocks within its jurisdiction if the Secretary reviews such laws and regulations and determines them to be consistent with applicable provisions of the Act and regulations issued thereunder. 16 U.S.C. 1379(a)(2). If the Secretary approves State laws and regulations as being so consistent, they take effect and certain provisions of the Act no longer apply. Id. After approval, the Secretary must, however, continue to monitor and review the State laws, and if they cease to comply with the purposes and policies of the Act, he must supersede them to the extent deemed necessary after notice and opportunity for a hearing. Id. at section 1373(a)(3). The Secretary's authority concerning these functions has been delegated to

the Director of the Service. 242 Int. Dep't. Man. 1-2.

In a notice of proposed rulemaking dated April 9, 1976, the Service published proposed regulations to implement the above provisions of the Act dealing with State laws and regulations (41 FR 15166). The proposed regulations dealt both with State laws and regulations implementing a waiver of the Act's moratorium on taking or importation, see 16 U.S.C. 1371(a), and with State laws and regulations which would not implement a waiver of the moratorium (41 FR 15169-15171). For each type of provision, the proposed regulations set forth procedures for a State to follow in requesting a review of its laws and regulations, criteria the Service would use in approving or disapproving the State provisions, procedures for continuous monitoring and review after approval, and procedures for dealing with changes in approved laws and regulations. Id.

For those laws and regulations implementing a waiver, the proposal further provided for a notice to be published in the FEDERAL REGISTER which would announce approval of the State provisions, summarize the State management program, and set forth the extent of the waiver. For laws and regulations implementing a waiver, the proposal also published enforcement standards for State officials, required the Service to be notified whenever takings under a waiver reached 90 percent of the waiver's numerical quota, and set forth procedures for superseding State provisions found not to comply with the Act's purposes and policies. Id.

The Service received comments on the proposed regulations from a number of environmental and animal welfare organizations.

Three of the organizations commented that to simplify enforcement of the Marine Mammal Act, the Service's regulations should be identical to those of the National Marine Fisheries Service. In all substantive respects, the final regulations published herein are the same as the regulations on State laws published by the National Marine Fisheries Service on August 31, 1976, 50 CFR Part 216, Subpart H; 41 FR 36659.

The same three organizations also indicated that the regulations should define the term "State regulation" and that a State regulation approved by the Service must have the force and effect of law and must not be a "mere policy statement changeable at will" by a State regulatory agency. Section 18.51 of the final regulations adopts as the definition of "State regulation" a definition similar to that set forth in the Federal Administrative Procedure Act, 5 U.S.C. 551(4), for the term "rule."

The above three organizations further indicated that the regulations should set forth the components of a "modern scientific resource management program" as that term is used in 50 CFR 18.55(a). As finally adopted herein, section 18.55(a) specifies that a modern scientific resource management program includes, but is not limited to, research, census, law enforcement, habitat acquisition and improvement, and if appropriate, the periodic or total protection of the species or population stocks which would be affected by the State's marine mammal provisions.

All five of the commenting organizations suggested changes in the procedures for reviewing and approving State marine mammal laws. It was stated that public participation in the review and approval process should not be limited to residents of the State concerned. It was also urged that there should be an opportunity for public comment and for a hearing on the State laws and regulations and on any changes made therein. In addition, it was suggested that determinations of either approval or disapproval of the State provisions should be open to public comment after publication in the FEDERAL REGISTER. Finally, three of the organizations suggested that provision be made for an appeal to the Secretary from any determination of approval or disapproval made by the Director.

To ensure meaningful public participation in the review and approval process, by both residents and nonresidents of the State concerned, § 18.53(c) provides for publication of a notice in the FEDERAL REGISTER setting forth information concerning public inspection and copies of the State laws and regulations. The notice will also provide for the submission of written data, views, comments, or requests for an informal public hearing on the State provisions.

In addition, § 18.53(e) provides that the Director's decision to approve or disapprove the State provisions will be published in the FEDERAL REGISTER. However, the regulations do not provide for any public comment or appeal to the Secretary on the Director's approval or disapproval. Since the Director's decision on any accompanying waiver or Federal regulations would be final, see 50 CFR 18.91(a), his decision to approve or disapprove the State laws and regulations should also be final.

With regard to changes and other aspects of approved State laws and regulations, paragraphs (d) through (h) of § 18.56 provide procedures for public participation which are similar to the procedures outlined above for initial sets of State provisions.

Two of the commenting organizations indicated that the regulations should set forth the role that the Federal Government will play after a State's marine mammal provisions have been approved. Lastly, three of the organizations commented that a State's notice to the Service that takings under a waiver have reached 90 percent of the allowed quota should be published in the FEDERAL REGISTER.

Concerning the general role of the Federal Government after approval of State laws, §§ 18.53(f) and 18.56 of the regulations provide that the Service will continuously monitor and review the State provisions and that any substantial changes in such provisions, other than emergency closings of seasons, must be approved by the Service before they take effect. Section 18.56 further provides for the State provisions to be superseded and the Act to be reinstated if such provisions are found not to be in compliance with the Act or applicable Federal regulations. Also, § 18.57 now provides that a State's notice concerning approach of the waiver quota will be published in the FEDERAL REGISTER.

In addition to changes resulting from public comments, the final regulations make several other changes in the proposed regulations. Specifically, the final regulations make applicable to any State laws submitted for approval a number of provisions which the proposal would have applied only to State laws implementing a waiver. These provisions include enforcement guidelines in § 18.58, procedures in § 18.56 relating to monitoring and review of approved State laws and possible reinstatement of the Act, and publication in the FEDERAL REGISTER under § 18.53(e) of the Director's decisions to approve or disapprove State laws.

The final regulations also clarify the scope provisions of § 18.52, delete as unnecessary proposed § 18.53(a), and delete proposed § 18.53(b) in order to eliminate a possible conflict with proposed subpart H of part 18 on the issue of scientific research and public display permits.

Lastly, aside from the revision of subpart F, the regulations published herein make two additional changes in 50 CFR Part 18. First, § 18.4 is deleted since its provisions are now included in the new § 18.53(a). Also, the introductory text of § 18.11 is amended by including as an exception to the general taking prohibitions the waiver provisions of subpart H of part 18.

These regulations are issued under the Marine Mammal Protection Act of 1972, 16 U.S.C. 1361-1407. They were prepared by David Fisher and Ronald Swan, Office of the Solicitor, Department of the Interior.

V 43/191
OCT 2 1978
UMI

NOTE.--The Service has determined that issuance of these regulations is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. Therefore, an environmental impact statement is not required.

Accordingly, part 18 of subchapter B of chapter I, Title 50, Code of Federal Regulations, is amended as follows:

§ 18.4 [Deleted]

1. Section 18.4 is deleted.

2. The introductory text of § 18.11 is amended to read as follows:

§ 18.11 Prohibited taking.

Except as otherwise provided in subpart C, D, or H of this part 18, it is unlawful for:

* * * * *

3. Subpart F of the table of sections for part 18 is revised to read as follows:

Subpart F—State Laws and Regulations

Sec.
18.51 Purpose of regulations.
18.52 Scope of regulations.
18.53 Review and approval of State laws and regulations—general.
18.54 Review and approval of State laws and regulations implementing a waiver.
18.55 Criteria for approval of State laws and regulations implementing a waiver.
18.56 Monitoring and review of approved State laws and regulations; reinstatement of the Act.
18.57 Notification on waiver quota.
18.58 Enforcement of State laws and regulations.
18.59 List of waivers and States with approved laws.

4. Subpart F is revised to read as follows:

Subpart F—State Laws and Regulations

§ 18.51 Purpose of regulations.

The regulations contained in this subpart implement section 109(a) of the Act which provides for the adoption and enforcement of State laws and regulations relating to the protection and taking of marine mammals. As used in this subpart, the term "State regulation" means the whole or a part of a State agency statement of general or particular applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the organization, procedure, or practice requirements of a State agency and which is duly promulgated in accordance with established procedure.

§ 18.52 Scope of regulations.

(a) Except for §§ 18.54, 18.55, 18.57, and 18.59, which apply only to State laws and regulations that implement a waiver of the moratorium on taking or importation established by section 101 of the Act, the regulations of this subpart apply both to State provisions implementing a waiver of the moratorium and to State provisions not implementing a waiver.

(b) Nothing in this subpart shall prevent (1) the taking of a marine mammal by a State or local government official in accordance with § 18.22 of this part, or (2) the adoption or enforcement of any State law or regulation relating to any marine mammal taken before December 21, 1972.

§ 18.53 Review and approval of State laws and regulations—general.

(a) Any State may obtain a review and consistency determination of its proposed or existing laws and regulations from the Director by submitting a written request to that effect to the Director, U.S. Fish and Wildlife Service, accompanied by the following documents unless otherwise specified by the Director:

(1) A complete set of laws and regulations to be reviewed, certified as complete, true, and correct by the appropriate State official;

(2) A scientific description by species and population stock of the marine mammals to be subjected to such laws and regulations;

(3) A description of the organization, staffing, and funding for the administration and enforcement of the laws and regulations to be reviewed;

(4) A description, where such laws and regulations provide for discretionary authority on the part of State officials to issue permits, of the procedures to be used in granting or withholding such permits and otherwise enforcing such laws; and

(5) Such other materials and information as the Director may request or which the State may deem necessary or advisable to demonstrate the compatibility of such laws and regulations with the policy and purposes of the Act and the rules and regulations issued thereunder.

(b) To assist States in preparing laws and regulations relating to marine mammals, the Director will also, at the written request of any State, make a preliminary review of any proposed laws or regulations. This review will be advisory in nature and shall not be binding upon the Director. Notwithstanding preliminary review by the Director, once any proposed laws and regulations have been prepared in final form, they shall be subject to final review and approval under paragraphs (c) through (g) of this section. To be considered for preliminary review, a State shall submit the same documents required in paragraph (a) of this section, unless specified otherwise by the Director.

(c) Upon receipt of a request submitted in accordance with paragraph (a) of this section, the Director will publish in the FEDERAL REGISTER a notice stating that the State laws and regulations under review will be available for inspection at the locations stated in the notice, and providing information on how copies may be obtained. The notice will also provide that written data, views, comments, or requests for an informal public hearing on the State provisions may be submitted to the Director within the time specified in the notice.

(d) In making a determination with respect to any State laws or regulations, the Director will consider:

(1) Whether such laws and regulations are consistent with the purposes and policies of the Act and the rules and regulations issued thereunder;

(2) The extent to which such laws and regulations are consistent with, or constitute an integrated management or protection program with, the laws and regulations of other jurisdictions whose activities may affect the same species or stocks or marine mammals;

(3) The existence of or preparations for an overall State program regarding the protection and management of marine mammals to which the laws and regulations under review relate; and

(4) Any information received under paragraph (c) of this section.

(e) Upon completion of his review in accordance with paragraphs (c) and (d) of this section, the Director, in consultation with the Marine Mammal Commission, will decide whether or not to approve the State laws and regulations. To be approved, the State provisions must be consistent with (1) any Federal regulations issued under section 103 of the Act for the species or population stocks concerned and (2) any other provisions of the Act or regulations issued thereunder which apply to such species or population stocks. Upon making his decision, the Director will publish in the FEDERAL REGISTER a notice of approval or disapproval. If the State laws and regulations have been approved, the notice will summarize the management program established by the State provisions, specify the date on which the State's annual report it to be submitted under § 18.56(b) of this subpart, and, if necessary, state the extent to which the Act's moratorium on taking or importation is waived in order to allow such State laws and regulations to take effect. If the State laws and regulations have been disapproved, the notice will specify the reasons for the disapproval and will invite the submission of revised provisions under paragraph (a) or (b) of this section.

(f) Any modifications, amendments, deletions, or additions to State laws or regulations approved under paragraph (e) of this section, except emergency closings of seasons, shall, before adoption, require review and approval by the Director pursuant to paragraphs (c) through (h) of § 18.56 of this subpart.

(g) All determinations by the Director under this section shall be final.

§ 18.54 Review and approval of State laws and regulations implementing a waiver.

(a) Any State which requests a determination that its laws and regulations are consistent with the Act and applicable regulations in accordance with § 18.53 of this subpart may also request a waiver of the moratorium on taking and importation imposed by section 101 of the Act to the extent necessary to allow such laws and regulations to take effect.

(b) Where the State laws and regulations would implement a waiver of the moratorium, any waiver granted by the Director shall be contingent upon his approval of such State laws and regulations under § 18.53 of this subpart.

§ 18.55 Criteria for approval of State laws and regulations implementing a waiver.

Any State which applies to the Director for approval of its laws and regulations implementing a waiver of the Act's moratorium on taking or importation must demonstrate, to the Director's satisfaction, that such laws and regulations:

(a) Provide for a modern scientific resource management program, including but not limited to, research, census, law enforcement, habitat acquisition and improvement and, when and where appropriate, the periodic or permanent protection of the species or population stocks of marine mammals that would be affected by the State's laws and regulations;

(b) Establish a program which is based upon the best scientific evidence available on the relevant marine ecosystem and the role of the affected species or stocks of marine mammals in that ecosystem;

(c) Establish a program which is consistent with the Act's primary goal of maintaining the health and stability of the marine ecosystem;

(d) Establish a program which insures that the affected species or population stocks of marine mammals shall not diminish below the range of optimum sustainable population;

(e) Require cessation of taking of the affected species or population stocks of marine mammals, whenever the population is determined to be below the range of optimum sustainable population;

(f) Provide appropriate maximum quotas and seasons, whenever a taking is proposed, unless the State can show that it is more consistent with these criteria to have no quota or season;

(g) Establish quotas, seasons, and other allowances and restrictions as necessary to be consistent with the criteria of this section in accordance with the following factors:

(1) The seasonal distribution of populations;

(2) Segregation within populations by sex and age;

(3) Discreteness of populations;

(4) Population density;

(5) Critical periods in the species life cycle;

(6) Critical habitat areas;

(7) Productivity of the population;

(8) Species interactions;

(9) Percentage of retrieval by hunters;

(10) Maximization of the utilization of the species;

(11) Other uses of the species, such as recreational use or incidental catch; and

(12) Enforceability of the limitations.

(h) Contain suitable limitations on the means and methods of taking which assure that taking will be by humane means and will maximize the utilization of each animal taken.

(i) Contain provisions for significant public participation within the State in the process of implementing the waiver.

(j) Meet the criteria specified in § 18.53 of this subpart, to the extent that such criteria may differ from those prescribed in this section.

§ 18.56 Monitoring and review of approved State laws and regulations; reinstatement of the Act.

(a) All State laws and regulations and the conservation programs established thereby which have been approved shall be monitored and reviewed continuously.

(b) In order to facilitate such a review, each State having approved laws and regulations must submit an annual report not later than 60 days after the close of such State's first full fiscal year following the effective date of the Director's approval of the State laws and regulations and at the same time each following year. The report shall contain the following information current for each reporting period:

(1) Any changes in the State laws or regulations;

(2) Any new data on the marine mammal stocks or species or the marine ecosystems in question;

(3) All available information relating to takings under the terms of a waiver;

(4) A summary of all research activity on the stocks, species, or ecosystem affected by a waiver;

(5) Any changes in the information provided with the original request for approval;

(6) A summary of all enforcement activity, including permits issued, marine mammal parts or products sealed or marked, reports under permits, and investigations undertaken as well as their dispositions;

(7) Present budget and staffing level for the marine mammal activities; and

(8) Any other information which the Director may request, or which the State deems necessary or advisable.

(c) Each State, having approved laws and regulations shall file a special report within 30 days, whenever any of the following occurs:

(1) A proposed change in a relevant State law or regulation (amendments, repealers, or new legislation or regulations), which, with the exception of emergency closings of seasons, shall not be effective until the Director makes a determination pursuant to paragraphs (e) through (h) of this section;

(2) A significant natural or man-made occurrence affecting the marine ecosystems or the species or stocks of marine mammals to which a waiver applies; or

(3) A significant violation of the State management program including any quotas established thereby.

(d) All State laws and regulations and the conservation programs established thereby, as well as annual reports submitted under paragraph (b) and special reports submitted under paragraph (c) of this section, shall be available for inspection and copying at the Office of the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

(e) Upon receipt of any report described in §§ 18.56(b) or 18.56(c), the Director shall, as soon as practicable, in consultation with the Marine Mammal Commission, determine preliminarily whether or not the State laws and regulations and any programs established thereby continue to comply with the requirements of the Act and this subpart.

(f) Whenever the Director preliminarily determines, in consultation with the Marine Mammal Commission, that any substantial aspects of State laws and regulations or programs established thereby are or are not in compliance with the requirements of the Act or this subpart, he shall publish notice of such determination in the FEDERAL REGISTER inviting submission from interested persons, within 30 days of the date of the notice, of written data, views, comments, or requests for an informal public hearing with respect to such preliminary determination.

(g) As soon as practicable after the preliminary determination described

V 43/191 OCT 2 78 UMI

in § 18.56(e) and any 30-day comment period described in § 18.56(f), the Director, in consultation with the Marine Mammal Commission, shall determine whether or not to finally approve or disapprove the State laws and regulations. The Director's determination shall be made within 90 days after publication of any notice described in § 18.56(f), unless a hearing is held.

(h) If the Director makes a final determination to disapprove any proposed changes in State laws and regulations, the State shall, at the Director's sole discretion, have the option of retaining its initially approved laws and regulations, in which case any waiver shall remain in effect. All final determinations of approval or disapproval shall be published in the FEDERAL REGISTER. Upon publication of disapproval, unless a State, at the Director's sole discretion, elects within 30 days to retain its originally approved laws and regulations, any waiver conditioned upon approval of State laws and regulations as provided in this subpart shall terminate, and all provisions of the Act shall be reinstated and supersede such State laws and regulations.

§ 18.57 Notification on waiver quota.

Any State shall immediately notify the Director when the retrieved taking of any species or population stock of marine mammals reaches 90 percent of the numerical extent of the waiver prescribed by subpart H of this part for that species or population stock. The Director shall publish a Notice of Receipt in the FEDERAL REGISTER concerning such notification as soon after receipt thereof as practicable.

§ 18.58 Enforcement of State laws and regulations.

The appropriate official in each State shall utilize such methods as he deems appropriate to assure to the maximum extent practicable that the quotas, seasons, and other limitations in approved State laws and regulations are not exceeded. These methods may include, but are not limited to, patrols, surveillance, investigation, permit recordkeeping and reporting requirements, and tagging and marking requirements.

§ 18.59 List of waivers and States with approved laws.

The following is a list of the States whose laws and regulations have been approved by the Director pursuant to this subpart and the species or population stocks for which the moratorium has been waived within such States:

State, Common Name and Scientific name.
Alaska, Pacific Walrus, *Odobenus rosmarus.*

NOTE.—The Service has determined that issuance of these regulations is not a major action requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 26, 1978.

LYNN A. GREENWALT,
Director,
Fish and Wildlife Service.

[4310-55]

PART 26—PUBLIC ENTRY AND USE

Special Regulations for Kodiak National Wildlife Refuge, Alaska

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: These special regulations govern the use of aircraft, motorized land vehicles, specialized watercraft, public and private cabin sites, and special-use permits for commercial use on the Kodiak National Wildlife Refuge in Alaska. The Director has determined that these regulations are consistent with the primary objectives for which the refuge was established and will provide additional recreational opportunity to the public.

EFFECTIVE DATES: These regulations are effective October 2, 1978, through December 31, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert Delaney, Refuge Manager, Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615, 907-486-3325.

SUPPLEMENTARY INFORMATION: The primary author of this document is Robert Delaney.

§ 26.34 Special regulations concerning public access, use, and recreation for individual national wildlife refuges.

ALASKA

KODIAK NATIONAL WILDLIFE REFUGE

A. Public access, use, and recreation is permitted in accordance with applicable State and Federal regulations subject to the following conditions:

(1) The landing and operation of aircraft under other than emergency conditions is prohibited except as authorized in the waters of all streams, lakes, lagoons, and bays on or adjacent to the Kodiak National Wildlife Refuge.

(2) Rotary winged aircraft, also known as helicopters, may land on the refuge by Federal permit only. Permits are issued by the Refuge Manager, Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615.

(3) The use of motorized land vehicles is prohibited.

(4) The use of boats commonly known as airboats and jet boats is prohibited.

B. Occupancy of cabin sites on national wildlife refuges is subject to the provisions of 43 CFR Part 21 and 50 CFR 26.35. In addition, the following special regulations shall apply:

(1) All commercial use cabin site permittees are required to appear in person at the headquarters on the Kodiak National Wildlife Refuge for issuance of permits.

(2) All commercial fish cabin site permittees are required to hold a valid State limited entry permit for set gill nets in Kodiak Island waters.

(3) No new structures or additions to existing structures shall be allowed.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally which are set forth in title 50 Code of Federal Regulations, Part 26, and occupancy of cabin sites as set forth in Title 43, Code of Federal Regulations, Part 21. The public is invited to offer suggestions and comments at any time.

Dated: September 21, 1978.

LEROY W. SOWL,
Acting Alaska Area Director,
Fish and Wildlife Service.

[FR Doc. 78-27793 Filed 9-29-78; 8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules

[3410-02]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 946]

IRISH POTATOES GROWN IN WASHINGTON

Reapportionment of Members

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would reapportion the membership of the State of Washington Potato Committee. The proposed reapportionment would provide one handler member and alternate for each of the five districts and would result in more equitable representation on the committee.

DATES: Comments due by November 1, 1978.

ADDRESSES: Comments should be sent to the Hearing Clerk, Room 1077-S, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written comments shall be submitted and they will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Phone: 202-447-6393.

SUPPLEMENTARY INFORMATION: Marketing agreement No. 113 and order 946, both as amended, regulate the handling of Irish potatoes grown in the State of Washington. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The State of Washington Potato Committee, established under the order, is responsible for its local administration.

The order provides in § 946.31 that upon recommendation of the committee the Secretary may reestablish districts within the production area and may reapportion committee membership among various districts.

The committee, at its June 7, 1978, organizational meeting, evaluated its handler representation which currently is comprised of two members from district 1, none from district 2, and one each from districts 3, 4 and 5. However, district No. 2, which includes the Quincy-Royal Slope area, has become an important potato shipping area, and is now the third largest shipping district in the production area. The committee decided that reapportioning the committee to provide for one handler member and his alternate for each district would result in more equitable representation on the committee. The change would become effective July 1, 1979.

The proposal is as follows:

Section 946.104 Reapportionment of committee membership is amended to read as follows:

§ 946.104 Reapportionment of committee membership.

(a) • • •

(1) District No. 1—three producer members and one handler member.

(2) District No. 2—two producer members and one handler member.

(3) • • •

(4) • • •

(5) • • •

Dated: September 26, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[3128-01]

DEPARTMENT OF ENERGY

Office of Energy Conservation and Solar Applications

[10 CFR Part 430]

ENERGY CONSERVATION PROGRAM FOR APPLIANCES

Revised Schedule for Public Hearings and Submission Dates

AGENCY: Department of Energy.

SUMMARY: This document sets forth the revised schedule for public hearings and submission dates on proposed rulemaking regarding the sampling requirements of appliance test procedures.

DATES AND ADDRESSES: See below.

SUPPLEMENTARY INFORMATION: On September 8, 1978, the Department of Energy (DOE) published in the FEDERAL REGISTER a notice of proposed rulemaking regarding the sampling requirements of appliance test procedures (43 FR 40192). Because of the interrelationship of this proposal to a proposal concerning appliance energy cost labeling published by the Federal Trade Commission (FTC) on July 21, 1978 (43 FR 31808), DOE arranged for FTC to receive comments on both proposals, and subsequently to provide DOE with copies of all comments. In addition, DOE arranged that a single public hearing would be held on both proposals, to be conducted by FTC in accordance with FTC hearing procedures, and with appropriate DOE participation.

On September 18, 1978, FTC published a notice in the FEDERAL REGISTER (43 FR 41410) revising the schedule for the public hearings (applicable to both proposals) and extending the written comment period (for the FTC proposal). A summary of the revised schedule is as follows:

September 19, 1978—Deadline for requests to testify at public hearings.
October 2, 1978—Deadline for all written comments pertaining to FTC proposal, identified as "Consumer Appliance Rulemaking Comment."
October 12, 1978—Hearings begin at 9 a.m. in Room 532 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D.C.
November 1, 1978—Deadline for all written comments pertaining to DOE proposal, identified as "Consumer Appliance Rulemaking Comment—Test Procedure Sampling." (This date was unaffected by the September 18, 1978 FTC Notice.)

Issued: September 27, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 78-ASW-44]

AIRWORTHINESS DIRECTIVE

Bell Models 212 and 205A-1 Helicopters

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt an airworthiness directive (AD)

V 43 / 191

that would require installation of strengthened float bags (reinforced girts) on certain Bell Models 212 and 205A-1 helicopters that are equipped with emergency flotation (ditching) equipment. The proposed AD is needed to improve the strength of the float bags attachment to the helicopter and preclude tearing, puncturing, and deflation of a float bag. Deflation of a float bag would reduce the capability of the helicopter to remain upright after a ditching.

DATES: Comments must be received by November 3, 1978. Proposed effective date of the AD will be December 13, 1978.

ADDRESSES: Send comments on this proposal in triplicate to: Regional Counsel, Attn. Docket 78-ASW-44, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. Bell service information may be obtained from Bell Helicopter Textron, P.O. Box 482, Fort Worth, Tex. 76101 or from the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southwest Region, P.O. Box 1689, Fort Worth, Tex. 76101.

FOR FURTHER INFORMATION CONTACT:

James H. Major, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex., telephone No. 817-624-4911, extension 516.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the development of the final rule by submitting such written or oral comments as they desire. Communications should identify the regulatory docket number and be submitted in triplicate to the address specified above. All comments will be recorded and considered by the Director before taking final action and the proposal may be changed as a result of the comments received. All comments will be available for examination before and after the closing date for comments in the Office of the Regional Counsel, Federal Aviation Administration, Southwest Region, 4400 Blue Mound Road, Fort Worth, Tex. 76101.

During flotation tests conducted at Bell Helicopter Textron on a Model 212 helicopter, ballasted to a gross weight of 11,200 pounds, the girt assembly of the forward float separated at the support panel. Subsequent analysis disclosed the girt-to-support panel attachment configuration allowed concentrated loading of the girt fabric to occur at corners of the support panel. This load concentration, under a maximum gross weight condition, initiated a puncture that propagated along the girt. A report of a like condition has not been received from operators.

STC SH2395SW was issued for Bell Model 205A-1 helicopters to install emergency flotation equipment that includes the Model 212 float bags.

A modification is available as noted in Bell Service Bulletin No. 212-78-9 to provide additional strength and puncture resistance to the inboard corners of the girt by addition of fabric reinforcement doublers. The modified float bags are identified by different part numbers from the original design.

The proposed AD would require installation of strengthened float bags within 600 hours or 6 months' time in service, whichever comes first, for Bell Model 212 helicopters, serial No. 30501 through 30889, that are equipped with emergency flotation (ditching) equipment and all Model 205A-1 helicopters incorporating STC SH2395SW emergency flotation equipment. The proposed AD is needed to improve the strength of the float bags attachment to the helicopter and to preclude possible tearing, puncturing, and deflation of a float bag. Deflation of a float bag would seriously reduce the capability of the helicopter to remain upright after a ditching.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation regulations (14 CFR 39.13) by adding the following new Airworthiness Directive:

BELL: Applies to Bell Model 212 helicopters, serial No. 30501 through 30889, equipped with emergency flotation (ditching) equipment and to Bell Model 205A-1 helicopters equipped with STC SH2395SW emergency flotation equipment, certificated in all categories.

Compliance required within 600 hours' time in service or 6 months after the effective date of this airworthiness directive (AD), whichever comes first, unless already accomplished.

To preclude possible tearing, puncturing, and deflation of a float bag after a ditching, accomplish the following:

Remove the four emergency float bags and install modified or new float bags having the following part numbers: Air Cruisers No. D24650-105 -106 -107, and -108 (Bell No. 212-050-207-5, -6, -7, and -8 respectively) or B.F. Goodrich No. 7MA1002-5, -6, -7, and -8 (Bell No. 212-050-207-9, -10, -11, and -12 respectively).

Air Cruisers or B.F. Goodrich float bags may be modified and reidentified as prescribed by Air Cruisers Co. Service Bulletin No. 120-78-1, dated May 5, 1978, or later FAA approved revision or by B.F. Goodrich, Engineered Systems Division, Service Bulletin No. 01, dated May 8, 1978, or later FAA approved revision, respectively.

(Bell Helicopter Textron Service Bulletin No. 212-78-9 pertains to this subject.)

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.85).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582, Mar. 8, 1978).

Issued in Fort Worth, Tex., on September 18, 1978.

HENRY L. NEWMAN,
Director, Southwest Region.

[4910-13]

[14 CFR Part 39]

[Docket No. 18316]

AIRWORTHINESS DIRECTIVES

Fokker Model F-27 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to add an airworthiness directive (AD) that would require inspections, replacements, and modifications, as necessary, of certain components on Fokker-VFW b.v. model F-27 airplanes. The AD is needed to detect and prevent certain unsafe conditions which were found earlier but for which no AD action was taken at the time found because the few Fokker model F-27 airplanes on the FAA Aircraft Registry were operating in foreign countries, and correction of the unsafe conditions were established on an individual basis with the aid of foreign airworthiness authorities. However, the anticipated entry onto the FAA Registry of additional Fokker model F-27 airplanes which are intended for operations in the United States necessitates AD action at this time to insure that such aircraft possess the minimum level of safety required by the regulations.

DATE: Comments must be received on or before November 15, 1978.

ADDRESSES: Send comments on the proposal in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: rules Docket (AGC-24) Docket No. 18316, 800 Independence Avenue SW., Washington, D.C. 20591.

The applicable service bulletins may be obtained from: Fokker-VFW b.v., P.O. Box 7600, Schiphol Oost, The Netherlands.

Copies of each of the service bulletins referenced in this AD are contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the address specified above. All communications received on or before the date specified above will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the rules docket.

In the past, the Netherlands Civil Aviation Department (RLD), in accordance with existing provisions of a bilateral agreement, has notified the FAA of a number of inspection, replacement, and modification requirements which they have imposed upon Netherlands-manufactured and operated Fokker model F-27 airplanes to correct unsafe conditions. Currently, only a few Fokker F-27 airplanes are on the FAA Registry, and those are being operated outside of the United States. For those few aircraft, correction of the unsafe conditions found by the RLD has been confirmed by the FAA with the assistance of the RLD and other foreign airworthiness authorities. However, the FAA believes that additional Fokker model F-27 airplanes may be entered on the FAA Registry in the near future and may be operated within the United States. Based on this belief, the FAA has now evaluated the conditions which gave rise to the special requirements imposed by the RLD. The FAA believes that the requirements presented in this proposed AD, which are based on the special requirements of the RLD, are all related to unsafe conditions. Since these conditions are likely to exist or develop in other airplanes of the same type design, the proposed AD would require inspections, replacements, and modifications, as necessary, on certain Fokker model F-27 airplanes. Each numbered paragraph of this proposed AD identifies the serial numbers of the airplanes affected, the specific unsafe condition to which it is directed, and the related corrective action that would be required for resolution of that unsafe condition.

PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

FOKKER-VFW b.v. Applies to model F-27 airplanes, all series, certificated in all categories.

Unless already accomplished, compliance is required within the next 25 hours time in service after the effective date of this AD, except as specifically provided in a numbered paragraph of this AD. However, airplanes may be flown in accordance with FAR 21.197 and 21.199 to a base where the work can be performed.

1. Applies to airplanes S/N 10105 through 10110. To prevent jamming of the nose landing gear in the retracted position due to leakage of the shock absorber, install cam, P/N 27.1-5101-001-162, at station 1400 in accordance with the accomplishment instructions of Fokker F-27 modification No. 72, dated April 22, 1959.

2. Applies to airplanes S/N 10105 through 10106. To prevent loss of electrical power in flight due to inadequate attachment of bus bars on panels 1, 2, and 3, modify the bus bar attachment in accordance with the accomplishment instructions of Fokker F-27 modification No. 71, dated April 22, 1959.

3. Applies to airplanes S/N 10105 through 10119, except S/N 10115. To prevent failure of the nose gear steering system due to trapped air in the steering motor, install bypass lines with nonreturn valves over the nosewheel steering circuit followup valve in accordance with Fokker modification No. 88, dated July 23, 1959.

4. Applies to airplanes S/N 10105 through 10110. To prevent loss of electrical power in flight as a consequence of inadequate grounding of generator master switches, replace the grounding cable serving both switches with two separate grounding cables for the port and starboard generator switches respectively, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. J-14, Issue 2, dated October 1, 1959.

5. Applies to airplanes S/N 10105 through 10125. To prevent loss of electrical power in flight as a consequence of inadequate grounding of generator master switches, install additional grounding provisions for generator control panels in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. J-19, Issue 2, dated October 1, 1959.

6. Applies to airplanes S/N 10111 through 10114 and 10120 through 10122. To prevent jamming of an emergency door as a consequence of the guide rollers springing from the guide plates, enlarge the door rollers and strengthen the guide plates in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-22, dated October 21, 1959.

7. Applies to airplanes S/N 10105 through 10122 and 10126 through 10135. To prevent unsatisfactory operation of the control systems for controlling engine power, elevator, and rudder trim tabs, gust lock, emergency shutoff valves, and fuel crossfeed, reinforce the attachment of the control cable guide assemblies in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-23, dated November 30, 1959.

8. Applies to airplanes S/N 10105 through 10122, 10127 through 10136, 10138, and 10139. To prevent failure of the elevator main spar, which could result in loss of control of the airplane, reinforce the elevator main spar at station 3979 in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-26, Issue 3, dated January 27, 1960.

9. Applies to airplanes S/N 10105 through 10122 and 10126 through 10141. To prevent engine failure due to fatigue failure of engine control levers, install levers of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. F5, Issue 3, dated May 30, 1960.

10. Applies to airplanes S/N 10105 through 10122, 10126, 10127, 10131 through 10136, 10138, and 10139. To prevent excessive travel and possible damage of the flap drive system, relocate the flap system limit switches in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. C-17, dated January 11, 1960.

11. Applies to airplanes S/N 10105 through 10122 and 10126 through 10135. To prevent asymmetric extension of wing flaps due to certain failures of the mechanical drive system, which could result in loss of control of the airplane, modify the flap control system in accordance with the accomplishment instructions of Fokker F-27 modification No. 74, Issue 2, dated February 3, 1960.

12. Applies to airplanes S/N 10105 through 10122 and 10126 through 10140. To prevent inadequate control of the aircraft due to loosening of pilot and copilot control wheels, modify the control wheel attachment provisions in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. C-18, dated February 3, 1960.

13. Applies to airplanes S/N 10105 through 10122 and 10126 through 10141. To prevent loss of electrical power in flight due to internal short circuits in electrical connectors, replace the connectors with connectors of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. J-23, Issue 4, dated February 14, 1961.

14. Applies to airplanes S/N 10105 through 10122 and 10126 through 10141 with elevators not reinforced in accordance with Fokker F-27 Service Bulletin No. B-76. To prevent failure of elevator hinge brackets, which could result in the loss of control of the airplane, replace the elevator hinge brackets at stations 3979 and 2460 in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-28, Issue 2, dated July 13, 1960.

15. Applies to airplanes S/N 10105 through 10122 and 10126 through 10141, having elevators not reinforced in accordance with Fokker F-27 Service Bulletin No. B-76. To prevent structural failure of the elevator main spar, which could result in loss of control of the airplane, reinforce the elevator main spar at station 2460 in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-27, Issue 2, dated July 13, 1960.

OCT 2 1978

V 4 3 / 1 9 1

0 C 2 7 8

16. Applies to airplanes S/N 10105 through 10122, 10126 through 10141, and 10143 through 10146. To prevent undue vibration stresses in propeller blades that could result in failure of a propeller blade in flight, restrict the engine idling speed to values above 7,000 r/min by revising the dial marking on the r/min indicators in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. N-3, dated April 11, 1960.

17. Applies to airplanes S/N 10105 through 10148. To prevent failure of an aileron hinge bracket, which could result in loss of the aileron in flight, inspect the aileron hinge brackets, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-32, Issue 4, dated January 18, 1961.

18. Applies to airplanes S/N 10105 through 10122, 10126 through 10141, 10143 through 10148, 10151, and 10153. To prevent a dormant electrical failure that could result in the inability to extend the landing gear following a single failure in the landing gear electrical control circuit, modify the landing gear electrical control circuit in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. J-26, dated July 26, 1960.

19. Applies to airplanes S/N 10105 through 10122 and 10126 through 10153. To prevent malfunction of the gust lock/engine interference system that possibly could result in takeoff with the flight controls locked, modify the gust lock system in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. F-9, dated September 12, 1960.

20. Applies to airplanes S/N 10105 through 10179. To prevent blockage of the pitot-static system due to accumulation and freezing of water, which could jeopardize safety by causing erroneous indications of airspeed and altitude, modify the pitot-static system in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. N-7, dated March 2, 1961.

21. Applies to airplanes S/N 10105 through 10186. To prevent deformation of the H.P.C. control lever rub plate, which could impair controllability by preventing feathering of the associated propeller, install a rub plate of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin F-11, Issue 2, dated November 27, 1961.

22. Applies to all Fokker F-27 airplanes incorporating Fokker F-27 Service Bulletin No. H-10. To prevent malfunction of the engine water/methanol system due to malfunction of the nonreturn valve, P/N 27.1—8420-018-001, which could result in a lack of power during takeoff, dismantle and inspect the nonreturn valves, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. H-24, dated October 29, 1962.

23. Applies to airplanes S/N 10105 through 10213. To prevent blockage of the pitot-static system due to the accumulation and freezing of water, which could jeopardize safety by causing erroneous indications of airspeed and altitude, modify the pitot-static system in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. N-19, dated December 20, 1962.

24. Applies to airplanes S/N 10145 through 10223. To prevent unwanted propeller auto-feathering in flight due to ingress of moisture in electrical connectors V2609 and V2610, which could result in an engine failure, install electrical connectors of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. J-71, dated May 1, 1963.

25. Applies to all Fokker F-27 airplanes not incorporating Fokker F-27 Service Bulletin No. G-7. To prevent failure of the propeller feathering system due to malfunction of the H.P.C. switches located on the engine firewall, inspect and test the switches, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletion No. G-5, Issue 2, dated October 8, 1963.

26. Applies to all Fokker F-27 airplanes not incorporating Fokker F-27 Service Bulletin No. B-146. To detect possible internal corrosion of the steel tubular structures identified in Service Bulletin No. B-146, which could jeopardize safety by dangerously decreasing the strength of the empennage, the wing flap track support assembly, and the engine mounts, conduct X-ray inspections, and rectify as appropriate, in accordance with section A, planning information, and section B, accomplishment instructions, of Fokker F-27 Service Bulletin No. B-146, dated July 26, 1963, including Amendment No. 1, dated July 30, 1964.

27. Applies to airplanes S/N 10230 and subsequent. To prevent failure of flight control rods due to the accumulation of water and consequent corrosion or bursting due to freezing, inspect the flight control rods, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. C-61, Issue 3, dated October 30, 1964.

28. Applies to airplanes S/N 10105 through 10253. To prevent structural failure of the horizontal stabilizer, inspect the front and rear spar areas for cracks and loose rivets between station 227.5 LH and RH, rectify as appropriate, and apply structural reinforcement in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-150, dated June 18, 1964.

29. Applies to airplanes S/N 10105 through 10274. To prevent fatigue failure of structure supporting the rudder trim tab control brackets, which possibly could jeopardize safety by permitting flutter of the trim tab and rudder failure, replace bracket, P/N 27.1-3401-026-005, with a new bracket of improved design, and reinforce the bracket supporting structure, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-169, Issue 2, dated June 10, 1965.

30. Applies to airplanes S/N 10105 through 10274. To prevent fatigue failure of structure supporting the elevator trim tab control brackets, which possibly could jeopardize safety by permitting flutter of the trim tab, replace bracket, P/N 27.1-3201-041-002, with a new bracket of improved design, and reinforce the bracket supporting structure, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-170, dated May 31, 1965.

31. Applies to airplanes S/N 10249 through 10274 incorporating Fokker F-27 Service Bulletin No. I-26. To prevent failure of the brazed high-pressure tube assemblies, PNEU 370 and PNEU 371, or the pneumatic system (which operates the landing gear, brakes, and nose-wheel steering), modify the pneumatic system in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. I-30, dated July 30, 1965.

32. Applies to airplanes S/N 10105 through 10293. To prevent jamming of nose gear doors due to deterioration of the door seals, which has resulted in failure to extend the nose gear, inspect the nose wheel door seals, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. B-185, revision 1, dated August 15, 1967.

33. Applies to airplanes S/N 10105 through 10316. To prevent possible flutter of the horizontal stabilizer due to reduced stiffness of the nose section, which could result in loss of the stabilizer, inspect the attachment angles on the front stabilizer spar for cracks and correct location, and rectify as appropriate, in accordance with the accomplishment instructions, part II, of Fokker F-27 Service Bulletin No. 55-39, revision 3, dated May 15, 1967.

34. Applies to all Fokker F-27 airplanes not incorporating Fokker F-27 Service Bulletin No. D-56. To prevent failure of the nose gear lock in the extended position due to failure of the light-alloy main actuating piston, replace the light-alloy piston with a new stainless steel piston in accordance with the accomplishment instructions of Dunlop Service Bulletin No. 36-95, revision 1, dated October 21, 1966.

35. Applies to all Fokker F-27 airplanes not incorporating Dowty-Rotol accessory gearbox modification No. GB 2294. To prevent failure of an accessory gearbox due to failure of the input bevel gear, which could jeopardize safety by depriving the aircraft of one of the two sources of electrical and pneumatic power, incorporate an input bevel gear of improved design in accordance with Dowty Rotol Service Bulletin No. 83-291, revision 2, dated October 1966, or Fokker F-27 Service Bulletin No. E-35, dated May 15, 1967.

36. Applies to airplanes S/N 10105 through 10264 incorporating Graviner fire extinguisher top caps P/N A126. To prevent malfunction of the engine fire extinguishing systems due to material defects in the top caps, replace top caps, P/N A126, with caps of improved material, identified as P/N A126(2), in accordance with the embodiment instructions of Graviner Service Bulletin No. 26-A20, dated September 30, 1964.

37. Applies to airplanes S/N 10162 through 10335 incorporating a cargo door. To prevent possible failure of the pneumatic system due to inadequate wall thickness of the pneumatic tube located between the main bottle and the pneumatic panel, replace the pneumatic tube, PNEU 341, with a new tube of increased wall thickness, PNEU 428, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No I-33, dated October 2, 1967.

38. Applies to airplanes S/N 10105 through 10350. To prevent failure of an accessory gearbox front mounting flexible link due to misalignment which could result in loss of power, inspect the flexible links of the gearbox front mountings, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 83-14 dated June 24, 1968.

39. Applies to all Fokker F-27 airplanes with pneumatic systems incorporating Dunlop Dehydrator ACM 18952 (bottle P/N ACM 16773), or Dunlop Oil & Watertrap ACM 18048 (bottle P/N ACM 16772). To prevent pneumatic system failure due to stress corrosion of pressurized bottles, replace bottles P/N ACM 16772 and P/N ACM 16773, manufactured prior to 1959 (date of manufacture is marked on bottle) with serviceable bottles of the same part number but manufactured in 1960 or subsequent, in accordance with Dunlop Service Bulletin No. 36-187, revision 3, dated July 27, 1970.

40. Applies to airplanes S/N 10102 and 10105 through 10360, not incorporating part III of Fokker F-27 Service Bulletin No. 53-96. To detect and prevent cracks in the fuselage bottom skin, which possibly could result in explosive decompression of the cabin, inspect the fuselage bottom skin for cracks, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 53-72 dated April 6, 1967, including revision 2, dated June 30, 1972, and repeat the inspection in accordance with paragraph 1D, "Compliance", of that service bulletin as amended by Fokker F-27 Service Letter No. 277, dated October 25, 1971.

41. Applies to all Fokker F-27 airplanes. To detect and repair cracks in the rabbet area of fuel tank access doors of the lower outer wing area, which possibly could jeopardize safety by reducing the structural strength of the wing, inspect for cracks in the areas of the lower wing skin cut-outs of the fuel tank access doors, and rectify as appropriate, in accordance with the Accomplishment Instructions of Fokker F-27 Service Bulletin No. 57-46, dated October 30, 1972.

42. Applies to all Fokker F-27 airplanes not incorporating Fokker F-27 Service Bulletin No 55-49. To detect and repair cracks and corrosion in attachment fittings, which possibly could lead to failure of the vertical stabilizer, inspect the vertical stabilizer attachment fittings for cracks and corrosion, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 55-48, revision 1, dated May 21, 1973.

43. Applies to all Fokker F-27 airplanes that are equipped with Airesearch aileron trim tab actuator (RH), P/N 525458, 540604-1, or 540604-2-1, but that do not incorporate Fokker F-27 Service Bulletin No. 27-105 or Airesearch Service Bulletin F27/20-12. To prevent malfunction of the RH aileron trim tab actuator due to failure of the actuator setscrew, which possibly could jeopardize safety by altering the airplane's lateral trim capability, modify the RH aileron trim tab actuator in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 27-105 dated October 19, 1973.

44. Applies to all Fokker F-27 airplanes. To detect and repair corrosion and cracks in the rear spar attachment fitting of the horizontal stabilizer, which possibly could lead to failure of the horizontal stabilizer, inspect the horizontal stabilizer rear spar attachment fittings for cracks and corrosion, and rectify as appropriate, in accordance with the Accomplishment Instructions of Fokker F-27 Service Bulletin No. 55-50, dated March 22, 1974, or in accordance with the Fokker F-27 maintenance schedule (part 3) and the Fokker F-27 inspection guide, chapter III.

45. Applies to airplanes S/N 10446 through 10504. To prevent premature unlocking of the hatrack panels, which possibly could jeopardize safety by interfering with an emergency evacuation, install panel fasteners of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 25-40, dated August 8, 1974.

46. Applies to Fokker F-27 airplanes incorporating an engine mount P/N 27.1-8101-000-403 with a serial number between 590 and 725. To prevent failure of the engine mount due to use of improper material when manufactured inspect the engine mount upper tubes for cracks adjacent to the welds, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 71-25, revision 1, dated January 30, 1975.

47. Applies to airplanes S/N 10105 through 10522. To prevent loss of aileron control due to an inadequate flange on an aileron cable drum, inspect cable drums, P/N 27.1-5133-002-702, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 27-54 (C-47), dated August 22, 1975.

48. Applies to airplanes S/N 10105 through 10516 incorporating aileron control rod P/N 27.1-1333/1334-001-401 or -403. To prevent possible disconnection of an aileron control rod from the differential sector due to failure of the control rod bearing, install bearings of improved design in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 27-110, revision 1, dated February 16, 1976.

49. Applies to airplanes S/N 10512 and below incorporating the large cargo door. To prevent unwanted opening of the large cargo door in flight due to wear and distortion, inspect the locking and signaling provisions, and rectify as appropriate, in accordance with part I of the accomplishment instructions of Fokker F-27 Service Bulletin No. 52-55, dated August 27, 1975, and reinforce the door stiffening profile in accordance with part II of that service bulletin.

50. Applies to Fokker F-27 airplanes incorporating rudders which have accumulated more than 5,000 flights. To detect possible cracks and loose rivets in the hinge structure of the rudder trim tab and balance tab, which could result in tab flutter and loss of rudder inspect the rudder tab hinge brackets for cracks and loose rivets, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 55-51, dated December 29, 1975.

51. Applies to airplanes S/N 10529, 10534, 10536 through 10541, having IPECO crew seats not incorporating IPECO Service Bulletin NO. A001-25-2. To prevent unwanted movement of crew seats in flight due to wear of the track lock stopblock, incorporate track lock stopblocks of improved design in accordance with the accomplishment instructions, part II, of Fokker F-27 Service Bulletin No. 25-43, dated September 6, 1976.

52. Applies to airplanes S/N 10505 and 10507 through 10515. To prevent instability of the DC generator control system due to interaction with the static inverters, which could result in malfunction of required navigation and communication equipment, modify the AC lighting conversion system in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 24-63, dated October 11, 1976.

53. Applies to airplanes S/N 10408 through 10510. To prevent loosening of the aileron stops due to improper design, which could adversely affect controllability because of improper aileron deflection, modify the aileron stop installations in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 27-112, dated October 18, 1976.

54. Applies to airplanes S/N 10458 and below not incorporating Fokker F-27 Service Bulletin No. 36-26 (Dunlop Service Bulletin No. 36-156). To prevent possible failure of pneumatic system isolating valve bodies, P/N ACM 16724 or ACM 26573 due to cracking, which could deprive the airplane of wheel braking and nosewheel steering, modify the isolating valve body in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 36-26, dated June 13, 1977, or Dunlop Service Bulletin No. 36-156, revision 4.

55. Applies to all Fokker F-27 airplanes having accumulated more than 10,000 flights. Compliance required within the next 500 hours time in service after the effective date of this AD. To detect possible fatigue cracks and loose rivets in the RH horizontal stabilizer torsion box, which could result in failure of the stabilizer, inspect the torsion box structure, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 55-53, dated October 3, 1977.

56. Applies to airplanes S/N 10505 through 10521, 10525 through 10531, 10534 through 10557, 10559, and 10561 through 10564. To prevent loss of the main instrument panel fluorescent lighting system due to short circuiting, inspect the fluorescent lamps, and rectify as appropriate, in accordance with the accomplishment instructions of Fokker F-27 Service Bulletin No. 33-24, dated January 30, 1978.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Fokker-VFW b.v., P.O. Box 7600, Schiphol Oost, the Netherlands. These documents may also be examined at Federal Aviation Administration, Europe, Africa, and Middle East Region c/o American Embassy, Brussels, Belgium, and at FAA headquarters, 800 Independence Avenue SE., Washington, D.C. A historical file in this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C. and at Brussels, Belgium.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

[Docket No. 77-WE-29-AD]

AIRWORTHINESS DIRECTIVES

McDonnell Douglas DC-9, -10, -20, -30, -40, -50 Series (Including Military C-9A, C-9B, and VC-9C) Airplanes

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt an airworthiness directive (AD) that would require repetitive inspections and replacement of the wing flap idler hinge support fitting attachment studs at wing station X_w=333.148 on certain McDonnell Douglas DC-9 airplanes. These inspections and rework are necessary to prevent the hinge fitting from becoming loose and causing partial loss of flap and aileron control and damage to the spoiler and wing structure.

DATES: Comments must be received on or before December 8, 1978.

ADDRESSES: Send comments on the proposal to: Department of Transportation, Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rule Docket, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009.

The applicable service information may be obtained from: McDonnell Douglas Corp., 3855 Lakewood Boulevard, Long Beach, Calif. 90846, Attention: Director, Publications and Training, C1-750, (54-60).

Also, a copy of the service information may be reviewed at, or a copy obtained from: Rules Docket in Room 916, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, or Rules Docket, Room 6W14, Federal Aviation Administration, Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

FOR FURTHER INFORMATION CONTACT: Jerry J. Presba, Executive Secretary Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Interested persons are also invited to comment on the economic environmental and energy impact that might result because of adoption of the proposed rule. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the rules docket.

There have been reported instances of failures of the studs which attach the wing flap outboard idler hinge to the wing rear spar at wing station X_w=333.148. The hinge consists mainly of a support assembly (fitting) and a bracket, both units being joined by a hinge bolt about which the flap bracket (and flap), pivots.

The support fitting is attached to the rear spar with four studs, two upper and two lower. The studs are made from 8740 steel (180-220 KSI heat treat) material, and threaded at both ends. One threaded end is for the purpose of securing the stud to the wing rear spar; the other threaded end is used to secure the hinge support fitting to the stud.

Preload indicating (PLI) washers are installed on the fitting end of the two lower studs, to obtain proper bolt preload.

The failure mode is such that the lower studs fail first, allowing the support fitting to rotate upwards during flap actuation, and subsequently, causing bending of the two upper studs. Rotation of the fitting allows the flap fixed vane to rub against the spoiler and wing trailing edge. Additionally, the aileron control cables pass through a hole in the support fitting. Excessive rotation of the fitting could cause the control cables to be broken or jammed.

The studs have a life limit of 50,000 landings, (reference: DC-9 TC data sheet A6WE, report MDC-J0005), and have been reported to have failed on airplanes having between 14,000 and 32,600 landings. The failures of the two lower studs are attributed to fatigue which initiated at the surface of the fuse and threaded areas, under load conditions precipitated by the combination of loss of preload and joint rigidity (clampup). The loss of preload and joint rigidity is attributed to the design of the existing "PLI" washer. The diameter and wall thickness of the washer inner-yield-ring is such that the ring, when installed, is in line with a cavity formed by the stud fuse area and the chamfer on the hinge fitting hole. Subsequently, loads applied to the inner ring will force the bottom washer to deflect into the cavity, in a cupping action, with the result that the nut is torqued against a washer in a "spring state". This condition in time, will result in the loss of preload and joint rigidity. If these types of cracks or failures are allowed to go undetected, they could result in structural damage to the spoiler, flap vane and wing structure, and possible loss of airleron control on the affected side if rotation of the support fitting causes jamming or breakage of the cables.

McDonnell Douglas DC-9 Service Bulletin 57-118 provides instructions for:

The inspection and replacement of the studs and PLI washers;

Ultrasonic inspection of the four studs;

Replacement of the two upper studs with new studs of original design;

Replacement of the two lower studs with new design studs made from Hy-Tuf (220-250 KSI Heat Treat) material; and,

The installation of new design PLI washers.

Since this condition is likely to exist or develop in other aircraft of the same type design, the proposed AD would require compliance with the inspection and stud replacement requirements of DC-9 Service Bulletin 57-118.

PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend section 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

McDONNELL DOUGLAS: Applies to model DC-9-10, -20, -30, -40, -50 series airplanes, including (military C9A, C9B, and VC-9C) airplanes certificated in all categories, fuselage numbers F/N 1 thru F/N 880, which correspond to the factory serial numbers listed in Douglas DC-9 Service Bulletin 57-118 dated November 4, 1977.

Compliance required as indicated. To detect fatigue cracks and/or failure of the wing flap outboard idler hinge support fitting attachment studs, accomplish the following:

(a) Within the next 850 landings after the effective date of this AD, or before accumulating 10,000 total landings, whichever occurs later, unless already accomplished within the last 2,550 landings and thereafter at intervals of 3,400 landings from the last inspection, accomplish the ultrasonic inspection in accordance with the instructions in Douglas DC-9 Service Bulletin 57-118 dated November 4, 1977.

NOTE.—Service Bulletin 57-118 dated November 4, 1977 is the only version of this Service Bulletin suitable for compliance with paragraphs (a) and (b) of this AD.

(b) If any one or more studs is found cracked or failed, or has accumulated 50,000 or more landings, before further flight:

1. Replace all four studs, two PLI washers and applicable attaching parts with new original design studs and PLI washers, and applicable attaching parts; or,

2. Replace all four studs, two PLI washers and applicable attaching parts with new studs, (upper two of original design and lower two of new design and higher heat treat), and two new design PLI washers, and applicable attaching parts, per option 1, paragraph 2D1, Accomplishment Instructions, as prescribed in Douglas DC-9 Service Bulletin 57-118 dated November 4, 1977.

3. If new parts are installed per (b)1 above, the requirements of this Ad may be discontinued for that idler hinge(s) group of four attachment studs only, until the newly replaced parts have accumulated 10,000 landings, at which time reinstate the program of repetitive inspections and/or corrective actions per this AD.

4. The requirements per this AD may be terminated for that idler hinge(s) group of four attachment studs only, upon compliance with paragraph (b)(2) above, or upon installation of two lower studs of new design and two new design PLI washers, and applicable attaching parts, per option 1, paragraph 2.D.2., Accomplishment Instructions, as prescribed in Douglas DC-9 Service Bulletin 57-118 dated November 4, 1977.

5. Compliance with this AD notwithstanding, attachment studs must be replaced in accordance with the schedule specified in Douglas Report MDC-J0005, "DC-9 Safe Life Limits" (Reference DC-9 TC Data Sheet A6WE).

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections required by this AD.

(d) Equivalent inspection procedures and repairs may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(e) Upon request of operator, an FAA maintenance inspector, subject to prior approval of the Chief, Aircraft Engineering Division, FAA Western Region may adjust the initial and repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85)

NOTE.—The Federal Aviation Administration has determined that this document is not significant in accordance with the criteria required by Executive Order 12044 and set forth in interim Department of Transportation Guidelines.

Issued in Los Angeles, Calif. on September 20, 1978.

LEON C. DAUGHERTY,
Acting Director,
FAA Western Region.

[14 CFR Part 71]

[Airspace Docket No. 78-SO-35]

PROPOSED ALTERATION OF CONTROLLED AIRSPACE

Florida

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Florida Transition Area, the South Atlantic Additional Control Area and the South Florida Additional Control Area by redefining the Florida Transition Area and the South Atlantic Area boundaries and by changing the lower limits of the three areas to 1,200 feet. This action would provide additional controlled airspace to serve instrument flight rules (IFR) helicopter operations and would simplify the area description.

DATES: Comments must be received on or before October 25, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Southern Region, Attention: Chief, Air Traffic Division, Docket No. 78-SO-35, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24) Room 916, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. 20636, Atlanta, Ga. 30320. All communications received on or before October 25, 1978 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would redefine the Florida Transition Area and the South Atlantic Additional Control Area. Also, the proposed amendment would reduce the lower limits of these areas and the South Florida Additional Control Area to 1,200 feet. The cumbersome definition of the Florida Transition Area would be reduced to a simple one sentence description. Use of geographic coordinates to redefine the South Atlantic Control Area would precisely describe the area without references to adjacent areas for its boundaries. The reduction of the lower limits of the areas would provide additional controlled airspace for IFR operations at Vero Beach, Fla., and helicopter flights offshore.

ICAO CONSIDERATIONS

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the International Civil Aviation Organization (ICAO) International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by article 12 of and annex 11 to the Convention on International Civil Aviation, which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic.

V 43 / 191
OCT 2 78

Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of annex 11 and its standard and recommended practices. As a contracting state, the United States agreed by article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Drafting Information

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Richard W. Danforth, Office of the Chief Counsel.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 348 and 440) as follows:

In § 71.163, under South Atlantic, the text is amended to read as follows:

That airspace extending upward from 1,200 feet MSL bounded by a line beginning at lat. 24°00'00" N., long. 80°56'20" W.; to lat. 24°45'40" N., long. 80°48'00" W.; thence northward 3 NM from and parallel to the shoreline to lat. 35°29'30" N., long. 75°24'50" W.; to lat. 34°21'18" N., long. 73°58'53" W.; thence southward along the New York Oceanic CTA/FIR boundary to lat. 32°15'00" N., long. 77°00'00" W.; to lat. 27°00'00" N., long. 77°00'00" W.; to lat. 27°00'00" N., long. 78°53'00" W.; to lat. 26°27'00" N., long. 79°00'00" W.; to lat. 24°40'00" N., long. 79°00'00" W.; to lat. 24°00'00" N., long. 78°00'00" W.; thence to point of beginning.

Under South Florida, "from 2,000 feet" is deleted and "from 1,200 feet" is substituted therefor.

In § 71.181, under Florida, the text is amended to read as follows:

That airspace extending upward from 1,200 feet above the surface within the boundary of the State of Florida including the offshore airspace within 3 nautical miles of and parallel to the shoreline of Florida.

(Secs. 307(a), 313(a) and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a) and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on September 21, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 78-ANW-18]

TRANSITION AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the 700-foot transition area airspace in the vicinity of Redmond, Oreg. The alteration would result in an expansion of controlled airspace in that area. The alteration is needed because the present 700-foot transition area in inadequate to provide controlled airspace protection for aircraft executing the proposed ILS instrument approach procedure to Roberts Field, Redmond, Oreg.

DATES: Comments must be received on or before October 29, 1978.

ADDRESSES: Send comments on the proposal, in triplicate, to: Chief, Operations, Procedures, and Airspace Branch, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108. The official docket may be examined at the following location: Office of the Regional Counsel, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

Dale C. Jepsen, Airspace Specialist, Operations, Procedures, and Airspace Branch (ANW-533), Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108; telephone 206-767-2610.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Operations, Procedures and Airspace Branch, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before October 29, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of the comments received. All comments received will be available, both before and after the closing date for comments, in the official docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking by submitting a request to the Federal Aviation Administration, Chief, Operation, Procedures and Airspace Branch, ANW-530, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108 or by calling 206-767-2610. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The Federal Aviation Administration is considering an amendment to subpart G of part 71 of the Federal Aviation regulations (14 CFR Part 71) to alter the 700-foot transition area at Redmond, Oreg. An ILS instrument approach procedure to runway 22, Roberts Field, Redmond, Oreg., is being established and additional 700-foot transition area is required to encompass the procedure turn. Accordingly, the Federal Aviation Administration proposes to amend subpart G of part 71 of the Federal Aviation regulations (14 CFR Part 71) as follows:

Section 71.181 is amended as follows:

REDMOND, OREG.

In § 71.181, subpart G, Redmond, Oreg., delete lines 1 and 2 and that portion of line 3 ending with "21 miles east of the VORTAC" and substitute the following: "That airspace extending upward from 700 feet above the surface within 2 miles north and 13.5 miles south of the Redmond VORTAC 059 radial to 33 miles east of the VORTAC.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and an implemented by interim Department of Transportation guidelines (43 FR 9582, Mar. 8, 1978).

Issued in Seattle, Wash., on September 19, 1978.

C. B. WALK, Jr.,
Director, Northwest Region.

[14 CFR Parts 291, 296]

GENERAL RULES FOR ALL-CARGO AIR CARRIERS, CLASSIFICATION AND EXEMPTION OF AIR FREIGHT FORWARDERS, INTERNATIONAL AIR FREIGHT FORWARDERS AND COOPERATIVE SHIPPERS ASSOCIATIONS

Oral Argument

SEPTEMBER 25, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of oral argument.

SUMMARY: This notice advises interested persons that the Board will hold oral argument at its offices on the tariff and other issues involved in the proposed rules in ERD-350 and ERD-359 on air freight forwarders and domestic air freight direct carriers, respectively. The Board is scheduling this oral argument on its own initiative.

DATES: Written requests by: October 6, 1978. Oral argument on: October 19, 1978.

ADDRESSES: Written requests to speak at the oral argument should be sent to: Phyllis T. Kaylor, Secretary, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428. The oral argument will be held at 2 p.m., in room 1027, at 1825 Connecticut Avenue NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

On the proposed rules—Teresa A. Smith, 202-673-5083, or Stephen Babcock, 202-673-5442; on the oral argument—Phyllis T. Kaylor, 202-673-5068, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

By ERD-350 (43 FR 15720, April 14, 1978) and ERD-359 (43 FR 33733, Aug. 1, 1978) we issued proposed rules to govern the operations of air freight forwarders and domestic air freight direct carriers, respectively. The rules proposed in ERD-350 and ERD-359 will, if adopted, remove most of our regulatory requirements for these segments of the aviation industry.

Many of the public comments that we have received oppose the elimination of the requirement that these classes of carriers file tariffs with the Board. We have decided to hear oral argument on this issue before we decide what action to take. While we are particularly interested in the tariff question, we are also interested in hearing the views of the public on any other matters at issue in these two cases.

Anyone who wishes to appear should send a written request to the address shown on this notice, by the date indicated. The letter should state briefly the issues to be discussed and the positions to be taken. Depending on the responses, our staff may establish separate panels of speakers.

Since the time we can devote to oral argument is necessarily limited, we cannot guarantee that all persons wishing to speak will be able to do so. We therefore encourage joint presentations by persons with the same position.

All persons requesting time to speak will be notified of the amount of time allotted to them and how the oral argument will be conducted.

(Secs. 204(a), 1001, Federal Aviation Act of 1958, as amended, 72 Stat. 743, 788 (49 U.S.C. 1324 and 1481).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[Docket No. FI-4566]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Drain, Douglas County, Oreg.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Drain, Douglas County, Oreg. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, City Administrator's Office, Drain, Oreg. Send comments to: Hon. Leroy Farley, Mayor, City of Drain, P.O. Box 158, Drain, Oreg. 97435.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Drain, Oreg., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

V 43 / 191

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Elk Creek	Fir St.—20 ft*	287
	Cedar St.—100 ft*	291
	Footbridge—100 ft*	294
	Southern Pacific RR.—100 ft*.	298
Pass Creek	Southern Pacific RR.—20 ft*.	293
	B St.—100 ft*	296

*Upstream of centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: August 31, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for Marion County, Oreg.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in Marion County, Oreg. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Marion County Courthouse, Salem, Oreg. Send comments to: Mr. Pat McCarthy, Chairman, Marion County Commission, Marion County Courthouse, Salem, Oreg. 97301.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Marion County, Oreg., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Willamette River	Butteville Rd.—20 ft*	96
	City of Salem corporate limits—First downstream crossing.	137
	City of Salem corporate limits—Fourth crossing.	145
Santiam River	Interstate Highway 5—20 ft*.	202
	Jefferson corporate limits—50 ft downstream from downstream crossing.	218
	Jefferson corporate limits—50 ft upstream from upstream crossing.	224
	Confluence with North Santiam River.	231
North Santiam River.	Green Bridge Rd.—100 ft*.	256
	South 1st Ave.—50 ft*	439
	City of Mill City corporate limits—100 ft downstream from downstream crossing.	787
	City of Mill City corporate limits—100 ft upstream from upstream crossing.	824
	City of Gates corporate limits—20 ft downstream from downstream crossing.	894
	City of Gates corporate limits—100 ft upstream from upstream crossing.	907
Pudding River	Southern Pacific RR.—20 ft*.	100
	Pacific Highway—20 ft*	102
Mill Creek (near Woodburn).	Hubbard-Boones Ferry Rd.—20 ft*.	138
	Broadacres Rd.—50 ft*	141
	Crosby Rd.—20 ft*	150
	Belle Passi Rd.—20 ft*	173
Senegal Creek	City of Woodburn corporate limits—25 ft downstream from downstream crossing.	160
	City of Woodburn corporate limits—25 ft upstream from upstream crossing.	167
	Hillsboro Silverton Highway 214—50 ft*.	167
Butte Creek	Scotts Mills corporate limits—25 ft downstream from downstream crossing.	379
	Scotts Mills corporate limits—25 ft upstream from upstream crossing.	460
Silver Creek	Bush Creek Rd—50 ft*	170
	Silverton corporate limits—50 ft downstream from downstream crossing.	219
	Silverton corporate limits—50 ft upstream from upstream crossing.	258
	Central St.—40 ft*	267
	Peach St.—50 ft**	276
	Peach St.—50 ft*	280
	Private Road—Second crossing—50 ft*.	317
Turner Bypass	Confluence with Mill Creek.	278
	Turner Cloverdale Rd—25 ft*.	282
Beaver Creek	Confluence with Mill Creek—100 ft*.	304
	75th Pl. SE.—50 ft*	324

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Riddle, Douglas County, Oreg.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Riddle, Douglas County, Oreg. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 647 First Avenue, Riddle, Oreg. Send comments to: Ms. Ione K. Rice, City Recorder, City of Riddle, P.O. Box 143, Riddle, Oreg. 97469.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Riddle, Oreg., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Municipality of Monroeville, Allegheny County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Municipality of Monroeville, Allegheny County, Pa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Monroeville Municipal Building, 2700 Monroeville Boulevard, Monroeville, Pa. 15146.

Send comments to: Mr. Marshall W. Bond, Municipal Manager of Monroeville, 2700 Monroeville Boulevard, Monroeville, Pa. 15146.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Municipality of Monroeville, Allegheny County, Pa., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 5, 1978.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the borough of Nescopeck, Luzerne County, Pa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Nescopeck Zoning Office, 701 East First Street, Nescopeck, Pa. 18635. Send comments to: Mr. Charles O. Van Aken, President of the Council of Nescopeck, 835 East Second Street, Nescopeck, Pa. 18635.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the borough of Nescopeck, Luzerne County, Pa., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Susquehanna River	State Route 93	500
	Upstream corprate limits (extended).	503
Nescopeck Creek	Downstream corporate limits.	499
	Legislative Route 40017	501
	Upstream corporate limits.	504

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 8, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Connell, Franklin County, Wash.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Connell, Franklin County, Wash. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the town Hall, Connell, Wash. Send comments to: Hon. John A. Larson, Mayor of Connell, 122 North Columbia Avenue, Connell, Wash. 99326.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Connell, Franklin County, Wash. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 2001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Esquatzel Coulee	Lower Corporate Limits.	836
	Adam Street	841
	Clark Street	842

qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the town Hall, Connell, Wash. Send comments to: Hon. John A. Larson, Mayor of Connell, 122 North Columbia Avenue, Connell, Wash. 99326.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Connell, Franklin County, Wash. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 2001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Kahlotus, Franklin County, Wash.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Kahlotus, Franklin County, Wash. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Kahlotus City Hall, Kahlotus, Washington 99335. Send comments to: Hon. Lavone Ekenbarger, Mayor of Kahlotus, Kahlotus, Wash. 99335.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Kahlotus, Franklin County, Washington in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Kahlotus Creek	Downstream Corporate Limits (North Bank).	886
	Downstream Corporate Limits (South Bank).	889
	Spokane Avenue	892
	Union Pacific Railroad	895
	Washington Route 260	897
	Upstream Corporate Limits.	912

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 12, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the town of Rowlesburg, Preston County, W. Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Rowlesburg, Preston County, W. Va. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Rowlesburg Fire Hall, Rowlesburg, W. Va. 26425. Send comments to: Hon. Robert B. Kline, Mayor of Rowlesburg, Box 55, Rowlesburg, W. Va. 26425.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Rowlesburg, Preston County, W. Va., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Cheat River	Downstream Corporate Limits.	1,379
	Maple Avenue	1,388
	Chessie System	1,389
	Upstream Corporate Limits.	1,393
Saltlick Creek	Confluence with Cheat River.	1,389
	Chessie System	1,390

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Village of Ashwaubenon, Brown County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Ashwaubenon, Brown County, Wis. These base (100-year) flood elevations are the basis for the flood plain management measures

V 43/191
OCT 2 78

that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Village Office, 580 Cormier Road, Green Bay, Wis. Send comments to: Mr. John Monfont, Jr., President, Village of Ashwaubenon, Village Office, 580 Cormier Road, Green Bay, Wis. 54304.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Ashwaubenon, Wis., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Dutchman Creek...	County Highway "H"	589
	State Highway 32 and U.S. Highway 41.	591
	Oneida Street.....	595
Ashwaubenon Creek.	State Highway 32 and U.S. Highway 41.	586
	Glory Road.....	590
	County Highway "G"	594

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 6, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Manderson, Big Horn County, Wyo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Manderson, Big Horn County, Wyo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Town Hall, Manderson, Wyo. Send comments to: Hon. Ralph Patrick, Mayor, Town of Manderson, Box 123, Manderson, Wyo. 82432.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410 202-755-5581 or Toll-free line 800-424-8872,

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Manderson, Wyo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of Flooding	Location	Elevation in feet, national geodetic vertical datum
Bighorn River.....	U.S. Highway 20—100 ft upstream from centerline.	3,897
Nowood River.....	Corporate limits—370 ft upstream of Marshall St. bridge.	3,902
	Intersection of Sherman Ave. and 1st St.	3,902
		Depth, feet above ground
Bighorn River.....	Centre Ave. and 2nd St—100 ft north of intersection.	2

[46 CFR Part 25]

[CGD 76-082]

VENTILATION OF BOATS

Engine and Fuel Compartments on Recreational Boats

AGENCY: U.S. Coast Guard, DOT.

ACTION: Extension of comment period for proposed rule.

SUMMARY: The Coast Guard published a proposed rule (CGD 76-082) in the FEDERAL REGISTER of July 27, 1978, that would require recreational boats to comply with certain regulations for ventilating engine and fuel compartments. Voluntary standards organizations have been conducting tests to determine the feasibility of these proposed rules. The tests have been to extensive for the organizations to complete prior to the date of the end of the comment period. For this reason the Coast Guard has been requested to extend the comment period by 30 days. The Coast Guard agrees that the extension should be granted. This is in the boating interest to have as much information as possible available before establishing the final rule. Consequently, the comment period will be extended to October 30, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), (CGD 76-082), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION:

Mr. Lars Granholm. U.S. Coast Guard, Office of Boating Safety (G-BBT), Room 4313, Department of Transportation, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590, 202-426-4027.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Mr. Lars Granholm, Project Manager, Office of Boating Safety, and Ms. Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

(Sec. 5, 85 Stat. 215 (46 U.S.C. 1454); 49 CFR 1.46(n)(1).)

Dated: September 21, 1978.

R. H. SCARBOROUGH,
Vice Admiral, U.S. Coast Guard
Acting Commandant.

VETERANS' ADMINISTRATION

[38 CFR Part 21]

VETERANS EDUCATION

Overpayments; Waiver or Recovery

AGENCY: Veterans Administration.

ACTION: Proposed regulation.

SUMMARY: Although the law states that a school may be held liable in certain instances for overpayments of educational assistance made to veterans and eligible persons, it is essential that the school not be held liable without adequate due process of law. It is proposed to amend the regulation dealing with this matter to strengthen and broaden due process.

Specifically, the concept of prima facie evidence of school liability, requiring rebuttal by a school, has been eliminated and replaced by the concept that a school may be potentially liable for an overpayment. Provision is made for the establishment of a Committee on School Liability in each VA field station having jurisdiction over schools with approved courses. Schools are entitled to hearings before these committees as well as prehearing conferences. Schools are given the right to appeal the decisions made by these committees. A School Liability Appeals Board is established in the Veterans Administration Central Office for the purpose of considering these appeals. This Board replaces the Central Office School Liability Review Board.

This amendment will serve to strengthen and broaden due process to a school when the Veterans Administration is considering whether a school can be held liable for overpayments of educational assistance made to veterans and other eligible persons.

DATE: Comments must be received on or before November 28, 1978. It is proposed to make this amendment effective the date of final approval.

ADDRESSES: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. Comments will be available for inspection at the above address during normal business hours until December 8, 1978.

FOR FURTHER INFORMATION CONTACT:

June C. Schaeffer, Assistant Director for Policy and Program Administration, Education and Rehabilitation Service, Department of Veterans Benefits, Veterans Administration, Washington, D.C. 20420, 202-389-2092.

SUPPLEMENTARY INFORMATION: On page 36484 of the FEDERAL REGISTER of July 15, 1977, there was published a notice of regulatory development to amend 38 CFR Part 21 relative to the recovery of overpayments. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation. As a result of the comments received, and internal analysis, the Veterans Administration has decided to withdraw the proposal which was published on July 15, 1977, and to publish a new proposal for further comment. The proposal is based on section 1785, title 38, United States Code.

Section 21.4009(b) is amended to eliminate the concept of prima facie evidence of school liability for an overpayment. Furthermore, specific mention is made of the fact that the Veterans Administration will consider other pertinent factors before deciding that a school is potentially liable for an overpayment.

Section 21.4009(c) is amended to require each field station having jurisdiction over schools with approved courses to establish a Committee on School Liability. This committee will decide whether a school is liable for an overpayment. This function has been under the jurisdiction of the station's Committee on Waivers and Compromises.

Section 21.4009(d) is amended to eliminate the concept of prima facie evidence of liability for an overpayment and to provide that a school will receive complete notice when it is determined that it is potentially liable for an overpayment.

Section 21.4009(e) is amended to provide that a school is entitled to a hearing preceded by a prehearing conference before any decision is made as to its liability for an overpayment.

Section 21.4009(f) is the new designation for material previously contained in § 21.4009(e).

Section 21.4009(g) is amended to require that a school be provided with notice of any decision of a Committee on School Liability.

Section 21.4009(h) is amended to allow a school to appeal a committee decision to a School Liability Appeals Board in Washington. Previously, a school had no right of appeal of a decision made at a Veterans Administration field station, although it could request an administrative review.

Section 21.4009(i) is amended to provide a summary of the actions the School Liability Appeals Board may take when it is considering an appeal.

Section 21.4009(j) is added to state that a decision of the School Liability Appeals Board is final.

V 4 3 / 1 9 1

0 C 2 7 8 LIMI

ADDITIONAL COMMENT INFORMATION

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except holidays, until December 8, 1978. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Approved: September 25, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

1. In § 21.4009, paragraphs (b) through (i) are revised and paragraph (j) is added so that the revised and added material reads as follows:

§ 21.4009 Overpayments; waiver or recovery.

* * * * *

(b) *Reporting.* If a school is required to make periodic or other certifications, failure to report, or to report timely, facts which resulted in an overpayment may be considered in determining whether a school is potentially liable for the overpayment. Similarly, the submission of an incorrect certification as to fact may be considered in determining whether a school is potentially liable for the overpayment. In either instance consideration will be given to other pertinent factors such as allowing for occasional clerical error or occasional administrative error; the school's past reliability in reporting; the adequacy of the school's reporting system; and the extent of noncompliance with reporting requirements.

(c) *Committee on School Liability.* Each Veterans Administration field station having jurisdiction over schools with courses approved under chapters 32, 34, 35 and/or 36, title 38, United States Code shall establish a Committee on School Liability. The Committee or a panel designated by the Committee chairperson and drawn from the Committee, is authorized to find whether a school is liable for an overpayment.

(d) *Initial determination.* The Adjudication Officer of the Veterans Administration field station of jurisdiction will determine whether there is evidence that would warrant a finding that the school is potentially liable for an overpayment. When the decision is in the affirmative, the Finance Officer of the Veterans Administration field station of jurisdiction will notify the school in writing of the Veterans Administration's intent to apply the liability provisions of paragraph (a) of this section. The notice will identify the students overpaid and will set out in each student's case the actions or omissions by the school which resulted in the finding that the school was potentially liable for the overpayment. The notice will also state that a determination of liability will be made on the basis of the evidence of record, unless additional evidence or a request for a hearing is received within 30 days of the date of receipt of such notice by the school.

(e) *Hearings.* A school is entitled to a hearing before a panel drawn from the Committee on School Liability before a decision is made as to whether it is liable for an overpayment. Every hearing will be preceded by a prehearing conference unless the conference is waived by the school. The Committee on School Liability will consider all evidence and testimony presented at the hearing.

(f) *Extent of liability.* Waiver of collection of an overpayment as to a veteran or eligible person will not relieve the school of liability for the overpayment. Recovery in whole or in part from the veteran or eligible person will limit such liability accordingly. If an overpayment has been recovered from the school and the veteran or eligible person subsequently repays the amount in whole or in part, the amount repaid will be reimbursed to the school.

(g) *Notice to school.* The school shall be notified in writing of the decision of the Committee on School Liability. If the school is found liable for an overpayment, the school also will be notified of the right to appeal the decision to the Central Office School Liability Appeals Board within 60 days from the date of the letter to the school containing notice of the decision. The 60-day time limit may be extended to 90 days at the discretion of the chairperson of the Committee on School Liability. The appeal must be in writing setting forth fully the alleged errors of fact and law. If an appeal is not received within the 60-day time limit, the Committee decision is final.

(h) *Appeals.* An appeal will be forwarded to Central Office where it will be considered by the School Liability Appeals Board. The Board's decision will serve as authority for instituting collection proceedings, if appropriate, or for discontinuing collection proceedings instituted on the basis of the original decision of the Committee on School Liability in any case where the Board reverses a decision made by the Committee that the school is liable.

(i) *Review.* Review by the School Liability Appeals Board is limited to the issues raised by the school and shall be on the record and not de novo in character. The Board may affirm, modify or reverse a decision of the Committee on School Liability or may remand an appeal for further consideration by the appropriate Committee on School Liability. If new and material evidence is discovered while the School Liability Appeals Board is considering a case, the Board may remand the case to the appropriate Committee on School Liability.

(j) *Finality of decisions.* The School Liability Appeals Board has authority to act for the Administrator in deciding appeals concerning a school's liability for an overpayment. There is no right of additional administrative appeal of a decision of the School Liability Appeals Board.

§ 21.4009 [Amended]

2. The cross-reference following § 21.4009 is deleted.

[FR Doc. 78-27654 Filed 9-29-78; 8:45 am]

[8320-01]

[38 CFR Part 36]

LOAN GUARANTY

VA Payment of Interest to Investors—Repurchase of Vendee Loans

AGENCY: Veterans Administration.

ACTION: Proposed regulations.

SUMMARY: The Veterans Administration is proposing to amend its regulation relating to the expenses that the Veterans Administration will pay an investor when repurchasing a defaulted vendee loan from that investor. The adoption of this proposal should give investors who have purchased loans from the Veterans Administration greater latitude in servicing defaulted loan accounts. The Veterans Administration expects that the adoption of this amendment will reduce the number of loans in default which the Veterans Administration must repurchase from investors. The Veterans Administration also is proposing to update the titles of the Veterans Administration officers with authority to sell, assign, transfer, and repurchase loans.

DATES: Comments must be received on or before October 30, 1978. It is proposed to make this amendment effective on the date of final approval.

ADDRESSES: Send written comments to: Administrator of Veterans' Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. Comments will be available for inspection at the address shown above during normal business hours until November 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Raymond L. Brodie, Assistant Director for Loan Management (261), Loan Guaranty Service, Veterans Administration, Washington, D.C. 20420, 202-389-3668.

SUPPLEMENTARY INFORMATION: Each year the Veterans Administration, as a result of its home loan programs, acquires housing units through the foreclosure of guaranteed and direct loans. These houses are then sold at current market value with the Veterans Administration financing the sale with mortgages of up to 30 years. Many of these mortgages, which are called vendee loans, are sold to secondary market investors. The Veterans Administration then guarantees to the purchasing investors that if the loans go into default, the Veterans Administration will repurchase them and pay certain expenses. These expenses are outlined in § 36.4600(e)(1) and presently include the payment to the investor of up of 90 days' interest on a defaulted loan. This interest payment encourages the investor, in appropriate cases, to grant additional forbearance to borrowers in default than otherwise might be granted and gives investors and their servicers an opportunity to perform loan servicing. In many cases this loan servicing can effect reinstatement of delinquent loans. Thus, payment of interest provides a sounder investment to the investor and when loan reinstatement is successful allows the Veterans Administration to avoid the costs of loan repurchase from the investor.

The Veterans Administration recently conducted a study in selected field stations of loans which were repurchased by the Veterans Administration from investors. This study indicated that 27 percent of the loans which the Veterans Administration repurchased from investors had defaults cured or acceptable repayment plans leading to reinstatement of the loans made by the borrowers within 30 days following repurchase of the mortgages by the Veterans Administration.

This high percentage of loan reinstatements appears to indicate that if the Veterans Administration allows investors to collect up to 120 days rather than 90 days of interest after a loan default, many investors and servicers will more aggressively service loans. This should result in a larger percentage of such loans being reinstated by the investor. If loans are reinstated by private investors rather than conveyed to the Veterans Administration for repurchase, the Veterans Administration will save considerable funds. The cash outlays, which the Veterans Administration would save if this amendment is adopted, would consist of the actual funds to repurchase the home loans from the investors and the Veterans Administration's administrative expenses of re-establishing the loan accounts within its system of records. The Veterans Administration also is proposing to update the formal titles which are listed in § 36.4600(g)(2) to reflect the current officials designated to sell, assign, transfer, and repurchase loans.

These amendments are proposed under authority granted the Administrator by section 1803(c)(1) of title 38, United States Code.

ADDITIONAL COMMENT INFORMATION:

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) until November 9, 1978. Any person visiting central office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to any Veterans Administration field station will be informed that the records are available for inspection only in central office and furnished the address and the above room number.

Approved: September 25, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

§ 36.4600 [Amended]

Section 36.4600 is amended as follows: (a) By deleting the word "his" and inserting "the" in paragraph (d)(3). (b) By deleting "by him" in paragraph (e)(3). (c) By revising paragraphs (e)(1) and (g)(2) as set forth below:

§ 36.4600 Sale of loans, guarantee of payment.

* * * * *

(e)(1) A cash payment shall be made to the holder upon the repurchase of a loan by the Administrator and shall be an amount equal to the price paid by the purchaser when the loan was sold by the Administrator, less repayments received by the holder which are properly applicable to the principal balance of the loan, plus any advances made for the purposes described in paragraph (c)(9) of this section, but no payments shall be made for accrued unpaid interest, except that with respect to loans sold by the Administrator after July 15, 1970, payment will be made for unpaid accrued interest from the date of the first uncured default to the date of the claim for repurchase, but not in excess of interest for 120 days. If, however, there has been a failure of any holder to comply with the provisions of paragraph (c) of this section the Administrator shall be entitled to deduct from the repurchase price otherwise payable such amount as the Administrator determines to be necessary to restore the Administrator to the position the Administrator would have occupied upon repurchase of the loan in the absence of any such failure. Incident to the repurchase by the Administrator, the holder will pay to the Administrator an amount equal to the balance, if any, remaining in the tax and insurance account.

* * * * * *

(g)(1) * * *

(2) Designated positions:

Chief Benefits Director.
Director, Loan Guaranty Service.
Director, Regional Office.
Director, Center.
Loan Guaranty Officer.
Assistant Loan Guaranty Officer.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 980-5]

STATE OF DELAWARE

Proposed Revision of the Delaware State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The State of Delaware has submitted a proposed revision of the State implementation plan (SIP) consisting of a consent order for the Delaware City Generating Station of the Delmarva Power & Light Co. at Delaware City, Del. The schedule would require Delmarva to achieve compliance with Delaware's sulfur dioxide regulation by June 1, 1980 and specifies other milestones which the company must meet toward that end. The air quality impact of the proposed change has been evaluated and it has been found not to violate the air quality standards.

DATE: Comments must be submitted on or before (30 days after publication of this notice.)

FOR FURTHER INFORMATION CONTACT:

William E. Belanger (3AH13), U.S. Environmental Protection Agency, Region III, 6th and Walnut Streets, Philadelphia, Pa. 19106, telephone, 215-597-8188.

ADDRESSES: Copies of the proposed SIP revision and the accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Air Programs Branch, Curtis Building, 6th and Walnut Streets, Philadelphia, Pa. 19106. Attention: William E. Belanger.

Delaware Department of Natural Resources and Environmental Control, Division of Environmental Control, Air Resources Section, Tatnall Building, Capitol Complex, Dover, Del. 19901. Attention: Mr. Robert French.

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street SW. (Waterside Mall), Washington, D.C. 20460.

All comments submitted within 30 days of publication of this notice will be considered and should be directed to: Howard R. Heim, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Curtis Building, 10th Floor, 6th and Walnut Streets, Philadelphia, Pa. 19106. Attention: AH003DE.

SUPPLEMENTARY INFORMATION: On August 5, 1975, the then Secretary of Natural Resources and Environmental Control, acting for the Governor, submitted to EPA, region III a proposed revision of the Delaware State implementation plan consisting of a consent order for the Delaware City Generating Station of the Delmarva Power & Light Co. In his letter, Secretary John Bryson certified that the order was adopted in accordance with the public hearing and notice requirements of 40 CFR, part 51.4 and all relevant State procedural requirements, and asked that EPA consider the Consent Order as a revision of the State implementation plan.

Because the compliance schedule in the consent order extended beyond the mandatory attainment date established by Congress in the Clean Air Act Amendments of 1970, and in light of a 1975 Supreme Court Decision, no EPA policy was in force which would allow consideration of the revision. On March 31, 1976, the Regional Administrator informed the Secretary of EPA's position. In his letter, the Regional Administrator stated that the order contains the required increments of progress and provides for compliance upon its completion. The Secretary was also informed that in order to approve the proposed revision to the SIP, there would have to be a demonstration that the control strategy for all facilities emitting sulfur dioxide, taking the consent order into account, contains sufficient emission limitations to provide for the attainment of standards at the time, for the full term of the order and also accounts for potential growth. The showing must be made for all areas within the Metropolitan Philadelphia Interstate AQCR and elsewhere where the impact of the order might interfere with attainment or maintenance of the standard. On March 27, 1978, a final report was received titled "An Air Quality Analysis near the Getty Refining and Market Co., Delaware Refinery" by J. Vern Hales. (The generating station is within the refinery complex and is intended to burn petroleum coke.) That report includes an adequate demonstration by diffusion modeling which shows the revision will not interfere with the attainment or maintenance of National Ambient Air Quality Standards.

The proposed revision would include in the SIP a consent order of the U.S. District Court and adopted by the State of Delaware. The order is designed to bring Getty Oil Co. (eastern operations) and Delmarva Power & Light Co. into compliance with Delaware's regulations governing the control of air pollution as they apply to the power generating station at Delaware City. The final compliance date is June 1, 1980 at which time the generating station will have installed flue gas desulfurization facilities which will control sulfur dioxide (SO_2) emissions to a level equivalent to the burning of one-percent sulfur fuel. In the interim, the generating station will be permitted to burn fuel with a sulfur content up to 3.5 percent. The compliance schedule is as follows:

Screening agreement, July 1, 1975.
Screening study, July 1, 1976.
Process agreement, September 1, 1976.
Final design and specifications, June 1, 1977.
Decision on construction, August 15, 1977.
Department permit review, September 1, 1977.
Contract for construction, October 1, 1977.
Process construction, April 1, 1980.
Process operational and in compliance, June 1, 1980.

The companies have conformed to all milestones to date, and have announced their intent to install a Wellman-Lord scrubber to meet the requirements of the order. The construction contract has been awarded.

On the basis of EPA's review to date, it is the tentative decision of the Administrator to approve the proposed revision of the Delaware State implementation plan. The public is invited to submit to the address stated above, comments on whether the Delaware City Generating Station consent order should be approved as a revision of the Delaware State implementation plan.

The Administrator's decision to approve or disapprove the proposed revision will be based on whether the amendments meet the requirements of section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of State implementation plans.

(Authority: 42 U.S.C. 7401)

Dated: September 8, 1978.

JACK J. SCHRAMM,
Regional Administrator.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of Delayed Compliance Orders Issued by the Mississippi Air and Water Pollution Control Commission to Greenwood Utilities

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the Mississippi Air and Water Pollution Control Commission to Greenwood Utilities, Henderson Station, Greenwood, Miss. The delayed compliance order requires the Greenwood Utilities, Henderson Station, to bring air emissions from the No. 3 coal fired boiler in Greenwood, Miss., into compliance with an applicable regulation contained in the Mississippi State Implementation Plan (SIP) by June 30, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308.

The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

John W. Hund, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone, 404-881-4253.

SUPPLEMENTARY INFORMATION: Greenwood Utilities operates an electric generating station (Henderson), in Greenwood, LeFlore County, Miss. The order under consideration addresses emissions from the No. 3 coal fired boiler, which is subject to Mississippi Air Pollution Control Regulation APC-S-1, section 3, paragraph 4, subparagraph (a). This regulation limits the emissions of particulate matter from fossil fuel burning boilers, and is part of the federally-approved Mississippi State implementation plan. The order requires final compliance with the regulation by June 30, 1979, through the implementation of the following schedule for the construction or installation of control equipment:

(1) Submit a plan by which the emissions shall be controlled by August 15, 1978.
(2) Take receipt of all bids for proposed control plan by November 30, 1978.
(3) Order all equipment needed to implement the control plan by January 31, 1979.
(4) Begin construction of the devices to implement the control plan by March 31, 1979.
(5) Complete construction of all devices to implement the control plan by May 31, 1979.
(6) Show by applicable testing that the No. 3 unit of the Henderson Generating Station meets all applicable state emission limits by June 30, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the No. 3 coal fired boiler shall not emit more than 0.49 pounds/million Btu's and visible emissions shall not exceed 40 percent opacity, prior to the attainment of the last milestone.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source of violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (sec. 304) would be similarly precluded. If approved, the order would also constitute an addition to the Mississippi SIP. Compliance with the proposed order will not exempt the company from complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

(42 U.S.C. 7413, 7601.)

Dated: September 18, 1978.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of Delayed Compliance Orders Issued by the Mississippi Air and Water Pollution Control Commission to Greenwood Utilities

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the Mississippi Air and Water Pollution Control Commission to the Greenwood Utilities, Wright Station in Greenwood, Miss. The delayed compliance order requires Greenwood Utilities, Wright Station, to bring air emissions from the No. 1 coal fired boiler in Greenwood, Miss., into compliance with an applicable regulation contained in the Mississippi State implementation plan (SIP) by June 30, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESS: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

John W. Hund, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone, 404-881-4253.

SUPPLEMENTARY INFORMATION: Greenwood Utilities operates an electric generating station (Wright) in Greenwood, LeFlore County, Miss. The order under consideration addresses emissions from the No. 1 coal fired boiler, which is subject to Mississippi Air Pollution Control Regulation APC-S-1, section 3, paragraph 4, subparagraph (a). This regulation limits the emissions of particulate matter from fossil fuel burning boilers, and is part of the federally approved Mississipi State implementation plan. The order requires final compliance with the regulation by June 30, 1979, through the implementation of the following schedule for the construction of installation of control equipment:

(1) Place on order all equipment needed to implement the previously submitted emissions control plan by August 15, 1978.
(2) Begin construction of devices to implement the control plan by September 15, 1978.

[1] Regulations for 40 CFR Part 65 have been published in the FEDERAL REGISTER of September 28, 1978.

V 4 3 / 1 9 1
0 C 2 7 8
UMI

(3) Complete construction of all devices to implement the control plan by May 31, 1979.

(4) Show by applicable testing that the No. 1 unit of Wright Generating Station meets all applicable state emission limits by June 30, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the No. 1 coal fired boiler shall not emit more than 1.33 pounds/million Btu's and visible emissions shall not exceed 40 percent opacity, prior to the attainment of the last milestone.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the reguation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provisions of the Act (sec. 304) would be similarly precluded. If approved, the order would also constitute an addition to the Mississippi SIP. Compliance with the proposed order will not exempt the company form complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of an Administrative Order Issued by the West Virginia Air Pollution Control Commission to Central Operating Co.–Phillip Sporn Plant

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the West Virginia Air Pollution Control Commission to Central Operating Co.–Phillip Sporn Plant. The order requires the company to bring air emissions from its electric generation station in New Haven, W.Va. into compliance with certain regulations contained in the federally-approved West Virginia State Implementation Plan (SIP) by July 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESS: Comments should be submitted to Director, Enforcement Division, EPA, Region III, Curtis Building, 6th & Walnut Sts., Philadelphia, Pa. 19106. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Abraham Ferdas (3EN11), U.S. EPA, Region III, Curtis Building, 6th & Walnut Streets, Philadelphia, Pa. 19106, 215-597-4561.

SUPPLEMENTARY INFORMATION: Central Operating Co. operates an electric generating station at New Haven, W.Va. The order under consideration addresses emissions from the combuston of coal at the facility, which are subject to West Virginia Regulation II (40 CFR 52.2520).

The regulation limits the emissions of particular matter and is part of the federally approved West Virginia State Implementation Plan. The order requires final compliance with the regulation by July 1, 1979 through the construction and installation of new electrostatic precipitators for units 1, 2, 3 and 4 at the Phillip Sporn Station. Central Operating Co. consented to the terms of this order on June 30, 1978. The company has awarded contracts for the control equipment; and construction commenced on April 1, 1978.

Because this order has been issued to a major source of particular matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source would be similarly precluded. If approved, the order would also constitute an addition to the West Virginia SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon [1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn and replaced by a notice promulgating these new regulations.

[1]Regulations for 40 CFR Part 65 have been published in the FEDERAL REGISTER of September 28, 1978.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of an Administrative Order Issued by the West Virginia Air Pollution Control Commission to Monongahela Power Co.–Harrison Power Station

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the West Virginia Air Pollution Control Commission to Monongahela Power Co.–Harrison Power Station. The order requires the company to bring air emissions from its electric generating station in Haywood, W. Va. into compliance with certain regulations contained in the federally-approved West Virginia State Implementation Plan (SIP) by June 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen unit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of the this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region III, Curtis Building, 6th & Walnut Streets, Philadelphia, Pa. 19106. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Abraham Ferdas (3EN11), U.S. EPA, Region III, Curtis Building, 6th & Walnut Streets, Philadelphia, Pa. 19106, 215-597-4561.

SUPPLEMENTARY INFORMATION: Monongahela Power Co. operates an electric generating station at Haywood, W. Va. The order under consideration addresses emissions from the combustion of coal at the facility, which are subject to West Virginia Regulation II (40 CFR 52.2520).

The regulation limits the emissions of particulate matter and is part of the federally approved West Virginia State Implementation Plan. The order requires final compliance with the regulation by June 1, 1979 through the modification of the existing electrostatic precipitators for units 1, 2, and 3 at the Harrison Station. These modifications include: (1) Install modifications in the gas velocity distribution; (2) install temperature distribution devices; (3) install modifications to the automatic voltage controls; and (4) modify rapper intensity. In addition, the order requires the company to clean the coal burned to reduce ash content. Monongahela Power Co. consented to the terms of this order on July 6, 1978. The company has commenced the modifications and has awarded contracts for the cleaning of the coal.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source would be similarly precluded. If approved, the order would also constitute an addition to the West Virginia SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon [1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn and replaced by a notice promulgating these new regulations.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of an Administrative Order Issued by the State of Maryland to the Eastalco Aluminum Co.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the State of Maryland to the Eastalco Co. The order requires the company to bring air emissions from its anode bake ovens and cast house furnaces in Frederick County, Md. into compliance with certain regulations contained in the federally-approved Maryland State Implementation Plan (SIP) by July 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region III, Curtis Building, 6th and Walnut Streets, Philadelphia, PA 19106. The State order, supporting material, and public comments received in response to this

V 43 / 191 OCT 2 78 UMI

notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Shiland, 3EN12 (same address as above), 215-597-7915.

SUPPLEMENTARY INFORMATION: Eastalco Aluminum Co. operates a primary aluminum plant in Frederick County, Md. The order under consideration addresses emissions from the anode bake ovens and cast houses at the facility, which are subject to Maryland regulation 10.03.37.02 C and D pertaining to visible emissions. The regulation limits the opacity of emissions and is part of the federally approved Maryland State Implementation Plan. the order requires final compliance with the regulation for the anode bake ovens by July 1, 1979 through the construction of a new control system. The order requires final compliance with the regulation for the cast house furnaces by no later than July 1, 1979 through modification of the process equipment. Eastalco consented to the terms of this order on March 2, 1978. The company has placed purchase orders for the necessary control and process equipment in each case and has met the first increments of the order. Because this order has been issued to a major source of particulate emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Maryland SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of Delayed Compliance Orders Issued by the Lawrence County, Ala., Board of Health to the Champion International Corp.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the Lawrence County, Ala., Board of Health to the Champion International Corp. in Courtland, Ala. The delayed compliance order requires the Champion International Corp. to bring air emissions from a wood waste boiler in Courtland, Ala., into compliance with an applicable regulation contained in the Alabama State implementation plan (SIP) by June 30, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, GA. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal Business hours.

FOR FURTHER INFORMATION CONTACT:

Robert R. Geddis, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone, 404-881-4253.

SUPPLEMENTARY INFORMATION: The Champion International Corp. operates a kraft paper mill in Courtland, Ala. The order under consideration addresses emissions from a combination boiler, which is subject to Alabama Air Pollution Control Regulation 4.8.2. This reguation limits the emissions of particulate matter from wood waste combination boilers, and is part of the Federally-approved Alabama State implementation plan. The order requires final compliance with section 6.8.2. of the Lawrence County Air Pollution Control rules and regulations (which is identical to Alabama Air Pollution Regulation 4.8.2.) by June 30, 1979, through the implementation of the following schedue for the construction or installation of control equipment:

(1) Submit final control plan for achieving compliance with applicable regulations by September 1, 1978.
(2) Award contract for required control equipment by September 1, 1978.
(3) Commence on-site construction or installation of control equipment by March 1, 1979.
(4) Complete construction or installation of control equipment by June 1, 1979.
(5) Submit proof of final compliance by June 30, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the combination boiler shall not emit more than 0.45 grains/SDCF adjusted to 50 percent excess air, and shall not exceed 30 percent opacity.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the

regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (sec. 304) would be similarly precluded. If approved, the order would also constitute an addition to the Alabama SIP. Compliance with the proposed order will not exempt the company from the requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action of the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of Delayed Compliance Orders Issued by the Morgan County, Ala., Board of Health to the Goodyear Tire and Rubber Co.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the Morgan County, Ala., Board of Health to the Goodyear Tire and Rubber Co. The delayed compliance order requires Goodyear to bring air emissions from the Latex dip unit Nos. 2 and 3 (permit units 712-006-Z002 and 3) into compliance with an applicable regulation contained in the Alabama State implementation plan (SIP) by June 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 1, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Robert R. Geddis, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone, 404-881-4253.

SUPPLEMENTARY INFORMATION: The Goodyear Tire and Rubber Co. operates two latex dip units at its facility in Morgan County, Ala. The order under consideration addresses visible emissions from stationary sources. These visible emissions are subject to the Alabama Air Pollution Control rules and regulations section 4.1.1, which is part of the federally-approved Alabama State implementation plan. The order requires final compliance with section 6.1.1 of the Morgan County Air Pollution Control rules and regulations (which is identical to Alabama Air Pollution Regulation 4.1.1) by June 1, 1979, through the implementation of the following schedule for the construction or installation of control equipment:

(1) Award contract for required control equipment by July 1, 1978.
(2) Commence on-site construction of catalytic incinerator and oven modification by October 15, 1978.
(3) Complete construction or installation of the catalytic incinerator and oven modification by March 1, 1979.
(4) Meet visible emission limits for both latex dip units by June 1, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the opacity of emissions from either latex dip unit stack shall not exceed 40 percent.

Both units must maintain compliance with the particulate emission limiting regulation (sec. 4.4) at all times.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (sec. 304) would be similarly precluded. If approved, the order would also constitute an addition to the Alabama SIP. Compliance with the proposed order will not exempt the company from complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

(42 U.S.C. 7413, 7601.)

Dated: September 25, 1978.

JOHN C. WHITE,
Regional Administrator,
Region IV.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for the Toledo Edison Co., Acme Station, Toledo, Ohio, and Bay Shore Station, Oregon, Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue two administrative orders to the Toledo Edison Co. The orders require the company to bring boilers 16, 91, and 92 at the Acme Station and boilers 1 and 2 at the Bay Shore Station into compliance with Ohio regulations AP-3-07 and AP-3-11, part of the federally approved Ohio State implementation plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed orders would establish expeditious schedules requiring final compliance by April 15, 1980. Compliance with the orders at the Acme and Bay Shore Stations would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the orders. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the orders.

DATES: Written comments must be received on or before November 1, 1978. Requests for a public hearing must be received on or before October 17, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 21 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSEES: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Ill. 60604. Material supporting the orders and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Linda M. Buell, Attorney, Enforcement Division, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Ill. 60604, at 312-353-2082.

SUPPLEMENTARY INFORMATION: The Toledo Edison Co. owns and operates boilers 16, 91, and 92 at the Acme Station and boilers 1 and 2 at the Bay Shore Station. The proposed orders address emissions from these five coal-fired boilers which are subject to regulations AP-3-07 and AP-3-11 of the Ohio implementation plan. The regulations limit the emissions of particulate matter, and are part of the federally approved Ohio State implementation plan. The orders require final compliance with the regulations by April 15, 1980, and the Toledo Edison Co. has consented to their terms. As of the date of this publication, the Toledo Edison Co. has already satisfied the first two increments in the Acme order and the first increment in the Bay Shore order.

The proposed orders satisfy the applicable requirements of section 113(d) of the Clean Air Act (the Act). If the orders are issued, compliance with their terms would preclude further EPA enforcement action under section 113 of the Act against boilers 16, 91, and 92 at the Acme Station and boilers 1 and 2 at the Bay Shore Station for violations of the regulation covered by the orders during the period the orders are in effect. Enforcement against these boilers under the citizen suit provisions of the Act (sec. 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the orders. Testimony given at any public hearing concerning the orders will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the orders in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of an order under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (Apr. 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

Dated: September 14, 1978.

VALDAS V. ADAMKUS,
Acting Regional Administrator, Region V.

The text of the proposed order is as follows:

[1]Regulations for 40 CFR Part 65 have been published in the FEDERAL REGISTER of Sept. 28, 1978.

U.S. ENVIRONMENTAL PROTECTION AGENCY

Order No. EPA-5-78-A-

ORDER

In the matter of Toledo Edison Co., Bay Shore Station, Oregon, Ohio, proceeding under sections 113 (a), (d), and 114, Clean Air Act, as amended.

The following order is issued this date pursuant to sections 113 (a), (d) and 114 of the Clean Air Act, as amended, 42 U.S.C. section 7401 et seq., (hereinafter referred to as "the Act"). The order contains a compliance schedule with increments of progress, interim emission reduction requirements, and emission monitoring and reporting conditions. Final compliance is required as expeditiously as practicable, but no later than April 15, 1980. Public notice, opportunity for a public hearing and notice to the State of Ohio have been provided pursuant to section 113(d)(1) of the Act.

On May 25, 1977, James O. McDonald, Director, Enforcement Division, Region V, U.S. Environmental Protection Agency (hereinafter referred to as "U.S. EPA"), pursuant to authority duly delegated to him by the Administrator of U.S. EPA, issued a notice of violation to Toledo Edison Co. (hereinafter referred to as "the Company") stating that the Company's Bay Shore Station, located in Oregon, Ohio, was found to be in violation of the applicable Ohio implementation plan, as defined in section 110(d) of the Act. The notice cited the Company's boilers No. 1 and No. 2 and stacks No. 1 and No. 2 for violation of Ohio regulations AP-3-07 and AP-3-11. A copy of said notice was sent to the State of Ohio Environmental Protection Agency.

Pursuant to section 113(a)(4) of the Act, opportunity to confer with the Administrator's delegates was duly given to the Company. On June 20, 1977, a conference was held in Chicago, Ill., to discuss the May 25, 1977, notice of violation mentioned above.

U.S. EPA has determined that said violations have continued beyond the 30th day after the date of the Enforcement Director's notification and that the Company is unable to comply with the applicable implementation plan at this time.

After a review of information submitted at the conference and a thorough investigation of all relevant facts, including public comment, it has been determined that the schedule hereinafter set forth requires compliance as expeditiously as practicable, and that the terms of this order comply with 113(d) of the Act.

Therefore, *It is hereby ordered*, that:

1. The Company shall achieve compliance with Ohio regulations AP-3-07 and AP-3-11 in accordance with the following schedule:

Increment and Date

Begin onsite construction, Achieved.
Begin tie-in outage for unit No. 2, November 15, 1979.
Start-up of unit No. 2, January 1, 1980.
Begin tie-in outage for unit No. 1, January 1, 1980.
Startup unit No. 1, February 15, 1980.
Complete testing of unit No. 2, February 15, 1980.
Complete testing of unit No. 1, April 1, 1980.
Achieve compliance with Ohio regulations AP-3-07 and AP-3-11, April 15, 1980.

II. Nothing herein shall affect the responsibility of the 0P1128'Company to compiy

with other Federal, State, or local regulations.

III. No later than 15 days after any date for achievement of an incremental step for final compliance specified in this order, the Company shall notify U.S. EPA in writing of its compliance, or noncompliance and reasons therefore, with the requirement. If delay is anticipated in meeting any requirement of this order, the Company shall immediately notify U.S. EPA in writing of the anticipated delay, reasons therefore, and the estimated length of the delay.

The Company shall submit quarterly reports to U.S. EPA detailing progress made with respect to each requirement of this order. In addition, photographs shall be submitted along with these reports, showing progress made since the previous quarter. U.S. EPA personnel shall be admitted to the facility at any reasonable time for the purpose of viewing the construction progress.

IV. Nothing herein shall be construed to be a waiver by the Administrator of any rights or remedies under the Clean Air Act, including, but not limited to, section 303 of the Act, 42 U.S.C. section 7503.

V. Pursuant to section 113(d)(7) of the Act, during the period of this order, until completion of the program set out in paragraph I herein, the Company shall use the best practicable systems of emission reduction so as to maximize the reliability and efficiency of the existing controls on unit No. 1 and unit No. 2, minimize particulate matter emissions, avoid any imminent and substantial endangerment to the public health, and comply with the requirement of the applicable implementation plan as it is able to.

Written operating and maintenance procedures for the existing controls shall be submitted to U.S. EPA for approval within one month from the effective date of this order. These procedures shall provide for maximizing reliability and efficiency, malfunction reporting, recordkeeping, and corporate reviewing. Failure to submit or comply with the procedures will constitute a violation of this order.

VI. A continuous opacity monitoring system for the stack which is being constructed to service units No. 1 through No. 4 shall be installed, calibrated, maintained, and operated in accordance with the procedures set forth in appendix B of 40 CFR Part 60 no later than April 15, 1980. Pursuant to section 114, monitor data shall be retained by the Company for at least 2 years subsequent to recording. On a quarterly basis, the Company shall report all 6-minute data averages from the monitor (reduced as specified in 40 CFR section 60.13(b)) in excess of 20 percent.

VII. The Company is hereby notified that failure to achieve final compliance by July 1, 1979, will result in a requirement to pay a noncompliance penalty unless exempted under section 120 of the Act. In the event of such failure, the Company will be formally notified pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

VIII. Nothing herein shall be construed to be a waiver by the Company of its right to challenge the reasonableness, legality, or constitutionality of the imposition of noncompliance penalties on the Company.

IX. The Company hereby waives its right to file a petition for review of this order pursuant to section 307(b)(1) of the Act.

X. All submissions and notifications to U.S. EPA, pursuant to this order, shall be made to the Air Compliance Section, Enforcement Division, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2090. A copy of all submissions and notifications shall be made to the Toledo Pollution Control Agency, 26 Main Street, Toledo, Ohio 43605.

Dated:_____

_____
Administrator.

Toledo Edison Co. has reviewed this order, consents to the requirements set forth in this order, and believes it to be a reasonable means by which the Bay Shore Station can achieve final compliance with Ohio regulations AP-3-07 and AP-3-11. The Company implementation plan at its Bay Shore Station, but for purposes of settlement consents to the abatement program set forth herein.

_____
Toledo Edison Co.

U.S. ENVIRONMENTAL PROTECTION AGENCY

Order No. EPA-5-78-A-

In the matter of Toledo Edison Co., Acme Station, Toledo, Ohio, proceeding under sections 113 (a), (d), and 114, Clean Air Act, as amended.

ORDER

The following order is issued this date pursuant to sections 113 (a), (d), and 114 of the Clean Air Act, as amended, 42 U.S.C. section 7401 et seq., (hereinafter referred to as "the Act"). The order contains a compliance schedule with increments of progress, interim emission reduction requirements, and emission monitoring and reporting conditions. Final compliance is required as expeditiously as practicable, but no later than April 15, 1980. Public notice, opportunity for a public hearing and notice to the State of Ohio have been provided pursuant to section 113(d)(1) of the Act.

On May 25, 1977, James O. McDonald, Director, Enforcement Division, Region V, U.S. Environmental Protection Agency (hereinafter referred to as "U.S. EPA"), pursuant to authority duly delegated to him by the Administrator of U.S. EPA, issued a notice of violation to Toledo Edison Co. (hereinafter referred to as "the Company") stating that the Company's Acme Station, located in Toledo, Ohio, was found to be in violation of the applicable Ohio implementation plan, as defined in section 110(d) of the Act. The notice cited the Company's boilers No. 16, No. 91, and No. 92 and stacks No. 16 and No. 4 for violation of Ohio regulations AP-3-07 and AP-3-11. A copy of said notice was sent to the State of Ohio Environmental Protection Agency.

Pursuant to section 113(a)(4) of the Act, opportunity to confer with the Administrator's delegates was duly given to the Company. On June 20, 1977, a conference was held in Chicago, Ill., to discuss the May 25, 1977, notice of violation mentioned above.

U.S. EPA has determined that said violations have continued beyond the 30th day after the date of the Enforcement Director's notification and that the Company is unable to comply with the applicable implementation plan at this time.

After a review of information submitted at the conference and a thorough investigation of all relevant facts, including public comment, it has been determined that the schedule hereinafter set forth requires compliance as expeditiously as practicable, and that the terms of this order comply with 113(d) of the Act.

Therefore, *It is hereby ordered*, That:

I. The Company shall achieve compliance with Ohio regulations AP-3-07 and AP-3-11 in accordance with the following schedule:

Increment and Date

Submit preliminary control plans and specifications to U.S. EPA, Achieved.
Award contract(s) for control equipment, Achieved.
Shutdown of boiler No. 92 until tie-in of control equipment is completed and final compliance is able to be demonstrated with regulations AP-3-07 and AP-3-11, December 15, 1978.
Shutdown of boiler No. 16 until tie-in of control equipment is completed and final compliance is able to be demonstrated with regulations AP-3-07 and AP-3-11, October 12, 1979.
Shutdown of boiler No. 91 until tie-in of control equipment is completed and final compliance is able to be demonstrated with regulations AP-3-07 and AP-3-11, April 15, 1980.

II. This schedule provides for final compliance with Ohio regulations AP-3-07 and AP-3-11 by April 15, 1980, as required by section 113(d)(1)(D) of the Act. Final compliance will occur on this date when operation of boiler No. 91 will cease; operation of this boiler will not begin again until pollution controls have been installed.

III. This schedule is protected by section 113(d)(10) against Federal enforcement action and citizen suits under section 304 until April 15, 1980. After April 15, 1980, this schedule is covered by section 113(a).

IV. Nothing herein shall affect the responsibility of the Company to comply with other Federal, State, or local regulations.

V. No later than 15 days after any date for achievement of an incremental step for final compliance specified in this order, the Company shall notify U.S. EPA in writing of its compliance, or noncompliance and reasons therefore, with the requirement. If delay is anticipated in meeting any requirement of this order, the Company shall immediately notify U.S. EPA in writing of the anticipated delay, reasons therefore, and the estimated length of the delay.

The Company shall submit quarterly reports to U.S. EPA detailing progress made with respect to each requirement of this order. In addition, photographs shall be submitted along with these reports showing progress made since the previous quarter. U.S. EPA personnel shall be admitted to the facility at any reasonable time for the purpose of viewing the construction progress.

VI. Nothing herein shall be construed to be a waiver by the Administrator of any rights or remedies under the Clean Air Act, including, but not limited to, section 303 of the Act, 42 U.S.C. section 7503

VII. Pursuant to section 113(d)(7) of the Act, during the period of this order, until completion of the program set out in paragraph I herein, the Company shall use the best practicable systems of emission reduction so as to maximize the reliability and efficiency of the existing controls in units No. 16, No. 91, and No. 92, minimize particulate

V 4 3 / 1 9 1

0 C 2 7 8

matter emissions, avoid any imminent and substantial endangerment to the public health, and comply with the requirement of the applicable implementation plan as it is able to.

Written operating and maintenance procedures for the existing controls shall be submitted to U.S. EPA for approval within 1 month from the effective date of this order. These procedures shall provide for maximizing reliability and efficiency, malfunction reporting, recordkeeping, and corporate reviewing. Failure to submit or comply with these procedures will constitute a violation of this order.

VIII. A continuous opacity monitoring system for stacks No. 16 and No. 4 shall be installed, calibrated, maintained, and operated in accordance with the procedures set forth in appendix B of 40 CFR Part 60 no later than April 15, 1980. Pursuant to section 114, monitor data shall be retained by the Company for at least 2 years subsequent to recording. On a quarterly basis, the Company shall report all 6-minute data averages from the monitor (reduced as specified in 40 CFR section 60.13(b)) in excess of 20 percent.

IX. The Company is hereby notified that failure to achieve final compliance by July 1, 1979, will result in a requirement to pay a noncompliance penalty unless exempted under section 120 of the Act. In the event of such failure, the Company will be formally notified pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

X. Nothing herein shall be construed to be a waiver by the Company of its right to challenge the reasonableness, legality, or constitutionality of the imposition of noncompliance penalties on the Company.

XI. The Company hereby waives its right to file a petition for review of this order pursuant to section 307(b)(1) of the Act.

XII. All submissions and notifications to U.S. EPA, pursuant to this order, shall be made to the Air Compliance Section, Enforcement Division, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2090. A copy of all submissions and notifications shall be made to the Toledo Pollution Control Agency, 26 Main Street, Toledo, Ohio 43605.

Dated: ———————.

———————,
Administrator.

Toledo Edison Co. has reviewed this order, consents to the requirements set forth in this order, and believes it to be a reasonable means by which the Acme Station can achieve final compliance with Ohio regulations AP-3-07 and AP-3-11. The Company denies the existence of any past or present violation of the Ohio implementation plan at its Acme Station, but for purposes of settlement consents to the abatement program set forth herein.

Dated:———————.

[Docket No. A-SS-77-559; FRL 976-8]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for the Town of Kennebunkport, Maine

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative order to the town of Kennebunkport, Maine. The order requires the town to bring air emissions from its open burning dump in Kennebunkport into compilance with certain regulations contained in the federally-approved Maine State implementation plan (SIP). Because the town is unable to comply with these regulations at this time, the proposed order would establish an expeditious schedule requiring final compliance by April 1, 1979. Source compliance with the order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the order.

DATES: Written comments must be received on or before October 17, 1978.

Requests for a public hearing must be recived on or before October 17, 1978.

All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 21 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSES: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, EPA, Region I, Room 2103, John F. Kennedy Building, Boston, Mass. 02203. Attn: Air Compliance Clerk. Material supporting the order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Michael Gurchin, attorney, 617-223-5061 or Mr. Malcolm Petroccia, engineer, 617-223-5610, both at EPA, Region I, Room 2103, JFK Building, Boston, Mass. 02203.

SUPPLEMENTARY INFORMATION: The town of Kennebunkport operates an open burning dump at Kennebunkport, Maine. The proposed order addresses emissions from the dump, which are subject to section 100.2.2 of the Maine Air Pollution Control Regulations. The regulation prohibits open burning of waste, and is part of the federally-approved Maine State implementation plan. The order requires final compliance with the regulation by April 1, 1979, and the source has consented to its terms. The source has also agreed to meet the order's increments during the period of this informal rulemaking.

The proposed order satisfies the applicable requirements of section 113(d) of the Clean Air Act (the Act). If the order is issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provisions of the Act (Section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the order. Testimony given at any public hearing concerning the order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR 65 will be promulgated by EPA soon,[1] and will contain the procedures for EPA's issuance, approval, and disapproval of an order under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

AUTHORITY: 42 U.S.C. 7413, 7601.

Dated: September 11, 1978.

WILLIAM R. ADAMS, Jr.,
Regional Administrator, Region I.

The text of the proposed order is as follows:

U.S. ENVIRONMENTAL PROTECTION AGENCY, REGION I

In the matter of Kennebunkport, Maine; proceedings under section 113 of the Clean Air Act, 42 U.S.C. § 7413; order No. A-SS-77-559.

This order is issued pursuant to section 113(d)(1) of the Clean Air Act (the "Act"), 42 U.S.C. § 7413(d)(1). This order contains a schedule for compliance, interim requirements, and reporting requirements. Public notice, opportunity for a public hearing, and 30 days notice to the State of Maine have been provided pursuant to section 113(d)(1) of the Act.

FINDINGS

1. Former section 100.2.2 of the Maine Air Pollution Control Regulations ("Regulations") stated, in pertinent part, as follows:

"Open burning of waste of any kind shall be prohibited after July 1, 1974 except that municipalities qualifying for an extension under the Solid Waste Management Plan shall cease open burning as a means of solid waste disposal by July 1, 1975."

2. Section 100.2.2 of the regulations is part of the Maine implementation plan submitted to and approved by the Environmental Protection Agency ("EPA") pursuant to section 110 of the Act. Although Maine has revised section 100.2.2, EPA disapproved this revision. Therefore, the implementation plan remains unchanged and section 100.2.2 of the Regulations is still a "requirement of an applicable plan," as that phrase is used in section 113(a)(1) of the Act.

3. The town of Kennebunkport, Maine owns and operates an open burning disposal site.

4. On January 6, 1978, the Regional Administrator of EPA issued a notice of violation, pursuant to section 113(a)(1) of the Act, to the town of Kennebunkport alleging violation of the above-cited regulation. Information received from the town manager of Kennebunkport in a letter dated September 21, 1977, discussing the town's open burning of refuse, served as the basis for the issuance of this notice.

5. A representative of Kennebunkport was afforded an opportunity to confer with EPA concerning the alleged violation, in accordance with section 113(a)(4) of the Act. The conference was held on March 24, 1978.

6. Comments made by the town manager of Kennebunkport at the March 1978 conference concerning the town's continued open burning indicate that the violation of section 100.2.2 of the regulations has continued more than 30 days beyond Kennebunkport's receipt of the notice of violation.

ORDER

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this order is as expeditious as practicable, and that the terms of this order comply with section 113(d) of the Act.

Definitions: For the purposes of this order:

1. "Sanitary landfill system" shall mean a land area, associated structures and necessary equipment used for storing, compacting, and processing the solid waste projected to be generated by the town of Kennebunkport. The system shall satisfy all applicable regulations and procedures prescribed by the Maine Department of Environmental Protection ("DEP").

2. "Major system components" shall mean all components required for proper operation of the sanitary landfill system. Such components shall include, but are not limited to, land, land disposal equipment, buildings, utilities, roadways, and fencing.

It is hereby ordered:

I. That the town of Kennebunkport will comply with the Maine implementation plan regulations in accordance with the following schedule of implementation of plans for a solid waste facility to dispose of the town's refuse on or before the dates specified:

A. Complete engineering plans for a sanitary landfill system and submit a written report to EPA by August 1, 1978, or within 10 days of receipt of this order, whichever is later. This report shall include at a minimum the following items:

1. Specifications for all major system components necessary to construct a sanitary landfill system.

2. Description of the type of sanitary landfill disposal method to be used (i.e. cells, trenches, lifts, etc.).

3. Summary of all grading work to be done.

B. Begin construction of a sanitary landfill system by September 30, 1978.

C. Submit an interim written report to EPA by December 1, 1978. This report shall describe the extent to which construction of a sanitary landfill system is complete and provide a schedule for any remaining work.

D. Commence operation of a sanitary landfill method of solid waste disposal and cease open burning by April 1, 1979.

II. That the town of Kennebunkport shall comply with the following interim requirements which are determined to be the best, reasonable and practicable interim system of emission reduction (taking into account the requirement for which compliance is ordered in section I, above), and are necessary to avoid an imminent and substantial endangerment to the health of persons and to assure compliance with Maine implementation plan regulations insofar as the town of Kennebunkport is able to comply during the period this order is in effect:

A. Burning shall be restricted to those times when meteorological conditions are such that a minimum amount of smoke will impact on local residences.

B. The Beachwood Road dump shall be protected by a fence, a gate, and a dump attendant during normal operating hours, to prevent accidental fires.

III. That the town of Kennebunkport is not relieved by this order from compliance with any requirement imposed by the Maine implementation plan, EPA, and/or the courts pursuant to section 303 during any period of imminent and substantial endangerment to the health of persons.

IV. That the town of Kennebunkport shall comply wth the following reporting requirements on or before the dates specified below:

A. Not later than 5 days after any date for achievement of an incremental step or final compliance specified in this order, Kennebunkport shall notify EPA in writing of its compliance, or noncompliance and reasons therefore, with the requirement. If delay is anticipated in meeting any requirement of this order, the town shall immediately notify EPA in writing of the anticipated delay and reasons therefore. Notification to EPA of any anticipated delay does not excuse the delay.

B. All submittals and notifications to EPA pursuant to this order shall be made to: Director, Enforcement Division, U.S. Environmental Protection Agency, J. F. K. Federal Building, Room 2103, Boston, Mass. 02203, Attention: Air Compliance Clerk.

V. That while section 113(d)(1)(C) of the Act normally requires emission monitoring in an order, no reasonable system of emission monitoring for the town of Kennebunkport's open burning dump site exists.

VI. Nothing herein shall affect the responsibility of the town of Kennebunkport to comply with State, local, or other Federal regulations.

VII. Kennebunkport is hereby notified that failure to achieve final compliance by July 1, 1979 may result in a requirement to pay a noncompliance penalty under section 120 of the Act. In the event of such failure, the town will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

VIII. This order shall be terminated in accordance with section 113(d)(8) of the Act if the Administrator determines on the record, after notice and hearing, that an inability to comply with section 100.2.2 of the regulations no longer exists.

IX. Violation of any requirement of this order shall result in one or more of the following actions:

A. Enforcement of such requirement pursuant to sections 113(a), (b), or (c) of the Act, including possible judicial action for an injunction and/or penalties and, in appropriate cases, criminal prosecution.

B. Revocation of this order, after notice and opportunity for a public hearing, and subsequent enforcement of section 100.2.2 of the regulations in accordance with the proceding paragraph.

C. If such violation occurs on or after July 1, 1979, notice of noncompliance and subsequent action pursuant to section 120 of the Act.

X. This order is effective upon publication in the FEDERAL REGISTER.

Date: ———————

DOUGLAS M. COSTLE,
Administrator.

The town of Kennebunkport, Maine, finding that the compliance schedule in this order is reasonable and practicable, hereby consents to the issuance of this order and will undertake to comply with all of its terms and conditions.

Dated: August 10, 1978.

JOHN E. SPITA,
Authorized Source Signature.

CONTROL OF AIR POLLUTION FROM AIRCRAFT ENGINES

Public Hearing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public hearings.

SUMMARY: This document establishes a time and place for public hearings on a notice of proposed rulemaking for newly manufactured, newly certified and certain categories of in-use aircraft engines (43 FR 12615, March 24, 1978).

[1] Regulations for 40 CFR Part 65 have been published in the FEDERAL REGISTER of September 28, 1978.

V 4 3 / 1 9 1

0 C 2 7 8 UMI

DATES: November 1 and 2, 1978, 9:30 a.m. to 6 p.m. each day.

ADDRESS: Environmental Protection Agency, Regional Office (Region IX), Sixth Floor Conference Room, 215 Fremont Street, San Francisco, Calif. 94105.

FOR FURTHER INFORMATION CONTACT:

George D. Kittredge, Senior Technical Advisor, Office of Mobile Source Air Pollution Control (AW-455), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-426-2464.

SUPPLEMENTARY INFORMATION: Section 231 of the Clean Air Act as amended by Pub. L. 95-95 directs the Administrator of the Environmental Protection Agency to "establish standards applicable to emission of any air pollutant from any class or classes of aircraft or aircraft engines which in his judgment cause or contribute to air pollution which endangers the public health or welfare." Such standards were promulgated on July 17, 1973 (38 FR 19090). On March 24, 1978, amendments to the standards were proposed (43 FR 12615).

Section 231 of the Act also provides that the Administrator shall hold public hearings with respect to the proposed emission standards. Notice is hereby given of a hearing concerning the proposed amended emission standards.

This hearing is intended to provide an opportunity for interested persons to state their views or arguments, or provide information relative to the proposed emission standards for aircraft.

Mr. Michael P. Walsh is hereby designated as the Presiding Officer for the hearings. He will be responsible for maintaining order; excluding irrelevant or repetitious material; scheduling presentations, and, to the extent possible, notifying participants of the time at which they may appear. The hearings will be conducted informally. Technical rules of evidence will not apply.

Any person desiring to make a statement at the hearings or submit material for inclusion in the record of the hearings, should provide written notice of such intention not later than 15 days prior to the hearing date. Also copies of the proposed statement or material for inclusion in the record should be submitted not later than five days before the hearing date to the Office of Mobile Source Air Pollution Control (AW-455), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

Dated: September 26, 1978.

DAVID G. HAWKINS,
Assistant Administrator for Air, Noise and Radiation.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Tolerances for the Pesticide Chemical Parathion

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that tolerances be established for residues of the insecticide parathion on parsley and fish. The proposal was submitted by the interregional research project. This amendment to the regulations would establish maximum permissible levels for residues of methyl parathion on parsley and fish.

DATE: Comments must be received on or before November 1, 1978.

ADDRESS COMMENTS TO: Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, EPA (202-755-2516).

SUPPLEMENTARY INFORMATION: The Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, has submitted two pesticide petitions (PP 6E1756 and 6E1762) to the EPA. PP6E1756, submitted on behalf of the IR-4 technical committee and the agricultural experiment stations of California, Florida, and New Jersey, requests that the Administrator propose that 40 CFR 180.121 be amended by the establishment of a tolerance for residues of the insecticide parathion (*0,0*-diethyl-*0*-*p*-nitrophenol thiophosphate) or its methyl homolog in or on the raw agricultural commodity parsley at 1 part per million (ppm).

PP6E1762, submitted on behalf of the IR-4 technical committee and the agricultural experiment station of California, requests that the Administrator propose the establishment of a tolerance for residues of the insecticide parathion in fish at 0.2 ppm resulting from application of the insecticide to waters of Clear Lake, Calif., for the control of the Clear Lake gnat, *Chaoborus astictopus* Dyar and Shannon in programs conducted by the Lake County, Calif., mosquito abatement district. Traditionally, residues of both parathion and its methyl homolog are covered by one regulation. Therefore, the Administrator proposes that 40 CFR 180.121 be amended by the establishment of a tolerance for residues of the insecticide parathion or its methyl homolog in fish at 0.2 ppm.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerances included a 2-year rat feeding study with a no-observable-effect level (NOEL) of 1 ppm, a 6-month dog feeding study with an NOEL of 0.05 milligram (mg)/kilogram (kg) of body weight (bw)/day or 2 ppm, a multigeneration rat reproduction/teratology study with an NOEL of 10 ppm, and a human volunteer oral ingestion study with an NOEL of 0.1 mg/kg bw/day, which is equivalent to about 4 ppm based on the whole diet of man. The acceptable daily intake (ADI) for parathion is 0.005 mg/kg bw/day based on the NOEL in the rat 2-year feeding study and using a safety factor of 10.

Desirable data which are missing from the petition include an oncogenicity assay in a second species and mutagenicity assays. Mutagenicity assays are, however, generally deferred until Agency requirements are finalized. Since the theoretical increment in exposure is very small (less than 1 percent), it is concluded that the present toxicity data, which include one lifetime feeding study, are sufficient to determine that the proposed tolerances will protect the public health.

Tolerances have previously been established for residues of parathion or its methyl homolog on a variety of raw agricultural commodities at levels ranging from 5 ppm to 0.1 ppm. The theoretical maximal residue contribution (TMRC) from these established tolerances exceeds the ADI by a factor of about two fold. On the other hand, it has been determined that food actually consumed contains little or no parathion residues; only leafy vegetables bear measurable residues ranging from 0.008 ppm-0.022 ppm. Thus the actual dietary exposure is at least two orders of magnitude below the TMRC, and the fact that the ADI is exceeded in theory is of little practical relevance. The metabolism of parathion is adequately understood, and an adequate analytical method (gas chromatography using either electron capture or flame photometric detection) is available for enforcement purposes.

No actions are pending against continued registration of the insecticide. There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3).

The pesticide is considerd useful for the purpose for which tolerances are being established, and it is concluded that the tolerances established by amending 40 CFR 180.121 will protect the public health. It is proposed, therefore, that the tolerances be established as set forth below.

Any person who has registered, or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, within 30 days after publication of this proposal in the FEDERAL REGISTER, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control numbers, "PP6E1756 and 6E1762/P76". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the FEDERAL REGISTER section from 8:30 a.m. to 4 p.m. Monday through Friday.

Date: September 25, 1978.

DOUGLAS D. CAMPT,
Acting Director, Registration Division

(Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346(e)).)

It is proposed that part 180, subpart C, section 180.121 be revised by editorially reformatting the section into an alphabetized columnar listing and by alphabetically inserting the tolerances on parsley at 1 ppm and fish at 0.2 ppm, as follows:

§ 180.121 Parathion or its methyl homolog; tolerances for residues.

Tolerances are established for residues of the insecticide parathion (*O,O,*-Diethyl-*O*-*p*-nitrophenyl thiophosphate) or its methyl homolog in or on the following raw agricultural commodities:

[6820-33]

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

[41 CFR Part 51-1]

DEFINITION OF OTHER SEVERELY HANDICAPPED

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed rule.

SUMMARY: The Committee proposes to amend its regulations by redefining the term "other severely handicapped". The revised definition is intended to update the term made necessary by legislation and recent implementing regulations and prepared studies.

DATES: Comments must be received on or before: November 29, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703) 557-1145.

SUPPLEMENTARY INFORMATION: The current definition of the term "other severely handicapped individual" contained in the Committee's regulations (41 CFR 51-1.2(g)) was developed in 1972. Since that time the term severly handicapped has been defined in the Rehabilitation Act of 1973 (Public Law 93-112) and in the Department of Health, Education, and Welfare (HEW) regulations implementing that act (45 CFR 1361.1(w)). The Comprehensive Needs Study prepared for HEW by the Urban Institute in 1975 also addresses the terms "impairment," "disability," and "handicapped". In view of these more recent developments, it appears appropriate to revise the Committee's definition of other severely handicapped.

Sections 46 to 48c of title 41, United States Code, govern the Committee's operations. Paragraph 48a(2) of that title defines the terms "other severely handicapped" and "severely handicapped" as "an individual or class of individuals under a physical or mental disability, other than blindness, which * * * is of such a nature as to prevent the individual from currently engaging in normal competitive employment".

In addition to the definitions mentioned above, a number of different definitions of "handicapped" and "severely handicapped" can be found in various laws and the regulation of other departments and agencies of the

V 43 / 191 OCT 2 78

Government. In most cases, these definitions are directed toward the particular function or interest of the specific department or agency. In general, the term "handicapped" means an individual who has a physical or mental condition which limits that person's function capabilities to some extent but not to the point that that person is unable to move about or to qualify for a job in competitive employment. On the other hand, "severely handicapped" generally connotes a condition (or combination of conditions) which presents a major impediment to the individual's ability to travel and to work.

Many definitions of "severely handicapped" include a listing of various diagnostic labels and usually end with a statement such as "or any other disability or combination of disabilities which cause comparable substantial functional limitations". Such listings of injuries or illnesses which cause or contribute to the individual's disability appear to serve little useful purpose since each person's case must be evaluated to determine the degree of severity and the impact on the particular individual's functional capabilities and ability to engage in normal competitive employment.

The proposed change to paragraph 51-1.2(g) redefining "other severely handicapped" combines terminology from the Comprehensive Needs Study, and the functional capabilities approach and extended time period of the HEW definition of "severely handicapped". The listing of disabling injuries and illnesses has been deleted. The requirements for preadmission and annual reevaluation of each individual's capability for engaging in competitive employment have been retained, as well as provisions excluding persons from the definition who have overcome their handicapping conditions.

Accordingly, it is proposed to amend part 51-1, chapter 51, 41 CFR by revising paragraph 51-1.2(g) as follows:

§ 51-1.2 Definitions.

• • • • •

(g) "Other severely handicapped" means a person, other than a blind person, who has a severe physical or mental impairment (a residual, limiting condition resulting from an injury, disease, or congenital defect) which so limits the person's functional capabilities (mobility, communication, self-care, self-direction, work tolerance or work skills) that the individual is unable to engage in normal competitive employment over an extended period of time.

(1) Capability for normal competitive employment shall be determined from information developed by an ongoing evaluation program conducted by the workshop and shall include, as a minimum, a preadmission evaluation, and a reevaluation at least annually of each individual's capability for normal competitive employment.

(2) A person with a severe physical or mental impairment who is able to engage in normal competitive employment because the impairment has been overcome or the condition has been substantially corrected is not "other severely handicapped" within the meaning of this definition.

• • • • •

C. W. FLETCHER,
Executive Director.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[49 CFR Part 215]

[Docket No. RSFC-5; Notice 3]

FREIGHT CARS

Periodic Inspection

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend the rules pertaining to the periodic inspection of freight cars. The proposed amendment would provide the railroads with one additional year to complete required periodic inspections of all freight cars except those used to transport class A poisons or class A explosives. This action is taken by FRA in an effort to avoid further shortages of railroad freight cars and in response to a petition submitted by the Association of American Railroads (AAR).

DATES: Written comments: Written comments must be received before November 15, 1978. Comments received after that date will be considered so far as possible without incurring additional expense or delay. Public hearing: A public hearing will be held at 10 a.m. on November 14, 1978. Any person who desires to make an oral statement at the hearing should notify the Docket Clerk before November 1, 1978, by phone or by mail.

ADDRESSES: Written comments: Written comments should identify the docket number and the notice number and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration (Trans Point Building), 2100 Second Street SW., Washington, D.C. 20590. Written comments will be available for examination, both before and after the closing date for written comments during regular business hours in room 4406 of the Trans Point Building at the above address.

PUBLIC HEARING

A public hearing will be held in room 3201 of the Trans Point Building. Persons desiring to make oral statements should notify the docket clerk by telephone (202-472-5311) or by writing to: Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building at the above address.

FOR FURTHER INFORMATION CONTACT:

PRINCIPAL ATTORNEY

Danvers E. Long, Office of the Chief Counsel, Federal Railroad Administration, Washington, D.C. 20590. Phone 202-426-8836.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Part 215 (49 CFR Part 215) was published in the FEDERAL REGISTER on November 21, 1973 (38 FR 32224) and became effective on January 1, 1974. Subpart B of that part prescribed requirements for the inspection of railroad freight cars. Section 215.25 provided that a railroad could not operate a railroad freight car after December 31, 1976, unless the car was inspected as provided in that section, or met certain other specified conditions.

On December 31, 1975, the AAR petitioned for an amendment to § 215.25 to extend from December 31, 1976, to December 31, 1980, the deadline for completing the required periodic inspection of freight cars. AAR received support from the Union Tank Car Co., which later filed a similar petition, and from other interested parties.

In response to those petitions and other communications received, FRA issued a notice of proposed rulemaking on April 30, 1976, (41 FR 18685). The notice contained a proposal to extend from December 31, 1976, to December 31, 1978, the deadline for completing initial periodic inspections of freight cars. In connection with its proposed two-year extension, FRA stated the following:

> These shortages [of freight car components], the price increases [in material costs], labor cost increases, and the decline in business are factors which affected the ability of the railroads to accomplish the initial periodic inspection program. These are also factors over which the railroads had no control and are factors which FRA did not envision when the regulations were issued (41 FR 18685).

On the other hand, based on its evaluation of all information available at the time it issued the NPRM, FRA concluded that the four-year extension requested by AAR was inappropriate. With regard to that request, FRA stated the following:

> FRA believes that the facts warrant a maximum two-year extension of time. This additional time, coupled with work previously performed and the ability to accomplish inspection work in the remaining portion of 1978, will provide adequate time for all railroads and private car owners to complete the initial periodic inspection of the freight car fleet. In concluding that the facts and arguments advanced by the railroads and private car owners do not appear to justify a four-year extension of time, FRA has considered the intent of this particular regulatory provision to enhance the safety of railroad operations and the fact that the railroads have had some measure of control over the actions which are causing the delay in the effectiveness of these standards (41 FR 18686).

Responding to the NPRM, a number of commenters objected to the proposed two-year extension. Many of these voiced support for a four-year extension stating that they could not complete inspections within the proposed two-year extension. They also contended that the failure to grant a four-year extension could put many cars out of service, thereby resulting in disastrous disruptions in service.

After evaluating the comments received, FRA conducted a review which indicated that nearly all railroads could complete required freight car periodic inspections with the benefit of a two-year extension. As a result, it extended the date for compliance to December 31, 1978. However, FRA also stated that it would consider waivers for those few railroads and private car owners that could not complete their inspections by that date.

FRA issued the amendment based on the NPRM on September 29, 1976, and the new compliance deadline of December 31 1978, became effective on November 15, 1976 (41 FR 44044). This is the compliance deadline currently in effect.

DISCUSSION OF PETITION

Petitioner requests a one-year extension of the compliance date for freight cars that have not received their initial periodic inspection. If this request is granted, those cars would have to receive the initial inspection by December 31, 1979, rather than by December 31, 1978, as required by § 215.25(b). That section provides, in pertinent part, as follows:

> (b) After December 31, 1978, a railroad may not operate a railroad freight car unless—
>
> (1) In the case of cars other than high utilization cars, the car was inspected as prescribed by § 215.27 within the preceding 48 months . . .; and
>
> (2) In the case of high utilization cars, the car was inspected as prescribed in § 215.27 within the preceding 12 months
>
> • • •.

In addition, petitioner requests that freight cars which received their initial periodic inspection in 1974 or 1975 be allowed to operate for six years before receiving their second periodic inspection. Therefore, the second inspection would be performed in 1980 or 1981, rather than by December 31, 1978, or December 31, 1979, as currently required. Neither this request nor the request for additional time to complete initial periodic inspections applies to cars used to transport class A poisons or class A explosives.

In support of its requests, petitioner states that the severe winter of 1977-78 and the prolonged coal strike drastically curtailed the earnings of the railroads, thereby forcing them to reduce or eliminate required freight car inspections in order to meet fixed obligations and payrolls. To illustrate the economic losses sustained, petitioner asserts that, in the first quarter of 1978, the railroads suffered their largest net railway operating income deficit in history—over $150 million. Petitioner asserts that these losses were sustained by carriers throughout the industry, many of which had previously been on schedule to complete the required inspections.

In addition, petitioner states that on March 10, 1978, FRA granted a waiver to five major private freight car owners, thereby affording those owners an additional year to complete required initial periodic inspections (Notice of these waiver petitions was published in the FEDERAL REGISTER on September 28, 1977, 42 FR 49869). According to petitioner, fairness dictates that the same relief should be afforded to all freight car owners.

Furthermore petitioner contends that an extension of the compliance date for cars inspected in 1974 and 1975 is needed to even out the workload in railroad shops. In this connection, it states that, in order to complete all required inspections, the railroads must have the flexibility that this extension would allow.

Finally, petitioner asserts that the relief it requests would not adversely affect railroad safety.

FRA ANALYSIS OF PETITION

As previously noted, FRA evaluated the economic conditions affecting the railroads, equipment shortages, ability to comply, the safety of railroad operations, and the control of the railroads over delays in completing inspections, before extending the compliance date for freight car periodic inspections from December 31, 1976, to December 31, 1978. After weighing all of these factors, FRA determined that only a two-year extension was justified. The justification for that extension was based primarily on unforeseen shortages in freight car components and certain negative economic conditions over which the railroads had no control and which were not foreseen by FRA.

Using these same criteria to evaluate the current request for extension, FRA finds that many of the adverse conditions that justified the previous extension are still present and in some cases have worsened considerably. Foremost among these are the substantial financial losses suffered by the railroads, as noted by petitioner, and the current serious shortage of freight cars throughout the country. In light of the severity of these financial losses and shortages and the fact that about 15 percent of the Nation's car fleet will not be given their initial periodic inspection by December 31, 1978, FRA believes that this deadline for periodic inspection of freight cars should be reassessed.

However, FRA believes that a general rulemaking proceeding, rather than the issuance of waivers, is the appropriate course of action to provide the industry-wide relief requested by petitioner. Accordingly, the petition is being considered as a request for general rulemaking.

In reviewing the petition, FRA notes that AAR has requested a one-year extension to complete initial periodic inspections and what amounts to a "one-time" two year extension of the reinspection interval for cars initially inspected in 1974 and 1975. If, as petitioner suggests, virtually all major railroads were on schedule to complete initial periodic inspections in the fall of 1977 before having to cut back most or all of those inspections, it appears that a one-year extension should be sufficient to make up for time lost and complete those inspections. As to the issue of reinspection, it appears that an additional two-year extension is not necessary for cars inspected in 1974 or 1975. Accordingly, this notice would extend by one year the compliance date for required periodic inspections of all railroad freight cars except those used to transport class A poisons or class A explosives.

Finally, FRA believes that any extensions beyond those proposed in this notice cannot be justified. Therefore, FRA does not anticipate extending the compliance date for completion of

V 4 3 / 1 9 1

freight car inspections beyond December 31, 1979.

ECONOMIC IMPACT

FRA has determined that this notice does not contain a significant regulatory proposal. Therefore, a Regulatory Analysis under Executive Order 12044 is not required (E.O. 12044, 43 FR 12661, March 24, 1978).

In addition, FRA has evaluated this proposal in accordance with DOT's existing and proposed policies for the evaluation of regulatory impacts. Since the proposed regulations would not impose any additional requirements and would merely extend the compliance date for completing certain required periodic inspections, FRA concludes that the regulatory proposal contained in this notice would have no measurable regulatory impact and that a detailed evaluation is not warranted. (Policies and Procedures for Simplification, Analysis, and Review of Regulations, 43 FR 9582, March 8, 1978; Proposed Regulatory Policies and Procedures, 43 FR 23925, June 1, 1978).

WRITTEN COMMENTS AND HEARING

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. Communications should identify the regulatory docket number and the notice number, and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590. Communications received before November 15, 1978, will be considered before final action is taken on the proposed rules. All comments received will be available for examination by interested persons at any time during regular working hours in Room 4406, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

In addition, the FRA will conduct a public hearing on November 14, 1978, in Room 3201, 2100 Second Street SW., Washington, D.C. 20590 at 10 a.m. The hearing will be informal, and not a judicial or evidentiary hearing. There will be no cross examination of persons making statements. A staff member of the FRA will make an opening statement outlining the matter set for hearing. Interested persons will then have the opportunity to present their oral statements.

At the completion of all initial oral statements, those persons who wish to make rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures for conducting the hearing will be announced at the hearing.

Interested persons may present oral or written statements at the hearing. All statements will be made a part of the record of the hearing and be a matter of public record. Any person who wishes to make an oral statement at the hearing should notify the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590, Phone 202-472-5311, before November 1, 1978, stating the amount of time required for the initial statement.

The proposals contained in this notice may be changed in light of the oral statements at the public hearing, or the written comments submitted in response to this notice.

THE PROPOSED RULE

Accordingly, it is proposed to amend § 215.25 (49 CFR § 215.25) as follows:

§ 215.25 Periodic inspection required.

* * * * *

(b) Except as provided in paragraph (e) of this section, after December 31, 1979, a railroad may not operate a railroad freight car unless—

* * * * *

(e) Notwithstanding the requirements of paragraph (b)(1) of this section, a railroad may continue to operate a railroad freight car that was inspected in 1975 if—

(1) The car is other than a high utilization car; and

(2) The car has been inspected, as prescribed by § 215.27 of this part, within the preceding 60 months.

(Secs. 202 and 208, Federal Railroad Safety Act of 1970, as amended (45 U.S.C. 431 and 437); Sec. 1.49(n), Regulations of the Office of the Secretary of Transportation (49 C.F.R. 1.49(n)).)

Issued in Washington, D.C., on September 22, 1978.

JOHN M. SULLIVAN,
Administrator.

[FR Doc. 78-27818 Filed 9-29-78; 8:45 am]

[4910-06]

[49 CFR Part 218]

[Docket No. RSOR-3, Notice 17]

BLUE SIGNAL PROTECTION OF WORKMEN

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: On September 28, 1977, FRA published a notice of proposed rulemaking (NPRM) proposing to amend a portion of the regulation governing the blue signal protection to be afforded to workmen engaged in the inspection, testing, repair, and servicing of rolling equipment (42 FR 49813). Interested persons were invited to participate in this rulemaking proceeding by submitting written comments. In accordance with a subsequent notice, the period for filing written comments was extended until December 14, 1977 (42 FR 59310). FRA also held a public hearing on November 1, 1977 to permit oral comment on the proposed amendment.

The comments received in response to this NPRM raised issues that went beyond the scope of the proposed amendment and raised issues about the intent and effectiveness of the existing regulation. FRA has decided that these issues should be addressed before issuing a final rule. Accordingly, FRA is withdrawing the NPRM issued on September 28, 1977, and is issuing a new NPRM which proposes a more comprehensive revision of part 218. The comprehensive revision seeks to resolve the issues concerning the use of blue signals on main tracks; the need to provide protection against possible "side instrusions" and the use of blue signals in car and locomotive servicing areas by amending the regulation to better reflect the historical practices of the railroad industry.

DATES: (1) Requests for an opportunity to provide oral comment must be received on or before October 13, 1978.

(2) Written comments must be received on or before November 15, 1978. Comments received after that date will be considered to the extent practicable.

ADDRESS: Send comments to Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

PRINCIPAL AUTHORS

Principal Program Person: John A. McNally, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590, 202-426-9178.

PRINCIPAL ATTORNEY

Lawrence I. Wagner, Office of the Chief Counsel, Federal Railroad Administration, Washington, D.C. 20590, 202-426-8836.

SUPPLEMENTARY INFORMATION: On September 28, 1977 the FRA issued an NPRM (notice 12) proposing to amend a portion of the rules governing the blue signal protection afforded to railroad workmen (42 FR 49813). The NPRM specifically proposed to amend § 218.25 (49 CFR 218.25) by deleting the present paragraph (a) and inserting new paragraphs (a) (1) and (2) to expressly apply the regulatory procedures for the control of remotely controlled switches when such switches are located on other than hump yard tracks. It also proposed a conforming amendment to § 218.29 (49 CFR 218.29) in the form of a cross reference to the new § 218.25(a)(2). Interested persons were invited to participate in a public hearing on November 1, 1977 and to file written comments prior to November 14, 1977. The period for filing written comments was subsequently extended until December 14, 1977 (42 FR 59310).

The comments received by FRA in response to this NPRM raised significant issues about the scope and the effectiveness of Part 218 that went beyond the subject matter of the NPRM. Additionally, FRA has received a steady volume of requests for waivers of compliance with Part 218 that indicated the railroads were encountering many problems in attempting to comply with the existing regulation. Public notices which were published by FRA on December 8, 1977 (42 FR 62059) and December 20, 1977 (42 FR 63986) illustrate some of these problems.

On the basis of the responses to the NPRM and the information obtained from the waiver requests, FRA scheduled a public meeting to explore the issues that had been raised about the existing regulation and the proposed amendment (43 FR 8162). The FRA public meeting was held on March 22, 1978, instead of March 15, 1978, as initially scheduled, in order to avoid a conflict between that meeting and congressional hearings (43 FR 9512).

The parties present during the public meeting all expressed the opinion that there are serious deficiencies present in the existing regulation. A common theme was that the existing regulation requires the railroads to significantly alter the historical manner in which railroad workmen are afforded blue signal protection. In the opinion of these parties, these deviations from historical practice are not consistent with FRA's stated intent to codify the existing industry practices. They also were concerned that, in some instances, adherence to the FRA requirements was not possible without severely disrupting the current levels of service and that, in at least one instance, strict adherence could indirectly create a hazard.

In response to the critical comments received during the first portion of the public meeting, FRA provided rough drafts of possible regulatory language designed to eliminate the perceived problems. Rough drafts were provided to all parties and were subjected to discussion and comment during the remainder of the meeting.

After receiving the views of these parties, FRA concluded that one of the rough drafts of possible regulatory language could serve as the basis for a possible revision to the entire regulation. FRA, therefore, requested that all parties present at the public meeting focus on that particular draft and provide FRA with any thoughts or comments about ways to refine that possible regulatory language. The views of all of the known interested and directly affected parties have been expressed to FRA in both oral and written form. Several suggestions for possible revisions to the regulatory language have been incorporated in this NPRM and FRA is grateful for the voluntary efforts of these parties which have assisted FRA in resolving this matter.

A review of the existing rulemaking docket, the continuing requests for waivers of compliance, the lengthy and informed commentary at the public meeting, and the subsequent suggestions made for the revision of the regulation, have convinced FRA that a major revision of this regulation is appropriate. Consequently, FRA has decided to withdraw the NPRM published on September 28, 1977, and to issue a new NPRM proposing a comprehensive revision to Part 218. The comments filed and the issues raised in response to the withdrawn NPRM have all been subsumed in this present proposed rulemaking proceeding.

Although this proposed amendment was prepared after the public hearing provided on November 1, 1977, and the public meeting held on March 23, 1978, FRA believes that these prior sessions have provided an extensive opportunity for oral comment on the issues that are contained in this NPRM. Consequently, FRA has concluded that the facts do not warrant providing an additional opportunity for a public hearing on this proposal and FRA does not anticipate scheduling an opportunity for oral comment on this proposal. An opportunity for oral comment will be provided, however, if requestd by an interested person before October 13, 1978. Such a request must be made in writing and must be received by the Docket Clerk before that date.

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. All such communications must identify the appropriate docket number for this proceeding and should be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590. Communications received before November 15, 1978, will be considered before final action is taken on the proposed amendment. Comments received after that date will be considered as far as practicable. All comments received will be placed in the public docket and will be available for examination by the public during regular business hours in room 4406, Trans Point Building, 2100 Second Street SW., Washington, D.C. The proposals contained in this notice may be changed in light of the comments received in response to this notice.

This proposal has been evaluated in accordance with the policies for evaluation of regulatory impacts contained in Executive Order 12044 on the matter of "Improving Government Regulations" which was issued March 23, 1978 (43 FR 12661) and the existing and proposed policies of the Department of Transportation discussed in the FEDERAL REGISTER on June 1, 1978 (43 FR 23925). On the basis of that evaluation FRA has concluded that this proposal constitutes a "nonsignificant" and "nonmajor" regulatory proposal as those terms are used in the Executive Order and departmental policy statements. The economic effect of this proposal, if the proposed amendment were adopted, would be a cost saving to the railroads and would have unqualifiable benefit to both the railroad and the workmen affected by improving the safety of railroad employees.

The proposed amendment seeks to retain the positive safety aspects of the existing regulation and to resolve the identified problem areas. In order to accomplish these goals and to make the regulatory language plain and unambiguous the regulation has been reworded and restructured. As proposed the regulation will contain an expanded definitions section and new structural format which indicates the required actions to afford protection for workmen. Consequently, the entire text of the proposed rule has been provided as well as a section-by-section analysis to illustrate the proposed changes.

SECTIONS 218.1 AND 218.3

No changes are proposed for these sections.

SECTION 218.5

FRA proposes to include in this section a footnote to paragraph (a). This footnote is intended to clarify the applicability of this regulation. This change was made in response to numberous questions that have been asked concerning this provision. The parties submitting the questions have generally indicated that the absence of preamble language in published volumes, once the regulation has been adopted, can and did cause confusion about the FRA's intent as to the applicability of this regulation to the specific type of work performed in the railroad environment. Although FRA has attempted to provide a clear statement of applicability in § 218.21, FRA has con-

OCT 2 1978

V 4 3 / 1 9 1
0 C 2 7 8 UMI

cluded that it may be helpful for those persons who use only the printed regulatory language to have such a footnote. Consequently FRA proposes to provide and explain that some isolated tasks, which may be properly described as "servicing" or "testing", will not require the use of blue signal protection. In making this proposal, FRA has noted that these isolated and identified tasks have historically been performed by railroad workers without the protection afforded by the display of blue signals. In a similar fashion FRA proposes to change the language of § 218.5(c) to explicitly reflect the fact that the use of interior cab lights of a locomotive will provide sufficient illumination to allow use of an unlighted device which is attached to the operating controls to alert a person entering the cab compartment that the unit is under blue signal protection and cannot be moved.

FRA also proposes to add several new definitions to this section. The proposed rule contains definitions for what constitutes a car shop repair track area and a locomotive servicing track area. The "car shop repair track area" definition (paragraph (e)) is entirely new and reflects FRA's determination that in specifically identified areas blue signal protection may be afforded to workmen using modified methods. This issue is discussed at greater length in connection with the proposed language for § 218.29.

The "locomotive servicing track area" definition (paragraph (f)) is not entirely new and was originally contained in the language of the existing provisions of § 218.25(e). The proposed definition of what constitutes "main track" in paragraph (g) is entirely new and reflects FRA's determination that effective blue signal protection may be provided to workmen on main tracks without the use of derails or lined and locked switches. This issue is also discussed at greater length in connection with the proposed language for § 218.25.

The proposal to define the term "switch providing access" (paragraph (i)) reflects the concern experienced by numerous parties over the proper steps required for compliance with this regulation. The issue involving the question of access has generally been referred to as the problem of "side intrusion". The existing regulation did not address this issue in regulatory language and consequently the meaning of this term became a matter of dispute. FRA proposes to resolve this issue by defining the term in language that is well understood and which clearly conforms to the historical practices of the railroads.

The final proposed change to the definitions is to include an explanation of the term "group of workmen" (paragraph (j)). This definition will serve to resolve problems encountered by those railroads that have elected to use several individuals with different skills as a single team for the repair and servicing of rolling equipment.

The use of this term has been made in several places in the proposed change including § 218.5(d).

SECTIONS 218.7, 218.9, AND 218.11

FRA is not proposing any changes to §§ 218.7, 218.9, or 218.11.

SECTION 218.21

FRA does propose to change § 218.21 by inserting a single word. The insertion of the word "and" in the existing regulatory language will resolve a problem that FRA and the other interested parties have struggled with since the adoption of this regulation. The plain language of the existing regulation requires that when an individual has physically placed himself on rolling equipment to perform an inspection or servicing function, blue signal protection must be provided before that individual performs the assigned task. The assigned task in many instances placed that individual in a position such that movement of the rolling equipment could cause that person to suffer serious injury or death. However, there are other assigned tasks which require the individual to board the rolling equipment but do not place that person in serious danger due to the movement of that equipment. The most common example which illustrates this problem is the range of tasks assigned to a person required to service a caboose. That servicing function can include tasks relating to the electrical or heating systems which require the person to disassemble equipment. Movement of the rolling equipment could expose the individual performing that type of task to danger. That servicing function can also include tasks relating to the replenishment of water or paper supplies and by virtue of that task impose no unusual risk from the movement of the equipment. Another illustration involves the airbrake inspection function. The tasks can range from disassembly to mere visual observation of an air gage. FRA's intent was and is to require blue signal protection when the workman is exposed to danger caused by movement and to stay within the historical practices of the railroad industry. FRA, through the use of the regulatory language selected, went beyond that expressed intent. The proposed insertion of the word "and" will resolve this matter by creating a two-part test for when blue signal protection is to be afforded. As noted earlier FRA is also proposing a footnote to the definitions section to emphasize this intent in the regulatory language.

SECTION 218.23

The FRA proposes to revise the language concerning the display of blue signals contained in § 218.23 to clarify that which was inferred in the present language. The present language could be misconstrued to imply that if a blue signal was seen to be displayed at one entrance of a track, that track could be presumed to be under blue flag protection, even though a blue signal was not displayed at the opposite entrance of that track. The revised language will prohibit a workman from working on, under, or between rolling equipment until he ascertains that blue signals are displayed at all entrances to the track. This change in language makes it clear that unless blue signals are displayed at both entrances to a double-ended track, blue signal protection has not been provided. This change in language will also prove beneficial in increasing the efficiency of train operations in that once a blue signal has been removed from one entrance of a double-ended track, that track is no longer under blue signal protection and equipment may enter or leave the track through that unprotected entrance. The revised language will also be of benefit to an individual workman assigned to perform inspection and repair work by himself, in that he no longer need remove blue signals from both ends of a double-ended track before he can permit a train to depart. This significant revision coincides with the historical handling of similar situations in the industry prior to the present regulation. Additionally, FRA proposes to restructure the language of this provision to clearly identify the actions that are prohibited when blue signals are properly displayed. The final proposed change is to delete from the existing section the provision relating to crossover switches. This deleted provision has been moved to the proposed language for § 218.27 and is discussed further in connection with the other proposed changes to § 218.27.

SECTION 218.25

The proposed changes in § 218.25 represent a major change to the regulation. The proposed language has no counter part in the existing regulation and is directly related to the issues raised in connection with the NPRM issued on September 8, 1977. The proposed language will permit work to be performed on a main track without requiring that switches be lined and locked against movement to that track and without requiring that derails be used on a main track. The proposed changes to the regulation will permit an individual to perform tasks requiring blue signal protection on a main track without having the additional protection of a lined and locked switch. These proposed changes are, in FRA's judgment, permissible under the statutory language contained in the Federal Railroad Safety Authorization Act of 1976 (Pub. L. 94-348) and are appropriate since a review of the legislative history has convinced FRA that Congress did not intend to mandate that the FRA regulations require the lining and locking of all switches. Consequently, the FRA has determined that it is empowered to permit blue signal protection to be afforded to individuals performing tasks on main line tracks without the lining and locking of switches when equivalent protection is provided. This determination by the FRA reflects a belief that the signal systems and operating rules of the railroads that pertain to main track provide a degree of protection for workmen that generally is not present on other tracks.

Consequently, the FRA proposes to include a new section in the regulation to detail the specific actions that will be necessary to provide an individual blue signal protection when the tasks are to be performed on rolling equipment which is standing on a main track. Therefore, the proposed changes include a definition in § 218.5 to define what constitutes a main track as noted earlier. The proposal for specific provisions concerning the methods of protecting an individual performing tasks on rolling equipment standing on such main track are contained in § 218.25. The proposed language generally reflects the historical practices of the railroad industry. However, the proposed language also contains an additional requirement for attaching a blue signal to the controlling locomotive standing on such main track. The final portion of the proposed language contains a provision for performing tasks in an emergency situation. It is anticipated that this provision will rarely be utilized but the FRA has concluded that under some unique factual situations it may be necessary to perform work on a main track without the display of blue signals.

SECTION 218.27

In view of the changes proposed in § 218.25 to accommodate tasks performed on main track, the FRA proposes to place in the revised § 218.27 the requirements for providing blue signal protection on all other tracks. Additionally, the FRA proposes to reword and to restructure the previous language to make compliance with the regulation easier to understand. The proposed language specifies in § 218.27(a) the location for the placement of the blue signal and in § 218.27(b) the need to line and lock manually operated switches. In a similar fashion § 218.27(c) specifies the action required if the switch is remotely controlled. Furthermore, the section indicates the action to be taken if rolling equipment is located on a track equipped with one or more crossover switches. This provision contains the requirements formerly stated in § 218.23(d) of the existing regulation. The language of the proposed § 218.27(d), however, is not identical to that in the existing regulation. The proposed language will require that both switches be lined against movement to the protected track and that the switch providing access, which is now a defined term, must be protected in accordance with the provisions of this section. The revision to the crossover language will, in FRA's judgement, comport with the best practices of railroad industry concerning the handling of crossover switches. Finally, the proposed language includes a specific provision for the required action if a locomotive is present on the track being protected. This provision was previously contained in § 218.25(c) of the existing regulation. It should be noted that the proposed revisions omit all reference to hump yard tracks. This omission was deliberate since the intent of the FRA is that the provisions of this section will apply to all tracks other than a main track regardless of whether that track is located in a hump yard or a flat classification yard. In proposing this revised language, the FRA believes that the confusion about the scope of this provision, which was alluded to in responses to the prior NPRM, will be resolved.

SECTION 218.29

The proposed language for § 218.29 constitutes a major revision to the structure of the existing regulation and directly reflects the information gathered from the waiver requests received by the FRA. The proposed language will permit a railroad to use alternative methods, from those contained in the proposed provisions of § 218.27, to protect workmen who should be afforded blue signal protection. The proposed provisions reflect a determination by FRA that when certain criteria are present a railroad may safely use different approaches to afford blue signal protection. Basically, those criteria involve slow speeds and the fact that control over the movement of equipment has been placed in the hands of individuals directly responsible for the people who need to be protected. These criteria can exist in specific areas of railroad operations where locomotive servicing and car repair activities are performed. The existing regulation recognized this concept in terms of locomotive servicing but not in terms of car repair activities. Consequently, the FRA proposes to treat both locomotive servicing and car repair activities in a similar fashion.

As noted earlier, the proposed definitions in § 218.5 contain language that will serve to identify those areas that constitute either a "locomotive servicing track area" or a "car shop repair track area". A principal factor for such identification is the fact that operations on any track within that area is under the exclusive control of mechanical department personnel. Since the individuals normally performing the tasks requiring blue signal protection work for the mechanical department, a portion of the FRA's criteria will be met. The proposed language for this section includes the other criteria of slow speed. Once these criteria have been met the language of the proposed section would permit protection to be provided principally by controlling the access to the area. The control of that access is basically identical to that afforded on any other individual track within a yard location. However, greater freedom of movement is afforded to the mechanical department personnel once a piece of rolling equipment is placed within this area. The proposed language for § 218.29(a) details the matter of the locomotive servicing track area operations and contains the language of the existing regulation contained in the present provisions of §§ 218.25(e), 218.25(f), and 218.25(g). The proposed language for § 218.29(b) details the matter of the car repair shop track area and contains new language not found in the existing regulation except for the present provision of § 218.25(h).

The remaining proposed language of § 218.29 contains the existing regulatory provisions for the use of derails and for the performance of emergency work. These provisions are found in §§ 218.25(b) and 218.25(d) of the existing regulation.

SECTION 218.31

The proposed regulation contains the provisions for required action when remotely controlled switches are involved. This proposed language of this section has not been changed from the existing regulation other than to reflect the restructuring of the regulatory sections.

The principal program draftsman of this document is John McNally of the Office of Safety. The principal legal draftsman is Lawrence Wagner of the Office of Chief Counsel.

V 43/191 OCT 2 78

Issued in Washington, D.C. on September 22, 1978.

JOHN M. SULLIVAN,
Administrator.

In consideration of the foregoing, it is proposed to revise Part 218 of Title 49 of the Code of Federal Regulations as set forth below.

PART 218—RAILROAD OPERATING RULES

Subpart A—General

Sec.
218.1 Purpose.
218.3 Application.
218.5 Definitions.
218.7 Waivers.
218.9 Civil penalty.
218.11 Filing, testing and instruction.

Subpart B—Blue Signal Protection of Workmen

218.21 Scope.
218.23 Blue signal display.
218.25 Workmen on a main track.
218.27 Workmen on track other than main track.
218.29 Alternate methods of protection.
218.31 Remotely controlled switches.

AUTHORITY: Sec. 202, 84 Stat 971 (45 U.S.C. 431); Sec. 1.49(n) of the regulation of the Office of the Secretary of Transportation, 49 CFR 1.49(n)

Subpart A—General

§ 218.1 Purpose.

This part prescribes minimum requirements for railroad operating rules and practices. Each railroad may prescribe additional or more stringent requirements in its operating rules, timetables, timetable special instructions, and other special instructions.

§ 218.3 Application.

(a) Except as provided in paragraph (b) of this Section, this part applies to railroads that operate rolling equipment on standard gage track which is part of the general railroad system of transportation.

(b) This part does not apply to—

(1) A railroad that operates only on track inside an installation which is not part of the general railroad system of transportation, or

(2) A rapid transit railroad that operates only on track used exclusively for rapid transit, commuter, or other short-haul passenger service in a metropolitan or suburban area.

§ 218.5 Definitions.

As used in this part—

(a) "Workman" means railroad employees assigned to inspect, test, repair, or service railroad rolling equipment, or their components including brake systems. Train and yard crews are excluded except when assigned to perform such work on railroad rolling equipment that is not part of the train or yard movement they have been called to operate.

NOTE.—"Servicing" does not include supplying cabooses, locomotives, or passenger cars with items such as ice, drinking water, tools, sanitary supplies, stationery, or flagging equipment.

"Testing" does not include visual observations made by an employee positioned inside or alongside a caboose, locomotive, or passenger car.

(b) "Rolling equipment" includes locomotives, railroad cars, and one or more locomotives coupled to one or more cars.

(c) "Blue Signal" means a clearly distinguishable blue flag or blue light by day and a blue light at night. When attached to the operating controls of a locomotive, it need not be lighted if the inside of the cab area of the locomotive is sufficiently lighted so as to make the blue signal clearly distinguishable.

(d) "Effective Locking Device" when used in relation to a manually operated switch or a derail means one which is: (1) Vandal resistant; (2) tamper resistant; and (3) locked and unlocked only by the class, craft or group of employees for whom the protection is being provided.

(e) "Car shop repair track area" means one or more tracks within an area in which the testing, servicing, repair, inspection, or rebuilding of railroad rolling equipment is under the exclusive control of mechanical department personnel.

(f) "Locomotive servicing track area" means one or more tracks, within an area in which the testing, servicing, repair, inspection, or rebuilding of locomotives is under the exclusive control of mechanical department personnel.

(g) "Main Track" means a track, other than an auxiliary track, extending through yards or between stations, upon which trains are operated by timetable or train order or both, or the use of which is governed by a signal system.

(h) "Locomotive" means a self-propelled unit of equipment designed or moving other equipment in revenue service including a self-propelled unit designed to carry freight or passenger traffic, or both, and may consist of one or more units operated from a single control.

(i) "Switch providing access" means a switch which if traversed by rolling equipment could permit that rolling equipment to couple to the equipment being protected.

(j) "Group of workmen" means two or more workmen of different crafts assigned to work together as a unit under a common authority and who are in communication with each other while the work is being done.

§ 218.7 Waivers.

(a) A railroad may petition the Federal Railroad Administration for a waiver of compliance with any requirement prescribed in this part.

(b) Each petition for a waiver under this section must be filed in the manner and contain the information required by Part 211 of this chapter.

(c) If the Administrator finds that waiver of compliance is in the public interest and is consistent with railroad safety, he may grant the waiver subject to any conditions he deems necessary. Notice of each waiver granted, including a statement of the reasons, therefore, is published in the FEDERAL REGISTER.

§ 218.9 Civil penalty.

Each railroad to which this part applies that violates any requirement prescribed by this part is liable to a civil penalty of at least $250, but not more than $2,500 for each violation. Each day of each violation constitutes a separate offense.

§ 218.11 Filing, testing, and instruction.

The operating rules prescribed in this part, and any additional or more stringent requirements issued by a railroad in relation to the operating rules prescribed in this part, shall be subject to the provisions of Part 217 of this chapter, Railroad Operating Rules: Filing, Testing, and Instruction.

Subpart B—Blue Singal Protection of Workmen

§ 218.21 Scope.

This subpart prescribes minimum requirements for the protection of railroad employees engaged in the inspection, testing, repair, and servicing of rolling equipment whose activities require them to work on, under, or between such equipment and subjects them to the danger of personal injury posed by any movement of such equipment.

§ 218.23 Blue signal display.

(a) Blue Signals displayed in accordance with §§ 218.25, 218.27, or 218.29 signify that workmen are on, under, or between rolling equipment and mean that—

(1) The equipment must not be coupled to;

(2) The equipment must not be moved, except as provided for in § 218,29;

(3) Other rolling equipment must not be placed on the same track so as to reduce or block the view of a blue signal, except as provided for in § 218,29(a), 218.29(b), and 218.29(c);

(4) Rolling equipment may not pass a blue signal.

(b) Blue Signals must be displayed in accordance with §§ 218.25, 218.27, or 218.29 by each craft or group of workmen prior to their going on, under, or between rolling equipment and may

only be removed by the same craft or group that displayed them.

§ 218.25 Workmen on a main track.

When workmen are on, under, or between rolling equipment on a main track:

(a) A blue signal must be displayed at each end of the rolling equipment;

(b) If the rolling equipment to be protected includes one or more locomotives, a blue signal must be attached to the controlling locomotive at a locomotive at a location where it is readily visible to the engineman or operator at the controls of that locomotive; and

(c) When emergency repair work is to be done on, under, or between a locomotive or one or more cars coupled to a locomotive, and blue signals are not available, the engineman or operator must be notified and effective measures must be taken to protect the railroad employees making the repairs.

§ 218.27 Workmen on track other than main track.

When workmen are on, under, or between rolling equipment on track other than main track—

(a) A blue singal must be displayed at or near each manually operated switch providing access to that track;

(b) Each manually operated switch providing access to the track on which the equipment is located must be lined against movement to that track and locked with an effective locking device;

(c) The person in charge of the workmen must have notified the operator of any remotely controlled switch that work is to be performed and have been informed by the operator that each remotely controlled switch providing acces to the track on which the equipment is located has been lined against movement to that track and locked as prescribed in § 218.31;

(d) If rolling equipment requiring blue signial protection as provided for in this section is on a track equipped with one or more crossovers, both switches of each crossover must be lined against movement through the crossover, and the switch of each crossover that provides access to the rolling equipment must be protected in accordance with the provisions of subsections (a), (b), and (c) of this section; and

(e) If the rolling equipment to be protected includes one or more locomotives, a blue signal must also be attached to the controlling locomotive at a location where it is readily visible to the engineman or operator at the controls of that locomotive.

§ 218.29 Alternate methods of protection.

Instead of providing blue signal protection for workmen in accordance with § 218.27, the following methods for blue signal protection may be used:

(a) Except as provided in subparagraphs (5) and (6) of this paragraph, when workmen are on, under, or between rolling equipment in a locomotive servicing track area—

(1) A blue signal must be displayed at or near each switch providing entrance to or departure from the area;

(2) Each switch providing entrance to or departure from the area must be lined against the movement to the area and locked with an effective locking device;

(3) A blue signal must be attached to each controlling locomotive at a location where it is readily visible to the engineman or operator at the controls of that locomotive;

(4) If the speed within this area is restricted to not more than 5 miles per hour derails capable of restricting access to that portion of a track within the area on which the rolling equipment is located will fulfill the requirements of a manually operated switch in compliance with subparagraph (2) of this paragraph when positioned at least 50 feet from the end of the equipment to be protected by the blue signal, when locked in a derailing position with an effective locking device, and when a blue signal is displayed at the derail;

(5) A locomotive may not be moved onto a locomotive servicing area track unless the blue signal has been removed from the entrance switch to the area and the locomotive which is placed on the track must be stopped short of coupling to another locomotive;

(6) A locomotive may not be moved off of a locomotive servicing area track unless the blue signal has been removed from the controlling locomotive moved and from the area departure switch;

(7) If operated by an authorized employee under the direction of the person in charge of the workmen, a locomotive protected by blue signals may be repositioned within this area after the blue signal has been removed from the locomotive to be repositioned and the workmen on the affected track have been notified of the movement; and

(8) Blue signal protection removed for the movement of locomotives as provided in subparagraphs (5) and (6) of this paragraph must be restored immediately after the locomotive has cleared the switch.

(b) When workmen are on, under, or between rolling equipment in a car shop repair track area—

(1) A blue signal must be displayed at or near each switch providing entrance to or departure from the area;

(2) Each switch providing entrance to or departure from the area must be lined away from movement to the area and locked as provided for in this subpart;

(3) If the speed within this area is restricted to not more than 5 miles per hour, a derail capable of restricting access to that portion of a track within the area on which the rolling equipment is located will fulfill the requirements of a manually operated switch in compliance with subparagraph (2) of this paragraph when positioned at least 50 feet from the end of the equipment to be protected by the blue signal, when locked in a derailing position with an effective locking device and when a blue signal is displayed at the derail; and

(4) If operated by an authorized employee under the direction of the person in charge of the workmen, a car mover may reposition rolling equipment within this area after workmen on the affected track have been notified of the movement.

(c) Except as provided in paragraph (a) and (b) of this section, when workmen are on, under, or between rolling equipment on any track, other than a main track:

(1) A derail capable of restricting access to that portion of the track on which such equipment is located, will fulfill the requirements of a manually operated switch when positioned no less than 150 feet from the end of such equipment; and

(2) Each derail must be locked in a derailing position with an effective locking device and a blue signal must be displayed at each derail.

(d) When emergency repair work is to be done on, under, or between a locomotive or one or more cars coupled to a locomotive, and blue signals are not available, the engineman or operator must be notified and effective measures must be taken to protect the railroad employees making the repairs.

§ 218.31 Remotely controlled switches.

(a) After the operator of the remotely controlled switches has received the notification required by § 218.27(c), he must line each remotely controlled switch against movement to that track and apply an effective locking device to the lever, button, or other device controlling the switch before he may inform the employee in charge of the work to be performed that protection has been provided.

(b) The operator may not remove the locking device unless he has been informed by the person in charge of the workmen that it is safe to do so.

(c) The operator must maintain for 30 days a written record of each notification which contains the following information:

(1) The date and time he received notification of the work to be performed;

(2) The name and craft of the employee in charge who provided the notification;

(3) The number or other designation of the track involved;

(4) The date and time he notified the employee in charge that protection had been provided in accordance with paragraph (a) of this section; and

(5) The date and time he was informed that the work had been completed, and the name and craft of the employee in charge who provided this information.

[Docket 28337; Docket 28999; Docket 32746; Docket 33477; Order 78-9-90]

TEXAS/GREAT LAKES-EASTERN CANADA SERVICE CASE

Order Instituting Investigation

In the matter of Braniff Airways, Inc. (Docket 28337), Allegheny Airlines, Inc. (Docket 28999), American Airlines, Inc. (Docket 32746).

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of September, 1978.

On May 8, 1974, representiatives of the United States and Canada signed a bilateral air transport agreement which contains a number of new and expanded routes for U.S. air carriers. While most of these are now being served by U.S. carriers, a few have not yet been awarded, primarily because the agreement defers some of the authority for varying periods up to 5 years. This order deals with four of the routes:

B.4 Cleveland-Montreal.[1]
B.5 Cleveland-Toronto.
B.6 Detroit-Montreal.[2]
D.2 Houston/Dallas/Fort Worth-Toronto/Montreal.[3]

Except for B.5, these routes are not open to U.S. carrier service until April 29, 1979. The agreement also allows only one U.S. carrier to be designated on each unless the Government of Canada has given its prior approval of any additional designation.

Existing single-plane service from the U.S. points on these routes to Toronto and Montreal is limited. Except for Allegheny's Cleveland-Toronto flights there is no transborder nonstop service available on U.S. flag carriers between any of the points at issue. Dallas/Fort Worth receives nonstop service to Toronto via Air Canada, while the other U.S. points are generally served by multi-stop direct flights of U.S. carriers, or by connecting flights.[4]

Applications to serve two of these routes have been filed by Allegheny, Braniff, Airways, and American Airlines. Allegheny (Docket 28999) and American (Docket 32746) have applied for authority to serve Houston/Dallas/Fort Worth-Toronto/Montreal. Various Texas civic parties[5] have filed petitions for leave to intervene in any proceeding involving Braniff's application for Route D.2, but no other petitions or answers to the applications have been filed. North Central (Docket 25267) and Delta Air Lines (Docket 27791) had earlier filed applications to serve Route B.6, Detroit/Montreal, but those applications were routinely dismissed as stale, by Order 78-6-119. Neither carrier has filed a petition for reconsideration of that order.

We have decided to institute a *Texas/Great Lakes-Eastern Canada Service* case to consider the need for certificated U.S. flag service over the three unawarded bilateral routes described above. Also at issue will be whether Allegheny's temporary authority on Route B.5 should be made permanent or another carrier selected.[6]

[1] This route may be combined with Route B.5 (Cleveland-Toronto) and operated as a single route (Cleveland-Toronto/Montreal) if the same U.S. carrier is designated for B.4 and B.5. Allegheny Airlines has temporary certificate authority to serve B.5, until 60 days after a final decision on certification of a U.S. carrier on B.4. Order 76-5-66, April 28, 1976.

[2] Route B.6 may be combined with B.7 (Milwaukee/Detroit-Toronto) and operated as a single route (Milwaukee/Detroit-Toronto/Montreal) if the same carrier is designated for both. North Central Airlines currently provides certificated Detroit-Toronto service, and has applied for authority to serve Milwaukee-Toronto as well (Docket 32828). We intend to process its application by show cause procedures.

[3] The carrier designated for Route D.2 may select up to two intermediate points and may change the selection every 12 months. In addition, all flights on this route that serve Montreal must also serve Toronto.

[4] Northbound direct flight service on Routes B.4, B.6 and D.2 is available as follows:
(a) Cleveland-Montreal: Six one-stops per week (Allegheny);
(b) Detroit-Montreal: No direct flights;
(c) Houston-Toronto: Two daily one-stops (Air Canada);
(d) Houston-Montreal: Two daily three-stops (Delta);
(e) DFW-Toronto: Two daily non-stops (Air Canada) and 13 one-stops per week (American);
(f) DFW-Montreal: No direct flights.

[5] The City of Houston and the Houston Chamber of Commerce jointly, the City of San Antonio and the San Antonio Chamber of Commerce jointly, and the Aviation Committee of the Corpus Christi Chamber of Commerce.

[6] In recommending that Allegheny be awarded temporary authority to serve

Footnotes continued on next page

We have tentatively decided to combine these routes for consideration in a single proceeding because they are somewhat interrelated, and thus a consolidated route case appears to be the most efficent use of the Board's and the parties' time and resources. Traffic on the Texas-Toronto/Montreal route is now quite thin [7], and may be insufficient to support nonstop U.S. flag service. Therefore, applicants for Route D.2 may have to consider making intermediate stops, perhaps at points in the Great Lakes region, in order to operate profitably. Moreover, the bilateral expressly provides that the carrier designated for D.2 may select up to two intermediate points betwen the terminals of that route. By considering service to Eastern Canada from Cleveland and Detroit in the same proceeding as Texas-Canada, the Board will retain greater flexibility to tailor a route pattern that best serves the public convenience and necessity.

At the same time, however, we are prepared to modify the scope of this case if further pleadings in response to this order demonstrate that our tentative view of interrelationship between these routes is incorrect. For example, at present only a single application has been filed for authority in the Cleveland-Montreal market. If subsequent applications and other pleadings in response to this order reveal no other carrier interest in that route, we will remove it from this case and process the Allegheny application by show cause procedures. Or, if subsequent applications demonstrate competing interests within the Great Lakes-Canada routes themselves, but with no overlap of interest with the Texas route, we will consider splitting this proceeding into two cases. On the other hand, if applicants for Route D.2 seek intermediate points not named here, we may expand the proceeding to include them. In reaching a final decision on the scope of this case our concerns will be the public interest in prompt institution of U.S. flag service, the actual marketing plans of the applicants, and the most efficient use of the Board's and the parties' resources.

In cases such as this, where carrier selection is at issue, it is our policy that the offer or failure to offer lower prices will be taken into account in determining whether the public convenience and necessity require the award of new or additional authority, and, if so, which carrier or carriers should be selected. We therefore expect this proceeding to include an examination of the need for and feasibility of various new price/quality options in addition to the traditional service benefits. Moreover, the parties and the administrative law judge should consider whether any new authority should be temporary and whether contingent backup awards should be made. At the same time, however we are concerned with reducing the delay and costs of the evidentiary burdens typically associated with traditional carrier selection cases. Accordingly, we invite the judge and the parties to explore ways to reduce the quantity of required exhibit material, eliminate duplication and excessive detail, standardize methodology, and focus on significant facts and assumptions. Ultimately, we leave the resolution of these matters to the administrative law judge.

Finally, the applicants have not submitted sufficient information for the Board to determine the enviromental consequences of their proposed operations. We will require all applicant carriers to file environmental evaluations pursuant to Part 312 of the Board's regulations (14 CFR Part 312) within 30 days of the date of service of this order.

Applications, motions to consolidate, and petitions for reconsideration shall be filed within 30 days of the date of service of this order, and responsive answers shall be filed within 10 days thereafter.

Accordingly, 1. We institute a proceeding entitled the *Texas/Great Lakes-Eastern Canada Service* case and set it for hearing before an administrative law judge of the Board at a time and place to be designated, after petitions for reconsideration have been acted upon by the Board;

2. The proceeding shall include considerations of the following issues:

(a) Do the public convenience and necessity require certification of one or more air carriers to engage in foreign air transportation on a subsidy-ineligible basis between the following points:

(1) Cleveland, Ohio, on the one hand, and Toronto and Montreal, Canada, on the other;

(2) Detroit, Michigan and Montreal, Canada;

(3) Houston and Dallas/Fort Worth, Texas, on the one hand, and Toronto and Montreal, Canada, on the other;

(b) If the answer to subparagraph (a) is affirmative, in whole or in part, which air carrier(s) should be authorized to engage in such service, and what terms, conditions, and limitations, if any should be placed on the operation of such carriers;

(c) Should Allegheny Airlines' temporary authority between Cleveland, Ohio and Toronto, Canada be renewed, deleted, or otherwise modified;

3. We consolidate the applications of Braniff Airways in Docket 28337, Allegheny Airlines in Docket 28999, and American Airlines in Docket 32746 into this proceeding to the extent they conform with its scope, and to the extent not consolidated, we dismiss them;

4. We grant intervention in Docket 33477 to the following parties that petitioned for leave to intervene in Docket 28337; City of Houston and the Houston Chamber of Commerce; the City of San Antonio, Tex. and the San Antonio Chamber of Commerce; and the Aviation Committee of the Chamber of Commerce, Corpus Christi, Tex.;

5. Braniff Airways, Allegheny Airlines, American Airlines, and all other carriers filing applications in this proceeding shall file environmental evaluations under section 312.12 of the Board's regulations (14 CFR § 312.12) by October 26, 1978; and

6. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed by October 26, 1978, and responsive answers shall be filed by November 6, 1978.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:[8]

PHYLLIS T. KAYLOR,
Secretary.

CENSUS ADVISORY COMMITTEE ON THE BLACK POPULATION FOR THE 1980 CENSUS

Public Meeting

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. APP. (1976), notice is hereby given that the Census Advisory Committee on the Black Population for the 1980 Census will convene on October 27, 1978, at (9:15 a.m. The Committee will meet in Room 2424, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee on the Black Population for the 1980 Census is composed of 21 members ap-

V 43/191 OCT 2 78 UMI

pointed by the Secretary of Commerce. It was established in October 1974 to advise the Director, Bureau of the Census, on such 1980 census planning elements as improving the accuracy of the population count, recommending subject content and tabulations of special use to the black population, and expanding the dissemination of census results among present and potential users of census data in the black population.

The agenda for the meeting, which is scheduled to adjourn at 4:30 p.m. is: (1) Introductory remarks by the Director of the Bureau of the Census; (2) current status of 1980 census planning, including dress rehearsals and current count committees; (3) Affirmative Action Program; (4) Community Services Program; (5) Public Information Office efforts in lower Manhattan; (6) decentralized processing plans; (7) Committee discussion; and (8) Committee recommendations and plans for the next meeting.

The meeting will be open to the public and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meeting.

Persons wishing further information concerning these meetings or who wish to submit written statements may contact the Committee Control Officer, Clifton S. Jordan, Deputy Chief, Demographic Census Division, Bureau of the Census, Room 3779, Federal Building 3, Suitland, Md. Mailing address: Washington, D.C. 20233, telephone: 301-763-5169.

Dated: September 22, 1978.

MANUEL D. PLOTKIN,
Director,
Bureau of the Census.

Economic Development Administration

HELVETIA SUGAR COOPERATIVE, INC., ETC.

Applications for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions were accepted for filing from three firms: (1) Helvetia Sugar Cooperative, Inc., Route 1, Box 69, Convent, La. 70723, a processor of sugar (accepted September 25, 1978); (2) The Aerfab Corp., 380 Oakwood Road, Huntington Station, Long Island, N.Y. 11746, a producer of polyurethane and flocked fabrics (accepted September 25, 1978); and (3) Michael Berkowitz Co., Inc., 1802 Madison Avenue, New York, N.Y. 10016, a producer of men's and women's sleepwear, robes, lingerie, and disposable face masks (accepted September 26, 1978). The petitions were accepted pursuant to section 251 of the Trade Act of 1974 (Pub. L. 93-618) and section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the U.S. Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Cerification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the 10th calendar day following the publication of this notice.

JACK W. OSBURN, JR.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

[3510-25]

Foreign-Trade Zones Board

[Order No. 134]

FOREIGN-TRADE ZONE NO. 1, NEW YORK, N.Y.

Extension of Operational Authority

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), and the Foreign-Trade Zones Board Regulations (15 CFR Part 400), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the operational authority for Foreign-Trade Zone No. 1 in the Brooklyn Navy Yard, New York City, is due to expire on September 26, 1978;

Whereas, the City of New York, grantee of the zone, has, through its Department of Ports and Terminals, applied to the Board for authority to extend this operation indefinitely;

Whereas, notice inviting public comment was given in the FEDERAL REGISTER on August 3, 1978 (43 FR 34179), and no opposition has been expressed;

Whereas, the Area Director of Customs for the New York Seaport has given his clearance in a letter dated August 14, 1978;

Whereas, the Board has found that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby orders:

That the grantee is authorized to continue zone operations, pursuant to the Board's regulations, at its Brooklyn Navy Yard site for an indefinite period. The grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operation within the zone confines.

Signed at Washington, D.C. this 25th day of September 1978.

JAUNITA M. KREPS,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest: John J. DaPorte, *Executive Secretary, Foreign-Trade Zones Board.*

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Air Force Academy Board of Visitors has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Air Force Academy Board of Visitors are specified in Section 9355, U.S.C. 10. The statute requires the Board to inquire at least annually into the morale, discipline, curriculum, instruction, physical equipment, fiscal affairs, academic methods, and other matters relating to the Air Force Academy and to submit a written report to the President of its action, its views, and recommendation pertaining to the Academy. Membership on the Board is also specified by law as nine members of Congress and six Presidential appointees.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

AIR UNIVERSITY BOARD OF VISITORS

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Air University Board of Visitors has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs in its renewal. The nature and purpose of the Air Force University Board of Visitors are to consider and advise the Secretary of the Air Force, through the Commander, Air University, on matters pertaining to the educational, doctinal, and research policies and activities of Air University. The function of the board is solely advisory, and any determination of action to be taken on matters upon which the board advises or recommends shall be made solely by full-time salaried officers or employees of the Air Force.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

COMMUNITY COLLEGE OF THE AIR FORCE (CCAF) ADVISORY COMMITTEE

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Community College of the Air Force (CCAF) Advisory Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Community College of the Air Force Advisory Committee are to review the programs and objectives of the Community College of the Air Force and recommend policies through the Commander, Air Training Command, to the Secretary of the Air Force. The Committee provides an external source of expertise which insures continued reflection on CCAF operations and policies.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

USAF SCIENTIFIC ADVISORY BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the USAF Scientific Advisory Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the USAF Scientific Advisory Board are to provide a link between the Air Force and the Nation's scientific community by serving as a means of communicating the most recent scientific information as it applies to the Air Force. The Board was created to strengthen but not duplicate the work of the Air Force Systems Command, and all other Air Force activities that deal with science and technology. The Board reviews and evaluates long-range plans for research and development and provides advice on the adequacy of the Air Force program, recommends unusually promising scientific developments for selective Air Force emphasis and new scientific discoveries of techniques for practical application to weapon or support systems, makes a variety of studies designed to improve the Air Force research and development program, and

V 43 / 191 OCT 2 1978 UMI

serves as a pool of expert advisers to various Air Force activities.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

Department of the Army

ARMED FORCES EPIDEMIOLOGICAL BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Armed Forces Epidemiological Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Committee Management Secretariat, General Services Administration, has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Armed Forces Epidemiological Board is to serve as a continuing scientific advisory body to the Surgeons General of the military departments and the Assistant Secretary of Defense (Health Affairs) providing them with timely scientific and professional advice and guidance in matters pertaining to operational programs, policy development, and research needs for the prevention of disease and injury and the promotion of health by application of new technological and epidemiological principles to the control of acute and chronic diseases, the protection of the environment, the improvement of occupational health programs and the design of new systems of health maintenance.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

ARMY ADVISORY PANEL ON ROTC AFFAIRS

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Army Advisory Panel on ROTC Affairs has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The purpose of the Army Advisory Panel on ROTC Affairs is to provide a continuous exchange of views between the Department of the Army and educational institutions to improve the Army Senior ROTC program. The scope of activities include a continuous evaluation of recruiting, procurement, and training policies; and the problems related to maintaining an effective interface between the Army's ROTC program and the academic community. The specific intent of the Panel is to provide recommendations to the Department of the Army regarding the Senior ROTC program.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

BOARD OF VISITORS, THE JUDGE ADVOCATE GENERAL'S SCHOOL, U.S. ARMY

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Board of Visitors, the Judge Advocate General's School, U.S. Army, has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Board of Visitors, the Judge Advocate General's School, U.S. Army, is investigative and advisory. At the direction of the Commandant, the Board investigates matters pertaining to the program of instruction of the school. Subsequently, the Board reports its findings and makes its recommendations to the Commandant.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

CHIEF OF ENGINEERS ENVIRONMENTAL ADVISORY BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Chief of Engineers Environmental Advisory Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administrator has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Chief of Engineers Environmental Advisory Board is to:

(a) Ascertain environmental issues and problems we have overlooked within the context of plans, projects and programs;

(b) Provide advice aimed not only at alleviating or resolving past issues, but more importantly, at preventing problems arising in other projects or in general corps programs. That is, helping us to use experience gained in past problems to avoid future mistakes;

(c) Assist in developing a workable method for quantifying environmental costs and benefits so as to provide a practical means for comparison with the national economic efficiency objective;

(d) Continue to act as part of our change mechanism. Members should explore new directions where the corps acting as the national engineering agency can continue to solve not only technical problems but those of a social, economic, administrative, and environmental nature as well;

(e) Identify environmental consideration in probable new areas of corps involvement. Such areas include assistance to States in their efforts to conduct environmental inventories, urban studies, regional waste water treatment facilities, interbasin transfer of water, offshore deepwater ports, and dredge spoil disposal.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

COMMAND AND GENERAL STAFF COLLEGE ADVISORY COMMITTEE

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Command and General Staff College Advisory Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Command and General Staff College Advisory Committee is to advise the Commandant and faculty of the Command and General Staff College on ways to improve the CGSC educational program, especially its fully accredited Master of Military Art and Science (MMAS) degree program. The committee satisfies the accreditation prerequisite that there be established a civilian body which includes representation reflecting the public interest.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

U.S. ARMY COASTAL ENGINEERING RESEARCH BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the U.S. Army Coastal Engineering Research Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administrator has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the U.S. Army Coastal Engineering Research Board is: The CERB functions as an advisory board to the Chief of Engineers as provided by Pub. L. 88-172, dated November 7, 1963. The CERB meets semiannually, or at the call of the President to consider the coastal engineering research program of the Corps of Engineers. The CERB provides broad policy guidance and review of plans and fund requirements for the conduct of research and development in the field of coastal engineering; recommends priorities of accomplishment of research projects in consonance with the needs of the coastal engineering field and the objectives of the Chief of Engineers; and performs additional functions as assigned by the Chief of Engineers. The CERB membership is comprised of the Director of Civil Works (President), three division engineers of the corps, and three prominent coastal engineers from the academic community. The military members provide guidance on the needs of their respective divisions and the Corps of Engineers coastal engineering research needs in general. The civilian members provide technical guidance and bring to the CERB their broad experience and expertise in conducting and managing coastal engineering research programs.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

[3710-08]

U.S. ARMY MEDICAL RESEARCH AND DEVELOPMENT ADVISORY PANEL

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the U.S. Army Medical Research and Development Advisory Panel has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Committee Management Secretariat, General Services Administration, has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the U.S. Army Medical Research and Development Advisory Panel is to advise the Commanding General, U.S. Army Medical Research and Development Command (USAMRDC), on scientific and technological aspects of the U.S. Army medical research and development program, which includes as its objectives:

(1) Improved care of combat wounded; (2) prevention and treatment of infectious diseases of military importance; (3) enhancement of military performance; (4) reduction of military environmental hazards; and (5) other medical research problems as requested by the Commanding General, USAMRDC.

MAURICE W. ROCHE,

[3710-08]

WINTER NAVIGATION BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Winter Navigation Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administrator has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Winter Navigation Board is the management, coordination and reporting of the winter navigation demonstration program authorized by Pub. L. 91-611, section 107b, as amended by Pub. L. 93-251 and Pub. L. 94-587 to demonstrate the practicability of extending the shipping season on the Great Lakes-St. Lawrence Seaway System. The winter navigation demonstration program is a comprehensive multiagency and industry effort, uniting missions and expertise in an operating demonstration. The authorizing legislation provided for mandatory cooperation in carrying out the program. The winter activities program involves critical, recurring, requirements relative to timing, funding, and priorities, most effectively accomplished by a coordinating committee of agency heads.

This coordinated funding and planning mission of the Winter Navigation Board has made possible an earlier accomplishment of program objectives and recommendations to the Congress, than could have been otherwise achieved.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

COASTAL ENGINEERING RESEARCH BOARD

Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Coastal Engineering Research Board to be held on October 23-25, 1978.

The meeting will be held in Room 1324, U.S. Army Engineer Division, South Pacific, 630 Sansome Street, San Francisco, Calif., from 0820 hours to 1700 hours on October 23, and from 0820 to 1100 hours on October 25, 1978. The entire day of October 24 will be devoted to an aerial inspection of various projects in the South Pacific Division.

The October 23 session will be devoted to a report on action items from previous meeting; recent coastal engineering activities in the North Central Division; status of the wave information study; update on California wave data collection program; California shore processes, SPL coastal model studies—Imperial Beach and Oceanside Beach; Santa Cruz Harbor sand bypassing system; Southwest ocean outfall project—city and county of San Francisco, Alameda SEAP demonstration site; and a briefing on the field trip.

The October 25 session will be devoted to CERB discussion of field inspection trip; nearshore sediment transport study; update 5-year coastal engineering research program; and CERB recommendations.

Participation by the public is scheduled for 1000 hours on October 25. The meeting will be open to the public subject to the following limitations:

a. As the seating capacity of the conference room is limited, it is desired that advance notice of intent to attend be provided. This will assure adequate and appropriate arrangements for all attendants.

b. Written statements, to be made a part of the minutes, may be submitted prior to, or up to 30 days following the meeting, but oral participation by the public is limited because of the time schedule. Inquiries may be addressed to Col. John H. Cousins, Executive Secretary, U.S. Army Coastal Engineering Research Board, Kingman Building, Fort Belvoir, Va. 22060, telephone 325-7000.

Dated: September 26, 1978.

By authority of the Secretary of the Army.

ROME D. SMYTH,
Colonel, U.S. Army, Director, Administrative Management, TAGCEN.

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Department of Defense Wage Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the DOD Wage Committee is to make recommendations regarding wage surveys and wage schedules for blue collar employees to the Department of Defense Wage Fixing Authority to discharge the responsibilities assigned by Pub. L. 92-392 to the Civil Service Commission, as set forth in Federal Personnel Manual Supplements 532-1 and 532-2, "Federal Wage System." The Department of Defense has "lead agency" responsibility for setting wage rates in approximately 255 of the approximately 278 wage areas established under the Federal Wage System.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

DOD ADVISORY GROUP ON ELECTRON DEVICES

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the DOD Advisory Group on Electron Devices has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the DOD Advisory Group on Electron Devices is to provide technical advice which will assist the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency, and the Military Departments in planning and directing adequate and economical research and development programs in the area of electron devices.

MAURICE W. ROCHE,
Correspondence and Directives, Washington Headquarters Service, Department of Defense.

DEFENSE SCIENCE BOARD

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Defense Science Board has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Defense Science Board is to serve as an advisory committee to the Secretary of Defense, reporting through the Under Secretary of Defense for Research and Engineering on scientific, technical and related management matters of particular interest to the Department of Defense. Comprised of a balanced membership of senior appointees representing the industrial, academic and scientific communities, the Board undertakes to analyze and recommend concerning specific issues and problems tasked to it by the Secretary of Defense or the Under Secretary of Defense for Research and Engineering, or other senior officials of the Department of Defense. Additionally, it examines and provides guidance concerning other important subject areas on an ad-hoc basis as such matters are surfaced during the normal course of conduct of the Board's proceedings.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

BOARD OF VISITORS FOR THE NATIONAL DEFENSE UNIVERSITY AND THE DEFENSE INTELLIGENCE SCHOOL

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Board of Visitors for the National Defense University and the Defense Intelligence School has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal. The nature and purpose of the Board of Visitors for the National Defense University and the Defense Intelligence School is to provide advice to the President, NDU, and Director of the Defense Intelligence Agency and the Commandants of The National War College, Industrial College of the Armed Forces, and the Defense Intelligence School on matters relating to mission, policy, faculty, students, curricula, educational methodology, research, and administration for both resident and non-resident programs.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

JOINT STRATEGIC TARGET PLANNING STAFF (JSTPS) SCIENTIFIC ADVISORY GROUP (SAG)

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Joint Strategic Target Planning Staff (JSTPS) Scientific Advisory Group (SAG) has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the JSTPS SAG is that of a continuing advisory committee which provides scientific and technical advice to the Director of Strategic Target Planning (DSTP) to enhance JSTPS planning in such areas as:

1. Developing procedures and techniques to reduce the vulnerability of U.S. weapon systems within the scope of JSTPS responsibilities in this area.
2. Assessing the use of nuclear weapons effects to improve the effectiveness of the offense.
3. Developing procedures and techniques to improve penetration of the enemy defenses.
4. Identifying technical areas in which additional reasearch and test could lead to knowledge having a direct bearing upon the development of the Single Integrated Operational Plan (SIOP).

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Chief of Naval Operations Executive Panel Advisory Committee are as follows: The Chief of Naval Operations Executive Panel Advisory Committee is established to provide an avenue of communications by which the civilian and military, scientific, academic, engineering and political communities may advise the CNO on questions related to national seapower. In connection therewith, subcommittees composed of Committee members may be formed according to specific areas of interest to the CNO. The functions of the Committee are purely advisory in nature. Material brought before the Committee or Sub-Panels is deter-

NAVAL RESEARCH ADVISORY COMMITTEE

Renewal

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Naval Research Advisory Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The General Services Administration has also reviewed the justification for this advisory committee and concurs with its renewal.

The nature and purpose of the Naval Research Advisory Committee is to know problems of the Navy and the Marine Corps, to keep abreast of the research and development which is being carried on in relation to the problems, and to offer a judgment to the Navy and Marine Corps as to whether the efforts are adequate. The activities of the committee are limited to serving solely in an advisory capacity to the Secretary of the Navy and other high-ranking personnel of the Navy and Marine Corps. The committee is the senior scientific advisory group to the Secretary of the Navy, the Chief of Naval Operations, the Chief of Naval Research, the Commandant of the Marine Corps, the Chief of Naval Development, and the Director of Navy Laboratories.

DEPARTMENT OF ENERGY

Bonneville Power Administration

[DOE/EIS-0030-D]

PROPOSED FISCAL YEAR 1980 PROGRAM

Availability of Draft Environmental Impact Statement

Notice is hereby given that the Bonneville Power Administration (BPA), Department of Energy (DOE), has issued a draft environmental impact statement, proposed fiscal year 1980 program. This environmental impact statement is issued pursuant to DOE's implementation of the National Environmental Policy Act of 1969. This statement was prepared to assess the anticipated environmental impacts that may be associated with the construction and maintenance program proposed by BPA for fiscal year 1980.

Copies of the draft environmental impact statement are available for public inspection at designated Federal depositories (for locations, contact the Environmental Manager, BPA, P.O. Box 3621, Portland, Oreg. 97208) and at DOE public document rooms located at:

Library, DOE, Room 1223, 20 Massachusetts Avenue NW., Washington, D.C.
BPA, Washington, D.C. Office, Interior Building, 18th and C Streets NW., Washington, D.C.
Library, BPA Headquarters, 1002 Northeast Holladay Street, Portland, Oreg.

And in the following BPA area and district offices:

Eugene District Office, U.S. Federal Building, 211 East 7th Street, room 206, Eugene, Oreg.
Idaho Falls District Office, 531 Lomax Street, Idaho Falls, Idaho.
Kalispell District Office, Highway 2 (east of Kalispell), Kalispell, Mont.
Portland Area Office, Lloyd Plaza Building, 919 Northeast 19th Avenue, Room 210, Portland, Oreg.
Seattle Area Office, 415 First Avenue North, Room 250, Seattle, Wash.
Spokane Area Office, U.S. Court House, Room 561, West 920 Riverside Avenue, Spokane, Wash.
Walla Walla Area Office, West 101 Poplar, Walla Walla, Wash.
Wenatchee District Office, U.S. Federal Building, Room 314, 301 Yakima Street, Wenatchee, Wash.

This document is being furnished to various Federal, State, and local agencies with environmental expertise, or which are otherwise likely to be interested in, or affected by, the proposed program. Copies of the document are also being furnished to State and local clearinghouses and to other interested groups and individuals.

A limited number of single copies are available for distribution by contacting the Environmental Manager, Bonneville Power Administration, P.O. Box 3621, Portland, Oreg. 97208; the BPA area and district offices mentioned above.

Dated at Washington, D.C. this 27th day of September 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

Economic Regulatory Administration

[ERA Docket No. IE-78-10; ERA Docket No. IE-78-11]

NIAGARA MOHAWK POWER CORP.

Tariff Filing

On August 16, 1978, Niagara Mohawk Power Corp. (Niagara) tendered for filing in ERA Docket No. IE-78-10, proposed changes in Service Classification G-1 of its Export Rate Schedule FPC No. 4. The proposed changes would increase revenues from jurisdictional sales and service by $8,422 based on the 12-month period ending June 14, 1978.

The increase is necessary to make the charges contained in the Service Classification G-1 comparable to Niagara's other rates charged to customers who have requirements of the magnitude similar to those served by this tariff.

Copies of the filing have been served upon the Quebec Hydro-Electric Commission, the only customer presently served under this tariff.

On August 16, 1978, Niagara also tendered for filing in ERA Docket No. IE-78-11, proposed changes in Service Classification H-1 to be used to supply power and energy to the St. Lawrence Power Co., located in Cornwall, Ontario, Canada. The proposed change would increase revenues from jurisdictional sales and service by $6,624 based on the 1978-79 billing period.

The rates contained in Service Classification H-1 are comparable to Niagara's other rates charged to customers who have requirements of a magnitude similar to those served by this tariff.

Copies of the filing have been served on St. Lawrence Power Co., the only customer presently proposed to be served under this tariff, and upon the Public Service Commission of the State of New York, Empire State Plaza, Albany, N.Y. 12223. A certificate of concurrence dated September 1, 1978, accepting these rates has been received from St. Lawrence Power Co.

Any person desiring to be heard or to protest said applications should file a petition to intervene or protest with the chief, Systems Reliability and Emergency Response, Economic Regulatory Administration, 2000 M Street NW., Room 538, Vanguard Building, Washington, D.C. 20461 in accordance with paragraphs 1.8 and 1.10 of the Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 6, 1978. Protests will be considered by ERA in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with ERA and are available upon request for public inspection and copying at the ERA Docket Room, Room B-120, 2000 M Street NW., Washington, D.C.

Dated: September 25, 1978.

DOUGLAS C. BAUER,
Assistant Administrator for Utility Systems, Economic Regulatory Administration.

Federal Energy Regulatory Commission

[Docket Nos. TC78-5]

ALABAMA-TENNESSEE NATURAL GAS CO., ET AL

Notice of Availability

SEPTEMBER 20, 1978.

On May 31, 1978, the Commission issued an order instituting the above-styled proceedings in order to accumulate sufficient information to evaluate the impact of natural gas shortages on interstate pipeline companies during the course of the 1978-79 winter-heating season. Ordering paragraph (E) of the aforementioned order required that the Commission Staff provide the Federal Energy Regulatory Commission on September 18, 1978, a report analyzing the information obtained as a result of the above-styled proceedings.

Pursuant to the aforementioned ordering paragraph, the Commission Staff has prepared and submitted to the Commission a report analyzing and evaluating the impact that anticipated natural gas shortages will have upon the interstate pipelines in the above-styled proceedings. Copies of this report will be available to the general public in the Federal Energy Regulatory Commission's Office of Public Information, 825 North Capitol NE., Room No. 1000, Washington, D.C. 20426.

[Docket No. EL78-35]

CITY OF RENSSELAER, IND.

Notice of Proposed Physical Interconnection

SEPTEMBER 21, 1978.

Take notice that on August 25, 1978, the city of Rensselaer, Indiana. (Rensselaer) tendered for filing an Application for an order directing Northern

V 43 / 191

Ind. Public Service Co. (NIPSCO) to establish a physical interconnection of its existing 69 Kv transmission facilities under section 202(b) of the Federal Power Act. Rensselaer states that such an order is necessary in order that Rennsselaer, which currently operates in isolation, can connect its facilities with those of NIPSCO, the nearest neighboring utility system, so as to assure a more reliable supply of electric power to the citizens of Rensselaer.

Rensselaer further states that this filing is being filed at the direction of the Economic Regulatory Administration which has determined that such a permanent interconnection is in the public interest, and in the event an agreement could not be reached with NIPSCO.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 16, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-512]

COLORADO INTERSTATE GAS CO.

Notice of Application

SEPTEMBER 21, 1978.

Take notice that on September 7, 1978, Colorado Interstate Gas Co. (Applicant), Post Office Box 1087, Colorado Springs, Colo. 80944, filed in Docket No. CP78-512 an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the Commission's Regulations under the act (18 CFR 157.7(b)) for a certificate of public convenience and necessity for authority to construct during a 12-month period beginning January 1, 1979, and to operate thereafter, natural gas facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased or received from producers or other similar sellers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to construct during a 12-month period commencing January 1, 1979, and to operate thereafter, various gas purchase facilities for the connection of additional supplies of natural gas. These facilities are to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting new supplies of gas to its system and/or the system of another company authorized to transport gas for the account of, or exchange gas with Applicant.

It is stated that the proposed facilities would not exceed $6,900,000, and no single project would exceed $1,500,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-502]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Application

SEPTEMBER 21, 1978.

Take notice that on September 1, 1978, Consolidated Gas Supply Corp. (Applicant), 445 West Main Street, Clarksburg, W. Va. 26301, filed in Docket No. CP78-502 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain compression and pipeline facilities in Kanawha County, W. Va. for the purpose of assisting Applicant to receive quantities of liquefied natural gas (LNG) which its affiliate, Consolidated System LNG Co. (Consolidated LNG) is proposing to import from Iran beginning in 1983, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it is seeking authorization to construct and operate (1) an additional 5,400 horsepower at its Cornwell Compressor Station, Kanawha County, W. Va.; (2) approximately 1.9 miles of 20-inch pipeline extending from Cornwell Station to a connection to be made with Columbia gas Transmission Corp.'s pipeline facilities; (3) heating, regulating, and other miscellaneous facilities. The proposal facilities are in conjunction with Consolidated LNG's proposed to import gas from Iran, it is said. It is indicated that the proposed facilities are designed to receive up to 150,000 dekatherms equivalent of natural gas per day and would cost an estimated $5,879,182.

Applicant states that Consolidated LNG and Columbia LNG Co. have filed a joint application with the Economic Regulatory Administration at Docket No. ERA-78-004-LNG for authorization pursuant to Section 3 of the Natural Gas Act and sections 301 and 402 of the Department of Energy Organization Act, to import from Iran 120,000,000 million Btu's of LNG annually. Of the total annual quantity to be imported, Consolidated LNG is to purchase and import 50,000,000 Btu's, it is said.

It is indicated that Consolidated LNG and Columbia Gas Transmission Corp. are concurrently filing applications with the Commission pursuant to section 7 of the Natural Gas Act for authorizations to transport and sell the volumes proposed for importation.

Applicant states that the proposed construction would commence at the beginning of the 1982 construction season but that, pursuant to the terms of Consolidated LNG's purchase agreement with the National Iranian Gas Co. (NIGC), a final decision on this application would be required by December 31, 1978, in order to take advantage of a fixed price provision in NIGC's contract with Moss Rosenburg Verft, which would construct the liquefaction facilities for NIGC.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commisssion or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27705 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. CP 78-503]

CONSOLIDATED SYSTEM LNG CO.

Notice of Application

SEPTEMBER 21, 1978.

Take notice that on September 1, 1978, Consolidated System LNG Co. (Applicant), 445 West Main Street, Clarksburg, W.V. 26301 filed in Docket No. CP78-503 an application pursuant to section 7(c) of the Natural Gas Act for a cetificate of public convenience and necessity for the transportation and sale of natural gas which Applicant proposes to import from Iran to its affiliate, Consolidated Gas Supply Corp. (Supply Corporation), all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that Applicant has entered into an agreement with National Iranian Gas Co. (NIGC) under which NIGC would sell and Applicant would purchase an annual contract quantity (ACQ) of 50,000 million Btu's of LNG F.O.B. ship's rail at Kangan, Iran, for a term of twenty (20) years after an initial buildup period. Applicant, in this application, proposes to sell these volumes to Supply Corporation, under the form of cost-of-service tariff previously approved for its Algerian LNG importation at Docket Nos. CP71-68, et al., it is said.

Applicant states that it would arrange shipping to the existing LNG terminal facility at Cove Point, Md. It is indicated that the ACQ quantities to be purchased by Applicant would, after ocean transportation, average approximately 120,000 dekatherms per day delivered at Cove Point.

Applicant indicates that it has filed an application with the Economic Regulatory Administration of the Department of Energy, at Docket No. ERA78-004-LNG under section 3 of the Natural Gas Act and sections 301 and 402 of the Department of Energy Organization Act for authorization to import LNG from Iran. It is further indicated that under the contract with NIGC, the sales price in the first year of full deliveries would be an estimated $1.81 per million Btu's; the average transportation cost to Cove Point would be approximately $2 per million Btu's; initial deliveries would commence in 1983.

Applicant proposes to terminal, store and regasify the LNG at the existing terminal in Cove Point, Md., and transport the regasified LNG through it existing pipeline to Columbia Gas Transmission Corp. at Loudon County, Va. for transportation and delivery to Supply Corporation in Kanawha County, W.V., at a new connection to be made between the latter companies' facilities.

Applicant states that the estimated cost of this LNG to Supply Corporation in the first year of full deliveries, including transportation, would be approximately $4.42 per million Btu's and that the impact on the total gas purchase costs of Supply Corporation in that year would be 16.26¢ per million Btu's.

Applicant asserts that the volumes of LNG which it proposes to transport and sell are necessary to meet high priority requirements and to alleviate the gas supply deficiency projected by Supply Corporation.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commisson's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. RI78-31]

DAVID A SCHLACHTER, OIL & GAS

Amended Petition for Special Relief

SEPTEMBER 21, 1978.

Take notice that on July 21, 1978, David A. Schlachter, Oil & Gas (Petitioner) P.O. Box 8278, Dallas, Tex. 75205, filed an amended petition for special relief in Docket No. RI78-31. On February 9, 1978, petitioner filed its original petition for special relief, which was noticed on March 1, 1978, requesting authorization to charge $1.70 per Mcf for the sale of its gas to United Gas Pipe Line Co. from the B.

OCT 2 1978

V 43/191

C. Dorsey Well located in the Henderson Field, Rusk County, Tex. In its amended petition for special relief petitioner seeks approval to charge the reduced rate of $1.44 per Mcf for the sale of its gas to the above-named purchaser from the above-named well.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27707 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. CP77-289 [1]]

EL PASO NATURAL GAS CO.

Amendment to Application and Petition To Amend Order

SEPTEMBER 21, 1978.

Take notice that on August 30, 1978, El Paso Natural Gas Co. (Applicant), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP77-289 an amendment to its application and a petition to amend the order of July 3, 1978 issued by the Commission in the instant docket pursuant to section 7(c) of the Natural Gas Act so as to provide for the extension and amendment of the Clay Basin Interim Storage arrangements designed for the preservation of a portion of the payback gas to which certain of Applicant's east-of-California ("EOC") customers are entitled under the Commission's Opinion No. 800-B issued December 30, 1977, all as more fully set forth in the amendment and petition on file with the Commission and open to public inspection.

It is indicated that by order issued September 30, 1977, in Mountain Fuel Resources, Inc., et al., Docket No. CP76-285, et al., Applicant and other parties received temporary certificate authorization for the interim utilization of a portion of the Clay Basin Storage Field located in Daggett County, Utah, for the protection of service to Applicant's EOC customers' Priority 1 and 2 requirements through December 31, 1979. Thereafter, the parties to the Clay Basin Interim Storage Arrangements entered into various agreements and made appropriate filings necessary to extend the term of such arrangements whereby protection could be afforded to the Priority 1 and 2 requirements of Applicant's EOC customers for a further period extending through September 30, 1980, it is said. Applicant states that by order issued July 3, 1978 in Mountain Fuel Resources, Inc., et al., docket Nos. CP76-285, et al., it received temporary authorization for its part of the extended Clay Basin Interim Storage Arrangements.

Applicant indicates that in Opinion No. 800-B, the Commission Approved Applicant's proposal to restore to certain of its EOC customers certain volumes of natural gas. Applicant states that in order to facilitate prompt restoration to certain of its EOC customers of the remaining volumes of payback gas to which they are entitled, Applicant has filed concurrent with this amendment an application for authorization of transportation and delivery of payback quantities in which all payback quantities would be delivered by the end of February 1979.

It is indicated that Southwest Gas Corp. (Southwest) has advised Applicant that it desires to use a portion of the payback gas to which it is entitled after February 1979 and would like to store these volumes for its use. It is further indicated that in order to accommodate Southwest, Clay Basin Storage Co. (Storage Company) and Applicant have agreed to enter into a Letter Agreement amending the Clay Basin Interim Storage Arrangements (Applicant's FERC Gas Tariff Rate Schedule X-40) which would permit the preservation, on an interim basis, through September 30, 1980, of a portion of the payback gas to which Southwest is entitled. Additionally, Applicant, Storage Company, and Southwest have agreed to enter into a Letter Agreement whereby Applicant would sell to Storage Company and deliver to Northwest Pipeline Corp. (Northwest) for Storage Company's account, those quantities of payback gas to be stored for Southwest, it is stated. Applicant says that Northwest would then transport such quantities to the Clay Basin Storage Field, located in Daggett County, Utah, where such gas would be delivered to Mountain Fuel Resources, Inc. for injection into the field for Storage Company's account. The gas would be held in storage until Southwest calls for equivalent quantities, but not before September 30, 1980, it is indicated. Applicant states that the return of such stored payback gas to Southwest would be accomplished by essentially reversing the above described delivery procedures.

Applicant indicates that its deliveries of payback gas to Southwest for Storage Company's account would be made at Southwest's request and without regard to the priority classification of the end-use requirements which such gas may be used to serve, but that such deliveries to Southwest on any day would be subject to the prior use of the Clay Basin arrangements to make gas available on that day for protection of service to the priority 1 and 2 requirements of Applicant's EOC customers.

Applicant states that it would sell the payback gas for storage to Storage Company at Applicant's then-current Rate Schedule G rate and that Storage Company would sell such returned payback gas to Southwest at a rate equivalent to the rate in effect for Applicant's sales of gas to Southwest, at the time and place of delivery, with any difference between the cost of such gas to Storage Company and the proceeds of its sale to Southwest to be reflected as a credit or debit, as the case may be, in the calculation of the surcharge.

Any person desiring to be heard or to make any protest with reference to said amendment and petition to amend should on or before October 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27708 Filed 9-29-78; 8:45 am]

[1] The lead docket in this proceeding is CP76-285. The Commission orders in this proceeding which are referred to in this notice were issued under the lead docket.

[6740-02]

[Docket No. RP72-140

GREAT LAKES GAS TRANSMISSION

Proposed Changes in PGA Gas Tariff Under Purchased Gas Adjustment Clause Provisions

SEPTEMBER 20, 1978.

Take notice that Great Lakes Gas Transmission Co. (Great Lakes), on September 15, 1978, tendered for filing Twenty-Eighth Revised Sheet No. 57, to its FPC Gas Tariff, First Revised Volume No. 1, proposed to be effective November 1, 1978.

Great Lakes states that the revised purchased gas cost adjustment reflects a reduction in the cost of gas purchased from TransCanada PipeLines Limited, its sole supplier of natural gas, as a result of a decrease in the Btu content of gas.

In addition, the revised tariff sheet reflects a purchased gas cost surcharge resulting from maintaining an unrecovered purchased gas cost account for the period commencing March 1, 1978, and ending August 31, 1978.

Great Lakes also states that copies of this filing have been served upon its customers and the Public Service Commissions of Minnesota, Wisconsin, and Michigan.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules and practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 29, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27709 Filed 9-29-78; 8:45 am]

[6740-02]

[Project No. 2848]

IDAHO POWER CO.

Application for Preliminary Permit

SEPTEMBER 21, 1978.

Public notice is hereby given that an application for a preliminary permit was filed on April 13, 1978, under the Federal Power Act (16 U.S.C. 791a-825r), by Idaho Power Co. (Applicant) (Correspondence to: Lee S. Sherline, Leighton & Sherline, Suite 406, 1701 K Street NW., Washington, D.C. 20006; and Idaho Power Co., P.O. Box 70, Boise, Idaho 83721) for the proposed Cascade Project, FERC Project No. 2848. The proposed project would be located on the North Fork Payette River in the County of Valley, Idaho, approximately 1 mile north of the town of Cascade.

The proposed project would have a total installed capacity of 12,800 kW. The project would be located 200 feet downstream of the existing U.S. Bureau of Reclamation (USBR). Cascade Dam and Reservoir and would utilize waters released from the reservoir at elevations between 4,828.0 feet msl and 4,800.0 feet msl

The proposed project would consist of: (a) a 12-foot diameter steel penstock, approximately 100 feet long, connecting the USBR's existing outlet tunnel to the powerhouse; (b) a concrete powerhouse, located on the north bank of the river, containing two semi-outdoor-type generating units; and (c) stepup transformer and switching structures adjacent to the powerhouse.

According to the application, energy generated by the proposed project would be integrated into Idaho Power Co.'s interconnected transmission system for sale to its customers in the States of Idaho, Oregon, Nevada, and Wyoming.

A preliminary permit does not authorize the construction of a project. A permit, if issued, gives the permittee, during the period of the permit, the right of priority of application for license while the permittee undertakes the necessary studies and examinations to determine the engineering and economic feasibility of the proposed project, the market for the power, and all other necessary information for inclusion in an application for a license.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR 1.8 or 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any protest or petition to intervene must be filed on or before November 27, 1978. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27710 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. RP78-86]

KASKASKIA GAS CO., ET AL. COMPLAINANT PETITIONERS v. TRUNKLINE GAS CO., RESPONDENT

Complaint and Petition for Relief

SEPTEMBER 21, 1978.

Take notice that on August 30, 1978, Kaskaskia Gas Co. (Kaskaskia), the villages of Cisne, Louisville, and Wayne City, Ill., and the cities of Fairfield, McLeansboro, and Vienna, Ill., complainant petitioners (petitioners), filed a petition, pursuant to the provisions of the Natural Gas Act, for relief from certain restrictions imposed under the FERC gas tariff of Trunkline Gas Co, (Trunkline).

Petitioners state that Kaskaskia purchases its total natural gas supply for the community of Xenia and all other petitioners their entire requirements from Trunkline, and allege that they are precluded from attaching new loads because of the provisions of § 17.5(b)(2)(i)(a) of the general terms and conditions of Trunkline's FERC gas tariff while other classes of Trunkline's customers are not subject to such restrictions, resulting in discrimination and financial hardship. Petitioners further allege that because of heavy temperature sensitive loads with little or no system flexibility they cannot add new customers and thus risk not meeting the conditions of § 17.5(b)(2)(i)(a) for exemption from the $10 per Mcf overrun penalty for volumes taken in excess of Trunkline's curtailment orders. They claim to have not been attaching any new Priority 1 loads even though they have sufficient peak day gas volume capabilities to serve new residential and small commercial cutomers. According to petitioners, many of the larger customers of Trunkline have been connecting new customers with little or no restriction as to the type of load attached.

Petitioners etimate that during the first year they would add 174 new customers with annual requirements of 27,575 Mcf, representing about 0.0124 percent of Trunkline's annual deliveries.

It is requested that Trunkline be directed to amend § 17.5(b)(2)(i)(a) of its tariff to read "(i) In the case of a Small General Service Buyer which did not exceed its Contract Demand if such Buyer certifies that (a) it did not subsequent to September 1, 1978

OCT 2 1978 UMI

V 4 3 / 1 9 1

attach or supply any new gas usage within opinion No. 467-B for priorities 2 through 9 and (b) it did not subsequent to November 1, 1976, supply during the billing month any gas for boiler fuel to a customer using 50 Mcf or more per day or for electric power generation." Petitioners also request permission to connect new priority 1 customers within their applicable daily contract demands.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. OR78-11; ICC Docket No. 36553]

KERR-MCGEE REFINING CORP. v. TEXOMA PIPE LINE CO., ET AL.

Order Setting Complaint for Investigation

SEPTEMBER 25, 1978.

Kerr-McGee Refining Corp. (Kerr-McGee) filed a complaint on March 14, 1977 with the Interstate Commerce Commission alleging that Texoma Pipe Line Co. (Texoma) and Vickers Pipeline Co., Inc. (VPL) had violated sections 1 (6), 2, 3(1) and 6(7) of the Interstate Commerce Act (act) (49 U.S.C. 1, et seq.)[1]

Kerr-McGee alleges that Texoma violates sections 2 and 3(1) of the act by charging it a transportation rate 4 cents per barrel higher than the rate charged VPL for the same movement.

Kerr-McGee also argues that because VPL receives a division of the joint rate collected by defendants, Vickers actually pays less than the published rate and that this is a violation of section 6(7) and section 1(8) of the act. On April 26, 1977 Texoma and VPL filed an answer and a motion to dismiss the complaint. On April 29, 1977, Kerr-McGee filed a request for admissions.

Defendants' motion and Kerr-McGee's request were denied by ICC order issued July 1, 1977. On July 11, 1977, the ICC ordered that the proceeding be handled under the modified procedure (49 CFR 1100.43-52), and directed complainant to file its opening statement of facts and argument by August 1, 1977. On July 29, 1977, counsel for complainant informally requested a 30-day extension for filing its opening statement for the purpose of further discovery. On August 1, 1977, complainant filed a petition for reconsideration of the ICC's July 1, 1977 order.

In an order issued August 4, 1977, the ICC vacated its July 11, 1977, order and found that the July 1, 1977 order may need further clarification. No further action was taken by the ICC. This proceeding was transferred to FERC in a procedurally dormant state.

Section 13(1) of the Act (49 U.S.C. 13(1)) gives FERC the authority to institute investigations on its own initiative. Based on these authorities we herein act to revitalize this proceeding.

The ICC's modified procedure is used as an alternative to a hearing before an Administrative Law Judge. It is appropriate in instances in which issues of material fact may be resolved by means of written materials and in which efficient disposition of the proceeding can be made without oral hearing.

Considering the complexity of the factual issues presented here, we believe an oral hearing is the best vehicle for a fair and full adjudication of these issues. Further, under this procedure, the parties have the right to petition the full Commission for review of the Administrative Law Judge's initial decision.

The Commission orders:

(A) Pursuant to the authority of section 13(1) of the Interstate Commerce Act (49 U.S.C. 13(1)), an investigation by this Commission shall be instituted and a public hearing shall be held concerning the allegations contained in the complaint filed with the ICC on March 14, 1977.

(B) Kerr-McGee shall file its case-in-chief within 45 days of the issuance of this order. Texoma and VPL shall file their evidence within 45 days of Kerr-McGee's filing. Finally, staff shall file its case within 30 days of the Texoma and VPL filing.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, shall convene a prehearing conference within 30 days of the filing of testimony as provided in paragraph (B) in a hearing or conference room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. The Presiding Administrative Law Judge is authorized to establish such further procedural dates as may be necessary and to rule on all motions (except motions to consolidate, sever or dismiss) as provided for in the Interstate Commerce Commission's rules of practice and procedure (49 CFR part 1100).

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-514]

NORTHERN NATURAL GAS CO.

Notice of Application

SEPTEMBER 21, 1978.

Take notice that on September 11, 1978, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP78-514, an application pursuant to section 7 of the Natural Gas Act and § 157.7(c) of the regulations thereunder (18 CFR 157.7(c)), for a certificate of public convenience and necessity, authorizing the construction during the calendar year 1979 and operation of facilities to make miscellaneous rearrangements on its system and also for authorization pursuant to § 157.7(e) of the regulations (18 CFR 157.7(e)), permitting and approving the abandoment of service and removal of direct sales measuring, regulating, and related minor facilities during calendar year 1979, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of the § 157.7(c) application is to augment applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the service presently rendered by applicant.

Applicant states that the total cost of the proposed facilities would not exceed $300,000 for the calendar year.

The stated purpose of the § 157.7(e) application is to augment applicant's ability to act with reasonable dispatch in abandoning service and remaining direct sales measuring, regulating, and related facilities. Applicant states that it would abandon service and facilities only when deliveries to any one direct sales customer would not have exceeded 100,000 Mcf of natural gas during the last year of service.

The application further states that applicant would not abandon any service unless it would have received a written request or written permission from the customer to terminate service. In the event such request or permission could not be obtained, a statement certifying that the customer has no further need for service would be filed, it is said.

Any person desiring to be heard or to make any protest with reference to said application should, on or before October 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27713 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. RP73-91 (PGA78-4)]

McCULLOCH INTERSTATE GAS CORP.

Notice of PGA Rate Increase

SEPTEMBER 20, 1978.

Take notice that on August 15, 1978, McCulloch Interstate Gas Corp. ("McCulloch Interstate") tendered for filing copies of Fifteenth Revised Sheets No. 32 to its FPC Gas Tariff Original Volume No. 1, as required under the Commission's Rules and Regulations under the Natural Gas Act.

McCulloch Interstate's two Fifteenth Revised Sheets No. 32 provide in the alternative for Purchase Gas Adjustment rate increases of:

(1) 357.12¢ per MMBtu effective October 1, 1978, and

(2) 54.51¢ per MMBtu effective October 1, 1978.

McCulloch Interstate's filings are made in order to: (1) provide for a current gas cost adjustment to permit McCulloch to reflect the higher cost of gas purchases which it is currently incurring (Table II); and (2) in the first alternative to recover the balance in McCulloch Interstate's Unrecovered Purchased Gas Cost Account as of March 31, 1977, and March 31, 1978, or in the second alternative to recover the net balance in McCulloch Interstate's Unrecovered Purchased Gas Cost Account as of March 31, 1977, and March 31, 1978, and as of September 30, 1976, and September 30, 1977 (Table III first and second alternatives).

Any person desiring to be heard or to protest said filing should file a petition to or intervene protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petititons or protests should be filed on or before September 29, 1978. Protests will be considered to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27714 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. RI78-46]

McKelvy Oil Co.

Amended Petition for Special Relief

SEPTEMBER 20, 1978.

Take notice that on August 18, 1978, McKelvy Oil Co. (Petitioner), 48 Lloyden Drive, Atherton, Calif. 94025, filed an amended petition for special relief in Docket No. RI78-46. On June 9, 1978, petitioner filed its original petition for special relief, which was noticed on May 31, 1978, requesting authorization to charge $1.50 per Mcf for sale of gas to Cities Sevice Gas Co. from the Harms No. 6 unit, the Biernacki No. 16 unit, and Spikes No. 29 unit, all located in the Hugoton Field, Finney County, Kans. In its amended petition for special relief, petitioner seeks authorization to charge the reduced rates of 65.71 cents per Mcf for gas produced from the Harms No. 6 unit, 86.34 cents per Mcf for gas from the Biernacki No. 16 unit, and 35.73 cents per Mcf for gas produced from the Spikes No. 29 unit.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervewne or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-110]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

SEPTEMBER 25, 1978.

Take notice that Algonquin Gas Transmission Co. (Algonquin) on September 11, 1978, tendered for filing 44th Revised Sheet No. 10 to its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin states that this sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in section 17 of the General Terms and Conditions of its FERC Gas Tariff, First Revised Volume No. 1 and that the rate change is being filed to reflect an increase in purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corp. (Texas Eastern), scheduled to be effective October 1, 1978, as a result of a general rate increase filed by Texas Eastern on August 31, 1978, in Docket No. RP78-87.

The proposed effective date of the revised tariff sheet is October 1, 1978,

[1] This proceeding was commenced before the ICC. By the joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission", when used in the context of action taken prior to Oct. 1, 1977, refers to the ICC; when used otherwise, the reference is to the FERC.

OCT 2 1978

V 43/191

the scheduled effective date of Texas Eastern's rate increase.

A copy of this filing is being served upon all affected parties and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 2, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intevene. Copies of this filing are on file with the Commission and are available for public inspection.

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant To Purchased Gas Cost Adjustment Provision

SEPTEMBER 25, 1978.

Take notice that Algonquin Gas Transmission Co. (Algonquin Gas) on September 15, 1978, tendered for filing Second Revised 42nd Revised Sheet No. 10 to its FERC Gas Tariff, First Revised Volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost adjustment Provision set forth in section 17 of the General Terms and Conditions of its FERC Gas Tariff, First Revised Volume No. 1. The rate change proposed to be effective August 9, 1978, is being filed to reflect a change in purchased gas costs filed by its pipeline supplier, Texas Eastern Transmission Corp., under its Second Revised Forty-second Revised Sheet No. 14D.

The proposed effective date of the revised tariff sheet is August 9, 1978.

A copy of this filing is being served upon all affected parties and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP78-74]

ALGONQUIN GAS TRANSMISSION CO.

Letter Proposing Interpretation of Cost of Service Filing Requirement to Support PGAC

SEPTEMBER 25, 1978.

Take notice that by letter of June 26, 1978, Algonquin Gas Transmission Co. (Algonquin) disclosed its intention to file its cost of service study required by section 154.38(d)(4)(vi)(a) on August 1, 1980. This date is stated to be consistent with all Purchase Gas Adjustment Clause (PGAC) regulations, unless Algonquin should file a section 4(e) proceeding in the intervening period. In support of its statement, Algonquin further recites that:

1. The Commission's regulations governing pipelines whose tariffs contain a PGAC require the filing of a cost of service study after the expiration of 36 months from the establishment of a new base tariff rate.

2. Algonquin has recently settled its "section 4(e)" rate proceedings in Docket Nos. RP73-112, RP74-92, and RP75-88, which settlement was approved by Commission order issued March 31, 1978.

3. The settlement established separately rates for the future with an effectiveness of August 1, 1977, and new Base Rates were established as of that date.

4. The settlement constituted a full rate review for the period extending through October 31, 1977.

5. Accordingly, under the circumstances peculiar to Algonquin, the 36-month requirement interval commenced to run on August 1, 1977 and will terminate on July 31, 1980, unless Algonquin should file another Section 4(e) proceeding in the intervening period.

Any person desiring to be heard concerning the content of Algonquin's letter should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before October 3, 1978. Comments will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Copies of Algonquin's letter are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-222]

ARKANSAS LOUISIANA GAS CO.

Petition to Amend

SEPTEMBER 26, 1978.

Take notice that on September 11, 1978, Arkansas Louisiana Gas Co. (Petitioner), P.O. Box 21734, Shreveport, La. 71151, filed in docket No. CP77-222 a petition, pursuant to section 7(c) of the Natural Gas Act, to amend the order issued April 26, 1977 in the instant docket, and to waive § 157.7(d)(4)(i) of the Commission's Regulations (18 CFR 157.7(d)(4)(i)) so as to authorize Petitioner to expend an increased amount for the testing and development of certain storage facilities, during the 12-month period commencing April 26, 1978, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

It is stated that Petitioner was authorized to construct and operate pipeline and compression facilities for the testing and development of underground reservoirs for the possible storage of gas, with such construction and operation authorized to take place during a 3-year period beginning April 26, 1977, at a total cost not to exceed $3,000,000 or $1,000,000 for any 1 year period. Petitioner states that it plans to develop the Chiles Dome Field in East Central Oklahoma as a storage facility and estimates that the Chiles Dome reservoir will have a rated deliverability of 133,000 Mcf of gas per day with a working capacity of 12,000,000 Mcf of gas. More testing and developmental work is needed for the Chiles Dome reservoir, Petitioner states, requiring an expenditure in excess of the $1 million authorized for the 1-year period beginning April 26, 1978. Consequently, Petitioner requests that the Commission waive § 157.7(d)(4)(i) of the Commission's Regulations, and amend the order issued in April 26, 1977 in the instant docket to authorize Petitioner to expend up to $3,500,000 for testing and development during the 1-year period beginning April 26, 1978.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing herein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-513]

CITIES SERVICE GAS CO.

Application

SEPTEMBER 26, 1978.

Take notice that on September 8, 1978, Cities Service Gas Co. (Applicant), P.O. Box 25128, Oklahoma City, Okla. 73125 filed in Docket No. CP78-513 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction of certain pipeline tap, measuring, regulating and appurtenant facilities to enable Applicant to provide gas service to eighteen (18) rural domestic customers pursuant to right-of-way easements and agreements and gas storage leases heretofore entered into between Applicant and these customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that 18 customers have requested gas service pursuant to the terms of certain right-of-way easements and agreements and gas storage leases between them and Applicant. It is further indicated that in response to such requests, Applicant proposes to tap certain of its pipelines and construct the necessary facilities to provide service to these customers. Service would be provided by sale to gas distribution companies for resale to the domestic customers or if no gas distribution company is willing or able to provide such service, Applicant would serve these customers directly, it is said.

Applicant states that all of the proposed customers have relied upon provisions contained in their respective right-of-way easements and agreements and gas storage leases; these provisions constituted a major portion of the consideration given to these individuals by Applicant in exchange for easements, it is said.

It is indicated that the facilities would be constructed and operated and the gas service provided in the following locations: Jefferson County, Kans., Leavenworth County, Kans., Cass County, Mo., Bourbon County, Kans., Cherokee County, Kans., Montgomery County, Kans., Franklin County, Kans., McDonald County, Mo., Anderson County, Kans., Johnson County, Kans., Kingfisher County, Okla., Miami County, Kans., Buchanan County, Mo., Jackson County, Mo., and Butler County, Kans.

Applicant states that it anticipates that two of the 18 sales would be made on a direct-sale basis, one would be made to Union Gas System, Inc. for resale, and sale to the other 15 customers would be made to The Gas Service Co. for resale to those customers.

Applicant estimates that annual sales would average 250 Mcf for each customer and would total 4,500 Mcf for the 18 service proposed.

The application indicates that the total estimated cost of the proposed facilities would be $11,643 and that said cost would be financed from treasury cash.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-517]

COLORADO INTERSTATE GAS CO.

Application

SEPTEMBER 26, 1978.

Take notice that on September 13, 1978, Colorado Interstate Gas Co. (Applicant), Post Office Box 1087, Colorado Springs, Colo. 80944, filed in Docket No. CP78-517 an application pursuant to Section 7(c) of the Natural Gas Act and § 157.7(c) of the Commission's Regulations under the Act (18 CFR 157.7(c)) for a certificate of public convenience and necessity authorizing the construction during a 12-month period beginning January 1, 1979, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the service presently rendered by Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $300,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commis-

OCT 2 1978

V 43/191 OCT 2 1978

sion by section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[6740-02]

[Docket No. RP72-122 and RP78-51 (PGA78-3)]

COLORADO INTERSTATE GAS CO.

Order Accepting for Filing and Suspending Proposed PGA Rate Increase, Accepting Revised Suspended Rates, Initiating Hearing and Establishing Procedures

SEPTEMBER 25, 1978.

On August 31, 1978, Colorado Interstate Gas Co. (CIG) filed revised tariff sheets[1] proposed to be effective October 1, 1978, containing its suspended rates at Docket No. RP78-51[2] as adjusted for (1) the elimination of all costs associated with facilities not certificated and placed in service by October 1, 1978 ($2 million reduction) and (2) a proposed PGA adjustment consisting of a 29.97 cents per Mcf commodity increase of ($96.7 million) and a 13 cents per Mcf demand decrease ($1.9 million) to be effective October 1, 1978. In addition, CIG filed revised tariff sheets [3] to be effective October 1, 1978, which reflect CIG's RP78-51 rates as adjusted only to eliminate the costs of uncertificated facilities. Such sheets exclude the proposed PGA rate adjustment. Certain of these revised tariff sheets (Sheet Nos. 198, 262 and 341) relate to Volume No. 2 transportation rate schedules and are not subject to the proposed PGA adjustment. The August 31st filing revised its earlier filing of August 15, 1978,[4] which, among other things, contained the proposed PGA adjustment but failed to eliminate the cost of uncertificated facilities from the RP78-51 base rates. The August 15th filing also included a Gas Research Institute (GRI) charge of .12 cents per Mcf and a related (GRI) clause proposed to be effective October 1, 1978. CIG's August 31st filing reflects the elimination of the proposed .12 cents per Mcf GRI charge and requests withdrawal of the sheets reflecting the proposed GRI Clause.

Public notice of CIG's August 31, 1978 filing was issued on September 6, 1978 with protests and petitions to intervene due on or before September 15, 1978. On September 8, 1978, the Public Service Co. of Colo. filed comments requesting that the Commission take action on CIG's filing prior to September 26, 1978 in order that certain of CIG's customers have sufficient time to seek approval from the Colorado State Commission to flow-through the increase contained in the subject filing.

PGA CLAUSE

The $96.7 million increase (29.97 cents per Mcf) in the commodity component of the subject PGA adjustment consists of $34.8 million in deferred purchased gas costs and $61.9 million in current gas costs. The increase in current gas costs of $61.9 million[5] relates to changes in purchase patterns, producer increases and pipeline supplier increases. The $1.9 million decrease (13 cents per Mcf) in the demand component of the PGA adjustment results from a decrease in pipeline suppliers' demand costs.

Opinion No. 777 issued September 30, 1976, permits CIG to include costs related to purchases from Colorado intrastate producers in its rates. Until the present filing the rates CIG included in its filings for these Colorado intrastate purchases did not exceed the Opinion No. 770-A rate levels. However, the present filing contains intrastate producer prices as high as $2.0544 per Mcf for purchases from Samson Oil Co.[6] CIG has not presented sufficient evidence for the Commission to find that the prices paid for the nonjurisdictional purchases were prudent. Accordingly, we will suspend the effectiveness of the PGA adjustment for one day until October 2, 1978, and set for hearing the question of the prudency of CIG's non-jurisdictional producer purchases.

GRI CHARGE

CIG's August 15th filing included a proposed .12 cent per Mcf GRI charge and proposed GRI clause. CIG's August 31st filing removes the .12 cent per Mcf GRI charge and requests withdrawal of the tariff sheets related to the proposed GRI clause. CIG in its August 31st filing indicates that the Colorado Public Utilities Commission will probably not authorize the pass-through of GRI charges by its Colorado distributor customers on October 1, 1978, as previously anticipated. Accordingly, they request the removal of the proposed GRI charge and withdrawal of the GRI clause.[7]

We shall treat CIG's proposed tariff sheets incorporating the .12 cent per Mcf GRI charge and the proposed GRI clause as withdrawn.

The Commission orders: (A) CIG's Replacement Substitute Twenty-first Revised Sheet Nos. 5 and 6 containing the PGA adjustment are hereby accepted for filing and suspended for one day, until October 2, 1978, when they shall become effective subject to refund.

(B) CIG's Replacement Twenty-first Revised Sheet Nos. 5 and 6, Second Revised Sheet Nos. 198 and 262, and First Revised Sheet No. 341, containing the rates in Docket No. RP78-51 as adjusted to exclude uncertificated facilities' costs, are hereby accepted for filing and made effective October 1, 1978; such acceptance made subject to refund and also subject to all orders in Docket No. RP78-51.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, 15 and 16, and the Commission's rules and regulations, a public hearing shall be held in this proceeding to determine the prudence of CIG's nonjurisdictional Colorado produce purchases reflected in this filing.

(D) CIG's tariff sheets incorporating the GRI charge of .12 cents per Mcf and the GRI clause (First Revised Sheet No. 67B, Original Sheet No. 67C and Substitute Twenty-first Revised Sheet Nos. 5 and 6) are deemed withdrawn and are of no force and effect.

(E) CIG's case-in-chief in support of the above referenced purchases shall be filed with the Commission no later than October 18, 1978.

(F) Staff's statement of position shall be filed on or before November 17, 1978.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge pursuant to 18 CFR 3.5(d), shall convene a prehearing conference in this proceeding to be held within 10 days after the service of Staff's statement of position in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. The Presiding Judge is authorized to establish such further procedural dates as may be necessary and to rule on all motions and petitions (except motions to sever, consolidate or dismiss) as provided for in the rules of practice and procedure.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27742 Filed 9-29-78; 8:45]

[1] Replacement Substitute Twenty-first Revised Sheet Nos. 5 and 6 to FPC Gas Tariff, Second Revised Volume No. 1.

[2] On March 31, 1978, CIG filed a $12.1 million general rate increase at Docket No. RP78-51. By Commission Order issued May 1, 1978, CIG's increase was suspended until October 1, 1978, subject to CIG filing revised rates which eliminate all costs associated with facilities not certificated and placed in service by October 1, 1978.

[3] Replacement Twenty-first Revised Sheet Nos. 5 and 6 to FPC Gas Tariff, Second Revised Volume No. 1; Replacement Second Revised Sheet Nos. 198 and 262 and First Revised Sheet No. 341 to FPC Gas Tariff, Third Revised Volume No. 2.

[4] Substitute Twenty-first Revised Sheet Nos. 5 and 6, First Revised Sheet No. 67B, and Original Sheet No. 67C to FPC Gas Tariff, Second Revised Volume No. 1.

[5] This represents a 35 percent increase in the average cost of purchased gas from that reflected in the original RP78-51 rates.

[6] The filing indicates the previous rate paid for this purchase was $.3655 per Mcf.

[7] Docket No. RM77-14, issued March 22, 1978.

[6740-02]

[Docket No. CI78-1179]

DORCHESTER GAS PRODUCING CO.

Petition for Declaratory Order or, Alternatively, Rate Increase, and for Other Relief

SEPTEMBER 26, 1978.

Take notice that on September 6, 1978, Dorchester Gas Producing Co. (Dorchester) requested, pursuant to § 1.7 of the Commission's Rules of Practice and Procedure, that the Commission issue an order declaring that Dorchester's behind-the-plant facilities and operations used to gather gas for Natural Gas Pipeline Co. of America (Natural) to Dorchester's Hooker Plant in Texas County, Okla., are exempt from regulation under section 1(b) of the Natural Gas Act. Dorchester also requests that its existing certificate issued in docket No. CI70-36 be terminated and that its related Rate Schedule No. 9 be cancelled.

In the alternative, Dorchester requests an increase in rates under its Rate Schedule No. 9 proposing a rate of 2.0 cents per Mcf for services performed for Natural in Dorchester's "high pressure system" and 5.0 cents per Mcf for services performed in Dorchester's "low pressure system," effective January 1, 1977, and March, 1973, respectively.

Dorchester further requests that the Commission accept its rate increase effective immediately and, in connection with such request, therefore seeks a waiver of the 30-day notice period.

Communication to Dorchester with respect to this filing should be addressed to James A. Ford, President, Dorchester Gas Producing Co., 901 United National Bank Building, 1509 Main Street, Dallas, Tex. 75201.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure applicable in this proceeding (49 CFR Part 1000). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-532]

COLUMBIA GAS TRANSMISSION CORP.

Petition To Amend

SEPTEMBER 26, 1978.

Take notice that on September 15, 1978, Columbia Gas Transmission Corp. (Petitioner), 1700 MacCorkle Avenue SE., Charleston, W. Va. 25314, filed in Docket No. CP77-532, a petition, pursuant to section 7(c) of the Natural Gas Act, to amend the order issued December 16, 1977, in the instant docket so as to increase the amount of gas Petitioner is authorized to transport for Libbey-Owens-Ford Co. (LOF), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Specifically, Petitioner states that it was authorized to transport up to 550 Mcf of gas per day for LOF on a best efforts basis by the order of December 16, 1977, in the instant docket. Petitioner further states that LOF has requested it to increase the maximum volume of gas transported from 550 Mcf per day to 2,250 Mcf per day. Consequently, Petitioner requests that the order of December 16, 1977, in the instant docket be amended to increase the amount Petitioner is authorized to transport for LOF.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27728 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. CP78-520]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 25, 1978.

Take notice that on September 14, 1978, El Paso Natural Gas Co. (Applicant), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP78-520 an application pursuant to section 7(c) of the Natural Gas Act and section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1979, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers or other similar sellers thereof. Applicant also requests authorization to construct, for the same time period, and operate facilities necessary for the attachment of its leasehold wells in connection with the operation of its interstate transmission system. The proposals are more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant seeks clarification of the definition of gas-purchase facilities under section 157.7(b)(4) as to its applicability to facilities necessary to connect leasehold supplies. Applicant states that if such provision is not intended to apply to leasehold attachment, then Applicant requests that it be granted waiver of such restriction and be permitted to use the proposed budget-type authorization to connect leasehold production to its system or the system of another pipeline authorized to transport or exchange gas with Applicant, both onshore and/or offshore.

Applicant states that the total cost of the proposed gas-purchase facilities,

V 43 / 191 OCT 2 1978 LIBR

including the facilities for the attachment of leaseholdings, would not exceed $12,000,000 with the cost of no single onshore project not to exceed $2,000,000 and the cost of no single offshore project not to exceed $3,000,000.

Applicant recognized that the proposed budget-type authorization for the construction of gas-purchase facilities has an estimated total cost for a single project in excess of the amounts specified in subparagraph (1)(ii) of section 157.7 (b) of the Commission's Regulations. Consequently, pursuant to subpargarph (2) of section 157.7(b) of the Commission's Regulations Applicant requests waiver of the provisions of subparagraph (1)(ii) so as to allow for a total single-project cost in excess of the amounts specified in subparagraph (1) (ii). Applicant states that it, as well as the gas industry as a whole, has continued to experience significant increases in the cost of materials, labor and other aspects of the construction and operation of natural gas handling facilities utilized in operations, including facilities for the attachment of new or expanded supplies of natural gas. Applicant asserts that inasmuch as the industry indicators reflect a continual increase in the cost of all aspects of Applicant's business activities, Applicant now finds itself in a position wherein the budget-type construction during the calendar year 1979 can be expected to exceed the single project limitations prescribed by section 157.7(b)(1)(ii) of the Commission's Regulations.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All filings will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-27729 Filed 9-29-78; 8:45 am]

[6740-02]

[Docket No. CP78-521]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 25, 1978.

Take notice that on September 14, 1978, El Paso Natural Gas Co. (Applicant), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP78-521 an application pursuant to section 7 of the Natural Gas Act and section 157.7(g) of the Commission's Regulations under the Natural Gas Act (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the abandonment, during the calendar year 1979, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction, relocation, and operation and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment of facilities would not exceed $3,000,000, and that the cost of any single project would not exceed $500,000. Applicant indicates that it would finance such cost from internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP78-522]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 25, 1978.

Take notice that on September 14, 1978, El Paso Natural Gas Co. (Applicant), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP78-522 an application pursuant to section 7(c) of the Natural Gas Act and section 157.7(c) of the Regulations thereunder (18 CFR 157.7(c)), for a certificate of public convience and necessity authorizing the construction, during the calendar year 1979, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the service presently rendered by Applicant.

Appliant states that the total cost of the proposed facilities would not exceed $300,000, which cost Applicant would finance through use of internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules and Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice by the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. RP78-18]

EL PASO NATURAL GAS CO.

Tariff Filing

SEPTEMBER 25, 1978.

Take notice that on September 15, 1978, El Paso Natural Gas Co. ("El Paso") tendered for filing certain revised tariff sheets to its FERC Gas Tariff, Original Volume Nos. 1 and 2A and Third Revised Volume No. 2, in accordance with Articles IV, X, and XIV of El Paso's Stipulation and Agreement dated June 23, 1978, and pursuant to the Commission's letter order dated September 5, 1978, approving such settlement of the issues involved in the general rate increase proceeding before the Commission at Docket No. RP78-18. Such tariff sheets and the proposed effective dates thereof, are identified in the attached appendix.

El Paso states that such order of September 5, 1978, directs El Paso to file within ten (10) days of the date thereof revised tariff sheets reflecting the rates and surcharges contained in El Paso's Stipulation and Agreement. Article IV of the subject Stipulation and Agreement provides that such settlement rates shall be effective as of June 1, 1978, and shall be adjusted, commencing June 1, 1978, for changes in rate permitted by the Commission to be placed into effect from time to time pursuant to the provisions of El Paso's FERC Gas Tariff.

El Paso further states that the Stipulation and Agreement also provides, inter alia, for certain modifications to El Paso's Purchased Gas Cost Adjustment Provision ("PGAC") contained in its FERC Gas Tariff, Original Volume No. 1 and for the the institution of uniformity for billing determinants with respect to storage surcharges paid to El Paso by its east-of-California ("EOC") customers. El Paso states that the PGAC has been modified, in accordance with Article X, by refining the methodology for determining the annualized change in purchased gas cost and providing that all refunds received during the period June 1, 1978, through May 31, 1981, will be refunded in accordance with the provisions of Article XVI of said Stipulation and Agreement.[1] Uniform billing determinants, consisting of Priorities 1 and 2 nominations for each month, and unit surcharge calculation methodology related to El Paso's EOC storage surcharges so that billing for all such surcharges shall be in effect during the 12 months of the year are provided at Article XIV of said Stipulation and Agreement.[2]

[1] In this connection, El Paso on August 30, 1978, filed with the Commission its PGAC adjustment to become effective on October 1, 1978. Such filing included the PGAC adjustment calculated on the basis of the modified provisions contained in the Stipulation and Agreement, approved by the Commission's order dated September 5, 1978, at Docket No. RP78-18, and being filed herewith.

[2] Concurrent with the instant tender, El Paso filed in the proceeding at Docket No. CP77-289, revised tariff provisions and the proposed October 1, 1978, surcharge applicable to its Clay Basin Storage Arrangements based upon the uniform billing determinants provisions approved and accepted by the Commission in accordance with Article XIV of the Stipulation and Agreement.[3]

The proposed effective date, as provided by the accepted and approved Stipulation and Agreement in this proceeding, for each of the tendered tariff sheets is set forth on the attached Appendix. El Paso respectfully requested that the Commission grant waiver of its Rules and Regulations, as may be deemed necessary, in order that the tariff sheets tendered be permitted to become effective as proposed herein.

El Paso states that copies of the filing were served upon all parties to the proceedings at Docket No. RP78-18 and, otherwise, upon all interstate transmission system customers of El Paso and interested State regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before October 4, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1,10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

APPENDIX

EL PASO NATURAL GAS COMPANY

(i) Tariff sheets applicable to the settlement rates charged by El Paso as provided in the Stipulation and Agreement at Docket No. RP78-18, to be effective as of June 1, 1978:

Original Volume No. 1

First substitute 22d revised sheet No. 3-B.

Third Revised Volume No. 2

First substitute 12th revised sheet No. 1-D.
Sixth revised sheet No. 1-D.2.

Original Volume No. 2A

First substitute 14th revised sheet No. 1-C.

(ii) Tariff sheets applicable to Purchased Gas Cost Adjustment Provision reflecting the modifications provided in the Stipulation and Agreement at Docket No. RP78-18, to be effective September 5, 1978:

Original Volume No. 1

Sixth revised sheet No. 67.
Third revised sheet No. 67-A.
Second revised sheet No. 67-B.
Second revised sheet No. 67-C.
Substitute third revised sheet No. 67-D.

V 43 / 191

(iii) Tariff sheets applicable to unit surcharge calculation methodology related to Rhodes Reservoir operations as provided in the Stipulation and Agreement at Docket No. RP78-18, to be effective October 1, 1978:

Original Volume No. 1

Substitute sixth revised sheet No. 63-C.6.

Third Revised Volume No. 2

Substitute sixth revised sheet No. 1-M.6.

Original Volume No. 2A

Substitute sixth revised sheet No. 7-MM.6.

[Docket Nos. ER78-566, ER78-567, and ER78-19, et al.]

FLORIDA POWER & LIGHT CO.

Order Accepting Rate Schedules for Filing, Providing for Suspension and Hearing, Waiving Regulations, and Consolidating Proceedings

SEPTEMBER 21, 1978.

On August 21, 1978, in Docket No. ER78-566, Florida Power & Light Co. (FP&L) submitted for filing as an initial rate an executed agreement to provide transmission service to the city of Vero Beach, Fla. (Vero Beach).[1] FP&L states that under the agreement, it will transmit power and energy for Vero Beach in the implementation of its interchange agreements with the Orlando Utilities Commission, Tampa Electric Co. (Tampa), and Florida Power Corp.

On that date, FP&L submitted for filing in Docket No. ER78-567, an amendment to an agreement to provide transmission service for Tampa.[1] FP&L states that pursuant to the amendment, it will transmit power and energy as is required by Tampa in the implementation of its interchange agreement with Vero Beach.

FP&L requests an effective date of no late than 30 days after the date of its submittals in the two above-referenced dockets.

FP&L's submittal in Docket No. ER78-566 (Vero Beach) provides for a rate of $1.65 per MWh for transmission service. FP&L stated that it did not submit any estimate of revenues because service is dependent on the amount of power and associated energy purchased by Vero Beach from other parties.

FP&L states that the proposed amendment submitted in Docket No. ER78-567 (Tampa) was necessary because Tampa and Vero Beach entered into an interchange agreement subsequent to the date that FP&L filed a transmission agreement (Docket No. ER78-508) that implemented Tampa's interchange agreements with three other utilities.[2] The rates and terms of service remain unchanged from the original agreement.

FP&L has made previous filings for specified transmission service in Docket Nos. ER78-325, ER78-376, ER78-478, and ER78-508, providing service to Homestead, Fort Pierce, Lake Worth, and Tampa, respectively. In the above-listed dockets, FP&L proposed the same rate supported by the same cost data as that submitted in Docket No. ER78-566. The previously filed rates were suspended for 1 day, consolidated with the ongoing rate proceeding in Docket No. ER78-19, et al.

Notice of FP&L's filings was issued on August 28, 1978, with protests or petitions to intervene due by September 8, 1978. No such responses have been received.

FP&L's proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. The Commission, therefore, shall suspend the proposed rates for 1 day, to become effective September 21, 1978, subject to refund, pending the outcome of a hearing and decision thereon.

The Commission finds that due to common issues of law and fact, it is appropriate to consolidate Docket Nos. ER78-566 and ER78-567 with the ongoing proceedings in Docket Nos. ER78-19, et al.

It was previously noted that FP&L filed its transmission service agreement with Vero Beach as an initial rate schedule pursuant to § 35.12 of the Commission's regulations. However, FP&L is presently interconnnected with Vero Beach pursuant to an interchange agreement dated November 1, 1971 (Rate Schedule FPC No. 6). FP&L should have tendered its submittal for filing under § 35.13 of the Commission's Regulations and section 205 of the Federal Power Act as a change in rate schedule.[3] Sales of power by FP&L to Vero Beach under the interchange agreement are transported to Vero Beach through FP&L's transmission lines. Thus, FP&L already has an effective rate recovering, inter alia, costs of transmission service to Vero Beach, and, therefore, the submittal in this docket is not that of an initial rate. The instant transmission rate submittal is supplemental to the current interchange rate, which inherently includes transmission charges.

FP&L failed to file complete cost support data as required by § 35.13 of the Commission's regulations for the two instant dockets. It has chosen to ignore our consistent admonition that its abbreviated cost support is insufficient for the purpose of ascertaining whether its proposed transmission rates are cost-justified. At least three orders issued prior to FP&L's August 21, 1978, submittals have directed the Company to comply with out filing requirements.[4]

FP&L's transmission rate filings in Docket Nos. ER78-325, ER78-376, ER78-478, ER78-508, ER78-527, ER78-566, and ER78-567 contain postage stamp rates. The rates for comparable services in all of the above-listed dockets are identical. FP&L has subsequently supplied the required data pursuant to Commission order for all but the instant dockets. As a practical matter, then, the Commission already has in hand the cost support we are empowered to order FP&L to submit in these dockets, and the Commission will not allow FP&L's persistent refusal to comply with its cost support requirements to further delay the proceeding in Docket No. ER78-19, et al.

The Commission finds: (1) Good cause exists to accept FP&L's proposed rate schedules in Docket Nos. ER78-566 and ER78-567 for filing and to suspend the use thereof for 1 day, until September 21, 1978, when they will become effective subject to refund, pending the outcome of a hearing and decision thereon.

(2) Good cause exists to waive the cost support requirements of § 35.13 of the Commission's regulations for FP&L's submittals in the instant dockets.

(3) Good cause exists to consolidate the instant dockets with the ongoing proceeding in Docket Nos. ER78-19, et al.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Act and by the Federal Power Act, particularly sections 205, 206, 301, 308, and 309 thereof, and pursuant to the Commission's Rules of Practice and Procedure and to the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rate schedules proposed by FP&L in the instant dockets.

(B) Pending a hearing and decision thereon, FP&L's proposed rate schedules in the instant dockets are hereby accepted for filing and suspended for 1 day, to become effective September 21, 1978, the rates thereunder to be subject to refund.

(C) The Commission hereby waives the cost support requirements of § 35.13 of its regulations.

(D) Docket Nos. ER78-566 and ER78-567 are hereby consolidated with Docket Nos. ER78-19, et al. for the purpose of a hearing and decision thereon.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP78-76]

GAS RESEARCH INSTITUTE

Opinion and Order Approving the Gas Research Institute's 1979 Research and Development Program

SEPTEMBER 21, 1978.

INTRODUCTION

On June 30, 1978, the Gas Research Institute (GRI) filed its second annual application. GRI set forth its 1979 research and development program and a related 5-year plan for 1979-83. The 1979 program will cost nearly $40 million.[1] GRI asks the Commission to approve the proposed program and to permit jurisdictional members of GRI to collect a "funding unit" of 3.6 mills per Mcf during 1979 in order to finance it.

Under the regulations promulgated in Order No. 566,[2] each year GRI is to submit an application containing its R. & D. program for the coming year and an updated 5-year plan. Approval of the plan constitutes approval of the projects to be undertaken during the coming year, and jurisdictional companies are permitted to collect from their customers amounts to be contributed to GRI during that year.

GRI filed its first annual application on March 22, 1977, and it was approved in Opinion No. 11[3] on March 22, 1978. GRI's first year R. & D. program called for expenditures of just under $28 million. Of that amount, only the $9.5 million to be spent on planning, administration, and new projects was to be raised through contributions by jurisdictional pipelines. A 1.2 mill per Mcf "funding unit" was approved to be collected by jurisdictional GRI members in order to finance this $9.5 million. The remaining $18.4 million was to be spent for ongoing programs which had previously been administered by the American Gas Association (AGA), and AGA had agreed to fund those programs during GRI's first year. GRI contemplated that the members of GRI would take over responsibility for funding the projects during the second and subsequent years.

GRI's second year program and plan are in many regards similar to that for the first year. GRI will continue the projects approved for initial funding in Opinion No. 11, though at second year funding levels. The new projects which will be initiated are the ones which were, with minor exceptions, described in GRI's first 5-year plan as projects which would commence in GRI's second year.

A major difference between the first and second years, however, is that GRI will assume responsibility for funding the ongoing projects which had been started by AGA. AGA funding for those projects ends on December 31, 1978. Thus, beginning January 1, 1979, GRI's program will for the first time be financed entirely through contributions made by its members. This is the major reason for the requested increase in the funding unit from 1.2 mills per Mcf to.3.6 mills.[4]

Another feature of GRI's filing is that it will put GRI's programs on a calendar year basis. Since Opinion No. 11 was issued on March 22, 1978, the beginning of GRI's fiscal year would always fall on an inconvenient date, as would the effective date of future revisions of the GRI funding unit. This filing rectifies that problem.

Public notice of GRI's filing was issued on July 3, 1978, establishing July 28, 1978, as the date for submission of comments, protests, and petitions to intervene. Initial comments were submitted by the People of the State of California and the Public Utilities Commission of the State of California (California), the State of Michigan and the Michigan Public Service Commission (Michigan) and AGA.

Opinion No. 11 established that, in its second annual application, GRI would file a service list including all GRI members and all State regulatory commissions. Any party listed was to be granted intervention without filing a petition to intervene. GRI included the required service list in its application as Exhibit 12 and, as a result, only the Interstate Natural Gas Association of America (INGAA), the Associated Gas Distributors (AGD), and the Public Service Electric & Gas Co. (PSE&G) filed petitions to intevene. Those parties shall be permitted to intervene as well as the parties inlcuded in GRI's service list.

The July 3, 1978 notice required that the Commission's staff file a report on GRI's application by August 11, 1978, with comments on the report and any further comments on GRI's application due on September 1, 1978. The staff report was filed on August 11, 1978. Comments were filed by GRI, Michigan, the Public Service Co. of the State of New York (New York), and Southern Natural Gas Co. (Southern) by September 1, 1978. California filed a comment on September 8, 1978.[5] A GRI comment in response to New York was filed on September 18, 1978.

The Commission has reviewed GRI's application, the staff's report, and the various comments which have been filed. The Commission approves GRI's 1979 program and approves the collection of a funding unit of 3.5 mills per Mcf during 1979.

ANALYSIS OF THE SUFFICIENCY OF GRI'S APPLICATION

I. THE GUIDELINES OF ORDER NO. 566

The principal tests for the adequacy of GRI's proposed R&D program and plan are the five guidelines promulgated in Order No. 566 and set forth in § 154.38(d)(5)(iii) of the Commission's Regulations.[6] In its Report, Staff con-

[1] See Attachment A for designations and descriptions.

[2] Orlando Utilities Commission, Lake Worth Utilities Authority (Lake Worth), and Homestead.

[3] See *Florida Power & Light Co.*, ER77-175, order issued April 12, 1977 and *Florida Power & Light Co.*, ER78-325 order issued May 19, 1978.

[4] *Florida Power & Light Co.*, Docket No. ER78-325, order issued May 19, 1978, *Florida Power & Light Co.*, ER78-376, order issued June 15, 1977, and *Florida Power & Light Co.*, Docket No. ER78-478, order issued August 9, 1978.

[1] The exact amount the 1979 program is projected to cost GRI is $39,958,000. GRI projects $65,009,000 in co-funding from the Federal Government and $4,990,000 from "industry" (see section II A herein). Thus, expenditures for the 1979 projects by GRI, Government, and industry combined are projected to be $109,957,000.

GRI expects it will have collected but not expended $300,000 as of January 1, 1979. The $300,000 will be credited to the cost of the 1979 program, thereby reducing GRI's funding requirement for 1979 to approximately $39.7 million. This, then, is the amount which will have to be collected by GRI's members through natural gas rates charged during 1979.

[2] Research, Development and Demonstration; Accounting; Advance Approval of Rate Treatment, Docket No. RM76-17, "Order Prescribing Changes in Accounting and Rate Treatment for Research, Development and Demonstration Expenditures", issued June 3, 1978.

[3] Gas Research Institute, Docket No. RM77-14, "Opinion and Order Approving the Initial Research, Development, and Demonstration Program of Gas Research Institute", issued March 22, 1978.

[4] Jurisdictional AGA members include their contributions in their costs of service and thereby recover contributions from their ratepayers. Thus, the shift of the projects from AGA to GRI will not mean that the gas consuming public will be paying for R. & D. for which it would not otherwise pay. The shift, from a rate standpoint, only results in collection of funds for research through the Order 566 procedure rather than through inclusion in pipelines' costs of service.

[5] California was granted an extension of time by notice issued September 7, 1978.

[6] The five guidelines in § 154.38(d)(5)(iii) are:

1. Evidence that the R.D. & D. objectives of the company or research organization have been clearly established.

2. Evidence that the plan evolves from these R.D. & D. objectives and adequately

Footnotes continued on next page

OCT 2 1978

V 43/191

cluded that GRI's program and plan satisfied Guidelines 1, 2, 4, and 5, and no party filing comments disagreed. The Commission concurs and holds that GRI has substantially complied with those guidelines.

The extent of GRI's compliance with Guideline 3 is, however, the subject of some debate. Guideline 3 requires that GRI submit "evidence that an effective mechanism exists and is used for coordinating this research and development plan with other relevant efforts of national scope." Some commentators question whether GRI's submission shows that it has effective procedures to coordinate its program with the programs of other R. & D. organizations.

In its application, GRI described its intensive efforts to develop a systematic approach to coordinating its program with those of other organizations. GRI has an Industry Technical Advisory Committee as well as a Research Coordination Panel to provide pertinent information on other R. & D. programs. Staff reported that its investigation shows that these panels are now actively functioning. Further, GRI has contracted with Booz-Allen & Hamilton, Inc., to assist in developing a plan for coordination and in preparing an R. & D. data system. GRI's coordination plan calls for identifying the specific groups involved in gas research, establishing lines of communication and collecting information to develop a gas research data base.

At present, however, there is a question as to whether GRI's coordination efforts are completely effective. Several of GRI's projects seem to duplicate projects or activities of other organizations. Staff cited three examples. First, GRI's project on gas recovery from coal deposits apparently duplicates a project at the Department of Energy's (DOE) Morgantown Research Center. Second, GRI's project on geological assessment of geopressurized zones is the same as the project cited in the "Region II Program" of DOE's Division of Geothermal Energy. Third, the project entitled "SNG from Oil Shale" appears to be quite similar to DOE's program on oil shale.[7]

New York seems to urge that these projects be elimintated from GRI's 1979 program, saying, "[GRI's] limited resources can be better used in non-duplicative projects." Staff, however, believes GRI should be given time to demonstrate that it is moving to correct the problem of duplication. Thus, staff would not require removal of any of the apparently duplicative projects from GRI's 1979 program.

This last year has been an organizational year for GRI as well as for the Department of Energy, the principal organization with which GRI's program must be harmonized. It would be unreasonable for the Commission to demand that GRI display at the outset the smooth coordination that is the ultimate objective of the efforts described in GRI's application. Therefore, we find that, for purposes of this second year's application, GRI is in reasonable compliance with Guideline 3, but we put GRI on notice that as its program matures we shall insist on clear evidence that its efforts are complimentary to and not competitive with those of other R.D. & D. organizations.

Staff recommends that the Commission require GRI to submit details on the coordination achieved on each contract proposal. GRI responds that staff's recommendation is unworkable if it means GRI must supply information on coordination with each of DOE's new contracts. Information is not a problem for old contracts. DOE obviously does have information on the contracts for work already undertaken, and GRI says it already provides its Research Coordination Panel with all the available information on current DOE projects. A problem arises with new contracts, however, since at the time GRI is planning its future program, DOE has not yet decided which new contracts it will enter. Thus, while GRI can specify the new contracts it proposes to fund, DOE cannot specify its new contracts.

The Commission shall require that in future applications GRI shall submit information on what coordination has been achieved with DOE or other R. & D. organizations on each GRI contract or "work element". If DOE plans are not contract specific, or if there has been no coordination, GRI should so state. The Commission does not wish to impose an onerous reporting requirement, but it does seek information which will permit it to determine the extent to which GRI's R. & D. activities have been coordinated with other R. & D. activities so that unproductively duplicative research will not be funded.

II. THE STIPULATION AND AGREEMENT

The parties to the proceeding on GRI's first annual application entered into an eighteen point Stipulation and Agreement on September 30, 1977. The Agreement was approved by the Commission in Opinion No. 11. A number of the provisions are pertinent to GRI's second application and received attention in the various comments.

A. Stipulation 1—manufacturer co-funding

Stipulation 1 of the Stipulation and Agreement provides that GRI shall use its best efforts to attract co-funding of its projects by the potential manufacturers who will make the hardware developed by the projects.[8] California is especially concerned that GRI achieve substantial levels of co-funding by equipment manufacturers. As California puts it: "[M]anufacturer co-funding is essential both as a test of the practical potential of specific projects and as a protection against rewarding manufacturers with the fruits of research to which they did not contribute."

GRI projects nearly $5 million in "industry co-funding." At least $1 million of this would come from gas utilities for field testing of fuel cells, however, and, in California's view, "Such utility co-funding should not be considered in assessing compliance with Stipulations 1 and 2, which concerned co-funding by manufacturers." Nevertheless, California concludes that "a serious and substantial effort is underway toward achieving satisfactory levels of co-funding." Staff reached a similar conclusion. The Commission finds that GRI has adequately shown that it intends to comply with Stipulation 1.

B. Stipulation 5—conflicts of interest

Stipulation 5 states that "GRI is, and will remain, committed to avoiding possible conflicts of interest between GRI Board members and co-funding manufacturers." No party suggested that GRI is not fully complying with the stipulation. In connection with its review, however, staff inquired broadly into GRI's actions to prevent all types of possible conflict of interest problems.

GRI has issued a policy statement which staff believes adequately deals with the problem of possible conflicts of interest between Board members and Advisory Committee members. The staff, however, sees an area of concern which has not been addressed. This involves relationships between GRI, the AGA and the Institute of Gas Technology (IGT).

The AGA and IGT were largely responsible for the creation and early development of GRI. Understandably, GRI has drawn many of its key administrative personnel from these two organizations. GRI now, however, is a separate and unique entity in the natural gas industry, and it currently has research contracts with both the AGA and IGT. Furthermore, both the AGA and IGT are expected to be important future GRI contractors. It is desirable that the AGA and IGT, with their considerable experience, be free to submit contract proposals to GRI, but it is equally important that neither of these organizations receive unduly favorable treatment. The staff, therefore, recommends that the Commission require GRI to submit to the Commission for is consideration procedures instituted by GRI's Board of Directors to avoid the preferential award of contracts to any particular party. California supports the staff's recommendation.

GRI states that it is well aware of the potential conflict about which the staff is concerned and says it has made good progress in dealing with it. GRI says it has no objection to providing the Commission with copies of policy statements and written procedures designed to preclude such conflicts. GRI's efforts in this area are, however, not complete, and thus GRI believes it would be more appropriate for the Commission to review this matter in conjunction with GRI's 1980 filing. GRI anticipates that, by then, a "full complement of pertinent policies and procedures" will have been adopted and will be functioning. In view of the comments of the staff, California, Michigan and GRI, the Commission shall require that GRI submit its procedures when it submits its 1980 application.

C. Stipulation 6—budget limitations.

Stipulation 6 provided that, for its first year, GRI would keep expenditures within ten percent (10 percent) of its budgeted limit or $25,000, whichever is greater, at the contract or "work element" level, and that GRI would keep expenditures within the budgeted limit at the "project" level. With the support of California and Michigan, staff proposes that this condition be extended to apply to GRI's 1979 program.

Staff says, however, that the following work elements in the "Gasification Processes" area should be excepted from the condition:

	1979 GRI funding level[9]
HYGAS	$2,250,000
PEATGAS	1,300,000
Catalytic Gasification	2,420,000
Hydrogasification	2,220,000
Steam-Iron/BI-GAS/Advanced Gasification Processes	2,670,000
Total	10,860,000

These five work elements with the indicated funding level constitute GRI's "preferred" coal gasification project for 1979. Each of the five is so expensive, however, that GRI can proceed with it only if DOE offers co-funding. It is still not clear whether co-funding will be forthcoming.

GRI proposes a contingency plan. If DOE decides not to fund any or all of the first four work elements, i.e., HYGAS, PEATGAS, Catalytic Gasification or Hydrogasification, then GRI funds freed as a result will be used for the Steam-Iron/BI-GAS/Advanced Gasification Processes work element. Thus, if all of the first four work elements are denied co-funding by DOE, $10,860,000 will be spent on the last.[9] If no co-funding is forthcoming for any of the five "gasification processes" work elements, GRI proposes to shift the entire $10,860,000 to processes which have been designated for future funding by GRI's staff and the coal gasification project advisors.[10]

Staff proposes that Stipulation 6 be amended to provide GRI with the flexibility it wants in the Gasification Processes area. As amended to extend the "10 percent or $25,000" condition to the 1979 program and to permit flexibility in the Gasification Processes area, Stipulation 6 would read as follows:

> For its 1979 program, GRI shall keep expenditures within ten percent (10%) of its budgeted limits or $25,000, whichever is greater, at the contract or work element level as set forth in Volume II of Exhibit 1 to its 1979 application, provided, however, that GRI shall keep expenditures within the budgeted limits for the five major program areas. This provision shall not apply, however to project sub-area 1.2.1, "Gasification Processes". Expenditures in this sub-area shall be limited to a total amount of $10,860,000 and shall conform with the preferred gasification program or the alternative program as set forth in Volume II of Exhibit 1 at pages A-49 to A-65.

A third change from the original Stipulation 6 approved in Opinion No. 11 is that the original stipulation specified that expenditures be kept within the budgeted limits for the "project" level,[11] but the amended Stipulation 6 provides only that expenditures must be kept within the "five major program areas."[12]

GRI states that it does not object to the 10 percent or $25,000 restriction being imposesd upon its 1979 program, though it does not believe the restriction will be appropriate in future years. The Commission finds that the September 30, 1977, Stipulation and Agreement approved in Opinion No. 11 should be modified as proposed by Staff.

D.

Stipulation 8 provided that GRI shall assign priorities

Stipulation 8 provides that GRI shall assign priorities to its projects and use the assignment as a guide to allocating funds.[13]

The thrust of this stipulation was endorsed and emphasized in Opinion No. 11. The Commission stated (at 36): "We are particularly concerned that

---

Footnotes continued from last page

utilizes the viewpoints of scientific, engineering, industry, economic, consumers and environmental interests.

3. Evidence that an effective mechanism exists and is used for coordinating this research and development plan with other relevant efforts of national scope.

4. Evidence that the project or program is well conceived and has a reasonable chance of benefitting the ratepayer in a reasonable period of time, having due regard to the basic, exploratory or applied nature of each submitted R.D. & D. project.

5. Evidence that whatever achievements may result, including the knowledge gained or technology developed from the R.D. & D. effort, if any, will accrue to the benefit of the sponsoring jurisdictional company(s) and its/their customers.

[7] These three projects account for $750,000 or less than 2 percent of GRI's 1979 program.

[8] Stipulations 2, 3 and 5 of the September 30, 1977 Stipulation and Agreement also relate to manufacturer co-funding of GRI projects;

Paragraph 2 states that achievement of co-funding is an appropriate factor to be considered by the Commission in adjudging future applications;

Paragraph 3 requires GRI to use its best efforts to negotiate co-funding arrangements which preserve to GRI a share of patent or other rights in discoveries proportionate to the GRI share of the total funding; and

Paragraph 5 commits GRI to avoiding possible conflicts of interest between GRI board members and co-funding manufacturers.

[9] The Commission notes, however, that at the present time Congress is considering funding of these four projects at levels even higher than those included in GRI's program.

[10] Processes that are being considered by GRI for future funding include the following: the Synthane Process, AVCO High Throughput Gasification, Atomics International Molten Salt Gasification, Westinghouse Two-Stage Fluid Bed Gasification, Hydrocarbon Research Fast Fluid Bed Gasification, Combustion Engineering Entrained Bed Gasification, Bell Aerospace High Flux Gasification, BI-GAS, and Steam-Iron. In addition, GRI says that several proposals on the gasification schemes are under evaluation and may be considered by funding in the 1979 program. *See* Exhibit 1, Vol. II, pp. A-49—a-65.

If any of the $10,860,000 is not spent in 1979, by terms of Section 6.1.3 of GRI's Funding Formula, the outstanding year-end balance will be credited to GRI's 1980 program. This is similar to how $300,000 from GRI's first year is to be credited to GRI's 1979 program. *See* footnote 1, *supra.*

[11] "Project" is defined in Stipulation 1 of the September 30, 1977, Stipulation and Agreement as being "a collection of work elements or contracts aimed at achieving a single, stated R & D goal."

[12] The five major program areas are: Supply, Economics and Systems Analysis, Operations-Distribution, Conservation, and Basic Research.

[13] The text of Stipulation 8 is as follows:

8. GRI shall assign priorities to its projects in future applications to the extent possible. Priorities shall be reviewed, annually, by GRI and shall be reported to the Commission in GRI's annual filings of updated 5-year plans and R&D programs. GRI shall use its assignment of priorities as a guide in allocating funds to projects. An objective of future programing and funding shall be to move high priority new technology into use for the benefit of pipeline gas rate-payers in the shortest practical time.

OCT 2 1978 UMI

V 4 3 / 1 9 1
OCT 2 78

GRI assign priorities to its planned projects and that decisions as to which projects to pursue shall be based upon analysis, recognizing immediate gas shortage situations and the need to alleviate the effects thereof."

Considering that only 4 months elapsed between the issuance of Opinion No. 11 and GRI's second application, it is not surprising that the 1979 program is as broad in scope and as diverse as the program approved in Opinion No. 11. GRI has undertaken an expensive effort of program analysis and evaluation, but the results are not yet embodied in GRI's plan and program.

California suggests that the Commission "now let it be known" that it will assign and enforce priorities if GRI fails to do so. Staff requests that GRI be directed to comply with Stipulation 8.[14] Michigan supports Staff's request.

We will not take on the task of assigning priorities ourselves, as was suggested by California. That is a task which belongs to GRI. If GRI proves to be unable to perform it, we may be put in the position of having to disapprove a GRI program, but we shall not take over GRI's functions.

It is premature to face the problem at this time. As we have discussed previously, GRI's initial program was approved only last March. The requirement for setting priorities, though it is a sine qua non of an R. & D. organization, must be applied with reason during this formative period. It would be premature for us to demand perfect, full-blown compliance with Stipulation 8 now. We will adopt the recommendation of the staff and Michigan, however, and call GRI's attention to our admonishment that priorities be assigned. We direct GRI to assign priorities in its 1980 program in accordance with the provisions of the stipulation and agreement approved in opinion No. 11.

E. Stipulation 14—nonjurisdictional sales

Stipulation 14 commits GRI to using its best efforts to spread the cost of funding over the largest possible base of jurisdictional and nonjurisdictional services.[15] Additionally, the stipulation contains specific provisions detailing GRI's obligations regarding two principal categories of nonjurisdictional services: intrastate sales by pipelines and distributors and direct sales to large industrial users by interstate pipelines.

GRI is committed to use its "best efforts" to add intrastate distributors and intrastate pipelines as funding members of GRI. As for direct sales, GRI is obligated to include in its "funding services" a minimum percentage of the volumes of gas sold by GRI's interstate pipeline members to their direct sale customers, exclusive of sales for electric generation. The minimum percentage of direct sale volumes which must be included in GRI's funding services started at zero for GRI's first year and goes up each year until it reaches 90 percent. For 1979, the minimum is 20 percent.

As evidence of its satisfaction of Stipulation 14, GRI points out that it included in its calculation of funding services 50 percent of the intrastate gas of GRI members, and it included 20 percent of its members' direct industrial sales volumes.

GRI derives its funding unit in a straightforward manner. First, it determines the amount of money it will need to have contributed by its members. GRI calls this its "funding requirement". Then, GRI determines the volume of gas sold by its members which will be available for the collection of the funding requirement. These volumes are called "funding services". The "funding unit" is then derived by dividing the funding requirement by the funding services.

In its application, GRI divided its 1979 funding requirement of $39.7 million by 11,183 Bcf of funding services to derive its requested 3.6 mills per Mcf funding unit. The 11,183 Bcf included 815 Bcf representing 50 percent of members' intrastate sales, and it included 88 Bcf representing members' direct industrial sales. If these direct sales and intrastate volumes had not been included in the funding services figures, there would have been less gas over which to spread the $39.7 million funding requirement, and GRI's proposed 1979 funding unit would have been 3.9 mills per Mcf rather than 3.6 mills. Thus, inclusion of the nonjurisdictional volumes in funding services resulted in a savings to jurisdictional gas customers of approximately $3 million.

GRI concluded in its application that this showed it was satisfying Stipulation 14: "GRI submits that these factors demonstrate full satisfaction of the obligations GRI previously undertook in Paragraph 14 . . . ."

At the time it filed its application, GRI realized that assuming 50 percent of members' intrastate sales would be available to collect the funding unit in 1979 was a guess. GRI's bylaws provide that a member has no obligations to make contributions to GRI until the regulatory body having jurisdiction over the member has authorized it to collect from ratepayers the amounts to be contributed to GRI.[16] In many cases, the requisite State and municipal regulatory approvals had not been obtained by GRI's intrastate members.

Since it filed its application, GRI has obtained additional information on how much nonjurisdictional gas will be available to carry its funding unit. California and Michigan point out that the more recent data shows that approximately 40 percent of direct industrial sales will be available in 1979 to bear the GRI funding unit, but significantly less than 50 percent of intrastate sales will be availble.

None of GRI's members that have significant intrastate volumes have yet fully arranged with their state commissions for their intrastate sales to carry a GRI funding unit in 1979. As of September 1, 1978, however, five of the 28 GRI members with intrastate sales have agreed to make contributions in 1979 of specific dollar amounts totalling $1,119,000 in lieu of contributins based on a funding unit. GRI now estimates it will receive $1.5 million to $2.0 million from intrastate gas sales in 1979, rather than the approximately $2.9 million it originally expected.

California urges the Commission to adjust the quantity of direct industrial sales included in 1979 funding services from 20 to 40 percent. California believes it would not be appropriate to reduce the proportion of intrastate sales below 50 percent, however, and asks the Commission to place GRI on notice that even higher percentages will be included in funding services in future years. California believes this will give GRI a "practical incentive" to fulfill its best efforts commitment.

Michigan also believes that 40 percent of the direct sale volumes should be included in GRI's funding services. Michigan notes that 20 percent is the *minimum* percentage of direct sale gas which is to be included in funding services for GRI's second year. If actual nominations reach a higher percentage, it is that higher percentage which is to be used.

Turning to intrastate sales, Michigan questions how aggressive GRI has been in encouraging the participation of intrastate utilities and pipelines. Michigan, further, questions the support GRI has obtained thus far from its intrastate members. Although five have agreed to contribute to GRI, they have only agreed to contribute flat dollar amounts. They have not agreed to contribute an amount calculated by multiplying their funding services volumes by GRI's funding unit.[17] Thus, Michigan observes, we do not know what the five companies would have contributed if they were contributing on a funding unit basis, nor do we know the amount of intrastate volumes the five companies represent. Michigan notes that it will be difficult to monitor GRI's progress in complying with Stipulation 14 without calculating the percentage increase in volumes from one year to the next.

Finally, we do not know how the five intrastate companies will allocate the amounts they will contribute among their customers. This is important, Michigan cautions, since reliance on a funding unit applied to funding service volumes assumes that the burden of funding GRI is shared fairly by natural gas consumers.

Michigan suggests that if GRI's performance does not improve, it may be necessary to impose a minimum percentage requirement for including intrastate volumes in GRI's funding services. Michigan does not suggest that be done now. Rather, it proposes that GRI's progress should be monitored carefully when GRI files its next application.

In sum, California and Michigan are concerned about GRI's compliance with Stipulation 14 and want its progress to be watched closely. Additionally, they want the percentage of direct sales volumes increased from 20 to 40 percent, thereby increasing the total amount of nonjurisdictional volumes included in GRI's funding services.

GRI not only asks that the nonjurisdictional volumes not be increased, but it asks, in effect, that they be reduced. Staff reviewed GRI's calculation of funding services and found that some adjustments were necessary. As a result, GRI's total funding services figure was increased by 180 Bcf.[18] Since this increased the volumes over which GRI's $39.7 million funding requirement could be spread, the consequence was to decrease the 1979 funding unit from the requested level of 3.6 mills per Mcf to 3.5 mills.

GRI does not contest any of staff's adjustments. Instead, it points out that it now estimates it will only receive $1.5 to $2 million from intrastate sales rather than the nearly $3 million it anticipated when it filed its application. Thus, it faces on the order of a $1 million shortfall in revenue. To make this up, GRI asks that the Commission approve the originally requested 3.6 mills per Mcf funding unit rather than staff's 3.5 mills.

A tenth of a mill increase on the funding unit would result in nearly a million dollars more being collected from contributing GRI members. GRI's request for a 3.6 mill per Mcf funding unit is, therefore, tantamount to lowering the percentage of intrastate sales included in funding services from 50 percent to approximately 30 percent. If the volume of intrastate sales included in funding services were so reduced, the total amount of funding services would be reduced, and the funding unit per Mcf of funding services would be increased by .1 mill per Mcf.

Thus, there are two questions before the Commission: (1) Should the minimum percentage of direct sale volumes, exclusive of sales for electric generation, be increased from 20 percent to 40 percent as urged by California and Michigan? (2) Should the percentage of intrastate sales volumes be effectively decreased to something like 30 percent by approving a 3.6 mill per Mcf funding unit, as requested by GRI?

Regarding the direct sale issue, insofar as GRI is effectively asking for a net reduction in non-jurisdictional volumes included in funding services, it opposes the increase in such volumes which would result from including 40 percent rather than 20 percent of direct sales volumes. GRI pleads that it not be subjected to the possibility of a shortfall in revenues.

GRI also points out that while it is true that 40 percent of 1979 direct sales volumes, exclusive of sales for electric generation, will, "in all likelihood", be available to carry the GRI funding unit, "the total volume of such sales is expected to be somewhat less than 1976 volumes" used in GRI's original application. GRI provides neither the projected 1979 volumes nor the basis for the projection. We note, however, that it does not allege that by 1979 direct sale volumes will have dropped so much that 40 percent of 1979 volumes will be close to 20 percent of 1976 volumes. We are only told that 1979 volumes are expected to be "somewhat less" than 1976 volumes. The drop from 1976 to 1979 may be inconsequential.

In any event, this issue is inconsequential. Our calculations show that, using staff's corrected figures, if 40 percent of 1976 direct sale volumes, exclusive of sales for electric generation, were included in funding services

---

[14] GRI's response to staff's criticism that it has made little progress in assigning priorties is that staff uses the word "project" in a way different from how it is defined in the Stipulation Agreement. In the Agreement "project" is defined as a "collection of work elements or contracts aimed at achieving a single, stated R. & D. goal." GRI says that staff's criticism amounts to nothing more than a recommendation that GRI assign priorities to sub-projects or contracts (work elements). Review of staff's report and of GRI's 1979 program indicates not only that staff was correctly using "project" but that staff's comments regarding the assignment of priorities are correct.

[15] Stipulation 14 is as follows:

14. In each of its annual applications for continued funding of ongoing projects, and for initial funding of new projects, GRI is and will continue to be committed to use its best efforts to spread the cost of its funding over the broadest possible base of jurisdictional and nonjurisdictional services as contemplated by its by-laws and funding formula. To this end, GRI will use its best efforts to gain further intrastate utilities, including intrastate pipeline companies as funding members of GRI. Furthermore, GRI is willing to undertake, as a condition to any such further approvals, to include within its funding services for use in computing the funding units (per Mcf charges), at a minimum (in the event that the actual nominations for such year do not reach such volume on an industrywide basis) the following percentages of natural gas volumes sold, in interstate commerce, directly for ultimate consumption by GRI's interstate pipeline company members but excluding interstate direct sales for electric generation:

	Percent
1st year	0
2d year	20
3d year	40
4th year	60
5th year	70
6th year	90

GRI is also willing to undertake as a condition to any further approval that the funding required by such minimum industrywide percentages shall in fact be forthcoming from and provided by its members.

[16] Subsection 3.3.2 of GRI's bylaws, Exhibit 7 to GRI's application.

[17] These are the rules of § 4.1.2.2. of GRI's funding formula establishing the amounts intrastate pipelines or distribution companies are to contribute to GRI:

If all of the supplies on an intrastate pipeline or utility come from nonmembers of GRI or from its own production facilities, then all of its sales of every kind shall be "funding services", and the amount to be contributed to GRI is to be determined by multiplying the funding services by the GRI funding unit, e.g., 3.6 mills per Mcf for the year. Of course, nothing has to be contributed if the appropriate State regulatory commission has not authorized the intrastate company to collect the funding unit from its customers.

If more than 10 percent but not all of an intrastate company's supplies come from nonmembers or its own wells, only the volumes coming from the nonmembers or the company's own wells will be "funding services".

If an intrastate company receives 10 percent or less of its gas supply from nonmembers or its own wells, then none of its volumes are classified as "funding services", and it may remain a member of GRI even if it does not contribute. The reason for this is that the overwhelming preponderance of its supplies will then be coming from GRI members such as interstate pipelines which have already contributed to GRI on the basis of the volumes sold to the intrastate company, and a basic principle underlying GRI's funding formula is, according to section 2 of the formula, that "only one increment of cost will be borne by each element of the gas stream on its way from well to burner tip."

[18] GRI's total funding services volume was increased by staff from 11,183 Bcf to 11,363 Bcf. This 180 Bcf increase reflected a 75 Bcf increase in amount of interstate pipeline volumes available to GRI and a 105 Bcf increase in the amount of intrastate sales which would be available.

Staff's adjustments to the funding services of the interstate pipelines were based on 1976 Form 2's. 1976 was used since that was the year used by GRI. Staff's adjustments were made to reflect the addition of new members, to include the sales of some nonmembers, and to avoid duplication of sales as funding services.

Staff adjusted GRI's intrastate sales figures to include estimates for three companies, which had been left out by GRI. The other adjustments were based on refined data which GRI supplied to the staff in a July 19, 1978 letter.

Staff assumed, as had GRI in its application, that 20 percent of direct industrial sales should be included in funding services and 50 percent of intrastate sales should be included.

V 43 / 191

rather than 20 percent, the total funding services would be increased by only 95 Bcf to 11,458 Bcf. This increase is so slight that GRI's 1979 funding unit would still compute to be 3.5 mills per Mcf.[19] Nevertheless we advise GRI that in filing future annual applications, if actual nominations of direct sales volumes, exclusive of sales for electric generation, are projected to be higher than the minimum percentage for the year for which GRI is filing, then GRI shall use the higher projected figure rather than the minimum percentage set forth in Stipulation 14.

As for GRI's plea that we approve a 3.6 mill per Mcf funding unit for 1979, we, again, observe that the effect of this is to reduce to roughly 30 percent the amount of intrastate sales included in funding services. GRI proposed including 50 percent in its original application. The initial comments filed on July 28, 1978, were filed in the belief that GRI was proposing 50 percent. Staff's report presumed 50 percent as did the state commissions' comments filed on September 1, 1978. Only California, filing on September 8, 1978, could have know of GRI's September 1, 1978, plea for 3.6 mills rather than staff's 3.5 mills, and California specifically states that it opposes any reduction in the percentage of intrastate sales included in GRI's funding services.

We are not able to approve a 3.6 mill funding unit on the basis of the record now before us. Neither the State commissions nor staff, however, objects to a finding that if GRI includes 50 percent of intrastate sales in funding services, GRI has satisfied Stipulation 14 for at least this year. Staff's 3.5 mill per Mcf funding unit presumes inclusion of 50 percent of intrastate sales in funding services. Accordingly, we shall approve it.

We are sensitive to the problem of insufficient funding which GRI says it faces with a 3.5 mill funding unit. We note, however, that, under the terms of GRI's funding formula, any deficiency in contributions experienced in 1979 can be made up by increasing the 1980 funding unit by enough to recover the deficiency.[20]

F. Stipulation 16—30 day limitation

Stipulation 16 provides that amounts collected by interstate pipelines as a result of including the GRI funding unit in their rates must be conributed to GRI within 30 days after collection.[21] Staff noted that GRI's first surcharge, 1.2 mills per Mcf, became effective on most pipeline systems on June 1, 1978. While staff found no indication that Stipulation 16 is not being followed,[22] staff urged that GRI be directed to report to the Commission if it has reason to believe that collected funds are not forthcoming. No party opposed staff's recommendation. Accordingly, the Commission shall modify Stipulation 16 of the September 30, 1977, Stipulation and Agreement in the manner suggested by staff.

G. Summary

The Commission finds that GRI has substantially complied with the provisions of the Stipulation and Agreement other than Stipulation 8, pertaining to the establishment of priorities. For the reasons stated above, we will not require full compliance with that Stipulation now but will readdress the compliance issue in connection with GRI's 1980 application.

III. THE DEFINITION OF "RESEARCH, DEVELOPMENT AND DEMONSTRATION"

In its August 11, 1978 report, Staff analyzed whether all of the individual projects in GRI's program conformed to the definition of R.D. & D. in the Commission's Regulations.[23] Staff concluded that the projects in the Supply, Operations-Distribution, Conservation and Basic Research categories were consistent with the definition, but certain projects in the Economics and Systems Analysis area were difficult to classify as R.D. & D. activities.

The definition of "research, development and demonstration" provides that the term includes "preliminary investigations and detailed planning for specific projects". In Order No. 566 the Commission explained that the definition does not include investigations and planning activities "where they are of a general nature or where they are preliminary to the determination to proceed with a project."[24]

Staff cited two projects ("work elements" in GRI's terms) as examples of projects in the Economics and Systems Analysis area that in staff's view were so general in nature as to appear to be outside the definition of "R.D. & D.". The first was the "World-wide Natural Gas Assessment" project, the objective of which is to carry out a world-wide assessment of recoverable volumes of natural gas. The second project was "Gas Supply Modeling". Its objective is to develop a gas supply model to be used to determine the need for supplemental supplies and to determine the price of the supplies to various end users.

[19] The calculation of GRI's funding unit if 20 percent of 1976 direct sales volumes, exclusive of sales for electric generation, are included in funding services is as follows: Funding requirement ($39,700,000) divided by test year program funding services (11,363 Bcf) equals funding unit ($0.00349/Mcf; rounded to $0.0035/Mcf or 3.5 mills per Mcf).

Using 40 percent of 1976 direct sales volumes, exclusive of sales for electric generation, results in the following calculation: Funding requirement ($39,700,000) divided by test year program funding services (11,458 Bcf) equals funding unit ($0.00346/Mcf; rounded to $0.0035/Mcf or 3.5 mills/Mcf.

Section 3.7 of GRI's funding formula requires that each R. & D. funding unit will be rounded to one-tenth of one mill.

[20] Section 6.1.3 of GRI's Funding Formula provides that there shall be added to the amount GRI needs to have contributed during a coming year * * * that amount of money which the Board estimates will be required at the commencement of the funding period in order to offset operating deficiences in prior periods and restore liquid balances and reserves for contractual and other obligations to reasonable and necessary levels.

[21] The text of Stipulaton 16 is as follows: 16. It is understood and agreed that amounts collected by GRI's interstate pipeline members and attributable to the inclusion of an approved GRI Funding Unit in such member's rates shall be paid over to GRI within 30 days of collection.

[22] By terms of Ordering Paragraph (F) of Opinion No. 11, the R. & D. cost adjustment clauses applicable to payments to GRI are to provide that collections made under the clauses "shall be remitted to Gas Research Institute within 30 days."
